CAMPAIGN OPENS TO RAISE FUNDS FOR T. B. WORK

Belleville-Nutley Association Seeks \$5,000; Mail Over 7,100 Sheets of Seals

"The spirit of Christmas wakens again the desire to help protect our fellowmen from that dreaded menace — tuberculosis," says the Belleville-Nutley tuberculosis association announced its annual sale of Christmas seals in thousands of letters mailed yesterday afternoon in the two towns.

The association sent out 3,263 sheets of seals in Belleville and 3,853 in Nutley. The two campaign committees made a thorough study of the mailing lists this year and deleted the names of hundreds who have resisted sales in past years. The association realized \$2,404.52 last year, \$1,796.62 of which was raised in Belleville. They seek \$5,000 this year, \$2,500 from each town.

Eugene T. Berry, president of the association, is chairman of the Belleville drive and Health Officer Richard V. Fellers is directing the work in Nutley. The letter sent out yesterday continues:

"Again the Christmas Seals enable you to carry through that mission of mercy. The use of this seal on your Yuletide mail is your thoughtful interest and a herald of hope to the sick and suffering. To broadcast this cheer in your own town, buy Christmas seals.

"Only the seals bought in your own town benefit your local Tuberculosis Committee which holds three clinics each month and this year has had under observation or care 267 Belleville residents."

Help Address Envelopes

Students in the high school and in St. Peter's Parochial School helped the local committee by addressing envelopes and by inserting the letters and seals into them. The following members of the Woman's Club also helped yesterday in the latter operation: Mrs. Elmer S. Hyde, Mrs. Raymond J. O'Brien, Mrs. Elmer Bagnall, Mrs. Frederick Idenden, Mrs. Robert L. Lunsford, Mrs. Frederick Gronoff, Mrs. F. Kenneth Mase, Mrs. J. Harry Edwards, Mrs. A. K. McBride, Mrs. John E. Pole, Mrs. Willard Y. Strange and Mrs. F. E. Dodd.

DELINQUENT TAX SALE SMALL

Fleming Reports Lowest Sale in Some Years; Thirty-Five Parcels Sold

This year's sale of property to clear delinquent taxes was the smallest in the town's history, Deputy Tax Collector Thomas W. Fleming said Monday after the sale. Thirty-five parcels with a total of \$7,542.68 due on 1939 taxes, assessments and water bills, were sold.

The town took over the titles of twenty-two of the properties with \$4,076.98 standing in the books against them. Thirteen of the parcels were bought by private individuals. The taxes due on the thirteen amounted to \$3,564.70. The sale was conducted by Fleming and Tax Collector William C. Knapp.

"Improved business conditions and intensified tax collection efforts" were said by Fleming to be the cause of the small sale this year. Last year there were fifty-nine parcels sold and the year before 150.

May Become Junior High School

This is School No. 8 in Union avenue adjacent to Clearman Field which would become a junior high school if the Board of Education should adopt the suggestion of Dr. O. P. Dales, school survey expert. He recommended the change as a solution to one of the system's main problems — the crowded condition in the high school. It would then house those in the seventh, eighth and ninth grades. Those in kindergarten through the sixth grades there would be transferred to Schools No. 1, 3, 4 and possibly 5 under Dr. Dales' plan. An addition of five or six rooms, which would be needed, could be built out over the driveway shown in the picture. The school now has twenty-one classrooms, an auditorium and the offices of the Board of Education.

TEACHERS' PLEA BEING STUDIED

Ask Board To Discard Merit System Used In Determining Salary

The Board of Education is in a deep study after receiving recommendations Monday night from a three-man committee representing the teachers of the public school system of the town. If the board decides to adopt the suggestions of the teachers, the disliked merit system of determining teachers' salaries and pay increases will be junked and an "automatic schedule" will be substituted.

The board met in a special conference Monday to discuss the problem with Edward Coughlin, Miss Lillian Bechtoldt and Mrs. Anne Snedeker, spokesmen for the Belleville Teachers' Association. Before the long conference was over, it was pointed out that the number of pupils on an average and yet receive the lowest average salaries (\$1,611 in Essex County). The association made similar demands several years ago and this time the board once again promised to study the proposals.

Want New Pay Basis

At the present time the teachers are paid on the so-called merit system under which administrators rate their work and their salaries are increased accordingly. The association recommends that salaries be based on training and years of service.

It suggested a scale to be used as a basis for negotiation. It is based on the number of years of training which each teacher has had for his job. It includes the proposed starting salary and also names a maximum to be reached in \$100-a-year increases after the second year. The scale:

2 years	\$1,200	\$2,500
3 years	1,300	2,800
4 years	1,400	3,100
5 years	1,500	3,400

Only fourteen teachers are now receiving salaries equivalent to this table, Coughlin charged. There are 169 receiving less than the table calls for and only twenty-one getting more. He figured that the switch to the automatic increases would cost the town an additional \$17,000 in the first year.

Coughlin gave eight reasons for the preference for the automatic increases over the merit system:

- 1) a teacher's salary cannot be measured objectively, according to the NEA;
- 2) merit rating weakens morale;
- 3) merit rating stimulates unhealthy competition among individuals;
- 4) merit rating endangers retirement payments;
- 5) it does not attract good teachers;
- 6) automatic increases give the young teacher assurances for the future;
- 7) they would give administrators more time for other duties and aid budgeting;
- 8) teachers do not have the means to achieve economic independence as do private business employees.

In reply to a query by Walter Gilby of the board, Coughlin said that the teachers "desire \$100 increases per year" instead of \$50 but are willing to discuss the point. The new plan would mean a six-joint increase in the tax rate, James M. Lynch of the board pointed out.

Mrs. William V. Irvine Is General Chairman of Event to Be Held Wednesday and Thursday At The Clubhouse; Many Are Participating

The Woman's Club at 51 Ross more place will be a blaze of color and light next Wednesday and Thursday when the town's leading women's organization sponsors its most ambitious undertaking in many years, a Dream Carnival. The carnival will be a "real prelude to the Christmas season," in Mrs. Irvine's opinion. "The Christmas theme will predominate in the decorations. You will be able to do much of your Christmas shopping at the different novelty booths. You can place orders for candy, fruit cake, flowers, wreaths and decorative trees for delivery just before Christmas."

Luncheon will be served at 12 noon and supper from 5:30 to 8. The carnival will be open to the public all afternoon and evening on both days. Nearly every club member is participating in the arrangements for the event in some way.

FIRST MEN LEAVE TOWN TOMORROW FOR THE ARMY

Eleven, All Volunteers, Will Depart; Veterans To Take Part In Ceremony

Town officials and members of the Veterans of Foreign Wars and American Legion will gather in front of Town Hall tomorrow morning to give an official send-off to the first eleven Bellevilleites to leave for Fort Dix under the Selective Service law.

The ceremonies will last about a half-hour and then the eleven will be off for the first contingent of local citizens ever enrolled in a peacetime military conscription.

All the commissioners are expected to be present and Mayor Williams will make a brief address. Veterans will attend in uniform and the American Legion will present each of the eleven with a pen on which his name has been inscribed.

At 8:45 the men will depart for the Newark induction station in the 13th Infantry Armory at Sussex avenue and Jay street. There they will be sworn into the nation's armed forces and will remain for several days while undergoing the ultra-stiff army medical examination. In case any of the eleven should flunk this last test, five alternates have been named for immediate call. It is expected that the Belleville men will leave for Fort Dix on Monday.

The eleven men scheduled to leave tomorrow, all of whom are volunteers, are: Edmund Strjwewski of 466 Joralemon street, Bernard J. Barnett of 11 Minker place, Kenneth H. Bedford of 33 Perry street, Theodore P. Sanok of 16 Montgomery place, Carmen Cerlingione of 13 Brook street, Lucian A. Bailey of 125 Bell street, Joseph S. Nowakowski of 357 Washington avenue, James A. Finnegan of 93 Belmont street, Thomas J. McEney of 34 Fairway avenue, Andrew P. Marone of '88 Dow street, Walter W. Francis of 181 Hornblower avenue.

One of the alternates is also a volunteer: Fred J. Vogel, Jr. of 22 William street. Several volunteers failed to pass their physical examinations by the local board. The other alternates are Vincent R. Cassidy of 39 Ralph street, Edward J. Feeney of 24 Prospect street, Marcus A. Rubin of 375 Washington avenue and Charles T. Adams of 12 Ralph street.

Three more registrations received this week by the board bring the total number of local men eligible for conscription to 3,703. The new registrants are, with their order and serial numbers:

401-A-3701 John G. Kondrack of 143 Ralph street, 1872-A-3702 William McCluskey of 45 Harrison street, 2757-A-3703 Joseph W. Priestner of 43 Baldwin place.

The conscripts were regaled with an impromptu entertainment presented last night at a smoker in Veterans' Hall by the VFW. Refreshments were served.

TOYS, CLOTHING ARE SOUGHT

Welfare Department Wants Them For Distribution Before Christmas

The Municipal Welfare Department yesterday started a campaign to collect quantities of old clothing and toys from those who no longer need them. They will be cleaned and repaired and given to the poor through the department, Overseer of the Poor John J. Hewitt said. He will be assisted in the work by Miss Doris Schaffner.

Hewitt said that the department is seeking warm winter clothing particularly — children's leggings, overcoats, suits and dresses. Toys will be repaired by relief people and distributed just before Christmas.

It is not necessary to bring the things to welfare headquarters at 250 Mill street, Hewitt said. A postcard or a telephone call will bring a welfare truck to the home to pick up the articles.

"Many people have clothes which they themselves no longer wear or which their children have outgrown," Hewitt said. "Other less fortunate families can use those things. Just call our department and we will pick them up."

SCHOOL CONTROL IS OPPOSED

Valley Improvement Group Against Board of Education Handling Turf Bog Stadium

The Valley Improvement Association was the first civic body to take a stand on the ultimate disposition of the new Municipal Athletic Field at the Turf Bog. In a letter to the Commission written on Sunday the association voiced opposition to allowing the Board of Education to take over the field. The letter was signed by Mrs. Mary J. Peck of 273 Main street, secretary. It read:

"It has been called to our attention that the bog is to be taken over by the Board of Education. By doing this the field would be available only to the high school varsity football and baseball teams and to the various manufacturers' and recreational leagues of the town.

"The younger children would have no place for outdoor recreation. They are not allowed in Clearman Field because they would ruin it for the high school teams and if the bog is put under the supervision of the board the same thing would happen. They would have no place to go."

"As a civic organization we think that some consideration should be given to the younger children before proceeding with the plan."

Duplicate letters are also undelivered to have been sent to individual commissioners, notably Parks and Public Property Director Noll, head of the Recreation Department. The Commission ordered the letter acknowledged and filed.

The Commission took the first step Tuesday night in granting Joseph Melchior permission to build a gasoline station at Main and Little streets. NO MORE PITCHING WOO IN TOWN

Board Introduces Measure To Curb Neckers, Corner Cowboys, Et Al On The Streets

Lovers who choose parked automobiles — or public buildings — to pitch their woo have less than two weeks of grace before the heavy hand of the law falls on their necks. The Commission introduced and passed on first reading Tuesday night an ordinance which is designed to "prevent vice, drunkenness and immorality, to preserve public peace and good order, to prevent and quell riots, disturbances and disorderly assemblages and to prevent loitering and lounging in the streets, parks and public places."

Not only the heavy pelters are affected, but so are the corner cowboys, John Barleycorns, curbside quarterbacks and radicals who want to overthrow the government. Final hearing on the ordinance is scheduled for December 10 and after that date, should the bill be passed, stiff penalties will be meted out to offenders.

Town Attorney Keenan drew up the ordinance. He said that police had complained that, when they ordered loiterers to "move on," the usual comeback was "It's not against the law." The ordinance passed first reading unanimously.

Under the proposed law the police will have the power to arrest "person or persons" loitering or assembling in streets or on street corners, in front of any building or "in any parked automobile." Persons who "utter any loud, indecent, abusive or offensive language or address or make any offensive remarks or comments to or upon any person" in a public place will lay themselves open to heavy fines or jail sentences.

Carries \$50

The penalty for the first offense will be a fine of \$50 or ten days in jail. After that the fine can be fined \$200 or jailed for ninety days for each subsequent offense. Police have been the recipients of countless complaints of youths hanging around the front of merchants' stores and that is believed to be the cause of the Commission's move.

Office Hours For Selective Service Board Changed

The office hours of the local Selective Service Board have been changed, Chief Clerk Edward Reed announced yesterday. The office will be open in the future from 1 to 5 daily, Monday through Friday, and Tuesday evenings from 7 to 9.

Reed pointed out that it is not necessary to return the questionnaires directly to the board office. There are four members of the Advisory Board in Town Hall daily. They are Arthur S. Ackerman, Thomas W. Fleming, Frederick B. Handlon and Matthew J. Sheehan. There have been 450 questionnaires mailed out to date.

Busch & Sons, Newark jewelers whose new store at Broad and William streets, is one of the showplaces of Newark's shopping area, is celebrating its sixtieth birthday anniversary. The store was founded in November, 1880 by George J. Busch, Sr., at 48 Market street. There are now two stores in Newark, the other at Springfield avenue and High street, and a suburban store in Summit. The stores employ more than forty expert craftsmen and exhibit more than 20,000 items of merchandise.

Mr. Busch, Sr. arrived in Newark from Europe with \$2 in his pockets. In less than a year he bought the original Busch store for \$500 on credit. In 1900 the building across the street, the

Belleville Youth At College

building at No. 55 Springfield avenue was purchased. It was the first store above High street to install electric lighting.

In 1925 George J. Busch, Jr., now president of Busch & Sons, entered his father's business, and in a few years the Springfield avenue store was enlarged three times. During the bank moratorium the firm acquired the business of the late Norbert Bert, then Busch's largest competitor.

Montclair Stock Company Will Offer Actors' Chance

"Despite the fact that producers are constantly crying for new faces, for great talent, there are thousands of fine actors who can't even get a hearing from these same producers," declared Walter Walters, manager of the Theatre Group Players at the Montclair Theatre.

"Here at the Montclair Theatre," Mr. Walters went on, "we plan to present these professional men and women who, with the right opportunity will be the stars of tomorrow."

"The experience of Helen Craig, star of 'Johnny Belinda,' is a swell example. Helen's been playing around these parts for years. She was never given much of a chance to show what she could do because she was always in plays starring big names. Then suddenly she gets a break on Broadway and everybody hails her as an acting sensation. She was just as talented one or two years ago as she is today, but no one paid any particular attention to her then."

Cannot Sell For Less

"We cannot sell for less than the amount owed the town," the Mayor declared.

"You mean you will sell for \$308?" D'Avella asked.

"And forty-eight cents," added Williams.

VOTE DEMOLITION OF 3 HOUSES

One On Main Street Landmark Which Was Home of Prominent Families

A Commission that is becoming demolition-minded this week ordered three more "shacks and fire-traps" to be torn down. The properties are at 99 Magnolia street, 35 Greylock place and 211 Main street. Out of the discussion on the first property came a decision to advertise all demolitions and from the second arose charges of "confiscation."

Alfred Greik appeared before the Commission and offered to pay the town \$25 for "demolition privileges" to the Magnolia street building. Greik proposed to retain the salvage. The firm of Charles Cuzzo had previously been given permission to take down the house "at no cost to the town." He also would gain possession of the salvage.

Mayor Williams declared that "this is the first time the town would be paid for such a job." He stated that it might pay the town to advertise for bids on all such jobs and accept the best offer. The other commissioners concurred and the policy was adopted.

During the course of the discussion all the commissioners publicly voiced their beliefs that "there are a lot of shacks and dilapidated buildings in this town which ought to be torn down." They seemed to agree that a moderate policy of demolition should be carried out.

Charges Confiscation

Thomas C. D'Avella attorney for Joseph Citarella of 35 Greylock place, hurried charges of "confiscation" at the Commission during the hearing on his client's bid to buy the property from the town for \$200.

He said that the man, who was not named in the discussion, owned the property for forty years before the town foreclosed for delinquent taxes last year. The commissioners declared that the building was "unsightly and ought to come down." D'Avella agreed to that term and said demolition could be made a condition of sale.

Then the commission balked at selling for \$200. "There are back taxes amounting to \$308.48 on that property," Commissioner Waters said. "Do you expect the town to lose that money?" Mayor Williams also pointed out that the tenant has not paid any rent since the town took over the property.

Commissioner Noll said that the improvement at the Turf Bog and the proposed extension of Greylock parkway "would improve the value of the property." "In that case," D'Avella declared, "the man who paid taxes on it for forty years should reap the benefit."

"We cannot sell for less than the amount owed the town," the Mayor declared.

"You mean you will sell for \$308?" D'Avella asked.

"And forty-eight cents," added Williams.

"And \$25 costs of sale," added Town Attorney Keenan. "We'll take it," D'Avella declared without a moment's hesitation. It was decided to put the property up for public sale and that demolition would be one of the conditions of sale.

MAYOR OUTLINES DEFENSE PLANS FOR THE TOWN

Discusses Problems That Confront Organization of Defense Council

A complete picture of the defense work being done by the town along the lines outlined by Governor Moore was given by Mayor Williams when he spoke at the Americanization night meeting of the Elks Club recently. The text of his speech follows:

"In organizing a local Defense Council, every effort should be made to use the regular governmental machinery, and the appointment of special commissions with executive power should be avoided. Administrative experts agree that emergency groups whose work parallels that of established government departments create unnecessary difficulties.

"We have already made arrangements for augmenting our regular Police Department with an addition of 200 ex-service men from the Belleville Post American Legion and the Younger Post of World War Veterans. This group to be an auxiliary to our regular Police Department.

"An analysis of first aid and hospital facilities, and training

for the use of volunteer help should be a part of the established health division of the committee rather than establishing a separate group of volunteers. Duplication of effort and confusion can be avoided.

"A disaster relief plan used as a blue print for emergency action will be developed. Character of types of disasters will be outlined to Police and Fire employees and to their auxiliary forces and all should have particular duties and thoroughly understand them. A survey of possibilities of disasters will cover possible sources and locations of fires, epidemics, floods and possible sources of sabotage. Consideration must be given to the expansion of Police and Fire Departments, locations of fire control units and costs, and replacement of men who may be called to the government service.

"Study of the municipal water supply, which is so vital to everyday municipal operation and to health control, must be made, as well as where auxiliary water supplies can be obtained.

F.B.I. To Hunt Spies

"Full hearted cooperation must be extended to similar County, State and Federal agencies, but we should not lend ourselves to organizing independent fifth column spy or alien hunting. This work can be properly handled through our local Police in cooperation with the Federal Bureau of Investigation to whom all disturbing phases of this character

should be promptly reported.

"An Advisory and Local Defense Committee can aid in obtaining the ability of citizens most helpful to act in advisory capacities and should be wholly advisory in the formation and recommendation of necessary plans and the administrative work should be left to the regularly appointed officials.

"Study is being given that hazardous defense industries should be located in communities where the hazards will be a minimum problem.

"I recommend that our Local Defense Council should be organized with approximately 9 committees who will organize to give study to the various subjects, Industry and Commerce, Transportation and Communications, Public Health and Welfare, Public Safety, Labor Relations, Technical Training and Education, Housing, Food Stuffs and Clothing, and Public Relations.

"These subjects at the moment appeal to me to be principal problems to study, create committees and their organization, and the appointment of persons to direct the efforts of the committees for the control of the above problems.

"All factories in Belleville have already been listed and study should be given to the types of products, capacity and a personnel of staffs. We have also listed all distributors of fuel, building materials, chemical products and dealers whose products may be converted to National Defense use.

Transportation Study

"Transportation facilities should be studied with a view to coordinating these services with similar services throughout adjacent areas. List of operating schedules, study of expansion of present day schedules, capacity of equipment, of municipal, utility companies and private owners should be made.

"Hospitals and clinics in the general vicinity to be tabulated, knowledge of their trained personnel, operating rooms and equipment, and buildings available for first aid purposes should be made. Physicians in all branches of medical practice, graduate and practical nurses should be registered, medical supplies and sources of same should be tabulated. Plans should be established for the welfare of those who may require temporary assistance as well as aged folk.

"The Department of Public Safety should be recognized as the agency to handle accidents in factories, homes and on the street. Plans should be made to coordinate all agencies to meet emergencies in which civilians may be forced to aid themselves in the purposes of military operations.

"Our two miles of river frontage has already been given consideration by the creation of a Coast Guard boat which has been equipped and will be available for protection of industrial plants along the river frontage and for inspection of river craft. Listing of all types of crafts on our two mile of river frontage and the uses to which they are used should be made.

"Labor Relations should be in the hands of a very competent committee so as to endeavor to maintain control between employees and employers. Survey should be made of the employed and unemployed workers, the skilled and unskilled groups, and all unemployed should be registered with analysis being made of their abilities and trainings.

"Consideration should be given to the activities of youth, so their efforts will be directed to constructive purposes. Analysis is available of all our educational facilities pertaining to the training of students along technical lines and consideration should be given to establishing close contact with industrial plants to ascertain any outlets for skilled or technically trained individuals.

Housing Facilities

"Housing facilities should be studied with detail consideration given to larger homes, apartment houses, rooming houses and their relation to existing and possible transportation facilities. Buildings and areas available as emergency shelters should also be listed.

"Consideration should be given to the demands that may be made for food and clothing required under actual war time conditions, and a systematic and practical method of collection and distribution should be organized, location of food distributors and wholesalers should be ascertained. Study should be given to the assembling and distribution of surplus food, unsalable and used articles of apparel for both men and women.

"Public Relations should be developed to enlist public interest and sympathy in the question of National Defense and a committee created for this work to act as a clearing house for all constructive suggestions.

"We must understand that the work of one committee will interlock with that of other committees and it is imperative that the utmost cooperation be developed so that duplication of effort, loss of time and the best results possible from the efforts of all will be obtained.

"I am attending a meeting Tuesday morning at Trenton of

the New Jersey State Defense Council which meeting has been called by Governor Moore to give consideration to suggestions for the proper planning of Local Defense Councils and we plan organizing our Local Defense Council very shortly.

It takes WALLOP to make a Champ!

YOU'VE got to have what it takes if you hope to be a standout in this man's country!

Lots of men—and lots of cars—have looked the part and talked the part—but just weren't there when the chips were down.

That's why you find Buick has dodged special devices and short-cuts in its great 1941 line of cars.

That's why we went right to the heart of the matter—and packed a bigger-than-ever wallop in that husky Dynaflex power plant.

It's that wallop that's making

Buick the value champion all over the country today.

The wallop that lets you travel farther on every gallon of gas—as much as 10% to 15% more miles on each gallon!

The wallop that swings you up the hills without ever touching the gearshift, that lets you throttle down in traffic to creep-speed, then lift away again still in high.

It's an exclusively Buick wallop—the wallop of FIREBALL design and Compound Carburetion, available in no other car on the market!

And if you think we're kidding about what these two things do, we're ready to show you with cold-turkey demonstration any time you say.

FLORENCE R. MOREY, Town Clerk.

AN ORDINANCE TO PREVENT VICE, DRUNKENNESS AND IMMORALITY, TO PRESERVE PUBLIC PEACE AND GOOD ORDER, TO PREVENT ANI- QUELL RIOTS, DISTURBANCES AND

DISORDERLY ASSEMBLAGES AND TO PREVENT LOITERING AND LOUN- GING IN THE STREETS, PARKS AND PUBLIC PLACES OF THE TOWN OF BELLEVILLE.

The Board of Commissioners of the Town of Belleville, do ordain: SECTION 1. No person or persons shall loiter or assemble in or about any street or public place or at the corner of any streets, or in or about the front of any building; or shall loiter in or upon any street or public place in any park, automobile or other vehicle; or utter any loud, indecent, abusive or offensive lan- guage or address or make any offensive remarks or comments to or upon any per- son or persons in any street or pub- lic place; or obstruct or interfere with any person or persons lawfully being in or upon any street, public place or building, under a penalty of not more than Five Dollars, or ten days in jail for the first offense, and not more than Two Hundred Dollars or ninety days in jail for each and every subsequent offense.

This ordinance shall take effect immedi- ately upon final passage and publication according to law.

The New Post Office Is Coming

Everything eventually comes to him who waits. Bloomfield, Glen Ridge, Kearny, Harrison and Nutley have been presented with new post office buildings within the past few years.

Last April we were approached on the subject of a new post office building and in this column we editorially ribbed Congressman Fred A. Hartley, who is a member of the committee on post offices, for being able to swing a new building for every hamlet in his district except Belleville.

Those interested in a new building were asked to write to him. The News interviewed a number of Belleville residents and sent their opinions on to the Congressman who in turn gave them to the Post Office Department officials in Washington.

Little Doubt About The Need

The Board of Education has been told for the third time within less than six months that Belleville needs a junior high school. Dr. O. P. Dales, survey expert hired by the board, informed them last week that he knew of no town which was better suited for the junior high plan and that the establishment of it would greatly relieve the overcrowding which now exists in the high school.

There was one significant fact contained in Dr. Dales' report. He told the board that a junior high school could be established without the erection of an entirely new school building. School No. 8 in Union avenue is adequately suited for such a purpose and with the addition of five or six classrooms would give the community an ideal junior high setup.

In recent months we have talked several times about the importance of considering the junior high school plan. Some have frowned on these thoughts and accused us of trying to promote a spending spree. In commenting on the State Department's report in July, we said in part:

"We do not put the stamp of approval on this report, but will say that giving our youngsters the best that is possible in the

about a new post office for some time to come.

It was, therefore, quite a surprise yesterday when Congressman Hartley informed this newspaper that the Post Office Department had approved the construction of a new building for Belleville and that he optimistically anticipated that Congress would grant the funds to erect it during its next session which will start in January.

It is through the Congressman's efforts that this civic improvement for Belleville is virtually "in the bag" and now it is up to us to make it definitely certain of being completed. Last spring we asked the residents to write to the Congressman urging that a new post office building be erected. Many of them did and because of the interest which he saw that the townspeople had in such an effort, Hartley went to bat and apparently convinced the Post Office officials that the need for a new building did exist. We now ask you to write him urging that the Congressional committee which appropriates the funds for the construction of these buildings lose no time in appropriating the money to erect the local structure. These appeals will help him in his effort to get quick action on securing the funds.

As we said early in the spring, when we first wrote about the post office, Belleville is a progressive community that is building toward something bigger and better every day. We think that it is deserving of a new post office building similar to those which have been erected in nearby communities.

essentials of public school education is quite vital. We do not favor penny-pinching there, although we quite frequently have found room for argument with some of the experiments and fancies of school administrators."

Again in October, we noted in this column that:

"Once again, however, we wish to make the point that this community not too far in the future must face the facts concerning a junior school if the educational wisdom of the State Department and experts and of our own superintendent of schools is to be regarded. While we often feel that the line can be drawn on some of the educational frills which educators frequently claim are so vital to the development of young people's talents, we believe that there should not be any shirking when it comes to establishing the basis for a sound progressive education program. The 7-3-3 program — which is kindergarten through sixth grade in the elementary schools, seventh through ninth in the junior high, and tenth through twelfth in the high school — was recommended by the State Department. It is in use in many of the communities in this section. It has proved to be an improvement over the system which is now in effect here."

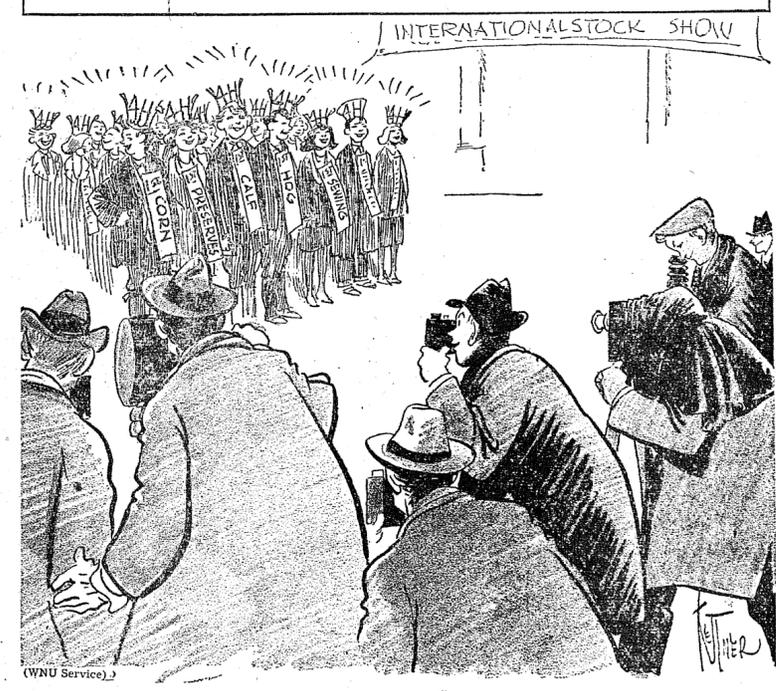

The Board of Education, as they should, frequently bring up the question of wishing to keep down their share of the tax rate. That is quite proper but we believe that the board will not find opposition to any plan from the public which proposes to improve the school system of which their children are a part. There is a distinct difference between the necessities and the extras of education. And any program which has had the endorsement of not one but three groups of school experts, deserves serious study.

Choosing The New Liquor Czar

Under the administration of the late D. Frederick Burnett, the State Department of Alcoholic Beverage Control was commendably supervised. It brought repeated praiseworthy comment not only from those in the various branches of the liquor industry but from the press. Mr. Burnett ruled with an iron hand over a business that needed just that to keep it free from politics and scandal.

Since his untimely death, the subject of a successor has been a frequent topic in political circles. The "professionals" see a green, fertile pastureland which was virtually untouched during Mr. Burnett's regime. Various groups hungrily yearn to gain control of it for with the wholesale and retail liquor industry they would have a powerful political weapon. In the caucus rooms there is talk of horse trading deals to gain the coveted honor of selecting the new State Commissioner of Alcoholic Beverage Control. It's a sort of "I'll give two of this and you give me one of that" type of bargaining.

Hugh D. Kittle was appointed principal of the high school by the Board of Education. He had been acting in that capacity since the retirement of William E. Holbert the previous June.

Belleville and Nutley talked of little else but the approaching football game between the two high schools. Each town expected to get \$3,500 with which to carry on its relief work. Belleville was not conceded much chance to win as it was in the midst of one of its poorest seasons.

Foot Collector Roy W. Brooks announced that he would retire December 1 in favor of William C. Knapp of 40 Malone avenue. Reappointed were Town Treasurer T. Russell Sargeant and Town Attorney John B. Brown.

Highlight of the Commission meeting was Commissioner Car- ragher to Mayor Kenworthy: "I made you what you are today — you're an ungrateful man."

William Weigman was reelected president of the Arrow Social Club; Daniel Byrne, treasurer; and William Connelly, secretary. Barnett Yudin's bid of \$1,175 for painting the interior of Town Hall and varnishing the woodwork was accepted by the Commission.

Eugene T. Berry, son of Mr. and Mrs. J. Thomas Berry of 557 Washington avenue, who went to Singapore nine months before to represent a New York firm as purchasing agent, arrived home saying he "may return to the Far East but will demand considerable inducements."

Twenty-five Years Ago

Eight families were made homeless as fire swept a row of frame houses in Main street near the foot of William street. The blaze started about two in the morning in the home of Frank Kankas and Kankas and two of his three children perished in the fire.

Politicians who are leaders of important machines in the state and whose activities in the past have not been of the purest are being mentioned as the men who will finally decide who will be the new czar of the liquor business. In one corner is a most successful South Jersey political leader with aspirations, while opposite him is the lieutenant of an overlord of the political regime in the northern part of the state. They both are determined to get the post.

The liquor industry must not fall into the hands of any political machine. To let it do so would eventually lower it to the level where there would be the scandals and the dealings which marked the Prohibition era. If politicians, particularly those who are now out in the cold when it comes to doling out patronage, would lift themselves above their own selfish interests for a moment or two once in a while and would think of the welfare of the State of New Jersey, they would select as the administrator of the liquor industry a man who is far from the field of partisan politics.

ESSEX COUNTY POLITICS

The views expressed in this column, are entirely those of the writer and not necessarily those of the Publishers or Editors of the Belleville News.

by Meador Wright

It's payoff time in politics. Having delivered the votes, the "boys" are out for their pay. The crucial moments of the great game of politics are at hand. Leading the Republican procession of boys who want their money and want it "damn quick" is Senator Arthur Foran of Hunteidon. Mr. Foran wants to be Alcoholic Beverage Commissioner at \$16,500 a year. His next choice is a place on the judiciary, the bigger the better. Thirdly, he wants to be a highway commissioner, assuming that a three-man board is created. From there on he wants whatever he can get, whensoever and where- soever. Reports have it that he is in line for ABC deputy at \$7,500 or thereabouts a year. That would be a terrible comedown for one so mighty, but then Aesop is the authority that it is better to be a live dog than a dead lion.

The latest tip has it that John W. Evans of Paterson will be the new Alcoholic Beverage Commissioner, although Controller Frank J. Murray of Orange is not out of the running. Senator Hendrickson has been mentioned as a compromise candidate but it seems doubtful if the present Legislature is in a mood to give any more major jobs to Gloucester County.

Democratic jobs in Essex cen- ter around two vacancies or supposed vacancies. One is Master of Chancery, vacant since the death of Francis Child. Average payment for this job is around \$15,000 a year. The other is the Common Pleas judgeship now held by Montclair's Dallas Flammigan. According to the rumor, Prosecutor William A. Wachenfeld will get either one or the other of these posts with Gerald McLaughlin being named prosecutor. The other is said to involve Governor Moore indirectly. Moore, it is said, will be named vice-chancellor. In that case the master in chancery might go to someone outside of Essex. Or it might possibly go to Moore.

Vanderbilt in Minority? Essex County Republicans are watching closely the organization of the new Board of Freeholders. The three men elected this month were nominated by the anti-Vanderbilt faction of the party. Mrs. Elizabeth A. Harris of Montclair likewise belongs to this group. Theoretically, this divides the board four to five. Some observers predict that eventually one of the present freeholders will go over to this group, placing Vander- bilt in a minority position.

Should this happen it probably would not be a complete break, but rather a gradual orientation away from complete Vanderbilt control. On the other hand, it is possible that one or more of the new members will subscribe to the present scheme of things. Political leaders in Essex are watching the moves of the Asso- ciated Willkie Clubs sharply. There is a lot of latent power in these organizations. Generally the leaders of the clubs in Essex are anti-Vanderbilt. If they exert any influence — and such influence were it exerted would be covert rather than open — it is likely to be against Vanderbilt rather than for him. Most observers pre- dict a sharp primary fight next year, although this is by no means certain. Primary elections will not be held until September. Much will have happened in the inter- im, including the commission election in Newark. The present aim of Clean Government is to get rid of Pearce R. Franklin.

Need Local Press

From Mrs. Lloyd R. Reeves, 84 Belmhor street To the Editor of The News: Personally and on behalf of the Council of Parent-Teacher Associations, I want to thank you for your most generous space and publicity, which you gave us relative to our "Union Parent Teacher Service."

This project was so entirely new that our people had to be sold on the idea and the fact that we were able to crowd Fesswirth out of the premises conclusively that Belleville does need its local press. Best wishes for your continued success.

Approves Editorial

From George A. Van Giesen, Cleveland, Ohio To the Editor of The News: I have read with interest and approval your editorial "They Are Poor Losers" in your issue of November 19. You are absolutely right. If need cooperation on the other foot and a Republican Governor had been elected, every Re- publican voter would have cried to the high heavens if legislation was enacted prohibiting the Govern- or from making his own appoint- ments.

That is exactly why fair-minded citizens resent such insignificant cry-baby attitudes. I have voted Democratic and Republican tickets according to my conscience, and there are thousands just like me. We need cooperation and unity — not an exhibition of selfish, partisan and stupid efforts to take from the Governor the honor of making his own appoint- ments. More power to you for your courage and broadminded- ness.

Correction

From Mrs. John Lyons Newark To the Editor of The News: In this past week's edition of The Belleville News an obituary was published for my father, Walter A. Glenney, Sr. I should like to have a correction and an addition made.

The funeral services were held on Sunday afternoon at 4 instead of on Saturday as was stated. Mother was listed as the only survivor. There are also three children, Walter A. Glenney, Jr., now in Panama, having been re- called to the U. S. Navy where he is a chief petty officer; Warren E. Glenney and Mrs. Helen Glenney Lyons, both of Newark. There are also three grandchild- ren. Mr. Glenney, Sr. was a radio electrician in Belleville for the past ten years.

Showing Their Patriotism

From E. M. B. Belleville To the Editor of The News: Recently a neighbor of ours was doing a little house cleaning and placed among other trash, an old trunk full of junk out for the scavenger to collect. They came along and because the trunk was pretty full they dumped the con- tents of the trunk and fitted it in.

The last thing to fall out of the trunk was immediately snatched off of the heap and unfurled — an American flag — a beauty in fine condition. The men carefully shook it free from ashes and what-not and fastened it proudly to the cab so that it now waves serenely in the breeze.

ASKS COOPERATION IN ROLL CALL

Red Cross Chapter Wants People To Assist In National Effort

Belleville Chapter of the American Red Cross has asked the complete cooperation of the people of Belleville to put the National Organization Roll Call "over the top." At the November meeting of the executive committee of the local chapter, Mrs. W. L. Williams and Miss Eileen Lynch reported on the Junior Red Cross organization meeting recently held at School No. 8. Representatives of teachers and pupils in the high school and each elementary school were present, and Miss Lynch reported practically 100 percent enrollment of the students. For the British War Relief, clothes are being collected; for the local Welfare Department, toys are being reconducted for Christmas; for the County Isolation Hospital, books and magazines are being collected; Christmas cards made, 300 window decorations, a tray decoration for each child; for the Veteran's Hospital at Lyons, there will be 400 paper cups filled with candy and nuts, 500 wrapped and decorated chocolate bars, 500 decorated paper napkins, and eight center pieces for tables.

Mrs. Harvey Thompson of the production committee announced that the quota will be completed by January, as about 100 women are sewing and knitting, and approximately three-quarters of the material received from Red Cross headquarters is now being worked on. It is anticipated that the chapter will sponsor a course in Red Cross first aid and accident prevention to begin after January 1. Miss Doris Scharfenberg was appointed chairman of this committee. Full details will be released at a later date.

Chief Warns of Middle-Aged Pickpocket Couple

Police Chief Spatz yesterday issued a warning to Belleville citizens to beware of a middle-aged couple in a grey car with white-wire tires and Connecticut license plates. The man and woman, both of whom are dark-complected, are pickpockets operating in style in the town.

Their usual approach is to accost a pedestrian and begin to tell him how ill he looks and to diagnose his ailments. In the course of the procedure, one or the other finds cause to bring his hands close to the victim who later finds whatever money he might have had in his coat or vest pockets missing.

Spatz also asked that police headquarters be notified immediately if the couple is seen in town. Albert Pitton of 103 Malone avenue was the second intended victim in the past two weeks. He lost nothing, however. Another man was robbed of \$15 two weeks ago.

Wants Action On Parking In Van Houten Place

No sooner had the first flakes of snow begun to fall Tuesday night than Sidney Brown of 45 Van Houten place was back before the Commission requesting action on the parking situation in that street between Washington avenue and High street. Brown appeared before the board two months ago and received the same answer then that he did Tuesday. The problem will be studied — this time, however, by Public Safety Director Clark.

Brown seeks an ordinance which would prohibit parking on the south side of Van Houten. Patrons of the Elks Club and the People's National Bank use the area throughout the day and evening. Brown calls the narrow lane which is left to moving traffic "a safety hazard, particularly in snow and sleet."

Before he left Brown also suggested a citizens' committee to study the bicycle problem. He said Belleville should follow the lead of Union and other municipalities in tagging all bikes and teaching youngsters the common principles of traffic safety.

Soft Drink Concern Will Move To Belleville

The home office of Thirst Quenchers, Inc. of New Jersey will move to Belleville early next week. The company has chosen 76 Washington avenue as its new headquarters. Robert E. Rew and J. H. Ferdon Saier will be in charge of the local office.

The company distributes dispensing machines for Coca-Cola and will use the local address as a supply base. The factory is in Montclair. Company officials said yesterday that they chose Belleville "because of its central location."

FIVE PEDESTRIANS ARE INJURED

Fatality Record of Winter and Spring Recalled Following Several Accidents

Memories of the fatality record of last winter and spring were recalled here during the past week as five pedestrians were reported struck by automobiles. None was seriously injured but police were thinking of the February to May period when six persons lost their lives in accidents in the town.

Marvin D. Rossman, sixty-five, of 183 Tappan avenue was taken to St. Barnabas' Hospital, Newark, after suffering a fractured collarbone when he was struck by a car said to have been driven by Edward Patton, twenty-one, of 619 Clifton avenue, Clifton. The accident occurred at 6:40 Wednesday night at Union and Overlook avenues.

Howay later Edward M. J. Dunham, twenty-two, of 120 Mt. Prospect avenue was struck by a car reportedly driven by Charles P. Hunseler, twenty-one, of 291 Main street, at the intersection of Washington and Overlook avenues. Hunseler took Dunham to the office of Dr. James R. Irwin where he was treated for abrasions of the head.

The next day Paul Jules Venturini, twenty-nine, of 417 Abington avenue, Bloomfield, escaped injury when he reportedly walked into the side of a car driven by Arthur Cary Hutson, fifty-seven, of 27 North Twenty-first street, East Orange. Hutson told police he had just made a right turn from Hecker street into Bloomfield avenue when Venturini walked into the side of his car.

Lawrence Morehouse, fifty-five, of 16 Wilson place was hit by a car late Thursday night at Union avenue and Wilson place. Police said the car was driven by Michael Shuk, twenty-two, of 91 Gleason avenue. Morehouse was treated in the American Legion Memorial Hospital for lacerations of the scalp and tongue, fractured tibia and fibula and a possible fracture of the femur.

Herbert Conner, twenty-four, of 452 North Twelfth street, Newark, told police early Sunday morning that he was struck by a hit-runner. Conner said he was stepping into his parked car in Harrison street near Brighton avenue when a car travelling south on Harrison street struck him and did not stop. Conner was treated in Columbus Hospital for abrasions and contusions of both legs.

WPA Watchman Is Burned While At Work

Harry Stadman, forty-seven, of 23 Winans avenue Newark, is recovering in St. Mary's Hospital from first degree burns suffered last week when his clothing caught fire at the Second River drainage project here.

Stadman, who is WPA watchman for the project, was carrying a can of gasoline in one hand and a lantern in the other. He tripped, the gasoline caught fire and ignited his clothing. He extinguished the flames by jumping into the Second River.

He was taken by Officers Gross and Dunn to Columbus Hospital, Newark, and after treatment there, was transferred to St. Mary's Hospital, Passaic, in the town ambulance.

Newark Driver Gets Jailed For Default of Fine

Morris Schweitzer, twenty-four, of 125 Avon avenue, Newark, took fifteen days in jail when he was unable to pay the \$100 fine assessed against him Monday morning by Recorder Smith. The Newark man pleaded guilty to driving a motorcycle after his license had been revoked.

Schweitzer was charged with speeding when he appeared before the recorder five weeks ago. He denied previous convictions at that time but later investigation showed four, the last one in Glen Ridge in March where Recorder Beatty revoked his license when he was unable to pay a fine.

Sweeney Employee Fractures Right Arm In Fall

John Griffing, twenty-one of 27 Jefferson street, an employee of Sweeney Lithograph Company, suffered a fractured right arm Sunday afternoon at the local plant when he tripped while carrying a large bundle of paper. He was treated by Dr. Abraham A. Rubin and then taken to East Orange General Hospital.

Joseph Rollieri, thirteen, of 97 Sylvan avenue, Newark, was injured Friday night at Washington avenue and Wisconsin street. Police said he was hanging on the back of a truck and fell off. Dr. Martin M. Meehan treated him for a slight concussion.

Two Hudson County Residents Are Hurt In Crash

Two persons were slightly hurt in an automobile accident at the corner of Main and Rutgers streets shortly after 10 Thursday night. They are Miss Eleanor Kiernan, seventeen, of Bayonne, and Patsy Cupo, sixty-two, of Jersey City. Both were taken to St. Mary's Hospital, Miss Kiernan to be treated for shock and Cupo suffering contusions of the head and a bruised leg.

She Died Monday at Her Home. She also leaves her husband, Joseph A. Nygard; three other sons, Carl W. and Harold of Kearny, and Vincent E. of Newark; a daughter, Mildred of Kearny; six grandchildren and a great-grandchild.

Funeral services were held yesterday afternoon in the John D. Crane & Sons Funeral Home, Kearny. Rev. Alfred Ostlund of the First Lutheran Church of that town officiated.

The contract will carry from December 31, to the same date next year. It will call for the maintenance for forty-six 600-candlepower lights on the Avenue and eleven 400-candlepower lights on the river road.

Alphonse M. Hart of 601 Belleville avenue was commissioned to do the town's 1940 audit at an estimated saving of "\$500 to \$1,000" from the figure annually charged by the state for the work, according to the Mayor. BEFORE YOUR EYES
By Joe Duval
Football bowed out of Belleville on Thanksgiving Day and some people breathed a sigh of relief.

What next year will bring is hard to say. High school football is so unpredictable that it just isn't safe to jump off any deep end this far in advance.

Still drifting around in the realm of unanswered questions is "What are they going to do with the Turf Bog?"

Basketball Up
With the goal posts hardly stowed away for the winter, basketball has burst on the scene.

A Lot of Miles
The simple announcement that Nereid oarsmen rowed 9,869 miles during the past summer might not strike the average reader until he realizes that that is almost halfway around the world.

B.H.S. PUSHOVER FOR POWERFUL SOUTH SIDE

Aerial Attack Proves Too Much For Bellboys In Season's Finale
What little defense the tired Belleville High gridders had left after playing four games in sixteen days disappeared when they met Newark South Side at Clearman Field Thanksgiving Day.

The power and deepness of the Newark eleven had the local lads baffled most of the game.

Three of the Newark scores came on the ends of forward passes. The latter carried for 38, 50 and 26 yards respectively.

Other six-pointer came on a six-yard line buck and the fifth was practically handed to the visitors when Belleville drew a holding penalty to its own one-yard marker.

Those on the squad this year from last season's jayvees are Howie Wilson, Bill Austin, Billy Radomski, Jim Joiner, "Muggs" McGinnis, Herky Heimrich, Roger Volpe, John and Joe Higgins and Jerry Racioppi.

The first home game will not be played until January 3 when the Bellboys play host to Dickinson High School of Jersey City.

Christmas Gifts Are No. 1 On The Shopping Parade

Night Ensembles in Variety of Styles Are Being Shown in Abundance; Marcasite Jewelry Adds Beauty to Costumes; Corde Handbags Popular

Christmas gifts will be the number one item on shopping lists from now on and as the stores have launched an earlier-than-usual display of special merchandise, it seems an opportune time to caution the shopper about an over-indulgence in novelty merchandise. An excellent criterion for gift-giving is to give something that you would enjoy using yourself, at least so far as the analogy is possible. In women's merchandise this is not too difficult for outside

articles of apparel are designed to meet universal activities. We would suggest that you limit yourself to things that your women relatives and friends will be wearing comfortably during the entire next year, perhaps even longer. The stores have evidently reasoned to a great extent along these lines since they are showing unusual quantities of underthings, nightwear, sweaters, blouses and other things without which we cannot get along.

Night ensembles, consisting of gown with matching bolero, coolie coat or full-length negligee are shown in abundance. They range from the gossamer dainties which a bride might wear to the sturdier cotton and rayon twosomes, in which any one could comfortably breakfast—yes, even prepare the breakfast. The best part of these ensembles is that they pack easily, with the exception of the quilted garments, and therefore make it easy for you to take them travelling.

Covered With Coats

Satin gowns are covered with delicate chiffon full-length coats in matching shades of white, aquamarine or faintest pink. These coats have in some cases demure Peter Pan collars outlined with two or three rows of matching lace. The slim waists are usually fastened with a row of covered buttons leaving the full skirt to flow gracefully to the floor. In one instance the entire waist section of the lovely chiffon coat is an insert of lace.

More substantial are the rayon crepe combinations printed in unusually beautiful floral designs on pastel backgrounds. Simplest of these are well cut gowns covered with full length coats in identical material. These are often laced trimmed and are highly recommended for the person who travels a great deal. For one who wants to be extra cozy at home these same gowns are matched by the quilted jackets which we have mentioned before. For one who is an invalid or who can enjoy the luxury of breakfasting in bed the short bolero is ideal. The three-quarter boxy jacket would please some people and for a day of rest or indisposition the full-length coat would nobly do its duty and cheer the wearer. The predominance of white backgrounds especially pleases us. The prices are extremely moderate.

There are even less expensive rayon sets in lovely shades completely star-studded and cotton challis for the extra-chilly nights and mornings. And then, there are the separate negligees of which we must mention two outstanding examples. Both of these illustrate a return to favor of warm pink and rose shades. The latter makes a house coat of brushed rayon with an extra fine surface. The high round neckline is simply outlined with rows of white angora stitching which is also the finish on the graceful sleeves. Very high breast pockets are marked with chevrons also stitched in white angora. Dramatic is the housecoat of pink faille striped diagonally in narrow black velvet. Reverses, cuffs and belt are also black velvet.

You may have noticed that marcasite jewelry maintains its special place in spite of the vogues which come and go in other types of jewelry. We have not yet seen anything to surpass it for richness and the subdued sparkle lends a smart flip to the

Expect B. H. S. Graduates Will Try For All-Youth Symphony

Many recent graduates of the high school are expected to try for places in the New Jersey NYA All-Youth symphony orchestra and chorus now being formed, according to Mrs. Alice Wagner, head of the music department at the high school.

There will be an orchestra of 150 and a mixed chorus of 100 and membership in both of these groups is open to all out-of-school youth, regardless of sex or race, between the ages of seventeen and twenty-five. The only requirement other than age and citizenship is musical ability. Members of the units will work sixty hours each month in rehearsals or performances and will be paid the regular NYA wage of \$18 a month.

Rehearsals will be held for the time being at Clinton Manor, 104 Clinton avenue, Newark. It is

expected that the groups will be heard on a major radio network at an early date.
