There can be no question that the paper the Mayor signed was the amendment eight hundred and thirteen men, three and that the whole proceeding is irregular. However, we are informed that Dr. Allers is already sworn in and this being the case he Mayor Means of Cincinnati, is at it can only be removed by judicial proceedings.

In addition to these there is a wellleaded leading editorial, nearly half a column long, which starts off by stating that "there can be no question of the fact that Dr. Allers is ineligible to the ders around the Court House on the position." The many-tongued editor was also "constrained to believe that interruptedly through a crowd.—Hudson | Mayor Besson committed an error in judgment," etc. Again, he writes:

"With all due respect to Mayor Besson, we cannot help expressing our surprise at the sanction of the appointment of Dr. Allers be fore making himself acquainted with the ordinances governing the office."

(With all due respect to Mayor Besson, we cannot help expressing our surprise that that learned gentleman, who has been Mayor before, should be ignorant of said city ordinances.)

How beautifully consistent are these several paragraphs! How clearly and concisely the story is told; and how

wonderfully logical are its deductions! In the same issue. Dr. Allers is and is not elected; the appointment may be illegal and then there is not a shadow of a doubt that it is illegal; will the Mayor approve? He has already approved. As Dr. Allers is already sworn in he can only be removed by judicial proceedings, and then again, "It is fortunate that What with the Passalc water unfit to the proceedings were irr gular so that the drink and bier likely to become scarce, Council will have no difficulty in making another appointment," etc. But "the plot thickens," and we confess to our inability to follow out its subtile windings. It is too deep for us. So proud are we of our rival (?) journalist, that we would advertise him abroad by sending we protest that, in so far as intention is Bennett: but Hoboken cannot afford to lose his valuable services, so we refrain.

That was an amusing scene in the Council Chamber, on Tuesday night, when the City Physician business came up for discussion. But, at the same time in our merriment at the absurdity of the arguments brought forward, we should not lose sight of the serious nature of the question the learned Council had under debate. The real question is, who is City Physician? The Council at its previous meeting only carried an amendment to an amendment, that Dr. Allers' name be inserted in the resolution in place of Dr. Kudlich's. We have been notified, not officially, that ex-Judge William T. Hoffman, may possibly, ere long, commence a suit public into the grave error of mistaking the one for the other. The ex-Judge has been frequently annoyed by the question: "What have you been doing to the Advertiser people, that they should pitch into you so?"

We regret exceedingly that our language should not have been sufficiently explicit to preclude the possibility of any such confusion. And, while we acknowledge that the indirect insult is ufficient ground for the Judge's anger, concerned, we are entirely innocent. PASSAIC WATER.

Condition of the Water we Drink in Hoboken Some Proposed Remedies.

The trial of the Kingslands, paper manufacturers, for alleged pollution of the Passaic River, above Newark, has brought out some tion of the water which the citizens of Jersey City, Newark and Hoboken are supposed to drink. It is no news to our citizens, that Passaic water is unpalatable, for so long ago as 1874, one of our local poets (at the College) sang in this strain, of Hoboken:

"Where lager beer in glory reigns, And water every one disdains; And truth to say, its right they should,

For I use the mildest term I could, Passaic water isn t good!"

True, we know the water isn't good; but w have not always known that it was thick with refuse chemicals, dead animals and fish sewage, gas, tar, etc. Yet this is now undoubtedly the fact; proved by the testimony of credible witnesses in the trial above men tioned. The City Surveyor and Engineer of

Possibly the very fact that the dumping of carbolic acid into the Passaic, for which the Kingslands have been prosecuted and convicted, has, in a measure, prevented disease from being swallowed wholesale by our citizens all this time, but that is a doubtful point that experts will have to decide. The fact is that Passaic water is becoming unbearable, remedy this evil. A plentiful supply of pure of news, which have appeared in their water is essential to the health of the comcolumns; but now, when, in an editorial munity and we must have it. If it cannot be obtained from the present source, then it is high time that the Board of Water Commissioners take measures to provide a new source

Last summer the quality of the water was very bad, and citizens who lived off the main streets suffered from this cause. On the main worse every day, so that the poet we have just quoted could, with truth, say the same thing now in regard to the reign of "lager." The subject has already been agitated in measures talked of are two propositions, both of which mean a change in the source o

The first is, that wells be driven, and this idea has so far taken hold of the City Fathers lent color to the false reports in New that the Board of Tax Commissioners have appropriated the magnificent sum of \$250 for the purpose of experimenting with this idea. 'runs down" the city of which he is This may be enough. We hope it is. We must wait for the result of these experiments foreign newspaper reporter should set before we enter into a discussion of the merits him a good example in that line. The of such a source of supply. Hoboken now con-Telegram, editorially, states that we have sumes 1,800,000 gallons of Passaic filth per day, costing the city about \$80,000 a year. Pindar was and is City Physician, until Our present contract with Jersey City (by minute's allowance. The start was a flying in. Prof. Neusam performed the arduous vember, 1882.

The second proposition, in the light of present circumstances appears feasible, though of course, it also needs careful investigation as well as the other. It comes from the Hackensack Water Company, which culation of these false reports, except proposes that it shall erect, at a cost of about the employment of a reliable reporter \$1,250,000, suitable with and contract to supply the city with water from the Hackensack river. Bringing the water from a point twelve miles distant, at least four miles above the city of Hackensack which is above tide water and above any large settlement on the river, no sewage can effect it, and the freshest water can be obtained. The company offers against the Advertiser for malicious with the privilege of purchasing the works at to supply the city for a period of ten years, libel. The trouble seems to be that in our allusions to Al. Hoffman, of the of that time, if desired The cost of the water Democrat (Rep.), which have not always been complimentary, we have lead the casack can supply a absolutely unlimited

quantity and the water will be pure. The Water Commissioners went to Hackensack on Wednesday to confer with the Water proceedings of which could not be obtained in time for publication.

FRUSTRATING CONVICTS' PLANS. Jailer Allen Detects a Plan to Break

On Tuesday, by the timely discovery by Jailer Allen, of a plot of some of the convicts in the Hudson County Jail, the escape of a number of them was prevented. She was detained until late in the evening, when at her earnest prayers to be allowed to return to a sick child, she was released.

After a thorough search, a knife of fine steel, with the edge neatly nicked, so as to inswer the purpose of a saw, was found in an unoccupied cell. Van Vorst admitted his part in the plot, but declared that none of the prisoners were concerned in it. This is not believed by the prison authorities, however, who suspect that Van Vorst was made the tool of the other prisoners, because his suroundings were such as to make him less liable to suspicion than many of them. The plan was, of course, to saw through the iron bars; to paint the point of filing so that if could not be seen; to putty the filed bars until an opening of the needed size had been made, and at the opportune moment to have made a break through the opening to the yard below. Jailor Allen deserves credit for his timely discovery and interference.

REMODELING ODD FELLOWS HALL.

Over \$12,000 Worth of Improvements to Be Made---The Contracts "Kept in the Family."

The work of remodeling Odd Fellows' Hall. which was commenced on Monday last, s going rapidly forward, and will be completed in about three months. The hanges to be made are important and extensive. The ball room, which is now too small to answer the purpose for which it was intended, is to be enlarged, taking in the entire second floor, the full size of the building. For the accommodation of the orchestra, a suspended balcony will be built against the wall, where the musicians will be out of the way of the dancers. On the upper floor two large lodge rooms are to be prepared and the building throughout to be provided with all the modern conveniences.

Washington street entrance, is to be fitted up into two large stores to run the entire length of the main building, and the saloon now occupying the Washington street side is to be moved around to the Bloomfield street entrance. These various improvements will be made at a cost of about \$12,000, which amount four Egyptian mummies, 3,000 years old. has been loaned by the First National Bank. as a first mortgage on the building. There will be a considerable addition to this expense incurred in fitting up and furnishing the two new lodge rooms, but the members have the promise of a further loan of \$3,000 from the bank, as a second mortgage, should they deem it necessary to raise that amount

The association has, very wisely, kept all the contracts for these changes "in the by a glazier in Washington street, for this infamily." That is, all the contractors are teresting occasion. Among the notables members of the lodge, and good Odd Fellows. The list of contractors are as follows: Mason work, Wm. Field; carpenter, Wm. Hammill; J. O'Donnell, J. Evans, Dick Paust, Geo. Besplasterer, Justin Jones; painting, Geo. Henlon, and roofing, Timothy Dorsett.

An Exciting Regatta.

The tenth annual regatta of the New Jerse Yacht Club last Thursday, proved one of the most exciting and interesting contests witnessed for years in this section. The Emma and Evadue had been withdrawn and the Letitia transferred to class A., with eight until opposite Bay Ridge, making good use by Captuin Billy Woods. The Estelle, with aptain Isaacs in charge, crawled up and was the first to round the buoy, followed by the next to go around, the scene being the most exciting of the race with the five crack 'uns the triumph they achieved. of the club almost in a bunch. The Minnie haha, Captain Curtis, showed up next, with the Admiral Birch, Captain Rogers, only a minute later, and the Pauline, Freddie and Arcola following in the order named.

The Class D boats, comprising the F. L Sheppard, handled by Captain Goetschens, Lillie, by Captain Edmonson, and the Flirt, by Captain Korff, had already rounded Fort Lafayette. Contrary to the prophecies from the knowing ones, the Letitia, in Class A, won on a time allowance of eight minutes from the Estelle, beating the latter 2 min., 40 sec. The Meteor proved the champion in son, visited this city on Thursday, calling on Company, and last wight held a meeting, the Class B, leaving the Dare Devil by 1 min. 35 Superintendent Rue at School No. 1. sec. In Class C, the Pauline proved her superiority over the Freddie by 24 min. 38 Deacon's orders on Brother Albanus, of the sec., and in Class D, the Lillie vanquished the Passionist Monastery, West Hoboken. Sheppard, with only 25 seconds to spare

The Arcola had a t put in an appearance when the judges' boat started homeward. Messrs. T. P. Rogers, T. Butts and G. E. Garland, acted as judges, with E. W. Ketcham, . W. Rodenberg and Dr. H. J. Stebbins Jr. a regatta committee. The steamer Only Son ecompanied the boats over the course. The weather was not favorable by any means for guests, but was just the thing the "amateur mariners" most desired. A grand "spread," at Rodenberg's Hotel, was heartily enjoyed by the yachtsmen and their friends, after the boats, etc., had been put in "ship shape."

A Mystery Partly Explained.

Some few weeks ago, Miss Kate Doyle, at the suggestion of some members of the Board Harrison policy detler, has been visited daily of Education, tendered her resignation as a teacher in School No. 3, which was, of course, promptly accepted, under the circumstances The young lady had declined to enter an ex amination, which took place about the first of the present month, giving as her reasons that she intended shortly to become a bride. The Thursday following her resignation she mysteriously disappeared from the parental mansion, leaving no word as to her intentions or to where she was about locating, excepting to a lady friend, whom she bound to secrecy The fact of her leaving school against her wishes, besides a peculiar financial transac tion, in which she is said to be concerned, and the rather abrupt departure, caused very numerous and vague rumors to fill the air, such as elopement, suicide, gone to join ber over, cruel parents, etc. Our reporter, after investigating the case,

on the assurance of the girl's mother, is in a position to state that the cause of the trouble she received a letter from Chicago last Saturday forenoon in her daughter's handwriting.

This church is in the midst of prosperity greater than it has ever enjoyed. More seats are now rented than ever before; the Sunday School is large and efficient. Over one hundred and twenty-five new members have been added to the church during the pastorate of the Rev. Mr. Lowrie. There are but few churches that can show such growth in two years. It is the cause of great distress among the members of this church that the law of the Conference is such as to take Mr. Lowrie from them next spring, three years being the limit to a pastorate in any one place.

Rare Relics Resurrected.

Last Monday afternoon a grand exhibition vas held at the rooms of the Equitable Social Club, corner of First and Bloomfield streets, consisting of anatomical and historical curi sities, obtained from the ruins of a barber shop in Newark street, some of the rarest and most priceless specimens in existence being included in the list. Civil Service Reform --- How it Some

times Works.

To the Editor of the Advertiser:

SIR The difference between theory and practice is adequately illustrated in the operations of the New York city post-office department. The first sample of Civil Service Reform was Thomas L. James, who was made postmaster simply because he had been assistant postmaster. He displayed no ability as assistant postmaster. He was positively the worst postmaster New York city has ever been burdened with. Under his administration, making due al-

lowance for increase of population, there was more netty thieving by carriers and others. and more blundering than ever was known before. The records will show this very plainly. Yet some people are so blinded by partisan politics as to really believe that James had some merit as postmaster, although they cannot show a single instance of his superiority, or even fitness for the position. He overworked some of the clerks thus injuring their capacity to perform their regular duties. He established a false system of economy, and nearly all the departments under his control were in constant confusion, and con lucted with feverish haste.

He robbed a patentee of his rights in an invention for cancelling stamps and then sought to throw the burden upon the Government. A lawsuit ensued, and the court de cided that Mr. James must pay the \$63,000 due the patentee, out of his (James') pocket. The money has not yet been paid by any body. Is this the kind of man we ought to have as Postmaster-General? Yet this is Civil Service Reform. The present postmaster of New York city stepped into James' shoesstepped into the previous postmaster's shoes -according to the rules of Civil Ser-

The new postmaster, Mr. Pearson, who was assistant postmaster under James, is already making himself ridiculous in all direc tions. Unfortunately I have only time this week for one instance of his stupidity. He has abolished the very simple and excellent system of allowing depositors of letters to assist in assorting the mails by dropping their letters into boxes marked with the names of the different States and Territories of the Union, thus facilitating the work of the clerks and hastenting the departure of letters. The drop-boxes are now merely labelled "Out-going Mails," and letters for Nebraska, Maine, etc., are dropped into the same box thus giving the clerks four times delaying the mails. Can anybody show the slightest merit in this new arrangement? It is true that under the old arrangement, many letters were deposited in wrong boxes and the clerks were obliged to look at every lette. instead of depending implicitly upon its having been dropped into the right box, but it was a far better arrangement than the present one, which gives the clerk no relief whatever and certainly compels him to take

a longer time in assorting the mails. Under the former arrangement not more than one letter in a thousand was dropped into the wrong box. People were anxious for their own sakes to drop their letters into the right boxes. Now all boxes are as one: The only design of the new postmaster seems to be to create a sensation -it matters not how

Misrepresentation.

HOBOKEN, N. J., June 8, 1881.

Editor Advertiser: From time to time, and of late, with surprising frequency, articles have appeared in the Evening Telegram of New York, containing manufactured reports of alleged abuses existing in this city. Occasionally, these statements have had slight foundation in fact, but oftener they have been made up of "whole cloth." without a shadow of truth

from beginning to end. On three seperate occasions in as many weeks, the Telegram has printed the statement that teachers and scholars in public School No. 3, were contracting deadly dis eases from the fearful stenches that existed in the immediate neighborhood of the school building. The last publication of this story appeared in the Telegram of June 4th. It is almost unnecessary to state that the stench referred to, although disagreeable, was never of a dangerous nature, and that there is not, nor has there been, a single case of sickness reported as resulting from this cause, among

the inmates of School No. 3. The real facts of this case I have read in the ADVERTISER, and can say that they agree with the results of my personal investigation in the matter. The New York paper represents Hoboken as a filthy mud-hole; reeking with pestilence; unfit for human beings to dwell in, and likewise announces that it is the most mis-governed city in the Union. These accusations are false; and, appearing in a paper supposed to be reputable, are calcu lated to mislead the public. Abuses do exist in this city, as they do in all cities, but by no means to such an extent as the Telegram would have us believe. Such misreprese tion is an injury to the city. It will tend to prevent people from settling here; thereby

depriving the city and people from deriving such benefits as would naturally accrue from an increase in the rent and tax-paying popu-

repeated circulation of these false reports? What is the meaning of these unmerited attacks by the New York press?

HANDSOME PRESENTS. Glassware, Crockery, Vases, Chromos etc., given away to all patrons. Is it is the saying of many, that our system of tiving away presents is simply a fraud, and that we are only humbugging the people. If we were a small concern, this argument might be considered rule. But taking into consideration the magnitude of our business, (having now over ONE HUNof our business, (having now over ONE HUNDRED BRANCH RETAIL HOUSES in the U. S.), you will easily see that a small per

the U.S.), you will easily see that a numer po-centage of profit on our enormous sales amply pays us, and enables us to deal more liberally with our customers than any other concern in the . S. All to ask is a fair trial, and if the goods are no ound to be as represented, the money will be re
