EXTRACT FROM OFFICIAL REPORT
OF THE
INTERNATIONAL JURY,
UPON
MUSICAL INSTRUMENTS,
AT THE
EXPOSITION UNIVERSELLE, PARIS, 1867,
By **M. FETIS, Reporter of the Jury.**

GROUPE II., CLASS X.,
PIANOS,
1868.

The Pianos of Messrs. STEINWAY & SONS' are equally endowed with the splendid sonority of the instruments of their competitor; they also possess that seizing largeness and volume of tone, hitherto unknown, which fills the greatest space. Brilliant in the treble, singing in the middle, and formidable in the bass, this sonority acts with irresistible power on the organs of hearing. In regard to expression, delicate shading, variety of accentuation, the instruments of Messrs. STEINWAY have over those of their American competitor an advantage which cannot be contested. The blow of the hammer is heard much less, and the pianist feels under his hands an action pliant and easy, which permits him at will to be powerful or light, vehement or graceful. These pianos are at the same time the instrument of the virtuoso who wishes to astonish by the eclat of his execution, and of the artist who applies his talent to the music of thought and sentiment; bequeathed to us by the illustrious masters; in one word, they are at the same time the pianos for the concert-room and the parlor, possessing an unexceptional sonority.
