Furnishing to parties Insuring in it an Indemnity of over One Hundred and Eighty-Two Per Cent. over the Capital; comparing very favorably with other Companies.

In presenting to the people of Jersey City and vicinity, the Statement of the Company, the officers have pleasure in pointing to its favorable condition, and congratulating its Stockholders, Policy Holders, and friends generally, upon the satisfactory results of the business of the year just terminated.

EXTRACT FROM THE ANNUAL REPORT TO THE SUPERINTENDENT OF THE  
INSURANCE DEPARTMENT.

*The SCRIP issued by this Company, for accumulated, or RESERVED PROFITS can in no sense be a present or even a prospective liability, except in the following contingency, which is the terms of its issue, viz.:*

*"Whenever the said SCRIP FUND shall EXCEED Five Hundred Thousand Dollars, the Board of Directors shall THEREAFTER apply the EXCESS thereof, annually towards the REDEMPTION OF THE SCRIP, commencing with that earliest issued."*

*The SCRIP FUND standing on that condition, is a clear, unfettered, INALIENABLE indemnity to the Policies—as much so as the Capital.*

THE SENSIBLE and FRANK avowal of the Great National Board of Underwriters, and also of the Boards of this and other Cities, that OUR POLICIES on the "Participation Plan" are *Better Insurance*, worth Ten and Twenty per cent. more than the Policies of the Non-Participating Companies (being "iron-clad" as it were, by the large SCRIP FUND), has had the beneficial effect to largely increase the business and prosperity of the Company—thereby extending its usefulness, and advancing the interest and security of its Policy Holders.

The Company will continue, as heretofore, to insure respectable parties against Disaster by Fire on the PARTICIPATION PLAN, or "in the Old Fashioned Way," as may be agreed upon.

The prompt and liberal adjustment of Losses, when "Fair and Square," will also continue the Specialty of the Company.

THE HISTORY OF THE UNITED STATES OF AMERICA

CHAPTER I  
THE DISCOVERY OF AMERICA  
The first discovery of America was made by Christopher Columbus in 1492. He sailed from Spain in search of a westward route to the Indies. On October 12, 1492, he landed on the island of San Salvador in the West Indies. This event marked the beginning of European exploration and settlement in the Americas.

CHAPTER II  
THE EARLY YEARS  
The early years of the United States were marked by the struggle for independence from British rule. The American Revolution began in 1775 and culminated in the signing of the Declaration of Independence in 1776. The new nation was founded on the principles of liberty, justice, and equality.

CHAPTER III  
THE CONSTITUTION  
The Constitution of the United States was drafted in 1787 and ratified in 1788. It established the framework of the federal government and the rights of the states. The Constitution is the supreme law of the land and has guided the nation through its history.

CHAPTER IV  
THE WESTERN EXPANSION  
The Western Expansion of the United States was a period of rapid growth and settlement. The Louisiana Purchase of 1803 doubled the size of the nation. The discovery of gold in California in 1848 led to the California Gold Rush. The expansion of the railroads and the settlement of the West shaped the nation's future.

CHAPTER V  
THE CIVIL WAR  
The Civil War was fought between 1861 and 1865. It was a conflict over the issue of slavery. The Union emerged victorious, and the war led to the abolition of slavery and the passage of the Reconstruction Amendments to the Constitution.

CHAPTER VI  
THE RECONSTRUCTION

# SHEPARD'S SUPERIOR RANGE. NEW HEATER OVENS.

Good Bakers—Nothing superior in baking qualities can be desired. Good Roasters—Unexceptionable in completeness with its roasters. BROTTLING—Without smoking the meats. Boiling—Quickly over the entire top. Hot Water—An abundant supply. Economical—Using very little fuel. Dishes—Standing even hard usage with little wear. Grills—The proper metal in the right place makes them strong and serviceable. EARLY MANAGER—No person can fail to successfully operate one of these ranges on their first trial. The great popularity and unprecedented sale of these Ranges prove conclusively that the public have met the introduction of a first class article as it merits. No range has been offered which so successfully and completely fills all the requirements of superior finished cooking, and which at the same time proves so economical in fuel as to excite surprise. With facilities for heating water unobstructed, arrangements for roasting of the most complete kind, and two extra large ovens for baking, it really can not be pleased with its operation.

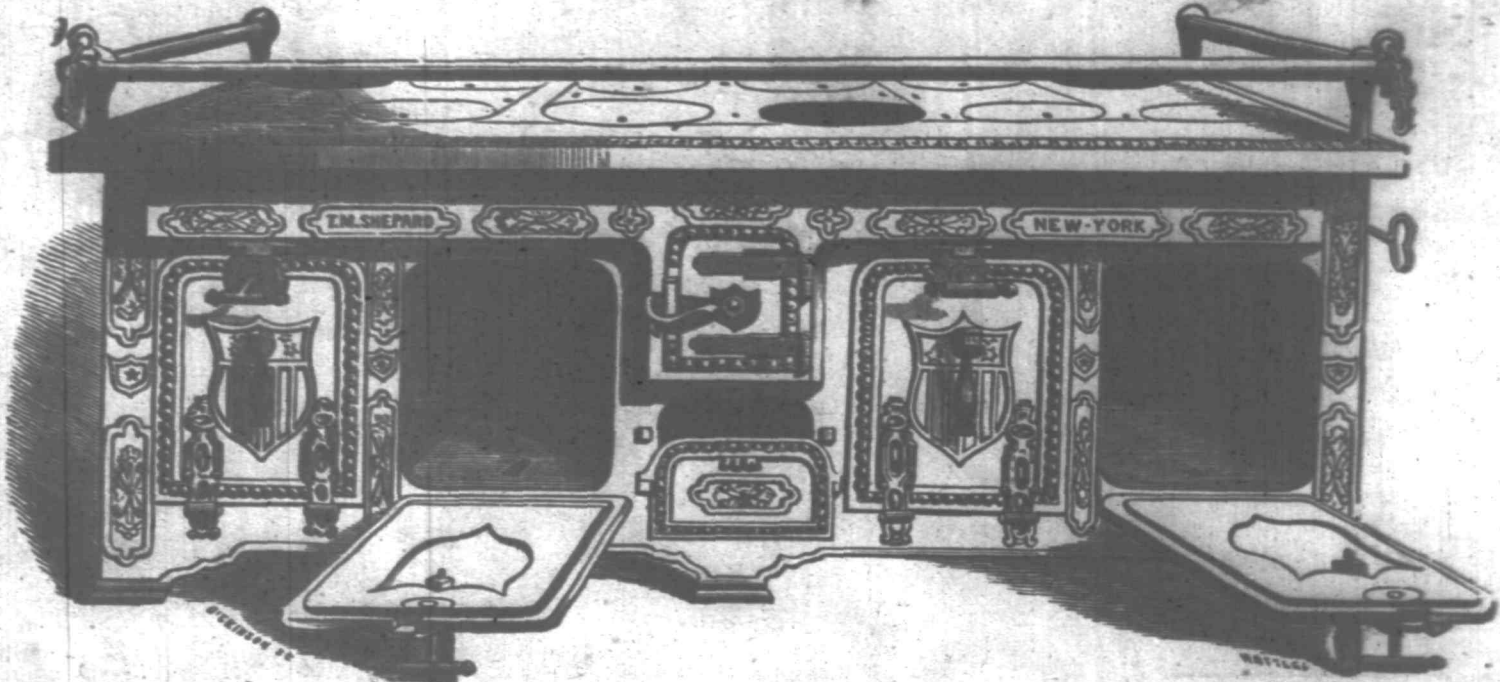

## The Pioneer—Cunard Pattern.

Their success on the Pacific Mail. The best article for Ship's Cooking ever manufactured. They never fail. Copper, Tin and Iron Wares, well manufactured and strong, suitable for ship use, furnished with dispatch. Repairs attended to on Ship-board of all Galley and Pantry Vessels.

Baker's Ovens—Three sizes for Steamships. Cabin Heating Stoves—Various patterns.  
**SHEPARD'S STEAMSHIP, AND SHIP CABOUSES,**  
ALSO, ALL SIZES FOR SMALLER VESSELS.

Twenty Sizes of superior Caboozes. Collins, Charleston, Savannah, and other Lines, attest their merit. Copper, Tin and Iron Wares, well manufactured and strong, suitable for ship use, furnished with dispatch. Repairs attended to on Ship-board of all Galley and Pantry Vessels.

# STEINWAY & SONS' PIANO-FORTES.

EXTRACT FROM OFFICIAL REPORT

OF THE

## INTERNATIONAL JURY,

UPON

## Musical Instruments,

AT THE

EXPOSITION UNIVERSELLE, PARIS, 1867,

**BY M. FETIS,**

REPORTER OF THE JURY.

## GROUPE II., CLASS X., PIANOS, 1868.

The Pianos of Messrs. STEINWAY & SONS are equally endowed with the splendid sonority of the instruments of their competitor; they also possess that seizing largeness and volume of tone, hitherto unknown, which fills the greatest space. Brilliant in the treble, singing in the middle, and formidable in the bass, this sonority acts with irresistible power on the organs of hearing. In regard to expression, delicate shading, variety of accentuation, the instruments of Messrs. STEINWAY have over those of their American competitor an advantage which cannot be contested. The blow of the hammer is heard much less, and the pianist feels under his hands an action pliant and easy, which permits him at will to be powerful or light, vehement or graceful. These pianos are at the same time the instrument of the virtuoso who wishes to astonish by the eclat of his execution, and of the artist who applies his talent to the music of thought and sentiment, bequeathed to us by the illustrious masters; in one word, they are at the same time the pianos for the concert-room and the parlor, possessing an unexceptional sonority.
