## Establishes \$9.31 Rate For Clark

Clark's tax rate for 1971 was \$9.31, which is \$1.14 higher than last year's rate, the Union County Board of Taxation has determined.

Certification of the tax rates for Union County's 21 municipalities had been delayed pending approval of state urban aid for Elizabeth and Plainfield. The state has granted Elizabeth a total of \$890,336 and Plainfield, \$304,559.

Union County's tax rate was certified by the board at 50.89 cents, based on 100 per cent of true value, as compared to 44.05 cents last year.

Lawrence M. Wolf of Scotch Plains, chairman of the board, announced that all real estate in the county will be assessed at full value next year. Mr. Wolf said 100 per cent assessment will eliminate the need for conversion of assessed value to true value when electronic data processing is used for tax computations for the first time.

Mr. Wolf explained that the new assessment level would not affect the homeowners' taxes.

## Adjustment Board Reaffirms Stand in Favor of Proposal For Hotel, Office Building

The Clark board of adjustment on Monday night reaffirmed its recommendation that Billman Fifteen of East Orange be granted a variance to permit construction of an eight-story hotel and an eight-story office building at Valley Road and Walnut Avenue. The action was taken during the board's monthly meeting in the Municipal Building.

A resolution recommending approval of the project by the municipal council was adopted by the board on Jan. 25. The council decided to remand the resolution to the board and asked that more testimony be obtained and that township residents be given an additional opportunity to express their opinions about the proposed \$7.5 million project. The board received more testimony from Billman at a meeting on April 12 and heard residents' viewpoints.

There were two votes on the Billman Fifteen variance application at Monday night's session.

When the first vote was taken, Louis Wollman, president; Peter Campana, vice president; Frank Svaikauskas and Ralph B. Iozzi, who was appointed to the board by the council on April 19, voted to recommend that a variance be granted. Opposed was Chester Serden, who had voted on Jan. 25 against a favorable recommendation.

Mr. Serden questioned whether Mr. Iozzi should be allowed to vote since he was not a board member when he heard additional testimony. Mr. Wollman then said that Mr. Orson had not been present for the hearings last October and November, adding that the vote would stand. Mr. Svaikauskas moved that the vote be set aside and the motion was seconded by Mr. Campana. Mr. Orson was permitted to vote instead of Mr. Iozzi.

The second vote saw Mr. Wollman, Mr. Campana and Mr. Svaikauskas favoring the recommendation with Mr. Serden and Mr. Orson opposed.

Construction of a hotel and office building on the proposed four and a half-site known as 1 Walnut Avenue, would represent "the highest and best use" of the land, the board stated in its resolution. The resolution also stated that the project would forestall deterioration of the area and stabilize land values as well as providing services and facilities. The board also presented the opinion that the project would enhance the area.

Conditions imposed by the resolution were that Billman Fifteen construct a parking deck to provide the required number of parking spaces, that landscaping plans be approved by the shade tree commission, that property at 22 Valley Road be acquired and used for the project, and that a system be constructed to drain surface water from the project site to alleviate flood conditions in the area. The resolution noted that plans for drainage should be approved by the township engineer.

The first item on the board's agenda was the seating of Mr. Iozzi as a member. Mr. Iozzi, who had served on the board from 1966 to 1969, was named to a three-year term by the governing body. The board elected Mr. Iozzi as secretary to succeed Warren Peterson whose term expired. The vote was 3-2 with Mr. Serden and Mr. Svaikauskas voting against Mr. Iozzi. Mr. Svaikauskas nominated Mr. Serden for secretary but there was no seconding motion.

The hearing on the application by Edward Lubrano Sr. of 1189 Raritan Road for a variance which would allow him reopening of a restaurant at 103 Central Avenue was commenced. The variance is required because a township ordinance adopted late last year prohibits operation of restaurants in the zone in which the restaurant building is located. The restaurant has not been operated for 14 months, according to Mr. Lubrano.

The board decided to adjourn the hearing until its meeting on Monday, May 24, at 8 p.m. after the testimony

became involved. The board suggested that Mr. Lubrano have his attorney present at the hearing to insure a proper hearing and Mr. Lubrano replied that his attorney would attend the hearing on May 24.

Mr. Lubrano testified that he had the restaurant built in 1961 and that he had operated it for several years until leasing the restaurant to others.

## Plan for Expansion Of Regional Schools To Face Test Tues.

(See editorial on page 4.)

Clark voters and those of the other five municipalities in Union County Regional High School District No. 1 will go to the polls on Tuesday to decide the fate of a school expansion program advanced by the board of education. The municipalities in the district, in addition to Clark, are Mountaintop, Berkeley Heights, Springfield, Garwood and Kenilworth.

The referendum placed before the voters proposed that the board spend a total of \$4,730,000 for expansion of the four high school buildings in the district and for improvements.

The cost of expansion work at Arthur L. Johnson Regional High School in Clark would be \$1,643,000, according to the referendum proposal. New construction would include a library-instructional media center, two standard classrooms, art room, typing room, instrumental and vocal music room, cafeteria expansion, student project room and departmental office, student activities room, administrative space, two chemistry laboratories, and conference rooms.

The cost of construction at the other three schools would be: Jonathan Dayton Regional High School, Springfield, \$1,902,000; David Brearley Regional High School, Kenilworth, \$595,000, and Governor Livingston Regional High School, Berkeley Heights, \$590,000.

The proposal calls for the board to issue bonds in the amount of \$4,730,000 to finance the expansion program. The bonds would be paid off over a 25-year period, starting in 1974.

The board has stated that the cost would be shared by each taxpayer in the district in direct proportion to the value of his property. The greatest effect on taxes would be in 1974 when the board's auditor estimates the referendum would require an increased tax of \$13.80 on a house with a market value of \$30,000. The added tax would become less the following year.

The polling place in Clark for Tuesday's referendum will be Arthur L. Johnson Regional High School, Westfield Avenue. The polls will be open from 2 to 9 p.m.

Opposition to the expansion plan has been expressed most strongly in Mountaintop where parents are disturbed over the proposal that their children of high school age be transferred to Jonathan Dayton School for four years of schooling. Mountaintop students now attend Dayton for one year and Governor Livingston School for three years.

Dr. Minor C. K. Jones, Mountaintop's representative on the school board, stated at a hearing on the referendum last Wednesday night in Clark, that he does not believe the Jonathan Dayton School site is large enough for a large school. Dr. Jones stated that while he is opposed to the referendum he is a strong supporter of the regional district. He forecast "disaster" for sending districts, if "current efforts to break up the district" are successful.

John J. Cullen, one of Clark's representatives, declared that the students who would suffer the most, if the expansion program is defeated would be those from Clark. Mr. Cullen urged Clark voters to go to the polls on Tuesday to vote in favor of the proposal or "a well-organized group from Mountaintop will defeat it." Arthur L. Johnson Regional High School already is overcrowded, Mr. Cullen said at the hearing, which was attended by approximately 50 persons.

Manuel S. Dios, Clark's other representative, this week urged approval by the voters of the plan to provide "badly needed facilities" for the students of Clark attending the Arthur L. Johnson Regional High School.

"Passage of this referendum would guarantee additional classrooms for our youngsters. The extremely overcrowded conditions in the cafeteria would be eliminated, and eventually the temporary classroom buildings we are now being forced to use," Mr. Dios said. Under the expansion plan, all high school students from Clark would continue to attend the Arthur L. Johnson School. This will be their school.

Mr. Dios added, "A total of \$1,643,000 of the proposed \$4,730,000 would be spent in expanding and renovating Arthur L. Johnson. And, most important, this money would be spent for the students' welfare. Arthur L. Johnson is badly overcrowded and we desperately need new facilities such as chemistry labs, a new instrumental and vocal music room and a new library."

## Art of Parochial Schools Will Be Judged May 12

Judging of a spring contest for students in Clark parochial schools will take place on Wednesday, May 12, at 3:30 p.m. at St. Agnes School, Clark, the Summit and Elizabeth Trust Company, sponsor of the contest, has announced.

Pupils of St. Agnes and St. John the Apostle Schools will compete for savings accounts to be awarded by the bank. Fifth graders in the Clark public school system competed last month in a contest sponsored by Summit and Elizabeth Trust Company.

Judges will be Miss Judith Ciccone and Mrs. Pat Doley of St. Agnes School; Sister Veronica and Miss Rita Hawkins of St. John the Apostle School, and Donald R. Eberly, branch manager of the Raritan Road office, representing the bank. Winning entries will be on display at the Raritan Road office of Summit and Elizabeth Trust Company the following week.

## Higher Income Exemptions for Elderly Sought to Allow More Local Tax Breaks

Granting increased income exemptions for senior citizens was supported April 19 when councilmen unanimously passed a resolution urging state legislators to take action.

The resolution called for the increasing of tax exempt income for a couple over 65 from the present \$5,000 to \$7,500, excluding monies from federal pensions and disability or retirement benefits, so more senior citizens could qualify for a \$160 reduction on their real property taxes.

## Kiwanis Club Receives Data on Cancer Cures

Speakers for last week's meeting of the Clark Kiwanis Club were supplied by the Union County Unit of the American Cancer Society. They were Dr. Seymour Wexler and Robert Martin, members of the unit's Physician and Lay Speakers Bureaus, respectively.

Mr. Martin spoke on the society's threefold program of education, service and research. He noted that \$250,000,000 per year is being spent on research to determine ways to eliminate cancer. One of every three cancer victims is being cured, Mr. Martin said, emphasizing that early detection of cancer is the key to the cure.

The society's film, "The Drum Beater," was shown. The film portrays the crusading activities of J. Arch Avery in Georgia. Mr. Avery had a successful operation for rectal cancer in 1963 and has since been conducting an effective educational campaign in his home state.

Dr. Wexler, a Clark resident, is president of the Union County Chapter of the American Association of General Practitioners. He noted that some 46,000 persons (mostly men) die of rectal cancer each year and the total deaths from cancer in this country number approximately 106,000. Dr. Wexler showed a proctoscope and explained its use to the club members.

The president, Freeholder William J. Maguire, reported that May 18 will be Key Club Night at the regular meeting in the Clark Rest. Incoming officers of the Key Club of Arthur L. Johnson Regional High School will be installed by their counterparts in the Clark Kiwanis Club, which sponsors the Key Club.

for insurance of its savings accounts, which was granted by the Federal Savings and Loan Insurance Corp. in order to comply for insurance, a fulltime office had to be established, so a store at 225 North Wood Ave., Linden, was renovated, staffed by its first fulltime employee, Mrs. Viola K. Oravsky, now vice president and secretary.

The board of directors felt there was a need for a financial institution in Clark. In 1957, the State Department of Banking and Insurance approved a branch office at 1083 Raritan Rd. Mrs. Ann Grosshans was installed as branch manager and is now treasurer and assistant secretary.

With total assets under \$300,000 in 1951, Stonewall now exceeds \$19,000,000. This growth was responsible for new building to house the main office at 701 North Wood Ave., Linden, and the branch office at 1100 Raritan Rd., Clark. Stonewall's number of employees has also grown from one fulltime and one parttime in 1951 to 12 at the present time. The tellers' department in Linden is supervised by Mrs. Barbara Borden and in Clark by Mrs. Jean Bodnar. Stephen J. Liptak, Jr., assistant vice president, joined Stonewall last January.

Stonewall presently services nearly 1100 residential mortgages totalling nearly \$16,000,000. With the growth in assets due principally to savings increases from people in Linden and Clark, Stonewall has made loans to homeowners primarily in the same area, thereby aiding the local economy. Nearly all of the mortgaged premises are located within a 10-mile radius of the main office.

## Foodtown Store Changes System Of Incinerator

In an all-out effort to do its bit in the battle against air pollution, Clark Foodtown has had extensive alterations made to its incineration system.

"We are more than pleased that as a result, we not only meet, but in some respects, even exceed the highest standards set by air pollution control regulations of Jersey's Department of Environmental Protection," said Eli Krinzman president of Foodtown Supermarket of Clark at 52 Westfield Avenue.

"Because we did not want our operation to contribute in the slightest degree to a local and national problem, we determined to go all out, regardless of the cost to us in time, effort or money," Mr. Krinzman added.

Mr. Krinzman retained Washburn and Granger Inc., specialists in supermarket installations, to survey and improve the Foodtown incineration system. An over-fire air system and auxiliary fuel burners were installed for better combustion. A controlled temperature setting of 1500 degrees burns not only the smallest organic particles, but also odors and smoke itself. The resulting gases pass through a gas washer which removes the invisible particulate matter that would otherwise sift dirt on the surrounding area, even when no smoke is present.

What is Action Now? The question probably can be answered by someone you know — someone who at one time or another has needed help.

Action Now is housed in the J.F.K. Community Center, 796 E. Hazelwood Ave., Rahway. Through the doors of the center have walked many persons who have had problems. They have called on the Action Now 24-hour line, 382-4666, or they have approached Courtney Clarke, Director of Action Now, or Garland Connor, area representative, on the street.

While we're keeping an eye on your investments, you can keep yours on the ball.

Financial success can become a kind of vicious circle. You work long hours to earn your money. Then you have to work long hours to make your money work for you — keeping up with the market and making judgements that require a professional expertise.

Which doesn't leave you much time for family, friends or golf.

Of course there is an alternative. Summit and Elizabeth Trust Company has a plan designed to give you more time to relax. It's called a Full Authority Investment Account and it works like

this: You sit down with our investment officers and establish your financial objectives. Then we take over responsibility for the management of your portfolio.

Which means that your portfolio receives the combined skill and judgement of our entire investment department. Day in and day out.

And you can relax a little. After all, you've earned it.

### Vote 'Yes' in Tuesday's Referendum

When Clark's voters go to the polls on Tuesday to vote in the referendum pertaining to the proposed expansion of the four schools in Union County Regional High School District No. 1, the voters should cast their ballots in favor of the issuance of bonds for the project.

The estimated cost of the school expansion plan, \$4,730,000, is \$2,245,000 less than the cost of the construction program proposed by the board of education of the district a year ago. The board has cut its 1970 proposal to a minimum needed to maintain the quality of education available in the past and has asked the State Department of Education for permission to use the old capacity formula, 30 pupils to a classroom, instead of the current formula, 25 pupils per classroom.

The four schools, Arthur L. Johnson Regional High School in Clark, Governor Livingston Regional High School in Berkeley Heights, Jonathan Dayton Regional High School in Springfield and David Brearley Regional High School in Kenilworth, are overcrowded. The plans proposed would add classrooms, laboratories and cafeteria space; enlarge some facilities, and convert others so the buildings would be used more efficiently.

The Arthur L. Johnson School would have work costing \$1,643,000 done, if the building proposal is approved on Tuesday. The new construction would include a library-instructional media center, cafeteria expansion, auxiliary gymnasium, metal shop, two art rooms, three science laboratories, instrumental and vocal music room and typing room.

Four temporary classrooms are being used at the Clark School. Thirteen substandard classrooms are being used in the four high schools. Central facilities are overcrowded and libraries are inadequate. Reports of evaluation for accreditation have criticized the libraries.

The proposed construction plan would provide minimum facilities to provide for the current enrollment and for the enrollment anticipated in 1976.

Alternatives to the expansion program include continued and expanded use of substandard and temporary classrooms; more crowded classes; elimination of portions of the existing educational program; double sessions or a 12-month school year, and transfer of students from school to school to equalize pressures of crowding among the four schools.

The expansion program has strong opposition, mainly from Mountainside residents whose vote a year ago was instrumental in defeat of the 1970 construction proposal.

If the plan for the school expansion is to be approved, the voters of Clark will have to go to the polls in force on Tuesday and vote in favor of the proposal. The polls will be in Arthur L. Johnson Regional High School on Westfield Avenue and will be open from 2 to 9 p.m. The school expansion plan should be approved, if Clark students and others in the regional high school system are not to be short-changed in their education during the years ahead.

### Use Golden Rule in Relationships

Much has been written about the Rahway Board of Education's consideration of a community-wide human relations program for which the federal government's Department of Health, Education and Welfare has allotted \$77,950.

The board, which has been studying the program for months, rejected the offer of the federal funds at its March meeting. Last week the board again rejected the offer by voting 4-4.

Part of the program, special student personnel services, elementary school guidance, including two counselors, and supplies, might have proved to be of benefit to the Rahway schools. In-service training for teachers, workshops, conferences and meetings, however, should be viewed with skepticism. The activities would have had the goal of improving understanding and motivation of students of different cultural backgrounds.

The original plans for the program called for in-service training, workshops and conferences to be held during school hours and for substitutes to teach the pupils when the regular teachers were taking the training. We agree with some board members who feel that putting substitute teachers in every classroom would be doing the pupils a disservice.

HEW officials have told the Rahway board that the program may be offered for teachers after school hours and the teachers paid at the rate of \$3 an hour with a limit of \$15 a day. The rate of pay permitted would probably mean that the Rahway board would have to pay the teachers additional money above the \$3 an hour, if the program were instituted.

The rejection of the program also killed a plan for institutes, workshops and conferences for 5,300 students and 7,500 parents and other residents, part of the human relations program. While the pupils might have provided a captive audience for the program, we fail to see how 7,500 parents and other residents could be reached since they could not be compelled to attend institutes, workshops and conferences.

It seems to us that much more could be accomplished in the field of human relations if students tended to their studies while in school and concentrated upon getting a good education. If all treated each other with decency, courtesy and consideration, mutual respect would grow. There should be no reason for conflict in schools where students study together, are members of the same clubs and play together on the same teams.

Teaching staff members have been exposed to need for human relations. But it should be emphasized at the start of each school year when orientation sessions are held that all pupils are to be treated without favoritism and that there must be no discrimination.

The cause of human relations would be furthered if all just followed the Golden Rule. At least it would do for a very fine start.

### LETTERS TO THE EDITOR

#### Planning Head Defends Record Of Doenzelmann

There comes a time when one's wish "not to get involved" gives way to the obligation to speak out in defense of one unjustly accused.

In the Letters to the Editor section of the April 22 issue of the Clark Patriot, there appeared a letter sign-

ed by several citizens of Clark. It attacks building inspector John Doenzelmann, inferring by quoting Judge Nelson F. Stamler in a decision involving Roselle that he should be suspended, fired, and brought up on charges. The letter is an example of character assassination at its worst and also paints the mayor, director of public works, and town council with the same wide brush.

Mr. Doenzelmann has served the citizens of Clark since 1951 with diligence and

perseverance and in a competent and proficient manner seldom excelled by anyone. He has spent thousands, yes thousands of hours of work, on planning board activities. He attends weekly evening meetings in addition to the multitude of court sessions, day and evening hours, and testifies to uphold the building codes which protect township development. All of this is above and beyond his daily work load as building inspector and zoning officer.

As one who has worked with Mr. Doenzelmann since 1961 on the planning board I marvel at his energy and dedication. Clark has experienced the same explosive expansion most suburbs have faced in the last decade. We have struggled through the influx of many major subdivisions and consequent population growth. Clark can hold its head high for what has been accomplished, secured in large measure by the experience and expertise of Mr. Doenzelmann.

I hope the present administration in Clark faces these charges made by inference and innuendo head on and responds to them. Serious charges have been made that "the Department of Public Works is allowing houses to be constructed knowing that grades are incorrect and other code violations exist." Those people making these charges should spell them out in detail; how, when and where.

Historically, most complaints with new homes have been basically with craftsmanship, rather than actual code violations. This is not to defend poor craftsmanship, but rather to point out that no town can guarantee fine work. However, Clark can and does insure that the homes built are safe and structurally sound. If a home buyer is unsatisfied with workmanship or finishing touches, why does he accept the home and move in? Contracts signed by builders and owners should not require township policing to insure that both parties live up to their agreements in matters other than those covered by engineering and building codes.

I have gone through the frustrating experience of purchasing a "new development home," and I sympathize with the disappointments and frustrations of accepting present day quality levels in the building "crafts." Unfortunately, these same lack of skills are found throughout industry in automobiles, appliances, hardware and soft goods. All of the preceding is not to excuse poor workmanship, but only to point out that it exists and is prevalent.

To blame all of the woes and inadequacies of the new home on the building inspector is totally and unequivocally unfair.

In my opinion, Mr. Doenzelmann has accomplished more good for Clark in the last 20 years than most members of a community could ever hope to do in a lifetime. I could not be true to my convictions to state otherwise.

Jerry P. Fontenelli  
Planning Board, Chairman

#### Old Foes Meet: Spending Theory Versus Education

In a recent letter, Dorothy McFadden charged some members of the Rahway Board of Education with failure to meet their responsibilities. Her reason? They put a higher priority of learning than on spending. Here is the essence of the philosophy that has dominated American education since World War II. It holds that the quality of education depends solely on spending with learning being, at best, a side issue.

The authoritative explanation of the theory was outlined in the 1954 book "How to Judge a School" by William F. Russell, president, Teachers College, Columbia University, the most influential of all teacher-training institutions. Dr. Russell wrote that the old adage "knowledge is power" is a myth and that the traditional

study of arithmetic, spelling, grammar, language, etc., is a waste of time.

Thus the U.S. Office of Educational Statistics for 1969 contains 128 pages with 170 tables. Only one contains data on what students are learning. At the same time, the average cost per pupil has spiraled to 10 times the World War II level, driving a growing number of school systems across the country to the brink of bankruptcy.

The first serious challenge to the spending theory came in 1965 with the publication of the Office of Economic Opportunity's massive Coleman Report. It found no link between school spending and student progress. Later, England's equally prestigious Plowden Report confirmed this conclusion.

By 1970, the U.S. Commissioner of Education had become so concerned with the grim statistics on student illiteracy that he declared the goals of the 1970's to be "the right to read." Today, a growing number of social scientists are saying that the basic cause of student failure and alienation is the failure to learn. Most parents have long recognized that youth, boredom and frustration can be an explosive combination.

Yet there are those who, unmoved by the evidence, still equate education with spending and stand ready to mount personal attacks on anyone who dares even to question their thesis. I cannot help but wonder what they are afraid of.

#### Readers Like Revelers' Play

Recently my husband and I attended a performance of the mystery play, "The Pen Is Deadlier," produced by the Revelers, a local dramatic group which has a playhouse on Irving Street.

It was a thoroughly enjoyable evening. The play was well directed, and the actors were talented, giving a true-to-life performance.

The Revelers must be a very dedicated and hard working group since most of them have served on committees as evidenced in the program as well as taking part in the play. How lucky we felt that such excellent entertainment was within walking distance.

Many businessmen have discovered the Revelers and are backing them with advertisements in the program.

We join with others in wishing them well and urging complete support from citizens of Rahway.

#### Claims TV Sells Young, Old On Red Propaganda

T.V. networks, in far too many instances, are engaged in the practice of selling Leftist propaganda to young.

For example: Many Americans believe that Communism cannot co-exist with free nations. The philosophy and doctrine of Communism tell us that. The Communist conquests of many nations, with the inevitable enslavement of the peoples of those nations, tells us that. The Communist leaders themselves tell us that. But the voices of T.V. say there is nothing to fear from Communism. Our children buy it!

Many Americans believe that revolution must be resisted by patriots, and that treason is punishable by death. But the voices of T.V. say treason is an American tradition called "dissent" and America was founded on revolution. The voices of T.V. compare American patriots of today with the British of 1776. Many Americans think this is insane, but our children buy it!

Many Americans believe that only criminals "shoot it out" with the police. But the voices of T.V. say that certain groups, like the

Black Panthers, are justified to shoot it out with the police. These groups wear uniforms and have their own "minister of defense" within our own nation. Many Americans believe that only a sucker would fall for that trick twice in 30 years. But the voices of T.V. say that the police should be investigated for participating in such a shoot-out. Our children buy it!

Many Americans know that drugs have been around ever since they can remember. So, many Americans believe that it is the climate of permissiveness and indoctrination that is now "turning on" a generation of our children. But the voices of T.V. say: "If the parents can drink, the kids can 'turn on'." Our children buy it!

Many Americans believe that in the nuclear age America needs defenses against nuclear attack. The voices of T.V. say that our country should forget about national defense and spend that money to expand the Welfare State. Our children buy it!

Many Americans believe that Socialism and a One-World-Order mean the end of individual liberty, being fully aware that a One-World-Order under Socialism is the consummate dream of International Communism. But the voices of T.V. say that Socialism and a One-World-Order will be the "salvation of mankind." Our children buy it!

Of course, it is extremely naive to suppose that only the young buy the Leftist bigotry of the T.V. networks. Many adults buy it, too, and wouldn't recognize Left-Wing propaganda if they were shown the grave of Karl Marx.

The Leftist slant is also evident in many of our larger newspapers and certain magazines. For example: Life magazine, in its issue of December 6, 1968, page 35, has a picture of the Chicago police "rioting" against the demonstrators at the Democratic National Convention held in that city in August, 1968. In the October 17, 1969 issue of Life, pages 70 and 71, there is a picture of the police "rioting" against some Lenin schoolboys and faculty members on the campus of Princeton University.

The picture used by Life depicting "police brutality" in Chicago and Princeton are identical in every respect. It's the same picture used to illustrate two separate incidents of "over-reaction" by the police of two separate states! This is only one example of the deliberate Leftist slant of our so-called "free press." In my opinion, the only obstacle to the greatest anti-Communist and anti-"liberal" movement ever witnessed in these United States is our biased news media. And even that powerful Left-Wing institution won't be able to hide the truth from the American people much longer!

#### Pupil Crowding Seen as Result Of Referendum

The Union County Regional High School referendum to be held on May 4 is of great concern to the people of Mountainside, and we ask our many friends of Clark to Vote No and defeat the referendum.

This referendum, if successful, will dispossess Mountainside from our promised home school, Governor Livingston, where we have been for eleven years and want to stay.

The referendum if successful, will jam 1,700 Mountainside and Springfield children together on the smallest site in the district and be harmful to both communities.

The regional board of education has alternative plans which can be offered quickly to the voters if the referendum is defeated. Mountainside voters, who helped Clark get its home school, now need Clark's help to keep our home school.

Vote No and demand a more equitable and economical referendum be presented to the voters.

#### Quality Buildings Called a Credit To the Inspector

I was sorry to see the letter inferring that our building inspector has committed a crime.

Especially distressing were the techniques employed in composing the letter. I believe the people of our community are of high character, and I am sure the five co-signers of the letter, in time, will come to realize this fact also. It was ironic of those five neophytes to the community to condemn

the very man who was largely responsible for the quality in building that helped attract them to Clark.

I wondered as I read the letter if they knew of our community's great rate of growth since the late fifties, and that our present building inspector was the one who oversaw the quality work done throughout those years. Years when all members of this community enjoyed the appreciation of their real estate holdings.

People who know Mr. John Doenzelmann know him to be a fine building inspector. People who know the five co-signers know them to be the cause of their own frustrations.

I find it appalling when five disgruntled people can defame one's character and reputation by quoting, out of context, a judge's statement referring to an incomparable and unrelated case. And then they take it upon themselves to infer that our elected officials are also dissatisfied with this man's work when this is not true!

#### Says Everything Has a Meaning

I wish I had the ability to set a mood to inform you, to issue a call. The term "engineer" is not a personal classification.

Individual progress cannot be measured with a calendar or a yard stick, and bear in mind success is not a matter of age. This is especially true at this time, a time of rapid change and economic turmoil.

Ability is a factor in the success pattern of almost all engineers, but it is a fact that the successful executive en-

#### Police Blotter

MONDAY, APRIL 19  
Amon Motor Car Co., 786 St. George Avenue, reported a break, entry and larceny. The intruders broke a pane of glass of an office window, reached in, unlocked the office area. Desk drawers and filing cabinets were ransacked, and about \$20 in dimes and quarters was stolen.

A break, entry and larceny was reported to have occurred at the Searles estate, 1366 St. Georges Avenue. It is believed that juveniles made entry through a cellar window and removed various articles from the house. These items were found in a hideaway in the rear of the property and returned to the house by police. The property was then secured.

TUESDAY, APRIL 20  
Mr. William Beale, 1301 Stockton Street, reported a break, entry and larceny. The rear aluminum storm door of the home had been forced and the wood moulding and a pane of glass was removed from the inner door. Missing at present are two men's watches and an amount of cash.

Sulfrain Cryogenics Corp., 391 E. Inman Avenue, reported a break, entry and larceny. Entry was made through a front window, and missing are an adding machine, a saw and a portable grinder polisher.

FRIDAY, APRIL 23  
Best Supply Co., 1697 Elizabeth Avenue, reported the larceny of a box containing about 200 pounds of brass and copper fittings. It was later discovered that two barrels of brass and copper fittings and valves were also missing. Two men were observed in the area.

Mr. Michael Stroin of Iselin reported his car stolen from the Merck & Co. parking lot. The car contains a quantity of fishing equipment and two pairs of glasses. Teletype alarm was sent.

SATURDAY, APRIL 24  
Warren R. Loos, 1072 Bryant Street, reported that while his car was parked in the parking area of the Rahway High School someone broke the left front window and stole the tape cartridge stereo and between 50-60 eight track tapes.

Mr. Christopher J. Brophy, 2215 Price Street, reported the theft of three eight track stereo tapes and a black attache case from his car, parked overnight in the driveway. The left front door of the vehicle had been left unlocked.

Mr. Stephen E. Karczewski, 2297 Whittier Street, reported that someone gained entry to his locked car by slipping a piece of wire through the rubber molding and opening the door, and stole a reverberator unit from under the dashboard.

SUNDAY, APRIL 25  
The car stolen from Mr. Robert Adkins of Old Bridge while the vehicle was parked in parking lot "E," Main Street, was recovered by Rahway police on Linden Avenue.

gineer had the will to succeed, his effort systematically guided, and he was experienced.

I am a historian who does not believe that the old days were the good old days. I am a conservationist who does not believe that the land ought to be dedicated forever to the birds. I believe we are important only as we relate to the larger aspects of society. I view nearly everything, the past, the present, the future, and I assure you, I like people, for people are my concern. We all view ourselves primarily in terms of our professions. In so doing, we commit the unholy conceit of forgetting we are really nothing more than the average human being and are not so valuable, that we cannot pass out of existence.

My sincere official desire is to provide the best services to the constituents for their well-being and to provide them with the necessities of life.

I guarantee to make myself and the service of my official office as director of public works and engineering available to all taxpayers.

Perhaps I turn you off rather than stir you. Think then a moment, if you will. Is it not a fact that to everything there must be a design and a plan. Indeed there is, for on every hand this world shows design and plan. The universe is not a chance collection of accidents, heaped in a chaotic disorder, but rather everywhere we look there is abundant evidence of design and purpose.

My family business is engaged in alteration work in a hospital, and I take the time to stand by the nursery window and view rows of newly born infants in their tiny cribs. I am mystified anew by the regularity in their features.

Why does it happen that a child's legs are of approximately equal length, why is not one leg 24 inches longer than the other? Why is it one arm is not 30 inches longer than the other? A baby's body grows as if there were a plan and a purpose. This is truly an engineering feat.

Consider now human history. Our faith teaches that the human race did not accidentally happen, but was created, whether as the ancient faith claims, in a few moments of time or, as the evolutionists would have us believe, ever so slowly. Be it as it may, the point made by the Hebrew and Christian religions is that God had a purpose in making man and has plans in con-

tinuing to make men, raising them up in each generation to serve his intention. The appearance of the right man at the right time is seen by the skeptic as coincidental, but by the faithful as an evidence of God's purpose at work in history.

The strenuous, painful pursuit to achieve excellence amidst a people that love, comfort and countless other miracles, indicates to me that providence rather than accident is evident. In other words, I assume that everything has a meaning and a purpose.

#### Clark Builder Sues Elizabeth Board

Emmruss Construction Co. of 4-B Acken Dr., Clark, is suing the Elizabeth Board of Adjustment and the Elizabeth Building Inspector, William D. Salvatore, to get a variance to construct row houses on Henry and Emma Streets.

Emmruss owns land at 480 to 486 Henry St., 901 to 907 Emma St., and 909 to 911 Emma St., which comprises a tract of about 14,000 square feet.

The previous owner had secured a variance to build row houses, but the building inspector says that the new application to build six two-family row houses based on plans previously approved is insufficient because a building permit was not issued within a year from the date of the original variance and hence the variance expired.

#### Mike Jann Acclaimed For Safety

Michael Jann, a fourth-grade student at Columbian School, Rahway, and a member of the school's Safety Patrol, was selected as the Patrolman of the Month.

This award is given in recognition for outstanding performance as a Safety Patrol member.

Michael was awarded a gold badge which he will wear throughout the month of April.

On April 8, the Safety Patrol sponsored a number of activities for students of Columbian School in celebration of the Easter holiday.

The first event was an egg hunt. Richard Allen, a first-grade student, was awarded a prize for finding a "golden egg." William Hall, also a first-grade student, and Joy Williams, a second-grade student, were awarded prizes for finding the most eggs.

The second event was an egg-rolling contest for the kindergarten class. Jerome Brannon was the winner in a tough battle.

The last event was sponsored for the upper grades. Students were asked to estimate the amount of bow noodles in a gallon jar without going over the actual amount of its contents. The total amount was 531. The winners were Christine King, a fourth-grade student, with 523, and Mark Ramos, also a fourth-grade student, with 522.

## Rahway Quartets Win Events at Penn Relays

Rahway High School's 440-yard relay team won its first major title at the 77th annual Penn Relays at Franklin Field, Philadelphia, Pa., before 30,369 fans on Saturday.

The Indians obtained a great anchor leg from their state indoor 60-yard champion, Carlton Stewart, to catch Eric Barret of the Camperdown team from Jamaica, B.W.I. Both teams were clocked in 42.1 seconds.

The Rahway quartet was composed of Rick Treadwell, Ira Presley, Nate Austin and Stewart. The Indians led Friday's trials with a 42.2 clocking but three of the boys ran quarter-miles before they ran the sprint race on Saturday.

In the one-mile relay event, the Indians won their race in 3:21.5, just one-tenth of a second too slow to qualify for the championship finals.

Stewart, sophomore Tim Solomon, Austin and Presley ran for the Indians with Austin hitting 48.9 seconds and Presley 49.6 to give Rahway its fourth victory

game of 913 in the Rahway Council of Churches Bowling League. The Trinity team had a high team series of 2,542.

The annual league banquet has been set for Saturday, May 22, in the First Baptist Church of Roselle.

The First Baptist team leads the league by two games over the Second Baptist of Rahway.

Jim Colapietro rolled a pair of 255 games for a high set of 694 to lead the pinners of the Intercity Bowling League at the Recreation Lanes. Other top bowlers were: George Davison, 279-654;

Phil Testa led the Suburban 875 Bowling League with a 268 game and a 659 set at the Clark Lanes. He was followed by Ed Noga, 243-657; Rocky Paternoster, 632; R. Koan, 602, and Mike Copera, 600.

Cranford's golf team shut out the hapless Rahway links team, 18-0, last week.

Dick Marsen led the pinners in the Church Federation Bowling League at the Clark Lanes with a 255 game and a 640 set. John Norwigh had a 602 set.

There will be a meeting of the Clark Girls' Softball League on Tuesday at 7:30 p.m. in the Valley Road School gymnasium.

# Crusaders and Indians Meet Tomorrow Junior Olympics to Begin Saturday

Keith Stinger, youth activities chairman of the Rahway Kiwanis Club, announced yesterday that plans have been completed for the start of the 10th annual Kiwanis and Rahway Recreation Department Junior Olympics Track and Field Championship on the Rahway River Park track on Saturday morning.

All boys and girls under nine years of age who have not reached their 14th birthday anniversary before May 1, 1971, are eligible to participate.

This week only the boys and girls nine and under will compete. Registration will start at 9 a.m. with Robert Polhemus as registrar.

The events to be contested and the record holders are: Boys' 50-yard dash, Randy Vanderhoff (1966) and Clarence Hester (1969), 7 seconds; girls' 50-yard dash, Fail Holland (1968), 7.5; boys' standing jump,

Dale Blanks (1970) 6 feet 6 inches; boys' running long jump, Allen Jeter (1969), 12 feet 7 3/4 inches; boys' baseball throw, Peter Weidling (1969), 151.1 feet; girls' baseball throw, Yvonne Brown (1969), 108.6 feet; girls' running long jump, Elisa Zimberg (1970), 9 feet 6 inches; girls' standing long jump, Betty Rotondo (1967), 6 feet 9 inches.

The 10-11-year-old division competition will be held at the same place and time on Saturday, May 8. The 12-13-year-old youths will compete on May 15. The events are open only to residents of the City of Rahway.

The Kiwanis Club will present ribbons to the winners of the first three places. Tee-shirts also will be given to the winners.

The 440-yard relay teams will be selected in each division by the fastest times to compete in the district meet.

The 15th annual home-and-home series between the baseball teams of Rahway High School and Arthur L. Johnson Regional High School of Clark will start tomorrow afternoon at Veterans Memorial Field, Rahway, at 3:45 p.m. The teams have been playing since 1956.

This year's game will see to hard-hitting teams playing. The two lines have good defense but their pitching is of questionable quality.

The Crusaders, who dropped their first five games, have come alive with three straight wins. They are led by hard-hitting John Herson and Ed "Dutch" Peterson. They have good defensive players in two seniors, Ed Pinkham and Mike Miller, at the keystone spot.

Rahway has the better all-around outfield, led by Craig Fugger and Joe Leone. Gary Bechelli, at second, is one of the best infielders in the Watchung Conference.

Both catchers are juniors. Duane Sprobach of Rahway is the harder hitter while Jerry Scaturro of Clark appears to have the better throwing arm.

In the pitching department, a senior, Mike Kvarita, is expected to start for Rahway. He has hurled a one-hitter this season. Jim Mitchell, a junior who held Scotch Plains-Fanwood to three hits last week, is back on the mound for Clark. A

## Indians Top Highlanders Regain Winning Column

Craig Hugger, outfielder turned pitcher, hurled the Rahway Indians to a 6-1 victory over the Berkeley Heights Highlanders in a Watchung Conference contest at Veteran's Memorial Field, Rahway.

Hugger, who relied on good breaking stuff, was touched for eight hits. He kept the blows scattered and the Highlanders scored only one unearned run in the top of the sixth inning. Hugger drove

## Crusaders Take Third In League

Clark's Crusaders moved into third place in the Watchung Conference with a 3-1 triumph over the Hillside Comets.

Crusader pitcher Chuck Kovacs hit a home run as did the Comets' hurler, Bob Boehm.

Mike Miller walked in the fourth inning, stole two bases and scored on an error to give Coach Lou Pergallo's club a 2-1 lead. Ken Peterson tripled in the sixth and scored the third Clark run on a double steal.

Hillside threatened in the top of the seventh but relief pitcher Jim Mitchell came in and struck out the last two hitters to give Clark its second straight victory.

Peterson had two hits. Kovacs, the winning pitcher, fanned five batters and walked three.

The Crusaders won two straight over the week-end. They won, 1-0, from the Scotch Plains-Fanwood Raiders behind the three-hit pitching of Jim Mitchell in a Watchung Conference game and 13-0 from Holy Trinity High of Westfield.

In the Crusaders Raider game, the only tally of the day was scored in the last of the fourth inning when Ed "Dutch" Muchmore reached first on an error, advanced to second base on another error and raced home when Mike Robel singled to left.

Jim Mitchell of Clark, a junior right-hander, fanned seven batters and walked four in besting Don Braum, who struck out six without walking a batter. This was Mitchell's first win in two starts.

Jim Fifield, making his first start after three relief appearances, held the Holy Trinity nine to three singles and led the Crusaders to their third victory after the Clark team had dropped its first five games.

Clark scored seven runs in the second inning on four singles, three walks and an error. Fifield, Miller, Peterson and Muchmore collected the singles. Two hits apiece were made by Ed Pinkham, Miller and Fifield, Pinkham had a double.

Rahway Cancer Chairman Herbert H. Kiehn watches as Mayor Daniel L. Martin signs proclamation declaring April cancer month. The mayor noted that over 13,000 people die annually in New Jersey from cancer, and added research is needed to check the disease.

**We're close to a cure for leukemia.**  
It's almost too good to believe. A whole crop of kids who are alive and well 5 years or more after getting a new kind of drug treatment for leukemia. And after 5 years, cancer researchers begin to hesitatingly, hopefully, talk of a permanent "cure."  
Work has been going on feverishly ever since this kind of therapy was started in 1964. And each year, the children who get leukemia have a far better chance of cure than those of the year before.  
The American Cancer Society plays a vital part in this exciting work. So, when our volunteer comes to your door this month, be generous. Especially if you have children. Or grandchildren.
