

THE DRIED APPLE CHEST

THE DRIED APPLE CHEST (By D. J. Walsh)
ELEANOR CURRY, who was a...

It was a fine old place, Mrs. Wallace said. "Four drawers and three...

It was not until the next day that she remembered her unfinished letter to Lila. The money was in the back...

It was a good thing that she had not written when the trunk of dried apples started her on her great adventure. Why, she was beyond need now!

It was a good thing that she had not written when the trunk of dried apples started her on her great adventure. Why, she was beyond need now!

"I'd like to see that chest," Mrs. Wallace said. "Maybe I could sell it for you. I know a woman that's quite a hand for old furniture. She might give you a good price for it."

In the little spare bedroom where the chest stood, Mrs. Wallace raised the shade of the window. "I suppose maybe it's one hundred fifty years old," she remarked.

"It's a fine old place," Mrs. Wallace said. "Four drawers and three...

"A secret drawer!" cried Mrs. Wallace. "And look here!" She took out a buckskin pouch which weighed heavily.

"It is Ferguson's money!" she said. "The family always wondered what he did with it. He didn't have a cent when he died. The chest was in his room."

"You ought to be a hog reeve," said one politician to another. Some folks wondered what he meant. A reeve in old New England was a bellid.

It was a good thing that she had not written when the trunk of dried apples started her on her great adventure. Why, she was beyond need now!

McGraw Watches His Hirelings

The photograph shows Roger Bremanan, coach, John McGraw and Regus Hornaby, watching the other Giant players in their morning workout. This was McGraw's first outing with the Giants, he having just returned from his vacation in Cuba.

Siren Jeopardizes Jack Dempsey's Job

Jack Dempsey may lose his position as deputy fire marshal, to which he was appointed three months ago, as a result of an investigation begun by the Los Angeles police commission to determine under what authority the former heavyweight champion equipped one of his automobiles with a siren and red lights.

Dempsey declared, following the opening of the investigation, that he has not used the fire siren on his car since it was installed after his appointment as a deputy fire marshal.

Both the Los Angeles fire chief and the chief of police said they had not given the boxer permission to equip his automobile with siren and lights such as used by police and fire cars.

Naval Star to Coach

Frank H. Wickhorst, whose name is in Chicago, was captain of the 1920 football team at the United States Naval Academy, and it is announced by Paul E. Boling, director of athletics at the University of Iowa, that Wickhorst has been engaged as its coach. Wickhorst will report to Iowa for active duty September 15. He was an all-American tackle in 1920.

Dual Agreement Places Limit Upon Activities

President John G. Elliott, on the annual luncheon at Princeton, said the dual athletic agreement with Yale embodied the principle of the old "Big Three" agreement, except for the fact Harvard is not listed as a party to it. Thus, except for the new clause, Princeton's athletics of the future will be guided by regulations that have been in existence for the past three or four years.

Gene Tunney Holds Party

Honorary Now. Gene Tunney held a party at his home in New York City. The party was held in honor of the late Senator Charles McNary.

Sport Notes

England has 1,750 tennis clubs with 175,000 members. Horse racing was introduced in the Olympic games in Greece in 648 B. C. Harvard and Yale rowing crews have met each other for the past 70 years.

No winter sports were included in the Olympic games program previous to 1920. The Pacific Coast Yachting association will not hold a Honolulu race this year.

An international rowing regatta will be held at Bonn, Rheinland, Germany, July 23 and 24. Many British golf professionals have recently secured lucrative positions with clubs in Germany.

Father P. J. Lennon of New York has played golf with John D. Hockeffer for the past 20 years. Athletes, professional and amateur, are opposed to having their pictures taken before important contests.

The swimming pool of the United States Naval Academy at Annapolis, Md., is the largest in the country. Rene Lacoste, aged twenty-two, the new world's tennis champion, was the youngest member of the French Davis cup team.

Jack Blair, nineteen-year-old first baseman of West Palm Beach, Fla., has been signed by the Washington Americans. The world champion St. Louis Cardinals include five different minor league clubs for the development of young players.

Maurice Cassidy, nineteen-year-old St. Louis minor league player, has signed with the Mobile club of the Mississippi Valley league. A total of 4,900,000 baseball fans attended games in the National league last season. The Chicago Cubs led with more than 800,000.

Catcher Firman "Bill" Warwick of the Cardinals has been released to Syracuse of the International league on an optional agreement. Major Goodall, of Australia, holder of the world's boxing championship, has been challenged to a match for the title by H. A. Naylor, of England.

FRANK (TERRY) O'Donohue took his old team, the San Francisco Giants, having been purchased from Hollywood for a price said to have been \$7,500. Every team in the American league is seemingly making the claim that it has been strengthened 100 per cent which ought to make them finish in the same order as last year.

The veteran pitcher, Tomlinson, is the only man who has pitched in over 1,000 games in the National league. Tomlinson's record is 1,000 games pitched, 1,000 games pitched, 1,000 games pitched.

When the American league is contracted to the present size, the National league will be the only one left. The American league is contracted to the present size, the National league will be the only one left.

Rule Makers Revise 1927 Gridiron Code

Placing of a three-yard penalty on illegal shifts, moving the goal posts back to the end line, reducing the time out to three in each half, placing a time limit on the length of time players may remain in a huddle, and other changes are to govern lateral passes, were among the features of the annual meeting of the football rules committee.

The football rules committee has announced radical revisions in the playing code for the 1927 season. The outstanding changes are: 1. The goal posts have been placed back ten yards to the back line of the end zone. 2. A time limit of thirty seconds has been placed in putting the ball into play.

GOOD CONDITION NEED OF RUNNER Proper Preliminary Practice Is One Big Essential.

Earn a place on the college track team? Run the hundred in 10-6 hat? Any normal boy who is willing to take the trouble can do it, for runners are more often made than born. Carl Easton Williams in the American Boy Magazine says that racing is chiefly a matter of conditioning. The most common mistake fellows make is that of going into athletics without proper preliminary physical training. He points out: "The boy who is soft through lack of exercise should not go out to the track or field and exert himself to the limit in competition."

"You should look forward to athletics and prepare yourself by spending a year, or at least some months, in a systematic program to strengthen first the abdominal region and the back; these of secondary importance, the muscles of the shoulders, chest, arms and legs; remember—you're not going to run with your legs alone; if you acquire good form you will run all great. Don't try to crowd a year's training in three weeks.

"If you're going out for track in the spring it would be wise to do some cross-country running during the fall and winter. Then allow yourself three months in the spring for actual training in your specialty. "When you do start the actual training, build your strength gradually. You improve faster by training four times a week than by working every day."

"A good sprinter," Mr. Williams continues, "is symmetrically developed. He runs with his whole body, not with his legs alone." And this running all over is, in the analysis, a matter of form or efficiency. It means "putting the whole body" into it, using the strength of every part. Charley Paddock illustrates this in his stride. "Charley makes a great point of lifting the knees. The higher the knees Paddock finds, the farther forward one can get his feet, and hence the better he can run."

Everett Scott Back in Game With Baltimore. Everett Scott, former major league player, has been released to Baltimore of the International league. Scott announced at Fort Wayne, Ind., that he had signed with Jack Dumas, Baltimore manager. Scott is expected to take the place of Gene Tunney in the Baltimore team.

BOLERO AND PLAITS ASSIST; DAINY FROCKS OF WASH SE

CLAYNE gaitings and the "nifty" Bolero are playing an interesting part in the fashion of the day. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

In the interest of smart styling every sort of a plait has been required in place of a part from the simple hair to the elaborate and elaborate curls. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

staying achieves a silhouette of delightful youthfulness. The shirt alternates the color of its bias plait in latest approved compact manner. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

By the way, in spite of the fact that this dress has every appearance of a two-piece model, it is really a complete. It is a favorite "cut" of the style to give a two-piece effect to short, light, and airy-looking garments which are after all, one-piece frocks.

Bolero! What's the name? It is to come with this season. There's every type to be reckoned with from sleeveless to long-sleeved, and of every material; the latest being the prototype Bolero worn in connection with frock evening dress. The black velvet Bolero is a convenient one.

It is they "dress" just like nothing else. As for color, the Bolero is quite taken with the "new" color of "mother's" and "daughter's" shades. For this purpose, the Bolero is a favorite "cut" of the style to give a two-piece effect to short, light, and airy-looking garments which are after all, one-piece frocks.

and they are, indeed, well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock. The Bolero is a simple, practical, and comfortable garment, and is well adapted for the daytime frock.

THE CRANFORD CITIZEN AND CHRONICLE... PUBLISHED EVERY THURSDAY... JAMES H. WALKER, Editor and Publisher.

TRINITY CHURCH... Holy Week Services will be as follows: On Palm Sunday, April 10th, Holy Communion and Blessing of the Palms at 8 a. m. Church School, 9:45 a. m. Morning Prayer and Procession of Palms, 11 a. m. Young People's Fellowship, 6:30 p. m. Minister's "Crucifixion," sung by choir, 8 p. m. On Tuesday, April 12, Litany and Penitential, and sermon by the Rev. John C. Lord, 8 p. m. On Wednesday, April 13, Holy Communion, 8 a. m. On Thursday, April 14, Liturgical Music, 8 a. m. On Good Friday, April 15, three-hour Service of Devotion, 7 p. m. to 3 p. m. Children's Service, 4 p. m.; Evensong, 8 p. m.

THE BOARD OF EDUCATION... The Board of Education is now in position to take up various matters for the betterment of the schools of Cranford. They have good working material and are looking forward to a successful year.

THERE HAS BEEN A CONSTANT ATTEMPT... to stir up class strife between farming and industrial interests. Since the voting of the McNary-Haugen bill, statements have appeared to the effect that the farmers were seeking class legislation because they believed themselves omitted from the present tariff schedule.

ANYONE WHO WILL TAKE THE TROUBLE... to go through the lists of protected farm products will see that practically everything that grows in the soil is covered by a good duty, while everything that buys for farm uses comes into the United States duty free.

THE FARMERS AND INDUSTRY SHOULD... not permit themselves to be placed at cross purposes with each other, as a method of making political capital for any faction of party. Their interests are common and they should work together.

A SUGGESTION THAT THE AGRICULTURAL... problem might be solved by some extent if poor farm lands were converted into forests, was made by President Coolidge in proclaiming April 24 to 30, "American Forest Week," and recommending its observance to the Governors of the 48 States.

"ONE-FOURTH OF OUR SOIL," THE PRESIDENT... said, "is better suited to timber growing than anything else. I cannot help but believe that our industrial and agricultural stability will be strengthened by bringing into full productive use this great empire of land."

"ALTHOUGH MUCH PROGRESS HAS BEEN... made in public forestry, and hopeful beginnings in private industry, we still have a vast aggregate of idle or semidle forest land, and another large aggregate of poor farm land that might more profitably grow timber instead of adding to the problem of agricultural overproduction."

"OUR MIGRATORY FOREST INDUSTRIES... would be stabilized and made permanent. Rural industry would be greatly strengthened and vitalized. Agriculture would find in silviculture a strong ally, providing markets for farm produce and for surplus labor. Our forests themselves contain nearly a third of our woodland—an enormous potential farm asset if handled for continuous timber crops."

"THE PRESIDENT SAID HE PROCLAIMED... the seventh annual observance of forest week, which started and is to be celebrated at the same time in the realization that 'no other of our internal problems is of greater moment than the rehabilitation of our forests.'"

PRECEDENCE IN PARADE... Organizations in a parade proceed in order at the date of their establishment and organization, the oldest being to the front, as first: Grand Army; second, Loyal Legion; third, Spanish War Veterans; fourth, Veterans of Foreign Wars; fifth, Military Order of Foreign Wars; sixth, American Legion; seventh, American Legion of the World War; eighth, Disabled American Veterans. The men in the regular service of the United States Army, Navy and Marine Corps precede.

TALES OF DISASTER FOUND IN BOTTLES... Messages Revealed Grim Tragedies of the Ocean. Scattered on coasts, on shaly, on sea-stained leaves torn from log books; written in charcoal and sometimes in blood—such are the messages which drift ashore in bottles from the ocean of the world.

FOR HUNDREDS OF YEARS, BEFORE WIRELESS made contact with the land, seamen have thrown their bottles messages truthfully into the sea. Columbus wrote to his queen in that way. As today a message in a bottle can sometimes be the last message of a despairing crew. Many a tragic message has been cast into the sea from many a stricken vessel.

THE LIST OF THESE BOTTLES CONTAINING... genuine tales of disaster is pitifully long. There was that sad last message from the crew of the American tank steamer City of Everett, which sank with all hands in the Gulf of Mexico during October, 1922. It was washed up in a bottle at Miami, Fla., 60 days later, and read: "S. R. Everett. This is the last of us. To dear friends who find this, goodbye forever and ever."

FATHER NEPTUNE SOMETIMES TAKES... much longer to deliver his mail. There ago a black cork on board the British ship Buckingham murdered the master. The vessel was off the coast of Bermuda at the time. She carried wireless, and the master, hearing further violence, estimated his report of the crime to a bottle. It was found 6,000 miles away, on one of the Shetland Islands. Nearly three years had passed.

A BOTTLE MESSAGE TOLD THE WORLD... of the loss with all hands of the Atlantic liner President. She should have reached Liverpool in March, 1841, but became lost overdue. At last a ship at sea picked up a bottle containing a message from the famous comedian, Tyrone Power. It said that the vessel was still in the Atlantic. He was in 1902 the Allan liner Huronian left Glasgow and disappeared. Five years later a bottle was washed up by the tide on the north coast of Ireland. Its message read: "Huronian sank. Tyrone. One side under water. Goodbye mother and sister. —Charles McFall."

BOTTLE MESSAGES WERE PRODUCED... as evidence during an inquiry into the loss of the Grimby trawler Argus. One which reached Norway, read: "Argus. Argus. All hands missing. Collision with foreign barque." After the mysterious loss of the Australian liner Waratah between Durban and Cape Town many bottle messages were found, but these were all believed to be frauds.

SEALED BOTTLES ARE OFTEN MADE... for scientific purposes. Many shipmasters are co-operating with British and American government departments at the present time by throwing bottles of ocean currents into the sea. Many of the bottles had depths recorded, for studies of these bottles are traced if they fall in the current enclosed in each case, giving particulars of the date and place where it was found.

Such a bottle, cast into the sea near... Cape Town, was picked up on a Shetland Island beach, nearly four and a half years later. Captain Simpson, F. R. S., who threw thousands of bottles into the sea during a period of years, reported that 10 per cent were found. Many of the bottles had depths of 10,000 miles before reaching land; the average rate of travel working out at half a mile an hour.

# Why it Will Pay You to Trade in CRANFORD, N. J.

## Cranford Dairy

In November, 1918, August Thermann took over the Cranford Dairy from Julius Grimm. Since that time he has endeavored to give the Cranford public the highest grade of dairy products obtained under the most sanitary conditions, such as Hartman Valley Farms Certified Milk, Oseola Farms (Guernsey Grade A Raw, the merits of which products has caused a steady increased demand, making it necessary for the manager of the Oseola Farms to increase his herd to supply Cranford's needs. None but the best stock, free from tubercular disease, is used. Last year the sum of \$5,000 was spent for new equipment and cooling apparatus to insure proper care. Just recently a 2 1/2 ton speed wagon was added to bring the pasteurized milk to their refrigerators in the quickest possible time, making it possible to be delivered here without danger of spoiling. At the store and office, No. 2 Union Avenue, North, or 20 South Avenue, West, all dairy products may be obtained at a wagon price. A special noon delivery is maintained every day except Sunday, for orders received by 11:30 a. m.

## A Community Of Up-To-Date Stores Where You Get The Most For Your Money

The Progressive Business Firms whose ads appear on this page have combined in presenting a series of articles designed to show the most skeptical of persons that it is to their best interests at all times to trade at home. All of the firms here represented have your interests at heart as well as their own and we sincerely hope these articles may be the means of a better understanding between the merchants and the public.

### Why It Will Pay You to Trade in Cranford

The prosperity, individually and collectively of every community is expressed in the cold calculation of dollars and cents that register in the local banking houses.

And so Cranford banks are a correct barometer of the financial condition and the prosperity of Cranford. Dollars drawn from the vaults of our banking institutions, if spent in Cranford, will find their way right back to where they come from. You've all heard the story of how one lone ten dollar bill put into circulation cancelled several debts and returned to the pocket of the original spender—a man owed his neighbor ten dollars. He paid him. The neighbor owed the grocer \$10 so he took the same money that had been paid him and paid the grocer. The grocer likewise cancelled his obligation with the hardware man for ten dollars and the hardware man immediately paid his garage bill of ten dollars and the garage man, who had the first man working for him,

plus other ten's, so five accounts had been cancelled totalling \$50; and all with one little ten spot. And so it goes with every other dollar that is spent in Cranford. It goes right to work to enrich you and your neighbors. It comes back—it's bound to eventually get around to you again if you keep it here.

So every dollar in Cranford banks has a personal interest for you. Because so long as those dollars are deposited and re-deposited in Cranford, there is every opportunity in the world for you to eventually put them into your own personal account.

So you see that it is not all or entirely a question of patronizing Cranford firms. It comes right down to your own personal interests and your interests are inseparably linked with the interests of every other man, woman and business firm in Cranford. It is "up to you" to consider eventually your own personal interests in this question of buying in Cranford. No matter what your reason or excuse for buying this or that article outside of Cranford might be, a far better reason for buying it here can readily be found. Cranford is YOUR town. And you can take away from its success, thereby reducing your own prosperity, or you can add materially your town and yourself if you will always spend your dollars in Cranford. Every dollar you spend either helps to make or mar the business success of Cranford. It either adds or subtracts from the financial strength of our banks as well as of our business firms. And when you take away from the prosperity of a community you take away from your own prosperity or chance of more prosperity at the same time.

So you see this matter of buying in Cranford all revolves right back to your interest.

Next week we are going to tell you something about your neighbor—its not scandal—neither is it gossip, but after you read it we guarantee to come to your neighbor's door. The title of this story is "The Title of This Story is 'The Title of This Story'."

Next week we are going to tell you something about your neighbor—its not scandal—neither is it gossip, but after you read it we guarantee to come to your neighbor's door. The title of this story is "The Title of This Story is 'The Title of This Story'."

## Zoning Board

### Appointed

New Board of Adjustments (Zoning) Named by Mayor Keim and Confirmed by Borough Council.

Mayor Keim at the Borough Council meeting Tuesday night, named members of the Board of Adjustments (Zoning), Messrs. P. M. Etkin, H. M. Wickoff, James Gibson, William Gentry and Joseph Schuch. The Council without dissent confirmed these appointments.

William J. Kelly was also named by Mayor Keim as Special Marshal and was confirmed.

Two applications for Lunch Room and Restaurant permits were presented by John Orlosky for 306 North Avenue, and by Anthony Karwowski for 3 Centre Street.

An application by Garwood Republican Club for permit to hold a carnival, was granted.

For the Police Committee, Councilman Archer reported points to the motorcycle committee at a cost of \$150, giving however, practically a new car.

The proposed ordinance to amend the present ordinance controlling and governing restaurants was passed on final reading. It puts into effect the present ordinance providing as it does, \$200 fines and possibly jail sentence.

Street Commissioner Kelly reported as to his department, more to do than they could promptly handle.

Councilman Schuchwiler reported on the meeting of Fourth Avenue residents that nothing definite had come out of this except a statement of opposition to the proposed improvement, but some favored going ahead, others holding off until all services are laid.

Nothing definite was reported with regard to planning a fire house on the North side of the Central R. R. for emergency use.

Mayor Keim reported the North Avenue road contractor apparently was "on the job" and that indications are his work will be finished shortly after the middle of the month.

Adjournment was taken to Friday, April 8th.

**MINER'S NEWARK THEATRE**  
It would be difficult to prepare a palatable meal, if the chef were denied the ingredients, necessary for the preparation of the various dishes. So it is that the producers of "New York to Paris," which will hold the boards of Miner's Theatre, starting next week, commencing Sunday, April 10, were liberal in their expenditures in equipping this new offering with talent, costumes and scenery.

That careful attention has been paid to the selection of the material to occupy places in the busy curtain goes without saying. Indeed particular care has been given to secure attractive dancers who lend additional charm to the many bewildering scenes which are unfolded in this colorful, panoramic of stage enchantments. Week Sunday, April 17 "Kosher Kitty Kelly."

**NEWARK BEARS**  
The first public appearance of the "Newark Bears" off the diamond will be at Miner's Empire Theatre on Tuesday evening, April 12.

It is expected that a great many all fans will be on hand to witness the "Bears" success in their opening game of the season which takes place the following day, Wednesday, April 13.

St. Paul's German Evangelical Center Street. Rev. Warner Peterson, pastor. Sunday School, 10 a. m. Services, 11 a. m.  
Presbyterian East Spruce Avenue. Rev. James Johnson, pastor. Services at 11 o'clock. Sunday School, 10:00 a. m. Holy Communion, second Sunday of month.

## BOROUGH BRIEFS

One of the most interesting events of the current musical season at Westfield, is the forthcoming appearance there on April 22nd, at the Roosevelt School auditorium, of Edna Schenkman, one of the most promising of the younger generation of American violinists.

Mr. and Mrs. Joseph Seher, of Center Street, have returned from a visit with friends in Brooklyn. Miss Helen Hines was a week and visitor at Huntington.

Mr. and Mrs. A. Van Atta, of the local post office staff, has been granted a ten day leave.

The Board of Health will meet this evening in the Borough Hall for the purpose of issuing dog licenses.

Garwood Council, Jr. O. U. A. M. will at regular meeting in Franklin School auditorium last Monday evening.

Mr. and Mrs. A. Riley, of Locust Avenue, were Sunday visitors at Lakewood.

**POLO ATTRACTION AT WESTFIELD ARMY**  
Next Saturday evening at the Westfield Army there will be a polo game in the official closing of the polo season. Starting promptly at eight o'clock the Westfield Polo Association will play the Plainfield Riding and Driving Club and following that will be the main attraction of the evening in the form of an exhibition game between the two teams of the Essex Troop of Newark who competed in the national indoor championship games at the Squadron, A Armory, New York City. The first team of the Essex Troop, Donald MacGrath, conceded to be one of the best number ones in this territory, will carry his usual position with Dutch Doerflinger, the hard hitting, accurate shooting player, at number two and Law Hale, the team captain and star of polo at Essex Troop, playing his usual cagey and dependable game at back. On the other team will be Grisman, who, although comparatively new at the game, has shown up in fine shape. Billy Reber, a spectacular individual start, at number two and Cee Boycott, a high handicap, fast riding player at back. All of these players are rated high handicaps by the National Polo Association and are among the most sought after players in the East. They were the subject of an interesting article in "Charm" and thoroughly live up to all the commendations that were written of them. The Essex Troop also played outdoor polo at Sea Girt, defeating the best teams they could muster to play them.

In the second game it might be said that, although the Westfield Troop Association team have lost the majority of their games during the past season it was due to booking good teams so as to insure a faster game of polo. They have shown a decided improvement due to the coaching of Rule, MacGrath and Doerflinger, and are playing much better polo than at the start of the season. Each evening Saturday evening a better team was booked as is evidenced in last Saturday's game with the crack team of the 118th Field Artillery. This is the first season of polo at the men armory and it is destined to be popular, McVay, Miller and Lane will play for the Troop Association while Hall, McKillop, Gordonwood and Stevenson will represent Plainfield.

There will be no lost time between chukkers as before and it is hoped to keep the play going constantly with one match in the ring at all times. Dancing will be enjoyed after the game and the grill room will be open for refreshments.

**Profitable Land Deal**  
The treaty of (land) bridge was signed by the United States and Mexico, February 2, 1917. The terms of this treaty Texas, New Mexico, Arizona and California were ceded to the United States upon payment of about \$12,000,000.

## NEW CRANFORD THEATRE

The big attraction at the New Cranford Theatre for this Friday and Saturday, is a stirring story of the French Foreign Legion, starring Milton Sills. Sills is ably supported by Charlie Murray and Viola Dana. You'll never stop talking about this handsome Legion Lieutenant who plays a lone hand among the shells and saves many of the desert. In addition to this feature, the third complete story of the "Collegeans," an Our Gang comedy and a News Review are also on the bill.

Monday and Tuesday's attraction brings the most beautiful girl in the United States, Corinne Griffith, in a sequel of a war story called "The Lady in Ermine," crowned in glory and crowned in crime, the captivating Corinne gives a remarkable portrayal of war harassed royalty. Then there's a comedy "Ho Done His Best," a novelty, "Koko's Queen," an Oddyssey "Trail of a Ranger," and News Review, and if one can "beat" that show we want to see it.

The usual double feature days offer again two very fine films. Earle Fox in "Upstream," Ken Maynard, the Western Locomotive, in "The Overland Stage." Either of these features is an attraction alone. A laugh provoking comedy "Busy Lizzie" is thrown in for good measure.

**Big Game Increasing**  
Big game on the reservoirs administered by the biological survey has usually increased during the last ten years with the exception of antelope. Better control has been initiated and these are again increasing. The total number of big game animals on these reservoirs at this time is about 1,500.

**Terrific Experience**  
A man's life of exquisite torture, says a city official, is in the full glare of publicity in a barber's shop while his wife holds an unresponsive rifle under his chin. It is said he will go to Kansas City State.

**Carries Food for a Week**  
The Italian can carry enough food in his head to last the bird a week.

### Synopsis of Meeting of the Board of Chosen Freeholders, Held March 17, 1927

The regular meeting of the Union County Board of Chosen Freeholders was held at the Court House, Elizabeth, N. J., on Thursday, March 17, 1927, at 2:30 p. m.

Director F. H. Meisel presiding. Roll call showed twenty-one members present and three absent.

The minutes of the meeting of March 2nd, 1927, were approved. All bills presented were read and adopted.

A communication from the Borough of Roselle Park regarding culverts on Colfax avenue and Filbert street, which streets are to be improved by the borough, was referred to Bridge Committee No. 2.

The Surrogate notified the board of the appointment of Edith Chargois as utility clerk in his office.

The report of the Treasurer for the month of February was received and ordered filed.

The annual report of the Board of Managers of the Bonnie Burn Sanatorium was received and ordered filed.

The Road Committee were authorized to construct the approaches to the new bridge at Martins avenue over the C. R. R. of N. J. The same committee reported the plans for the improvement of Silles street or Forty Acre road, Linden, were satisfactory to the committee, also the plans for the improvement of Burnett avenue and Vauxhall road, Union.

William E. Kline was appointed as Highway and Bridge Inspector for the County.

Bridge Committee No. 2 were instructed to prepare plans for bridges as follows:

Westfield avenue near Benjamin street, Clark Township.  
Walnut street near Elm street, Westfield.  
Galloway Hill road, south of East Broad street, Westfield.  
Galloway Hill road, near Cranford line, Westfield.  
Windsor avenue, East of Central avenue, Westfield.

Windsor avenue, near South avenue, Westfield.

The Elizabeth Drawbridge Committee were instructed to have satisfactory plans for the new bridge, Elizabeth, repaired.

Howard E. Johnson was appointed chairman in the Engineer's office.

### The following resolutions were adopted:

Authorizing the issuance of bonds to the amount of \$2,500,000.

Directing the Clerk and Director to sign contract with Mills and Company for auditing books and accounts of the County of Union for year 1927.

Authorizing the Director to communicate with the Senator and Assemblymen of this county in regard to Senate Bill No. 82.

Board adjourned to meet on Thursday, April 7, 1927, at 2:30 p. m.

### Picture's Valuation

The picture by Whistler called "Old Battersea Bridge" is alluded to as the "Nocturne in Blue and Gold." It was the picture of one of the artist's most famous watercolors.

The opposing counsel in the suit for libel which Whistler brought against Ruskin in 1878 elicited the fact that the picture had been painted in two days, and then asked: "The labor of two days; then is that for which you ask 200 guineas?" To which Whistler retorted with dignity: "No; I ask it for the knowledge of a lifetime." This picture sold two years later for 2,000 guineas.

### Train Faster Than Birds

Tests of bird speed in actual air, made by a German investigator, show that the flyers have a wide range of rapidity and few equal the rate of a moderately fast train. Of those observed, the starting had the greatest speed, slightly more than 40 miles an hour. Jackdaws made 35.25 miles an hour, the parrot 32 miles, rooks 32.58 miles, and hooded crows and gray gulls 31.65 miles. The sparrow hawk had the slowest speed of all the birds whose flights were measured, making only 25.70 miles an hour.

### Origin of Phrase Lost

The phrase used to describe "Turkey," "the sick man of Europe," probably had a journalistic origin, now lost. Montagu (1804-1855) in one of his "Persian Letters," speaks of the Ottoman empire, "whose sick body was not supported by a mild and regular diet, but by powerful treatment, which constantly sustained it." The expression is also sometimes credited to (Earl Nicholas) of Russia, in a conversation concerning Turkey held with a British diplomat in 1823: "We have on our hands a sick man, a very sick man."

### Conic Stripes

The striped material used for the suits of convicts was first produced in the nineteenth century in England.

**NOW! ABSOLUTE PREVENTION**  
**No more chimney fires!**  
*BUT you must remove the soot*

THOUSANDS of homes are totally or partly destroyed by chimney fires every year. You probably know of such fires in your own community. These fires are caused by the soot which is permitted to accumulate in the chimney. Hiberto, it has been an expensive and dirty job to remove this soot. Therefore, it is not done as often as it should be. You can now do this necessary work yourself—in a jiffy—without dirt or fuss, with a package of **KILSOOT**.

**KILSOOT** can be handled with perfect safety. No marks or stains. A non-toxic, non-irritating, non-damaging substance. It is safe for the chimney, for the house, for the family, for the neighborhood. It is safe for the chimney, for the house, for the family, for the neighborhood.

**More heat—less fuel**  
Do you know that most in a typical furnace or boiler the heat value of the fuel burned is lost? It is lost in the chimney. If you use **KILSOOT** you will have a clean, clear chimney. This means that the heat value of the fuel burned is not lost in the chimney. This means that you will have a clean, clear chimney. This means that you will have a clean, clear chimney.

**100% BUY THIS PROTECTION**  
KILSOOT is the only chimney soot remover that is safe for the chimney, for the house, for the family, for the neighborhood. It is the only chimney soot remover that is safe for the chimney, for the house, for the family, for the neighborhood.

**EXPLAINS NEW TUBE**  
 Noted Radio Engineer Describes the Type CX30 and Discusses Audio Amplifier Design.

In an address delivered before the R. M. A. meeting at Chicago, Roger M. Wise, Chief Engineer of the E. T. Cunningham Co., discussed recent vacuum tube developments and explained some of the reasons for introducing current tube types, notably the CX30.

For use in resistance coupled amplifiers, long recognized as a leading method of true tone reproduction. Mr. Wise also discussed the subject of audio amplification, comparing briefly transformer impedance and resistance coupling, starting with the transformer coupled system as follows:

The advantages of that system are well known, one being that the general purpose type of tubes operating at ninety volts are very satisfactory. Also voltage amplification obtained in each stage is high because of the amplifying action of the transformer. A disadvantage is the fact that with the smaller audio transformers the frequency range is somewhat limited. These were quite satisfactory for voice reproduction, but not entirely satisfactory for reproduction of all the frequencies encountered in musical selections. By going to a more expensive design, using a larger core, and a greater number of primary and secondary turns, many of these limitations have been overcome. The frequency range has been extended down in the low frequency range and by careful arrangement of the coils and the windings of the coils, distributive capacity has been kept low enough so that the upper frequency range has also been extended.

At the same time the price, weight and bulk of the transformer has increased in proportion and some manufacturers have not found it feasible to use the latest and most improved designs of audio transformers because of considerations of cost, with the result that they sacrifice tone quality which cannot be compensated for up by the use of a suitable tube in the last stage or improved types of speakers.

With impedance coupling with the general purpose tube types, the voltage amplification obtained is not high enough. Aside from that, the results are very satisfactory. The frequency range is good, both with regard to high and low frequencies, if a well designed choke is provided.

We tubes having a higher amplification constant such as the CX30, the difference with the impedance coupling becomes much the same as with transformer coupling. If the lower frequencies are to be faithfully reproduced, when you consider that the internal impedance of the tube may rise to a value of perhaps 100,000 ohms, and that an impedance capable of furnishing an impedance several times that value must be provided in the plate circuit in order to offer sufficient amplification at the lowest frequencies it is desired to reproduce, it is evident that a design as bulky and expensive as is the case with audio transformers must be provided.

In the case of resistance coupling, in the past the greatest objection has been that a higher plate voltage is required, 135 to 180 volts or even higher. Therefore, resistance

coupling under these conditions slightly simplifies the audio amplifier design in that it eliminates the added voltage taps of ninety volts for the first audio and forty volts for the detector, it being possible to operate these tubes at the same plate voltage. The plate current drain is low with that type of tube, and there is no limitation as to the low frequency reproduction—that is, no practical limitation. The lowest audible frequency is sixteen cycles per second, and the highest is 20,000 cycles per second.

The only reasonable care in design to build a resistance coupled amplifier which will have a practically flat frequency characteristic is down to that value. How near sixteen cycles we need go is a question that I will not take up, except to note that if the low frequencies are not desired it is relatively easy to arrange the amplifier to cut off at any desired frequency.

The passing of the low frequencies only depends upon having a sufficiently large blocking condenser in the amplifier, and in keeping the grid leak used in the input of the succeeding stage high. At the frequency end there are limitations with resistance coupled amplification which have not been discussed fully in current popular descriptions of that circuit. These limitations apply particularly to the use of tubes having a high amplification constant, which are necessary in order to secure good voltage amplification with resistance coupling, and have been explained by Dr. J. M. Miller in one of the bulletins of the Bureau of Standards. In this publication it is shown that the use of a resistance load in the plate circuit of a tube results in a large increase in the effective input capacity of the tube, thus placing a capacity load on the preceding tube which may be high enough to cause a decrease in the amplifier efficiency at very high audio frequencies. (continued next week)

# News of the Week In and About Town

The Women's Club will meet next Tuesday, April 12th, at the home of Mrs. James L. Klauz, 6 Dunsmuir street. Important business will be transacted.

Union avenue, who is the President of the Cranford Lincoln Club, has just returned from a lecturing tour in South Jersey, where she addressed schools, societies and churches in twenty-seven towns.

The Ladies Aid Society of the Presbyterian Church will meet in the chapel on Wednesday, April 13th at 2:30 p. m. The committee to receive Mrs. M. F. Deacon, Mrs. W. P. Knorr, Mrs. M. W. Sheffer, Mrs. W. G. Winkler, Mrs. L. H. Vaughn.

The W. G. T. U. will hold a variety show tomorrow, Friday, and Saturday, April 8th and 9th, in the vacant store at 42 North avenue, East of New-Alden street and Springfield avenue. There will be a large amount of home-cooked food, including baked beans, cold meats, pies, and biscuits, at logarithmic prices; also many fancy articles, sprays for all occasions, and some beautiful imported luncheon sets of seven pieces.

Agnes Chapter No. 37, O. E. S., held its regular meeting last Friday night at Masonic Hall at which time election of officers took place, with the following result: Matron, Mrs. Myra Copeland, of Roselle Park; Associate Matron, Mrs. Mahol Krolo; Conductor, Mrs. Letitia McCallough; Associate Conductor, Mrs. Blanche Brainard; Secretary, Mrs. Beale Corbett; Treasurer, Mrs. Dorothy Dolg; of Garwood; Patron, Mr. Charles Wallace; Trustee for three years, Mrs. Isabella Abbott. The next meeting will be held on April 15th, when the installation of elected and appointed officers will occur, under the direction of Mrs. Jennie Bolton, Past Grand Matron.

The Men's Bible Class of the First Presbyterian Church will hold a Spring dance at the Casino on Friday evening, April 29th.

The Senior Patrol of the Girl Scouts expect to spend the Easter holidays together with their leader, Mrs. Wallace, at the Cranford Camp on Lake.

The ladies of the Wednesday A. C. Club met at the home of Mrs. Frank Strickland, of Hamilton street, on Wednesday, where they played bridge.

The Camp Fire Girls are making ready for a public demonstration of their work in this National organization to which all interested are invited. They will hold a "Cotton" sale, a business meeting, and a ceremonial. Although no exact date has been set, it will probably be held the latter part of April in one of the school buildings.

At the regular meeting of Troop 1, Boy Scouts, at their headquarters on Walnut avenue, last Tuesday evening, their leader, Mr. Randolph, announced that at the next meeting Captain Winkler will drill them in preparation for their part in the Memorial Day exercises.

The Women's Republican Club will have a luncheon at Haystack on Wednesday, April 13th. The guests will be Mrs. Harriman Simmons, President of the State League of Women's Voters, who is well known in Cranford, and is an excellent speaker; Mrs. Thomas Rambo, an outstanding speaker of the State Club; and Hon. Ernest H. Ackerman, Congressman of this district.

At the regular meeting of April 22, the famous "Needle" will bring her wonderful collection of wax figures to Cranford. These figures have been made from the bodies of many famous people living and dead, both in the country and abroad. She has woven them before the eyes of the people of Cranford, and she will be glad to show them to the people of this town. She will be at the home of Mrs. J. P. Moore, of 110 North avenue, on Friday, April 22, from 2 to 5 p. m.

## CRANFORD ROTARY CLUB

The latest meeting today was well attended with but two away and they with the usual instructive and very interesting and instructive talk on the objects of the District Conference to be held at Asbury Park in the latter part of April. A large number of Cranford Rotary Club will attend this two day conference.

and Richard Hanna, are home from Princeton, for the Spring vacation. Mrs. Katherine Park, of 1115 street is home from Wellesley College, for the holidays. Miss Patricia Knight, also of Wellesley.

Miss Marie Brown, daughter of Mrs. and Mrs. J. G. Bremer, is home from Simmons College, for the Easter holidays.

Mrs. George A. Candlish, who has been visiting her parents, Mr. Charles K. Estabrook and the late Mrs. Estabrook, for the past three months, has returned to her home, Los Gatos, California.

Word was received in Cranford yesterday that former Mayor John G. Rosen is very seriously ill at his home in Newark.

Edward Beadle, Sr., of Springfield avenue, went to Elizabeth General Hospital, yesterday, for surgical treatment.

Miss Caroline Christy, of Hampton street, has been spending her vacation with her parents, Mr. and Mrs. J. I. Christy.

Mr. and Mrs. H. D. Lennon, of 8 Union avenue, entertained some of their friends at their home on last Saturday evening.

Mrs. Frederic Mathias, of Madison Terrace, entertained a group of friends and relatives at a farewell party last Thursday afternoon, for Mrs. Milton Levey, who is leaving town.

Mr. and Mrs. G. Gunderson, of Madison Terrace, entertained relatives from Oklahoma, at their home last week.

Miss Madeline Harris, who is attending Simmons College, has been spending the Spring holidays with her parents, at their home on Madison street.

W. Johnston, entertained her card club at luncheon and bridge at the home of her daughter, Mrs. A. V. Clarke, of Retford avenue. A very enjoyable time was had by all and large prizes were won by Mrs. J. P. Moore, Mrs. A. W. Winkler, Mrs. L. F. Moore, Mrs. E. H. Moore, and Mrs. L. Kallaber.

Miss Madeline Harris, who is attending Simmons College, has been spending the Spring holidays with her parents, at their home on Madison street.

## Th' Ole Grouch

ALL THE BEST THING IN THE WORLD IS A GOOD LUNCH. BUT THE ONLY WAY TO GET IT IS TO GO TO THE RESTAURANT. THAT'S THE ONLY WAY TO GET IT.

The Mothers' and Daughters' dinner, to be given by the Grant-Cleveland Parent-Teacher Association and the Lincoln-Sherman Home and School League, will take place on Tuesday evening, April 26, at Trinity Parish House. The speaker will be Miss Margaret Flattery, and admission, including one mother and daughter, will be \$1. Girls of the 7th and 8th grades will be given the preference, and then honor pupils of the 6th grade. Mrs. Frederick Denning has charge of tickets for the Grant-Cleveland Association, and Mrs. C. D. Marzac for the Lincoln-Sherman League.

The Progress Club met last Monday at the home of Mrs. J. Stanley Voorhees, on Pittsfield street. The topics were "The Bourbon Restoration" and "Modern Spain" and papers were read by Miss Robinson and Mrs. Bremer.

St. Michael's Roman Catholic Mill and Alden streets. Rev. James V. McDonald, pastor; Masses at 7, 8, 9 and 10:30 a. m. Sunday School at 9:30 a. m. Evening devotion, 7:45 o'clock.

Oranford Gospel Tabernacle (Christian and Missionary Alliance), Retford avenue. Rev. David Mason, pastor. Services at 11 a. m. and 8 p. m. Sunday School, 9:30 a. m. Thursday, prayer and praise, 8 p. m.

First Baptist High street. Services at 11 a. m. Sunday School, 9:30 a. m. P. M. Young People's Meeting, 8:45 p. m.

St. Mark's A. M. E. High street. Rev. L. Chalkoos. Sturdy pastor. Services 11 a. m. and 8 p. m. Sunday School, 9:30 a. m. Young People's Meeting, 8:45 p. m.

## Insects on Increase

For a century and more scientists have been listing and classifying insects found in the various countries, hoping they might have some idea of a complete list of the insect family, but the task seems to have no end, new species being found in all lands, so many, in fact, that more than 6,000 are being listed, each year, says Nature Magazine.

The scientists tend strongly to the belief that new species are being provided by some means, for each year discoveries are made of which no specimens were known to exist.

There are 42 commercial air lines operating daily to all parts of the world and eastern Europe, including Moscow. Seventeen lines radiate from Berlin. There are many small companies, all now consolidated with the Deutsche Lufthansa. There are 120 commercial planes and 100 pilots, one hundred and ten planes are constantly in working order. In 1925 the German commercial air service carried approximately 123,000 passengers and 6,000 tons of freight. In 1926 the commercial service in passengers and freight carried and miles traveled tripled its volume of business over the preceding year.

Chinese Official Journal The Tzu-Tzu-Kuan-Pan of Peking, China, recently celebrated its thousandth birthday anniversary, and is said to be the oldest newspaper in the world. A recent article says that "every issue of this newspaper has been carefully preserved and filed in the official archives of the palace at Peking. The penalty for making a mistake in this newspaper has been decapitation, and it is said that more than a few of its editors have suffered this fate in the past. Since the revolution the paper has changed its title to Tzu-Tzu-Kuan-Pan, which means "Official Government Journal."

Eradicate Deadly Weed Recently 17 boys of a county were severely poisoned as a result of eating leaves, roots and flowers of the water hemlock, reports Hygeia Magazine.

This plant grows in swamp land, along irrigating ditches and in meadows, and is known as cowbane, madweed, wild carrot, wild parsnip and death of man. The boys found it growing in a swamp near the playground. Since it has thus far escaped notice and is poisonous to man and animals, farmers and others in charge of open lands should do everything possible to eradicate it.

English as it is spoken In the grade school a little girl was working a problem on the blackboard. A sliding glass showed the teacher that she was placing the figures in column form. He asked: "Is this, are you subtracting or multiplying?" "Neither one, sir, I am 'plusing,'" was the reply.

## Buy it by the Pound

Buy your washing, as you do your food, by the pound. It's the most sensible, economical way. It's much better than paying the high wages to uncertain handmaids and waiting around for some one to starch, wash, electric, water, or trying to save 20c an hour, which is what you must figure your time compared to the cost to you of our service.

Send your family washing to us - invest wisely in a saving, sanitary service that's prompt and reliable. Thousands of good housewives have found it the better way - you will, too, when you have given it a trial.

FINNEY OF THE FORCE

By F. O. Alexander

The Exception

Sex

Sex

Famous Last Words

Events in the Lives of Little Men

No one can afford to take on a life partner who is easily discouraged. The characteristics of discouragement are easily traced in the writing and go hand in hand with pessimism. Look for the lines of the writing to run down hill. They will descend to the right of the page if the writer loses his faith easily. His t crosses will also descend, starting high at the left end slanting down to the right. If these lines are made very heavy it means that the writer has a great deal of force and physical energy. Most frequently the writing of the easily discouraged is light and shows the suggestion of thinness. High letters are common and it is often due to aspiration and high ideals without action-shattered dreams - that the easily discouraged type is created. A great variation in size of letters, some large and some very small, can be found in the writing of the one who loses hope easily. Words starting short - no terminals are other good signs as well as a heavy sort of style in the writing.

His Capital "I"  
You will not have to wait until your friend says, "I" with reference to himself if you can secure a sample of his writing and study the I.

If the upper loop of this capital is long and not very wide, and the base is not in proportion, but smaller, then you will know that the writer is usually alert and extremely ambitious, especially in a social or public way, yet knows little of things practical.

When the capital I leans backward, it is retrospective and cautious and backs away from people and things. This person will never buy all stocks or allow a high-pressure salesman to even approach him.

The foot-shaped I with a line the shape of a foot suggests love of travel in the writer and shows such good sportsmanship in the writer.

The narrow upper loop of the I that appears squeezed is mostly made by the self-anxious person who does not even listen to others and absorbs little knowledge in that way. If the stroke that makes the upper loop crosses the upright and proceeds on in the direction of the writing the indication is that the writer is ardent, active, impulsive and courageous.

Does He Appreciate Health?

The facilities of constructiveness, culture, common sense, idealism, conscientiousness, enter into this subject. When these traits are pronounced in a writer, it is a sure thing that he appreciates and values his body as working material for progress.

The writing of one who is healthy, and is concerned with remaining healthy, shows a firmness and clarity that reach too high indicates a mental type who sacrifices all for the mental side and ignores the body - sometimes forgetting to eat. The I that does not reach high indicates a person who eats often and with no regard to the chemistry of the food. The I that are made without loop, but with much pressure on down stroke, indicate a person inconsiderate of health because labor-intensive.

Large writers eat carefully as do small writers. In this case, as in most others, the medium, conservative writer is the controlled and poised type.

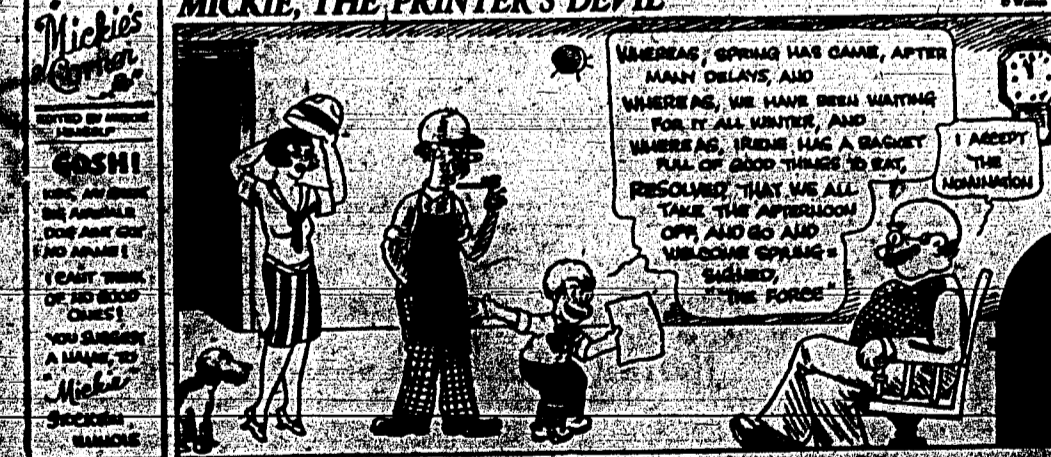

Ships Swallowed by Sand  
Historical records show that ships have been engulfed in quick or shifting sand. The sand moves with the water around it and a person or a boat that rests on it is gradually drawn down into it. The famous Goodwin sands off the southern coast of England are extremely dangerous to vessels. In 1708 15 warships were lost in a night by the power of these treacherous quicksands. The vessels were entirely swallowed.

That's Zero in Connotation  
Chemistry: The number zero is often used to indicate the absence of a quantity.

BLUE AND GOLD TENNIS OUTLOOK BERRY

Crantford High School expects to play a track tennis tournament this year, as there is a nucleus of last year's outfit in Zundel, Blake and Warnock. These men are practically sure of a position on the team and it is expected that there will be keen competition for the fourth place on the team. The schedule is incomplete at present although it is known that they will start up against the Summit representatives on May 4th, in conjunction with a dual track meet there on the same date.

COX MAKES LAFAYETTE TEAM

Crantford's growing list of collegiate athletes adds one more name in that of Clifton Cox, who is playing on the Lafayette lacrosse team. Cox, who was prominent in football and swimming in Crantford High School, is in his first year at Lafayette and never played the game before this year, which tends to make his performance more remarkable. In the opening game with Penn. last Saturday, Cox started with the original line-up and played throughout most of the game.

SOUTHERN NAMED ON COUNTY COMMITTEE

On Friday, May 30th, at Warrenton Park, the annual Union County Field Day for public school children will be held, according to an announcement by General Chairman J. H. Howell, of Summit. Among the officials named is Coach Souther, of Crantford, who will act in the capacity of field captain during the event. It is believed that this year's events will be the most successful of any that have yet been put on.

PRACTICE SLOWED UP—NO FIELD

High School baseball practice is limited due to the fact that the long promised field still remains a speculative proposition as no work has as yet been started. Meanwhile, the boys practice in a haphazard manner on a theoretical diamond. It would seem as though action should be started soon in this matter, since the weather has turned spring-like and practice is needed. Coach Souther has a nucleus of three letter men, one of whom is ineligible to build a team. These are F. P. Wilson, L. Albert and Sam Berry. The leading candidates at the present time for the various positions are: Berry, pitcher; P. Wilson, catcher; Albert, 1st base; Enright, 2nd base; Blake, short stop; and Smith, Wallace, Nayashi and Cliff, outfielders. Richard McFadden has been appointed manager of the team and is working out daily with the squad. Practice games will occur as soon as the promised field is completed.

CRANFORD A. C. TO APPEAR ON DIAMOND

We are in receipt of the following letter, which is more or less self-explanatory: "Crantford will be represented on the diamond this year by the Crantford A. C., its former traveling team, which has established an enviable reputation in New Jersey, as one of the youngest and latest semi-pro teams in the state. The team is made up of local ball players well known in the town for their past performances with the school team and semi-pro clubs in the vicinity. The team is stronger this year in having signed up Dick Mearns, one of the best ball players ever put out by Crantford. He bids well to duplicate his former achievements both at bat and in the field. Al Haines, ranked among the best pitchers in semi-pro competition will do the twirling on Sundays when the strongest opposition will be encountered. "The Crantford A. C. swings into action in a preliminary game against the Bayway A. C. on April 16th. The following Sunday the opening game of the 1927 season will bring the first appearance in this vicinity of the American Bloomer Girls, champion women's baseball team of America. The locals were fortunate in hooking them and look forward toward a second crowd and a good start for a banner season.

THE LINE-UP THIS YEAR IS AS FOLLOWS:

Catcher, T. Peena, 3rd base, F. Di Tullio, 1st base, Dick Strou, 2nd base, Joe Rieder, 1st base, W. Madison, 2nd base, Al Lewis, 1st base. The reserves will be Tarlow, c.; Joe Di Fabio, outfielder and Arthur Kohler, outfielder.

THE R. & O. F. F. WILL BE THE HOME GROUND OF THE CRANFORD A. C. AND THE MANAGERMENT IS WORKING HARD TO GIVE CRANFORD A BASEBALL TEAM IT CAN BE PROUD OF, USING ONLY LOCAL MATERIAL.

Anyone wishing to communicate with the Club may address their correspondence to Crantford Athletic Club, P. O. Box 77, Crantford, N. J. "Cordially yours, E. J. CUTLER, Sec. C. A. C."

BASEBALL NEWS

One of the items of business which will be transacted at the meeting of the Union County Baseball League on Thursday evening, April 7th, is the selection of the official baseball which the league will use. The various sporting goods dealers in the district are invited to be present at this meeting and submit their bids for the business.

LEAGUE OFFICERS TRIP TO BE READY TO DESCRIBE THOSE AWARDS OR TO FURNISH PICTURES OF SAME.

Men who are qualified to act as umpires and who wish to serve in that capacity with the Union County Baseball League this coming season, are invited to file application by addressing the league at the Union County Park Commission, Acme and Canton streets, Elizabeth.

TRACK SEASON OPEN SOON

Outside of a few desultory practices, outdoor track will not officially get under way until April 17th. The High School has been fortunate in retaining the services of Mr. Hopper for this season and, with much less material left over from last year's aggregation, expects to duplicate last year's success. Owing to the extra church duties devolving upon Mr. Hopper during the Easter season, a regular system of training cannot be installed until April 17th. Mr. Hopper will be aided by Coach Souther, when the latter can spare the time from baseball practice.

REALTY THEATRE

John Barrymore's greatest and most ambitious production, "When a Man Loves" goes into its second big romantic work at the Embassy Theatre, Newark, where it is shown with a new program of Vitaphone diversions, including Vitaphone musical accompaniment.

This attraction is one of the outstanding theatrical offerings of the season and is shown in Newark continuously with its Broadway record breaking showing. "When a Man Loves" gives Barrymore his greatest romantic screen role. The pick of the town and several of the best of the town are featured in the Vitaphone program.

The film spectacle unfolds a story of passionate love and jealous obsession. It is filled with dramatic scenes and intense scenes. Henry Hadley, conductor of the New York Philharmonic Orchestra, composed the special musical score which is heard with the picture.

SCHOOL NEWS

High School Friday, April 14th, the two Crantford representatives in the Union County Vocational Contest gave their speeches before the high school. Both orations were excellent. Mary Raymond's subject was "What I Shall Do" and David Cannon's was "The Many-Sided Franklin." We are proud to say that David Cannon carried off the first prize for the boys, and his oration was undoubtedly the "best" of all those presented. We only wish he could be here next year to represent us again.

Friday evening, April 8th, the girls' chorus, assisted by the high school orchestra, will present an operetta entitled "The Japanese." It is the Cleveland School anti-taught. Practitioners have been conducted under the leadership of Mrs. Fay, and we feel sure it will be a great success. The admission is only 50c. The proceeds are to be used for the purchase of a new curtain for the Cleveland School auditorium, and partly toward starting a music fund in the G. O.

Because of the fact that the Senators could not get fifty members of the class to go on the Washington trip, they have some tickets left over. Any parent wishing to go with the class may get information through the Senior Mothers' Committee, or through Robert Endell, the Treasurer of the Senior Class.

The staff of the Senior Year Book has been chosen and is already hard at work, which gives evidence of a fine Year Book. The staff is as follows:

Editor-in-chief, Mary Raymond; Assistant Editors, Mary Angier, Millicent Britton; Business Managers, Leroy Albert, McKillo Miller; Photograph Editor, Robert Scott; Athletic Editor, Constance Leach; Robert Zundel; Class Historian, David Cannon; Questions Committee, Sibyl Avery, Mildred Dryden, Peggy Hooke.

Will Committee, Betty English, Ethel Harrington, Fred Warnock; Promoter Committee, Alma Harmon, Mildred Price, Quintin Fraser; Song Committee, Roberts Adams, Katherine Holding; Typists, Katherine Angliemeyer, Conrad Anderson; Faculty Advisor, Miss Poole.

Monday evening, the 4B grade entertained in Assembly last Monday with two exercises. The first, "The Winds" was given by Alberta Mills, Josephine Kunkel, Elizabeth Roberts and Marian Taylor. The second was a recitation of "Adonais," Frank's "High School" stanza by Louise Jones, Edward Gross and Ned Nema.

Standard tests are being given throughout the school this week. The following classes were present in punctuality during last week's Vocational—2A, 2A, 3B, 4A, 4B, 5A, 5B, 6A, 6B, 7A, 7B, 8A, 8B, 9A, 9B, 10A, 10B, 11A, 11B, 12A, 12B.

Wild Geese Change Habits

Driven by overpopulation to within one hour and a half of the ocean, the wild geese of Chesapeake Bay and the Delaware Bay are being driven to the coast of Maryland and Virginia to find food.

Origin of Unlucky Thirteen

The origin of the superstition attached to the number "13" has been traced to Scandinavian mythology wherein there were 12 deities and Loki, the mischievous, intruded himself, making the unlucky thirteenth, marks the Deafborn Independent.

The Magic of Beauty

Yes, in spite of all, some shape of beauty moves away the pall from our dark spirits! Move away the occasional pall from the dark spirits of the dear ones by letting their eyes feast upon the matchless beauty of a Di Leonardo bob and finger wave moulded to your countenance with all the harmony of a sublime symphony.

DEKIN GIANES START PRACTICE SATURDAY Now that the new uniforms have arrived, Manager Tyree has called the initial practice for Saturday afternoon. A wealth of material is on hand and it is going to be a real job to pick the best line-up without sacrificing other good material. It is expected that the team will be built around the old familiar battery combination of Crowder and Washington, and a formidable array should result. No game have been scheduled to date, but it is hoped to give Crantford a baseball team it can be proud of, using only local material. Anyone wishing to communicate with the Club may address their correspondence to Crantford Athletic Club, P. O. Box 77, Crantford, N. J. "Cordially yours, E. J. CUTLER, Sec. C. A. C."

Largest Savings Bank The largest savings bank in the world is in Perth, Australia, where the government savings bank of New South Wales has deposits of approximately \$2,000,000,000—Twenty Billion Dollars.

Man Work Make The man who makes makes the money. The money makes the man. The man who makes makes the money. The money makes the man.

WE FAIL TO SEE THE POINT why a man can wear a straw hat in the winter and a fur coat in the summer and still get away with it. But we're not trying to "get away" with anything when we recommend Lehigh Valley Coal for there's a man who can wear a straw hat in the winter and a fur coat in the summer and still get away with it.
