HOBOKEN, SEPTEMBER 30, 1882.

Official paper of the city of Hoboken. Circulation second to no other weekly journal in Hudson County.

Hon. A. A. Hardenberg's explanation is entirely satisfactory.

"Pumpers" and "fillers" are to have a hearing at the election in November.

Mayor Taussig has announced his withdrawal from the Congressional race.

Another Engine House veto. We forget whether it is the nineteenth or twentieth.

Plenty of boating on the meadows this week. Anchors for some of the houses have been in demand.

Ask the next man who says "weather" to you, what he knows about it, anyway, and you will succeed in "shaking him."

The authorities must remember that they have no right to expend one fund to make up the deficiencies of another—"Robbing Peter to pay Paul," is wrong.

Wonder if the Mayor wants to pay for sprinkling the streets last week. His veto of the resolution discontinuing the use of the water cart around the City Hall came upon the Council at a most unseasonable time, and yet they allowed him to have his way.

The political hanger-on, ex-Juryman Hoffman, continues to publish his dark hints and innuendoes concerning the Hon. Robert McCague, Jr., and prates about his "record" and that Rabe water bill. If there is anything to tell, why don't he tell it? What was this "water bill" and its iniquitous purpose, anyhow?

Chief Donovan's report to the Police Commissioners lays the blame of the robberies committed since May, where it properly belongs. The obstructive measures of the Mayor and his Board have so tied up the Chief and his force that Hoboken is practically open to all classes of thieves and criminals. Space will not permit us to print the report.

The Republican leaders in Hoboken are not putting forward E. V. Besson for the Congressional race, or for any other office. He stands ready and willing to accept any candidacy his party will allow him to push into, and in default of any regular nomination, he will probably nominate himself for both Congress and Assembly. When his party drops him, he will try and pick himself up.

The press comments, which are the expressions of the most enlightened opinions, on Black Friday Gould's recent attempt to gain control of the Associated Press, and by doctored the news to suit himself, gather in more unlawful shekels, must make that great American Shylock fairly squirm. But it's good practice for him. He'll have a good deal of squirming to do when his master gets him on his toasting-fork and before the hottest fire in Gehenna's kitchen, slowly turns him 'round and 'round till he's done to a good crisp brown.

Can not Al. Hoffman, in his Democrat (Rep.), furnish a few more denials and assertions "authoritatively" on the Congressional situation? The public is longing for more political information from such a reliable source. It is certainly gratifying to our municipal pride to have in our midst one who is the confident of our political leaders and can "speak authoritatively" on matters of moment during the approach of the campaign. Of course accidents will occur at times, and the influential Court Interpreter and editor(?) is in no way to blame for the way in which he is "left" just now in the Hardenbergh matter. He was simply "dumped."

THE POLICE REQUISITION.

At their last meeting, the Police Commissioners gave evidence of an ability to act fairly and wisely in their deliberations. The aggressive policy instituted and pursued by them since last May, their course of extreme partiality in dealing with the force, the vindictiveness of their persecution of certain members of the force, their total disregard of the law in allowing political animosity to influence their actions, and the arbitrary and obstructive interference with the Chief's duties by throwing every obstacle in the way to hinder the efficiency of the police service, have been the topics of town talk for months. The indignation aroused by their bold misrepresenting the people by whose will they exist as a Board and whom they were appointed to serve, has found proper expression in the columns of all the decent journals in the city. The ADVERTISER has been conspicuously active in unmasking, exposing and denouncing their official misconduct and it is glad to be as quick to notice that its efforts, aided by those of the Journal and Argus, are apparently beginning to bear a little fruit.

In the main, their meeting on Monday night was rather a fair one. They abandoned some of their persecutions and proved that they could do right in some instances, a fact which shows that their wrong doing has been intentional. But they continue in many respects to merit their unenviable reputation. The requisition goes to the Council every month with their unlawful expenditures added to the salaries under that title "Ac." This is intended to cover a multitude of sins, but there are, fortunately, men in the Council that lift up the cover and see the sins. Some of the bills tacked on, should be paid, but there are others which the Board never had the right to contract. It would be robbery to pay them, and the Council would be as culpable as the Commissioners, should their payment be ordered. Already the amount of extras purchased by the Commissioners only falls a few dollars short of the sum appropriated for such for the entire year, and there are still seven months of the fiscal year to be provided for.

The Councilman Committees, on Monday night, intend to "investigate" the "extra" part of the police requisition. Let them demand from the Board a bill of items. They can then order paid all legitimate claims. Bills illegitimately contracted, such as Bayer's "printing pap" bill, are not legitimate claims, and their payment would be illegal. It is within the power of the Council to stop the efforts of the Board of Police Commissioners to take money out of the treasury to reward political heelers, and the people look to the Council to use this power.

THE EMPIRE STATE.

The hue and cry which the nomination of Secretary Folger for Governor by the Republicans of New York, has caused throughout the country, is so widespread, that it almost goes without saying, that the Empire State will this fall be redeemed and return to her first and only virtuous love—Democracy. The shameless deal by means of which the State fell into the hands of the Republican bandits in the Garfield campaign, was an amateur performance compared with the mass of corruption which effected this nomination at Saratoga last week. Backed by Jay Gould's stock list, representing millions of stolen money, and seconded by all the powerful Administration machinery, with its Conkling system of spoils and patronage, the bosses bought the delegation body, soul and spirit, and sent it to the convention to disgrace Charles J. Folger by the nomination, and the people of the State by its pot-house work. With the exception of the papers owned or controlled by Gould, or the so-called Stalwarts, the press boldly denounce the fraud and are loud in their condemnation.

On the other hand, the Democrats have nominated Mayor Grover Cleveland, of Buffalo, a man among men; one for whom all honest men can vote with the consciousness that they are serving the State by so doing. He is a man of marked ability and undoubted integrity; one who is not tainted with even a suspicion of bribery and corruption, and whose nomination was not purchased. Republicans all over the State are working for him, and thousands who are disgusted with their own party leaders will support him at the polls. The people of New York State will show on the 7th of November that they can and will vote down a ticket which bears on its face the seal of "Black Friday."

A WARNING.

The communication concerning the management of the boiler in School No. 4, relates to a subject which demands the attention and immediate action of the Board of School Trustees. It is understood that some members of the Board are in favor of having the man referred to, examined by two or three "practical engineers," and if he is found competent, he is to be retained. Such a course would be wrong. The man has been declared densely ignorant of the duties of an engineer; has been declared by a disinterested inspector, to "know nothing at all about a steam boiler or its workings." It would be trifling with the lives of the occupants of School No. 4 to permit such a man to attempt the management of the steam heating apparatus, and those in authority will be taking upon themselves a responsibility they have no right to assume, if they do not at once secure a competent engineer for the position. The laws of public safety demand it, and we are confident that when the Board of Education come to consider it with the care which such an important question should be consid-

ered, the necessary action will be taken before a disaster compels it. We know that some of the members are fully alive to the importance of the situation and they should move in the matter at once.

THE STORM KING'S REIGN.

Last Week's Deluge—Unprecedented Ravages of the Freshet in Jersey—The Meadows Under Water.

Never since "Noah was a sailor," as far as we or the "old inhabitants" know, has Jersey been visited by such a disastrous storm of rain as the one which gave us a call and staid with us for three days last week, and the tail end or after-splash of which gave us a parting ducking this week. Freshets followed the steady, three-days' downpour last week and created great ravages everywhere, but Jersey seems to have been specially punished. The total rain-fall for the three days ending last Saturday was 17.36 inches in parts of this State. Bridges, dams, railroad tracks and buildings were washed away, to say nothing of the damage done to other kinds of property. The damage in this State alone can only be estimated by millions of dollars, and many people were drowned.

In our own neighborhood and in Hoboken itself the damage is great. Over \$60,000 will have to be expended to repair the open cut at the west end of the Weehawken tunnel, and it will cost some thousands of dollars to put the new water pipe and reservoir of the Hackensack Water Company in good condition again. The top-dressing of the boulevard has been washed away. A branch of the Bull's Ferry road sewer, and part of the Ravine Road sewer burst. In the case of the latter the contents of the sewer are emptying into the sunken lots on the meadows instead of running off into the river. The meadows were completely inundated and by far the greater part of them are still flooded.

Many of our streets have been seriously damaged, and during the week gangs of men have been repairing them. Several landslides occurred from the Castle Point grounds, covering the river walk with rocks and earth and broken trees, but the wrecks have all been cleared away. Among the boat houses considerable repairs were necessitated.

All efforts for the immediate relief of the meadow district from the water have proved unavailing owing to the defective sewers. The damage done in the district is great, but at present it cannot be estimated. Many houses were and still are so deep in the water that it is impossible for the inhabitants to occupy the lower floors. Considerable suffering has been caused among the poorer houses on the sunken lots and some narrow escapes from drowning are reported. It is still impossible to travel without the aid of boats or rafts in parts of the inundated flat, and a paddle through the district, while it reveals many a sad and desolate scene, will also afford amusement to any one with a keen appreciation of the ludicrous.

An Honorable Corporation.

In these days of corporate domination and tyranny, so-called, we are pleased to see a great corporation like the Pennsylvania Railroad Company stepping over the barriers of legislation, and from its own sense of justice, give a municipality that which, in equity, it ought to have. Such a transaction took place in Jersey City, on Tuesday of last week, at the office of Superintendent Jackson, of the Pennsylvania Railroad Company, when a committee of citizens assembled to meet Gen. W. J. Sewell, who was to convey to the committee the decision of the company in relation to a subscription towards the maintenance of the city government. Among those present were Mayor Taussig, Corporation Counsel Abbott, Aldermen Puster and Gannon and Henry Lembeck, Esq. Gen. Sewell presented to the Mayor a check for \$30,000, to which was attached the following preamble and resolution which explain themselves:

WHEREAS, The Pennsylvania Railroad Company, under the law of the State of New Jersey, are required to pay their taxes to the State and to its municipalities; and

WHEREAS, The municipality of Jersey City has, through its representatives, stated that they feel that under the provisions of the law this company do not contribute towards the maintenance of the city government, in which they are so largely interested, by ownership of property and otherwise, in proportion to the extent of said interest; and

WHEREAS, This company can recognize no obligation on their part to pay such municipal taxes; yet, in view of all the circumstances, and the amount of property owned and controlled by this company in Jersey City, and under the protection of its city government, it is

Resolved, That the Comptroller cause to be made a voucher for the sum of \$30,000, in favor of the Mayor and Aldermen of Jersey City, as a voluntary contribution from this company in aid of the municipal government of Jersey City for the current year of 1882, and that this voucher be forwarded to the Mayor of said city, together with a certified copy of this preamble and resolution.

Mayor Taussig accepted the check in behalf of the city, and made a brief speech, thanking the company for their liberality, and his action was confirmed on last Tuesday evening by the Board of Aldermen.

Board of Education.

At the regular meeting of the Board of Education, Monday night, the election of a presiding officer in place of ex-Trustee Beltz, resigned, was conducted quietly and harmoniously, without any of the excitement and fuss expected in such an interesting proceeding. Trustee Kerr, who was considered a candidate for the position, was absent when the meeting was called to order, and was not even put in nomination. Trustee Gritten was nominated and had no opposition either in the way of a rival nominee or a dissenting vote. His election was unanimous. An officer of a number of lodges and societies, he is thoroughly posted in parliamentary law, and being a young man of character and intelligence, and taking great interest in educational matters, he will make a good President of the Board.

That Bob Bruce, of the Elizabeth Herald, must again have been off his base when he wrote that the Democrat is the mouth-piece of Mayor Besson.—Democrat (Rep.) If this is so, Brother Bruce's "madness hath the oddest sound of sense," for he wrote sound sense in this case.

The officers of the City Hall base ball nine wish to give public expression to their appreciation of the consideration shown them by the officers of the Stevens Institute Athletic Association, and to convey their thanks for the tendered use of the grounds of the association for the ball match this afternoon.

It's like his idiotic impudence for the ignoramus of the Democrat (Rep.) to try and gild the people with a fish-story of the Hon. Robert McCague, Jr.'s attempt to run all the fresh water from New Jersey through the Hudson River tunnel and peddle it out to thirsty New Yorkers. Does he think any one but himself is fool enough to swallow such a yarn?

The 9th of October has been selected as the date for the grand opening ball of Mrs.

Prof. Jurich's Dancing Academy at Odd Fellows' Hall. There will be an exhibition of fancy dances by the children of the school on the occasion. We understand that Mrs. Jurich has secured the hall of the German Club House, Hudson and Sixth streets, where she will give dancing lessons, and will open the season there on October 12th.

In balloting for City Clerk at the Council meeting Tuesday night ex-Councilman Samuel F. Orissy secured four votes, Councilman Grassmann casting the new vote. It now stands Crissy four, Miller two and McDermott two. The deadlock seems as firm now as before Mr. Grassmann's change, which that member stated was made to facilitate the election of some one as Clerk. The change appears to have been fruitless.

The ball match which was to have been played on the St. George Cricket Grounds, on Saturday last, by the City Hall and Court House nines, and was prevented by the storm, will be played this afternoon, the Stevens Institute Athletic Association having kindly loaned their grounds again. Game will be called at 3 o'clock. In case of more rain, rubber-coats, over-shoes, umbrellas and canoes will be provided for the ladies—men are expected to swim.

The milk dealers of Hoboken, to the number of twenty-five, held a meeting at Katenkamp's, 64 Washington street, Monday evening, to determine upon a uniform price for milk during the fall and winter months. It was unanimously resolved that the price for milk should be advanced to eight cents per quart to stores and ten cents per quart to families, the change to take effect October 1st. The increase is due to an advance in the rates charged by the farmers since the spring.

At the First Baptist Church, Rev. Dr. Geo. L. Hunt, pastor, to-morrow, the Sacrament of the Lord's Supper will be administered at the close of the morning sermon. The morning subject will be "God's Thoughts of Man," and in the evening "What is the Most Precious Thing in the World?" is the question selected for discourse. There will be special music by the new choir morning and evening. The morning service will commence as usual at 10:30, but the hour for evening service has been changed to 7:30.

The body of the man found in the river near Twelfth street dock, on Friday of last week, as we reported, was identified on Sunday last as that of Adam Rahlter, a widower, who lived at 360 West Forty-fifth street, New York. Rahlter, while out rowing on the previous Sunday, upset the boat through carelessness and was drowned. A companion with him was rescued. The mystery of the hat that was found on the dock last week is still unexplained. A paper pinned on the hat set forth that "H. Smyth had taken his life by drowning."

Robertson S. Ferguson, familiarly known as "Fergus," a well-known journalist in Hudson County, died on Wednesday last at St. Francis Hospital, Jersey City, of Bright's disease. Mr. Ferguson was born in Greenock, Scotland, about forty-four years ago, and came to this country in 1860, settling in Brooklyn. At the outbreak of the rebellion he enlisted as a private in the Fourteenth regulars, and by bravery and gallant conduct, attained the rank of Captain in the regular army. Upon the death of his wife shortly after the war, he left the army and drifted into journalism. For a few years past he has been a correspondent of the United Press Association of New Jersey. His genial manners made him a general favorite in the profession, and he will be missed wherever he was known. He was a member of Rankin Post, G. A. R., of Brooklyn. A daughter residing with her maternal grandmother in New London, Conn., survives him.

Political Notes.

Casey is said to be in the Assembly race in the Tenth District of Hudson. He wants a third term.

Ex-Minister Wm. Walter Phelps has secured the Republican nomination for Congress in the Fifth District. Ryle's Democratic friends, however, are confident that they can defeat the "Blaine man."

If, besides carrying the State of New York, the Democrats carry Pennsylvania and Massachusetts in the November elections, we shall soon after behold the final overthrow of the debauched Republican party.

Isaac Wildrie, of Blairstown, this State, who has received the Democratic nomination for Assembly in the First District of Warren County, is eighty years old and represented that District in Congress thirty years ago.

Mayor Bradshaw, of Camden, has issued an order to the Police Department threatening the dismissal of any officer who attempts to participate in primary elections or interfere in politics except to deposit his vote like any other citizen.

The Democrat (Rep.) is supporting (?) the Republican candidates for Assembly honors, and will probably do likewise for the Congressional aspirant, now that Hardenbergh has adhered to his original intention, and is not now in the race. Much good may it do the candidates!

This is a good year for Mayors. Mayor Cleveland, of Buffalo, N. Y., has been nominated on the Democratic ticket for Governor and Mayor Hill, of Elmira, Lieutenant Governor; Mayor Harrison, of Chicago, has the Democratic nomination for Congress, and the Mayor of Hoboken is trying to get the Congressional nomination in this District.

The New Brunswick Fredonian says some of the knowing ones predict that in no case will Senator McPherson succeed himself, but that in the event of the Democrats carrying the Legislature, the small, plump and wily Joseph D. Bedle will pluck the persimmons, this being the little game of the Randolph wing of the Democracy, which wing is held to be the strongest.

An exchange asks: "Is it not about time for the campaign song-writer to be coming forward? This is going to be a very exciting contest, and certainly should be set to music." Al. Hoffman once published an alleged poem in an intended political vein, over his signature. Perhaps he, or some poetaster of a similar stripe will venture to sing the praises of Rabe & Co., this fall. Let the lyres be tuned and he who dares may "face the music."

"Our Devil Says"

Wonder if editor (?) Hoffman has recovered from the effects of the deception administered to him recently.

LETTERS FROM THE PEOPLE.

Boiler Explosions. HOBOKEN, Sept. 27, 1882.

Editor Advertiser:

In the ADVERTISER dated September 2, in the official proceedings of the Board of Education, appeared the following report of the Boiler Inspector, who examined the heating apparatus of School No. 4:

"Report of an internal examination of your steam boiler, made by us August 9, 1882. Found boiler in good condition; steam gauge five pounds heavy; set correct. Upon examination of your engineer, I find him very delinquent; in fact he knows nothing at all about a steam boiler or its workings."

"JOHN B. FITCH, Inspector."

This man is still retained at School No. 4, and it will soon be time to start the fire under this boiler. It would be foolhardy, if not criminally careless, to allow this man to resume the management of the boiler after such a report from the Inspector. If the Board of Education is so careless of its duties and the lives of our children, cannot the Council look after the city's interests in such an important matter? A PARENT.

A Pastor's Wooden Wedding.

The Rev. Mr. Newbold, of St. Paul's Church, and Mrs. Newbold, were the recipients of a very pleasant surprise at their home, 22-1/2 Tenth street, on Tuesday evening, the occasion being the fifth anniversary of their marriage—their wooden wedding. About two weeks previous some of the Sunday School teachers thought it would be an opportunity to show their good will to their pastor which should not be passed by. As a result of their scheming and work, a furniture van arrived at Mr. Newbold's door at just about the hour, five years previous, when there was much bustle in preparing to start for the church in Philadelphia, where the wedding took place. A handsome suit of parlor furniture was speedily deposited within his doors, to which a card was attached bearing the compliments of his congregation. A load of wood to kindle a flame of kindness in the hearts of all concerned, was also left at the door. There were a number of individual gifts in addition to those from the congregation.

At a seasonable hour a large delegation of parishioners fled into the house with profuse congratulations, intent on seeing that their liberal plans had not miscarried. During the pleasant sociabilities of the evening much amusement was caused by the opening, before all, of several mysterious packages, that were presented anonymously, and in a way to suggest infernal machines, dynamite, etc. As layer after layer of newspapers were unrolled and still paper alone appeared, expectation stood on tiptoe, and encouragements to persevere were abundantly bestowed by the company. In one case the final reward was two bundles of kindling wood and a liberal supply of pitched cork—a near approach to an infernal machine, indeed. A second effort brought forth a few toothpicks.

After a very pleasant evening, provided with other refreshment than a mere "feast of reason and a flow of soul," the company separated, resolved, if all went well, to meet again in another five years with an accompaniment on tin pans, walters and horns.
