HOBOKEN, AUGUST 13, 1891. Official paper of the city of Hoboken. Circulation second to no other weekly journal in Hudson County.

The President continues to convalesce. He has been able to sit up and write to his mother.

The Democratic Mayor of Philadelphia has appointed a number of colored men on the police force of that city.

"Besson's Pen is Pegging Out" will be the title of the next street ball. He only got in two votes this week.

Dr. H. Allers remonstrated with the Council for treating his claim to the City Physician's salary so unceremoniously.

The poor ex-President Grant has bought a \$93,000 house in New York city. It is a four-story, brown stone front, 80 feet deep and 87 feet wide.

Through tickets from Chicago to New York were sold in Chicago on Monday for ninety-five cents, and yet all Chicagoans have not emigrated to New York.

The Parry House, Beach Haven, on the Jersey Coast, was burned Thursday morning, at a loss of \$65,000. Three hundred guests lost everything but their lives.

Councilman Lee, of the "Special Committee of Investigation," appointed to inquire into the possibility of bribing any member of the Hoboken Council, reports progress.

Lannigan has sent in another application for a license, the Council granted it and the defeated "candidate," Mayor E. V. S. Besson, will have to repeat his little veto act within ten days.

This has been a good week for the dog catchers, but a poor one for the homeless cur. Forty-three canines, according to the claim of the Pound-keeper, have given up the ghost at the expense of the city.

Cornell has suffered another defeat. This time the blame is laid on Shinkle, of the Cornell crew, who gave up rowing on account of a cramp in his stomach, when the Vienna men were four lengths behind.

What an immense amount of good (?) has been done the poor by the two rival claimants of the City Physicianship, in addition to City Physician Helfer's services. Mrs. Bindler and Allers have attended about 500 cases between them, according to their respective "reports."

There seems to be no "searc" in the small boy of to-day. It is undoubtedly true that sharks abound in the Hudson and that the small boys know it; yet there is no decrease in the number ofurchins who bathe in its waters daily, fearless alike of the sharks or the officers of the law.

A resolution to award the contract for lighting the streets at \$100,000 per year for five years to the Brush Electric Light Company, was offered by Councilman Miller, on Tuesday night, but was withdrawn at the request of the Committee on Lamps and Gas, who promised to report at the next meeting.

THE HEATING APPARATUS AT SCHOOL NO. 4.

At a special meeting, called for the purpose, the Board of School Trustees on Monday night considered, and attempted to take action, upon the report of the Committee on School Buildings and Furniture, in relation to the repairing of the heating apparatus in School No. 4. Trustees Kerr and Anderson, of the Committee, reported in favor of granting the contract to Baker, Smith & Co., of New York, for \$1,193. A bid from Farrer & Garretson, of Jersey City, to do the work for \$875, received no consideration whatever from the Committee. This was pointed out by Trustee Reid, and an argument ensued, in which Messrs. Kerr, Anderson and Beltz endeavored to prove the advantages of awarding the contract to the highest bidder. To these gentlemen, for some unexplained reason, a saving of \$318 to the city was no object. Being put to a vote, the motion to give the work to the highest bidder was lost, the disinterested trio alone voting in support of it.

The matter of repairing the heating apparatus therefore stands as before. The amount of money already expended on this particular apparatus is largely in excess of the benefit derived. The original appropriation for the purpose of putting it into the building was \$2,000. The Trustees had under consideration a bid to do the work for \$1,750, and had about decided to enter into a contract at that figure, when the architect interfered, succeeding in convincing the Mayor and Council that the proposed plan, not being in accordance with his ideas, should be abandoned, and his suggestion of heating by "indirect radiation" should be adopted. This was carried into effect; was a complete failure, and the consequent repairing and jobbing raised the cost up to about \$3,000, or \$1,000 in excess of the original appropriation. The apparatus, as it now stands, is still a failure; does not stand heat enough, and it has been finally decided to go back to "first principles," and heat the building by "direct radiation," placing a coil of pipe in each room. This is the business now before the Board of Trustees.

What should have been done at the beginning is to be done now, and the trio above referred to, are anxious to spend \$318 more than is necessary for the purpose. If there was any "job" in the affair, it has been effectually killed by the vote on Monday night; but as the matter now stands the work cannot be done before the school session opens again, as new bids will have to be received and acted upon. The work should have been done during vacation, and the Board deserves censure for delaying the matter so long.

WHO SHALL HAVE THE MONEY? The Mayor's course of late began to show evidences—very slight indeed, but nevertheless evidences—that there was some common sense left in his "make up." He wrote a sort of sensible veto this week, and yet, with almost the same stroke of his pen, he wrote a refusal to sign the claim of City Physician Helfer, showing one of two things: That the Mayor is either a fool or a knave. Even his enemies admit that he has brains somewhere; we must therefore conclude that he cannot be sincere.

Crediting him with the ordinary reasoning powers of the average school boy, he cannot believe in the absurd claim which he encourages Dr. Allers to make on the office of City Physician. It is useless to repeat the arguments so often put forth in these columns, and which have been endorsed by the opinion of the Corporation Attorney, in regard to this City Physician's business. Dr. Allers was never appointed City Physician, and consequently cannot receive the salary of that office. That he has performed the duties of the office whenever he had an opportunity, gives him no title to either the office or the pay.

In his veto the Mayor alludes to one of the Councilmen, who formerly voted to sustain him (Besson) in his claim for Allers, afterwards voting for the payment of Dr. Helfer. Does it seem strange to the Honorable E. V. S. that a man should be honest enough to rectify a mistake when it has been pointed out to him? Besson himself, though a very "spunky" Mayor, evidently has not the manliness to act in a like straightforward manner; even his superb egotism cannot blind him to the fact that he is in error in this matter.

His "shot" at the City Clerk, in the same document, was a piece of uncalculated meanness. The Mayor closes by saying that Dr. Helfer shall receive no pay for services by his aid. As City Physician, Dr. Helfer is the only man who can legally receive that pay, and the Mayor, by his "stagnity," will probably put the city to the expense of not only paying out the money, but the costs of a law suit besides.

NO DRINKING FOUNTAIN. One of the two vetoes sent into the Council, on Tuesday night, related to the action of that Board, at a previous meeting, in deciding to build a drinking fountain in Hudson Square Park, cost not to exceed \$100. On its face this action seemed to have been a wise one. A public park certainly should be provided with an easily accessible supply of drinking water, and the City Fathers would be justified in expending \$100, or even more, for that purpose.

But his Honor the Mayor, in another fit of forgetfulness, or sanity—which it is to offer objections. He stated that there had been a drinking fountain in the park, which, as it had proved a nuisance, had been removed by a former Mayor and Council. "These fountains," said Besson, "afford places for children to 'muss' in, and have 'mussy' surroundings." The expressions are home-

ly, but true. Then the water was unfit to drink in summer and would invariably freeze up in winter. In a word, drinking fountain was useless. A full and practical suggestion was made in the last remark in the veto, which was that a supply of ice water in Hudson Square Park, during the hot weather, would conduce to the happiness and convenience of the citizens. The hint is not entirely original, as we have heard of people drinking ice water in warm weather before; nevertheless, it is worthy of consideration by the Council. Of course, the drinking fountain in Church Square Park, where hundreds of people dose themselves with Passaic water (?) every day, should give place to an ice water tank also.

THE YOR-TOWN CENTENNIAL.

An Agreement and Arrangement to be Proposed at Once. On Tuesday, July 22, with the Congressional Commission on the Yorktown Centennial Celebration, the Yorktown Centennial Commission, and the Yorktown Centennial Association, a final agreement. The president, general superintendent and secretary of the association were present at a meeting of the Congressional Commission, held at the Capitol on the above date. Temple Farm, the property of the association, has been accepted for the military encampment, and placed in charge of Col. Oran of the United States Army, who will occupy out the ground in streets for a site, allot the portions for the troops and militia, and arrange for the distribution of water, etc. Whatever is to be constructed for the accommodation of all vessels which may be present.

FOREIGN CORRESPONDENCE. (By cable to the ADVERTISER.) PARIS, August 11.—As stated in my last, I started after "Polly" as soon as I learned his destination. By good luck I overtook him on the road, and we came here together after a little delay on account of our passports. We engaged apartments at Rue Mersenne No. 16. His misfortune at Berlin quite subdued him at first, and he commenced taking in the sights very quietly and without any fuss and feathers. He was really quite companionable for a short time, but the effect of his sudden "come down" is gradually wearing off. You cannot imagine how much good it did him, and I assure you that a few more such doses would make a man of him—at least that is my belief. But he is beginning to court the swells again; his passion for notoriety is getting the better of him, and I am no longer a welcome companion anywhere outside of our rooms. He even talks of leaving me and taking rooms in a more high-toned neighborhood. He has written several "puffs" on himself, which he wanted me to use in some of my letters to home papers (not dreaming that I am connected with the ADVERTISER). The following is a sample: "Albert Hoffman, the brilliant American journalist and learned linguist, was one of the distinguished guests at Mme. de's reception on the 3d inst. He is becoming the fashion again and I fear it is my duty to 'spring' a few more copies of the Democrat (Rep.) on the public in order to prevent society from spoiling him."

COLLISION ON THE RIVER. Narrow Escape of the Thos. Collier—Excursionists Frightened but Not Hurt. A number of excursionists, composed largely of women and children, boarded the steamer Thos. Collier on Thursday morning for the purpose of enjoying a trip to Rockaway Beach. The Collier steamed down the river until nearly opposite the slip of the New Jersey Central Railway ferry, when the ferryboat Communipaw moved out of the slip, and before the Collier could get out of the way, struck her almost head-on, in the right wheel-box.

ST. GEORGE'S VS. AMICUS. More Good Bowling—Victory for the Home Club. On Tuesday another fine cricket match was played on the St. George's Grounds, between the second eleven of that club and a number of members of the Amicus club of Philadelphia. The home club scored another victory, defeating the visitors by 18 runs in the first innings. The number of spectators present, by far exceeded that of any other game played on the St. George's Grounds this season, the representation of ladies being especially large. The home side did some fine bowling, that of Mr. Herbert Campbell being exceedingly effective. He succeeded in taking 7 wickets at the expense of 22 runs. Appended is the score:

Table with columns for ST. GEORGE'S and AMICUS, listing players and scores for both sides.

The Constitutional Amendment Commission. The Commission appointed by the New Jersey Legislature at its last session, to suggest amendments to the State Constitution, met on Friday, August 5, in the rooms of the Newark Board of Trade. Chairman H. N. Congar and Commissioners Thomas N. McKean, Garret A. Holart, John J. Gardner, Harrison Van Dune and Holmes W. Murphy were present. The judicial system of the State was considered, and several conspicuous lawyers presented their views.

The Eight-Oared Barge Race. The long promised boat race between an eight-oared barge crew of the Valencia Club, and one from the Hudson of Jersey City, came off at the Elysian Fields, on Saturday evening. A goodly number of people occupied the boat houses and the neighboring docks, to witness the contest, expecting a lively race, but were doomed to disappointment. The course was three miles with a turn halfway, being from Twelfth street dock to Dry's Point and back. The start was a fair one, but the two boats had scarcely pulled a hundred yards, when Mr. Offenberg, of the Valencia crew, missed his stroke and broke the car-look, thus disabling the boat. The Hudsons then pulled over the course for the prize. The Valentias sent a challenge to the Hudsons for another race, to take place early in September.

THE YOR-TOWN CENTENNIAL.

abing them to make a street display surpassing anything ever witnessed. They have no old worn-out show property worked out. The great aim of the managers has been to present something new, attractive to the eye, and of the most striking character that they have succeeded in so doing. It is evident from the unanimous verdict of evaluation received from the public press.

THE DRAINAGE CONFERENCE. Improving the Meadow District by "Gas." Another Thursday evening has been wasted in useless talk at the Council Chamber. The three of improving the meadow district by "gas" was re-considered, and the audience, composed almost entirely of those opposed to draining, were only willing to listen to their own "chin music" on the subject. The same speakers on this side went over the same ground as before, bringing up no new points bearing on the subject. In previous meetings they confined themselves to the same wild assertions without any supporting argument. Nothing was proven by the talk except that the majority of the residents of the meadow district were opposed to the pumping. For no reason except this, the Board of Councilmen, with the exception of one or two members, is in favor of taking the popular side of the question. With them it is now a matter of political strength; improving the meadow district is a secondary consideration.

The home side did some fine bowling, that of Mr. Herbert Campbell being exceedingly effective. He succeeded in taking 7 wickets at the expense of 22 runs. Appended is the score:

She only received \$4 per week from her husband and was able to make but from \$7 to \$10 a week by sewing. Summer Resort Notes. It is now the height of the season at Long Branch. Mrs. Russell Hancock, of Governor's Island, is at Long Branch. Coney Island is celebrated for its good works—fire-works.
