THE BOWERY A CENTURY AGO.

some of the Old Landmarks of New York's Famous Thoroughfare.

it is hard for the passer-by to realize that less than two centuries have elapsed since this busy mart with its ever shifting crowds was yet an almost unknown pathway, trod only by the savage or by wild beasts. Indeed, the beholder can scarcely recognize the fact that even at the beginning of the present century the Bowery above Broome street was only a dusty country road, with here and there an old-fashioned farm-house to show that civilization was advancing.

Toward the close of the seventeenth century, this thoroughfare was used as a road to reach the distant hamlet of Harlem, and it led through dense woods. On the road near the Governor's farm, on the Bouwery, as it was then called, a small settlement sprang up, and near by was the well-known tavern of an old this "hostelrie" that the worthy citizens of New York, who now go out to sea in their yachts when they desire a first-class "spree" were wont to resort to have a good time. Here there was freedom, and they could do as they pleased, and many a rough-and-tumble fight took place within the walls of the old tavern. Here, too, many of the young bloods were accustomed to congregate and Commissioner Olliffe. Near Broome make vehement protestations of love to street was the oyster saloon of Gus Ratz, Jansen's ruddy-cheeked daughter, only at that time the most popular resort on ladder was ever given. On one occasion, to receive a witty answer. Between this the Bowery. The oyster saloons of that Monroe Edwards, the cultured forger, place and "the town" were two other day were generally located in the basesmall taverns, while at the foot of the street-or road-was the tavern of Wolfert Webber, which was built in 1648, and around which many a desperate conflict with the savages had been

A hundred years later there was but slight change in the aspect of the Bowery, and as late as 1801 spreading fields and blooming orchards extended away to the north of Broome street. Opposite Bond street stood the large mansion of Andrew Morris, and a short distance farther north was the Minthorne mansion and the homes of John Jacob Astor and William Neilson, while a mile distant was the "Krom Messie," since modernized into "Gramercy," which received its good old Dutch name from its resemblance to a krom messie, or shoemaker's knife. Whether the worthy burghers of New Amsterdam had a premonition that at a future day this spot would be the home of a statesman who has badly "cut" his party and hence gave it its name is not known. Along the "Bouwery" was the celebrated orchard of Steenwyck, whose life was rendered miserable by the attacks made on his delicious apples by the gamins of that period. At this period-1801-the great teaming City of New York was a mere village in comparison to its present extent. The city proper was bounded by Anthony, Rutgers and Harrison streets and the rivers. It was only a few years previous that complaints had been made to the authorities that the water carts standing on Chatham street waiting their turn to get water at the old Tea Water pump were a serious obstruction to pedestrianism. This same pump was afterward raised two feet to oblige the cartmen.

Away up the Bowery, near St. Mark's. was the old Two-Mile Church, an edifice devoted to the use of the up-town Methodists. Life at this period in the City of New York was truly Arcadian, the population being, as late as 1814, only 92,000, including 1,000 negroes. About the same to accept a gift of six acres on the Bowmen, with their vehicles loaded with wood, were accustomed to await purthey bore on their shoulders. But even forty years ago the Bowery gave no evidence of its present popularity. At this time the old Amphitheatre disconnected with the suggested while lie was patroling, day after day, in front of Murderers' Row. If he ever and under sentence to be hanged, there

Another popular resort was the Vauxhall Gardens, situated on the Bowery, near Astor place. Since Warden Finn has taken charge of the institution, over 50,000 prisoners a year have been incarcerated in the Tombs, and yet very few accidents have taken place during his time. > and Winnie McCain. Each one wore a cream colored dress with red trimmings. The dresses were just brief enough to display a few inches of red stockings, some neat, well-turned ankles, and forty high-heeled slippers. The "privates" wore red dust-pans at their belts, ornamented with the letters "D. G." in white. What the "D G." meant did not transpire, but we heard an impressionable young Freshman in the audience whisper "Darling Girls," so we concluded that he knew. Brooms took the place of muskets. They were ornamented with red cloth and the initials of their owners embroidered in white. The officers carried feather dusters in lieu of swords. The bri gade marched and counter-marched, ordered arms and carried arms-in fact, they went through the manual of arms and all the evolutions that a crack militia regiment is supposed to be proficient in, and went through them all well. # No. 3 Engine's Annual Jollification

The annual picnic and summernight's festival of Meadow Engine Company No. 3, took place at Weber's Winter Garden, on Monday evening, and was one of the most successful and enjoyable affairs of its kind that Hoboken has ever seen. The spacious garden and dancing hall were crowded and everything passed off admirably. There were a number of city officials and prominent citizens present. The dance music by Prof. Davis' orchestra was excellent, and the floor was crowded till an early hour Tuesday morning. The picnic and festival was well managed by the various committees, the members of which deserve the thanks of the guests. Henry Thompson was floor manager, and Peter Kerrigan his assistant. The floor committee consisted of Charles Sipple, John Nelson, James Harksen and John Cronk, and the committee of arrangements D. H. Mahnken, Fred. Jurgens, Wm. Meicke, Peter Kerrigan and J. M. Armstrong.

# Settled at Last.

Our readers will doubtless remember that Fa in 1879, one Mrs. Katrina Stopf was arrested in this city for libel, was indicted in 1880. Since then Mrs. Stopf took action against Mr. Bretzfeld, a lawyer of this city, claiming that he had wheedled her out of \$40, with which to influence Prosecutor McGill to let the case go by default. Mrs. Stopf, in the General Sessions, where the case was called for trial last Monday, swore that Mr. Bretzfeld told her that unless she paid the \$40 hush money for Prosecutor McGill, she would be sent to jail for six months and be find \$75 or \$150; she also stated that she paid Mr. Bretzfeld the \$40. On cross-examination the witness denied the authorship of several letters produced by the defense. Prosecutor McGill took the stand and emphatically denied that he had ever spoken to Mr. Bretzfeld or any one else in reference to having the case settled without trial. Albert Hoffman denied, to the great merriment of the specta-tors, that he is "the official stenographer of tors, that he is "the count," and in a subsequent partities Court," and in a subsequent partities Court interpreter, several letters received by the claims correct:

The greatest cataract in the world is that of Niagara. The Horseshoe fall on the Canadian side has a perpendicular descent of 158 feet. The height of the American fall is 167 feet. The Horseshoe fall, which carries a larger volume of water than the American fall, is about 600 yards wide, and extends from the Canadian shore to Goat Island. Geologists are agreed that the cata ract was once six miles nearer to Lake On tario than at present. Although Niagara is certainly the greatest cataract it is by no means the highest. Yosemite fall, in California surpasses all other cataracts on the globe in height. It is formed by Yosemite Creek, which is an affluent of the Merced River. The average width of the stream in summer is about twenty feet and its depth about two feet. From the edge of the cliff, from which the water plunges, to the bottom of the valley the vertical distance is about 2,550 feet; but the fall is not in one perpendicular sheet.

# Not Allowed at the Party.

As we were recently passing a street beyond the Atlanta Medical College, and on which a number of negroes reside, we heard an old negro calling out to his wife :

"Manda! Is you got dem chickens corraled in de smoke-house like I told yer ?" "No! an' I like to know what's de matter with you, dat you so 'tickler about them chickens all at once,' she replied.

"Nebber you mind! I knows what's de matter, and dat's nuff till them chickens is housed? When I hears dat dem niggers oher dar in the next yard is gwine to have a party to-morrow night, I want to be shore my chickens doesn't tend it, you hear me." The chickens were at once locked up .-Atlanta Constitution.

DISEASE is an effect, not a cause. within; its manifestations without. cure the disease the cause must be removed and in no other way can u cure ever be effected. WARNER'S SAPE KIDNEY AND LIVER CURE is established on just this principle. It realizes that

95 PER CENT. of all diseases arise from deranged kidneys and liver, and it strikes at once at the root of the

liver, and it strikes at once at the root of the difficulty. Telements of which it is composed act directly upon these great organs, both as a food and restorer, and, by placing them in a healthy condition, drive disease and Main from the system.

For the innumerable troubles caused by unhealthy Kidneys, Liver and Urinary Organs; for the distressing Disorders of Women; for Malaria, and for physical derangements genarally, this great remedy has no equal. Beware of imposters, imitations and concoctions said to be just as good.
