CRANFORD, N. J., THURSDAY, OCTOBER 3, 1929

FIVE CENTS

Voters Fail to Approve School Board's Program

Junior-Senior High School Proposition Beaten Over Two to One and Land Purchase by Nearly Same Margin. Bad Weather Reduces Vote.

The program of school expansion proposed by the Board of Education on which a special election was called for Tuesday, October 1st, was defeated by the voters by a wide margin. The vote on the building proposition being 735 to 393 and on the purchase of school sites 738 to 391. The bad weather undoubtedly had a great deal to do with the comparatively small vote cast, this being less than 25 per cent of the total registry. Both questions were beaten in each of the five polling places but the percentage was biggest in the Sherman School, 4 to 1 against. The 6th Election District voted there; the second and fifth at Lincoln School; the 4th and 7th at Grant School and the 1st, 3rd and 4th at Cleveland School.

Members of the Board of Education conducted an active campaign for the program through special meetings and talks before various organizations for several weeks and there was no organized opposition. The vote in detail in the several voting districts, as arranged for the Special Election, was as follows:

Building	Proposed No. 1	Per Cent	Opposed No. 2	Per Cent	Ballots Returned
Polling District 1...	50	136	39	177	171
Polling District 2...	60	178	61	174	243
Polling District 3...	136	177	143	167	324
Polling District 4...	78	194	97	170	278
Polling District 5...	69	176	51	87	138
Total	392	763	391	725	1152

Republican Club To Enter Active Campaign

Committees Organize to Get Out Full Vote at General Election. Entertainment Committee Active and Reports Gratifying.

The regular October meeting of the Cranford Republican Club at the Club House last night was well attended and full of pep. Six new members were elected.

President R. E. Barrett outlined the work to be done this month to secure a full vote at the general election and the several committees will be very active in the work from now on.

The Entertainment Committee report, made by the Chairman, H. R. Winkler, showed a very successful start for the season's activities and a very substantial addition to the Club funds, \$400, being turned into the treasury by the committee. The report showed \$100 profit from the big card party under the management of Mrs. Janzen and \$325 from the boxing tournament which was in charge of Messrs. Wild and McLaughlin. Mr. Wild stated the committee had had able assistance from other non-members of the Club, including Messrs. Niedrach and Gassmann. The Entertainment Committee was given a hearty vote of thanks for their fine work.

The house committee reported on a request for the use of the house by the Order of the Amaranth on Dec. 7 for the order's annual bazaar. The matter was left in the hands of the house committee with power.

The entertainment committee reported that there will be two parties in the club house on Halloween. During the afternoon, starting at two-thirty and continuing until four-thirty, there will be a party for children. The age limit will be ten years and due to lack of space, it will be strictly observed. Admissions will be by ticket only and they must be secured before October 19, so that the committee may make adequate plans. There will be no charge, but children are requested to come in costume, although this is not obligatory. Law and order. Mrs. R. L. Lovell, president of the Wednesday Morning Club, and chairman for this district of the Citizenship Department of the N. J. State Federation of Women's Clubs, will speak on the clubwork of the Order of the Amaranth. Mrs. J. J. Deller, president of the Parent-Teacher Association of the Roosevelt School, will present the view point of the relation of that organization to good citizenship. The speakers will each speak briefly and a general discussion will follow, which members are asked to take part in.

This is the first time that the V. I. A. has held a Quarterly Meeting at the Casino. Members are urged to be present, and bring friends with them. A social hour will follow when tea will be served and members given the opportunity to meet each other. Mrs. DeBriand and Mrs. John Low, chairman and vice-chairman of the entertainment committee, will have charge of the tea.

Any one wishing motor car service will please notify Mrs. F. J. Deller, chairman of motor car committee. Cars will be provided for all who wish transportation to the meeting.

CARRIES OUT THREAT TO END OWN LIFE

Frank Hackett's Body Found Nearly Three Weeks After Threat to Estranged Wife.

Carrying out the threat contained in a letter dated Sept. 16 to his estranged wife, Frank Hackett, of 25 Carpenter Place was found dead last Saturday evening, a suicide from drinking poison. He had been dead several days when the body was discovered by Miss Mass and Officer Harry Craig in the cellar of the house where Hackett lived. The police believe that he took his life only a short time after the letter was posted.

Mrs. Hackett lives in Newburgh, N. Y., and the first information the police received was when Michael Malone of Cold Spring, N. Y. came to headquarters last Saturday night with the letter Hackett wrote his wife. Malone told the police that the wife had received the letter only a few days before, as she had changed her residence and the letter was incorrectly addressed. He also stated that Mrs. Hackett thought the threat was merely a bluffing effort to try and get her to return to her husband. This letter was given to her by the wife's friend, Mrs. W. J. Hackett, who had made all plans to do away with himself. The body was found in the house, he wrote and he was found in the cellar. The house was found in the small box near the front door.

Lieut. Mass and Officer Craig found the keys as the letter had indicated. After a search of the house, the body was found in the cellar. The County physician was notified and the body was removed Saturday night to a Elizabeth morgue. County detectives are now investigating the suicide and the events which preceded it.

Mrs. Hackett had been separated from his wife for more than fifteen years. Neighbors say that the couple have two children who live with their mother, presumably in Newburgh. Mrs. Hackett had lived here for nearly twenty years. After the separation, he had lived alone. He is described by his neighbors as being quiet and eccentric, never having visitors and frequently being absent from his home for long days so that he was not missed during the period between the time he took his life and the time when the body was found. He was said to have an inventive turn of mind and spent years experimenting with explosives and other chemical preparations.

Officials and Leaders Back Merchants' Plea

Endorse 'Shop in Cranford' Campaign Through Addresses in New Cranford Theatre This Week.

Civic leaders and officials of Cranford lent their support to the "Shop in Cranford Campaign," which has been carried on this week at the New Cranford Theatre. Each night, a portion of the \$100 worth of merchandise offered by the merchants of Cranford in connection with the campaign has been awarded to fortunate patrons of the theatre.

The campaign, with the award of merchandise, will be continued for the rest of the week.

Mayor Aldrich said Monday night: "We should shop in Cranford because by doing so we enable our town to have better stores. The stock which a store can afford to carry depends entirely upon the size of the business. This depends on us. It is, of course, more convenient to shop here, and occasions may arise when it is necessary to do this. If purchases are usually made elsewhere how can our stores keep a good stock which will enable us to get what we want on such occasions?"

"While I realize, of course, that there are many things which it is necessary to purchase in New York, or Newark, there are also many which can just as well be bought from our local merchants possibly at a saving in price, and I urge everyone to remember this and purchase whatever they can from our local stores."

The amount of business which a store does fixes the rent it pays and thus the value of the property. The more shopping that is done in Cranford, the more valuable our business property becomes, and the more taxes the municipality gets from it. It is in this way we benefit financially from shopping in Cranford. Why not do it?"

George K. Warner, of the Township Committee and former president of the Lions Club was the speaker Tuesday night. Mr. Warner urged the citizens of Cranford to do their shopping in this way to benefit the town. The business men here are limited in what they may do for the town by the support they receive, he stated that the business men nevertheless constitute the most important part of the community. Their motives in furthering the buy at home movement, he said, are far from being selfish, for of every dollar they receive, a great portion goes to the improvement of their business houses and the general betterment of the community. Their motives in furthering the buy at home movement, he said, are far from being selfish, for of every dollar they receive, a great portion goes to the improvement of their business houses and the general betterment of the community.

P. J. Martin Again Leads Treasure Hunters' Club

FIRST COUNT OF THE CITIZEN AND CHRONICLE TREASURE CHEST CLUB

P. J. Martin	Cranford	580.00
Howard Holt	Cranford	500.00
Mrs. Wm. Campbell	Cranford	490.00
Mrs. C. J. Janzen	Cranford	485.00
Mrs. H. Loverebeck	Kenilworth	478.00
Mrs. Chas. Kraemer	Cranford	320.00
Mrs. O. Mahan	Garwood	110.00
Mrs. Mary Bryant	Cranford	75.00
Mrs. A. Luard	Cranford	50.00
Dora Erickson	Garwood	5.00

Ending the first GOLD WEEK with a bang the leading candidates of the Treasure Chest Club have settled down to another fast week in the campaign. As a compliment to their splendid work, the management has made the same offer for this week. This gives those who were not fortunate enough to figure in on the first week an opportunity to come to the front this week. It also affords an opportunity to the others to once more win a neat little purse of gold. The count last night shows a few changes. A lively struggle for first place is now being waged.

P. J. Martin still holds first place by only a few subscriptions. Mrs. Janzen steps back to third position and Mrs. Loverebeck and Mrs. Kraemer change places. We see Mrs. Mahan coming up towards the front and Mrs. Campbell, who lost her place by only a few subscriptions. Mrs. Janzen steps back to third position and Mrs. Loverebeck and Mrs. Kraemer change places. We see Mrs. Mahan coming up towards the front and Mrs. Campbell, who lost her place by only a few subscriptions.

Mr. Martin took the \$20 in gold for the best effort during 'Gold Week.' Second prize of \$15 went to Mr. Holt, while Mrs. Loverebeck took the \$10 prize. Awards of \$5 were made to Mrs. Campbell, Mrs. Janzen and Mrs. Mahan.

This is as was predicted, a very exciting race. We look for many changes by the next count. The leaders are very close and there is almost a tie for third and fourth places.

REPUBLICAN BOUTS PROVE FINE SUCCESS

Good Crowd Enjoys Fleety of Action at Last Out-door Show of Sporting Club.

More than 1,000 attended the fine boxing bouts which the Cranford Republican Club sponsored last Friday evening at George Ward's Cranford Sporting Club, the open-air arena next to his gymnasium in Centennial avenue. Although complete returns have not been received from outstanding tickets, indications are that the club will make a profit of nearly \$500.

In the feature six round bout of the evening, Frankie Carlton of Jersey City won easily over Frankie Dallas of Newark. Carlton was signed as the opponent for Tommy Judas of Elizabeth, but Judge developed a bad case of boils and had to call off his part in the contest. Most of the fans disagreed with the verdict.

In the first round, Dallas who held Judge to a draw a few weeks ago, outboxed the opponent he was meeting in Judge's place. Carlton took the second by a slight margin and recited an awkward crouch which proved most effective through the third, fourth and fifth rounds. However, he seemed to tire while Dallas came along in good shape.

Eight tall, husky colored mauler from Keyport took a hollow victory in the semi-final of four rounds, when he was the winner on a technical knockout over Clem Pappas, Newark's popular Greek boxer. For three rounds, Pappas administered an old-fashioned boxing lesson to his opponent, but in the fourth he was unfortunately butted and cut over the eye so badly that the bout was stopped, crediting Eight Ball with the win.

Harry Salters of Elizabeth scored a sensational knockout on Tony Agar of Brunswick in the third. Agar took the winner on a technical knockout over Clem Pappas, Newark's popular Greek boxer. For three rounds, Pappas administered an old-fashioned boxing lesson to his opponent, but in the fourth he was unfortunately butted and cut over the eye so badly that the bout was stopped, crediting Eight Ball with the win.

Young Althony of Linden won from Tom Scott of Matawan in the fourth round. The Linden boy started dropping his rival in the first, but could not keep him down until the last round. George Piccoli of Linden and Young Pappas of Keyport went four rounds to a draw in the second, while Young Pappas of Keyport was the stronger at the finish, but the draw verdict did not favor either of the boys.

Krnie Holland of Cranford won from Tom Scott of Matawan in the fourth round of a furious slugfest match. Both boys dropped in the first and Cook flopped again in the second. The third was even until Holland cornered Cook in a corner and was set to deliver plenty of punishment when the referee stopped the bout. In the other bouts, Young Pappas of Keyport won from Ed Bloncke of Keyport, while Martin Baker won from Johnny Vogel of Cranford.

As an added attraction, Charlie Kelly of Westfield and Mike Colaneri of Cranford wrestled a draw.

Famnce Says Politics Beat School Program

Resignation But the Board Votes to Table It. Claims 'Politicians' Aim for Control of School Board.

Charging that the million dollar school program was defeated Tuesday by a political conspiracy, Lawrence D. Famnce presented his resignation as a member of the Board of Education at the afternoon meeting held last night. Famnce said he was resigning because he was convinced that it was a political conspiracy to gain control of the Board of Education and that the school expansion program was being used as a means to this end.

In his lengthy resignation, Mr. Famnce characterized the defeat in the election as the work of political leaders. He said there is a definite plan to take over the school system, and he said that the school expansion program was being used as a means to this end.

Mr. Famnce said that the school expansion program was being used as a means to this end. He said that the school expansion program was being used as a means to this end.

V. I. A. WILL HOLD MEETING ON TUESDAY

'Good Citizenship' Will Be Topic of Afternoon Session in Cranford Casino.

Next Tuesday afternoon, October 8th, at two-thirty o'clock, at the Cranford Casino, the Village Improvement Association will hold its final meeting since the annual meeting last April.

What Constitutes Good Citizenship in Cranford will be the subject of the meeting as has been announced. Several speakers will present different phases of this all important question. Among them are Mayor R. C. Aldrich, who will handle the subject from the point of view of Cranford's leading civic official, G. E. Warner, past president of the Lions Club, will speak on law and order. Mrs. R. L. Lovell, president of the Wednesday Morning Club, and chairman for this district of the Citizenship Department of the N. J. State Federation of Women's Clubs, will speak on the clubwork of the Order of the Amaranth. Mrs. J. J. Deller, president of the Parent-Teacher Association of the Roosevelt School, will present the view point of the relation of that organization to good citizenship. The speakers will each speak briefly and a general discussion will follow, which members are asked to take part in.

This is the first time that the V. I. A. has held a Quarterly Meeting at the Casino. Members are urged to be present, and bring friends with them. A social hour will follow when tea will be served and members given the opportunity to meet each other. Mrs. DeBriand and Mrs. John Low, chairman and vice-chairman of the entertainment committee, will have charge of the tea.

Any one wishing motor car service will please notify Mrs. F. J. Deller, chairman of motor car committee. Cars will be provided for all who wish transportation to the meeting.

COACH SOUTER RESIGNS TO TAKE STATE APPOINTMENT

Snyder H. Souter, Jr. for the Past Two Years Supervisor of Physical Education in the Cranford Public Schools and Coach of Football and Track has Accepted the Appointment.

Snyder H. Souter, Jr. for the past two years supervisor of physical education in the Cranford Public Schools and coach of football and track has accepted the appointment here. He takes a position with the New Jersey Department of Institutions and Agencies and will be assigned to the New Jersey Training School at Totowa.

Coach Souter is a graduate of New Jersey State Teachers' College at Trenton and before coming to Cranford, was principal of the Atlantic City High School for three years. He is a native of Paterson.

The Board of Education will probably name his successor at the regular meeting which will be held on October 15th.

At the meeting of the board last night, the board interviewed several candidates, among them Victor Hunt of Elizabeth, supervisor of physical training in the junior high schools and J. Walter Coffey, physical training teacher here.

CITIZEN-CHRONICLE OFFERS NEW BRIDGE LESSON SERIES

Through arrangements completed with Wynne Ferguson, widely known bridge teacher, lecturer and writer, The Citizen and Chronicle is able to offer a series of thirty-four articles on bridge.

These articles will be released weekly under the heading of 'Easy Lessons in Bridge' from the beginning of the month. The series will be published in the Citizen and Chronicle. This feature will appear exclusively in this territory in the Citizen and Chronicle.

More bridge is being played than ever before and in order to master the great game of all games it is necessary to learn the art of bidding and play properly, and it is essential that a recognized authority be followed. If you are a beginner the lessons will prove a great help and if you are already familiar with bridge the problems and solutions will afford much pleasure in reading and recreation.

Don't miss an issue of The Citizen and Chronicle. The first lesson is released in this issue.

BOOSEWELL P. T. A TELLS OF NEW MEMBERSHIP FEE

From the publicity committee of the Roosevelt School P. T. A. comes the following statement, relative to the membership fee:

The Roosevelt School Parent-Teacher Association would like to make clear to all members the difference between the yearly association dues and the sustaining membership fee. The yearly dues of twenty-five cents take care of the payments that have to be made to the State and National branches of the society. The sustaining membership fee of \$3 is designed to cover the year's budget of expense, thereby doing away with constant public appeals, cake sales and other events which are often most difficult for busy mothers to accomplish.

Mrs. Hamilton Fay, the chairman of the Pre-School Age Committee, urges mothers to plan to bring their small ones with them and come to the meetings. Her committee will give the children and babies the very best of care. Notice of the next meeting will appear next week.

CHRISTIAN ENDEAVORS

The first business meeting of this young people's organization of the Presbyterian Church will be held on Tuesday evening, October 8th, at the home of Mrs. A. V. V. Hibson, 200 Elizabeth avenue, at 8 p. m.

Non-members are invited to attend the meeting Monday afternoon and keep in touch with the work of the organization.

TRINITY CHURCH SCHOOL FAIR

SHOWS PROOF OF SUCCESS

The Annual Country Fair of the Trinity Church School on Saturday last was a most successful and enjoyable entertainment.

The dog show which was a new event this year was especially popular, many dogs being entered, and a large crowd watched the judging by Messrs. Bates and Du Barry.

The prizes in the various classes were collars, leads and ribbons.

The attendance at the fair was so great that the closing hour had to be advanced to eight-thirty with everything sold.

Mrs. Mackenzie, the committee chairman, takes this opportunity to express her appreciation to the committee, teachers, parents, children and friends for their splendid cooperation toward the success of the fair and to the workers of Cranford who so kindly donated articles.

To date the proceeds are over \$100, with several books and the ticket sales still to be heard from.

THE CRANFORD CITIZEN AND CHRONICLE... ESTABLISHED 1888... PUBLISHED EVERY THURSDAY... TERMS Two Dollars a Year...

The sad accident at Picton last Saturday night, five young people of Pathway being hurled into eternity when their automobile was struck by a Lehigh Valley train at a grade crossing...

In another column we print a letter from L. D. Faunce of the Board of Education, the purpose of which, as he states, is to "refute" statements in last week's Citizen and Chronicle...

At a meeting in Cleveland School Monday night Mr. Faunce said the Editor of the Citizen and Chronicle for years had been against progress in educational matters in Cranford...

It might be interesting to quote from official records the cost per pupil (1928-1929) in Cranford and neighboring communities...

COMMUNICATED September 30, 1929. Editor, Cranford Citizen and Chronicle:

We take this means to refute the statements in your article on the front page of your Thursday, September 26th, issue and the editorial on the subject of "The School Proposition Up For Vote on Tuesday."

The first point that you make is that the price of the four lots to be added for at this election seems to be higher. If you will refer to your issue of December 1st, 1927, entitled "Special School Election Friday Night," you will find the detailed prices for these lots there which total \$69,744...

The next point that we wish to refute is your statement that there are 88 available classrooms outside of Cleveland School. A detailed count of the available classrooms in these buildings does not total 88...

You make the statement that the Board of Education should rather seek to make the best use of facilities at hand as an inference that they are not doing so. As a citizen of this town, it is my duty to point out to you that the Board of Education has not done this...

which you show. This total of 879 seats compared to vacant seats in the various classrooms which it is impossible to fill with children from other grades or schools.

Your next point concerns the relief which will be provided by the opening of St. Michael's Parochial School. We will admit that the Parochial School will take from 200 to 250 pupils from the public schools...

We believe that these facts refute every statement which you make in your article on the front page of your paper.

Turning to your editorial, you point out that the Roosevelt School and the Addition to the Lincoln School were completed last year and added 30 classrooms to Cranford's school plant...

Your next point is the advantage of a Junior High School. It is a subject on which there is no serious discussion among those high up in educational matters, has little bearing on the Cranford situation...

You say that in large communities the Junior High may work out to advantage, but where the combination of Junior Senior High has been tried out it has not proved successful...

In making the point about the tract of land asked for at the corner of Lexington Avenue and Deane Street, we overlooked the statement in your little booklet that this is to be used for a site for a school and a South Side Athletic Field...

You make the statement that this proposition means a jump of upwards of 50 points in the tax rate. This is a mis-statement of fact, even though the assessed valuation of Cranford should stand still...

You make the statement that the Board of Education should rather seek to make the best use of facilities at hand as an inference that they are not doing so. As a citizen of this town, it is my duty to point out to you that the Board of Education has not done this...

Amazon's Wide Mouth

The width of the mouth of the Amazon river, says the Illustrated Magazine, is usually measured from Cabo de Notre to Punta Patijoca, a distance of 201 miles. This, however, includes the ocean outlet of the river—40 miles wide—which should be deducted, as the stream is merely the lower stretch of the Amazon.

Of No Real Worth

"A pretense of authority," said Elihu, the Sage of Uchi-town, "is of no more real advantage than the possession of counterfeit money."—Washington Star.

Well Supplied With Teeth

There is one species of slug with 30,000 teeth. The common variety of snail has over 14,000 teeth, arranged in 130 rows, while another variety has 21,000 teeth in 140 rows.

Cold Lines the Hills

Of all the gold mined in the history of the world, one-eighth has come from the Black Hills of South Dakota.

Not Such a Big Success

The late, Walter Kingsley, one of the last of the great actors of the stage, once related an incident in the streets of New York while doing publicity for "The Circus Man." He telephoned his "lions" to the police department and a squad of officers went out to find the elephant. All signs and had they but known it, the animal would have followed them peacefully with the offer of a few peanuts.
Instead, they frightened the elephant, which dashed into an office building wedged itself to the doorway and half the building had to be torn down in order to release it.

Words Handed Down

In the word "magic" we have the reminiscence of the Persian "Magi," mighty prophets and interpreters of dreams, of whom three were said to have found their way to Bethlehem. Words which come to us from the Roman religion are cereal, grania, feta, fortuna, fury, grace, June, mist, money, Saturday, vicia, contemplate, sacrifice, temple, angry and auspice. "Vampire" is an unpleasant Slavonic word brought back from the East by travelers in the Eighteenth century. Taboo, tithe and kangaroo came to us with Captain Cook from the Pacific—Exchange.

Destructive Locusts

When agriculture began to be established generally in the great plains region of the United States lying west of the Mississippi river, and east of the Rocky mountains, during the decade 1870-80, a migratory species of grasshopper, commonly known as the Rocky mountain locust, frequently swooped down from its breeding grounds on the benches of the mountain range in such great swarms as to destroy practically all cultivated crops over vast areas of country, reducing thousands of families almost to starvation.

John Did Not Eat Insects

The locust eaten by John the Baptist were, probably, locusts, but not the same as the locusts of which are the locust beans and so food for cattle. The carab tree is sometimes called the honey tree, from the sweet pulp contained in its seeds which they use for food.

Swastika Always Held Emblem of Good Luck

The swastika, which is the most sacred symbol of good luck for so long, had, that we believe, never been preserved to indicate just why this particular symbol should have its present significance. We do know that from time out of mind it has had this significance and is used in all parts of the world except Africa, Polynesia, Australia and the polar regions.

Livingstone Moments

The show in which David Livingstone, the explorer, was celebrated in the Livingstone Memorial museum at Blantyre, New York.

Wizards of Electricity on Starvation's Verge

A story is told about Charles P. Stimpert that, from 1904, Stimpert's peculiar temperament, writes Jonathan Norton Leonard in World's Work. "A friend who had known him at You have come to see him soon after he had gone to Lynn, Mass. with the General Electric. He found that the wizard of electricity, Stimpert, was in a state of starvation's verge. He looked pinched and thin. It wasn't easy to get at the root of the trouble, but at last the friend induced Stimpert to talk.

"Conventional" Dinner

One night at the White House during the Presidency of Theodore Roosevelt there met at dinner, John Hay (then secretary of state), Sir Martin Conway, Walter Wellman, James Ford Rhodes, the historian, and, of course, President Roosevelt. Next day Hay and Rhodes met again and the following conversation ensued:

Rhodes—That was a nice conversational dinner we had at the White House last night.
Hay—Conventional do you call it?
How long were we at the table?
Rhodes—About an hour.
Hay—Well, Wellman talked a minute, Sir Martin a minute and a half, you a minute and I not more than that, and Theodore talked all the rest of the time. Do you call that conversation—Philadelphia Public Ledger.

Novel Shaped Shades and Gay Colors Distinguish LAMPS

NEW lamps brighten old interiors and bring new charm to familiar surroundings. The newest lamps adopt original styles yet in the design of each one the utilitarian purpose for which it is intended has been kept in view.

A slender stem of bronze or wrought iron supports a bell shaped shade, forming a substantial floor lamp for hall or living room.

Table lamps show a tendency toward narrow shades which confine the light to writing desk or working table. The base may carry a conventional design or be of pottery in glowing color or soft blue.

We will sell any lamp on a divided payment plan. A small sum down and the balance in moderate monthly payments.

Bonded Indebtedness Well Within Limit

Borough Has Rating of 6.32 Per Cent. With Seven Per Cent Allowed According to Official Report to Council.

At the meeting of the Borough Council Tuesday evening, President Charles L. Johnson, chairman of the finance committee, presented a report to show that the borough is well within its debt limit. The legal allowance in this borough is seven per cent of the average of assessments for the past three years, while the actual debt of the borough at this time is only 6.32 per cent, President Johnson reported.

BORO BUDGET ITEMS ARE IN GOOD SHAPE

Report Shows Only One Account Over the Limit and One Charge Others Have Good Standing

That the Borough of Garwood is in good financial condition is indicated by reports received by the council at its first September meeting Tuesday evening. Borough Clerk Walter Mathias presented a statement up to October 1, showing the condition of various budget accounts. The report showed that only one item is thus far overdrawn. That is the item for interest on improvement certificates. As the beginning of the year, \$3,000 was set aside for this purpose and up to October 1, \$1,492.53 had been expended. The only other item close to its budget limit was that for the board of health, which contains a balance of \$344.84.

Council Comments Business Exhibition

Waives Fee in Granting Permit for Fair Business Men Will Present Week of Oct. 14th.

The Garwood Borough Council Tuesday evening endorsed the industrial fair which the Business Men's Association will sponsor the week of October 14, in Becker's Hall here. In addition to commending the exhibit as a benefit to the community, the borough fathers waived the usual fee for the necessary permit.

P. T. A. MEMBERS HEAR ADDRESSES

Mrs. Bradley Speaks on Home-Work Value of Club Work

A large number attended the meeting of the Parent-Teacher Association last Thursday afternoon to hear interesting addresses by Mrs. Bradley, Supervising Principal Warren W. Hester, Mrs. Bradley spoke on the importance of home-work, stressing the importance of proper preparation. Mr. Halsey spoke on club activities which are now carried on in the Junior High School. Each Thursday afternoon, class periods are shortened in order to make time for the club meetings just before school closes. Pupils have the opportunity of participating in the following club activities: Croquet, Nature Club, Health Crusaders, Newspaper, Public Speaking, Art Club, Travel, History, Needlework, Athletics and Boat Club and the Dramatic Club.

IRELAND IS NOW IN TRANSATLANTIC RADIO TELEPHONE NETWORK

Telephone in Belfast and Dublin are brought within the transatlantic network of about 24,000,000 telephone lines.

Calls from America to Ireland are routed through Bell System transmitting stations for radio telephony at Lawrenceville, New Jersey; Deal Beach, New Jersey; or Rocky Point, Long Island, and the Irish end of the conversations are received at Neilson, New Jersey or Houlton, Maine. The volume is brought together to make a conversation on this side of the water at 34 Walker street, New York. American calls are made from New Jersey to Dublin and Belfast any time between 8:30 o'clock in the morning, daylight saving time, to 10 o'clock at night. There are about 27,000 telephones in Ireland.

Phonolite First

While, phonolite, a new type of glass, is usually given the phonolite for the building of the first galleys which could stand sea travel.

While, phonolite, a new type of glass, is usually given the phonolite for the building of the first galleys which could stand sea travel. As early as 500 B. C. the Phoenician war galleys had reached the trimmings stage and had glass, metal, yards, stays, sails, etc.

Alcohol as Anesthetic

Ordinary alcohol injected directly in the bloodstream has been tried successfully as an anesthetic in two operations in a London hospital recently.

This new method is the invention of a Mexican doctor.

Only One Canadian Coinage

Since the incorporation of the British North American colonies into the Dominion of Canada, in 1867, there has been a single series of coins.

LIQUID AIR

Several scientists had a part in the discovery of liquid air among them being the two Poles, Sigmund Wroblewski and Karl Olszewski, who on April 8, 1898, at Cracow, performed an experiment in which they actually produced a few drops of liquid air.

The French scientist, Callotier and Pictet, performed experiments in the same year that also produced liquid air.

Flag Etiquette

The United Jack of the United States is a flag containing the 48 stars in white, arranged in six horizontal rows on a blue background.

Vessels at anchor fly this flag from the jackstaff. The United States flag should be flown at half-mast on Memorial day from sunrise to noon, and at full-mast from noon to sunset. This holds good in all cases.

LIQUID AIR

Several scientists had a part in the discovery of liquid air among them being the two Poles, Sigmund Wroblewski and Karl Olszewski, who on April 8, 1898, at Cracow, performed an experiment in which they actually produced a few drops of liquid air.

The French scientist, Callotier and Pictet, performed experiments in the same year that also produced liquid air.

FORMER MISS GRISWOLD NOW RESIDES IN PEKESKILL, N. Y.

Mr. and Mrs. Roger Dunham Powers are now making their home at 612 Hudson avenue, Peekskill, N. Y.

Before her marriage in Trinity Church, here, Sept. 7, Mrs. Powers was Miss Grace Irene Griswold, daughter of Mr. and Mrs. George L. Griswold of Doerick Way.

The bride was attended by Miss Margaret Loop of Westfield, as maid of honor and by two sisters of the groom as bridesmaids, the Misses Marjorie and Barbara.

The groom's attendant was Franklin Knight Anderson of Peekskill. A reception followed at the home of the bride's parents.

The former Miss Griswold is a graduate of the National Kindergarten and Elementary Training College at Evanston, Ill., while Mr. Powers is a graduate of the University of Vermont and is a member of the Sigma Nu fraternity.

Charles McKusick of Cranford, a student at Cook Academy, Montclair, N. Y., is regular tackle on the football team of the academy.

He played in the opening game of the season last Saturday.

CHECKMATE

The stately old aristocrat was approached somewhat cockily by a rich and vulgar young man, who announced: "I say, sir, I am thinking of marrying one of your girls. Have I your permission?" "Yes, indeed," was the reply. "Which one interests you? The maid or the cook?" - Houston Transcript.

THE REPTILE

Glady - "The reptile! How dare he speak of me that way?" Maudie - "Why call him such a name?" Glady - "He's a lounge lizard, I say why."

Then He Passed On - He passed the cup now any time. He passed a load of love. He tried to pass a swerving bus. And then he passed away.

Cautious - "You'll notice that I've written the address on both sides of the label for this package." "Yes; any special reason, madam?" asked the post-office clerk. "Well, I thought it would be safer in case the label comes off."

Anticipating the Hereafter - Mr. Knagg - "But, my dear, you know you'll go through fire for good." "Yes, with my - suppose you will go through fire when your time comes and you'll say it was for me because it would be like you to blame a poor widow for it."

STEPPED ON THE GAS

"Yes, he knocked his wife down and put his foot on her mouth and she had him arrested." "Under what charge?" "Stepping on the gas."

Playing Along - A woman - "I've just received a check." Proceeding with a cunning smile, she thinks he's playing politics. "And playing - have you all the while."

No Need for More - Rhyman - "Tell me, Willie, have you any other sisters?" Willie - "High, you don't need any others. She's made up her mind to marry you."

Saves for the Goose - Porter - "Him, you train he coming." Fodette - "Passenger - Ah, good 'morn, why do you say 'your train' when you know that the train belongs to the company?" Porter - "Dunno, morn. Why do you say 'my train' when you know it belongs to 'my wife's' - 'pathfinder."

Stage Business - "How does your farewell tour?" "All depends. If it goes well I may sign up next season for a welcome back."

Don't Be Silly - "Did you know your husband well before you married him?" asked the caller. "You don't suppose I would have been crazy enough to have married him if I had, do you?" snapped Mrs. Grouch.

Beak Trade - Friend - "Do 'grapefruit' with 'mums' business today?" Business - "I suppose!" Druggist - "Yes, I've sold 75 cents worth of postage stamps and three points."

High School Gridders Show Class In Winning Opener

Displaying a brand of football which approximated mid-season form, the Cranford High School eleven won handsily from Metuchen High School, an Cranford Oval, last Saturday afternoon. The game pried off the lid on local football, and Coach Souther's boys re-vealed the intensive drill which they have undergone since the opening of school.

The local lads completely outclassed the visitors in every department of the contest. They worked like a well-oiled machine and as soon as the visitors were on the run, Coach Souther shifted his line-up several times in order to give a greater number of candidates the benefit of early campaigning.

Resorting to old-time line plunging, the Cranfordites gained almost at will through the heavy Metuchen line. Making such excellent headway in the bustling angle of the game, the local lads did little passing.

Early in the first quarter, Coach Souther's charges, after their initial rally, after taking possession of the ball, the local players ran off a couple of plays straight into the heaviest part of the Metuchen outfit's line. The going was to their liking and with good gains on each play, they marched straight down the field for a score. Powell and Sorenson carrying the pigskin. It was in Sorenson's possession when the line was crossed. To add one point, Hooper successfully kicked from placement.

During the second period, the Cranford team ran their opponents ragged. They kept the visitors within the shad-

ow of their own goal post. The end of one play found the visiting backfield behind its own goal post and they elected to punt to safety. Cranford's hard-charging line broke through, however, as worrying the punter that he would be missed. The ball traveled only a few feet and caught by Hooper, Cranford tackle, who merely had to hang on to the leather to ring up six more points.

Coming out for the final quarter, the Cranford line-up started a back rally which had the Metuchen warriors holding and praying for the final whistle. Failing to gain through Cranford's line or to register yardage on end runs, Metuchen resorted to a hysterical passing effort. Rosenbaum, at half-back, snared one of the heaves and sprinted twenty yards, before he was downed. Then it was only a matter of plays to possess of the game. Sorenson carried the ball over the marker for his second score of the game.

The line-up:
CRANFORD: WILKINSON, right end; Malloy, Hooper, right tackle; E. Tucker, Lewis, right guard; Kurtz, Band, center; J. Tucker, Reich, left guard; Schmidt, Fredrickson, left tackle; Hoffman, left end; Pettit, Sorenson, fullback; Bunce, Schmeidler, right halfback; Schuman, Lawrence, left halfback; Powell, Hancock, quarterback.
Cranford substitutions: Deaky for Lewis, Rosenbaum for Schmeidler, Sunde for Reich, English for Wilkinder, Klein for Hoffman, Downey for Lawrence and Powell for Powell.

MEN'S BIBLE CLASS BANQUET
Next Tuesday evening, October 8th, the men of Cranford will have an opportunity to hear one of the best known speakers in this section of the State, Dr. Ralph W. Sorenson, pastor of the Madison Avenue M. E. Church in New York City, who is being brought to Cranford by the Men's Bible Class of the First Presbyterian Church, as the speaker at their annual banquet.

Dr. Sorenson through his pleasing personality and his ability to hold the attention indefinitely, has become one of the most sought for after dinner speakers, and this is an occasion which no man in Cranford can afford to miss. Then being the leader of the National Sunday Forum, which broadcasts each Sunday afternoon, over Station WJAF, his four o'clock, Dr. Sorenson has become known to innumerable thousands of radio listeners, and his question and answer period is most interesting.

The Banquet Committee has been busy for the past few weeks arranging all the details, and the tarry dinner which will be served before the dinner is a professional caterer, promises to be one which will linger long in one's memory after the affair is over.

Special music has been arranged for and the gym will be decorated for the occasion. Don't forget the date, Tuesday, October 8th, at 7 o'clock in the gym of the Presbyterian Church, and if you have not secured your ticket before that time, come anyway and get one at the door.

Just a word about our regular Sunday morning service: the class meets in the church at 9:45 (a convenient time for men who bring their children to Sunday School) and now that the fall season is well under way it is hoped that the attendance will show a steady increase each week.

AT LOEW'S THEATRE, NEWARK
Joan Crawford, popular Metro-Goldwyn-Mayer film star, is the featured player in "Our Modern Maidens," the new syndicated sound film which starts a week's engagement at Loew's State Theatre on October 8th.

The story is a simulation of the ultra-modern youth, written by Josephine Lovett, author of "Our Dancing Daughters." Miss Crawford's recent success at this playhouse.

Others in the supporting cast are Rod LaRocque, Douglas Fairbanks, Jr., Anita Page, Edward Nugent, Josephine Dunn and Albert Gran. The story is evolved around the cult of modern youth whose creed is to bargain with the devil for all they can get, and cheat the devil of his due if they can. Billie Brown is high priestess of that cult.

AT NEWARK THEATRE
Miss Vera Gordon, the famous Yiddish star-comique is making a short return to vaudeville and it is a feather in the cap of Mr. Adams, of the Newark Theatre, Market street below Broad street, Newark, to have secured her for an exclusive holiday engagement of one week commencing October 4th.

His patrons will remember this star in those quaintly humorous, yet ever humorous number parts in "Fotush and Verminster," "Cohen a Kestly's" picture series; also in her masterpieces "Thun-sen" and "Four Walls," whence she starred with John Gilbert and her latest hit "The Good Professor."

Average Housewife
At fifteen or twenty the maid is still able to do things. By the time twenty-six, thirty, and thirty-five have their mind set, and at forty the majority have stopped thinking for life and allow others to do their thinking for them.—Margaret Stetson.

News: Was Little Knew
The news is very dry says that the first effect of the new tax on the insurance of the north is coming.

Mayor and Suggest

Mayor Aldrich Recommends Council of All Clubs in "Better Government"

Mayor Aldrich's proposal for a council of all clubs in Cranford is the subject of his address to the Township Committee, which was held last night.

The mayor said in part: "I don't think anything better for this township than the improvement of its government."

He pointed out that the township is a united whole, and that the various clubs and organizations are all working for the same end.

Mayor Aldrich stated that the township is a united whole, and that the various clubs and organizations are all working for the same end.
