To Bayer's mind the action of these officials in preventing him from longer living on the city, and in saving money for the tax-payers, was a fraudulent "deal"— a corrupt measure. His sheet never ceased slinging mud at the officials and at the proprietors of the ADVERTISER. He commenced the suit, and, after Mayor O'Neill went out of office, had got the case in such shape that the AD- vERTISER could collect no money for its work. He made out the flimslest kind of a case against the city, and profitting by every means known to his sharp criminal lawyer, kept the case in Court for twelve months. The Supreme Court decided against him, at the February term last year, and he must have known then, if not before, that he had no case. Notwithstanding this, he carried it up on appeal to the highest State Court, crying, in the meantime, that the ADVER- TISER was fighting him with the city's money, while he had to foot his own bills. This cry he and his editor have taken up again since the final decision. It is absurdly false. The ADVERTISER had no hand in the legal fight at all. It	had confirmed the decision of the Supreme Court in the printing case, which was to the effect that the ADVER- TISER was legally appointed the official paper in 1881. In consequence of this, the Printing Committee submitted a report, stating that the bid of the ADVER- TISER last August, which had never been disposed of, was the lowest, and recom- mended that the contract be awarded to this paper for another year from May 1. The contract was awarded by a vote of six to two. The only voice raised against it was Grassmann's, who charac- terized the action "hasty." The Coun- cil has been holding the bids for seven months, and the members were only holding back for the decision. The measure went threugh, and the full Board afterward passed a resolution ordering a warrant drawn for part pay- ment of the bill that the city has owed the ADVERTISER so long. Muller, F. Walters, L. Lan- con, J. H. Steljes and G. Kuhn officiated as ushers, and Mr. F. Grahlfs, of Brooklyn, was best man. The bride wore a dress of cream- white satin, <i>en traine</i> , front and sleeves of silver brocade, and point lace and crystal parsementerre trimmings. The bridesmaids wore white surah satin, trimmed with Orien- tal lace, and carried bouquets of roses. The bride was given away by her father. After the ceremony, a reception was held at the residem e of the bride's parents, 328 Bloom- field street, where an elegant supper was served. Dr. and Mrs. Allers received the con- gratulations of their many friends, and left the same evening on a brief wedding tour. On their return they will reside in Newark. The Boating Season. Activity has marked the proceedings in the vicinity of the boat houses at the upper end of the River Walk, and in the Elysian Fields. The members of the various clubs are prepar- ing for the season, which will open next month, and club houses and boats are receiv- ing as much attention as either ever receive outside of rowing time. Nearly every boat club will have one or more new boats this year.	A large and powerful steam pump has been put up in the frame bulkling near the ferry, at the foot of Newark street, for service in case of fire at the ferry house. Connected with it is a system of pipes with outlets in various parts of the ferry buildings, and in the room between the two Christopher street slips are two large stand pipes connecting with the Hackensack water supply. A strong and light hose cart, upon which are bent ten lengths of fire hose, stands near the upper gate of entrance inside the ferry house, ready to be run to any part of the building at any moment. A number of hose lengths are also distributed at intervals near the plugs and regular drills have been inaugurated, so that each employe in and around the buildings will know just what to do and where to go, when the fire alarm is struck. A Novel by a Journalist . Mr. F. W. Paugborn, the city editor of the Jersey City <i>Eccning Journal</i> , has written a novel and published it. "Alice; or, The Wages of Sin," is a story of everyday life, The hero, in his youth, commits a sin which follows him, like a Nemesis, through life, and in the end drags him and the innocent object of his affections down to a hopeless, pitilless doom. The plot shows considerable origi- nality, and is cleverly handled. The style is "journalistic," that is, terse and vigorous, and does not drag. The interest is climactic and endures to the last word of the story. The author is merciless in his deductions, though charitable to the sinner, whom hep-un- ishes by the enforcement of inexorable lax. The book is published by the <i>Eccning Journal</i> Association, and is for sale at all book stores	her daily trips between New York and Long Branch. At a recent meeting of the Executive Com- mittee of the State Agricultural Society, the time for holding the next annual fair was fixed for the week opening Monday, Septem- ber 17. The schedule of premiums has been thoroughly revised, and many new premiums added in each department. It will be ready for distribution about May 1. At the sale of the Bushnell collection in New York, forty dollars was paid for a book entitled "New Jersey, A Bill in Chaneery of New Jersey, at the suit of John, Earl and Stsir, and Others. Proprietors of the Eastern Division of New Jersey. Against Benjamin Bond, and Some Other Persons of Elizabeth Town, distinguished by the Name of the Chinker Lot Right Men." The Board of Directors of the Newark Plankroad Company met at their offlee in Jersey City, Monday, and agreed to reduce the tolls on two-horse teams from thirty to twenty-five cents, and on one horse from eighteen to fifteen cents, and to issue com- mutation tickets, good for fifty trips, at a discount of ten per cent, from the above rates. The new rates are to take effect on the first of May. SPORTING NOTES. The Rosedale Boat Club has built a new float and placed it in position in front of the boat house. The members of the Active Boat Club have been working hard to prepare for the rowing season. The float is out and in good condi- tion and the boats are being overhauled. They expect to be out in their eight-oared gig next month.

"Allee; or, The Wages of Sin," is a story of everyday life. The hero, in his youth, commits a sin which follows him, like a Nemesis, through life, and in the end drags him and the innocent object of his affections down to a hopcless, pitiless doom. The plot shows considerable origi- nality, and is cleverly handled. The style is "journalistle," that is, terse and vigorous, and does not drag. The interest is climactic and endures to the last word of the story. The author is merciless in his deductions, though charitable to the sinner, whom hepun- ishes by the enforcement of inexorable law.
