

WHAT ANGERS NEWARK.

The Plank Road—An Extension of Its Charter.

The citizens of Newark are in an angry mood just now in consequence of the discovery that the plank road monopoly, the same which it was sought to break up in the last Legislature, has stolen a complete march on the public and had secured an extension of its charter for fifty years more, and all for the sum of \$1 paid to the Secretary of State.

It appears that while the people of Newark were agitating the abatement of the monopoly, the latter quietly took advantage of an innocent-looking law put through in their interest and in the interest generally of such corporations a year ago. This law was supposed by many who voted for it to be a protection to the people, but it now proves to be instead a protection to monopoly. The old charter of the Plank Road monopoly would run out in 1883, but by taking advantage of the law referred to it will run till 1933 unless, in the meantime, as it is not improbable, the outraged people force the matter into the courts and procure a judgment favorable to public rights. Judge Kirk, Assemblyman Young and others, who worked against the monopolists in the Legislature, admit that the railroad and monopoly lobby agents completely outwitted them. They propose to test the constitutionality of the fifty years' charter extension. A movement will also be made to build a new road.

Timken stands for the tax-payers. There is no opposition to Bente for City Treasurer.

Be sure and vote for Dollard for Assessor.

The New Member.

The new member of Congress remained in town. "I tell you what," he says, "the President is a trump. I went up to the White House the other day to see about making Marlar Price's daughter postmaster at North Fork, and the President, he was takin' a lot of other fellers in to lunch with him. So he says, kinder friendly like, 'Come, won't you jine us and take some lunch and a glass of wine?' So I bowed and said, 'I'm your man, Mr. President.' So we went in and set down, and they had some of them pesky finger bowls with lemon in the bottom of them. When the raw oysters come on they seemed mighty stinky with their lemon, so I took a nutcracker and I picked the lemon up and put it on my oysters. They had been tellin' about the way the President used to whoop up the boys in New York, and when they see me going for the lemon, some of them fellers stopped and begun sneakin' in and laffin', but next thing the President he fetched up his lemon with a fork, and put it on his oysters, and them chaps stopped laffin' and looked as solemn as a funeral after that."—*Ex.*

Recorder McDonough is worthy of a third term, and he will get it.

Put in your vote for Murphy; don't throw it away.

Herman Fagen will be returned to the Water Board, as he should be.

Preparing for Visitors.

The hotel keepers and property owners at Long Branch are anticipating an unusually prosperous season, and the various transportation lines are preparing to accommodate the travel with better facilities than ever before. Half hour trains are talked of between the Central and Pennsylvania roads; the Southern road will run two steamers to Sandy Hook; the steamer Plymouth Rock will make trips to the iron pier, and the smaller steamers, Helen and Long Branch, will run from New York up the Shrewsbury River and through Pleasure Bay to Branchport, at the north end of the Branch, carrying passengers, horses, etc. Ground has been broken for a Casino at Elberon, on Lincoln, near Ocean avenue. It will be a two-story building, in the old English style, having the appointments of a first-class club house, and will cost about \$25,000. John Hoey is building seven nice cottages on his park, and Miss Minnie Cummings has contracted for the erection of ten cottages at the East End.

Vote for Timken and the straight Democratic ticket.

William J. Wings will make a good Councilman from the First; vote for him.

Vote for William S. Wolf for School Trustee in the First; he is a popular man.

A Big Institution.

That the Pennsylvania Railroad Company is a big institution, and spreads itself abroad considerably, is evident from the following facts: The total length of

tracks owned, leased and controlled by the Pennsylvania Railroad, is 5,906.22 miles. This mileage is located as follows: Pennsylvania, 2,599.17; New Jersey, 644.23; Maryland, 328.39; Delaware, 164.06; New York, 70.50; Virginia, 33.60; West Virginia, 11.53; District of Columbia, 3.18, and it may be added that no railroad company in the world manages its own affairs with more skill and enterprise, or gives the travelling public a better service.

The late visit of President Roberts and other officials, along the coast, is thought to presage the occupation of the whole New Jersey coast line with their roads. It is more than probable that a continuous line will extend from Cape May to Sandy Hook.

A vote for Beson is a vote thrown away.

Vote for Thomas Fitzsimmons; he will make a good Councilman from the Second.

John R. Havens is the man to send to the School Board from the Second.

Ex-Governor Price's Idea.

Ex-Governor Rodman M. Price, of New Jersey, makes a suggestion, apropos of the need of New York for more water, which is worth consideration. There is an elevation of about 300 feet above the waters where the rivers Ramapo, Wyoockle and Pequannock concentrate about eighteen miles from Jersey City. A proper series of hydraulic works could be constructed which would supply water not only to New York, but to Jersey City, Newark, Hoboken and other towns in Hudson County. The water could be brought by means of iron pipes following the irregularity of the surface. This system has been tested in every possible way in California, and there is no doubt of its practicability and inexpensiveness compared with the aqueduct system.—*Ex.*

A straight Democratic ticket is the only safe ticket to vote.

The residents of the Third Ward should put in a vote for John Meighan for Councilman.

It is safe to bet on Edwin J. Kerr's return to the School Board in the Third.

A Handsome Present.

Before General McClellan left Fortress Monroe, where he had recently been spending some time, the veterans of the Hampton Home presented him with a large banner of royal purple satin, edged with gold fringe. It bore on one side the national arms and the inscription: "The National Home for Disabled Volunteer Soldiers, March 3, 1865. The Nation to her Defenders." The reverse bore these words: "Presented to General George B. McClellan, Local Manager, by Veterans of Southern Branch."

Honest John Lee should be returned to the Council from the Fourth, and he will be.

A better man for School Trustee in the Fourth Ward, than Thomas F. Hatfield, can't be found.

Secretary Lincoln Pleasid.

Adjutant General Stryker, who was appointed a committee by the Monmouth Battle Monument Commission to submit the design recently adopted by the commission for a shaft at Freehold to Secretary of War Lincoln for his approval, has just returned from Washington. He met Secretary Lincoln, and the latter, after carefully examining the design, approved it by writing upon it: "Approved—Robert T. Lincoln, Secretary of War." The Secretary, General Stryker added, expressed great satisfaction with the design, complimenting the commission highly upon its choice in the selection of it.

Return George P. Schinzel to the Board of Freeholders, and the interests of the county will be in honest hands.

Ex-Freeholder William N. Parson has a good record; he wishes to be returned. Vote for him.

Henry Snyder has made a good Freeholder from the Seventh; he should be returned by a large majority.

Vote for Thomas Nugent for Freeholder from the Seventh; he is popular and honest.

CANDIDATES ON THE REGULAR DEMOCRATIC CITY TICKET.

Politics in Hoboken are mixed again this year—considerably mixed in the Wards—but in regard to the candidates on the city ticket, things are in much better condition than was at first expected.

The split on the Water Registrar, while it is to a certain extent bad for the ticket, has one encouraging feature. It is not caused by any dissatisfaction with the manner in which the present incumbent has discharged his duties.

A better ticket could hardly have been placed in the field than the one the Democrats of Hoboken are called upon to vote on Tuesday next.

Internal wrangling in the ranks of the party does not pay. All the losses sustained by the party in the last two Charter Elections are attributable to this foolishness.

It is not only foolish in the Democrats to thus fight among themselves, but it is dishonest, leading, as it has, and always will, to corrupt measures and combinations, "deals and trading."

Councilman Herman L. Timken has received the regular Democratic nomination for Mayor.

The "kickers," or old Committee Democrats, have also headed their ticket with him.

More enthusiasm has been manifested over his nomination than has been witnessed over that of any Democratic candidate for Mayor in several years.

His strength in the Second Ward, where Besson counts on a good support, is far ahead of the would-be boss, as was shown by his majority of 182 two years ago.

Everybody knows him, and it is to his general belief in and appreciation of his sterling qualities that he owes his renomination by the Democrats.

It is absolutely without opposition. Voting for him is almost a matter of form.

On the regular Democratic ticket, James E. Dollard is again running for Assessor against John R. Wiggins.

He has just enough power to hinder the march, if the Council is not with him, and hardly enough to keep things straight should the Council wish to go along without him.

Recorder McDonough is the candidate on the straight Democratic ticket, and also on the "crooked" one.

Water Registrar Michael H. Murphy has received a renomination from the regular Democracy for a fifth term.

Water Commissioner Herman Fayen has received substantial recognition at the hands of the regular Democracy.

For School Trustee, William S. Wolf is the nominee on the regular Democratic ticket.

For Recorder, Francis M. McDonough is the nominee on the regular Democratic ticket.

FERRY TIME TABLE.

Table with ferry routes and times. Includes sections for Hoboken Ferry Boats, Barclay Street Boats, and Sunday Boats to Barclay Street.

HOBOKEN, APRIL 7, 1883.

CITY ITEMS.

Seventy new citizens were made by Judge Brinkerhoff Monday. Vote for true economy, reform and the administration of city affairs on business principles and in the interest of the people of Hoboken. In other words, vote for Timken for Mayor.

day night and nominated himself unanimously for Councilman, on the Republican ticket, in the First Ward. He is going to run too. If you are a betting man, bet on Timken; but whether you are or not, vote for him.

AN INFAMOUS DEAL AND STEAL. How Mayor Besson Stole the Government—Indisputable Facts—Stranger than Fiction. It is preposterous and the height of impudence for Mayor Besson or "Bridge," as he is familiarly known to the "gang," to parade himself before the people as a man of honor and a reformer.

LETTERS FROM THE PEOPLE. The County Road Project. The voters of Hoboken should remember the County Road question Tuesday. The nature of the project was fully explained in the act relating to it, published in these columns last week.

THE ARRLINGTON LEAGUE. The Arlington League, of New York, which contains in its membership several Hoboken young men, gave its first musical and dramatic entertainment at the Lexington Avenue Opera House, New York, Wednesday evening.

COUNCIL PROCEEDINGS. STATED SESSION. Stated session of the Council, held at the Council Chamber, City Hall, on Tuesday evening, April 3, 1883.

THE GREAT GERMAN REMEDY FOR PAIN. Serravallo's Tonic. NOTICE IS HEREBY GIVEN, THAT JAMES N. SLOAN, of the City of Hoboken, Hudson County, New Jersey, has this day made an assignment to the subscribers of his estate for the benefit of his creditors.

Riparian Rights.

Riparian means shore or bank. A Riparian right is a shore right, and in our statute the owner of the land which extends to navigable or tidal water is called a Riparian owner. For the original fountain of all rights and titles in this State, we must go back to the 17th century, when Great Britain secured, or at least successfully asserted a claim to, the possession of this country, its land, its waters, and its government. From that acknowledged grantor must come all the rights held, and these are divided into two principal kinds, first, titles to land, which titles pass by conveyance, descent, etc., and governmental rights, called prerogatives, or jura regalia. The former, or grant of the soil, is recognized only in reference to land not covered by navigable water, and its limit is common high water mark; but the prerogative of the crown or governmental right included the titles to land under high water, the water itself, the right of navigation and fishery, wild fowl, game, and the fish and shell fish in the water. This governmental right is incidental to the right of government and passed, not by conveyance of the soil, but attached always to the political power.

In 1664 Charles II., of Great Britain, conveyed to his brother James, Duke of York, the soil and the government of a territory in America which included New Jersey, and the Duke secured possession, by force, from the Dutch. In the same year James of York conveyed by grant all his rights in New Jersey, both in the soil and government, to Carteret and Berkeley, and they sold their rights to individuals who became known as Boards of Proprietors of East and West Jersey. In these proprietors were vested all the rights that had ever been in the crown, and for many years they exercised political powers in their respective divisions, but finding they were unable to maintain peace and order, the proprietors of both East and West Jersey, on April 15, 1702, formally surrendered to Queen Anne the rights and powers of government, but retained the soil.

From this time, 1702, rights descend in different channels—the right or title to the soil from the proprietors by purchase, conveyance, descent, etc., to the present owners; the governing power with the regalia, which includes the tidal waters, fisheries, etc., from Queen Anne through her successors to George III., then by the success of the war of Independence it is vested in the State of New Jersey, in trust for the use and benefit of the inhabitants thereof.

The State of New Jersey, by the representatives of its inhabitants assembled in the Legislature of 1864, determined that the rights to the land under water could be properly conveyed or leased to the inhabitants of the State, the Riparian owner or owners of the adjacent soil having a primary right to secure the same if he desired, and the Legislature of 1869 enacted the law under which the Board of Riparian Commissioners was appointed, with full power to grant or lease the lands under water, with due regard to the reservation of all general rights of navigation, commerce, fisheries, etc. From the State, through these Commissioners, more than five hundred applicants have secured control of their "Riparian rights," and the revenue from the same, to the amount of \$2,767,392.79, has been devoted to the school fund.

The Legislature and Courts of the State have with remarkable unanimity defended this important interest, and all attempts by those who as "proprietors," or holding under them, have undertaken to maintain a title to Riparian lands not granted by the State, have been promptly rebuked. In a recent suit in the Burlington Court, wherein certain parties claimed ownership of oysters growing in certain waters, claiming title under a survey and grant in 1808 from the Proprietors, Judge Parker, in an able charge to which we have been largely indebted for historical facts on this subject, decided that the Proprietors, since 1702, "had no rights in navigable tidal waters, nor in lands lying under the same," a decision which is supported by the highest legal tribunal in the land.

It should be understood that the State merely conveys to the Riparian owner the land below high water to a certain distance from the shore. It then becomes private property to be inclosed and improved under the conditions of the grant or lease, and as such is protected by the same laws as other real estate. Unless filled in, improved, or inclosed, the mere securing of the title will not debar encroachments any more than a deed would keep trespassers off an unfenced field lying along a public road, and tidal water is a highway wherever it flows.

Thomas McKean, Bennington F. Randolph, Amzi Dodd and Gershom Mott are the Commissioners to whom charge this State has wisely committed this great interest. Much of the detail work of the Commission, however, devolves upon Mr. R. C. Baco, the Secretary and Engineer, whose efficiency is only surpassed by the courtesy he always extends to those who seek information on the subject. The office of the Commissioners is at 47 Montgomery street, Jersey City.

The price of ocean fronts from Seabright to Point Pleasant is \$1 per foot in small lots, and 50 cents per foot when a mile is applied for by adjacent owners. In the bays and rivers the price ranges from 15 to 50 cents per foot. The Riparian owners have the privilege of paying the price and taking a grant in fee, or paying the interest as a rental.—Hightstown Gazette.

A vote for Timken is a vote for economy. A tourist leaning out of a nook, Fell on his head near a brook, The hurt he received, St. Jacobs Oil relieved, And he says it cured "like a book." Great oaks from acorns spring, Great aches the little toe corns bring; But for every corn That ever was born, St. Jacobs Oil is just the thing.

A vote for Timken is a vote against Deason.

WARNER'S SAFE KIDNEY LIVER CURE. D. E. ASK is an effect, not a cause. Its origin is within; its manifestations without. Hence, to cure the disease the cause must be removed, and in no other way can a cure ever be effected. WARNER'S SAFE KIDNEY AND LIVER CURE is established on just this principle. It realizes that 95 PER CENT of all diseases arise from deranged kidneys and liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act directly upon these great organs, both as a food and restorative, and, by placing them in a healthy condition, drive disease and pain from the system. For the innumerable troubles caused by unhealthy kidneys, liver and urinary organs; for the distressing Disorders of Women; for Malaria, and for physical derangements generally, this great remedy has no equal. Beware of impostors, imitations and concoctions said to be just as good. For Diabetes, ask for WARNER'S SAFE DIABETES CURE. For Sale by all dealers. H. H. WARNER & CO., ROCHESTER, N. Y.
