PUBLISHERS NOTE

This directory contains public information gathered by an actual door-to-door canvass and is compiled in a way to insure maximum accuracy.

The publishers cannot and do not guarantee the correctness of all information furnished them nor the complete absence of errors or omissions, hence no responsibility for same can be or is assumed.

The publishers earnestly request the bringing to their attention of any inaccuracy so that it may be corrected in the next edition of the Directory.

INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,300 city and suburban Directories, present to subscribers and the general public, this, the latest edition of the Westfield City Directory, which also includes Cranford, Garwood, Kenilworth and Mountainside.

Confidence in the growth of Westfield's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the City Directory is a mirror truly reflecting Westfield to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Westfield City Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings-A catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Westfield and vicinity, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The City Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, included on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Westfield, including Cranford, Garwood, Kenilworth and Mountainside, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, on green paper. In this section the numbered streets are arranged in numerical order followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols and Zip Codes.

IV THE NUMERICAL TELEPHONE GUIDE is the fourth major department, printed on blue paper.

Community Publicity

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as place of residence, as a business location, as a manufacturing site, and as an educational center. The publishers have placed copies of this issue of the City Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Westfield including Cranford, Garwood, Kenilworth and Mountainside.

The Westfield Directory Library

Through the courtesy of the publishers of the Westfield City Directory, a Directory Library is maintained in the offices of the Westfield Area Chamber Of Commerce, for free reference by the general public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The antecedents of Westfield's tale can be traced back to 1644, when Charles II of England granted to his brother, James Duke of York, the area between the Delaware River and the Connecticut River. Richard Nicholls, the acting governor, encouraged immigrants to

settle there and in 1644 Elizabeth Town was founded. While the Dutch and English were settling in Elizabeth Town, the site of Westfield consisted of little more than the Minisink Trail, which the Indians followed on their annual spring migration to the sea in search of shellfish. The Indians in the area were a subtribe of the Lenni-Lenape nation, called Raritans by the settlers. As often has been the case, a great many misunderstandings arose as to the extent of the various tracts which were originally purchased from the Indians. The land which is now Westfield was at first known as the Baker Tract, as it was believed that Nathaniel Baker had been given or had purchased from the Indians, this land. The area of his original homestead is now the site of the Town Hall. Nearby is Mindowaskin Park named after one of the Indian chiefs from whom Baker purchased his land.

Westfield itself really dates from the land allotments of March 4, 1700. The name of the area is quite naturally derived from the fact that the landowners living in Elizabeth Town would consider these properties as their "westfields." As Elizabeth Town attracted more and more settlers, there was need for more land and several areas owned by Elizabeth Town (including Westfield) were appointed in 1700 and given out in 100 acre lots. By 1720, Westfield seems to have established its identity as a village, with a store or some other central gathering place. At this time the community included such places as Plainfield, Scotch Plains, Crane's Ford (Cranford), Clark and parts of Rahway. The area remained in the Borough of Elizabeth until it became a township in 1794.

In earliest times the center of Town was considered to be the area where Central Avenue and Mountain Avenue join Broad Street. Here was located the old Westfield Tavern, the Meeting House, the Presbyterian Church and the residences of several of the leading citizens including Doctor Philemon Elmer, for whom Elmer Street was named.

During the 18th Century, the town was very rustic indeed. The inhabitants made their living from agriculture almost entirely. The growing of grains and the tending of cattle and sheep were the principal interests. There were flour and grist mills and a tannery. The community was known for its good cider. Wolves were often found roaming the town and a bounty was placed on them. From its founding until the 1830's the town changed very little.

If the dynamic growth of Westfield in the nineteenth century could be attributed to any one force it would unquestionably be the railroad. About 1750, transportation between Elizabeth Town and Westfield was by stage coach and the only way to get from Elizabeth Port to New York was by rowboat. It was not until 1790 that ferryboats and in 1808 steamboats, came into use between these two points. The stage coach going west to Philadelphia stopped at Samuel Downer's store on Broad Street three times a week with the mail and to pick up any passengers. In 1832, the citizens of Westfield rarely visited New York, perhaps once ten years. In May 1838, the Elizabeth Town and Somerville Railroad was opened with the backing of Samuel Downer II. The project was called "Sam's Folly." The railroad had but a single track with wooden rails covered by an iron strip. The company had only two wood burning engines and ran two trains a day, one each way and both very slow. It was not long, however, before the engines were improved and the trip speeded up by a trestle built over the Jersey meadows to extend the connection directly to Jersey City. The railroad soon became the keystone in the economy of the Westfield.

The development of the railroad opened the way for the phenomenal population growth of Westfield from 875 in 1882 to 9,063 in 1920. By 1930, there were 15,801, and in 1960 there were 31,447 people. Along with the increase in population has come the development of a fine school system. In 1750, classes were held in the first school within the town limits, which was a log cabin in the Central Avenue and Mountain Avenue area. The school records of the town date from 1809, but it was in the middle of the nineteenth century that a regularly supervised school district was set up.

Westfield remained a township until March, 1903. At that time it was reorganized as the Town of Westfield and elected its first mayor, Martin Welles. Even before it became a town, the people of Westfield realized they had to work together to provide themselves with certain necessary services. Their public library grew out of the Every Saturday Book Club, which was in operation as far back as 1874. In 1878, its name was changed to the Westfield Public Library. In 1905, Andrew Carnegie donated $6,000 towards a building which was erected on Broad Street at the foot of Mountain Avenue.

In 1869, twenty or more Westfield citizens banded together to form the "Westfield Thief Detection Society." Several other citizens later took it upon themselves to perform the police work of the town which consisted mainly of tracking down horse thieves who strayed into town. It was not until 1900, that a uniformed force was organized consisting of five men.

The Westfield Hook and Ladder Company No. 1 was organized in 1875 shortly after a serious fire destroyed a number of stores on Broad Street. The new fire company's

equipment consisted of a hood and ladder truck, and a Little Giant Chemical engine, but most of the work still had to be done by a bucket brigade. In 1883, the Westfield Fire Department was incorporated with the joining together of three volunteer companies.

There is much about Westfield today which shows the distinctive traits of its history and a great debt is owed to those early settlers who laid down the basis for present day Westfield. Within the last century the town's growth has been phenomenal, but its foundations were laid with such care and intelligence that they have been able to adapt themselves and expand with the great demands made upon them.

We think you will like the town.

Transportation

Westfield's location makes travelling easy. A drive of less than an hour takes you to the docks in New York City, from which ships leave for ports all over the world, and it takes less than half an hour to get to Newark Airport. The New Jersey Transit runs a regular commuter service to Newark and the PATH runs to downtown and midtown Manhattan Metropolitan 131 off the Gordon State Parkway offers Metroliner service to Washington D. C. and many other points. The Somerset Bus Company also takes you to midtown Manhattan. The transport of New Jersey buses travel to Elizabeth, Newark, Plainfield and Somerville.

Entrance No. 135 to the Garden State Parkway is only a couple of miles away, and the New Jersey Turnpike can be reached with a very few minutes. It takes a little over an hour to reach the Jersey shore resorts and about the same amount of time to go to the lakes and parks in the northern part of the state.

Government

The Town of Westfield is governed by a Mayor-Council form of government. The governing body is comprised of a Mayor and eight Councilmen. The Mayor and Council are elected at bi-partisan elections for two year terms. State law requires that the Mayor be a citizen of the United States and a resident of the Town for at least one year. He may succeed himself by re-election. Members of the Council are also required to be United States citizens and must be residents of the Ward which they represent. They may be re-elected.

Education

The emphasis is on education in Westfield's 9 public schools where staff members and students seek excellence in each endeavor under the direction of School Superintendent Laurence F. Greene.

It's a well-known fact that a community will get the kind of schools it wants. In Westfield, citizens want schools in which each person performs to the best of his or her ability. This striving for excellence has earned the community's schools a reputation for high quality of instruction by staff and performance by students.

There are 6 neighborhood elementary schools from some 3,100 kindergarten through sixth grade students, two junior high schools for about 1,700 seventh through ninth grade students and a high school with about 2,000 students in grades 10, 11 and 12.

There is an active special services department to help students with learning disabilities and classified handicaps. Learning Assistance Teams begin to develop programs to help students needing assistance prior to formal testing and diagnosis by the professional Child-Study Team. There are resource rooms for the handicapped to provide extra-help as needed.

Elementary classrooms contain heterogeneous groupings of students, averaging 26 students per classroom teacher in grades one through six. Teaching students to read, write, spell, add, subtract and multiply is basic in the elementary curriculum. Specialists aid the classroom teacher in the instruction of reading, mathematics, library-media skills, health, physical education, art and music.

Classes at the two junior high schools are organized on a departmental basis. A basic curriculum is enhanced with the opportunity to take elective courses in four foreign languages, fine and industrial arts and contemporary living (formerly known as home economics). Each student is assigned a guidance counselor, beginning in the seventh grade.

Westfield High School graduates continue their education at the rate of approximately 85% going on to further study and about 70% going to four-year colleges. The high school

has been accredited by the Middle Atlantic States. More than 170 courses are offered in college preparatory subjects, business, vocational and work-study programs. Advanced placement courses, for which students can obtain college credit, are offered in English, mathematics, sciences and foreign languages. Six students in the class of 1977 achieved finalist rank in the National Merit Scholarship program.

There is a compensatory education program to help students who fall below expected achievement in communication and computation skills. There is also a federally-funded Title I program to help elementary students develop needed communications skills.

Information about the school system is available at the Westfield Public Schools administration building, 302 Elm Street. Telephone 654-6400

Recreation and Entertainment

Westfield's first Recreation Commission was formed in 1937. This commission of seven persons, appointed annually by the Mayor and serving without pay, is in charge of the town's recreation program under a full time recreation director.

RECREATION PROGRAM-The summer playground enrolls about 4,500 children for an eight week period of organized play. There are nine supervised playgrounds, each under the direction of a leader with two assistants, offering a wide variety of sports, games and art for fun. There are various tournaments held. Outdoor ice skating in winter at three areas, a community swimming pool went into operation in 1970, band concerts sponsored every Thursday evening from the end of June through the first week of August at Mindowaskin Park.

PARKS-There are six parks in Westfield: Clark Memorial with 9½ acres, Gumbert, with 6½ acres, Mindowaskin with 12½ acres, Tamaques with 100 acres, Brightwood Park with 44 acres and Westfield Memorial Pool & Park with 17 acres. Tamaques Park has facilities including hard ball diamonds, Little League diamonds, basketball, horseshoe courts, softball diamond, shuffleboard courts, tennis courts and a picnic area with fireplaces, tables, benches and a shelter. There is a fulltime caretaker. Intended for the use of Westfield residents only. Permits are required for the use of shuffleboards, tennis courts and fireplaces. The permits and reservations may be obtained at the Recreation Commission office.

COUNTY PARKS AND RECREATION-The special features of the nearby County parks are boating and picnicking at Echo Lake Park, a swimming pool at Rahway River Park, Trap and Skeet grounds at Nomahegan Park in Cranford, and archery range and hockey field at Cedar Brook Park in Plainfield. In the Watchung Reservation are the riding stables, extensive bridle paths, Lake Surprise and the Trailside Museum. There is organized riding at the stable for all ages from eight years old and up. There are 3 Union County golf courses: Ashbrook in Scotch Plains, Galloping Hill in Kenilworth and Oak Ridge in Clark. There is an illuminated 9-hole Pitch and Putt course at Galloping Hill, and a 9-hole Pitch and Putt course at Ashbrook.

YMCA-YWCA-The YMCA-YWCA is equipped with swimming pools, gymnasium, clubrooms and a dormitory for men. In addition to individual schedules of classes and club programs, the Y's jointly sponsor Red Cross Life Saving courses and Adaptive Aquatics for handicapped people. The YMCA, besides regular swimming classes has family swim programs. There is a day camp for boys in the summer, Indian Guides for father and son, and Ranger Camp for older boys. Camp Wawayanda and Camp Speers, the YMCA camps in this area, Senior Hi Y, Junior Hi Y, Y-Teens, Old Guard, Y's Men's Club, Junior Leaders' Club and Westfield Congress are some of the many clubs for various ages.

The YWCA has swimming classes for all ages and offers instruction in ballet, tumbling, tennis and modern dancing. There is a summer day camp program for girls, aged seven through eleven. Clubs for young teens to sprightly oldsters range from Hi-Y and Y-Teen to Rake and Hoe Garden Club, Single Parents Club and the Friendship Club. Camp Eljabar is a girl's camp for this area. An outstanding success is the Newcomers Club which does so much to help new people in town feel at home. A Ladies Day Out program, which runs from fall to spring, offers a wide choice of classes. Baby-sitting service is available.

BOYS SCOUTS-In Westfield there are 750 Cub Scouts, divided into 15 Packs and 650 Scouts in 13 troops and 25 Explorers in 1 Post, a number in the "Order of the Arrow." Each Cub Pack and Scout Troop is sponsored by a church or school.

GIRL SCOUTS-There are 1,000 Girl Scouts plus 225 adults in Westfield alone. The troops usually meet in schools and churches. Scout ages range from 6 to 17 and are divided into Brownies, Junior Cadets and Senior Scouts. The Council owns two camps.

WESTFIELD SPORTS LEAGUES-1,500 plus boys and girls participate in baseball, softball, basketball, football, wrestling, and soccer. 400 parents take an active part and are a contributing factor to the success of all leagues.

OTHER-There are bowling alleys in Westfield and nearby Clark and Mountainside. Westfield has a large public library, five movies and several private swim clubs. There is also a local private country club and several others nearby.

Health

WESTFIELD BOARD OF HEALTH-The seven members of the local Board are citizens presently including two physicians appointed by the Mayor with the approval of the Council for a term of four years. Meetings, which are open to the public, are held on the first Thursday of each month at 5:00 p.m. in the Municipal Building. The responsibilities of the Board of Health are:

a. Control of communicable diseases
b. Environmental sanitation
c. Vital statistics
d. Laboratory services
e. Maternal and child care
f. Health education

The Board of Health office is in the Municipal Building. Appointed by and responsible to the Board are three full-time and one parttime employees. The Health Officer, who is also Registrar, is a licensed health officer. He is responsible for the enforcing of the regulations of the State Department of Health and of the local board, the recording of vital statistics and the sanitary inspection of food and establishments, such as restaurants.

VISITING NURSE AND HEALTH SERVICES-In January, 1968, the District Nursing Association (D.N.A.) merged with the Visiting Nurse Association of Eastern Union County to become the Visiting Nurse and Health Services (V.N.&H.S.). The main office is at 354 Union Avenue, Elizabeth (352-5694). The Westfield office at 773 Central Avenue, Westfield (232-0709) provides service for residents of Westfield, Mountainside, Rahway and Clark.

Nursing care in the home is given to the chronically ill, the aged, the infirm and the handicapped under the orders of physicians. There is a fee for service, but this is adjusted to part fee or no fee when necessary (no one is refused service because of inability to pay fee). The United Fund of Westfield, the Mountainside Community Fund, the American Cancer Society and the Multiple Sclerosis Society are some of the organizations which provide partial support for this voluntary agency.

Under a contract with the Westfield Board of Health, public health nursing service is provided for the maternal and child health and adult health guidance programs, the communicable disease program and for the private schools on a parttime basis. The Board of Health conducts a Child Health Conference for infants and pre-school children not under regular medical supervision. The visiting nurses and a physician staff the conference.

HOSPITALS-Westfield has over 70 doctors, over 50 dentists and an excellent volunteer rescue squad. Complete and modern hospital facilities are available in Plainfield (Muhlenberg Hospital), Summit (Overlook Hospital) and Rahway (Rahway Memorial Hospital).

Parking and Shopping

Parking facilities are fitted to everyone's needs. Broad Street, Elm Street, Quimby Street, North Avenue, South Avenue and Central Avenue all have one hour meters to insure adequate turnover for short term parking. These meters allow one-hour parking for a dime and half hour parking for a nickel. At several important points you will find meters which allow only thirty minute parking for those who have only one quick stop to make. Several off-street lots are furnished for both short term and all day parking. In addition, lots located off South Avenue and North Avenue along the Central Railroad tracks contains 439 twelve-hour meters for commuters and 75 one-hour meters for shoppers. For details, refer to downtown area map.

The Business Area of Westfield contains an excellent variety of modern shops which can fill all your needs, as well as a large department store located on North Avenue.

KENILWORTH

Statistical Facts

FORM OF GOVERNMENT-Mayor and Borough Council.

POPULATION-8,229 (1980 U.S. Census).

AREA-2.59 square miles.

ALTITUDE-90 feet above sea level.

CHURCHES-5, representing leading denominations.

EDUCATION-1 public and 1 high school, regional (Springfield, N. J.), with adequate grounds for play and recreation, 1 parochial school.

BOROUGH STATISTICS-Fire Department, Volunteer, with chief and 44 men, equipment includes 6 pieces of motor equipment and 7,000 feet of hose. Police Department has 24 men including chief. Equipment includes 5 pieces of motor equipment, plus 2 ambulances. Civil Defense has 2 pieces of equipment.

The Borough was incorporated 1907.

LIBRARIES-Free Public Library with 10,000 (estimate) volumes.

PARKS-3 Borough and 1 County.

FINANCIAL DATA-1 savings and loan association, with assets of approximately $860,000,000 (January 1, 1972), consisting of 20 area offices, 2 national state banks.

Active public works, city garbage disposal.

General Review

Kenilworth was incorporated with the idea of a community composed of small home owners and it has so remained. Ample stores have located to provide most all needs. Kenilworth has a plentiful supply of pure water. Police and fire departments are modern, with first class modern equipment, splendid borough hall, educational system of high rank, excellent streets. These and other attractions not mentioned have caused many people to build new homes and make the Borough a fine place to live.

Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

GARWOOD

Statistical Facts

FORM OF GOVERNMENT-Borough.

AREA-.69 square mile.

ALTITUDE-90 feet above sea level.

POPULATION-4,748 (1980 U.S. Census).

CHURCHES-3, representing leading denominations.

EDUCATION-3 public schools, 1 parochial school.

BOROUGH STATISTICS-Police department has 14 men and 3 pieces of motor equipment. Fire department has 50 volunteer men and 3 pieces of motor equipment, 3,000 feet of hose, first aid squad and 2 ambulances.

General Review

Industrially, the location of Garwood is such that it might be called the industrial center of Union County.

The present borough was incorporated in 1903, and at that time had 75 houses and a population of about 400. At the election, 91 votes were polled, and from this beginning came Garwood's existence as an independent municipality.

Its growth and prosperity have been intimately connected with the development of its industries. Having the advantage of excellent railroad facilities, there are, at present about 40 industries and 100 business establishments.

The public schools, of which there are three, in addition to classroom work, have a manual arts department, domestic science department, school nurse, physician and dentist. Lincoln School contains a gymnasium and auditorium.

Of churches, there are three-St. Paul's United Church of Christ, Garwood Presbyterian and Church of St. Anne.

A volunteer fire department of 50 men incorporated as Liberty Hose Company No. 1, has for its equipment-1 ladder truck and pumper, 1 combination pumper, 87 fire hydrants, 23 fire boxes and 4,000 feet of hose. Garwood's police department consists of 14 men on eight hour shifts, 10 special police officers, 11 school crossing guards and three pieces of motor equipment. The streets and public works department consists of nine men, three garbage packers, Road Equipment and trucks.

Garwood has excellent fire and police protection. Borough hall provides office space for some of the borough's various officials. Educational system of high rank, stores for all ordinary needs, including a new modern shopping complex. Banking facilities are provided by the National Bank of N. J. & Garwood Savings & Loan.

If you think your business is so good you don't have to advertise . . . you could be in trouble.

PROPERLY USED, YOUR CITY DIRECTORY IS ONE OF THE BEST SELLING TOOLS

CRANFORD

"THE VENICE OF NEW JERSEY"

Statistical Review

FORM OF GOVERNMENT-Township.

POPULATION-24,566 (1980 U.S. Census).

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

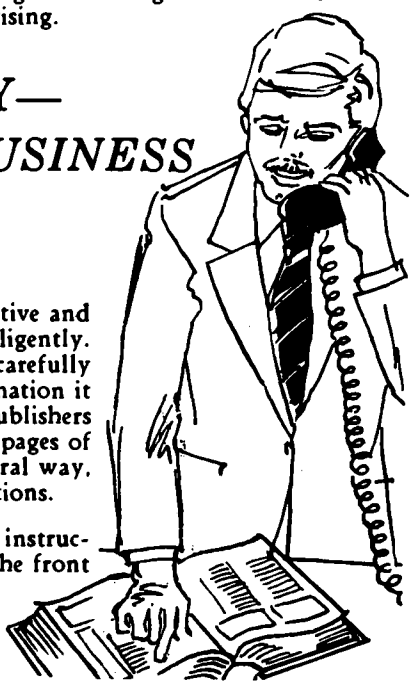
A Prospective Purchaser Turns To The Advertising Department Covering The Desired Business And Selects Certain Names And Addresses. Will He Find Your Advertisement There? If Not You Lose The Business And Your Competition Gets It Through His Advertisement In The Directory

USERS AGREE . . .

1. The City Directory is the only record in existence that aims to identify every adult resident in your community with sufficient other information enabling you to select and contact your best prospects for sales and service.
2. The City Directory's Street Directory is again the only "complete" Street Directory of all streets and residences in your community and, therefore, is the only sure way to identify everyone in a given area or on a given street.
3. The City Directory is unequaled when used for verification of information by your sales, service and office personnel and is considered a virtual necessity by most business and professional firms.
4. The City Directory pays back its cost many times over when used intelligently in the daily conduct of business by those in your firm who come in contact with your customers and prospects or have anything to do with processing information about them.



PRESTIGE ADVERTISING

By having and using your own copy of the local City Directory, you can positively identify—and reach—the kind of person, business firm and family that are most likely to be in the market for the type of product or service that you sell. Through the City Directory you'll be reaching the individuals and businesses with the top purchasing power in your community . . . those who consistently buy when they want to buy, not when they have to.

By advertising in your local City Directory, you can make sure these same people can identify and locate YOU.

You join with the backbone of your community business life; you become an integral part of the permanently established, successful firms in your community when you advertise in your local City Directory. This is prestige advertising without the financial penalties normally associated with prestige advertising.

YOUR CITY DIRECTORY— *AN INVESTMENT—A BUSINESS TOOL*

That will return tremendous dividends in the effective and efficient operation of your business when used intelligently. Be certain that everyone in your organization is carefully instructed and thoroughly familiar with the information it contains and how to use it. To assist you, the publishers have included detailed instructions on the opening pages of each of the four Directories which should, in a general way, familiarize each user with its contents and applications.

Also, should you desire additional copies of these instructions, please write the publishers at the address in the front of your Directory.

USE YOUR ALPHABETICAL DIRECTORY FOR .....

— *Efficiency...* IN EVERYDAY BUSINESS TRANSACTIONS

Accurate names and titles for correspondence
Complete Mailing Addresses including apartment numbers
Identifies signer of letters, statements or checks
Changes in employment, address, etc. for up-dating files
Accurate corporation and company names and principal officers
Identifies payments on accounts with same or similar names

— *Investigations* ... SAVES TIME AND CUTS COSTS

Identifies individuals, applicants, etc.
Verifies employment
Shows wife's name and employment
Locates references and relatives
Homeowners identified
Shows information about people without telephones
Indicates "double-income" families

— *Cashing Checks...* PROTECTS AGAINST BAD CHECKS

Identifies the stranger
Verifies address, occupation, employment
Reveals possible false statements
Provides information for "test" questions

— *Collections...* RECOVERS $$$ FROM UNPAID ACCOUNTS

Traces "skips," shows where now living
Indicates job "skip " now has and where employed
Locates relatives of "skip" shows their address and employment
Locates former business associates, friends and others who knew "skip"

— *Try This...* (OLD N.G.'s, DELINQUENTS AND "RETURNED AS UNCOLLECTABLE")

Look up the names in your newly delivered city directory. Changes of address may be found. Check for employment. New employer may provide a contact. This should be a standard procedure as soon as you receive your copy of the new city directory.

— *Sales...* A POWERFUL SALES TOOL

Where Employed?
Indicates earning potential, buying ability
Opportunities
Identifies business interests
Indicates buying power of neighborhood
Business Owner? Officer ?
Who's who in your community?
Identifies business associates, additional prospects, leads
Business Firm? Corporation?
Principal Officers, owner, partners, manager, director
Shows location of branch offices
Type of business or services
Householders
Indicates heads of families, roomers, other adults in family
Shows students 18 yrs., or over, members of armed forces, retirees
Married? Single?
Shows wife's name, middle initial
Identifies single adults,
