HER CHILDREN WILL HAVE BENEFIT OF ORAL VACCINE — Mrs. John Grun of 602 Lincoln avenue, east, who had poliomyelitis in 1954, plans to have her children immunized against the disease during the Sabin Oral Polio Sundays on March 1, April 12 and May 24. "I wish we had had the Sabin oral vaccine 10 years ago," she said. "I'm certainly going to see that my children are given its protection." Shown with Mrs. Grun, wife of a Rutgers University research biologist, are the couple's three children, Catherine, 6; John, 12, and James (at right), 10.

Cranford Ready for Start Sunday Of Sabin Oral Polio Clinic Sessions

Cranford is all set for the first session this Sunday of the Sabin Oral Polio Sunday clinics to be conducted throughout the county on March 1, April 12 and May 24 through cooperation of the Union County Medical Society, local public health offices and the public schools.

Clinic sessions will be conducted here from 11 a.m. to 4 p.m. on each of those dates at the Municipal Building, Orange Avenue Junior High School and Hillside Avenue Junior High School.

A different type of vaccine will be administered at each of the Sunday sessions to immunize both adults and children against the three different types of polio virus.

The Sabin drops will be given on a lump of sugar, or in distilled water for those unable to take sugar. A donation of 25 cents will be accepted for each dose, but the vaccine will be available free for those unable to pay.

To help save time at the clinics, registration forms to be filled in beforehand have been distributed through the schools, and a copy of the form also may be found on page 6 of Section Two of this issue of the Citizen and Chronicle.

A local dentist will be in charge at each of the three clinic locations here assisted by local physicians and pharmacists and a corps of nurses.

Dr. William Silverman will be in charge at the Municipal Building. Physicians in attendance there will be Dr. Edward M. Coe and Dr. Henry J. Mineur. Pharmacists on hand will be Stephen M. Lucas and Mrs. Ethel S. Gamburg of Bell's Pharmacy. Mrs. William F. Barnaby will direct the activities of the following crew of nurses: Mrs. Vincent Daniels, Mrs. James Goodwin, Mrs. A. Lawrence Hamilton, Mrs. Joseph Brill and Mrs. C. C. Rothenberger, with Mrs. Edward Krieger as relief nurse.

At the Orange Avenue Junior High School, Dr. Gerald A. Sydel will be the dentist in charge. (Continued on Page 8)

Appointment of Arthur A. Kiamie of 312 North avenue, east, as a paid member of the fire department, effective as of March 1, was confirmed by Township Committee at its meeting Tuesday night.

He was named to fill a vacancy caused by the retirement of Deputy Chief Theodore C. Chamberlain in January.

Mr. Kiamie, a native of Cranford, was graduated from Cranford High School in 1954. A self-employed painter, he has been attending evening session classes at Union Junior College.

He formerly was attached to Surface Division 315, U. S. Naval (Continued on Page 8)

Burglary Cases Rise Again, Chief's Annual Report Shows

Burglary cases increased 45 percent in Cranford during 1963 as compared with 1962, according to statistics in the annual report of Police Chief Lester W. Powell submitted to Township Committee this week. There were 55 breaking and entering cases recorded here last year. The 1962 total was 38, which represented an increase of 30 percent over the previous year. Of the 55 cases in 1963, 32 were listed in the report as closed.

Chief Powell's report notes that there was a slight overall increase in criminal activity in the township during the past year but that there was a decrease in the major Class I offenses of burglary, auto theft and grand larceny when totaled together. The report lists only 13 cases of auto theft, 10 of which are recorded as closed, and five cases of grand larceny (non recorded as closed).

The report lists a total of 227 Class I offenses (including 152 petty larceny cases), of which 127 were closed during the year. Class II offenses totaled 1,108, with 920 closed during the year, for a grand total of 1,335 criminal offenses with 1,047 cases closed during the year.

The overall increase in criminal activity is accounted for mainly by the figures for petty larceny and Class II offenses, Chief Powell points out.

"This indicates a trend to the lesser degree of crimes for adults although there is an increase in the total figure," the report relates.

Statistics for juvenile apprehensions show that they ranged over adult arrests by a ratio of better than three to one, with vandalism, disorderly acts and larceny being the leading juvenile violations in the order named.

"Vandalism is still the foremost problem concerning juveniles but has shown a substantial decrease from 1962," the report comments. "It is apparent that increased and more effective patrol methods are largely responsible for this decrease and of a certainty should be further explored and encouraged, with the knowledge that vandalistic acts are particularly irksome to the taxpayer and policeman alike due to the senseless, unrewarding and high monetary nature of these acts."

The report reveals that 139 adult arrests were recorded and 329 juvenile apprehensions were made during 1963, as compared with the 1962 totals of 118 adult and 341 juvenile arrests. Of the juvenile arrests last year, 108 were forwarded to the Union County Juvenile Court; 14 were heard by the Cranford Juvenile Conference Committee; 60 were disposed of in the office of the chief; 17 were processed by the juvenile officers; 4 were referred to school authorities for disciplinary action and 98 were returned to their homes for parental discipline.

Added Entry For Tax Post

Court Upsets Board Denial Of Variance

A decision of the Cranford Board of Adjustment denying a variance to Angelo Buontempo of 225 South Union avenue to permit construction of a house on two 25-foot lots at 13 Hillside place was reversed Friday by Union County Court Judge Ervin S. Fulop in Elizabeth.

Judge Fulop's opinion was returned on an appeal by Mr. Buontempo and Mr. and Mrs. William J. Campion of 11 Hillside place, who reside in a home constructed on two 25-foot lots at that address. The Campions entered into a contract to sell Mr. Buontempo two 25-foot lots adjacent to their property, but the Board of Adjustment denied his request for a variance from zoning requirements that residential lots in the area have a frontage of 80 feet.

In deciding in favor of the appellants, Judge Fulop pointed out that Mr. Buontempo's plan to combine two 25-foot lots into a single lot is in conformity with the neighborhood and prior zoning code requirements for the area.

"The board chose to consider the application to be for permission to build a house on each 25-foot lot in plain disregard of the application," Judge Fulop wrote in his opinion. "It is evident that the entire street was built up on 50-foot lots."

McGinnis Named Chairman For Area Red Cross Drives

Donald W. McGinnis of 724 Linden place has been named area chairman for membership and fund drives to be conducted by the Cranford Chapter of the American Red Cross in Cranford, Garwood and Kenilworth during the month of March.

Permission has been given to the local chapter to solicit Cranford residents by a letter campaign since the United Fund did not meet its quota; there will be house-to-house canvasses by Red Cross volunteers in Garwood and Kenilworth.

The services provided to the community by the Red Cross are many and varied. Volunteers give round-the-clock coverage on home service requirements when it is necessary for a family to contact their serviceman in the event of an emergency. Motor Corps drivers make many trips to hospitals and clinics transporting patients who otherwise would not be able to get there.

Nurses' Aides and Gray Ladies do volunteer work in Lyons Veterans' Hospital, John E. Runnels Hospital in Berkeley Heights, and the Blood Bank is always available to the residents of the community who need transfusions.

Canteen Corps, production department, nursing staff, water safety, first aid and Junior Red Cross volunteers are always standing by to do their part.

There is always a need for financial aid and the chapter to help these volunteers carry out their work. Residents are invited to send their contributions to the local Red Cross Office in order to make it possible for this work to be continued.

Township to Decide Quality Of Education, Mineur Says

"The results of the school election put the major responsibility for the quality of education available in Cranford for 1964-65 in the hands of the Township Committee," Dr. Henry J. Mineur, president of the Board of Education, declared Tuesday night following the defeat of the school budget for the second time.

The board had sliced \$145,000 from the capital outlay expenditure but had left the current expense allocation unchanged in resubmitting the budget to the voters, who first turned it down on February 11.

Dr. Mineur added, "The Township Committee's task is difficult since the school program is so complex. Board members are convinced that the budget is sound. As your elected representatives, we owe you not only our work but our judgment, and we would betray our trust if we sacrificed our judgment to opinions based on distorted and misdirected appeals to save money."

"The members of the board and the staff are prepared to inform and guide the Township Committee in any way that we can," he concluded.

Budget Hearing

Public hearing on Cranford's 1964 municipal budget will be held at 8:30 p.m. Wednesday at a special meeting of Township Committee in the Municipal Building. The budget was printed in last week's issue of the Citizen and Chronicle.

Student Poll at UJC Favors Nixon as President Nominee

Former Vice-President Richard M. Nixon is the leading contender for the Republican presidential nomination among students at Union Junior College.

In a poll conducted by the political science department, Mr. Nixon led Senator Barry Goldwater by a nearly 2-1 margin and Governor Nelson Rockefeller of New York by a nearly 3-1 margin. Trailing them were Governor William Scranton of Pennsylvania and Governor George Romney of Michigan. The only other candidate listed, former Minnesota Governor Harold Stassen, received only one vote.

The poll indicates that the name of Kennedy is still a magic one in politics. Attorney General Robert Kennedy is easily the favorite candidate for vice-president on the Democratic ticket among Union Junior College students. Mr. Kennedy received more support than all the other potential aspirants combined.

The students were asked: "As a Republican, whom do you favor as your first choice as your presidential nominee?" Mr. Nixon was named by 134, Senator Goldwater by 60, Governor Rockefeller by 54, Governor Scranton by 45, and Governor Romney by 36. Fifty students said they favored others.

Township Committee and Board of Education will confer at 12:30 p.m. Saturday in executive session in Lincoln School on areas in which the twice-defeated school budget may be reduced, it was announced yesterday by Mayor H. Raymond Kirwan. Both the current expense and capital outlay items were defeated by better than two to one margins in Tuesday's balloting.

Mayor Kirwan declared yesterday that the governing body has no alternative but to make recommendations for reductions in both budgets. He added that he hoped this could be done "without materially affecting the quality of Cranford's educational program."

The school board will transmit its budget and working papers to municipal officials this morning. By law, the governing body has 10 days from today in which to make its recommendations and certify to the county tax board the amount necessary to operate the school system. If this is not done, then the matter goes to the state commissioner of education for action.

A total of 3,168 residents or approximately 22 percent of the township's more than 14,000 eligible voters went to the polls Tuesday. The current expense item of \$2,807,404 was defeated by a vote of 2,100 to 1,045, and the capital outlay item of \$49,600 was turned down by 1,112 to 1,035.

The board proposals carried only in balloting at Cleveland School and by identical counts, 98 to 74. It lost heavily in the other eight districts, with Lincoln defeating the current expense item 418 to 88 and the capital outlay proposal, 406 to 100.

Foreign News Coverage Weak, Former Correspondent Tells SDX

Most large metropolitan newspapers in the United States are not doing the job they should today on first-hand coverage of international news, Meyer S. Handler, former foreign correspondent for the New York Times, declared in addressing a meeting of the New Jersey Professional Chapter of Sigma Delta Chi last Thursday night at the Coach and Four Restaurant.

Mr. Handler referred to the 1930's as a "golden age" of foreign correspondents, when American newspapers were represented on the international scene by a large corps of highly competent newsmen.

Today, he said, when a clear understanding of what is going on in Russia and the satellite nations of Eastern Europe is more important to the United States than ever before, the number of American newsmen on the scene has decreased instead of expanded. He said that the New York Times is the only newspaper from this country which maintains resident correspondents in this crucial area.

The speaker declared most American newspapers depend for their international news upon "predigested" dispatches from news services, supplemented by occasional reports from roving correspondents. He added that in most cases even the material from the news services is not used regularly to build up a continuing picture of the situation in foreign countries but rather is employed sporadically when something spectacular erupts.

As a result, Mr. Handler remarked, when the story does break of a spectacular turn of events on the international scene, the American public in general and even persons in official capacities are apt to react in an apologetic manner, whereas if they had been more regularly informed beforehand, they would have been ready for what was coming and perhaps

could have headed off any unpleasant consequences.

Now back on The New York Times staff, Mr. Handler represented The New York Times in Vienna from 1958 to 1962 and prior to that was chief of The Times bureau in Bonn, West Germany, for six years. He also has worked in Russia, Finland, Poland, Romania, Yugoslavia, Bulgaria, Iran, Egypt, Palestine and London. He began his newspaper career in 1933 as International News Service correspondent in Paris.

The speaker was introduced by Dudley Martin, director of the

Cleveland Council Presents Program On Brotherhood

"Bridges for Brotherhood Not Walls" was the theme of a program presented by the Cleveland School Student Council last week. Members were introduced by Michael Curry, Student Council president.

Rebecca Valla, Janice Hazeldine, Larry Lee and Ann Nietzel discussed the necessity of brotherhood in a democracy, the respect for the rights of friends and neighbors, and the greatness of the United States based on all races and religions.

Karin Stiff and Tina Nelsen discussed religion and brotherhood, and Elaine Gerechoff and Thomas Bahr outlined the work of government agencies and Peace Corps for brotherhood.

Jan Greltzer presented "About Ben Adhem" by Leigh Hunt, and David Baines quoted President Johnson's speech on Brotherhood. "So the time has come in our national life when we have to make our Constitution a living document, when we have to make our Declaration of Independence come true. We have to do unto others as we would have them do to us," Mrs. Marion Eschenlauer is Student Council sponsor.

Negro Women To Organize Chapter Here

The first organizational meeting of the Cranford chapter of the National Council of Negro Women was held Sunday at the home of Mrs. Douglas Woodson of 175 Garden street.

About 25 women attended the meeting, a tea, at which Mrs. Woodson was named chairman. Guest speaker was Mrs. Arthur Colman of Rahway, county chairman of the NCNW.

Officers and committee chairmen will be named at the next meeting on Friday, March 13.

Mrs. Colman traced the history of the national group founded in 1935 by the late Dr. Mary McLeod Bethune. She explained that the group, composed of the national organization, local councils, junior councils, young adult councils and life members, is a non-partisan, non-political organization open to women of all races and creeds.

"It has united women from all walks of life who are concerned with planning and action for the economic, social, educational and cultural welfare of women," Mrs. Colman stated. It is an active affiliate of the National Council of Women of the U. S., and maintains an observer at the United Nations.

The national program includes emphasis on citizenship and education, human relations, international relations, labor and industry, library and museum, public relations, religious education and fellowship.

Mrs. George Raymond, executive director of the society, reported that there are 50 to 60 teenage volunteers a week who work and play with those of their own age who are deaf, blind, speech handicapped or otherwise limited, thus learning the many things that their handicapped friends can do. Mrs. Tunner asked that letters be written to representatives in Congress asking release of a bill pertaining to prayer in schools and the use of the name of God on coinage. Pamphlets describing the "Truth About Prohibition" by Deets Pickett, were distributed to be given to churches and schools in the county.

NEW JERSEY

...has more than 90 'industrial parks'!

Within the past ten years, there has been a spectacular growth of well-planned privately-developed industrial parks. These industrial parks, defined as not less than 20 acres, are comprehensively planned to provide industry with a location suited to their specifications and requirements. Properly restricted and zoned, these planned industrial areas provide all necessary utilities—adequate water, power, sewage disposal and transportation. Many park developers offer complete "packages", even financing.

This type of planning between industry, private developers and community leaders achieves maximum benefits for all concerned. Increasing the acreage available to industry with desirable features of design and planning, represents one more reason why industry likes New Jersey and why it succeeds here.

BPW Told Plight Of Poor in USA

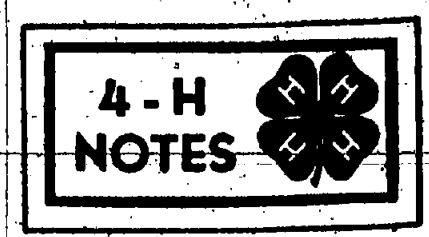

Of the 47 million families in this country, 9.3 million earn less than \$3,000, Mrs. Jeannette Webb, librarian at the Cranford Public Library, told members of the Cranford Business and Professional Women's Club at a meeting Monday in the Coach and Four.

Mrs. Webb spoke on "Who Are the Poor?" in observance of Brotherhood Week. She noted that of the low wage earners, 3 million are in cities; 4.3 million in the South; 6 million have a family head with up to a ninth grade education; 2 million are non-white; 2.3 million have a woman as family head, and 3.2 million have a family head of 65 or older.

To combat poverty, citizens must take an interest in public issues, enforce realistic economics, prevent dropouts and restore dignity to simple jobs, Mrs. Webb said.

Why Blue Cross must ask for a rate increase

(and what it means to you)

New Jersey Blue Cross now protects over 2,600,000 New Jersey residents... helps meet more hospital bills than ever before... and is paying more in benefits than ever before.

If Blue Cross income were to continue at the present rate, the benefits paid out in 1964 would result in an underwriting loss of \$10,100,000, completely wiping out reserves before the end of the year. The principal factors contributing to the need for a rate increase are easily understandable:

- The cost of providing hospital care is increasing at the rate of 6 to 7 percent per year. This has made it necessary for Blue Cross to increase payments for a day of hospital care from \$27.44 in 1958

to \$36.27 in 1963... and these payments are expected to go up to \$40.75 in 1965.

- The ratio of Blue Cross members requiring hospitalization is rising at the rate of 4% a year, despite concerted efforts to keep hospital usage at the absolute minimum consistent with good medical practice.

- In 1958, the average Blue Cross patient stayed in the hospital 7.74 days. In 1963, the average went up to 8.26 days.

- The number of Blue Cross members over 65 has risen from 11.3 percent in 1960 to 15.1 percent today. The average hospital stay for the 65-69 age group is twice as long as for those in the 35-39 group.

But, in spite of all the economic pressures, the administrative costs for non-profit Blue Cross remain at less than a nickel on every dollar of subscription income.

Although the need for a Blue Cross rate increase is apparent, it is important to remember that New Jersey Blue Cross members will continue to enjoy an economical means of budgeting for care which is measured in terms of longer, healthier and more productive lives.

Plainfield Theatre Introducing New Giant Screen

The world premiere of the motion picture, "Mediterranean Holiday," in the new giant screen process, "Wonderama," has been scheduled to open at the Strand Theatre, Plainfield, next Thursday, according to Walter Reade, Jr., chairman of the board of Walter Reade-Sterling, Inc., operator of this and many other New Jersey and New York theatres and also the distributor of the motion picture and the company that is introducing the new screen process in the United States.

A giant, deeply-curved screen, which measures 21 by 61 feet has been installed in the Strand Theatre. Special equipment also is being installed in the Strand booth for the presentation of "Mediterranean Holiday" in "Wonderama." A special preview is being presented to invited guests on Wednesday. Theatre owners, editors and writers and interested members of the New York financial community will be taken to Plainfield that evening by the company to see the process on the screen and to later see the workings of the equipment in the theatre booth.

It is believed by the promoters that "Wonderama" is not only the latest, but also the greatest of the big screen motion picture presentation systems in which the members of the audience are participants in the action.

Arrest Boy for Firing Shot Through Window

Following investigation of a complaint from Edward Wolf of 321 Rutgers road that a shot had come through an upstairs bedroom window of his home, Detective Edward J. Klubenspies last week took into custody a 14-year-old boy in the neighborhood who admitted shooting a .22 calibre rifle from a window of his home, Chief Lester W. Powell reported.

The boy was released in the custody of his parents pending action in Juvenile Court on a charge of discharging a firearm within the township limits.

"So considered, the property complies with the standards mandatory by the ordinance and approval should have been granted."

Attorney for the plaintiffs was George W. Morton, Jr., and Walter M. Cooper represented the adjustment board.

checks also have been made. He said the committee is of the opinion that many Roselle residents are using this as a shortcut to the parkway. There is a possibility, he said, that it may be necessary to prohibit parking on one side of this street.

Mrs. William Fordham, wife of the chairman of the Bellingers Committee, complained to the committee that the proposed Parkway site for the municipal swimming pool does not include sufficient land and facilities to keep children of working families busy throughout the day. She charged it could become a "human complex" with hundreds of youngsters running around with nothing to occupy their time.

Mayor H. Raymond Kirwan, who presided, said the township still has the report of the pool committee under study. He advised that the brochure to be sent out by the pool committee will seek evidence of interest in a municipal pool without designating a specific location.

A resolution was approved applying for state aid in the amount of \$15,361 for road repairs of which the township's share will be \$1,536. A letter was received from State Senator Nelson F. Stamler advising that the township will be allocated an additional \$5,000 in state road aid this year.

Township Attorney Donald R. Creighton was instructed to prepare a resolution endorsing action of the Cranford Historical Society

in placing a plaque on a pepperidge tree on Lincoln avenue and designating the tree as the "Cranford pepperidge tree." The tree is said to be the oldest of its type east of the Appalachian mountains.

On recommendation of Police Chief Powell, George A. Porbella, Sr., Thomas R. Herzer and Lawrence T. Thomas were advanced to fourth year patrolmen, effective March 1.

Referred to the building inspector for investigation was a complaint by Mrs. Joseph Stewart, 31 Harvard road, that a light stanchion near her home is in violation of the building code.

Cranford Lodge of Elks was granted permission to sponsor performances by a circus here on June 18-19.

Burglary Cases

Comments, "there was a decrease in juvenile arrests but an increase in the number which had to be referred to the Juvenile Court, indicating a continuing rise in the more serious type of crime being committed by the juveniles of the community."

During the year, property valued at a total of \$36,474 was reported lost or stolen and members of the department recovered property valued at \$33,929.

Recommendations in the chief's report include enactment of an ordinance to restrict parking on one side of Myrtle street for its entire length, codification of township ordinances (a survey of bus stop locations and a request to the State Bureau of Traffic Safety to survey all traffic lights installations to insure conformity with state requirements).

Chief Powell also recommends that a study be made of the traffic lights at North avenue, west, and Eastman street, at North avenue, east, and Alden street, and at South avenue, west, and Lincoln avenue, all of which presently have only one indication in each direction.

Temporary clinics such as those here in Cranford are being set up in 51 public and parochial schools throughout the county for the three Sabin Oral Polio Sundays. Dr. Bernard Ehrenberg, Union County medical examiner and general chairman for the SOS campaign, issued the following statement in connection with the beginning of the project this Sunday:

"Union County had a serious polio outbreak 15 years ago and it can happen again."

"In 1949, we had 157 polio cases in this county including 14 fatalities. In Elizabeth alone, there were 52 polio cases of which four were fatal."

"The only way to prevent an-

other outbreak is by immunizing the whole population — every man, woman and child — with the Sabin oral vaccine.

"Anyone who passes up the opportunity to take the Sabin oral vaccine is gambling with a crippling disease that can strike anyone — any time."

"There is no drug that will cure polio or arrest its growth. The only cure is prevention."

Conference

(Continued from Page 1)

the current expense item was defeated 1,111 to 1,076 and the capital outlay, 1,402 to 863, as 2,336 persons voted.

The trustees cut \$145,000 from the capital outlay item but resubmitted the same current expense budget because, as former President Gus Gutierrez stated, it missed approval by such a narrow margin that "the difference is too small to be of real help to us in assessing what the town really wants."

Over the past week-end, a circular was distributed by a group calling themselves the Cranford Forum League, urging a "no" vote on the budget items. An investigation this week indicated that the league is composed of many of the former members of the Watchdog Association which has been active in school affairs for the past few years. The circular was paid for by John McCormack, a roomer at 101 Benjamin street.

This marked the second time in three years that Cranford's school budget has been turned down twice and submitted to Township Committee for action. In February, 1962, the current expense item was rejected by two votes, 1142 to 1140, and the capital outlay item was turned down by a vote of 1169 to 1082, in the initial balloting.

At the second election in 1962 the board resubmitted the same figures. With a much larger turnout of voters, the current expense item was turned down, 2,681 to 2,334, and the capital outlay was defeated, 2,943 to 2,057.

Township Committee at that time eliminated \$96,400 from capital outlay, including \$92,400 for boilers, heating and ventilating equipment, and suggested that the board finance boiler replacement and other plant rehabilitation in the older schools through a long term bond issue. While the current expense item was not cut, there was a change of \$10,000 in anticipated cash surplus which reduced current expense by this amount.

The only other time in the past 30 years that the current expense item was defeated here was in 1933 when it went down, 1,263 to 957. A proposal for a new high school also lost that year by a vote of 1,796 to 638.

Observatory Will Add to Town's Prestige As an Educational and Scientific Center

The space age is with us. And with it has come a new-found appreciation of the importance of the science of astronomy. Astronomy is now a part of our everyday life.

Cranford will come to appreciate and understand astronomy — and indeed the space age — better with the opening of the William Miller Sperry Memorial Observatory on the Union Junior College campus sometime next year. It will mean a major scientific resource for Cranford and all of North Jersey.

The observatory is not only a great educational addition for Union Junior College, but also a significant addition to Cranford's educational wealth. It will provide the opportunity for the public to view the heavens, including moon shots, satellites and other space wonders.

Courses in many aspects of astronomy for adults represent only one part of the many advantages the observatory will bring to Cranford.

Once the 24-inch reflector and 10-inch refractor telescopes are built and installed, Cranford will become the home of New Jersey's largest telescope. These telescopes will not be restricted to educational and research uses only. A major goal of the Amateur Astronomers, Inc., and the college is to make the telescopes available for public viewing — under proper supervision, of course.

In addition to the educational and scientific values, the observatory provides an opportunity for Cranford to recognize one of the outstanding figures in the township's history. The mark of the Sperry family, and especially William M. Sperry, is all around us. The details of

this beneficial influence were set forth in last week's issue of the Citizen and Chronicle in connection with the announcement of the \$100,000 gift that makes possible realization of the exciting dream of having an observatory here. In this year of New Jersey's tercentenary, it is especially timely for Cranford to recognize such an important figure in its development into a fine suburban community.

The observatory adds to the excellent educational program already available at Union Junior College, which can be proud of being the first two-year college in the world to house an astronomical observatory.

More and more, Cranford is gaining a reputation as an academic, collegiate community. The William Miller Sperry Memorial Observatory should add to this image as it should add prestige and recognition to Union Junior College. It will make Cranford an important educational and scientific center.

As Dr. Kenneth C. MacKay, UJC president, said:

"It is especially appropriate and timely for our college to have this opportunity to construct the observatory with a gift from Mrs. Frederick W. Beinecke and William S. Beinecke, daughter and grandson of William Miller Sperry. The role and responsibility of the American college is greater than ever at this moment in history. We must prepare the next generation to live both in an expanding universe and a shrinking world. The valued addition to our campus is both a splendid college facility and an extraordinary community resource."

Sabin Sundays Program for Young and Old Alike

Statistics reveal that children are more susceptible to poliomyelitis and its crippling effects — two out of five paralytic admissions to hospitals in 1960, for instance, were children under 5 years of age, and nearly two-thirds of all polio cases that year were less than 10 years old — but persons of all ages can be and are carriers of the dread disease.

Thus, it is important that both children and adults take advantage of the opportunity for protection offered by the Sabin Oral Polio Sundays program scheduled to begin this Sunday under sponsorship of the Union County Medical Society, for the Sabin vaccine not only immunizes the person taking it but also insures that he or she will not be a transmitter of the disease. Those who previously have had Salk vaccine injections also should take the Sabin oral drops to insure lasting protection and to avoid becoming carriers.

Participation in the program is a simple matter. A different type of vaccine will be given on each of three Sundays to immunize the individual against the three different types of polio virus and break any possible chain of transmission. The Sabin drops will be given on a lump of sugar, or, for those unable to take sugar, in distilled water. A 25-cent donation per dose will be expected

of those who can afford to pay. Others will be given the vaccine free.

Even after the Salk vaccine became available as the first effective preventative of polio, isolated epidemics continued to break out throughout the United States. There were over 400 polio cases last year, including more than 55 in the Philadelphia area and 21 in the Jacksonville, Fla., area. There are approximately 350,000 persons alive in the United States today who have had paralytic polio. Of these, about 19,000 show no evident residual disability; some 43,000 were left with slight muscle weakness; 78,000 had moderate paralytic involvement, and another 50,000 were severely crippled.

There is no drug that will cure polio or arrest its course once the disease is contracted, so the only sure recourse is prevention beforehand.

The above facts and figures should influence all thinking adults to join up with the nearly 300,000,000 persons throughout the world who have been given the Sabin oral vaccine during the past eight years by taking themselves and their children to the nearest of the 51 temporary clinics to be set up in schools throughout the county on the coming three Sabin Oral Polio Sundays—March 1, April 12 and May 24.

Nature Notes

By FARRIS S. SWACKHAMER

Great Swamp
One day last week, together with members of the biology department of Union Junior College, I visited the new nature center on the fringe of the Great Swamp. It was opened last fall by the Morris County Park Commission. A 20-minute ride from Cranford, an hour's drive from thirty million people, much of the area surrounding the center looks the same as it did before the dawn of recorded history. To reach the building, drive

along Southern boulevard in Chatham Township and turn down day street.
Once, in order to tramp through the wet spots, it was necessary to wear boots or high shoes. This is no longer the case if you are content to stay on the beaten track and not wander too far afield. The park commission has laid out well-marked trails and bridged the soggy areas with boardwalks.
The ground was covered with recent snow when we were there

and the only birds visible were timelike, chickadees and nut-hatches. Soon, however, the rising tide of migrants will again engulf the swamp as it has done each spring for thousands of years. One hundred seventy-one species of birds have been seen there. It is a treasure trove of warblers during their brief stay in our midst.
Surveyors took nearly a year to determine the boundaries of the Great Swamp. They called

Dear Sir:

I wish to bring to your attention an error in your report of the February 18th Board of Education meeting. You stated that we (my husband and I) said our children had to wear coats in Lincoln School. This is not so. We simply stated that our children had complained of cold classrooms and we questioned why the expenditure of a heating system had again been cut from the budget. We feel there is a risk in putting this off any longer and if the boiler should break down, from old age, the cost will be much higher, I am sure. I might add that the Board of Education offices in the basement are normally quite warm in order to push sufficient heat to the first and second floors. It is virtually impossible to adequately heat the third floor, making these rooms uninhabitable during the cold months.

Most of our taxes go to the schools and yet the community as a whole takes very little interest in the school or town affairs. Individuals complain only when the elected officials (education or town council) makes a decision that adversely affects them as an individual. How can these men, who spend many, many hours outside their jobs and home, come to a decision that people approve when no one attends their public meetings to voice their opinion.

I can only say in closing that I urge all citizens to use their freedom of speech by attending public meetings and voicing their opinions.

Sincerely,
Mrs. James D. MacNish

Dear Sir:

The members of the Colony Club, the Junior Woman's Club of the VIA, the Village Improvement Association and the Wednesday Morning Club wish to express their appreciation for the fine cooperation we receive from your newspaper. The amount of space given annually to our club projects is inestimable. With all the communications media available these days, it is still the newspaper that puts information into our hands in retainable form — to be read, digested and kept.

Our clubs are members of the General Federation of Women's Clubs, the largest group of organized women in the world, having 11,000,000 members in 15,500 clubs in the United States and in 54 other countries. The General Federation program in this administration highlights:

An extensive campaign to eradicate illiteracy from the United States and throughout the world; a Dimes for Liberty project to help build the Museum of Immigration at the base of the Statue of Liberty; cooperation in building the Cathedral of the Pines as a memorial to women who have died in all our wars, and many other worthwhile projects. However, our clubs have the privilege of choosing any project we wish to emphasize, always keeping in mind the needs of our local community.

Mrs. Dexter Otis A. nold, president of the General Federation, has declared that the General Federation of Women's Clubs has always strongly advocated the freedom of the press and that it has never been more important than it is today when more than half the countries of the world live under a partial or complete blackout of news through censorship.

Again accept our deep thanks and all good wishes.

Sincerely,

Report From Trenton

By STATE SENATOR NELSON F. STAMLER

Across the river in New York City, a committee picked by Mayor Wagner is pushing its "study" of the question of legalized off-track betting. There's a good deal of interest in that state, but few people are aware that here in New Jersey a bill was introduced in the Assembly in January for a constitutional amendment to permit off-track betting here.

The bill—known as Assembly Concurrent Resolution 2—is now in the Assembly Judiciary Committee. The bill probably will never be reported to the floor. But if New York City arouses enough support for legalized gambling to push it through the New York State Legislature, anything might happen—even in New Jersey.

In my judgment few things could be more threatening to the general welfare of the people of this state than legalized off-track betting.

Tercentenary Tales

Cape May Once Scene of Sugar Plantations

By JOHN T. CUNNINGHAM

The reporter for Harper's Weekly could scarcely believe his eyes as he wandered across the fields at Rio Grande in Cape May County. Everywhere he looked tall sorghum cane towered above him, and the gentle west wind filled the early fall air with a sweet smell of success. Simultaneously his artist sketched men at work in the cane fields, horses plowing "a two-mile furrow" and mule teams hauling cane to a bulky sugar factory on the edge of the fields.

Here, in New Jersey, men were making sugar—and so much of it that the Harper's correspondent predicted in the issue of November 10, 1883, that "the United States will within a limited number of years be able to export sugar, as well as to satisfy our own requirements."

There was ample cause for optimism. For one thing, a New Jersey law enacted in 1881 provided a bounty of \$1 per ton for sorghum cane to be used in sugar making. Any sugar made from the cane would net an extra penny per pound.

There is nothing like a bounty to sweeten enthusiasm. Encouraged by scientists at Rutgers, several southern New Jersey growers began to raise cane. Some had experimented long before the bounty; farmers near New Brunswick grew sorghum ("Chinese sugar cane") as early as 1850. Several other New Jersey farmers had planted sorghum at Civil War time, when sugar stopped flowing from southern states.

Sorghum culture centered in Cape May in 1881. J. Hilgerts & Son of Philadelphia, sugar refiners, produced a bit of sugar in the fall of 1881 from 700 acres of cane, but the financial burden proved too much. The plantation was sold to the Rio Grande Sugar Co.

Rio Grande's evident success in the fall of 1883 attracted attention far beyond New Jersey borders. When the Harper's writer made his visit, he declared that the Rio Grande sugar works "is really of national importance."

He wrote of 3,000 acres of level, sandy soil under cultivation by the Rio Grande Sugar Co., "the lower border of which is within two miles of Cape May." He noted that the ground was "what a farmer would call a poor quality for making a crop."

Poor or not, the soil grew lush sorghum cane. Stalks rose as high as seven or eight feet tall, dwarfing the banded men who swarmed over the plantation to harvest the crop.

The man from Harper's estimated that his guide jogged him in a wagon over 2½ miles of furrowed fields between the factory and the outside edge of the cane fields. He observed everything: The swift cutting of the stalks, the rapid movement of sorghum cane on the mule-powered row gauge railway, the sugar and molasses being made in the machinery, the hundreds of fat hogs eating crushed stalks.

"The sugar already made this year amounts to about 250,000 pounds," the Harper's visitor wrote. "Assuming that the remainder of the crop yields at the same rate, Rio Grande will sell in the neighborhood of one million pounds."

Parliamentary legislators reading that must have paled. Why that would be \$10,000 in sugar bounties alone and upwards of \$30,000 for cane! That sort of thing was far too rich for poor New Jersey's fiscal fitness.

The Harper's observer erred in listening to the factory publicists, or else Rio Grande Sugar Co. didn't collect its full bounty for 1883, a most unlikely gesture. In fact, records show the biggest year that the Rio Grande

BOUNTY-FULL HARVEST — Part of drawing in Harper's Weekly for November 10, 1883, shows sorghum fields and men at work preparing cane for Rio Grande sugar factory in Cape May County. State bounty made business profitable for five-year period in 1880's.

plantation ever enjoyed was 1884, when it made 376,000 pounds of sugar and 87,000 gallons of syrup from 10,000 tons of sorghum.

Despite the bounty, Rio Grande operators frowned that one man's sugar is another man's bitter pill. Crop yields were disappointing and the milling machinery failed to extract a high percentage of sugar from the cane.

The five-year bounty period expired in 1885. After paying out \$43,723 in bounties and encouraging large expenditures of private capital for research and equipment in Rio Grande, the Legislature failed to renew the bounty payments in 1886. Rutgers urged a two-year extension but found no encouragement in Trenton.

Another blow followed quickly when the tariff on Cuban sugar was removed. Sweet stuff flowed cheaply from the island to United States kitchens.

Rutgers professors persisted in Cape May, along with a few brave Rio Grande capitalists operating without bounty, but by 1890 all attempts to manufacture sugar in Cape May had ceased.

The Rio Grande Sugar Co. was the first firm ever to make marketable quantities of sugar from sorghum cane. This was no small feat for a company whose end was financial disaster.

Cooper Art Work on Display At UJC's Tomasulo Gallery

Works of the late Fred Cooper, who was a long-time resident of Westfield and Scotch Plains, are on display in the Tomasulo Art Gallery of Union Junior College's Campus Center.

Included are his famous "Subway News" cartoons, theatre posters, monograms, and cartoons and covers from the old humor magazine, "Life," which he edited.

The exhibit, which was arranged by artist Harry Devlin of Mountainside, will be open to the public daily, Monday through Friday, from 9 a.m. to 10 p.m. through March 6.

Mr. Cooper, who remained active as a cartoonist and artist until his death in 1962, designed the famous type face now very much in vogue known as Cooper Bold or Cooper Black. In 1961, he was given the Society of Illustrators' Gold Medal and nominated to its Hall of Fame, an honor given to only two other members, Norman Rockwell and Dean Cornwell.

After five years of study and apprenticeship in San Francisco, Mr. Cooper came to New York in 1904. He was born in Minnville, Ore., in 1883 of pioneer parents. (His father delivered all eight children.) Soon after his arrival in New York he

was doing covers for "Life" and "Colliers." Then there was a brilliant series of posters for vaudeville at the old Keith and Proctor's Fifth Avenue Theatre.

During World War I, he produced some of the most striking posters of the day. His "Tribute to Britain," which is included in the exhibit, was world famous in its time. As editor of "Life," he contributed humorous poetry, cartoon page features and covers until that magazine's death in 1937.

"His work had an enormous influence in the field of graphic arts," Mr. Devlin said. "A stickler for craftsmanship, he nevertheless was able to create works of considerable emotional content. With all this, he was never to forget a charming sense of humor that pervaded his entire output."

Mr. Cooper helped to found the Artists' Guild and the National Cartoonists' Society. For fun, Mr. Cooper was a mathematician, an astronomer, a member in good standing of the "Royal Sonneters" and wrote a successful book on how to play golf when he was in his late 70s.

He was a long-time resident of Westfield's Tremont road and he spent the last 15 years of his life on Cooper road in Scotch Plains.

Cranford's 1959 municipal budget, calling for a 67-per-cent hike in the tax rate was adopted by Township Committee following a public hearing at which no comment was offered by any of the 12 residents present. The 1959 tax rate was estimated at \$8.18 per \$100 of assessed valuation.

Under the probable maximum enrollment in the Cranford public schools, construction of one large or two smaller junior high schools would most closely approximate the suggested direction of the State School Plant Planning Committee, Dr. Edward A. Spars, the committee's consultant, advised the Board of Education.

Through efforts of Mayor Tri D. Dorian, Stanley Kaufelt, president of Mayfair Markets, Inc., advised that the supermarket chain had decided not to continue the Sunday opening of the local outlet. Township Committee unanimously approved the application of the Cranford Swimming Club, Inc., for a building permit to construct a \$23,000 private swimming pool, bath house and parking area at Cranford and Has-kins avenues. A hearing the previous week had drawn a record crowd of 850 persons.

One of the outstanding features of the two new elementary schools under construction in Cranford was to be their colorful interiors. B. C. Elden, chairman of the building committee, reported, Pleasant, pastel shades of light cream, wedgewood blue,

melon green and foam green were to decorate the walls, and the floor tile was to be of green, gray, and tan mottled effect. The two schools were to be identical.

Complaints of smoke from the Jersey Central roundhouse on North avenue, east, would be eliminated on April 25 when all steam engines were to be replaced by diesels.

Christian Science Lesson/Sermon

One of the main themes at Christian Science churches this Sunday will be from John (1:17): "The law was given by Moses, but

Thought for the Week Home Again

HOME is dear and familiar. It fits around our shoulders like a well-made cloak, tailored to our long-felt needs.

Home is so important to mankind that poets write about it, hymns are sung about it, courses of study have been devised to teach men how to build it, run it, and improve it. To say that one feels at home is one of the highest praises of another's home that one can utter.

But we need to ponder the deeper meanings of home and take stock of how well or how little we grasp the fact that home is more than a material place. For whoever does not understand at least a little of the real significance of home lacks the spiritually foundation rock upon which every happy human home must be built if it is to stand.

Home really consists of qualities. The Bible hints at this when it says (Proverbs 15:27): "Better is a dinner of herbs where love is, than a stalled ox and baited therewith." The home where loving-kindness habitually dwells is a true home and a happy one, even if the roof leaks and the furniture is battered.

"Home is the dearest spot on earth, and it should be the centre, though not the boundary, of the affections," writes Mary Baker Eddy, the Discoverer and Founder of Christian Science, in "Science and Health with Key to the Scriptures" (p. 58).

When one's sense of home is rooted firmly in the rock of Christ, Truth, the winds may blow and the rains fall and heat upon the house, as Christ Jesus so graphically pictured it in his Sermon on the Mount, and yet it will not fall. The vicissitudes

Sabin Oral Program Begins This Sunday

GARWOOD — Names of those who will staff the clinic at Lincoln School from 11 a.m. to 4 p.m. this Sunday for the first of a series of three Sabin Oral Polio Sundays were announced this week by Thomas J. Geoghegan, secretary of the Board of Health, who is serving as clinic director.

An appeal to all Garwood men, women and children to participate in the program was issued by Mayor I. George Casabona at Tuesday night's Borough Council meeting. The mayor commended Mr. Geoghegan for his work in setting up the program locally and expressed thanks to all cooperating individuals and organizations.

A different type of vaccine will be administered at clinics on three Sundays — March 1, April 12 and May 24 — to immunize individuals against the three different types of polio virus. The Sabin drops will be given on a lump of sugar, or in distilled water for those unable to take sugar. A donation of 25 cents per dose will be accepted, but the vaccine will be available free for those unable to pay.

Local physicians at the clinic session Sunday will be Dr. Charles L. Lomack and Dr. Francis M. Karney. Pharmacists on duty will be Joseph N. Scher of the Scher Drug Store and Stuart Kaufman of Roselle Park.

—Mrs. Peter Rizzo, Board of Health nurse, will be in charge of a staff of eight nurses at the clinic.

Also participating in the program are representatives of a number of local organizations, including the Garwood PTA, Garwood Woman's Club, St. Anne's Rosary Society, the First Aid Squad and the Civil Defense Police Reserves.

Mission for Men At St. Anne's Church

GARWOOD — A mission for men conducted by the Rev. John J. Foley, C.S.C., superior of a mission group of the Holy Cross Fathers, started at the Church of St. Anne on Sunday and will continue each night at 8 o'clock through Saturday.

Mission masses are being celebrated daily at the church at 6:45 a.m.

Father Foley also will impart a mission blessing to all sick of the parish whose names and addresses are submitted. A special blessing for all children from infancy through the fourth grade will take place at 11 a.m. Saturday.

A similar mission for women was conducted by Father Foley last week.

WALTER B. LEWIS

School Board Reorganizes

GARWOOD — Walter B. Lewis was unanimously elected for his third year as president of the Board of Education as the board held its reorganization meeting in Franklin School last Wednesday night. Mr. Lewis, who has been a trustee since 1957, was reelected for another three-year term in the February 11 school election.

William J. Trelease was unanimously chosen to serve a second year as vice-president of the board.

Sworn in as new members of the board were Charles J. Horbach, Joseph E. McMahon and Mrs. James D. Guare. Mr. Horbach and Mr. McMahon were elected to three-year terms and Mrs. Guare to a two-year unexpired term at the school election.

The trustees voted to change their regular meeting night, from the second Wednesday to the second Thursday of each month.

Named official newspapers were the Cranford Citizen and Chronicle and the Daily Journal of Elizabeth. The Garwood branch of the Suburban Trust Co. was named official depository for board funds.

Sea Scout Ship 70 to Escort Flotilla of Sailing Vessels

GARWOOD — Sea Scout Ship 70 of Garwood is planning to participate as an escort unit when a flotilla of the world's great sailing ships moves into New York Harbor under full sail for a historic sail-past on July 14, it was revealed this week by Skipper Arthur Walshe of 201 Hickory avenue.

More than 20 of the largest sail training ships from European countries are planning to sail from Lisbon, Portugal, to Bermuda, where they will be met by sailing vessels from the United States and South American countries. The flotilla will then proceed to New York, congregating in Gravesend Bay on July 11 and 12.

On July 14, the windjammers will rendezvous at sea and then reenter New York Harbor through the Narrows for the sail-past review.

Mr. Walshe issued an invitation to interested boys between 13½ and 18 years of age to join the local Sea Scout unit now in preparation for participation in the July program and other events planned for the new season, including a trip to the New York World's Fair and a one-week cruise in August to Chesapeake Bay.

The unit's ship, the Tarpon, a 38-foot former Coast Guard picket boat, already has been put into the water in preparation for the coming training program. It is docked at the Naval Reserve pier at Perth Amboy.

Skipper Walshe announced this week that regular meetings of Sea Scout Ship 70, which is sponsored by the Garwood Lions Club, have been changed from Thursdays to Wednesdays at 7:30 p.m. in Washington School.

A former member of the Board of Education, Mr. Walshe, sailed as a chief engineer in the Merchant Marine for 15 years.

GARWOOD — Joseph Barresi, son of Mr. and Mrs. Carlo Barresi of 260 North avenue, was the winner in the boys' division of the Union County CYO oratorical contest finals, held last week at St. Elizabeth's School in Linden.

There were five finalists in the boys' division. As county winner, Joseph will compete in the archdiocesan finals in Bergen County next month.

A junior at Roselle Catholic High School, he is a member of St. Anne's CYO.

JOYCE CHRISTIANO

Joyce Christiano Choreographer For Benefit Show

GARWOOD — Joyce Christiano of 532 Spruce avenue, director of the Joyce Academy of Dance and Theatrical Arts at 347 South avenue, has been named choreographer for "Talk of the Town," the Broadway revue to be staged by the Footlights at Lincoln School auditorium on Friday and Saturday, April 3 and 4.

The show will be presented for the benefit of the building fund of St. Paul's United Church of Christ.

Miss Christiano, who has staged hundreds of dance recitals, for charitable organizations and for military installations, directs and plans her own choreography, and designs the costumes for all her shows.

Her interest in dancing began at the age of 6. She studied all (Continued on Page 2)

Recreation Revue Today

GARWOOD — The Garwood Recreation Revue will be presented in the Lincoln School gymnasium at 7:30 this evening, offering residents a sampling of activities which are held every week during the winter months under sponsorship of the Recreation Commission. There will be no admission charge.

Guest of the evening will be Bob Mischak of Union, a professional football star who has played with the New York Giants and the New York Titans and who is now with the Oakland Raiders.

Plans for a "record hop" dance at the school from 7:30 to 10 p.m. on March 6 were announced this week by Pat DiFabio, recreation supervisor. Invited to attend are local seventh and eighth grade and high school students. Non-residents must be escorted by a Garwood student.

Mr. DiFabio also reported that an Easter egg hunt is being planned for pre-school children and students up to and including the fourth grade. The date will be announced later.

PTA Votes to Eliminate Eighth Grade Dinner-Dance

KENILWORTH — The Kenilworth PTA voted 50-52 on Monday night to discontinue the annual eighth grade dinner-dance.

Mrs. Thomas LoBianco, chairman of the dinner-dance committee, reported the PTA will now seek suggestions for another activity to replace the dinner-dance — "something more appropriate for eighth grade students."

Last fall the PTA sent questionnaires to parents asking their opinion on the dinner-dance. Mrs. LoBianco reported that the survey showed that a majority of parents favored continuation of the affair but recommended non-compulsory attendance. It was announced, however, that the final vote would decide the future of the dinner-dance.

At the meeting, the annual Founders' Day celebration, two life memberships were presented to Miss Helene Austin and Mrs. Albert D. Larkin for devoted service to children. The presentations were made by Mrs. Thomas Doyle and Mrs. William C. Smith. Miss Signe Swanberg is in charge of this committee.

Mrs. Howard M. Fairchild, Jr., president, announced plans for a testimonial dinner on May 14 at 6 p.m. in Twin City Restaurant, Elizabeth, for Mrs. Helen M. Arthur, board secretary, and Edwin W. Kraus, superintendent of schools, who are retiring in June.

Scholarship Unit Sets \$20,000 Goal

SPRINGFIELD — To aid college-bound students, the scholarship committee of Jonathan Dayton Regional High School today established the John F. Kennedy Memorial scholarship fund to achieve a goal of \$20,000 by June.

Bernhard Aronow, fund chairman, said the \$20,000 goal is a realistic and minimum amount needed to help students fulfill their aspirations. He noted that approximately 30 percent of the graduating seniors require financial assistance in order to enter college. Awards will not be confined to top honor students, he stated.

Although the appeal will be aimed at industry, business and civic groups in Kenilworth and Springfield, Mr. Aronow said it is essential that residents take part in the appeal.

Members of the committee are Jack Devinsky, Arthur Falkin, Claire Falkin, Rupert Humer, Thelma Passero, Councilman Peter S. Patuto, Sol Rekonon, Lloyd Roslin, John Siman, William Smith and Natalie Waldt.

Scholarships will be awarded on basis of need, citizenship and scholastic ability.

Mayor William J. Ahern, Jr. of Kenilworth and Mayor Robert D. Hardgrove of Springfield are honorary advisers.

Contributions should be mailed to: John F. Kennedy Memorial Scholarship Fund, Jonathan Dayton Regional High School, Springfield.

St. Theresa's King, Queen Contest Starts

KENILWORTH — For the fourth year St. Theresa's parish will sponsor its king and queen contest for high school seniors. The couple will be named at the annual coronation ball on May 2.

Proceeds from the ball will go to the parish scholarship fund. Louis Caravella and Mrs. Edward Carragher are co-chairmen of the contest and ball.

The contestants are: Edward D. Cahill, Thomas DePaolo, David Hage, Paul Isenbarg, Frank Middleton, Gregory Palkus, Susan Ambis, Theresa Campbell, Mary Jo Fleming, Dolores Harli, Stephanie Peters and Joann Wojcik.

Voting will be on a community-wide basis. Prizes will include more than \$1,000 in prizes including shares of stock, merchandise awards and a week-end trip to the Pocono Mountains.

Four other couples, selected for honorable mention, will not compete in the contest but will receive trophies and week-end trips. They are: Judith Emmert and Richard Caponetti, Joan Ellen Fackelman and Charles Frolich, Loretta O'Brien and Richard LoForte, Gertrude Schmidbauer and Robert Patetta.

Council Approves Budget of \$836,986

KENILWORTH — Borough Council unanimously approved the \$836,986.59 municipal budget for 1964 at its meeting Tuesday night in the Municipal Building attended by about 35 persons, many of whom expressed concern about the tax revaluation program to go into effect in the July tax bills.

Fred J. Stefany, borough auditor, reported that the increase for schools, county and veterans exemptions will be about \$24 for the resident with a \$20,000 home. He emphasized that none of this increase is due to the budget for municipal purposes, which has shown no increase for the past five years.

Council deferred action on the ordinance earlier this month when several residents, including the Rev. James S. Tiller, pastor of Community Methodist Church, protested the establishment of a billiard parlor in the borough.

On Tuesday night the council received a letter from the Kenilworth PTA executive board also protesting the parlor. "The board is not in favor of having any billiard or pool parlor established in Kenilworth," the letter said.

"Since the licensing of these parlors requires a great deal of restriction, we cannot see how this ordinance will benefit the residents of the borough. Passage of this ordinance would lower the cultural and character standards of the youth in our borough."

The letter further noted that "pool parlors in other communities have a record of a so called 'hang out.' " The board asked that the ordinance be withdrawn.

Rotary to Sponsor Mrs. Nimaroff In Benefit Concert

KENILWORTH — A benefit piano concert by Mrs. Rose Nimaroff, Kenilworth pianist, will be sponsored by the Kenilworth Rotary Club, on April 25 at Weequahic High School, Newark.

Proceeds will go to the Tagum Clinic building fund which was launched last year by the Kenilworth and Roselle-Roselle Park Rotary Clubs. The clinic is in the Philippines.

Plans for the benefit were announced last Wednesday at a meeting at the Hinch Post, Union. Kenneth Fehnestock, information chairman, conducted a question and answer program. Charles Harvin, president, conducted the meeting.

Any increase beyond the \$24 can be attributed to the revaluation program, completed last month by the J. M. Clemmshaw Co. of Cleveland, Ohio. Based on the revaluation, "everyone has been appraised at 30 percent, and everyone is going to share the tax burden equally," Mr. Stefany explained.

Last year the tax rate, under the old tax assessment program was \$9.46. This year the tax rate is expected to be about \$7.48 allowing for the increase in the county budget which has not been determined yet, Mr. Stefany said. He noted that \$295,000 from the reserve fund of \$599,000 had been applied to the new budget to help reduce it. Last year \$210,000 was applied.

Former Councilman John J. Olock questioned the doubling of the capital improvement expenditures this year. "It is an untimely year to do this when we are faced with the revaluation," he said. Council has set aside \$150,000 for capital improvements including \$7,500 for alteration for the old borough hall as a recreation center; \$2,500, construction of a handball court at the new midtown playground planned at 15th street and Sheridan avenue, a former dump; \$29,000, improvement of North 14th street.

Also, \$8,000, curbing of Monroe avenue; \$20,000, improving South 31st street; \$16,000, purchase of storm sewer on 10th and 11th streets and curbing of 12th street between Monroe and Sheridan avenues (less state aid); \$8,500, piping from 9th to 10th streets at Washington avenue, and \$3,000, installation of larger pipe on Beechwood avenue at the rear of Miller's Grove.

Mr. Olock also questioned the increase in the parks and playground expenditure. Councilman Peter Patuto explained that equipment will be needed for the midtown playground and supervisory personnel will be necessary on a part-time basis for the senior citizen program in the old borough hall.

For the second time Joseph Waluyus, president of the Republican Club, questioned the need to purchase the one-story building adjacent to the new Municipal Building. Councilman Frank Masaro, council president who conducted the meeting, pointed out that in addition to lending itself to recreational purposes, the property offers additional parking area. "We feel we are spending money wisely for this building," he stated.

Revaluation Report Council received the report of (Continued on Page 6)

Expect 100 at Dinner

KENILWORTH — More than 100 persons are expected to attend the first charter night of the Honorary Branch of Kenilworth Local 135, PBA, on Saturday. The affair will be held at Somerville Inn.

Plan Action on All-Day Parking

GARWOOD — Members of the police department will make a house-to-house canvass on Willow avenue and Second avenue to gather information on which to base a possible solution for an all-day parking problem complained about by residents of these streets.

This was announced by Police Commissioner Frank Wanca at Tuesday night's Borough Council meeting following reading of a petition signed by residents of Willow avenue between Center and West streets.

The petition complained that commuters' cars parked all day in this block make it impossible for residents to find parking places in front of their own homes.

Councilman James J. Loden, Jr., added that residents of Second avenue east of Walnut avenue are subjected to the same inconvenience.

Presenting a report on a series of public meetings held at Lincoln School to present details of the proposal to erect a new Municipal Building on Second avenue, Mayor I. George Casabona expressed disappointment at the fact that although approximately 2,600 explanatory brochures on the subject were mailed to local voters, there was a total attendance of only 40 citizens at the first three meetings (including a turnout of only 3 persons for one meeting).

The mayor pointed out that he, members of the Borough Council, the borough clerk and the architect were present and explained details of the project at the sessions despite the light turnout. He expressed a hope that more people would be present for the final meeting in the series, which was held last night.

On recommendation of Street Commissioner Edward S. Tripka, resolutions were passed in preparation for resurfacing of West street, Myrtle avenue between Center street and West street, Spruce avenue from Center street to the Westfield line and Third avenue from Maple avenue to (Continued on Page 2)

The Cranford Hotel quintet upset Sal's Sinclair, 38-30, Monday evening in the Gold Ball Bowling League.

Karl Kalmer paced the Hotel with 15 points while Rich McCormick was high for the losers with 10. After the Hotel had built up a 13-6 first quarter lead, Sal's fought back to trail by only a single point at halftime, 17-16. The Hotel, however, outscored Sal's 13-5 in the third period to take command of the game as both teams played on even terms in the fourth period.

Four players hit double figures as the Jokers rolled to their seventh straight win with an 87-67 triumph over the Unbelievables. Guy Borges once again led the

The VFW continued to pull away in the third period and going into the fourth stanza held a 33-20 edge before the Davis Bros. rallied to cut the margin to four points at the end of the game. Archdeacon Nets 30 in JV Cage Victory

By MARK HAVILAND

Despite the fact that the Cranford Junior Varsity cageurs lost possession of the ball 36 times, they edged an aggressive Roselle Catholic team, 67-63, Saturday in a Union County JV tournament game at Westfield. Tom Archdeacon was the game's leading scorer with 30 markers, while Luethold netted 16. Roselle Catholic outscored the Cougars by three, Prill and Luethold hit in this department with eight apiece, and Jones hauled down five.

The Cougars outscored Roselle Catholic, 17-14, in the first quarter. Archdeacon tallied nine, while Stokes and Luethold dunked three apiece. Luethold netted the first six points for the Cougars in the second quarter. After Beadle swished a jumper from outside, Archdeacon executed a three point play, and the Cougars held a 28-21 lead. Archdeacon and Beadle swished back-to-back deuces. Three consecutive foul shots put Roselle Catholic within five, and the score at halftime was Cranford 33, Roselle Catholic 28.

The Cougars exploded for eight points and took an 11 point lead at the opening of the third quarter. Archdeacon led the offensive attack with eight, while Luethold and Knapp tallied five and four points, respectively. Cranford led,

CHS Gains UCC Semi-Finals With Victory Over Plainfield

The Cranford High School varsity cageurs remained unbeaten in the Union County Tournament by downing a strong Plainfield five, 68-52 Tuesday evening in the Roselle Catholic Gym. Cranford and Jefferson are the only seeded teams left in the contest.

Westfield, Roselle Catholic, St. Mary's, and Berkeley Heights were all knocked off early in the tournament. This gives Cranford a heavily favored rating for the closing games.

Cranford will now face Roselle in the semi-final round Saturday at 3:30 p.m. at the Roselle Catholic gym.

For Cranford, Norris Berzinski tallied 22 points on 11 field goals. Wayne Hucker scored 14 points while Shelly Mittleman poured in nine. Led by Hucker and Dreyer with 11 each, the Cougars out-rebounded Plainfield, 44-23. Plainfield depended on the forwards for most of their contests this season, but a tall, aggressive Cougar five put a stop to this attack.

Cranford vaulted to a 16-2 lead early in the initial stanza. Plainfield never came close to pulling even. The Cougars outscored Plainfield by 18 points, and the score at the end of the first quarter was 25-7.

Plainfield came on strong in the second quarter and outscored the Cougars by one. However, the Cougars held a 35-18 halftime bulge. The Cranford quintet outscored Plainfield by two in the third quarter. Plainfield tallied only two points less in this quarter than they managed to accumulate the entire first half.

Plainfield rallied in the final quarter to outscore the Cougars by three, but their strong second half comeback was too late.

Board Denies

(Continued from Page 1)

Beninati, Mr. John, Mr. Van de Water and Richard Weber opposed it.

Following the final vote James O'Brien was seated on the board succeeding Mr. Weber, who resigned after eight years of service.

The board unanimously voted a variance for Ange and Min's Restaurant, 740 Boulevard, for an addition in the rear of the building. The variance permits the construction within the ten-foot rear line requirement of the zoning code. Anthony Vaz, representing Angelo Copabianco, owner, said the two-story addition, 29 by 38 feet, will provide a dining room and enlarged kitchen facilities.

Garen, Inc., agent for Vincent J. and Carmela Corcione, owners of property at 222 North 10th street, was given a variance to permit subdivision of a 110-foot lot into two with 60 and 50-foot frontages. The variance also allows the applicant to waive the five foot side line requirement. Garen will construct a two-family dwelling on the smaller lot, which is in a Residence B district.
