UC Inaugural Speaker Cites Importance of 'Institutions'

"Men cannot live without institutions, whether they be frontier societies or street academies," Dr. Jeremiah S. Finch, president of the Middle States Association of Colleges and Secondary Schools and secretary of Princeton University, told an audience of more than 1,000 persons attending the installation of Dr. Kenneth W. Iversen as president of Union College last Wednesday.

"Institutions," he said, "are now under fire." Reaction to the threat of pollution, nuclear weapons, overpopulation and the war in Southeast Asia has resulted in assaults on institutions, "which," Dr. Finch noted, "stand ready at hand as objects of attack."

But, he reminded his audience, "most of the civil liberties we take for granted reside in institutions, however imperfect they may be."

"The idea of our Civil Liberties," he said, "has been hammered out, tested by experience and constantly reexamined by our educational institutions, particularly our colleges and universities, which provide the atmosphere where rational, critical, questioning thought can be nourished, and can flourish.

"It is not our colleges that need to be destroyed," Dr. Finch stated, "rather the wrong judgments, the misguided efforts, the selfish influence, the hypocritical attitudes, and the self-righteous assumptions by both the right and the left that need to be exposed and defeated."

And it is on the campuses of this country, Dr. Finch declared, that this can best be done.

"I believe that our institutions of higher education are the best source for safeguarding of the idea of civilization, for the constant reexamination of its assumptions, and for making our cultture better and more humane," Dr. Finch said.

Dr. Finch called on the institutions to change, to revise and to improve as needed, but he decried both thoughtless destruction and complacent acceptance.

Dr. Finch joined Union College to the nation's educational institutions that "are setting an example of a successful, cooperative endeavor worthy of the support and respect of all thinking people."

In conclusion, as he wished Dr. Iversen well, he said, "it is my hunch that education in America and on this remarkable campus, will make its way slowly, albeit with some struggles, to an even better era of service in years ahead."

VFW Urges Support of Nixon Cambodian Policy

Support for President Nixon's Cambodian policy as a means of saving the lives of American fighting men was urged today by Commander Frederick Hayes of Capt. N. R. Fiske Post 335, VFW.

Speaking on behalf of Post 335, Commander Hayes said that "anything we do in Cambodia that results in saving American lives should have the full backing of the American people."

He declared that amendments in Congress such as the Cooper-Church Amendment which would block funds to support American troops in Southeast Asia "amount to the abandonment of our forces —our sons and daughters—who are fighting a cruel and inhuman enemy who might otherwise be at our very doorsteps. Congress put our men there in full support of the Gulf of Tonkin Resolution."

"In the past Congress has debated declarations of war," Commander Hayes said, "but this is the first time the Senate has debated a declaration of surrender."

He said the "destruction of tons of equipment and other supplies stored by the Communists in Cambodia for use against our men in Vietnam proves that President Nixon made the right decision in ordering the Cambodian incursion."

Brochures on New Pool Plans Are to Be Mailed Next Week

Brochures will be mailed next week by the Cranford Recreation Department to present members of the Municipal Swimming Pool as well as to the 1,200 families on the pool waiting list outlining plans and fees for the 1971 season if the new $1.3 million indoor and outdoor pools and health club are constructed at Memorial Field.

A town-wide mailing of the brochure will follow a few days later and present members and interested residents will have until June 30 to reply with a $20 "earnest money" deposit. A decision will be made early in July as to whether to undertake all, part or none of the proposal made by the Mayor's Swim Pool Committee, headed by former Mayor Wesley N. Pillis.

Representatives of the special committee and Recreation Committee met last night at the Multi-Amp Corp., offices on Myrtle St. with residents living adjacent to Memorial Field to explain the proposed site plans, including an access road, parking facilities and traffic patterns. Several residents of the area, including representatives of the South Side Improvement Association and the Myrtle St. Protective Association, already have expressed their opposition to building a pool at Memorial Field because of the additional traffic.

Mr. Pillo explained that, if the proposed pool is constructed, swim charges will be increased in 1971. Members may swim at either the present facility or the proposed facility. The proposed charges, not yet made public, will be outlined in a covering letter which will accompany the brochure going out next week.

Proposed plans include an outdoor summer pool to accommodate 1,200 families (which is somewhat smaller than the existing 1,600 family pool), a 25-meter indoor pool with diving facilities to accommodate 800 families, and an adult health club for both men and women to accommodate about 400 members.

Township Business Administrator John F. Laezza, Jr., explained that adoption of an ordinance would be required before the municipality could go ahead with the new facility.

County Committee Contests in GOP Primary Tuesday

Local interest in next Tuesday's Primary Election probably will be centered on contests for posts on the Republican County Committee in Districts 6 and 18.

In the 18th district, two of three previously defeated Republican candidates for Township committee are vying for the male committee post — Farris S. Swackhamer, who served on the local governing body for three years and lost in his bid for reelection in the Johnson landslide, and John Pfeiffer, who is allied with the Republican Citizens' Committee, the conservative wing of the party.

Prof. Swackhamer, head of the chemistry department at Union College, represents the "old line" GOP and formerly headed the Cranford Republican Club.

Many will be watching this contest to see which area of the party comes out on top.

Mr. Pfeiffer and Barbara Stiefel filed for the 18th district posts as "Regular Organization Republican of Union County" candidates and Prof. Swackhamer filed as "Cranford Republican."

In District 6, Lyman L. Parks and Helen B. Duryeé, running as "Regular Organization Republican of Union County" candidates, are opposed by Robert E. Sabel and Bonnie Sabel, who filed as "Republican Party" candidates.

Also of interest locally is the candidacy of Cranford Tax Collector Harold J. Seymour, Jr., for Democratic nomination for the Board of Freeholders. His running mates under the "Regular Democratic Organization of Union County" label for the three freeholder nominations are Thomas W. Long of Linden and Everett C. Lattimore of Plainfield.

They are opposed by Charles E. McNally, Muriel Kranowski and George J. King, who filed as "Democrat" candidates, and Thomas W. Cantrell, Jr., running alone as "Elizabeth Democrat."

Public Safety Commissioner William H. Meyer is unopposed for the Republican nomination for reelection to the Township Committee, and Peter J. Moran of 616 Orchard, St. is unopposed for the Democratic nomination. They will be involved in a three-way contest for the local governing body post in November with Edmond Klamie of 208 Retford Ave., who is running as an independent candidate.

Nominations also will be made Tuesday in both primaries for a United States senator and a congressman.

The polls will be open from 7 a.m. to 8 p.m. at polling places listed in a legal notice elsewhere in this issue of the Citizen and Chronicle.

Adopt Ordinance to Provide A Conservation Commission

The controversial ordinance creating a conservation commission here was adopted by a 3 to 2 vote by Township Committee Tuesday night following another lengthy hearing.

Republican Mayor Malcolm S. Pringle joined with Democratic Commissioners Burton S. Goodman and Warren Prasher in voting for the measure, while Republican Commissioners Jack McVey and William H. Meyer cast dissenting votes.

"While most of the speakers and commissioners spoke in favor of conservation, they differed on whether it should be regulated by a "commission" or a "committee."

Those opposing a commission were fearful of its powers, while those opposed to a committee contended it could be appointed annually or permitted to expire in accordance with the political whims of the mayor and committee in power at the time.

The commission will be composed of seven members, one of whom is to be a member of the Planning Board and the remaining six to be appointed by Township Committee. All will serve without compensation and terms to be for three years. Duties and powers are spelled out in the ordinance, which appears elsewhere in today's issue.

Mayor Pringle said he already has about 15 names of persons interested in serving on the commission but that he will endeavor to get at least one person opposed to the commission to accept appointment so that "all points of view will be heard."

Among those speaking against the ordinance creating a commission were William Beekbuysen, 10 Tulip St., who argued that a committee should first be tried for two years; Oliver Brooks, 400 Springfield Ave., who said he is fearful of "commissions and authorities;" John Pfeiffer of 108 Ridge St. and John Vassallo, unsuccessful Republican candidates for Township Committee last fall when the "commission" versus "committee" became a campaign issue; Dr. Frank Krause, 501 Springfield Ave., who advocated setting up a director of parks and recreation under which conservation could be placed.

Mrs. Thomas Dooley, Holly St., argued that a parks department long has been "desperately needed" here. She asserted that trees bordering local streets have not been trimmed or taken care of or replaced. She contended that the township does not need

Hearings Set On 'Town House' Zone Amendment

An amendment to the zoning ordinance creating a new "town house district" for a 4.5 acre tract along North Ave., E., including the Venneri property and two adjacent parcels was introduced by Township Committee Tuesday night. Public hearing is slated for June 23.

Announcement was made that an informal hearing for residents in the vicinity of the property as well as other interested citizens will be held by the Planning Board at 8:30 p.m. Wednesday in the Municipal Building. In event changes are required, the ordinance may be amended at the June 9 meeting.

The measure was approved on first reading by a 3-0 vote with Public Works Commissioner Burton Goodman and Finance Commissioner Warren Prasher, both Democrats, abstaining. Commissioner Goodman explained that he had favored holding the informal hearing before the proposed measure was introduced.

The ordinance, recommended by the Planning Board, limits dwellings in the new R-5 town house district to single family attached and semi-detached dwelling units. Only one unit may be constructed on a lot with no more than eight lots per acre. Minimum width of lots is set at 20 feet and average width at 22 feet.

The average area of the lots is to be 2,200 square feet and no lot may be less than 2,000 square feet. Each dwelling will have a floor area of at least 1,200 square feet and there may not be an average of more than three bedrooms. The units may not exceed two and a half stories or 35 feet, whichever is lesser. Each unit will have one garaged parking unit as well as one off-street parking area. The development will be provided with professionally designed and executed landscaping.

Not less than 30 percent of the total tract is to be dedicated for open space, either

Decision Next Week On Cleanup Program

A decision on a community-wide spring cleanup program will be made within the coming week, Public Affairs Commissioner Jack McVey announced at Tuesday night's Township Committee meeting after a $35,000 bid by Buontempo and Sangiuliano was rejected as "excessive."

Commissioner McVey said the township will endeavor to conduct the program on the same basis as in the past with the local scavengers collecting most of the material and the public works department picking up the heavy and bulky items. It is expected that the program will be limited to a two-week period.

Closings for Memorial Day

Closings will be general here on Saturday in observance of Memorial Day.

The township offices, schools, the Citizen and Chronicle and many other local offices also will be closed tomorrow, providing a long holiday weekend for employes.

Tentative Cost Figures Released On School Plans

Total cost for the proposed addition and rehabilitation project at Cranford High School will be $6,263,000, according to tentative cost estimates released today by the Board of Education.

Board President Richard J. Anderson noted that the figures have not yet been finalized by the board.

Plans call for construction of an annex to the West End Pl. building, which would include a new library, new gymnasium, new industrial arts wing containing six rooms and a resource center, four biology laboratories, two art rooms, three home economics laboratories, new rooms for vocal and instrumental music and five general purpose classrooms.

Work on the old building would include construction of a new cafeteria underneath the auditorium, conversion of some areas to new uses, and general rehabilitation work.

The remodeled and expanded high school would have a capacity of about 1,600 students.

Voters will take action on the proposal in a bond issue referendum to be held June 23.

The board is presenting the plan as a solution to the problems at the high school posed by overcrowding and inadequate outmoded facilities. It also would eliminate the unpopular 6-4-2 grade pattern and replace it with a 6-3-3 system. The tenth, eleventh and twelfth grades would attend the high school, and the seventh, eighth and ninth grades would attend the two junior highs.

Construction on the new addition is estimated to cost a total of $3,397,000. This includes $1,868,000 for general construction, $340,000 for structural steel, $285,000 for plumbing and drainage work, $475,000 for heating and ventilation work and $482,000 for work on the electrical system.

Other costs are as follows: Alterations to existing building, $1,257,000; site development, $120,000; movable furniture and equipment, $250,000; built-in equipment, $280,000; architects fee, $306,000; bonding and legal fees, $50,600, and contingency, $500,000.

No Serious Flooding Here During Storm

Township Engineer Patrick J. Grall reported that Cranford experienced no troubles due to flooding during the torrential downpour of rain here between 5 and 7 p.m. Tuesday. He said only one call about street flooding was received, from a Doering Way resident.

The engineer reported that the Rahway River came up quickly because of the downpour but was kept under control because the gates in the dams had been open until 3 p.m. and were opened again at 6 p.m. He said there was a 15-inch drop in the level of the stream between then and 10 p.m.

A home at 9 Preston Ave. was struck by lighting during the storm at about 6 p.m. but no serious damage was reported.

There was temporary flooding at South Ave. and West St. in Garwood during the storm.

Harold Duflocq, meteorologist at the Union College Meteorological Station, reported that .85 inch of rain fell here during Tuesday's storm.

Cranford Is Only Town With Substantial Voter Gain

Cranford is the only municipality in the county to show a substantial gain in registered voters for next Tuesday's primary election, the Union County Board of Elections reported yesterday.

The township has 14,277 eligible voters, representing an increase of 101 over the close of registration last September.

Union County has 266,138 eligible voters as compared with 270,806 last September.

Cranford will observe Memorial Day on Saturday with a five-division parade starting at 9 a.m. from Walnut Avenue School, followed at 10 a.m. by services in honor of the township's war dead at Memorial Park, Springfield Ave. and Riverside Dr.

In the event of rain, the parade will be called off and the exercises will be held in the community room of the Municipal Building at 10 o'clock. (The parade route and listing of marchers in the various divisions were reported in last week's issue of this newspaper).

Grand marshal for the parade will be Walter E. Cooper, who served in the Mexican Border Campaign in 1916 as a member of the Fourth New Jersey Infantry, with the 29th Division in the European Theatre during World War I and as a member of the Coast Guard during World War II.

Mr. Cooper, a member of the VFW and a past commander of Cranford Post 212, American Legion, is a past president of the Cranford Board of Education, a former member of the Down Town Glee Club in New York and the Cranford Glee Club and a present active member of Trinity Episcopal Church.

The commanders of the local VFW and American Legion posts have issued an invitation to all veterans to march in the parade, and Mayor Malcolm S. Pringle has invited Gold Star mothers to be seated in the reviewing stand on Springfield Ave.

Commander Herbert E. Clausnitzer of the American Legion post will be master of ceremonies for the services at the memorial tablets in Memorial Park. Invocation will be by Rev. Herbert S. Edge of Cranford Baptist Church.

Lauren Leticq of Cub Pack 103 will lead the Pledge of Allegiance to the Flag, and the audience will sing the "Star Spangled Banner," led by Lt. John E. Haviland of the fire department and accompanied by the Cranford High School Band.

Following a welcome by Mayor Malcolm S. Pringle, "Lincoln's Gettysburg Address" will be recited by Richard Steele, a senior at Cranford High School, and the high school choir will sing "These Are the Times," by Bryan.

A Boy Scout memorial service will be conducted by Thomas Boehm of Troop 176 of Brookside Place School.

Former Mayor Gill will conduct the memorial service for those lost at sea, escorted by the commanders of the two veterans' posts and a firing squad. This will be followed by the singing of "Eternal Father, Strong to Save," by Dykes, by the high school choir.

The roll call of Cranford's war dead will be conducted by Commander Frederick Hayes of Capt. Newell Rodney Fiske Post 335, VFW.

Flower girls and Girl Scouts placing wreaths at the memorial tablets will be: Carol Maloney, World War I; Jane Fitzpatrick, World War II; Kerry Colangelo, other wars; Veronica Korner, unknown soldier; Bonnie Koury, Korean Conflict, and Diane Turk, Vietnam Conflict.

Following the placing of wreaths by various organizations there will be a volley by a firing squad commanded by Capt. Thomas F. Korner of the VFW post.

Taps will be sounded by David Clausnitzer and Robert Zobal, and the audience will sing one verse of "America," led by Lt. Haviland and accompanied by the band.

Benediction will be by Rev. Rudolph P. Gibbs of St. Mark's A.M.E. Church.

The program will conclude with the playing of "Stars and Stripes Forever" by the band.

Members of the Cranford Memorial and Independence Day Committee in charge of arrangements include: Mayor Pringle, honorary chairman; Commander Hayes, chairman; Commander Clausnitzer, vice-chairman; Harold J. Seymour, Jr., incoming commander of the VFW post, vice-chairman, and Mrs. Margaret D. McCullough, secretary.

VFW Units Place Flags On Graves of Veterans

The Cranford, Garwood and Westfield posts of the Veterans of Foreign Wars placed approximately 900 American flags at the gravesites of veterans in Fairview Cemetery, Westfield, on Saturday.

Incoming Commander Harold J. Seymour, Jr., of Capt. N. R. Fiske Post 335, participated along with several members of the local VFW unit.

Undersheriff John L. Banyasz of Garwood led the group from that borough participating in the ceremony.

A spokesman for the group said that if any veterans' graves were overlooked, flags for them may be obtained weekdays at the cemetery superintendent's office.

STUDENT ARCHITECTS — Albert Rizkalla, left, and Raymond Lasinski, seniors at Cranford High School, go over plans for the proposed high school expansion and rehabilitation project that will be submitted for voter approval on June 23. Albert and Raymond are students in the high school architectural drawing class, which assisted the staff and Board of Education in developing the plans.

Students Help Develop Plans For High School Project

Members of the architectural drawing classes at Cranford High School are hoping to see some of their blueprints put to practical use — in the form of a renovated and expanded CHS.

According to Dr. Charles Post, principal, students in the classes helped develop the plans for the Board of Education's proposed bond issue that would authorize construction of an addition to the high school and rehabilitation work on the old building. The referendum will go to voters June 23.

"While the professional staff and the members of the board were charged with the responsibility of determining the needs of the plant to accommodate the program, it seemed logical to have students as a source of information," Dr. Post explained.

The principal said a building sub-committee of the Student Council Curriculum Committee was formed, which assisted in outlining problems and offering solution to them, but the greatest amount of help came directly from students in the architectural drawing classes.

Their suggestions were worked into the plans by seniors Albert Rizkalla and Raymond Lasinski.

Albert, son of Mr. and Mrs. Frederick Rizkalla of 610 Lincoln Avenue E., plans to study architecture at the University of Kentucky. He has three years of mechanical drawing and two years of architectura ldrawing.

"I feel this new plant would be a most worthwhile thing," he commented. "If it is to continue as it is with inadequate facilities, the only direction the school can take is to deteriorate. I am proud that Dr. Post chose me to work on the plans. It made me fell pretty good to be doing it and, at the same time through practical exoperience, I was helping the school."

Raymond, son of Mr. and Mrs. Walter H. Lasinski of 88 Centennial Ave., will attend Muhlenberg College. He is leaning toward a career in engineering or architecture.

"I think the plan is a good idea and will solve many problems associated with the high school," he said. "When I was asked to do some of the drawing, I felt it was an honor, but my real reason for choosing to help was that I believe so strongly in the plans. Let me just put it this way — its about time."

Also contributing his talents to the project was Paul Doscher, a 1968 graduate of the high school who is now a second year student of architecture at Miami University, Oxford, Ohio. Paul, son of assistant CHS principal and Mrs. Henry Doscher of 29 Adams Ave., visited the school when he was home on spring vacation, reviewed the plans and made recommendations that were incorporated into the final drawings.

Last summer Paul gained academic as well as employee of Frank Lyman, Finne, Reeso of Elizabeth, a firm for which he built a model of the main entrance and stair tower for the new Linden area vocational and technical school.

To Your Health

By RON SOBELSON

There are some 35 million women in the U. S. who devote their full time to homemaking. Even though work is becoming "easier," a woman's hands are still vulnerable to "housewives' hands," a red, itchy rash. Since most women cannot give up their household tasks until hands heal, they must seek measures to heal and prevent eruptions like these. Cotton gloves (dermal gloves) under rubber gloves will protect the hands and allow them to sweat. Hands should only be gloved for 15 to 20 minutes at a time. But whatever you do, do not neglect taking care of them.

And the pharmacists at BELL'S PHARMACY devote their full time to your family's health and beauty. We have a complete prescription department at your service. We also carry hypo-allergenic cosmetics, physical therapy equipment, candies, cards, baby needs, and home-care items.

You probably know only half the story!

How is the price of a diamond determined? "By size and perfection," you say. You're half right: Cutting is also very important. Errors in cutting, even to the fraction of a degree, will diminish a diamond's fire. And color is a factor, too. Actually, the crystal-clear absence of any interior color is most desirable. As members of the American Gem Society, we adhere to the highest standards in evaluating every single diamond. And we're ready to give you ALL the information. We know you want the best guidance. After all, forever is a long time to forget a mistake!

Announce Wedding To Social Security

Girls getting married this June might not think of sending a wedding announcement to their Social Security office.

But the Social Security Administration would like to know the bride's new name as soon as possible.

Ralph W. Jones, district manager of the Elizabeth Social Security office, today reminded newlyweds that up-to-date records are important if earnings are to be recorded properly and without delay.

Hearings Set

for recreation or some other suitable use, public or private, as approved by the planning board. This excludes driveways, parking areas, roads and streets. This "common area" of any tract not accepted by the township is to be deeded to a corporation, association, individual or individuals for their use, control, management and maintenance. In event maintenance is not performed, the township may perform and assess it.

Another ordinance appropriated $12,000 for the completion of the Emergency Operating Center (formerly the CD Center) on Centennial Ave. beneath the Jersey Central Railroad. Total cost of the center is $45,000, of which half came from the federal government. Hearing will be June 9.

In another amendment to the zoning ordinance, a garden apartment district is established where the Parkway Village and Kahlcrest garden apartments are now located. The measure establishes standards which are more restrictive than in the present zoning measure. Hearing will be June 9. This was passed 3-0 with Commissioners Goodman and Praster abstaining. Mr. Praster said he was not in favor of doing anything regarding apartments without more study.

An appropriation of $63,982 to be reimbursed by a federal grant was appropriated to finance a new police traffic communication system. It involves replacement of all car radios, now outdated, and walkie talkies, as well as installation of a "status map" which will indicate by lights where calls come from. The new system is expected to be one of the most sophisticated and modern in the area. Hearing on this measure will be June 9.

Another ordinance restricts parking to two hours between 9 a.m. and 6 p.m. on the easterly side of Centennial Ave. from Arthur St. to Wall St. Another measure amends the traffic and parking ordinance establishing "no passing" zones on Springfield Ave. for north and south bound traffic along several areas between North Union Ave. and Kenilworth Blvd. Another measure spells out information required in submitting site plans to the Planning Board. Hearing on the ordinances will be June 9.

Adopted on final readings were ordinances updating the local electrical code and amending the zoning ordinance providing a more strict control over signs.

Township Clerk John Laezza was authorized to advertise public auction of two 25 foot parcels on Garden St. at the June 9 meeting. Minimum price for each is set at $1,000.

Douglas Woodson, 175 Garden St., suggested that more property be made available for homes here for the township's Negro residents. He argued that while the township is doing something for conservation it should endeavor to "conserve the hearts and souls of its people." He expressed the hope that some township land could legally be made available for purchase by Negroes. The mayor explained that township land has to be offered at public auction.

Kenneth McGrath, 3 Normandie Pl., just before the committee adjourned at 12:05 a.m. yesterday, suggested that meetings be started earlier and streamlined. He said he had a few things to say but "it was much too late to say them when we have to get up early to fight the economic battle again tomorrow."

Adopt Ordinance

(Continued from Page 1)

a commission as much as it needs "action now." Mrs. Ann Balsamo, 30 Hillcrest Ave., and B. S. Willoughby, 12 Clark St., also opposed a commission.

Dr. Edward M. Coe, 217 Holly St., said committees have worked successfully in other areas of municipal government here and said he is opposed to a commission. Richard Kimball, 308 Retford Ave., also favored a committee.

Mr. Vassallo, a member of the Planning Board, said Township Committee had acquired a part of the Gray property and adopted the river setback ordinance — two recent conservation measures — on recommendation of the Planning Board, and contended this should be a prerogative of the governing body.

Marshall Klein, Hemlock Cir., said "fears have been expressed that do not exist." He argued that a commission would provide continuity. "If we favor conservation — and mean it — then we should not fear continuity." He said that fears that a commission will become a "super authority" simply do not exist but that a commission will help provide the township with a state-wide network of information regarding conservation.

Rev. Arnold J. Dahlquist of Calvary Lutheran Church agreed there are arguments for continuity with regard to conservation, and Miss Mary Sullivan of Lincoln Ave. favored the commission so that conservation would be taken out of the political arena. John Madden, 86 Centennial Ave., said he supported the commission "because the environmental situation in which we now find ourselves demands it." He added he would favor maximum funding at once for conservation.

Commissioner McVey said the township has operated for years with committees and "no one ever has charged us with playing politics with appointments." He noted that many committees are bi-partisan. He said he does not buy the "continuity" part. Committees can be appointed and he added that he believes "we can trust the next Township Committee to continue to appoint committees."

Commissioner Praster, who voted with Commissioners Meyer and McVey to table the measure for a month after the initial public hearing April 28, said he had received "one or two phone calls and one letter" concerning the ordinance. He said he had not encountered anyone who "really opposed a commission," but added that some people have tried "to instill fears in the minds of many people regarding the vast powers of commissions that would take away powers from the Township Committee." He said the township needs something that will overlap — keep programs going. "We should get this fear out of our minds and get down to business."

Commissioner McVey contended that the best way to get fears out of the minds of our people is to create a committee." It probably would be manned by the same people who would serve on a commission, he said.

Commissioner Goodman said he regretted that Commissioner Meyer "had changed his mind" regarding the commission. He read a report by Mr. Meyer following an informal hearing on the river setback ordinance in which he contended that Commissioner Meyer favored the conservation commission.

Public Support Added Sarnowski Qualification

Vincent F. Sarnowski has been paid high tribute by a large segment of the local population following the revelaton that the Board of Education was considering naming him assistant superintendent of schools instead of reappointing him superintendent.

There was an attendance of some 250 citizens at the board meeting at the high school last week, with most of them calling upon the board to retain Mr. Sarnowski as superintendent, and petitions containing the signatures of close to 3,000 residents were presented urging the board not to go ahead with plans to have the popular superintendent step down from the top post.

At a meeting this week, a group known as the Citizens for Sarnowski Committee was organized "to insure dedicated and demonstrated leadership for the Cranford school system — a leadership that has the most widespread confidence within the community of parents, students, teachers and taxpayers."

Mr. Sarnowski, who has had 30 years' experience in the local school system, was named acting superintendent on November 1, 1968, and was given the full superintendent title by board action last July. Reappointment for the coming year would place him under tenure in the superintendent's post.

This newspaper commented editorially in November, 1968, that Mr. Sarnowski's appointment had "met with general approval throughout the community as well as within the ranks of the schools' professional personnel" and pointed out that "regardless of past experience, educational background and other qualifications, no individual can successfully direct a public school system the size of Cranford's today without the full cooperation of the faculty, the Board of Education, the public, and, yes, the student body."

In the ensuing year and a half, Mr. Sarnowski has proved that he meets these requirement for successful directing of our school system (with the lone exception of the full cooperation of the Board of Education in his reappointment).

We hope that the board in making a final decision will give full consideration to the outpourings of public sentiment in favor of Mr. Sarnowski and keep in mind past experience in the case of a superintendent who had excellent experience and educational background qualifications but did not gain full support of the public.

Yes, the Public Does Have a Right to Know

Edmond Kiamie chairman of the Cranford Forum League and an independent candidate for Township Committee, is now concerned about the Board of Education violating "the public's right to know" in its handling of the Vincent Sarnowski case.

As a candidate for a political office, it would appear that Mr. Kiamie also has an obligation to the public to disclose what and who the Cranford Forum League is, and to make public a list of its officers, directors and members. We know of no political action group where this information is not available (except the Forum League).

Mr. Kiamie has successfully evaded disclosing this information over a number of years. We believe in the interest of "the public's right to know" about candidates for office this information should be disclosed forthwith.

Don't Let That Highway Hijacker Get You!

After the sad and soggy weather record set here during May, the law of averages would seem to insure that we have some good weather over the coming Memorial Day weekend, and this in turn could mean a new record in holiday traffic as sun-starved motorists take to the road in droves.

And another result of the combination of a long holiday weekend plus a long-awaited spell of sunshine could be a new high in traffic accidents, injuries and fatalities.

While looking forward hopefully for good weather over the weekend, we suggest that our readers also keep in mind the facts that statistics show that the seasons presenting the best driving conditions also produce the worst accident records and that more fatalities occur on dry highways in perfect weather than under conditions of fog and rain, or even snow and ice.

So, no matter what the weather conditions turn out to be, we urge all drivers to exercise extra care from now through Monday to insure that they are not taken over by the highway hijacker depicted in our editorial cartoon this week.

Letters to the Editor

Presents 'Case History' on Superintendency

242 Denman Rd.
Cranford, N. J.
May 21, 1970

Dear Sir:

On May 19, I attended the Board of Education meeting and listened to the controversy on the superintendency. I was particularly impressed with the comments of Mr. Black, who made a plea to the board to consider very seriously what effect their decision would have on the community. With this in mind, I should like to present a case history which describes what might occur if a wrong decision is made.

My father was an educator all of his life, starting out as a teacher in a public school and working his way up to principal of a secondary school and finally to assistant superintendent of schools in Concord, N.H., a position which he held for over 12 years. During this time, he continued his education and achieved his master's degree as well as additional credits above that level. He was well liked in the community, competent and had a considerable amount of responsibility in the school system.

Suddenly the superintendent of schools passed away and the Board of Education, instead of offering Mr. Walker the position, brought in a new man from out of state to take over the superintendency, in spite of the hue and cry of the aroused citizenry. This new candidate had considerable experience in the educational field, was a convincing spokesman, and had new ideas on educational matters. All that Mr. Walker had to offer was the 12 years as a competent administrator plus the respect of the community and the teachers in the school system.

Mr. Walker finally resigned after conditions became intolerable, was appointed superintendent of a school district in western New Hampshire and spent the last 10 years of his life in a position for which he was well qualified.

But let us go back to Concord, N.H., and see what developed after Mr. Walker left. Considerable friction between the new superintendent, the community and the teachers was inevitable, because of the situation outlined above. The new innovations did not work out, cooperation between various parties broke down, and finally conditions became so bad that the superintendent was forced to resign.

Needless to say, no one wants a situation like this to develop in Cranford, and with a little intelligence and foresight, it can be prevented.

Robert W. Walker

Thank You to 'Outputers' and 'Putouters'

15 Kensington Ave.
Cranford, N. J.
May 26, 1970

Dear Sir:

Any one of us who has participated in fund-raising efforts for any cause knows that, to be a success, dedicated and concerted effort is required of many people. The recent drive sponsored by the Mayor's Committee on Drug Abuse is an example of such.

Starting on April 22, the "get-in-touch-with-people" mechanism of the ladies Cranford (bless them), plus the concerted efforts of interested individuals, developed a team that culminated in the accumulation of some $4,200 between a Dramatic Club benefit performance and the door-to-door canvass.

Furthermore, where would any drive be without contributors of funds? Certainly this drive was a happy mixture of output and putout.

May I, therefore, use the medium of your newspaper, Mr. Editor, to say thank you and well done to each and every individual whose efforts as "outputer" or "putouter" made the result the success it was.

Challenges Statements by VFW Commander

56 Spruce St.
Cranford, N. J.
May 23, 1970

Dear Sir:

In an article in the May 21 issue of your paper, Commander Hayes of the VFW provides a good illustration of the manner in which hawks substitute rhetoric for reason in trying to support President Nixon's Southeast Asia policy.

The VFW support of Nixon may sound like patriotism. But is it patriotism to support policies that have flouted our Constitution, that have violated international law, that have resulted in 275,000 American casualties and that have used the energies and resources that are urgently needed at home to promote the welfare of our people?

Each of the five statements by Commander Hayes that were quoted in this article is clearly incorrect. I challenge him to a debate as to the truth of his statements. Or perhaps the time has come when the town should have a public debate between representatives of groups such as the VFW and representatives of the Cranford Citizens for Peace.

Police Commended for Prompt Response

12 Elm St.
Cranford, N. J.
May 20, 1970

Dear Sir:

Let me take this opportunity to express my thanks and appreciation to the Cranford Police Department and to Sgt. Haney, Sgt. Wilde and Patrolman Cavalla for their prompt action on May 13 when they were called to my home to assist my wife. Although the effort was in vain I'm sure this prompt action has in the past and will in the future help others.

We are indeed fortunate to have such an efficient and capable force at our call. It is reassuring to know that such prompt results can be expected when an emergency arises.

My sincere thanks to the members of the Cranford Police Department. They are to be commended.

Suggests New Slogan to Go With Flag Display

122 Roosevelt Ave.
Cranford, N. J.
May 24, 1970

Dear Sir:

Some Americans display our flag with the slogan "America-Love It Or Leave It" to show their loyalty. To love America and to respect the symbolism of our flag. However, precisely because of this respect, I object to the use of our flag to shelter the corrupt and venal Thieu-Ky regime in South Vietnam.

This regime is neither democratic nor representative; rather, it has stifled free elections and cracked down even the mildest forms of dissent. It is not now and cannot become a defense against Communism — unless we remain in Vietnam indefinitely to prop it up with our flag, our fighting men and our money.

If our flag is to be a symbol of progress and hope for the future, we cannot allow the repressive Thieu-Ky regime to find shelter under its folds. If American patriotism is to challenge our youth to build a better nation and a better world, we must stop asking them to risk their lives in support of the Thieu-Ky tyranny in Vietnam.

Yes, I love my country and my flag. But instead of calling on Americans to "love it or leave it," which suggests unquestioning acceptance of the status quo, I propose a more dynamic and more appropriately American attitude: America — if you love it, improve it.

The migration wave is waning. Although we picked up 13 new species since the last compilation, two weeks ago, there hasn't been a phone call or note for the last five days.

Mrs. Herman Bieber on Dorset Dr. in Kenilworth heard a pair of woodcock mating and spotted a nighthawk, chimney swift, eastern kingbird, catbird and scarlet tanager.

Mrs. Robert E. Hughes on Madison Ave. had a Canada warbler in her tree demolishing a large green caterpillar. She also asked (clearly incorrect. Choral Art Society Appears Here In 'Fine Performance' Of 'Messiah'

By JOHN E. COOK

The Choral Art Society under Evelyn Bleeke, musical director, performed Handel's "Messiah" on May 23 in Cranford High School. The soloists (SATB) were Sally Schreiberger, Maria Martell, Richard Bump and Holly Mertel. Irving Nuesbaum of Cranford was violin soloist and concertmaster.

This was a fine performance and one of which the society can be proud as a worthy sequel to Mrs. Bleeke's previous work with them. To the chorus Mrs. Bleeke had communicated an evident enthusiasm and sense of style, while she brought forth accuracy from the orchestra and was responsive to the soloists. On the other hand, the overall architecture of Handel's grand design was only partially revealed. It was unsatisfying that this great unified work tended to appear as a collection of unrelated numbers.

Present day performances of "Messiah" lie between the extremes of those that take careful account of what recent scholarship has discovered of Handel's actions and intentions and those that blithely disregard all this evidence and perform the oratorio in a heavily pseudo-traditional Victorian fashion. Mrs. Bleeke aimed for an historically derived performance and, in large measure, she succeeded admirably. Much of the turgid nineteenth-century quasireligiosity was happily eliminated by Mrs. Bleeke's approach.

The chorus work was encouragingly good and distinctly superior to most local amateur groups. They sang lustily with obvious enjoyment and this fact largely compensated for the cheerful neglect of dynamics. "Since by Man Came Death" was a beautifully wrought exception to this. Diction was of a above average clarity although there was a bothersome abundance of carried-over consonants as in "Faw runto wuss-ik chil-di-zhen." Intonation was uniformly excellent and the chorus' tone, while full, did stay well away from the warbling fruitiness beloved of lesser choral conductors. Occasionally the baritones were audible; Mrs. Bleeke did not always succeed in getting her chorisers to "sing horizontally" and one was conscious of notes and measures rather than entire phrases.

The soloists sang competently but with a relatively romantic style that appeared flaccid against the more sinewy choral approach.

The strings in the small orchestra played their demanding parts with a praiseworthy clarity. The continuo (harpsichord, cello and bassoon) were notable for unflagging musicianship.

In summary, Mrs. Bleeke essayed lofty aims and brought them off with considerable credit in a worthwhile performance. We shall look forward to next season's enterprising programs of Ron Nelson's "What is Man" and Bach's tremendous "St. John Passion."

Plan Class Night At Union College

A buffet dinner and informal dance complete the Class Night program.

Ending '24 Wonderful Years' On Faculty of Union College

"They've been 24 wonderful years," said Prof. Harriette N. Trumpore as she announced her retirement as Spanish and English instructor at Union College.

HARRIETTE N. TRUMPORE

"I'm almost ready to change my mind."

Prof. Trumpore's career as college instructor has in many ways paralleled the growth of the college. A graduate of Syracuse University with a master's degree from Middlebury, she began teaching on a part-time basis on the old campus in the old Grant School (now the Union County Cerebral Palsy Center). She started the Spanish department and later added English to her teaching schedule. As the college grew so did her classes and she was named a full-time instructor.

If Mrs. Trumpore added to her teaching schedule, so did Union College.

"The college offered only Liberal Arts when I began teaching," she recalls. Today students may major in engineering, life sciences, business administration and law enforcement, as well as liberal arts. There also are special programs for nursing students and future teachers.

While Union College's growth in 24 years has been phenomenal, Prof. Trumpore notes it has not been haphazard.

"Every program we've added," she said, "has been in response to student needs. The college has kept pace with the students and the response to their needs has been immediate."

While the college has changed physically and academically, Prof. Trumpore says the students too have changed over the past 24 years. Today's students, she believes, are not as serious-minded as the veterans of 24 years ago.

She does, however, commend Union College students for their sensible reaction to the national crisis on college campuses.

"We've been fortunate," she said, "in having students who react constructively rather than destructively."

In some measure, Prof. Trumpore credits this to the close relations between faculty and students.

"This is not a large impersonal institution and students do not react impersonally," she said.

When she began teaching her two children were in junior high school. Both attended Union College, one for a year, the other a summer program. They are now grown and married. So retirement for Prof. Trumpore and her husband will mean complete leisure. They are planning to move from their home in Cranford to Crest Wood, a retirement village in Whiting.

Will she miss Union College? She hasn't yet left and the seeds of "homesickness" have already been planted.

A farewell dinner was tendered her by the English and Spanish departments. Guests included "the wonderful, lasting friends I've made at college." And she admits,

During the past year Mr. Smath has received two other designations. He was named to Liberty Mutual's "Hall of Fame." Drug Addiction Subject For Production at Temple

"Who is responsible for the drug addict? Is it the addict himself who cannot pull the 'monkey off his back,' the parent who refuses to recognize the problem, or the brother who supplies the money for the habit?

These questions will be pondered when the Players of Temple Beth-El act out the sermon tomorrow at 8 p.m. on the temple pulpit," it wa sannounced by Don Ellenberg, producer of the group.

"For our sixth drama-sermon we have chosen the third act of Michael Gazzo's "A Hatful of Rain," a timely play dealing with drug addiction," he continued.

Mr. Ellenberg, originator of the drama-sermon at the temple, conceived the idea in a conversation between himself and Rabbi Sidney Shanken, spiritual leader at the temple. It was decided in lieu of the usual Friday night sermon, selections from literature would be chosen to be enacted. Its purpose would not be to entertain but to point out a moral and to make the congregation realize that "religion has a bearing on life." It would also serve to tear down the "artificial barriers that separate life and religion," Mr. Ellenberg said.

For Mr. Ellenberg's and the Players' efforts, the congregation was presented the Solomon Schecter Award for "creative programming through religious drama" at the 1967 biennial convention of the United Synagogue of America.

Appearing in tomorrow's production are the following temple members: Dr. and Mrs. Robert Levine, Mr. and Mrs. Joseph Steuer, Joseph Schecter, Arthur Marcus, Martin Friedman and Howard Phillips. Mr. Ellenberg was assisted by Zavel Finkelstein, assistant producer, and the drama was directed by Mrs. Herman Shapiro.

The play is produced by special arrangement with Samuel French, Inc. The public is invited to attend.

Missionary To Speak At Alliance

Rev. William D. Carlsen, a native of Pennsylvania and a graduate of Nyack Missionary College, will be at the Cranford Alliance Church on Sunday as a guest speaker.

After post graduate work at Houghton College, Rev. Mr. Carlsen sailed to China in 1947 as an Alliance missionary. He studied the Chinese language at Kansu and Kwangsi. He and Mrs. Carlsen, who is a graduate medical missionary, were married at Labrang. In 1949 Chinese Communist hostility made it necessary for their departure in May of that year.

The Carlsens were then reassigned to Thailand, learning the language at Korat. Later they were put in charge of the Korat station and district.

Rev. Mr. Carlsen operated a number of book stores and training institutes for national postors. During his past term in Thailand, he organized an international Alliance congregation in the city of Bangkok, holding regular services in the Rama-Hilton Hotel.

Witnesses Hear Talk on Living Under Pressure

"Withstanding the Pressures of Our Day" was the title of the hour's talk heard by an audience of 2,645 at David Brearley Regional High School, Kenilworth on Sunday. The talk climaxed a three-day circuit assembly of Jehavoh's Witnesses in which virtually all the Witness families of the Cranford area participated.

The lecture was delivered by C. H. Weining. He asserted that ours is a day of many pressures. Authorities agree, he noted, that we are living at a time of intense personal pressure which in turn is producing unusual tension among people.

"It is easy to locate a problem," said Mr. Weining, "but the real challenge is to know what the solution is and how to cope with it. It is possible to find genuine happiness despite these many pressures. The Bible offers much counsel on how humans can gain happiness and when applied, it works marvelously in dealing with pressures. The basic Christian principle is to do to others what you would have them do to you."

Will-power, hypnotism, and occult practices are the opposite of control through spiritual understanding, as explained in the lesson-sermon to be read in all Christian Science churches this Sunday.

Bible citations point out that belief in evil forces has existed through the ages, under various names. The subject of the Lesson-Sermon is: "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism, Denounced."

One of the citations from Science and Health with Key to the Scriptures by Mary Baker Eddy, states: "Christian Science reveals Truth and Love as the motive-powers of man. Will — blind, stubborn, and headlong — cooperates with appetite and passion. From this cooperation arises its evil. From this also comes its powerlessness, since all power belongs to God, good."

April Wasn't a Bad Month — It Says Here

April wasn't as bad a month as it might have seemed here, according to Harold D. Duflocq, meteorologist at the U. S. Cooperative Weather Station at Union College.

In his meteorological summary to the U. S. Weather Department, Mr. Duflocq reported that the average temperature last month was 50.9 degrees, which was 0.5 degrees above normal. Temperatures reached 70 degrees or over on five days during the month, with a high of 78 degress recorded on April 26. The low point was 23 degrees on April 1.

April showers also topped the average mark. In six days of rain, there were 4.88 inches of measurable precipitation, exceeding the average by 1.25 inches. A severe storm on April 1 and 2 accounted for 2.60 inches of rainfall.

Precipitation for 1970 through April comes to 11.84 inches, as opposed to 11.90 inches on April 30, 1969.

Total degree days for the month were 420, bringing the total since September 1 to 5,409. For the first time in several months the number of clear days matched cloudy days. There were 11 clear, 11 cloudy and eight partly cloudy days reported by Mr. Duflocq.

Putting April, 1970, into meteorological perspective, Mr. Duflocq notes that the coldest April day on record was April 2, 1964, and April 1, 1969, when temperatures dropped to 19 degrees. The wettest April on record was in 1961 when rainfall measured 6.17 inches. April, 1963, was the driest with 0.73 inches of rain.

Your Nose Knows Best

Mechanical noses may someday be important tools in the fight against odor pollution, but right now nothing does as well as the old "schnozola."

"The human nose as a detector is at least 1,000 times more sensitive than machine detectors," according to Gregory Leonardos, a chemist with Arthur D. Little, Inc., of Cambridge, Mass. "The sense of smell is the most sensitive sense we humans have."

Under the auspices of the Rutgers College of Agriculture and Environmental Science, 300 air pollution fighters recently heard Mr. Leonardos and other experts talk about odor pollution —how to detect it, how to measure it, and how to control it, on May 13.

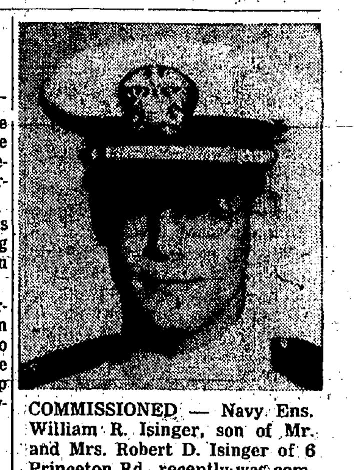

"The most effective way to control odor is not to generate it in the first place," emphasized William Walsh, an engineer with E. I. duPont deNemours and Co.

The odor experts stressed that the only accurate measures of odor pollution are the people affected, and that one man's bouquet is another man's bugaboo.

The "Breathers' Lobby" is making itself heard by legislators at all levels, said William H. Megonnell of the National Air Pollution Control Association.

"The public's patience has been exhausted," he stated, "and citizens are demanding action."

The odor pollution conference was held in conjunction with the 15th anniversary conference of the Mid-Atlantic States Section of the Air Pollution Control Association. The conference moderator was Joseph J. Soporowski, Jr., extension specialist in environmental sciences at the college and chairman of the section.

FILL AND RETURN FIRST AID SQUAD COIN CARDS

Suggestions Given On Raincoat Buying

BY CAROLYN F. YUNKUS
Senior County Home Economist

Spring showers bring the need for a raincoat.

Today, it is difficult to tell the difference between a raincoat and a light-weight coat. However, it is important that the wearer know the difference.

In selecting rainwear, look for the information about the finish applied to the coat.

Water repellent finishes fall into two categories — one that will resist staining caused by oily or water based spills; the other which is highly water repellent.

Both the fluorochemical and silicone finishes will last through many washings or dry cleanings.

In selecting new rainwear, know the difference between water resistant and waterproof. Water resistant finishes will endure short showers but eventually can become saturated if in constant contact with moisture.

Water repellent finishes are more comfortable to wear since they do allow some air to penetrate the fabric.

Waterproof raincoats are available in vinyl sheeting and some forms of plastic. But most fabrics which are absolutely waterproof are also airproof and are quite uncomfortable to wear for a long period of time.

Follow the directions on the hang tag for the upkeep. Some rain-

When a raincoat is machine washable, always be sure to rinse it thoroughly. Even a small trace of soap left in the fabric will reduce the effectiveness of a water-repellent finish.

If the water-repellent finish has disappeared, consider renewing the finish with a home application of a water-repellent spray.

In applying the spray, make certain the coat is absolutely clean before spraying. Be careful to do a thorough job of applying the spray. It is important to overlap sprayed area to get complete coverage.

Mascaro Pledges Restudy Of New Mini Playground

KENILWORTH — After hearing a further barrage of complaints about the new mini playground at the Lincoln Dr.—Roosevelt Lane circle at Tuesday night's Borough Council meeting, Council President Frank J. Mascaro pledged to have the governing body investigate the situation.

He indicated that a citizens' committee may be organized to make a study of the playground, which has drawn the ire of senior citizens and other who live near it.

The council president took over chairmanship of the meeting after Mayor William E. Conrad, Jr., left to attend a meeting of the Regional High School Board of Education.

For the third straight council meeting, the audience participation segment was dominated by critical remarks aimed at the playground. Complicating the situation was a report by Recreation Commissioner Philip Ernst that the new play area had been vandalized early Saturday morning.

Mr. Ernst said the vandals gummed the sliding board, gummed up the ball bearings on the swings and broke a seasaw in half.

"I think it's a disgrace," he commented. "It's possible that some of the ideas that have been expressed at these meetings were instilled in the children."

The gist of the complaints has been that there is too much noise at the playground, it is too close to nearby homes, too small for the number of children who use it and it poses a safety hazard because the children are left unsupervised.

Commenting on the vandalism, Councilman Ernst said "we have an idea who did it, and when we find out, some action will be taken."

He said if more vandalism occurs, he will recommend that a fence with a lock be installed.

"If there's no money in the budget, I'll pay for it myself," he added.

YOUNG PEOPLE'S PROJECT — Garwood youths are shown studying some of the petitions they gathered, signed by 2,000 persons, in support of President Nixon's Cambodian action. Petitions were delivered to the mail room in the executive office at the White House in Washington. Left to right in the picture are: Donald Bucciarelli, Richard Kuhn, Mark VanHorn, Lynn VanHorn, Douglas Stout, Joseph Cuzzo and Richard Stout. Other participants in the project, not shown in the picture, were Michael Mallick, Fred Mason and John Hoke.

Students Gather Petitions Favoring President's Action

GARWOOD — Petitions signed by 2,000 persons in support of President Nixon's Cambodian action were gathered by a group of local high school students. Three of the group delivered them to the mail room of the executive office of the White House.

With the exception of Lynn VanHorn of 343 Myrtle Ave., a freshman at David Brearley Regional High School, Kenilworth, and typist for the group, all of the students are male members of the senior class at Arthur L. Johnson Regional High School, Clark.

Mark VanHorn, brother of Miss VanHorn, said signatures were solicited in three days locally and in New York City and at the Menlo Park shopping center. He estimated that 8 out of 10 persons asked were willing to sign.

Most of the boys work locally part-time as gas station attendants. They decided to circulate the petitions in defiance of anti-war demonstrations.

Beside the VanHorns, other participants were Donald Bucciarelli, Douglas Stout, Richard Stout, Fred Mason of Garwood and Richard Kuhn, Joseph Cuzzo, Michael Mallick and John Hoke of Clark.

Hoke, Richard Stout and VanHorn have enlisted in the Army, Navy and Marines, respectively.

Soos, Walyus Call For Broader Citizen Interest

KENILWORTH — At a meeting last Wednesday night of the Republican Municipal Committee, Billy R. Emmert, campaign manager for Frederick J. Soos and Joseph F. Walyus, GOP candidates for Borough Council, expressed enthusiastic satisfaction in the many pledges of support they have been receiving in their campaign efforts.

In the many informal meetings the two candidates have been having with both individuals and groups through the borough, they have been stressing the need for broader participation on a community level.

A recent case in point, cited Mr. Soos, was the public hearing on the regional high school expansion referendum, which was attended by only 16 borough residents.

"I feel that on an issue of this importance more people should come forth to voice their opinions whether for or against an issue, and also to make sure they have enough information to cast the proper vote," he said.

On the same theme, Mr. Walyus added that people should attend council meetings so that they can voice their opinions on issues of interest or concern to them before the issues become irrevocably finalized by the governing body.

"This type of participation is a definite help to the council and is a necessary part of government," he declared.

Letter Commends Police, First Aid Squad Members

GARWOOD — Copies of a letter from Mrs. Ann Wilson of 307 Third Ave. commending members of the local police department and the First Aid Squad for their assistance to her when she suffered a heart attack were presented by Mayor John J. McCarthy to Detective Warren R. Opie, Patrolman John DiBattista and Judge James T. Leonard, president of the aid squad, at Tuesday night's Borough Council meeting.

Police Commissioner Harry E. Hartman read the letter, in which Mrs. Wilson expressed thanks "for the fantastic response they made to my home on the morning of April 29, 1970, when I desperately needed them."

"They were responsible for saving my life," Mrs. Wilson added. "These men are to be commended on their great abilities."

Mayor McCarthy and Councilman Hartman added their commendations to both the police department and the First Aid Squad "for the terrific job they have been doing in this and other cases."

Mascaro Pledges

(Continued from Page 1)

ing remained adamant in their demands that the hardware be removed from the playground and that it be returned to its former status as a park.

"If it's going to be a playground, I want my taxes lowered. When I bought my property, I was told it was to be a park," declared John Mutek of 405 Roosevelt Lane.

"I couldn't even read my newspaper or listen to the TV because of the noise," Louis DiNunzio of 384 Lincoln Dr. complained. "You can come sit on my porch. See how long you can stand it."

"If any of you councilmen had a house on that circle, there wouldn't be any playground there," William Altenburg of 413 Lincoln Dr. remarked.

Charles Gatz of 401 Roosevelt Lane said he knew of children who had been injured while playing in the area, including a child of Councilman Ernst.

Mrs. Evelyn Herrmann of 409 Roosevelt Lane said she was "amazed" at the number of children the playground has attracted.

"There were about 60," she said. "This playground is geared to toddlers, and they have a tendency to shriek all day long. It's unbelievable."

Councilman Ernst reiterated that the council's purpose in establishing the playground was to provide a service for the younger children in the area who are not old enough to cross Michigan Ave. or the Boulevard.

"Our intention was for good. We still feel it will do some good," Councilman Thomas J. McHale told the group. "We intend to keep it up and we intend to police it. It's shame that neighbor is fighting neighbor over this."

The suggestion that an impartial citizens' committee be organized to study the situation came from Livio Mancino of 133 N. 23rd St.

James Zielinski of 636 Jefferson Ave., a member of the Planning Board, suggested that the board be consulted.

Councilman Mascaro said the council would take their suggestions into consideration and would investigate the complaints.

Miss Midkiff Directing Final Concert at Regional Tonight

CLARK — The vocal music department of Arthur L. Johnson Regional High School will present its annual spring concert in the school auditorium at 8 o'clock tonight. Tickets will be available at the door.

The concert will be under the direction of Miss Mildred Midkiff of Westfield, formerly of Cranford, director of vocal music, who plans to retire in June.

Miss Midkiff has had a 31-year career in teaching, 23 years of which have been in Union County Regional High School District No. 1, including nine years at Jonathan Dayton Regional High School in Springfield and 14 years at Johnson Regional. Road Work Fund Allotted For Garwood

GARWOOD — The borough has been allocated $4,000 under the Herrick Act, which provides state aid for road construction and improvements from gasoline tax funds, it was announced by Public Works Commissioner John E. Gallagher at Tuesday night's Borough Council meeting.

Councilman Gallagher noted that the borough makes application for an allocation of these special funds each year but this is the first time in recent years that it has received a grant.

Mr. Gallagher said the money will be used for improvements on Second Ave. from Oak St. to the Cranford line.

He also reported that regular formula state aid has been approved for Garwood in the amount of approximately $3,000 wihch will be used for improvements in the 400 block of Willow Ave.

Mayor John J. McCarthy reported that Garwood has applied to the State Law Enforcement Planning Agency for a grant of $6,000 to assist in the borough's programs aimed at combating juvenile delinquency and drug abuse. He said this is the first time the borough has applied for such aid under the Safe Streets Act.

"We don't have any major problems," the mayor said, but he pointed out that small communities do have some problems to cope with and the borough wants to strengthen its preventive program.

"I hope that it won't be the size of the municipality but its problems that will be considered in Trenton and that they will give us our share of these funds," he added.

Council passed a resolution in support of state legislation that would increase the real estate tax deduction for senior citizens from $80 to $180.

On recommendation of Councilman Edward W. Krempa, chairman of building and grounds, an expenditure of $525 was authorized for the removal of 21 trees on borough property on the eastern end of Willow Ave. for aesthetic reasons and to facilitate use of the property, and for the topping of the poplar trees at Guerriero Memorial Field in Garwood Memorial Park.

Council also authorized an expenditure of $340 for provision of band music by the Elizabeth local of the Musicians' Association for the Memorial Day parade.

Mayor McCarthy urged residents to attend the inter-faith memorial service to be held at the Church of St. Anne at 9:30 a.m. Saturday and the Memorial Day parade and services following, "to honor our servicemen of past wars and those listed on the current honor roll."

Councilman Charles J. Horbacz spoke in commendation of a group of local high school students who gathered petitions signed by 2,000 persons in support of President Nixon's action on Cambodia, praising them for the orderly way in which they operated.

"We hear too much about the other side, those who demonstrate with violence," he said, declaring that those who follow orderly procedures also should be given recognition.

Regional Board Favors Anthem Use at Brearley

GARWOOD — The Board of Education of Union County Regional High School District No. 1 at a meeting in Franklin School here Tuesday night passed a motion urging that playing of the National Anthem be restored as part of the morning ceremonies at David Brearley Regional High School in Kenilworth.

Mrs. Natalie Waldt abstained and Dr. Fred Hagedorn voted "no" on the motion to inform the school administrators of the board's desire to have the "Star Spangled Banner" played, at least through this school year.

Students voted 2 to 1 last week against continuing inclusion of the National Anthem in the morning ceremonies, which had been instituted following another vote last year, when a majority voted for it.

Members of the Kenilworth American Legion and VFW posts declared last week's vote was unfair because only about 400 of the school's 900 students returned ballots.

Braves Shut Out Phils, Pirates, Extend Win Skein to 10 Games

By KEN FORRESTAL

The Cranford Savings Braves ran their undefeated skein to 10 games in the National League during the past week with a pair of shut out victories —a 9-0 win over the Phils and a 1-0 victory over the Pirates.

The Cranford Elks' Reds moved into a second place tie with the Pirates by winning two games. They stopped the Dodgers, 6-2, and captured the Cubs, 5-3.

The Reds had Alen Friermuth on the mound against the Dodgers. He turned in a two-hit performance. The Dodgers grabbed a pair in the first before the Reds went to work with two in the second and four more in the fifth. Glen Baldwin was the Dodger hurler allowing five hits. Kevin Papa doubled and Rich McKinney singled for the Dodgers. The Reds hitters were Tony Bongiorno with a double and single; Ken Inchalik had a double and Steve Kameika and John Pranio singled.

On Saturday, the Reds started the scoring with three in the first and got one each in the third and fourth. The Cubs came up with one in the fourth and two in the sixth. Tony Bongiorno did the Red mound chores and gave up six hits, Jon Schwalbach was the Cub chucker. Tommie Boland did well as he caught his first game for the Reds. The Red hitters were Ken Inchalik with a double and two singles; Alan Friermuth, two singles; and John Pranio, Tony Bongiorno, Steve Kameika and Ray Gribble with singles. Joe Chirico had a double and single, and Joe Bontempo a double for the Knights of Pythias Cubs' power. Jon Schwalbach, Bill Thompson and Mark Gross had singles.

The Cranford Savings Braves trounced the Phils in a 9-0 fiasco, called in the fifth because of rain, as Joe Gachko limited the losers to two hits, both in the first inning. Mike Forrestal hurled for the Phillies and gave up six hits. An error, Sean Deery's bunt single, two passed balls and Jim Schubert's single provided the first two Brave runs in the second. The third stanza saw the Warriors get two more on Jonathan Brown's double, two walks, and Bob Imbriaco's single. The roof fell in during the fourth as five Braves crossed the plate on a walk, three errors by the Phils' keystone pair, and singles by Joe Gachko and Bob Imbriaco.

After a score in the first, both pitchers settled down for a thrilling duel which the Braves won, 1-0, over the Pirates. Jonathan Brown struck out 12 and gave up two hits. E. J. Carlin threw for the Pirates, striking out nine and allowing four hits. The tally came when Brown walked and crossed the plate on Joe Gachko's double. After that nothing, although Dave Heins singled twice and Mike Mitchell once. Kevin Gallagher and Bob Osolin singled for the Pirates.

The Robbins and Allison Phillies beat the Cardinals, 7-0, as Bill Folinusz held the Redbirds to three hits. There were two singles by Bruce Ehrich and one by Eric Tarver. The Phils got four in the second on a walk and consecutive singles by Jim and Mike Forrestal, Bill Folinusz, and Gary Dorin. John Grice singled in the third but was left on second after a steal. The other three runs came on singles by Mike Forrestal (4 for 4), Bill Folinusz (3 for 4), Gary Dorin (2 for 2) and Keith Jackson. Dan Holleran and Jim Hardman split the hurling for the American Legion Cardinals.

The Kiwanis Giants took one from the Cubs, 4-3, in a cliff-hanger as Jack Donovan struck out eight. Bill Thompson was the Cub twirler, striking out six and allowing five hits. The Little Bears opened with two in the top of the first only to have the Giants get one in the bottom half, another to tie it up in the third. With two more in the fourth, they went ahead to stay despite the Cub tally in the sixth. The Cub hitters were Joe Chirico and Bill Thompson collecting two singles each, and Bontempo and Heinze with one each. The Giants had two singles by Dave Helmstetter and one each by Mike Berkman, Lund and Kettler for their scoring.

The Kohler-MacBean Dodgers set the Giants down, 10-5, in a free swinging match as they opened with five in the first on three walks and singles by Rich Kale and Glen Baldwin. Baldwin and Bill Sherm singled in the third but couldn't score. In the fourth, a walk, two errors and singles by Bobby Delsandro, Kevin Papa and Glen Baldwin (3 for 4). Reider singled in the top of the fifth to no avail. For the Giants, Tom Aagaard banged two doubles, Walt Wronski hit two singles, and Dave Helmstetter singled. Bob Stokes had the mound for the Dodgers, and Tom Aagaard and Walt Wronski shared the Giant hurling duty.

The Knights of Columbus Pirates clipped the Cardinals in a 6-4 contest as Ray Eilbacher and Chris Morris split the mound assignment. Bruce Ehrich went the distance for the Redbirds. The Bucs sent three men over in the first on a walk, a stolen base, E. J. Carlin's long double, Bob Vicci's single, and Bob Kiernan's double. They got one more in the third on a single by Carlin, two walks and a passed ball. Two additional tallies came in the fourth on a walk, a hit batsman, and a single by E. J. Carlin (3 for 3). Meanwhile, the Cards were hacking away, getting single runs in four different innings. The first was on a double by Bob Novotny and a perfect bunt by Glen McMahon. A single by Bruce Ehrich followed by Jim Hardman's double produced the second run. The third came on a hit by Donnelly and three walks. A bit of wildness put the other across for the final tally of the game.

In the Blues' game, the Bears led 6-2 going to the bottom of the seventh when the Blues exploded for four runs on seven hits to tie the game. After a scoreless eighth, Mike Shaeffer socked his third hit, a double, to drive in two runs. Then he scored to make it 9-6. The Blues, however, did not give up. With two outs and a runner at first, Ray Kramkowski doubled and later scored on Howie Silberstein's single. But Gary DeLonge settled down to get Chris DiLorenzo, who had two hits on a pop out.

The Fire Department Marlins and the Angels split a crucial doubleheader for both teams. Bill Svihra collected four hits and his fifth win of the season as the Marlins won the first game 13-5. MEMORIAL DAY

We can't forget the fight they made nor disregard the price they paid. If what they gave when fighting for the rest of us could end all war. Then their great loss will be a gain and they shall not have died in vain. This is the thing for which we pray as we remember them this Day.

To disregard the merits of quality fuel oil is poor thinking. For economy's sake, order your fuel from us . . . we use the best which means that you'll enjoy the best performance from your burner. Rankin Fuel Company, 230 Centennial Avenue, Cranford. 276-9200.

Any of these weeds in your lawn right now?

Dandelions, chickweed and many other non-grass weeds may be "camping" in your lawn. But you can put a stop to them with TURF BUILDER PLUS 2, Scotts weed control with fertilizer added.

A simple spreader application takes care of most non-grass weeds and fertilizes your lawn at the same time. Makes good grass grow greener and sturdier, filling in those places where the weeds **used to be.**

Spinning your car's wheels will only melt ice and snow and reduce traction, warns the Allstate Motor Club. Always apply power slowly and creep gently forward. In a pinch, you can use rubber floor mats from your car placed in front of the rear wheels to obtain extra traction to get you going again. Never let anyone stand directly behind a spinning wheel, which can throw debris.

WANT ADS GET RESULTS

SENIOR CITIZENS GOING TO GAME — Joseph Walsh, at left, president of the Cranford Senior Citizens' Club, is shown with Nicholas Precone, Cranford chairman for the annual Jaycee Football Classic. The Senior Citizens purchased a block of 20 tickets for the game and will go to Palmer Stadium in Princeton on a bus ride being sponsored by the local Jaycees.

Jaycees Begin Grid Classic Ticket Sales

The Cranford Jaycees have begun their drive to sell tickets for the Jaycee Football Classic to be played between the New York Giants and the Philadelphia Eagles at Princeton on Saturday, September 5.

The game is sponsored annually by the New Jersey Jaycees and member chapters to raise funds for charity. Last year approximately 166 chapters throughout the state earned $137,000 for some 250 charities by selling tickets for the game, selling ads in the souvenir magazine and working at the game.

For their efforts, the Cranford Jaycees earned $1,781.27, the 16th highest amount in the state. These monies are being used to support the scholarship fund to aid Cranford college students, the Mayor's Committee on Drug Abuse and other local charities.

Anyone interested in purchasing tickets or subscribing to an ad should contact Nicholas Precone of 2 West Holly St., the local chairman, or any member of the Cranford Jaycees.

B. All signs shall be maintained in good condition and shall be repaired and repainted as required. The proper repair and maintenance of each sign shall be the responsibility of the owner of the property on which the sign is located.

In addition, any sign displayed on property for a purpose to which the property is no longer being used shall be considered abandoned. In the event the building inspector shall find any sign to be abandoned as aforesaid, he shall notify the owner of the property on which such sign is located in writing by registered or certified mail and order the property owner to remove said sign forthwith. E. The building inspector shall have the authority to take such action as may be reasonably necessary to determine whether a sign conforms to the provisions of this ordinance. In the event that any sign is found not to comply with the provisions of this or any other applicable ordinance, the building inspector shall so notify in writing by registered or certified mail the owner of the property on which such sign is located and order the owner to correct such non-conformance. If the owner does not, within 30 days after the receipt of such order, correct said non-conformance, the building inspector may order the non-conforming sign to be removed or obliterated by the municipality for the cost of such action and shall, in addition, be liable to such penalty or penalties as provided in Section 24-96 of this ordinance.

F. All signs legally erected under any previous applicable ordinance and existing as of the date of the adoption of this ordinance, which are in non-conformance with this ordinance, may be continued on the property on which they are located, provided that they are not altered, replaced, enlarged or relocated and further provided that such non-conforming signs shall be subject to paragraphs A, B, C, D and E of this section.
