POLK'S
WESTFIELD
STREET and AVENUE GUIDE
INCLUDING
TELEPHONE NUMBERS and HOME OWNER SYMBOLS
1965

Including Cranford, Garwood, Kenilworth and Mountainside

Copyright, 1965, by R. L. Polk & Co.

Giving the location of Streets. Avenues, Places, Parks, etc., showing what other streets and places run from or across them, and with a list of Householders and Places of business arranged in Numerical Order upon their respective streets.

In the following list the numbered streets are arranged in numercial order followed by the named streets in alphabetical order, with the location of Intersecting Streets clearly shown.

The symbol ◎ following the name of a householder indicates that the house is owned by the person listed, or by some member of the family.

Telephone numbers, as supplied to us on our canvass, are shown opposite names. Exchange is FIreside.

(This section includes some listings reading "No Return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unseccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers and have no other significance.)

CITY DIRECTORY USAGE SOARS TO NEW HIGH!

Post-war relocation of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just over the horizon of the future—these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage.

MORE PEOPLE
SEE CITY DIRECTORY ADS!

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CITY DIRECTORY ADVERTISING IS *National* ADVERTISING

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

★

Therefore your ad in the City Directory is seen by buyers from coast-to-coast
