Sunday School Forum At Pillar of Fire Church

GARWOOD — A forum on the purposes, advantages and methods of Sunday Schools was held at the Pillar of Fire Church, Willow avenue, Saturday and Sunday, with guest speakers and Sunday School leaders from various neighboring communities giving viewpoints, sharing experiences, and asking questions.

During the discussion, juvenile authorities were quoted as stating that young people who go regularly to Sunday School have a remarkably low incidence of serious misdemeanors compared with those who do not regularly attend, and it was declared that this phenomenon does not hold true for the youth who attend church some but not Sunday School. One of the reasons given for this was that Sunday School provides young folks with a close acquaintance with the Word of God itself, which was defined Sunday as "the manifold wisdom of God."

The Rev. John Gross, pastor of the Pillar of Fire Church, is assisted in the Sunday School work by Miss Margaret Lyons, principal of Alma White College, and by Miss Ruth Brown, graduate student at Columbia University. Guest speaker was the Rev. Conrad Wehrman, who directs a Sunday School in Newark.

Aid Squad Fund Total Now $4,258

Contributions to the First Aid Squad building fund yesterday had reached a total of $4,258, it was reported by Walter M. Cooper, chairman of the drive for funds to finance construction of a first aid building at Centennial avenue and North avenue, east.

Mr. Cooper said a nearer approach to the goal of $10,000 is expected when reports from all 12 districts of the community and from bussess and industry have been received. He reported that some generous contributions have been received from business and industrial concerns, but that many are still to be heard from.

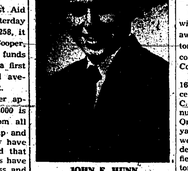

Indications are that the final total will be sufficient to permit early start on the headquarters building to house the squad's two ambulances and equipment and provide a place for meetings and drills, the drive chairman declared. He said that floor plans already have been drawn up and that the next step will be preparation of complete plans and blueprints. Squad members propose to do much of the construction work themselves to keep the cost down.

Contributions to the building fund may still be sent to the treasurer, Harold Compagni, at the Cranford branch of the Suburban Trust Company.

Although delivery of the squad's new $10,000 first aid ambulance is not scheduled until July 5, Mr. Cooper announced today that a demonstration vehicle exactly like the one purchased for Cranford will be on exhibition at Warner Plaza on Saturday, June 12, during the Cranford Days celebration.

Victor D. Shaheen, squad president, reported that a demonstration of the $544 resuscitator presented to the First Aid Squad by the Rotary Club will be featured at a regular squad meeting in the Municipal Building next Monday night. Mrs. E. M. Stephenson of Hollywood avenue, former Army PFC, now returned to civilian life, has been awarded the Army Commendation Medal for outstanding performance of duty in Korea from November, 1952, to September of last year, according to an announcement made today by headquarters of the New Jersey Military District in Kearny.

Mayor Urges Residents' Cooperation in Garden Hose Schedule to Prevent Hazardous Water Pressure Drops

Mayor Fred P. Andersen today appealed to Cranford residents to cooperate fully in what he referred to as the "very reasonable conservation effort" inaugurated this week by the Plainfield-Union Water Company and the Inter-Municipal Committee, composed of representatives of communities served by Plainfield Union.

Under the joint plan sponsored by the company and the committee, two nights each week have been assigned to each municipality for use of garden hoses. Cranford residents are requested to use their hoses only on Tuesday and Friday nights, starting at 9 p.m.

Water pressure records at fire headquarters showed little deviation from normal as the temporary conservation measure went into effect on Tuesday of this week. Fire Chief Howard G. Schindler reported a pressure reading of 65 pounds per square inch at 6 a.m. with a decrease setting in at 7 a.m., and continuing until a low of 50 pounds was reached at 1 p.m., probably due to washing held over until Tuesday because of the holiday Monday.

Pressure remained fairly constant for the rest of the day, with readings of 54 pounds at 2 p.m., 55 at 3 p.m. and a steady 50 from 4 to 7 p.m.

Chief Schindler reported there was a quick dip in pressure to slightly under 50 pounds at 9 p.m., as Cranford's first period of hose use under the conservation schedule began, but readings started up again soon thereafter and continued to rise until a high of 68 pounds was reached at 3 a.m.

At 9 p.m. on June 27, 1953, the date of the first instance of dangerously low water pressure in this area last summer, the water pressure graph at fire headquarters here showed a "pressure" of only 8 pounds per square inch.

Mayor Andersen said he felt sure that local residents, remembering the inconvenience and hazards caused by low pressure last summer, would be sure to cooperate in the early maintenance of conservation measures this season. He pointed out that the plan not put into effect with the idea that "it is better to be safe than sorry."

The mayor added that committee

Scholarship Winner

MISS BETTY LOU BLAKLEY

Nurse Award Of VIA Won By Senior

Miss Betty Lou Blakley, daughter of Mr. and Mrs. George H. Blakley of 35 Wade avenue, has been selected as the first student nurse recipient of the Nursing Scholarship presented by the Village Improvement Association.

The award, made possible by the proceeds of the fashion show which the VIA sponsored in March, covers a complete three-year training period and is valued at $350. It is a joint project of the Senior, Junior and Nursing Departments of the V.I.A.

Miss Blakley, a senior at Cranford High School, has been active in the Girls' Athletic Association, assistant business manager of the yearbook, Tower, and served on the "Spotlight" staff. She was also a member of Student Council, a hall monitor and has played hockey and baseball on the girls' intramural teams. She has served on the Junior Prom and Class Dance Committees, has been a member of the Girls' Glee Club and took the part of the maid in "The Ivory Door," the senior class play.

Miss Blakley attends St. Michael's Church and is a member of the Catholic Youth Organization.

The scholarship committee consisted of Mrs. Charles Bedden, chairman; Mrs. James P. Duffy, from Senior VIA; Mrs. J. J. Walsh, Mrs. Leroy Wilson, Evening Department Boosters' Club Wednesday evening in the cafeteria of Cranford High School.

A well known middle distance runner, Mr. Ashenfelter is now an agent for the Federal Bureau of Investigation. At the last Olympics, he won the steeplechase in eight minutes, 45.4 seconds. He is a graduate of Penn State University and has been a top-notch two-and three-miler in recent years as a member of the New York Athletic Club.

Fred Voorhees is chairman for the dinner, and he is being assisted by Jim Avery, George Albertson, George Lincoln and Magistrate Charles J. Stevens.

William Blake, president, announced that Michael Ferro has been named chairman of the scholarship committee. Mr. Avery and Mr. Lincoln are the other members. Mayor Andersen presided.

The purpose of the scholarship committee, which will select a candidate for the annual award of about $300. The selection, Mr. Blake said, is based 50 percent on scholarship, 25 percent on participation in athletics and 25 percent on participation in other activities. The winner of the award will be announced at commencement.

The club's annual prize to the best foul shooter on the basketball team will be presented at the dinner. Awards will go to all lettermen on the basketball, indoor track, outdoor track, tennis, golf and baseball teams. For the first time, all members of the teams will be invited to dinner rather than just the letter winners as in the past.

Plea for Faith, Tolerance Heard at Memorial Rites

A plea for tolerance and faith was voiced today by Mayor F. P. Andersen during Cranford's annual Memorial Day observance Monday at Memorial Tablet, North Union and Springfield avenues. Aided by perfect weather, the exercises attracted the largest parade and largest throng of spectators in the township's history.

"We honor today men who died for a basic American belief, a belief in liberty, a belief in tolerance," Mayor Andersen declared. "If we take a lesson from this moment of quiet reverence, it will be the lesson of tolerance and faith with which we will so much more strongly resist the divisive forces which have been preaching hate among Americans. Hate will produce an evil spawn. Hate will produce insanity. Insanity, the lack of faith in ourselves and in each other, will produce our ultimate downfall.

"Those who went before are with us today in spirit and, because the things of the spirit are mightier than the material things, they are with us more strongly armed in the fight for which they died than when they bore the mighty arms of destruction. Let us now, speaking in the remembrance of them, pledge ourselves to understanding, to tolerance, that we may in the years to come be proud to say in those same honored dead — we have kept your faith."

Gus Cohen was general chairman of this year's committee and Herbert Crooks, commander of Unity Chapter, DAV, was master of ceremonies. The roll call of Cranford's war dead was called by Sgt. Irving Alexander and Cranford Post, American Legion, and George Hilbert, commander of Capt. C. Fiske Post, VFW. The Rev. Frank V. H. Carthy, rector of Trinity Church, offered the invocation, and the Rev. Robert G. Longaker, pastor of the First Presbyterian Church, the benediction.

Music during the program was provided by the High School Band, under direction of Louis Hazar. John Hand recited Lincoln's "Gettysburg Address," and Fred Sieg led in the Boy Scout Memorial service. Robert Konapack led in the pledge of allegiance to the flag. Community singing was under direction of Robert S. Dow.

Urges Conservation

(Continued from page 1)

he has heard thus far indicate people feel there is no onerous restriction in the plan to share the available water equally.

Mayor Andersen pointed out that the plan for staggered use of garden hoses is only temporary. Solution of the water problem of the area for this summer is expected with the completion, scheduled for July 15, of a 24-inch pipe line from Scotch Plains to Westfield to permit utilization of surplus water purchased from the Elizabethtown Consolidated Water Company. This new line would be capable of handling 8,000,000 gallons of water a day. Plainfield-Union already has contracted with Elizabethtown for between 2 and 3 million gallons a day.

Plainfield-Union also has drilled six new wells in Kenilworth, Mountainside, Westfield and Greenbrook, with a total capacity of more than 5,000,000 gallons a day, which are ready to go into service as soon as approval is granted by the Water Policy and Supply Council.

It is expected that the Inter-Municipal Water Committee will call a meeting in the near future to receive the final draft of a report on the water company's facilities and suggestions for expansion and improvements now being prepared for the committee by Malcolm Pirnie Engineers of New York City. A copy of this report also will be submitted to the holdover January session of the Union County Grand Jury for study in connection with its investigation of last summer's water pressure drops in parts of the county.

The Grand Jury now has under consideration letters from the mayors of municipalities served by Plainfield-Union in which they outline the experiences of their municipalities last summer and steps taken to prevent recurrence of pressure failure again this season. The mayors had been requested to submit those reports by June 1.

The winners of the awards are: Miss Elinor Stearns, daughter of Mr. and Mrs. J. Brenton Stearns of 38 Monsign terrace; Miss Sally Shepherd, daughter of Mrs. Zada Shepherd of 19 LaSalle avenue, and Miss Gertrude Ramsey, daughter of Mr. and Mrs. Frank E. Ramsey of 9 Lawn terrace.

Miss Ramsey and Miss Stearns also won $200 scholarships offered by the Cranford College Club, while Miss Stearns also is the recipient of a similar award given by Baldwin-Wallace College, Berea, O., where she will specialize in elementary education.

Miss Shepherd has also been awarded a $450 scholarship by Sophie Newcomb College, New Orleans, the women's division of Tulane University. She plans to enter medical-social work and will probably major in pre-medical. At Cranford High School, she is secretary of the Forum Club, captain of the assembly ushers, a member of the Biology and Vocational Medicals Clubs, the Girls' Athletic Association and the Student Council and a member of the staff of the "Spotlight," school newspaper. She is also secretary of the Union County Student Forum Association, a member of the Junior Achievement movement and a Girl Scout.

Beaver College, Jenkintown, Pa., is the college selected by Miss Ramsey. Her special interest is psychology.

John R. Magan Wins Muhlenberg Scholarship

John R. Magan, son of Mr. and Mrs. William M. Magan of 5 Grove street, has been awarded a full tuition scholarship to Muhlenberg College, Allentown, Pa.

• Garden Hose Restriction Plan Is for YOUR Benefit

Plainfield-Union Water Company and the Inter-Municipal Water Committee are to be congratulated for acting before the fact to prevent a recurrence of the low pressure incidents which plagued this area last summer. Cooperation by consumers in the garden hose use restriction plan inaugurated this week should insure adequate water for all for lawn sprinkling, car washing and other garden hose requirements.

It is to be hoped that, instead of complaining about restrictions, householders will appreciate the fact that action was taken this year before an emergency developed. With the schedule of two nights a week for hose use in the communities served by Plainfield-Union in operation, available water will be shared equally, with no one section finding itself entirely without water as was the case last summer.

Acting on recommendations made in an engineering report following a survey of its existing facilities, the water company has begun an improvement and expansion program main features of which at the moment include construction of a 24-inch pipe line from Scotch Plains to Westfield to permit use of Elizabethtown Consolidated Water Company surplus by Plainfield-Union consumers, and the establishment of six new wells in Kenilworth, Westfield, Mountainside and Greenbrook.

Completion of the pipe line, which will be capable of handling 5,000,000 gallons of water a day, is scheduled for July 15, and the new wells are ready to go into service as soon as state approval is given applications filed to draw 6,000,000 gallons a day from these sources.

Restriction of garden hose use, pending the putting into operation of these new facilities, was necessitated by an increase in consumption of 400,000 gallons a day in the Plainfield-Union area during the first quarter of 1954 and a drop below normal in the water level at the Netherwood well field because of decreased rainfall.

Bearing these facts in mind, residents of all municipalities served by the Plainfield-Union Water Company should stand ready to cooperate fully in the temporary restriction plan, for their own benefit as well as that of fellow residents of the area.

• Scholarships Help in Development of Better Citizens

As the school year nears its end, more and more reports are being published concerning high school students receiving scholarships from various colleges and universities.

In addition to assistance from colleges and universities, several local organizations have established programs to help local students attend college. The Cranford College Club, for example, this year offered five scholarships with a total value of $1,200. Because of the teacher shortage, the Cranford High School Parent-Teacher Association has given an award to a prospective teacher trainee, while the Cranford Rotary Club and Village Improvement Association saw a need for more nursing students and established scholarships to help students in this field.

Certainly these organizations can feel proud that they are helping young people become better citizens more capable of meeting today's problems. With the need for trained personnel in almost every field increasing rapidly, all efforts to aid in providing it are to be commended.

Hausmann Named Convention Delegate

At the annual convention of the United Lutheran Synod of New Jersey held at Ocean City last week, Clarence B. Hausmann of Calvary Lutheran Church was elected as the first alternate lay delegate to the bi-annual convention of the United Lutheran Church in America to be held in Toronto, Canada, this coming October. This means that if one of the three primary delegates is unable to attend, Mr. Hausmann will be asked to represent the New Jersey Synod.

Among other important actions the convention voted to make Ocean City, except under unusual circumstances, the New Jersey Synod's permanent convention city, elected to the synod's Board of Social Missions as the clerical delegate from the Central Conference. An annual budget of almost $300,000 was adopted by the synod for the year 1955.

Accompanying the pastor were Richard Mauthe of Cranford and C. Stuart Burns of Rahway as delegates.

St. Michael's Corner

By JAMES F. WOODS

The fourth century brought a young man to the gates of Rome and an extraordinary sign in the evening sky. The young man was Constantine the Great, Emperor of the West, at the head of his army. The sign in the sky was the Cross of Christ with the words "In hoc signo vinces" (by this sign thou shalt conquer). With this sign as his motto, he won the mastery of Rome and brought the Church out of the catacombs. It was the dawn of a new era for the Catholic Church.

Joyfully the their rejoining Pope Melchiades (311-314) convened the first Church Council ever held with full secular sanction. It was held in a building which was a gift of Fausta, Constantine's wife, and which as the Lateran Palace was to be the papal residence until destroyed by fire ten centuries later.

Pope Sylvester I succeeded Melchiades and at the insistence of Constantine called a general Council of Nicaea in 325 to settle the Arian schism. Arius, a priest of Alexandria, taught the Son was subordinate to the Father. Out of this Council came the Nicene Creed (Credo) which you say at Mass today. Oddly, Constantine at the time was still a pagan. He did become a Catholic later and died in 337.

Damasus I became pope in 366 and reigned till 384. He was a very great pope. He was a scholar, a legion and an administrator, zealous and wise. Missionaries journeyed to distant places synods and councils were convened. Churches were restored and others built. Work to preserve the catacombs was undertaken with papal sponsorship. He commissioned St. Jerome to revise the Bible. Except for Wisdom, Ecclesiasticus, Baruch and the two books of the Machabees, which are in the original Old Latin, all other books are his translation from the original Hebrew, Aramaic and Greek. It is known as the Vulgate and is in common use today in the Catholic Church and in Catholic homes.

Two years before Damasus died he was singularly honored by the famous Imperial Edict "De fide Catholica" issued by Theodosius which declared the official religion of the Roman State to be: "That doctrine which St. Peter had preached and of which Damasus was supreme head."

Communion Rites Slated at Osceola

The Sacrament of Communion will be observed Sunday at both services in Osceola Presbyterian Church. New members will be given public recognition at each service.

She is now studying in this country.

All men and young men of the church have been invited to attend a rehearsal of the Men's Chorus which will sing on Father's Day, June 20. The rehearsal will be held at 8 p.m. Wednesday. At the same time, a new member party will be held at the home of Mrs. J. C. Munday, 19 Hampton street.

A spring dance will be conducted by the Senior High Fellowship tomorrow evening. An invitation has been extended to the fellowships of other churches in Cranford. Beatrice Rogers is the social chairman.

Young People's Choir will rehearse at 7 o'clock tonight and the Senior Choir an hour later. Boy Scout Troop 75 meets tonight at 7:15.

The monthly meeting of Cub Pack 175 will be held in the auditorium of the Educational Building at 7 p.m. Saturday.

CHRISTIAN SCIENCE CHURCH SERVICES

The importance of understanding God and man from the standpoint of spiritual causation will be stressed at Christian Science services Sunday. The Lesson-Sermon "God The Only Cause and Creator" will include the following passage from the King James Version of the Bible:

"For thus saith the Lord that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else." (Isaiah 45:18).

Among the citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be read: "Jesus of Nazareth was the most scientific man that ever trod the globe. He plunged beneath the material surface of things, and found the spiritual cause." (313:23-26).

The Golden Text is from Revelation: "Thou art worthy, O Lord, to receive glory and honour and power: for thou hast created all things, and for thy pleasure they are and were created" (4:11).

Thought for the Week

"GOD'S GRACE"

By the Rev. George A. Aitcheson, D.D.
Cranford Alliance Church

The apostle Paul was a very brilliant man, and a man with a splendid background, and one who had been most zealous in complying with every demand of his Jewish faith; but, he had a thorn in the flesh, which seemed to hinder him somewhat during his lifetime. He had sought God on several occasions to have it removed, but of no avail. Instead, God said unto him, "My grace is sufficient for thee, for my strength is made perfect in weakness." The life of Paul as revealed in the epistles indicates that he took the fullest advantage of the grace of God.

Being a highly educated man, as well as a man of great courage, and seemingly an abundance of physical stamina; there was evidently on his part a tendency to be proud, and somewhat intolerant; so that he was kept humble, and dependent by the presence of the thorn in his flesh, of which he was very much conscious. As a result, he was an instrument in the hands of God to the blessing of thousands of souls during his lifetime, as well as being personally responsible for the establishment of many Christian churches in the section of the world where he lived and sojourned.

There is a difference, of opinion as to what the thorn in the flesh was, but he himself says it was in his flesh and that it became the messenger of satan to buffet him, lest he should be exalted above measure. Of course we learn some lessons from all of this...

I believe it teaches first of all that an abundance of the grace of God is to be more desired than deliverance from affliction, if, in such, we are inclined to lose our sense of dependence on God. Blessed is any thorn in the flesh; whether it is there directly, or coming to us through some circumstance, or the agency of other human beings, if it ever keeps us mindful of our need of God. By the way, note, it is God's grace. It is not just human graciousness which is being extended to us, it is not just a gentleman spirit that may be cultivated as a result of mingling with the upper stratum of society, or by culture or learning by observation. No, it is the grace of God imparted to the individual who surrenders to Him.

In addition to keeping us God-conscious, God's grace takes the edge off even the sharpest of thorns in the flesh. How those thorns hurt, if our unsurrendered self is not fortified by Divine grace. They annoy us so much more, and in time they get us completely out of sorts, and make us to appear at our worst so often and in so many ways and places. Grace will not necessarily eliminate the difficulties of life, but it does change the color of them and shackles their effectiveness.

Now, reader: What is your thorn in the flesh? Is it some disease? Some provocative circumstance from which you cannot extricate yourself? Or, is it some neighbor or friend who invariably seems to rub you the wrong way? I might even suggest that it could be your fellowmen in your place of employment, or it might be the way things are going in our nation and the world, has you in a state of nervous tension. It could be ever so many things; but I remind you again, God's grace is sufficient for you if you will but appropriate it.

In closing, may I say that you will never exhaust the supply of Divine grace. No matter how many problems you have, or how many years you live to enjoy the grace of God, there will be enough for succeeding generations. So, don't be timid or doubtful. It is there; take, and the irksome things of life will be made much more tolerable.

'Challenge of Flame' Sermon Topic As Trinity Observes Feast of Pentecost

Mayor Invites Trustees, Citizens to Joint Meeting

KENILWORTH — Mayor Robert C. Krueger announced today he will invite members of the Board of Education and the Citizens Committee for the Public Schools to meet with him and Borough Council to discuss the proposed expansion program. He said a date will be set in the near future.

Mayor Krueger said there is an apparent dispute between the trustees and the committee on the need for additional facilities. The mayor said the Citizens Committee feels the Board of Education isn't moving fast enough on the program and there is a need for an expanded educational program.

Among the questions to be considered, Mayor Krueger said, are the advantages and disadvantages of centralization and decentralization, possible sites for the expansion as well as other educational needs.

A planning committee of the Board of Education headed by Charles de Gras has already reported that 10 additional classrooms are needed, but has not yet considered the possibility of a gymnasium, auditorium, industrial arts classes, cafeteria and other educational facilities.

The scheduling of the meeting follows submission of a report to Mayor Krueger and Borough Council by the Citizens Committee. The report, which was submitted Monday night, tells of the aims of the organization, statistics compiled on the borough's population and finances, and information on the school facilities survey and the site committee report.

Robert Wylie, committee chairman, said information is now being compiled on school construction costs, population trends and other factors in connection with the expansion program for submission to the joint meeting.

The planning committee of the Board of Education cancelled its meeting scheduled for last Friday evening with Frederick Elsaesser, architect. No new date has been set for the session. The trustees plan to ask Mr. Elsasser to prepare alternate plans showing the comparative cost of providing necessary additional facilities on a centralized and decentralized school system.

Signing for the union were: John Szeligz of 155 Michigan avenue, president; Peter Popolis of Roselle Park, vice-president; Bessie Gardner of Newark, secretary; Ella Fraser of Irvington, treasurer; and James P. Nesbitt, business agent, who is also second vice-president of the Independent Unions of New Jersey.

Arthur Silverman, president, and James H. Ozias, attorney, signed for the firm.

Teachers' Association Elects Miss Conover

Council Considers Planning Board Change

KENILWORTH — An ordinance to designate the duties of the Planning Board is expected to be introduced and adopted on first reading Tuesday evening by Borough Council.

The council considered the problem at a meeting last week and authorized Borough Attorney Earl Pollack to draw up a model ordinance.

Under legislation adopted by the State Legislature last year, communities are given until July 1 to decide whether they want a strong Planning Board or a weak one.

Swen Swenson, chairman, reported to the Kenilworth Planning Board favors the strong-type because it would permit the borough to obtain an injunction against builders who do not conform to building and zoning laws. The borough is powerless to act without such a law, Mr. Swenson said.

In urging council to adopt the strong Planning Board, Mr. Swenson said the Planning Board does not seek more power for itself, but as a means of protecting the borough.

CD to Buy Instruments

KENILWORTH — The purchase of two Geiger counters for testing radio activity has been authorized by the Civil Defense Council.

A decision to purchase the instruments was made by the council at a meeting last Thursday evening at Harding School. It was announced that funds were reallocated within the civil defense budget to obtain the Geiger counters. It is expected, the council said, they will cost about $70.

Plans for the forthcoming test on June 15 were discussed. Daniel Kerr, civil-defense director, said an announcement will be made in the near future on the local arrangements for the test.

Walter Dudzinski, deputy director, reported an inventory of critical medicines on hand at local drug stores has been completed by Dr. Morse Shepard and Dr. Roland Johnkins, co-leaders of the medical division.

Mrs. Marie Kelly introduced Mrs. Theresa Vitale, who was sworn-in to serve as an aide in the welfare division.

Mr. Kerr presided. Also attending the meeting were Mrs. Dudzinski, Donald Brown, John McCoy, Mrs. Vitale, Mrs. Mary Hammer, Dr. Shepard, Dr. Johnkins, Building Inspector Fred Hammer.

Chaperones and No Smoking Included In Teen-Agers' Own Plans for Dances

GARWOOD — A worth-while canteen program, from a teen-ager's viewpoint, includes provisions for dancing, games, plenty of pretzels or potato chips and soda available on the honor system, and even such items as "no smoking" and "no drinking" on the premises and an early hour of adjournment, according to the decisions arrived at by a group of local young people at Lincoln School Friday night.

This group, having recently petitioned the Recreation Commission for assistance in arranging for a series of bi-monthly dances to be open to boys and girls of high school age only, met with with Joseph Troiano, recreation director for the commission, to prepare their replies to a series of questions about various phases of their proposed dance program. The answers will be included in a letter prepared for submission to the commission at its next meeting on June 15.

With regard to age limits for those attending the dances, the group decided they wished to include freshmen, sophomores, juniors and seniors in high school, or young people of high school age if not attending school, but not over 18 years of age in the latter group.

In reply to a question from the commission as to whether freshmen should have to show some proof of parental permission to attend the dances, the young people pointed out that a freshman has to assume many responsibilities upon entering high school and should be old enough to assume responsibility for his own actions in attending a dance.

The teen-agers agreed that there should be chaperones at the dances in addition to Mr. Troiano and Miss Clare Christiano, who conduct the commission's recreational and social program for young people after school hours. They said they would like very much to have their parents take an interest in the dance program and attend as chaperones, as long as they left the administration of the project

The boys and girls promised that there be allowed to bring two guests to each affair if they wished. They said they planned to run a regular series of dances from 8 to 11:30 p.m. on two Fridays of each month during the school year, with one special affair to be arranged for each of the three seasons covered—fall, winter and spring.

It was decided that there should be games such as ping pong in addition to dancing.

All present agreed that there should be no smoking on the premises or in the school area during the dances.

It was decided also to ask the Civil Defense Police Reserves to assign men to cover each dance.

The current series of Friday night dances conducted by the Recreation Commission at Lincoln School is open also to seventh and eighth grade students and members of the older group said they would like to have their own affairs.

Blues to Defend State Track Title

Coach J. Seth Weekley's trackmen go into action for the last time this season Saturday in defending their state Group II championship at Rutgers University, New Brunswick.

The Blues face strong opposition from Roselle and Palmyra in their bid to retain the crown which they captured with a record breaking point total of 51¼ last year when the school came up with the strongest team in its history.

If the Blues are to be successful Saturday, both Fred and Hal Voorhees must be at their best. Hal is the defending champion in the 220-yard dash, but he pulled a muscle during a meet this past winter and has not been right since. Fred will be a threat in both the 100 and 220-yard dashes, while Hal will compete in the same events if his leg is in good shape.

Lou McClendon and Timmy Schuman will be counted upon to score in the quarter mile.

The winner of the half mile last year was pushed to a new record by Dick Lewis who will be favored to take the crown this year. George Weining should be right on his heels.

Dan Resnick should score in the mile and pole vault events, while Bob Paterson may pick up points in the discus and javelin and Clayton Mitchell in the discus.

In addition to Hal and Fred Voorhees, Thomas Keenan will run in the 100- and 220-yard dashes. Pat Whelan will join Schuman and McClendon in the quarter mile and Bruce Berran is also an entry in the half mile.

Rudi Mertens and Steve Beach will run in the mile along with Rearick, while Jim Schroeder and Bruce Hulick are entered in the low hurdles. The Blues' broad jump entrees are Lewis, Keenan and Walt Keye. Paterson and Mitchell are the shot put competitors for the Blues, while Weingart, Paterson and George Tarver are the javelin hopefuls. Paterson, Mitchell and Wilson are in the discus.

Although the Blues nipped Roselle in a dual sweep and swamped them by 20 points in the Four-County Conference meet, the Rams rate a serious threat to Coach Weekley's boys. They may gain first places in the mile, with Godfrey Mathews, Jr. the class in the broad jump and Don Birkholz in the shot put and discus. Leverne Hunter has been doing well in the dashes and should score, while Battles will also be a top entry in the hurdles.

Palmyra is reported to have a well-balanced squad, while Highland Park again has the top Group II team in Central Jersey.

In gaining the championship last year, Cranford had such top notch performers as Jesse Bell with seconds in the 100 and broad jump and fourth in the 220, Cliff McClendon with a first in the javelin and a fourth in the shot put, Bob McClintock with a first in the quarter mile, John Korsch with a first in the shot put, Mike Perry with a fourth in the 100 and low hurdles, George Lincoln with a fourth in the quarter mile, Johnny Ialone with a third in the shot put and a second in the discus, John Sensenig with a fifth in the half mile and Gordon Sieg with a fifth in the high hurdles.

Two Matches Scheduled For Police Pistol Team

The local marksmen have a record of two wins to one defeat thus far this season in Union County Police Pistol League competition.

VFW Gains Softball Lead

VFW moved into a one-game lead in the Cranford Recreation Softball League with two victories this week.

The veterans walloped A & P, 16-3, last Thursday evening as K. White slammed out four hits and Tom Albot belted a homerun. Kitchell hurled a three-hitter for the winners.

A four-run rally in the fifth inning gave the defending champions a 7-5 victory over the Blue Room earlier in the week. Twill was credited with the win.

Brems moved into a tie for second place with two victories. They edged the Peppermint Room, 6-4, Friday evening as Sal Lucco pitched a four-hitter and also helped with a triple and a circuit clout. Scheller and Della Sala belted home runs with one on base for Brems' runs for the Peppermint in the fifth inning.

Cummings Hardware & Paint Formicals went four-for-four as Breens ripped A & P, 17-0, last Wednesday evening.

Peppermint Room gained its third win of the season last Wednesday evening by nipping the Blue Room, 8-7. Cummings had three hits for the winner and Marino hit safely three times for the losers.

Harris Limited reached the .500 mark by winning twice. The Nomads were the victims of a 12-11 defeat last Thursday evening as Harris scored four times in the top of the seventh. Each team got 15 hits. The Harris nine broke its record by topping the A & P last week while open in the seventh frame with five runs as Rumsey pitched a three-hitter.

In the other game Friday evening, the Nomads won their first game of the year by routing the G-Men, 15-3. The winners opened with seven runs in the first inning.

The standing of the league:

Firemen Lose To Roselle Park By Score of 9-8

Cranford firemen lost a close one, 9-8, to Roselle Park in a Union County Firemen's Softball League game at Unami Park on Thursday. This gave the local team a record of four defeats to one victory.

Having scored four runs in their half of the first inning, the Cranford firemen were leading 9 to 4 after two innings, but Roselle Park came up with five runs in the third inning, tied the score in the fourth but was unable to score again before the game was called because of darkness after six innings.

There were two Cranford homeruns in the opening innings, but one of them didn't count because Wes Ditzel failed to touch third base and was called out. With Francis Heineman and Charles Kardel on base, John Errico slammed a homer to account for three of Cranford's four tallies in the first. In the second inning, Teddy Chamberlain got a double and scored on Ditzel's home run. Ditzel failed to touch third, however, so he was credited with a two-bagger and called out.

The local firemen had 12 hits to nine for the visitors. Harold Dorantius pitched the first three innings for Cranford and then was relieved by Clark Duckworth. Howard Campbell and Manager Edward Reade caught three innings each. Batteries for Roselle Park were Loehsler and Giles.

Cranford plays in Union at 6:45 this evening.

Linden Scores in Extra Frame To Edge Blues Nine, 3-2

Ed Hobbie, who hadn't worked an inning all season, was given a starting assignment Friday afternoon by Coach Paul Buonaguro and the slow-throwing righty came through with flying colors to score a single tally in the eighth inning to hand the Blues a 3-2 loss. It was the fifteenth win for the Tigers in 20 games, while it was the tenth loss for the Blues in 15 contests.

Buz Farrell, Linden relief hurler, drilled a single in the tenth for the winning score. Bob Hoffer, Linden's top-notch catcher, opened the frame with a single. Coach Chile ran for him, stole second and scored on Farrell's bingle.

The Tigers scored their first two runs in the fourth inning. Neal Ritter was on third and Hoffer on second as the result of a walk and a fielder's choice. A single by Bob Fitzik scored both of them.

The Blues scored both their runs in the third inning. George Doney led off the frame and was safe on a wild throw by the second baseman. Jack Kollarz was the starting pitcher for Cranford and the choice turned out to be a good one from an offensive as well as defensive point of view. He bunted out a double in the sixth inning to score the winning runs.

The Blues' winning rally was opened with a single by George Shafer with one down. Shafer hurt his leg going to first and he was replaced by George Doney. Ken Emmons was safe on first and Doney was thrown out at second. The next two batters, Steve Zulick and Ron Doyle, walked loading the bases. Pete Scholz clouted a double to score Emmons and Zulick. Don Stanley walked and the Cranford scare again loaded. A walk to Artie Sawyer forced in Doyle with the third run of the inning. Then came Kollarz' double to score Scholz and Staples. During the same play, Sawyer was thrown out at third by the left fielder.

In gaining his first win of the season, Kollarz got five strikeouts and walked three. Greg Janes was the losing pitcher.

After Cranford scored three times in the third inning, the Vikings came back in the same frame to tie it up. They went ahead with a run in the fifth and rallied for another in the seventh.

It was the third league win for the Blues and their sixth victory of the season. The two teams split conference games this year, both winning on foreign fields.

PTA Installs, Views Recreation Program Exhibits

Mrs. Frederick C. Behrum, Jr., was installed as president of the Garwood Parent-Teacher Association at a meeting attended by about 150 persons in Lincoln School last Tuesday night. She succeeds Mrs. Charles Shoesmith.

The evening's program included talks on the activities and future plans of the Recreation Commission, and demonstrations of tap dancing, tumbling, boxing and wrestling by children who participated in the after-school program sponsored by the commission.

Other PTA officers were installed as follows: Vice-presidents, Mrs. Shoesmith and Mrs. Joseph Leonard; corresponding secretary, Mrs. Samuel Paffenrotz; recording secretary, Mrs. Richard B. Harper, Sr., and treasurer, Arthur Walther.

Among those taking part in the demonstrations were the following people: Tumbling—John Schmidt, Ruth Ann Pecina, Richard Kappy and Peter Morris; boxing—Jerrery Johnston and John Gucyriecz; wrestling—Clifford Buchman and Russell Burton.

Parents and teachers attending the meeting were urged to exhibition of work done by pupils in the industrial arts and home economics departments and in the after-school arts and crafts and modeling classes sponsored by the Recreation Commission.

In charge of the demonstrations and exhibits were Mrs. Toolano, Frederick White, Mrs. Cecelia Jamesón and Miss Clare Christiano of the faculty, and Miss Joyce Christiano, dancing instructor.

Blasting Cap Warning Issued by Police Chief

GARWOOD — The warning "Don't Touch a Blasting Cap" was sounded today by Police Chief Fred Falzone in launching a safety campaign to protect children from accidents which last year blinded or maimed over a hundred children and adults.

Blasting caps are shiny metal tubes about as big around as a pencil and an inch and a half to five inches long. They pack deadly dangers, Chief Falzone warned. Sensitive explosives in caps can explode at the slightest shock, and the burst scatters sharp bits of metal that can puncture an eye, or sever fingers, a hand or foot, he explained.

The chief explained that he is pressing the safety drive at the request of the International Association of Chiefs of Police in cooperation with the Institue of Makers of Explosives.

Correction

Miss Jean Fulcher, daughter of Mr. and Mrs. George R. Fulcher of 113 Mohawk drive, won the nursing scholarship offered last year by the Cranford Rotary Club. Rutgers Extension Program Reviewed at Rotary Meeting

Dean Ernest E. McMahon of the Extension College of Rutgers University described the university extension departments as a "good chance" for thousands of Americans needing college training to further their employability, in a talk at the weekly luncheon meeting of the Cranford Rotary Club at the Methodist Church on Tuesday.

Dean McMahon is the son of Mr. and Mrs. Edward C. McMahon of 20 Parker Avenue. He graduated from the University of Rutgers in 1917 after having served as a private in the 1st Battalion of the 1st Regiment of Infantry of New Jersey. He was traced by the speaker through his establishment of the faculties in law and later in medicine. Dean McMahon then became a specialist in agriculture, engineering and applied science...on a major scale. Along with land grant colleges, came state universities with extended ranges of courses designed to meet modern needs.

The University of Wisconsin was credited by the speaker with being the first university to adopt an extension program with the slogan, "The State is our Campus," and reaching all those wanting further training but who could not attend the university campus. With the development of large urban institutions, city colleges, junior colleges and evening colleges, Dean McMahon said, educators came out from their ivy-clad towers to reach the community, where standards of employment demanded college training of every one.

Students now can commute to many schools where modern transit facilities increase their coverage, and evening college development now places opportunities for higher education within reach of practically all who are qualified to undertake it, according to the speaker.

He related that the "second chance" offered by evening college classes permits individuals who have had to pass up the earlier training to change their minds and to undertake the work in later time. These classes also fill an economic need where self-support prevents day-time attendance in college, he added. This movement, the speaker said, is only about 25 or 30 years old.

Dean McMahon said that Rutgers has 4,000 evening students in the first of the state colleges to establish evening courses. He said that this spring 314 students who range in age from 20 years old to two grandmothers, will receive their bachelor degrees. In addition to this full college program, he added, over 2000 are receiving instruction in other fields.

The dean pointed out that there was no fundamental change in the nature of universities, until the land grant act in the 1860's led to the establishments of schools of agriculture, engineering and applied science...on a major scale.

Two-Millionth Phone Installed Today by NJ Bell

Having a telephone installed today?

If so, there's an outside chance that it will be the 2,000,000th telephone to be placed in service by New Jersey Bell Telephone Company.

New Jersey Bell reported that at the start of the work week Tuesday there were 1,998,725 Bell telephones throughout the state and predicted that the 2,000,000 milestone mark would be reached late that afternoon.

The company said it planned no formal ceremony in connection with the record installation because there will be 100 or more telephones going into service almost simultaneously.

"We'd rather that all our customers and all our plant forces share the record jointly than designate one to receive the honors," the Company said.

Whereas it took New Jersey Bell 68 years to reach its first 1,000,000 telephone, the second million took only eight years, the company pointed out. The 1,000,000 mark was attained in February, 1946.

Several Cranford Residents to Assist In Revelation of Lady Audley's Secret

Several Cranford residents will assist in the revealing of "Lady Audley's Secret", as the Roselle Theatre Guild presents the first in a series of American plays at the Aldene School, Roselle Park, at 8:40 tonight, tomorrow night and Saturday night.

Director for this play is Allan Whitney of 19 Beech street, who is president of the guild.

Robert A. Cazley of 6 Oak lane will portray the role of George Talboys, a discarded husband from India. Other personalities appearing with Mr. Cazley will be Miss Jean Collins of Union, Miss Joan Helander and Christopher Story of Summit, A. Courtney Parin and Miss Martha Price of Elizabeth and J. Miller Spangler of Roselle.

Mrs. Helen Kempshall of 91 Cranford avenue will reproduce the old-fashioned music hall atmosphere with numerous palms and form checkered tablecloths covering tables of various sizes, and other informal decorations. Mrs. Kempshall also will act as hostess after tomorrow evening's performance as the guild entertains associate members at a reception on the stage.

The costumes are being created and designed by Miss Elsie Midgley of the Cranford Dramatic Club, assisted by Mrs. Doris Bamford and Mrs. Helen Check, both of Roselle. Mr. Cazley is business manager, and his assistant is Mrs. Kenneth Baldwin of Roselle.

William J. Wiseman of 23 Holly street will entertain the audience before curtain time with some legerdemain, and Bud Nelson of Roselle will be at the piano to provide some homespun humor.

The sets are designed by John A. Morgan, a prominent theatrical artist, Mr. Morgan has maintained his home in Roselle, for many years, although associated with the theatre in New York and Hollywood. Mrs. Bamford, his daughter, will assist him in his latest Roselle Theatre Guild venture.

As technical director, Jack Bamford of Roselle, who is active in this type of work on television and Broadway, will aid in producing many special effects. John Whittlesey of Roselle will handle the intricate lighting problems.

Mrs. Dolores Matthews of Roselle Park will direct the old-fashioned vaudeville which will follow the play, and her mother, Mrs. Bertha Floyd, will be the accompanist.

Strike Slows Work at Two Schools; Sanitary Sewer Contruction Begins

Because of the carpenter's strike in the area, four days' work by those workers was lost this week on the construction of the two new elementary schools, the Brookside Place School and the Walnut Avenue School.

The carpenters failed to show up for work last Thursday, but they returned to work on the two building projects early yesterday morning. The strike of AFL carpenters in the county was ended yesterday when they were granted a 10-cent-an-hour increase. These workers are now getting $3.30 an hour plus a 10-cent employer-paid welfare plan.

While the carpenters were off their jobs at the local schools, other work continued as picket lines were not set up. Upon hearing that the strike was over, Burton C. Belden, chairman of the Board of Education's building committee, said he was delighted to hear the good news. He hoped the Board of Education hopes to have the two schools ready for occupancy in September, but it is not known at this time if they will be ready, Mr. Belden said.

At a meeting of the Cranford Council of Parent-Teacher Associations, Dr. Howard R. Best, superintendent of schools, also commented on the opening of the new schools. If the schools are not ready for opening in the fall, the Brookside Place School and Walnut Avenue School pupils will be housed temporarily in Cleveland and Sherman Schools. He said this will not mean half sessions, but a rotation system will be used for academic and activity periods.

As to the construction at the schools, Mr. Belden said there has been continued progress at both buildings. He reports that the tile work has been started in the corridors of the Brookside Place School.

First Aiders' Course Slated For Summer

A Red Cross first aid course for men interested in joining the First Aid Squad will be conducted during the summer by A. Nic Hoagland, it was announced at a regular squad meeting at the Municipal Building Monday night.

"We are planning for new membership already are on file, and others interested in serving with the squad are requested to contact Victor D. Shaheen, president, or Health Officer Howard P. Smith, secretary, at this time so that they may be signed up for the summer course. All active squad members must have advanced Red Cross first aid certificates.

First course held for present members of the squad was conducted last summer by Mr. Hoagland, a graduate of Union Junior College who is now taking a premedical course.

Subjects discussed at Monday's meeting included procedure in handling communicable disease cases and sanitizing of the ambulance, cleaning and sterilizing and pillow cases after transporting such cases.

President Shaheen discussed a number of problems faced by the squad since its present system of operation and declared that most of these problems will be solved when the squad gets its own

UJC to Open Summer Term

Registration for the first summer term at Union Junior College will begin next Thursday and continue June 18 and 21. Classes will begin on June 21, Dr. Kenneth C. MacKay, president and dean, announced.

Twenty-one courses, including accounting 102, will be offered during the first summer semester, Dr. MacKay said. One additional accounting course was added to the curriculum as the result of many requests. Early inquiries indicate that algebra, trigonometry, abnormal psychology, scientific German, engineering courses and English composition will be the most popular courses, Dr. MacKay said.

It is expected, the dean and president pointed out, that about 10 percent of the students will be absent from other colleges and that a large number of Korean veterans will enroll.

First Aid Squad Fund Nears $7,000 Figure

Contributions to the building fund of the First Aid Squad have reached a total of close to $7,000, it was reported yesterday by Walter M. Cooper, drive chairman.

Mr. Cooper urged residents who wish to help the squad get started on its new headquarters building to send their checks to Harold Compton, treasurer, at the Cranford Branch of the Suburban Trust Company. Goal of the campaign is $10,000.

Dog Vaccination Clinic Next Week

A vaccination program for dogs to protect the community against rabies will be conducted by the Board of Health at the Public Works Building, 12 South avenue, from 3:30 to 5:30 and 7 to 9 p.m. next Wednesday and Thursday.

Owners have been requested to have their dogs on leash and to bring dog licenses with them when they appear for the free vaccinations. Dr. H. H. Superstein of Union will serve as veterinarian for the clinic again this year.

The vaccination gives substantial protection for one year, Mr. Smith said. This is the fifth year such a clinic has been held here.

CD Alert to Clear Streets Monday Morning

Shortly after the air raid siren will clear local streets of traffic and pedestrians as Cranford joins in the nationwide "Operation Alert" Civil Defense test scheduled for an unannounced time Monday morning.

Civil Defense Director Francis W. Foreman reported today that Cranford committeemen have planned for a secret test of local scope over the coming weekend in the hope that this plan was abandoned when announcement was made of the nationwide alert to be held Monday.

Mr. Foreman urged Cranford residents to cooperate fully in the coming test, as there will be spotters from state and federal levels present to observe the reaction of the local population.

There will be no general mobilization of civil defense units, except the auxiliary police, regular police and wardens, all of whom will be posted to assure complete stoppage of traffic and clearing of the streets of all pedestrians.

The CD director issued a reminder that Civil Defense personnel are vested with full police authority during emergencies which include tests.

As a further reminder, Mr. Foreman pointed out that the "red" or raid signal is a three-minute blast on the siren, and that the all clear, which will sound 10 or 15 minutes later, will be three steady one-minute blasts.

Mr. Foreman remarked that it is unfortunate that the present alarm system may not reach all areas and that the proposed new Cranford siren system has not been installed in time for Monday's tests. He explained that it is taking time for various commercial alarm system companies to make their surveys here. To date, he reported, three such companies have made studies and submitted bids. The finest system possible will eventually be installed, he declared.

Several recent inquiries regarding sounding of the air raid siren at odd hours, the CD director explained that the siren now is being used to summon members of the First Aid Squad at off hours. This is a distinctive signal of two short blasts and has proved of great help to the squad, he related. The squad signal was used in alerting members following the fatal accident at North Union and Elizabeth avenues last Thursday.

Seeking to prevent repetition of a boys' prank which slowed up the job, cost the contractor a considerable amount of money and threatened the water supply of Rahway, the police were making frequent checks this week at the site of construction work on the new sanitary sewer which when completed will run from Orchard street to the trunk sewer in Riverside Park and will serve the Brookside Place School and new homes being constructed in the area.

The Rahway River was lowered by the Public Works Department at midnight Sunday, and on Monday the river in the vicinity of Riverside drive and Belmont avenue was diverted through a 36-inch pipe and a temporary roadway constructed from Riverside drive across the river bed to permit access for the contractor's equipment.

Checking Tuesday morning on complaints from that the river flow had decreased to a point threatening supplies for that city, Township Engineer Patrick J. Grall found that during the night someone had blocked the mouth of the diversion pipe with a large piece of plywood.

This prank resulted in backing up of water to such an extent that it flooded the temporary roadway and help up construction until additional fill had been hauled in to make the causeway safe again for use by construction equipment. The flooding also slowed up dredging work in preparation for installation of four piers to support the sewer line traversing the river.

James D'Annuzio of D'Annunzio Brothers, Orange, contractor on the job, reported the delay and extra materials cost them more than $500. A further cost incurred Tuesday night when a 25-ton crane being used in the dredging operations almost toppled into the water as a result of undermining of the temporary roadway by the water.

Despite the delay, at 8 p.m. Tuesday installation of the four piers had been completed, and the pipeline was laid across the old river bed yesterday. The temporary roadway will be left in and the river diversion at this point continued until construction of manholes and other necessary work has been completed.

Says Water Shortage Real

It is imperative that local residents conserve valuable water, Mr. Plainfield-Union Water Company's restrictions on the use of water for sprinkling purposes or moss drag steps may have to be taken, Mayor F. P. Anderson declared at Tuesday night's meeting of the Township Committee.

"If we do not cooperate and a shortage develops, the water company is not rightly blame citizens or the area," the mayor asserted. The shortage of water in Scotch Levels in the Netherwood well field are 10 to 15 feet below normal. By the middle of July, the company says, it hopes to have installed some of the new facilities which have been promised and which will provide more water.

Mayor Andersen said the Township Committee has endorsed full compliance by local residents of the water company's temporary restriction plan under which Cranford residents may use garden hoses after 5 p.m. on Tuesdays and Fridays.

Even as Mayor Andersen was issuing his warning here, the first low water pressure crisis of the year was reported in the Bright wood avenue section of Westfield. Residents of that community were dispatched if radio cars to order residents in the affected area to refrain from use of hoses. George M. Hadley, general superintendent and engineer of the water company, blamed the occurrence on failure to observe the suggested schedule for use of hoses in Westfield only on Wednesday and Saturday nights.

Tuesday night, Cranford's regularly scheduled night for hose use, saw water pressure readings at the fire headquarters here drop to

Liquor License Fee Hike, Restaurant Permits Planned

An amendment to the Alcoholic Beverage Control ordinance providing for the issuance of not more than two additional "restaurant-conditional" licenses and an increase in the fees of all local licenses to the state maximum at $2,000, effective July 1, 1955, was introduced and passed on first reading Tuesday night by Township Committee.

Public hearing will be June 22.

The "restaurant-conditional" licenses will be issued only to operators of a restaurant and such establishment may contain only a service bar. Serving of alcoholic beverages may be only with meals to customers seated at tables. This type of license may be revoked for discontinuance of the operation of the restaurant in the manner prescribed in the proposed ordinance and such a license may not be transferred except to premises so operated. Fee for this type of license will be $1,000 during the coming year and $2,000 after July 1, 1955.

Cranford presently has six tavern licenses and three package goods licenses. Present fee for taverns is $1,000 a year and for package goods stores, $750 a year.

Applications for the two new "restaurant - conditional" licenses were received Tuesday night from George Markos, proprietor of Markos Restaurant, 17 Eastman street, and Alex A. Bibby and William Delinis, proprietors of the Coach and Four Restaurant at the Station Plaza. Both were referred to committee of the whole.

Also introduced and passed on first reading was a lengthy ordinance establishing rules, regulations and standards governing the subdivision of land, setting forth the procedure to be followed by the Planning Board and providing penalties for violations. The proposed ordinance complies with new State legislation enacted last year.

Another ordinance introduced and passed on first reading creates a Planning Board of nine members, one of whom shall be the mayor, two members of the governing body and six citizens appointed by the mayor. Both planning measures will be effective July 1. Public hearing is scheduled for June 22.

Adopted on final reading was an

DR. ALBERT ALLINGER

Honorary Doctorate For Pastor

The Rev. Albert Allinger, pastor of Cranford Methodist Church, was awarded the honorary degree of doctor of divinity Sunday afternoon at the 104th commencement exercises of Baldwin Wallace College, Berea, O.

Dr. Allinger was graduated from Baldwin Wallace with a bachelor of arts degree, and at Sunday's commencement he was cited for his attainments since graduation "which have brought honor to his alma mater."

The local minister received the bachelor of divinity degree from Union Theological Seminary, New York; the master of arts degree from Columbia University, and further garnered his academic training by special work at Drew Theological Seminary, Madison, and Union Theological Seminary.

Dr. Allinger recently was reappointed as pastor of Cranford Methodist Church for the eleventh consecutive year. During his ministry here both the church and Sunday School membership have shown a marked growth and the building of a new church edifice at the corner of Walnut and Lincoln avenue is nearing completion.

Prior to coming to Cranford, Dr. Allinger held pastorates in Pearl River, N. Y., Dumont and New Milford, and at Moorestown. He is a member of the Cranford Rotary Club, Jersey Conference of Churches, Liberal Ministers Club of New York City, the Interchurch Club, a director of the Good Will Industries and has been active in welfare work in Cranford. He joined the Methodist Conference in 1922.

Commuters' Dissatisfaction With CNJ Schedule Told

Dissatisfaction with the new commuter train schedules of the Central Railroad of New Jersey, which went into effect April 25, was voiced at Tuesday night's meeting of the Township Committee by Mayor F. P. Anderson and Township Attorney C. H. Wandless, who were instructed to take "such action as is necessary to improve the service."

It was indicated that a mass meeting of local commuters would be called shortly to get their reactions first hand and that the result will be drawn to the attention of the Public Utility Commission.

Harry E. Yerkes of 36 West Holly street, general passenger agent for the railroad, who was present at the meeting, declared that officials will be happy to discuss the complaints with local commuters, but suggested that more progress could be made if a committee was designated. He said that the railroad is being operated for the benefit of the patrons and that everything possible will be done to meet their reasonable requests.

Public Works Commissioner James P. Duffy asserted that Cranford had fairly good railroad commuter service until the recent schedule changes. Now, he charged, commuters of Cranford are being deliberately discriminated against in favor of Westfield because that community has 500 or 600 more commuters.

Public Welfare Commissioner F. T. Whatley joined with Commissioner Duffy in the belief that "Cranford commuters are being given a kicking in favor of Westfield," but said he is of the opinion that improved service can be arranged by meeting with railroad officials.

Roderick W. Smith of 40 Nanor avenue declared that he, too, believes someone has "sold Cranford down the river on the commuter service" and that it is often necessary for him to take two trains in order to get from New York to Cranford.

Mayor Andersen stressed the fact that the community has suffered from an economic standpoint as a result of the schedule changes.

Dinner to Fete Patrick Grall For Service

Plans were revealed this week for a testimonial dinner in honor of Township Engineer Patrick J. Grall, who this year is completing 30 years of service to the township. The affair will be held at 7 p.m. Thursday, June 24, at Chic-Ann Chateau Restaurant, Mountainside.

Friends of Mr. Grall meeting last week in the Municipal Building, arranged initial plans for the dinner to honor the engineer for his many extra-curricular activities "out and beyond the call of duty in regular life."

Charles M. Ray, editor of The Citizen and Chronicle, has been named general chairman, and former Township Committeeman John W. Nostrand will serve as treasurer. Mrs. R. K. Tool will be secretary.

Others on the general committee include: Roderick W. Smith, president of the Taxpayers' Association, who will serve as toastmaster; Gene Grall, brother of the guest of honor, historian; Public Works Commissioner James F. Duffy, Mayor Fred P. Anderson, all of Cranford, and Township Thomas Daub of Garwood.

Members of the ticket committee include E. J. Shaheen, Henry Klubenspies, H. R. Jacobus, Tax Assessor Edward Markowski, Township Clerk J. Walter Coffee, Sidney Breen, president of the Cranford Business Association; Police Lt. Lester Powell, Harry Talone, George Syseskey, Russell Hoagland, Louis Van Berger, E. Calvin Shires, Thomas Butler, John Walker and Plumbing Inspector William Gourley, Jr.

In addition to his duties as township engineer, Mr. Grall is a past president of the Rotary Club, a past president of the Honorary Branch, 52, PBA; a past president of the Holy Name Society of St. Michael's Church, a past president of the Cranford Republican Club, a member of the Recreation Committee, Traffic Coordinating Committee, Cranford representative on the Rahway Valley Joint Trunk Sewer Board, a director of the Cranford Savings and Loan Association, and a director of the Cranford Boys' Camp Association.

Plan to Add Traffic Light

Acting on a recommendation of the Local Traffic Coordinating Committee, Township Committee Tuesday night authorized Township Engineer P. J. Grall to draw up plans for a traffic light at North and Elizabeth avenues, where a fatal accident occurred a week ago today. The Traffic Coordinating Committee's report showed that it had recommended a traffic light at this intersection a year ago.

The committee also will urge State Highway officials to cooperate to Cranford to discuss safety measures at that intersection which, it was pointed out, is very poor. Stop signs at all exits from the parkway also will be requested.

The Coordinating Committee's recommendation that no action be taken now on placing a barrier on that street at the Cranford-Westfield line drew opposition from W. L. Wilson of 15 Keith Jeffries avenue, who insisted that it is urgent that the barrier be placed before the street is completed and some youngster is injured. He said it is not clear to South Union and Roger avenues should be cut through to relieve his street of some of the through traffic.

Mayor F. P. Andersen declared that we must live as good neighbors with the Town of Westfield and that the township also must take into consideration many factors other than the petition sent in by residents of the street.

Fatal Accident Hearing Set

(Picture on Page 9)

Arraignment is scheduled in Municipal Court here Monday night for Robert D. Shelton, 19, of Rahway, who was released in $2,500 bail on a charge of causing death by motor vehicle following an accident on North avenue, east, near Elizabeth avenue at 7:15 a.m. last Thursday.

Death of George W. Bieler, 83, of Roselle Park shortly after he was taken to Rahway Hospital in the First Aid Squad ambulance, marked Cranford's first traffic fatality since October, 1951.

According to the police, Mr. Bieler was standing in a milk truck on North avenue, east, when it was struck by a dump truck operated by the Linden youth. The driver's side of the milk truck was crushed up against a utility pole.

County Physician George H. Horre reported following an autopsy that death was due to internal injuries, including a rupture of the liver.

The driver of the dump truck told the police he was on his way from Linden to a job in Irvington when traffic in the opposite direction forced him over toward the parked truck. He said he applied his brakes but before he could stop the front of his vehicle struck the milk truck and then the extended body of his truck

Complete Grooming Survey

A survey on the grooming of high school students in Union County has been completed by the Hi-Y Chapter at Cranford High School and the results have been forwarded to the Student Council.

The survey revealed the chapter announced, that all schools in the county are interested in the problem. It reveals that action to date has been initiated by the students in some schools, while certain types of dress have been banned by the Boards of Education in other cases.

The Boards of Education in Roselle Park and Hillside recently banned dungarees, while the students in Linden High School have been required for many years to come to school well groomed. Student action has been initiated in Summit High School.

All 60 members of the junior and senior chapter of the Hi-Y Club participated in the survey, Frank Ramsey, adviser, reported. Results of the survey have been turned over to the Student Council, Mr. Ramsey said.

Edward Hobbie, president of the Student Council, reports the survey has been referred to the new executive committee, and is expected that some action will be taken fall after the executive committee studies the situation.
