(Continued from Page 1) elocation of business places also the immediate area.

Thus far, it is reported the Hoboken Housing Authority, with Attorney M. Edward DeFazio, executive director who is assisting Clyons with the project, has approved 55 offers of property sales within the area.

It is also reported the Housing Authority has already obtained deeds for 25 parcels of property in the same section which even tually will become a high rise complex of modern apartments and a commercial building overlooking the Hudson River. Plans include parking facilities for some 2,500 cars, and the possible relocation of Hoboken's city hall within the complex, including a police and fire headquarters.

Chairman Cylons also said the Housing Authority is planning condemnation of at least 10 parels of property where pric offers have been refused, and that 18 other properties are still being negotiated for sale to the Authority.

Hoboken Dock The nuclear power freighter Savannah is due to leave Hoboken tomorrow after its four-day stay to unload cargo.

The boat, which tied up at pier 'C' Friday, is due for an overhauling! including refueling in Galveston later this week.

The Savannah, the world's first ommercial vessel with atomic ower, has run 330,000 nautical miles in the six and a half years she has been operating, on the

In the years she has been op-erating the 600-foot vessel has used 119 pounds of her nuclear fuel, U-235. If she had been a conventionally powered ship she would have burned more than 95,000 tons of oil, according to First Atomic Ship Transport, Inc. (FAST), a subsidiary of American Export Isbrandtsen Lines.

Adm. John M. Will, who is retired from the Navy and chairman of American Export and of FAST, said the ship had brought n more than 5,000 tons of cargo rom the Mediterrean.

Originally designed as a compination passenger and cargo ship to demonstrate on world voyages the peaceful application of atomic energy, the Savannah became a commercial carrier three years ago, under charter to the FAST concern. She has carried 110,000 ons of cargo in that time.

## Macy's Display **Ad Office Plans** Hoboken Setup

The extensive display advertising department of R. H. Macy & Co. will occupy a portion of the old Tootsie Roll Co. plant in up town Hoboken, it was learned yes-

According to a reliable source, a Macy representative made final arrangements for relocation of the department from the New Yorksed executive offices in discussions in Hoboken Friday.

Relocation will begin within the next few weeks. It is expected that between 15 and 20 additional persons will be employed, Macy's will share the extensive

Tootsie Roll plant, located in a wo-block area from 15th st. to 6th st., and from Willow av. to Park av., with two other New York companies. The Alborna Coat Co. and the

Holly Deb Classics Corp. completed transactions for the Sweets Co. of America building in late July. The latter two companies are expected to move their entire manufacturing facilities to Hoboken, thus consolidating four ex-

isting plants. They will employ an

estimated 200 persons.

Hoboken City Council last night announced that federal aid for the Model City Program has been increased from \$90,000 to \$132,000. The money is to be applied to the initial stages of the program.

Council also passed a resolution introduced by Councilman Francis J. Finnerty to reject the bid of LaFera Contracting Co. made on June 19, 1968, for the collection of garbage in Hoboken. LaFera's bid was for \$350,000. At presen the company is collecting trash under a court order obtained by Hoboken City Council. New bids will be received by the council at a meeting 11 a. m. Sept. 4.

A resolution by Councilman Louis Francone calling for the receiving of bids for the repair of toilet facilities at Elysian Park, 10th and Hudson sts., was also adopted. Bids will be accepted at a meeting 11 a. m. Aug. 21.

E. Norman Wilson, director of law, requested council study the need of Hoboken Police and Fire Departments for new equipment Reportedly, some of the equip ment needed includes two police cars and protective equipment and clothing for firemen. Bids will be received at the Aug.

1 meeting for the demolition of buildings owned by the city at 321 Adams st., 210 Jefferson st., 209 Grand st., 211 Grand st., 118 Adams st., 503 First st., and 132 Jackson st. The resolution authorizing the acceptance of bids was introduced by Councilman Fin-

Two citizens directed questions o the council. One man wanted clarification of the Hoboken tax rate, saying he understood it to be about seven dollars less than h had been billed for. Council president Thomas A. Gallo explained that the extra money is that used by the city to pay county taxes.

Another citizen complained of a leged dangerous conditions in Clin ton Lumber Co., 83 Willow av. The man claimed that scraps and garbage were piled in the yard, creating a fire hazard. Councilman Anthony H. Romano accompanied the man to the site following the meeting to investigate. To Avoid Tickets 8/19/68 55.

special programs. The approval was announced at last night's meeting of the Hoboken Board of Education.

## Dual Alarm For Hoboken Library

A dual fire and burglar alarm system has been installed in the Hoboken Public Library.

The system was installed on

the first and basement floors of the building by the Rapid Burglar Co. of Bayonne at a cost of about \$900. Samuel Schleikorn, the library

board's secretary, said the board is also having new screens installed on the ground floor of the building to prevent further window damage from youngsters playing ball.

'WE HAVE a monthly bill of about \$150 for the repair of the windows," he said. "Most of the damage is on the Fifth Street side of the building facing Church Square Park. "The screens will be installed

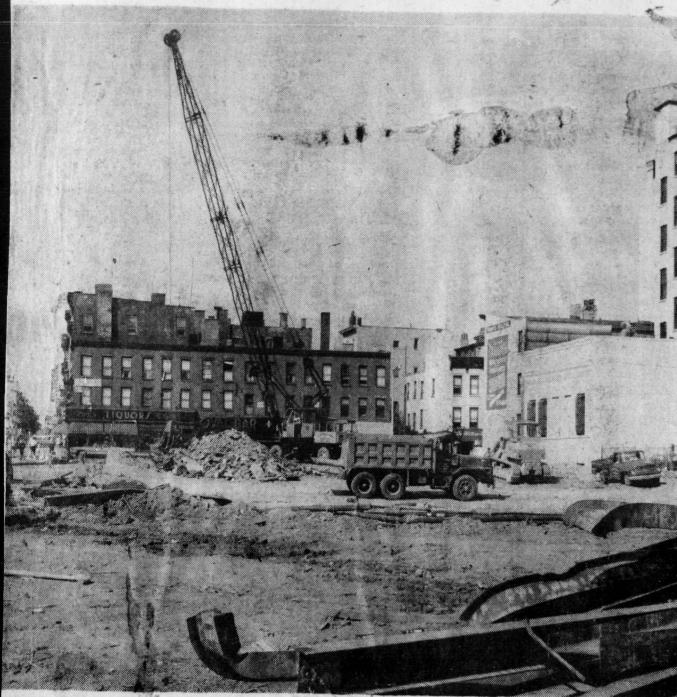

about three inches away from the windows. This should be far enough away so that they stop the balls or slow them down enough so that they don't break the glass." Schliekorn appealed to the

parents of the children who played ball near the library to remember it is their library and they should try and avoid playing ball near the building. THE LIBRARY board is in the

process of implementing numerous improvements in the building made in an evaluation several months ago. New shelves have already been installed in some of the rooms. Schliekorn said that the board

would continue making the recommended improvements but work had stopped until the library's state-appropriated funds were made available. He said this would be in several weeks.

## Hoboken Tax Consultant Says 1966 Reappraisals Being Updated

## Original **Figures** Seen Void DePascale Bids To Bar Mistake

The Realty Appraisal Co. of West New York did finish the 1965 reappraisal of all Hoboken property for the implementation of 100 per cent assessment, but the company's findings won't be found in the city of Hoboken, it was learned today from various city officials.

Two members of the Hoboken Rentpayers and Taxpayers Assn. tried to find the reappraisals last week but came up emptyhanded at City Hall.

ACCORDING TO E. Norman Wilson, law and public safety director, the reappraisals were contracted for in 1965 and completed in 1966. Herbert Fine, special tax

consultant to the city, said he knew for a fact that the Realty Appraisal Co. had the reappraisals in its possession for the purpose of updating them as ordered by the courts.

Mayor Louis De Pascale, commenting on the association members' claims that they had not received too much cooperation from city workers when they inquired about the appraisals completed in 1966, said their inspection of them would serve no practical purpose.

'EVEN THOUGH they were completed in 1966, they are no longer up to date and have been ordered updated by the courts," he said. "No one is going to be able to reach any conclusions which would be valid in 1969 from figures compiled in 1965 and '66.

"The figures from the original mean nothing until they are up-

DePascale said Hoboken did not intend to make the same mistakes made by North Bergen which also had the company do its reappraisals for 100 per cent

assessment. "North Bergen made the mistake of assuming that the company's figures were 100 per cent correct," he said, "They were used as the new assessed value of the property there without ever being rechecked.

WE WILL RECHECK the company's figures before accepting them through the use of he city assessor.'

Although 100 per cent assessnent goes into effect on Jan. 1, Hoboken taxpayers won't be aware of it until sometime in

Hoboken tax bills are sent out four times a year. Local officials figure that by the time the county tax rate has been struck, the January and April bills will have already been sent out based on the 1968 rate.

The difference, either over or under, is usually made up in the July bill.

100% Assessment 9/5/68 55

## Hoboken Taxpayers Study 10 Answers

By PETER HALLAM

The Hoboken Rentpayers and Taxpayers Assn. has the answers to the 10 questions concerning 100 per cent assessment that were asked of the City Council at its Aug. 21 meeting

and is now in the process of studying the replies. However, a spokesman for the group said that he was already concerned with at least one answer. Vincent J. Fusilli, chairman of

the rentpayers division, said he was concerned over the city's choice of a firm to do the reassessing of property values.

'WE ASKED who it was because we are fearful of a similar situation developing in Hoboken to the one that now exists in North Bergen," he said. "That community's confusion was in part caused by assessments made by the Realty Appraisal Company of West New York, head by Joseph Rubinstein.

"Hoboken now tells us that its reassessments are being done by the same company and presumably by the same Rubinstein. We can only assume that we will find the same faults with Rubinstein's work that North Bergen did."

Fusilli said that Rubinstein, who was fired by Mayor Angelo Sarubbi as the North Bergen assessor, had apparently failed to perform in a qualified man-

'THERE were many faults found with his work and as a result, there are now more than 2,100 tax appeals from property owners in North Bergen," Fusilli said. "Persons were over assessed and under assesed. The entire reassessment was not equitable and the tax payers found out about it.

"As a result, the township has had to hire new appraisers to do the job all over again. Unfortunately, the people of North Bergen must suffer with Rubinstein's appraisal for the current budget.

"They are also out \$125,000 ich was paid to Rubinstein for

**TAXPAYERS** 

the job and will probably have to institute legal proceedings to try and get at least some of the money back."

FUSILLI SAID that he still had to go over the council's answers with the rest of the association members before he could comment on the overall tax picture. However, he was relatively sure that a demand would be forthcoming shortly to dismiss the West New York Company.

"I don't want to see Hoboken throwing its good money after North Bergen's bad," he said. "We deal with people in business because of the reputation they have built for themselves. Going by this company's current reputation we have made a mistake and one that should be corrected as quickly as possible before it costs us more than we can afford to waste."

THE questions asked by the association and the answers given by the council follow:

Q1. What is the plan to imple-

ment the 100 per cent assessment by Feb. 1, 1969?

Q2. Will it be necessary to employ an outside organization to do this?

A1&2. "To comply with the order of the court, this council on June 5, 1968 by resolution authorized the Realty Appraisal Co. of West New York, New Jersey, to bring up to date its 100 per cent assessment appraisal, which it had previously completed in the year 1965.

Q3. IF an outside organization is necessary, will it be one owned, operated or one in which a city employe - full-time or part-time - is a key individual; and will the assessors of the outside organization by qualified according to all pertinent laws? A3. "The Realty Appraisal Company is a private independent company. It does not employ any employes of the city of Hoboken. The appraisal company is well qualified, licensed and capable in appraisal matters, with years of experience in court appearances and in business since 1920. This company will qualify under any

pleted to insure that 100 per cent and apart from the question of state of New Jersey, providing assessment is applied fairly and equally across the board?

A4. "In arriving at true value of the taxable ratables, the following three approaches will be used, depending upon the type of property: sales of real property, reproduction costs and income capitalization. All three approaches should be considered in arriving at the true value for all property. We have been assured by the Realty Appraisal Company that in arriving at its 100 per cent appraisals of true value, it will use the three methods herein stated."

Q5. WHAT will insure that the 100 per cent assessment exercise will not be exploited as a mechanism to provide more and surplus money for spending by community officials?

A5. "The question of expenditures and the share of each taxpayer in those expenditures Q4. ARE any guidelines com- is a matter entirely separate

100 per cent assessment of tax for and allowing any tax abateratables. If, for example, a ment in this particular type of municipality was composed of housing project and developonly one-family houses the fact ment."

that the owners were assessed at 100 per cent or varying percentages would not effect the amount of taxes paid." O6. What does the adpassed on to the tenants as a Jersey." result of 100 per cent assessment?

A6. "The legislature of the statement said: state of New Jersey some years ago permitted the rent control law then in operation in this city ing with the independent apto expire. The municipality only has those powers granted by the furnishing records and informaauthority or power to control or 100 per cent of true value will be in this city."

07. IS the administration profiting from the errors being completed, the tax duplicate of made by officials in adjoining

county of Hudson have their court in all respects.' taxes equalized each year by the Hudson County Board of Taxation so that each will bear its fair and just share of expenditures.'

Q8. Will favorable tax arrangements be granted to the ouilders in the Model Cities program so that their burden will be borne by the other homeowners and taxpayers?

A8. "No exemptions or abatements can be made or arranged with builders in the Model Cities program unless same is provided for by some permissive legislation on the statute books as relevent to such type development program."

O9. HOW will the 100 per cent assessment affect the existing instances where tax abatement may have been granted, for example, the Church Towers enterprise?

A9. "Any tax abatement granted to the Church Towers housing development was granted pursuant to a law of the

Q10. How will the 100 per cent

# Voters May Decide Fate of Crosstown Bus Plan

After years of discussion and debate on the advantages and disadvantages of a crosstown bus system which would service the west section of Hoboken, the City Council has taken steps to put the question directly to the voters in November's general

An ordinance authorizing a referndum on the question of a crosstown bus system operated by the city was introduced at yesterday's City Council meet-

IF THE ordinance is eventually approved by the council as expected, Hoboken residents will be asked to approve or disapprove the city operation of a bus line using the following route: starting at Hudson and 4th Streets, west on 4th to Jackson Street, north on Jackson to 5th, east on 5th to Madison Street, north on Madison Street to 7th, east on 7th Street to Hudson, and south on Hudson to the original starting point.

Bus service for the west section of Hoboken has been under discussion for more than six years. Third Ward Councilman Steve Cappiello favored the idea and was actively supported by several fellow council members. But the matter failed to get beyond the discussion stage.

THE BALL was taken up by the Chamber of Commerce, the Merchants Retail Bureau and most recently by the Nunzio Malfetti Assn. which had started a petition campaign urging the city to take action on such a

But it was Cappiello, who had used the need for a bus system in his campaigns for public office in 1963 and 1967, who finally got the council to give the public a chance to express its views on the proposal.

LAW AND Public Safety Director E. Norman Wilson said that if the voters approved the proposal, the city would still have to draw up other ordinances designating the authority to operate the system to a department and setting up a formal plan of operation.

The council also approved the reappointment of William Cox to the city's planning board for another six year term. Cox, who is in his 80's, is president of the

CONTRACTS were awarded to the Gottlieb Wrecking Co. of Hoboken for the demolition of 321 Adams St., 210 Jefferson St., 209 and 211 Grand St., and to Seaview Demolition and Rental Co. of Jersey City for the work at 132 Jackson St.

Specifications for the demolition of 16 other buildings in various parts of the city was approved by the council which authorized the city clerk to advertise for bids which would be presented to the council at its Sept. 18 meeting.

THE buildings are 219 Madison St., 114 Willow Ave., 117 Clinton St., 230 Jefferson St., 520 Monroe St., 508 2nd St., 313 Madison St., 518 Monroe St., 162 1st St., 56 and 58 Garden St., 92 and 94 Grand St., 206 Madison St., 416 Adams St., and 209 Madison St.

A complaint was lodged with the council about a vacant gas station on the corner of Newark Street and Observer Highway. First Ward Councilman Anthony H. Romano said that he has already asked the fire department to inspect the station and have the owner clean it up if there are any fire violations.

THOMAS Vezzetti, owner of the building at 1318 Washington St., strongly urged the council to take measures to cut the city payroll as a way of offsetting 100 per cent assessment next

"My taxes on my building have gone up \$1,000 this year without 100 per cent assessment," he said. "I'm just about breaking even now. If 100 per cent reflects another tax increase, I'll be forced out of

"I suggest the city start cutting its payroll. This might help off set the tax increase."

By ARTHUR FELSON

boken city hall yesterday as political discussions took place in small caucuses following the release Tuesday of a partial list of persons to be employed in Hoboken's \$2 million federally-funded Concentrated Employment Program (CEP).

From 9 a.m. through 2:30 p.m., several meetings were held in city hall and in neighboring places where politicians and constituents gathered to discuss what is now being called "clear cut politics."

The major upheaval stemmed from the release of a list of 13 employes approved by Mayor Louis De Pascale and acting CEP director, Raymond G. Clyons.

Most of the 13 employes were found to have been recommended to "higher-ups" by several city councilmen; were political backers of these councilmen or the mayor in some cases or were in the employ of the city in other departments or positions.

The seriousness of the upheaval was stressed by a highplaced person in city hall in an off-the-record interview.

Asked if the appointments made were political in nature,

the source said, "Yes, and will be approved by the end of everyone knows it. This entire

Mayor De Pascale took exception to this paper's headline, which stated "politics" was

situation goes much deeper than

it would appear on the sur-

seen in the CEP hirings. However, the mayor did admit and confirm several points

in the story.

These included the fact that Clyons, presently the head of HOPES, Hoboken's anti-poverty agency, has returned to his position as principal of Joseph F. Brandt School and will only be head of the CEP program until Sept. 15; a permanent head of the program will be appointed then and most probably by

the week.

Also, that only the recommendations of the councilmen and other "city hallers" have been used to secure the names for those who will be involved in the administrative end of the program and no public notice or newspaper ads for employment were placed.

"Our Friends"

The mayor said when asked about those hired, "We only recommended those who were

Purpose of the program is to provide 700 Hoboken hard-core unemployed with in-service jobtraining while paying them \$40 a week for learning new or useful skills. It is administered under the federal guidelines set up by the U. S. Labor Dept.

Clyons was interviewed outside the mayor's office and also took exception to the Hudson Dispatch headline, while, in essence, not objecting to the story itself. Clyons said, "My purpose is

to be genuinely interested in the welfare of those in our city. I am just trying to do a good job, not to be a politican." Among the councilmen who,

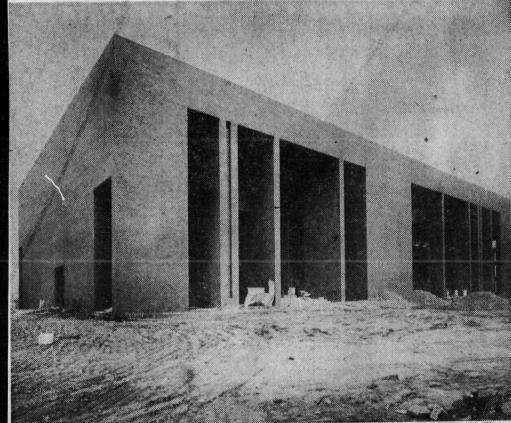

it was learned, interceded on behalf of the 13 employers were: First Ward Councilman Anthony H. Romano (2 employes); Fifth Ward Councilman Francis Finnerty (1 employe); Second Ward Councilman William J. Matthews (1 employe); Sixth Ward Councilman John J. Palmieri (1 employe) and Third Ward Councilman Steve Capiello (1 employe). Cappiello said, "All us coun-

cilmen are interested in our constituents. I did recommend

HOPES Gets Cash for '69

Rep. Dominick V. Daniels (D-14th), in Washington yesterday announced that the Office of Economic Opportunity has approved a grant of \$239,243 for 1969 administration of the Saturday Volunteer and Summer Camp Program operated by the Hoboken Organization Against Poverty and Economic Stress (HOPES).

Daniels said the program is designed to upgrade the education of 90 Neighborhood Youths Corps enrollees during the next 12 months

Daniels stated: "This program will assist educationally deprived children in the Hoboken area to supplement their in-school training in order that they might be able to compete with children of their own age group. In this way we hope that these children will be able to utilize their talents to

the fullest "It is our hopes that these children will thus be able to take advantage of the educational opportunities open today and as a result become useful citizens.

**CEP List** 

(Continued from Page 1) pull," admitted, "I may have recommended one of those named."

Councilman Finnerty said, "I gave applications to several of my friends." Pressed, he admitted he did recommend, Mrs. E. Nelson of 921 Garden st.

Councilman Matthews who also said, "I gave out several applications" also was narrowed down to, "I recommended one." Additional names were learned yesterday.

Appointed without pay as a person who will be doing "odds and ends" is George McGuire, a city housing inspector.

Appointed to the non-professional staff is Richard McAleer of HOPES. His salary could not be determined last night. Appointed as an aide, at an

underclosed salary is violations bureau clerk, James Palestini. Appointed as a clerk is former Hoboken municipal attorney, Dominick Rinaldi. "Personally" Boosted

McGuire, a confidant of Councilman Romano and deputy director of health and welfare Carmine Cutillo, was according to a reliable source, "personally recommended by Councilman Romano."

Palestini, who had been on a leave of absence from his city hall job, was recommended by Council President Thomas A Gallo. Gallo admitted before yesterday's council meeting that he recommended Palestini and Frank Bellizzi, former president of the Thomas A. Gallo Club.

"I feel that they are competent people and I did recommend them," Gallo said.

The Palestini approval was so sudden, that he did not even know that he was appointed, although ne is scheduled to start his new job next Monday.

It was also learned that seriousy being considered for an unspecified position is board of education member, Frank Weeks.

It was indicated that it is almost confirmed fact that board president, John McAlevy will be named by tomorrow as director of the

If McAlevy and/or Weeks would leave their board positions, the mayor would then have to make special appointments to fill in

Similarly, any persons now in positions in city departments would have to take leaves of absences thus leaving open other job

Present at city hall during the early afternoon was Thomas Mil-States Department of Labor, who will oversee the CEP program from his office at the Adams

Commenting about the background investigations of those hired for the program, he said, "The department of labor investigates all those hired and if we find fraudulent aspects in the applications, the person will be

Asked if the department has completed the investigations, he said, "No, we sent letters to the various employers last week and have not heard from them. Until the employes are cleared they are considered temporaries.'

Both he and Clyons also pointed out that out-of-towners could be employed in the program.

"Fifty per cent can live out of own, but after a short period of time they would have to establish residence in Hoboken," Miller

He also said that persons in the orogram would be able to work

"They can be permitted, and sometimes it is advisable, for them to work at two part time

After the interview Miller joined the entire council and several others in a closed meeting with Mayor De Pascale, to discuss potential housing sites in the city and the future of the Todd Ship-

Among those at the meeting were: the mayor, Miller, Councilmen Scrivani, Cappiello, Finnerty, Francone, Matthews, Mongiello Council President Gallo, Clyons, Frank Bartletta, Edward De Fazio of the Housing Authority, model cities director, Michael Coleman, Law Director E. Norman Wilson, and George McGuire, a housing inspector.

LATEST IN COMMUTER CARS-Modern, high-speed electric commuter trains on public display in Hoboken were inspected Wednesday by Mayor Louis DePascale, and Councilmen John J. Palmieri and William J. Matthews, being welcomed aboard by John G. Drake, superintendent of Erie-Lackawanna passenger operations. Estimated to cost \$285,000 each, the modern trains may be made available to local commuters depending on voter approval Nov. 5 of the \$640 million transportation bond issue.

# Grogan Dies of Heart Attack

County Clerk John J. Grogan

LAST OFFICIAL ACT—Hudson County Clerk John J. Grogan (left, facing camera,) goes over procedure or drawing for positions on the November presidential election ballot with candidates at his office in the administration building, Jersey City, at 3 p.m. yesterday. Grogan suffered a fatal heart attack a short tme later. Robert H. Wall, county counsel, is at right. (Story on drawing on Page 3).

## County Clerk Led Hoboken

Former Mayor, 54, Active In National Labor Circles

By JACK ECKHARDT

Hudson County Clerk John J. Grogan, 54, recognized Democratic leader of his native Hoboken, where he had served as mayor for a 10-year period, died of a heart attack yesterday afternoon. He was stricken at the county administration building at 3:30 o'clock and died in Jersey City Medical Center an hour later.

## Hudson Leaders Pay Tribute to John J. Grogan

By WILLIAM H. TAFT

A seemingly unending line of mourners from Hoboken and elsewhere began filing into the Bosworth funeral home at Willow Avenue and 3rd Street in Hoboken last night to view the body of John J. Grogan, the city's leading citizen for the past 20 years.

Expected to arrive soon at the Grogan home, 822 Hudson St., was the late Hoboken Democratic leader's son, James. A Navy air cadet currently based at Sicly, he was reached by the Hoboken Red Cross after his father's death Monday evening. He cabled his mother, Mrs. Eileen Grogan, saying yesterday morning, he was coming home in time for the

THE BODY will be on view today and tomorrow from 2 to 5 in the afternoon and from 7 to 10 at night. It will be taken from the funeral parlor Friday at about 9 a.m. The mass will be said at Our Lady of Grace Church, nearby, at 10:15.

The deceased Hudson County clerk and former mayor will be buried in Holy Cross Cemetery, North Arlington. It is estimated that the funeral cortege will include at least 50 limousines plus countless private vehicles.

NO organizations were present at the wake last night. There were just individuals. As a spokesman for the Bosworth Funeral Home explained, they were mostly relatives and intimate friends

But among them were every member of the Hoboken City Hoboken Fire Chief Patrick Highlands. Carmody, West New York Police Chief Anthony M. Casper, West New York and state Senator Fred Hauser of Hoboken.

THE LATE Mr. Grogan also received a tribute from the area's Jewish community today. Rabbi Samuel Tobak of the Hoboken Jewish Community Center, said:

"On behalf of the Jewish community we are shocked at the passing of Mr. Grogan. We share in the bereavement of all the hundreds or thousands of friends of former Mayor Grogan. The Jewish community will always cherish the genuine friendship he showed throughout the years of his service in Hoboken. We are especially grateful for his assistance to every ideal Jewish cause."

MR. GROGAN followed in death his younger brother, the Rev. Nicholas Grogan (born James Grogan), a member of the order of Missionary Servants of the Most Holy Trinity, who

The Adult Basic Education program which has been sponsored by the Hoboken Organization against Poverty and Economic Stress (Hopes) since last October will not be refunded and will have to disband, Larry Lerdo, project head, said today.

Lerdo said the only reason he was given by the state for not refunding the program was the recently started federallyfinanced Concentrated Employment Program in Hoboken also would be offering an adult education program.

I DOUBT if this new program will do what our program has done in the one year of our existence," Lerdo said. "Since last October, when we started, more than 400 persons successfully completed the course.

"We also have a year's experience, four trained instructors and the willingness to participate in our classes."

'SINCE last October, the program has helped many Puerto Ricans, as well as people from other foreign countries, to learn the English language, get better jobs and has helped to break part of the language barrier that exists here in Hoboken.

"If this is the case, I don't see any reason why our program can't be incorporated into the CEP. It will give the CEP more flexibility; it will be to a certain extent inexpensive to them and they will have immediate use of highly qualified instructors to start their program with the highest number of students

LERDO said he has brought the situation to the attention of the mayor.

Mayor Louis DePascale said he intended to meet with E. Norman Wilson Jr., head of Hopes, today to discuss the situation and to see if something can't be worked out.

the municipal court chambers.

'BABY-SITTING' — While Spanish-speaking parents attend English language class for foreign-born in Hoboken YMCA, Mrs. Carol Glavocich, a teacher's aide, 'baby-sits' for their children in another room. Not content to keep them company, Mrs. Glavocich teaches the children, too. She had been slated to become head of the city's school crossing guards, but preferred to take job with basic adult education program instead. Similar classes for adults, with teacher's aides for children the parents bring along, are held at 200 Willow Ave., 117 Madison St. and the First Presbyterian Church.

## Old Wallace School Days Numbered

The days of the Wallace School, 11th Street and Willow Avenue, Hoboken, may be numbered. Under the provisions of a new bill introduced by state Senator Frederick Hauser, both the principal and interest costs of replacing the old with a new \$3,000,000 school would be borne by the state.

MAYOR LOUIS DePascale has been notified by Hoboken board of education officials that application for additional state aid building funds will be forwarded to Trenton next week under the new bill.

The Wallace School, oldest of all city school buildings, has been earmarked for sometime by DePascale as the most logical site for any new school construction. The building is said to have reached a stage where annual maintenance costs increase every year.

Mayor **At Dinner** 

Mayor Louis DePascale of Hoboken has been unanimously selected "Man of the year" by the local chapter of Unico National, it was announced today by Vincent Modero, president. The mayor will be presented with his plaque at the 22nd annual scholarship dinner and dance on Nov. 23 at the Union Club.

Modero said Stephen E. Mongiello, a councilman-at-large and local attorney, will be toastmaster and make the presentation to the mayor.

IN ANNOUNCING the selection of the mayor as the recipient of the award, Modero issued a statement saying in

"Since he took office in 1965, Mayor Louis DePascale of Hoboken has been the prime mover for a score of civic programs that have brought millions of dollars in improvements to the

city.
"Today a giant lighted sign overlooks the Port of New York. It carries the message "Hoboken Welcomes Industry-Come On Over." The sign was the mayor's idea and is typical of the aggressive approach this

MAYOR LOUIS DePASCALE

dynamic public officials has taken to solve the problem of his city and to move it forward in a jet age.

'MAYOR DePASCALE set a whirlwind pace for civic improvements since his election. Old buildings are constantly being torn down to make way for modern dwellings. Streets are cleaner and better lighted, and a parking authority has been created to deal with the problems of obtaining greater offstreet parking sites.

"During his term the city's largest middle-income apartment project was completed. This was the \$6.2 million Church Towers development. Industry has also expanded and Stevens Institute of Technology is now in the middle of the greatest building program in its history. Many interpret this as a sign of confidence in a farsighted and hard-working chief executive.

"Today the mayor is looking forward to greater milestones.

'THE FIRST is the clearing of three city blocks from First to Fourth Streets, Hudson to River. On this side, overlooking the Manhattan skyline, will be constructed four super luxury apartment buildings and a highrise office center with facilities for parking more than 2,000 au-

He added that months of hard work were culminated last November when the federal government announced that Hoboken had been selected as a Model City.

'AS A Model City Hoboken is now eligible for millions of dollars in federal aid to give one third of the community a face lifting," he continued. "It has been truly said for years he has been a vital force in the Democratic party in Hoboken. Mayor DePascale was honored in August by being chosen an alternate delegate to the national convention in Chicago."

DePascale lives at 1233 Garden St. with his wife, the former Mary Neumann, and their four sons, Edward, Paul, Joseph and Thomas.

PAUL CARDINALE and Joseph Costanza are co-chairmen for the dinner. Joseph Guzzi and Rocco Gratale Sr. are in charge of journal arrangements and layout. Daniel Simone, Peter DePalma and Quentin DeFazio are in charge of decorations, music and tickets, respectively.

Members of the general committee are M. Edward DeFazio, John Amato, Frank Aniello, Joseph Apicella Jr., Thomas A. Gallo, Michael Gallo, John Gato, Dr. Frank Marciano, Charles Poggi Jr., Dr. William Visconti and Charles DeFazio Jr.

Mrs. Eileen Grogan, widow of Hoboken to erect a bronze statue Hudson County Clerk John J. in Church Square Park, for the Grogan, yesterday informed the man who served as the city's mayor of Hoboken that a sugges- mayor from 1963 until 1965. It was during the funeral Mass for Mr. Grogan that Rev. Daniel F. Meehan, pastor, eulogized the city's former mayor and county clerk as "A shining example to the priests of this parish." He described the late Mr. Grogan as devoted father, dedicated public official, outstanding labor leader and an humble and Godfearing

Mayor Louis DePascale, who back in 1965 was singled out by Mr. Grogan as the one to succeed him as head of the City's government, told of Mrs. Grogan's decision.

Has Studied Plans

"Mrs. Grogan informed me she has been studying suggestions offered thus far to memorialize her husband. Included among such suggestions was the possibility of renaming Hoboken High School or dedication of a street in his honor," DePascale

Mayor DePascale said Mrs. Grogan related to him over the weekend that "Since my husband has been identified with many programs over the years that would improve and modernize Hoboken in the interest of all people, feel the naming of the propose

Mrs. Eileen Grogan Widow

(Continued from Page 1) Hudson st. project in his memory would be most fitting."

Agreeing with Mrs. Grogran that Hoboken's major rehabilitation project along lower Hudson amed in Grogan's memory Mayor DePascale said, "These buildings will be a symbol of the new Hoboken which John J. Grogan labored many years to bring about. I feel, and trust our city residents will agree that they will represent his progressive and modern approach to make his city, one of the finest in the na-

At the same time, Mayor De-Pascale said a suggestion made by Mrs. Georgiana Unalt to rename Hoboken High School as "John J. Grogan Memorial High School" will be forwarded to

members of the board of educa-It was also indicated that i such a suggestion by Mrs. Unalt, an employe in the city's traffic violation bureau is not approved, her thoughts may be projected next June when the high school's

senior class dedicates its annual graduation yearbook "to an outstanding person." Meanwhile, plans to erect the bronze bust in Church Square Park were put into motion by

former Hoboken resident John A. Fazio, presently director of cabana club operations at Hotel Deauville, Miami Beach, Fla. Fazio, who back in the early 30's was a wrestling instructor at Hoboken-North Hudson YMCA

went to Florida in 1945 and be came interested in hotel management. He stayed there but never ost contact with friends in Ho-Fazio returned to Hoboken for

the Grogen funeral, and before leaving contributed a reported substantial sum of money to start the campaign for the statue in Church Square Park. It is reported the general public

will also be afforded an opportu nity of contributing to the statue memorial, a committee being named with an established post office box where individual contributions may be sent. It was indicated that names of individual donors for the proposed bronze statue, estimated to cost between \$5,000 and \$10,000, will be secured in a metal box within the monument's cornerstone.

## War Monument To Be Unveiled At High School

The \$15,000 nine-ton monumen honoring Hoboken's war dead will be unvailed Nov. 11 at the high school stadium.

Gov. Richard Hughes an Mayor Louis De Pascale are expected to attend the ceremo nies dedicating the 12-foot high figure which depicts represen tatives of the Army, Navy Marines, Air Force and Coast Guard.

Constructed by the Fairview Monument Co., it will be located in the southwest area of the

# Will Name Hudson Street Project in Honor of John J. Grogan

## Authority Backs Plan Of Mayor

The Hoboken Housing Authority has agreed to name the Hudson Street Urban Renewal project the John J. Grogan Marine Plaza in honor of the late County clerk and former Hoboken Mayor, Raymond G. Clyons, authority chairman, said today.

The authority unanimously accepted the suggestion of Mayor Louis DePascale to name the project after Grogan but did not go along with the name he suggested of Grogan Towers.

CLYONS SAID that the board members felt that this was something that they had to do regardless of similar tributes that may yet be paid to the late mayor. Other suggestions still include naming the high school after him and the renaming of a city street.

"Suitable scrolls and plaques will be incorporated into the overall project honoring the late mayor," Clyons said.

The chairman said that demolition on the block between hird an Fourth Street should be started by the end of the year. He said that construction on this part of the three block project should get underway by March

The other blocks will follow within weeks of the first, he

NO ACTION was taken on the ppointment of Michael T. ualario of 1209 Garden St. as e new relocator of the edevelopment project. ## 41 Substandard Buildings Being Demolished in Hoboken This Year Contracts

## Given to 7 Wreckers

Demolition of substandard and slum property is having a banner year in Hoboken in 1968. Since January, the city has contracted with seven different wrecking companies to take down 41 buildings, according to figures released today by Public Works Director Raphael P.

The first contract of the year was issued to Interstate Wrecking Co. to take down 12 buildings on Jan. 17. The buildings are 68, 83 and 82 Madison St., 75, 522. 506 and 233 Monroe St., 89 Madison St., 560 and 562 First St., 604 Newark St., and 508 Monroe St. All of the buildings are either down or are in the process of coming down.

GOTTLIEB WRECKING CO. was awarded a contract to take down 563 First St., 508 First St., 73 Madison St., and 53 Willow Ave. All of these buildings have been demolished. The H. White Wrecking Co. was awarded the contract to

take down the building at 415 Monroe St. on Aug. 21. By Sept. 27 the job was completed. Contracts for the demolition of 321 Adams St., 210 Jefferson St., 209 and 211 Grand St., 118 Adams St., and 503 First St., were awarded to Gottlieb on Aug. 7. However, 118 Adams and

503 First were reclaimed by

their owners before the work

ON SEPT. 4 the city council awarded contracts to Seaview Demolition for 132 Jackson St.; George O'Connor for 219 Madison St., 114 Willow Ave., 230 Jefferson St., 56 and 58 Garden St.; Peter Juzefyk for 117 Clinton St., 520 Monroe St., 508 Second St., 313 and 206 Madison St.: 518 Monroe St., 92 and 94 Grand St., and 416 Adams St.; Colgate Wrecking for 162 First St., and Seaview again for 209 Madison St.

The city is now looking for bids to demolish 518 Jefferson

According to Vitale, over \$100,000 will be spent this year on ridding Hoboken of substandard and slum tenement build ings. The money is provided by the federal government, the state and the city.

## Hoboken 1917 LE Pays JC For Supply

By PETER HALLAM The City of Hoboken and the United States Testing Co., its main office in Hoboken, are negotiating a contract for the company to perform daily tests on Hoboken's water supply, it was learned today from Public Works Director Raphael P. Vitale.

Hoboken gets its water from Jersey City and has been doing so since the 1920's. The average monthly water bill runs between \$35,000 and \$40,000.

BUT Jersey City is having its problems with its water because it does not meet the standards set by the U.S. Consumer Protection and Environmental Health Service and is being taken to court. Since Hoboken is supplied with water from Jersey City, Jersey City's problem is

One of the standards set by the service is a bacterialogical sampling program, Vitale said.

JERSEY CITY takes about eight samples a month, but the service says that this is far from sufficient. Hoboken takes no samples on the theory that since Jersey City is the supplier, it should be supplying good clean

Vitale said that the service wants Hoboken to make its own sampling program.

'WE ARE hoping that the U.S. Testing Co. will be able to handle the program for us for an annual fee," Vitale said. He added that no amount had been discussed yet.

The director met with company officials yesterday for close to two hours.

Hoboken's action on this problem results from a letter sent to Roscoe P. Kandle, state Health Commissioner, by the service which considers Hoboken's water system to be 'provisional" until Dec. 31 this

AT THAT TIME the service Mrs. Eileen Grogan, widow of will make recommendations' concerning what Hoboken should do to bring its water up to par. Three suggestions which will be made include the sampling program, additives to the water and exposing Hoboken to the same Mrs. Grogan said, shortly after court order issued to Jersey City to install treatment facilities or consider a change of its water

"As for the latter two recommendations, we will have to wait and see what develops," Vitale (Continued from Page 1)

> 'HOBOKEN can't afford a treatment facility of its own, nor can it afford to start taking water from the Hackensack Water Company again which is the only other source available

to us besides Jersey City." Vitale said that Hackensack Water Co. supplied Hoboken with water from about 1880 to the early 1920's.

OUR WATER bills would be almost double what they are now if we were getting it from

the water company." Meanwhile, residents were bothered yesterday by water which had taken on a greenish tint. Vitale said that it had been tested and found to be potable. The tint was blamed on a water main break in Jersey City.

## Kenny Names DePascale As Hoboken Dem Leader

Mayor Louis DePascale of Hoboken has officially been named Hoboken's new Democratic leader, the job formerly held by the late John J. Grogan wh died last month,

The anouncement was made last night by Hudson County Democratic leader John V. Kenny in a speech delivered to some 150 members of the Hoboken Regular Democratic Organization in its clubrooms at 828 Washington St. DePascale said he was

'completely surprised' by Kenny's action.

'FROM PREVIOUS conversations with Mr. Kenny, I expected that I would be named Democratic leader sooner or later," DePascale said. "However, I had no idea the county leader would make the announcement last night." The Hoboken Regular

Democratic organization is an off-branch of what was formerly the John J. Grogan Democrati Club. At the time of his deat Grogan was still the standard bearer of the organization

## Hoboken Park Superintendent Maguire Given Francone Post

alike" of the late County Clerk John J. Grogan, has been given a certification enabling him to 'bump" Hoboken Fourth Ward Councilman Louis Francone as superintendent of Columbus Park at 10th and Clinton Streets. He was notified of the certification yesterday by the state Civil Service Commission.

Maguire was told that if he was interested in the position and would accept it he should write to James Doyle, secretary o the Hudson County Park Commission, and notify him of his intentions.

'I HAVE SENT a registered letter to Mr. Doyle telling him 1 will accept the appointment, and a copy was sent to Civil Service," Maguire said.

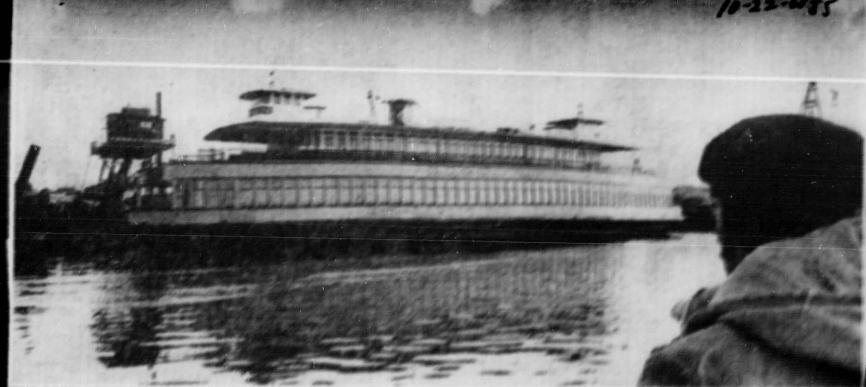

Maguire, an employe of the Hoboken Recreation Department, added that he did not know how long it would be before the county park commissioners took action on his appointment,

CIVIL SERVICE, however, has given the park commission until Oct. 25 to take the action, stating that it will not approve the commission's payroll after that if Francone is still on it. Meanwhile, Councilman Francone said that he planned no attempt to save his job. It

pays \$7,500 a year. "I'll have to wait and see what develops," he said.

The executation has been after he council to promise the Restry Approximat Co. of West New York which is in fee grionce of operating the appraisals of Hobokens amountly it made in 1984 and 1985. The operating started last June, and, according or the association, should ant take six months to complete.

AT YESTERDAY'S meeting of the city council, Vincent J. Pisstill, chairman of the rentpayers division, again insisted that property owners were entitled to a reasonable amount of #me" to study the appraisals before they are submitted to the Hudson

County board of taxation. "There will be differences of opinion and there is no reason not to my and solve these differences before the assessment figures go to the county," he

"We ask you to telephone the appraisal company now and find out when it will finish updating the 1965 figures. Tell the company that we want the facts as soon as possible. They get the city tax office ready to work on the firm's data as quickly as possible so that all the information

'ONCE THIS information is obtained, publish it in the press tomorrow - as to when the company will get its part finished and when the tax office will be ready for the taxpayers." Gallo told Fusilli that the coun-

will be ready for the taxpayers.

cil would check it out. However, Fusilli did not get an answer to another suggestion - immediate open hearings on the city's 1969 municipal operating budget.

Fusilli pointed out that the budget was the "second important dimension" in the overall tax picture.

'THIS and 100 per cent assessment might force a lot of property owners to call it quits," he said, "We've got a \$135 tax rate now. What will it be next

"The city won't be getting any income for all those ratables which will be torn down for the Grogan Marine Plaza. This reduction alone in our ratables will cause a significant increase in taxes. Next, we picked up a refund of \$800,000 to be paid to Todd Shipyards, In addition, every month we are picking up a \$100,000 welfare bill. Then there will be salary increases for municipal employes."

Fusilli said Hoboken residents Want to know the budget facts now, and don't want to wait until the annual budget meeting in the High School.

HE SUGGESTED that the city hold department by department public meetings in the high school as soon as possible. The city council committee responsi-ble for the department would supervise the meetings.

"This isn't impossible or impractical," Fusilli said, "The mayor has already called for the preliminary budget figures and should have them be next Tuesday. Why keep them a secret in

Gallo and the rest of the council thanked Fusilli, but made no comment on his budget meeting

## Quinn to Quit Freeholders Thursday

James Quinn, Hudson County clerk-elect, is expected to resign his seat on the county Board of Freeholders after the board meeting next Thursday. He would be sworn in as county clerk she following day.

A reception will follow the swearing-in ceremony at the Hoboken Elks Club, 1007 Washington St.

MAYOR Louis DePascale of Hoboken has been reported to be the probable successor to Quinn on the board of freeholders. The board members are expected to select an interim replacement for Quinn sometime between next Thursday and Nov. 27. Quinn's term as county clerk will expire Dec. 11/11/68 15

alike" of the late County Clerk ohn J. Grogan, has been given certification enabling him to bump" Hoboken Fourth Ward councilman Louis Francone as operintendent of Columbus Park at 10th and Clinton Streets. He was notified of the cerfication yesterday by the state

# On Getting Tax Data

Gallo Promises To Make Check

After several weeks of badg-ering, the Hoboken Rentpayers and Taxpayers Association has managed to get a half-hearted commitment from City Council President Thomas A. Gallo on checking out how soon figures on 100 per cent assessment will be available to the general pub-

The association has been after the council to pressure the Realty Appraisal Co. of West New York which is in the pro-cess of updating the appraisals of Hoboken property it made in 1964 and 1965. The updating started last June, and, according to the association, should not take six months to complete.

AT YESTERDAY'S meeting of the city council, Vincent J. Fusilli, chairman of the rentpayers division, again insisted that property owners were entitled to a 'reasonable amount of time" to study the appraisals before they are submitted to the Hudson County board of taxation.

"There will be differences of opinion and there is no reason not to try and solve these differences before the assessment figures go to the county," he

"We ask you to telephone the appraisal company now and find out when it will finish updating the 1965 figures. Tell the company that we want the facts as soon as possible. They get the city tax office ready to work on the firm's data as quickly as possible so that all the information will be ready for the taxpayers.

'ONCE THIS information is obtained, publish it in the press tomorrow - as to when the company will get its part finished and when the tax office will be ready for the taxpayers." Gallo told Fusilli that the council would check it out.

However, Fusilli did not get an answer to another suggestion - immediate open hearings on the city's 1969 municipal operating budget.

Fusili pointed out that the budget was the "second important dimension" in the overall tax picture.

'THIS and 100 per cent assessment might force a lot of property owners to call it quits," he said. "We've got a \$135 tax rate now. What will it be next year?"

"The city won't be getting any income for all those ratables which will be torn down for the Grogan Marine Plaza. This reduction alone in our ratables will cause a significant increase in taxes. Next, we picked up a refund of \$800,000 to be paid to Todd Shipyards. In addition, every month we are picking up a \$100,000 welfare bill. Then there will be salary increases

for municipal employes." Fusilli said Hoboken residents want to know the budget facts now, and don't want to wait until the annual budget meeting in the High School.

" HE SUGGESTED that the city hold department by department public meetings in the high school as soon as possible. The city council committee responsible for the department would supervise the meetings.

"This isn't impossible or impractical," Fusilli said, "The mayor has already called for the preliminary budget figures and should have them be next Tuesday. Why keep them a secret in his office?"

Gallo and the rest of the council thanked Fusilli, but made no comment on his budget meeting suggestion.

## Quinn to Quit Freeholders Thursday

James Quinn, Hudson County clerk-elect, is expected to resign his seat on the county Board of Freeholders after the board meeting next Thursday. He vould be sworn in as county clerk the following day.

A reception will follow the swearing-in ceremony at the Hoboken Elks Club, 1007 Washington St.

MAYOR Louis DePascale of Hoboken has been reported to be the probable successor to Quinn on the board of freeholders. The board members are expected to select an interim replacement for Quinn sometime between next Thursday and Nov. 27. Ouinn's term as county clerk will expire Dec. 31, 1969. 11/11/68 55.

## Minority Candidate Will Run

## Martinez Says Race Is Needed

By PETER HALLAM

Regardless of what develops on Hoboken's political scene between now and next May's municipal election for mayor and three councilmenat-large, there will definitely be a candidate from the city's Spanish-speaking community in the thick of the fray, Eleuterio Martinez, one of the city's better known Puerto Rican representatives, said today.

"It isn't a question of being anti-administration," he said. "For all I know, a Spanishspeaking candidate may be on the administration's ticket when it is finally agreed on by the

'IT IS a question of recogni-tion and self-determination. Many Puerto Ricans feel that for too long they have been asked to support candidates who, although they might be sympathetic, have no real understanding of our problems.

"There is also a matter of pride. The Puerto Rican people want someone they can identify with, even if that person has to run alone and stands little or no chance of winning. They don't want to be supporters any longer, they want to be leaders and actually participate in running their local government."

Martinez conceded that whomever the Spanish candidate will be, he will stand little chance of winning as an in-

'YOU HAVE to be realistic in politics," he continued. "A Spanish-speaking candidate isn't going to get much support in the non-Spanish districts if he

is going it alone. He may not win even if he is running with the administration.'

He said prejudice on the part of some voters might have something to do with such a defeat.

"Some elements of the community do look down on the Puerto Rican and believe him to be inferior," he said. "This should have someone running for office. It would serve notice on the city that Puerto Ricans are also citizens concerned with what happens in their community. It would serve notice that Puerto Ricans also are qualified to hold public office and serve the entire com-

MARTINEZ, a supervisor with Emerson Radio in Jersey City and a non-salaried member of several city and anti-poverty governing boards, would not say if he is considering running for office himself.

"There is always that possibility," he said, "but I haven't made any decision or it at this time. I haven't thought about it too much, but I think I will start.'

The position of the Spanishspeaking voters in Hoboken isn't a very good one. Estimates place the total Spanish-speaking population — Puerto Ricans, Cubans and others — at close to a third of the city's population, which is now about 46,500

BUT ONLY a relatively small number of these persons is registered to vote. It is estimated that of the city's total voter registration of about 18,500 only 1,000 to 1,500 are Spanishspeaking. Puerto Ricans are citizens. Cubans and other Spanish-speaking residents are not, unless naturalized.

Informed sources within the Spanish community predict that a voter registration drive among this group could boost the registration figures so that it would represent between 15 and 25 per cent of the city total.

Since most Puerto Vican voters are considered proadministration, an independent Puerto Rican candidate could hurt next year by drawing off several hundred votes from the administration ticket.

SOURCES within Mayor DePascale's regime report that the only thing which would rule out a Puerto Rican candidate on the ticket would be the fear of a backlash from the non-Spanish districts. They fear such a vote might cost the ticket more than it would gain from the Spanish voters.

The mayor has stated repeatedly within the last few weeks that he hasn't had the time to think about what he will be doing in May and who he will be running with. However, it is a foregone conclusion that his ticket will consist of himself. Council President Thomas A. Gallo and Councilman-at-large Bernard

Oen Councilman-at-large spot remains to be filled before the Referendum Approved

## Crosstown Bus System Seen Starting by Spring

Hoboken should have its crosstown bus system by next spring, Mayor Louis DePascale said today following the overwhelming approval of a referendum on the bus question. A total of 8,493 of the 14,899 persons who went to

THE REFERENDUM carried in all 34 districts of the city's six wards. The closest it came to defeat in any of the districts or wards was in the First Ward where 465 voters favored it

compared to 230 who voted against it. "The next step is allocating the funds for it in the city's 1969 municipal operating budget," the mayor said. "A majority of the paper work which is involved in starting the system has already been completed, at least to the extent that we have several courses

"One of them must be selected, but this is not expected to be any great hindrance.'

DePascale said the city ousiness administrator, Herman Bier, had already obtained estimates on the cost of several different types of small buses which would be suitable for the

'TO START, I'd say that two, possibly three, buses would sufthe mayor continued. "But this will have to be determined by survey on the amount of traffic they will be carrying before a final decision can be

DePascale asserted that the bus system would not require a bond issue on the part of the city to finance it.

"It isn't of a magnitude which would require the floating of bonds," he said. "We should be able to get by with the use of city funds alone."

THE MAYOR is optimistic about the system's future. Not

## Hoboken Joins Tax **Battlers**

Will Oppose 100% Valuation

Hoboken is now officially in the fight with several other Hudson County municipalities against the new 100 per cent assessment rate which becomes effective next

year. The city council unanimously authorized Mayor Louis DePascale to join with the other communities in the county to retain tax and legal experts for the purpose of alleviating the burden of 100 per cent taxation upon small property owners.

MAYOR Thomas Whelan of Jersey City started the campaign and was quickly joined by other mayors. The tax experts and legal advisors will represent all of the municipalities who have been meeting with Whelan for the last few weeks on the assessment problem. Each will pay a share of the cost based on the size of the

municipality. In other business yesterday, the council approved expenses for the mayor and council, the city directors and the city planning board to attend the New Jersey State League. of Municipalities' convention in Atlantic City on Nov. 19-22.

The mayor, councilmen and planning board members will receive \$250 each to cover their expenses for the convention, Directors will receive \$150 each. An auction of abandoned automobiles was authorized by the council for 11 a.m. next

Thursday in the council cham-

bers. John A. Traynor, assistant

city attorney, will handle the

the polls yesterday in Hoboken voted on the question. There were 5,851 for it, 2,642 against.

only does he believe that the system should pay for itself, but he thinks that a small profit isn't at all impossible.

11-6-6/35

"A lot depends on the use the system will get," he said. "But if the people who voted for it intend to use it, then we should at least break even.

"Once the initial cost is out of the way there would be nothing holding us back from making a profit, charging the same fares.

The mayor added that the fare was another point that still had be decided upon. He said the total cost of the operation would have to be established and the number of passengers that will be carried closely estimated before the fare could

THE ROUTE now proposed for the buses to follow starts Fourth and Hudson Streets. From this point, they will run west on Fourth to Jackson Street. Then north on Jackson to Fifth Street, east on Fifth Madison Street, north on Madison to Seventh Street, east on Seventh to Hudson, and back to the starting point.

The mayor pointed out that the referendum was not binding on the city and, in the event the system proved to be a flop, Hoboken could stop the service.

## Mrs. Grogan Won't Seek **Quinn Post**

Mrs. Eileen Grogan yesterday expressed appreciation to business and professional women clubs who over the weekend, sought recogni-tion for her to fill a Hudson County freeholder post which will be vacated when James F. Quinn is sworn in as county clerk tomorrow. Quinn was elected to the latter post Nov. 5 to succeed the

late John J. Grogan. At her home in Hoboken, the widow of County Clerk Grogan said she has decided not to seek the unexpired freeholder post "in the interest of unity among the regular Democratic organization" Mrs. Grogan admitted she knew nothing of the move to gain the Saturday night. When asked then by newsmen about the report, Mrs. Grogan said "I'd be willing and happy to serve."

Mrs. Grogan hastened to clarify esterday that she had no intenon of causing any furor among ocal or county Democrats by her willingness to serve in public of fice, but stressed she concurs with the several North Hudson and Hoboken women's clubs that qualified women should be considered

or such positions of trust. The unexpired term of county freeholder is expected to be filled oday by Hoboken Mayor Louis DePascale, recognized Democratic leader of the city who was elected by the late John Grogan o succeed him as mayor in 1965. DePascale will serve in the dual oles of mayor and freeholder such as does Mayor John Arnellino in West New York.

It was learned yesterday the drive to support Mrs. Grogan for he freeholder job was started by Mrs. Eleanor Yaschak, a public ccountant who lives at 408 24th t., Union City.

Telegrams Sent Mrs. Yaschak said groups such as the Women's Club in Secaucus eaded by Mrs. Edna Calabrese, North Bergen headed by Mrs. sephine Sorrentino, and others in the North Hudson and Hoboken area sent out telegrams and letters to "certain officials" asking Mrs. Grogan to be considered for the unexpired freeholder office.

Mrs. Yaschak said she has peronal knowledge that such messages were sent to Gov. Richard Hughes, County Democratic Leader John V. Kenny and Quinn, him-"Why shouldn't capabale and qualified women be considered for a place in local and county government-" Mrs. Yaschak

repeated. In changing her mind about seeking the job, Mrs. Grogan said, "Let's face it. My late husband was a champion of Democratic organization and preached unity among such forces at all times. I certainly do not tend to change that image. As an organization Democrat, I support both local and county leaderships just as long as it is in the interest of the people. I've been on very riendly basis with Mayor De-Pascale and other Democratic eaders for many years. I don't intend to have any situation over which I had no control affect that

Mrs. Grogan said she has been invited to attend the swearing ceremonies of Freeholder Quinn as county clerk tomorrow and plans to accept.

GOOD KISS — Last candidate to join the Row A Democratic slate in Hudson, as a replacement for County Clerk John J. Grogan who died suddenly, Freeholder James F. Quinn was last candidate on the scene as campaign headquarters closed yesterday afternoon at 26 Journal Square. Here he is shown being given a good luck campaign kiss by Rosalie Milordi of 911 Palisade Ave., Union City, as Phyllis Liquuri of 506 Kennedy Blvd., Union City, pins victory button on his lapel.

## T J 11/13/68 Crosstown Bus Trip Clocked

Newsman Drives Over Route

When Hoboken's new crosstown loop bus line gets under way, how long will the ride take?

This newsman drove over the route six times to get an answer. Using his own car, he tried to drive the 30-block loop like the bus drivers will have Since no one knows how many

stops the buses will have to make to pick up or drop off passengers, he arbitrarily stopped at every third block, which seemed to him a reasonable guess, pausing long enough for a bus to let riders on or off.

(whenever it wasn't blocked off by parked cars) just as the bus driver would do.

There was a question of how long to stop, when making these

simulated stops. After clocking the Washington Street buses as they loaded and unloaded passengers, he decided on a minimum dead-stop time of ten seconds. Of course there were many times when he could not immediately get going after en seconds, because of traffic at the intersections.

ON HIS FIRST three passes over the route, the newsman simply clocked the elapsed time for the entire run. Actually no one is going to ride the entire 30-block loop, although many will ride three-quarters of the way around, or even longer. So, on the last three or the six runs, he divided the trip into two 15-block halves and noted the elapsed time for each separately.

The first, or outbound trip, started at the terminus, Fourth and Hudson streets, and proceeded on Fourth to Jackson Street, thence north to Fifth Street and east to Fifth and Madison streets, which is halfway around the loop.

THE SECOND, or inbound half of the loop, was clocked from the latter point, along Madison to Seventh Street,

thence east to Hudson and south to the starting point at Fourth Street.

The three complete loop runs were made between 2:50 p.m. and 3:35 p.m. at a time when traffic was heavy. Here's how the elapsed time read for these three trips:

First: 13 minutes, 10 seconds. Second: 13 minutes, 25 se-Third: 11 minutes, 30 seconds.

(All the traffic lights were green on this one.) That worked out to an average clocked time of 12 minutes, 41 seconds, for the loop.

THE SECOND set of three test runs was made in the late morning, with less traffic. Dividing each into an outbound and inbound trip, the trips to Fifth and Madison streets averaged six minutes even; and he trips from Fifth and Madison to Fourth and Hudson averaged six minutes, 20 seconds. (This, the second half of the loop, has one more traffic light than the first part.) Thus the average time for the complete loop on these late-morning trips was 12 minutes. 20 seconds. The headway between bus trips has not yet been worked out by Mayor DePascale and his aides who are setting up

## Second Puerto Rican In Hoboken Race

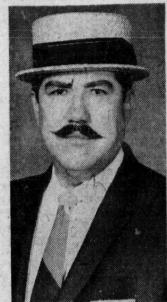

A second Puerto Rican resident announced today that he is running for councilman-at-large in the Hoboken election next May. He is Alberto Falto, 47, of 1042 Park Ave. The first was Eleuterio

Falto said he is associated with his brother, John, as a money broker, travel agent and insurance man, and also works for the Falto Auto Driving School Inc., owned by his brother. The offices for all these enterprises are at 54 Clinton St., Manhattan.

FALTO said he came to Hoboken in 1965. He said he is ordained as a Baptist minister and was pastor of two churches in Manhattan for four years. And he said he has been correspondent for newspapers in Puerto Rico for three years.

At the age of 19, he said, he joined the U.S. Army in Puerto Rico; and after serving in the Korean War and at various bases throughout the world, he retired after 20 years' service in 1961.

Falto said that when he came to Hoboken he became active in the first ward in Louis DePascale's successful election campaign for mayor in 1965, And he said he was a backer of Larry Lerdo, now director Hoboken's Adult Basic Education project, two years

ALBERTO 'FALTO

ago when Lerdo was planning to run for the City Council.

ACCORDING to Falto, Mrs. Rose Kaneshige of 1103 Washington St. is his campaign manager. He said she is the

widow of a physician, a native of the Philippines, who died some years ago in New York

Falto said he regarded his chances of election as good because he talks to large numbers of people every day.

He wears a straw hat (even in the current season) of the skimmer type long out of style but associated with Maurice Chevalier. Falto said the hat is a sort of a deliberate trademark of his along with his conspicuous black mustache and nis permanent-press smile.

He said is not yet actually circulating petitions to obtain the necessary signatures to run, but intends to do so.

FALTO described himself as "humanitarian civil rights orkers, and vocational ounsellor to the Spanishspeaking community." He said he has studied at Hunter College and at Bethel Seminary in

On Oct. 2 a group calling itself he Puerto Rican Political Action Committee of Hoboken anounced that it was "screening" rospective candidates to run for mayor councilman-at-large. Mrs. Kaneshige was listed

Nothing further has been heard from the committee.

Eight other housing areas would be constructed after completion of Method of Financing Financing would be accom-

olished in a complicated and involved manner in which, finalized the city would be responsible to pay one-fifth of the cost. This would be realized by the city's purchasing the land at low cost and through federal subsidy, then selling it at a mark-up to a nonprofit housing group set up by the union, at predetermined costs within FHA mortgage allowances. The union's letter of intent is

the first step toward actual start of the project. Other procedural actions are necessary.

Among those who would have to approved the proposal are Neighporhood Planning Committee of the Model Cities project; model cities staff; code enforcement Hoboken Redevelopment Agency, and of course, the federal

The middle-income housing structures would be radically different in some respects from so-called "classic" middle-income housing. The proposed housing, for example, would include a six-story elevator building, surrounded by three-story town houses.

A Spanish-type inner courtyard vould also be created.

According to union chief Bywater, the IUE embraces both New York and New Jersey with a total membership of 125,000. In Hudson County, several thousand members are employed in the Emerson and Westinghouse plants

in Jersey City and in Keuffel & Esser Co., Hoboken. The union already has acquired substantial experience in public housing construction as evidenced by its construction of 300 IUE housing units for senior citizens in Philadelphia. Also under construction, in Brooklyn, is a 105-unit, middle - income housing project. Negotiations are also under way for middle-income projects in Troy, N.Y., and in the model cities area in the East New York

section of Brooklyn. The union proposes to employ primarily local professionals an workers in the project.

## **CROSSTOWN**

we will be doing will be on a trial and error basis.

'I EXPECT we are going to have our problems to start but eventually we will be able to

iron them out." DePascale is expecting the bus system to be a success both

in use and in revenue. "If the vote for the system

is any indication of what is going to happen, I feel it will be a successful venture," he said. "And if it is successful, I wouldn't be surprised if private enterprise comes in and takes it over.

WE ARE KEEPING this avenue open because we think it is a venture that should be handled by private enterprise, not the city. Private operators have failed to take any interest in the system. But I believe that once they see that there is a profit to be made they will change their minds."

## Hospital Service Cited 33 Grogan Memorial Fund Under Way at St. Mary

A fund to honor the memory of the late County Clerk John J. Grogan is being established today at St. Mary Hospital in Hoboken, the city where he was Democratic leader and a former

Sister M. Felicitas, administrator of the hospital, said Mrs. Grogan's widow, Eileen, had given permission to set up

'SHE FELT that this would be an appropriate memorial because of her husband's very close association with our institution," Sister Felicitas Mr. Grogan was an active

member of the hospital's lay advisory board and served for many years as a member of the charity ball committee.

The administrator made reference to Mr. Grogan's personal service to the hospital, "his great generosity, and his little known acts of charity."

WE ANTICIPATE that a memorial fund committee will be organized very soon," she continued. "In the meantime, however, the gifts and donations may now be sent to the hospital and addressed to the John J. rogan Memorial Fund.

To list all donors, the hospital s planning a "Book of Memory," Sister Felicitas said.

Bus Route To Start In Spring

DePascale Eyes Crosstown Line Mayor Louis DePascale to-

day predicted a spring starting time for the crosstown bus system which Hoboken residents overwhelmingly voted approval of in last month's general election.

"We're committed to providing the system and will do so either with our own funds or a federal subsidy," the mayor said. "Michael Coleman, the director of the Model Cities Program, is currently working on an application for federal aid.

'IF WE DON'T get it, we will make provisions for the service in the city's 1969 budget. We should be started or ready to start sometime in the spring, regardless of what happens.'

A suggestion by local merchants that the city's parking authority be authorized to operate and finance the bus system was tentatively rejected by Law and Public Safety Director E. Norman Wilson.

The director told the mayor that he was looking into the proposal but it was his opinion at this time that the parking authority could not assume the responsibility for the bus operation because it was not created for this purpose and had no powers to operate in the bus

A SEPARATE transit authority or transportation department was ruled out by the mayor who said that he favored making one of the city departments responsible for the buses - probably the business administrator's department.

DePascale said the city would purchase no more than three buses for the service, using two for the runs and keeping one on standby in case of a breakdown. The city will also have to provide funds for drivers' salaries, insurance, mechanics for repair work or a service contract.

"Of course we are hoping that the money collected in fares will offset the cost of the operation," the mayor added.

DE PASCALE SAID an ordinance governing the entire operation would probably have to be submitted to the council for approval before the service got under way.

The ordinance would spell out the entire operation, including salaries, time schedules, fares, routes and the number of persons needed to make the system function.

The state Public Utility Commission will have to be notified of the system and the route it will be taking, DePascale said.

"We have no one to look to for help," DePascale said. "As far as I know, Hoboken is the first community in the state to provide and operate a bus system of its own. So everything

See CROSSTOWN-Page 8.

## 1969 Budget Big Problem In Hoboken

Reports circulated that the Ho-boken City Council Monday at its caucus meeting would receive reports on the 1969 municipal oudget requests from the city's various departmental directors. Although outwardly the reports seemed credible, if the

council receives the report then t would be with Mayor Louis DePascale having only an eightour start on them. Mayor DePascale reportedly as such a major problem with

next year's budget that he has

not taken time for a detailed look at the departmental figures. The mayor's instructions to all departmental directors, given be-fore he was bedridden with the flu, was to cut wherever possible, With a 100 per cent assessment looming, DePascale naturally wants to give the impression in an election year of being a frugal budget-maker.

Added to his problems is that DePascale now is involved in "deficit" spending above the three per cent state limitations. At the last City Council meeting two emergency resolutions were passed and then forwarded to the state division on local municipalities asking permission for funds above the three per-

cent ceiling. The situation has become so critical that nearly every department is facing a problem meeting salary demands. Nearly all purchases below absolute necessity have been outlawed.

With teachers, police and firemen clamoring for salary increases and with the increased number of indigent patients treated at the hospital annually increasing, the mayor, certainly by Monday's caucus meeting. will not be able to answer the council's questions and most probably neither will the departmental directors.

## Splashdown Safeguard **Devised at Stevens Tech**

A safeguard against the possibility that Apollo 8's mission would end in disaster in its final moment was alittle-known achievement of Stevens Institute of Technology in Hoboken. In

fact, it was thanks to Stevens' engineers that this very disaster was averted at the finish of the light of Apollo 7.

WHEN ASTRONAUTS schirra, Eisele and Cunningham plashed down in the Atlantic n October they made a safe exit from their Apollo 7 spacecraft as a result of experiments conducted in the owing tanks on the Stevens Tech campus

During a preliminary survey equested by the National Aeronautics and Space Administration, engineers at the college's Davidson Laboratory discovered that the module could capsize after landing, leaving the escape hatch under water and preventing communications from the

The Stevens Tech engineers devised a system for uprighting the capsized module.

with Bostick and Superintendent of Schools Thomas McFeely that FIRST THEY DETERMINED Bostick lacked the state certification necessary and would thus the number, size and arrangement of inflation bags to be located on top of the module. Prior to learning this, De Pascale allegedly promised Joseph Then they developed the proper Bartletta, unsuccessful GOP congressional candidate, that he should be inflated. This was the would be moved up to take Bosmost crucial part, according to tick's spot and that Romano, in Gerard Fridsma, who was in urn, would fill Bartletta's shoes charge of the project, because in improper sequence would make the module stable in a Reportedly, however, Romano apsized position, thus "locking" ook this news only half-heartedly, the inverted module and preoping that he could convince De Pascale to jump him over venting exit through the hatch. Bartletta, but the mayor's old friendship with the Bartlettas pre-Once the word from McFeely

The engineers also predicted the effects that the pitching and heaving would have on the astronauts, and how the craft would behave after the flotation collar was attached.

NASA took the design developed at the Hoboken schoo and incorporated it into the design of all the subsequent Apollo modules, starting with Apollo 7. When the latter hit he water last October it did n fact capsize, and the astronauts were submerged and mable to communicate with the utside world through their anenna. The Stevens balloons came to the rescue, inflating as planned, and uprighting the module, thus making the mission a success and clearing the way for the historic Apollo 8 flight.

The tests were conducted in a 313-foot-long tank in which regular and irregular sea conditions can be created. Davidson Laboratory is the world's largest non-government hydrodynamics

## Better Hoboken Library 12-13-68

The recommendations of the consultant hired last year to evaluate Hoboken's public library bore some fruit at the time in physical improvements. Now something has been done about the consultant's recommendations for improving the professional competence of the library staff. Twelve librarians have just finished a brief course of training.

While the library employes still do not meet the academic requirements for their posts, the training course, given by a professional, undoubtedly was helpful and should enhance the service.

The consultant's proposal that Hoboken acquire some fully qualified personnel has not been taken up. The city administration does not dispute the wisdom, but cites a lack of money. As Hoboken seeks a new image, its library will be one of the factors by which it is judged. In making up the city budget, let us not put the library's needs at the hottom of the list.

## Hoboken To Boost Reserve City Taxpayers

Get Bad News

By WILLIAM H. TAFT

Tax collections have been too little and too late in Hoboken and that spells more bad news for the city's taxpayers, The Jersey Journal learned today.

Real estate tax collections for 1968 dropped about 1.37 per cent, which means a whopping big increase in the amount which must be put into the 1969 budget as a reserve against uncollected

HOBOKEN had collected only about 87.12 per cent of its 1968 real estate tax levy, as of Dec. 31, according to the city tax collector's office. This compares with 88.49 per cent of the 1967 levy collected by Dec. 31 in 1967. A collection percentage of

87.12 per cent is considered low, according to authorities. By comparison, in North Bergen, even though there had been some agitation for a tax "strike," 91.04 per cent of the 1968 levy was collected by Dec. 31, slightly under the township's 1967 percentage.

IN MAKING UP the 1968 budget a year ago the Hoboken city administration estimated that 88 per cent of its 1968 taxes would be collected, and consequently a reserve of 12 per cent was included as one of the items comprising the budget.

That 88 per cent estimate was based on the city's experience in collecting 1967 taxes.

In 1965 the city estimated that 90 per cent of the tax levy would be collected. In 1966 the estimate was 88.6 per cent, and in 1967 it was 89 per cent.

THE STATE requires each nunicipality to put into the oudget, as a reserve against anticipated uncollected taxes, proportionately as much as it failed to collect in the preceding

Sometimes, in non-election years, city administrations are accused of fattening the budget with unnecessarily high reserves .. so as to be able to make good showing for the voters by cutting the budget the following year through the use of the accumulated fat.

In the case of Hoboken, which has a mayoralty election this year, there is no fat left over from the 1968 reserve.

THE IMPENDING increase in the reserve for uncollected taxes comes at a time when the city administration is already beset with staggering increases in other budget items. The city is

See COLLECTIONS-Page 23.

## COLLECTIONS

already committed to a \$750 pay increase for police and firemen, who in the past received raises of only about \$300 a year.

Another factor which will raise the budget is the jump in the daily hespitalization rate for welfare patients - up from \$42.50 to \$58 a day.

And the city has started to spend more money on its water supply system, to meet state

and federal requirements. Here are the Hoboken tax collection figures for 1968 and

1967: Real estate tax levy, \$7,799,673, of which \$6,902,084 was collected, or 88.49 per cent. 1968: Real estate tax levy, \$8,334,184, of which \$7,261,141

was collected, or about 87 and 1/8 per cent. These figures do not include personal property taxes. It would be difficult to make a comparison of personal property tax collections for the two years

because personal property taxes were taken over by the state In 1965, an election year, the Hoboken budget included only \$966,133 as a reserve for uncollected taxes. In 1966, when

there was no election, the reserve went up to \$1,133,467. In 1967, another election year, it went down to \$845,336. Speculating on the basis of

1969 Hoboken tax levy of \$9,000,000, a decrease of 1.37 per cent in the 1978 tax collections could be reflected in a \$123,000 increase in the reserve which will have to be put into the 1968 budget.

# All Work

Goes to One Contractor

The Hoboken Housing Authority and Redevelopment Agency will accept bids for demolition of buildings lying within the three-square block Hudson Street redevelopment area on Feb. 11 at 1 p.m., Raymond G. Clyons, authority chairman, said today.

Clyons reported that contracors would be asked to submit bids for the demolition work for the entire area and that the contract for all of the work would go to one contractor. Work, he said, would be piecemeal, as buildings were vacated and became eligible for demoli-

THE NAME of the multi-million dollar development has once again been changed. Recently renamed the John J. Grogan Marine Plaza in honor of the former Hoboken mayor and counv clerk, the name has been changed to the John J. Grogan Marine View Plaza.

Clyons said this was done at he request of the developer. The International Brotherhood of Electrical Workers, AFL-CIO, loboken Model Cities area.

was supposed to present the auhority with its proposal for the construction of 1,000 units of niddle-income housing within Clyons reported that officials f the union were still working n the proposal and wouldn't be eady to deliver it until Feb. 11.

DePascale's \$10,000 Offer By unanimous votes, members of the Hoboken police and fire epartments have decided to accept the city's offer of a \$10,000 nnual salary for patrolmen and firemen within three years.

## Hoboken Will Accept Bids for Demolition of Redevelopment Area To Collect Tax Rebate Serve Hoboken

In \$885,000 Show Cause Suit

By ARTHUR FELSON Hoboken Mayor Louis De Pascale and the city council were served yesterday with a show cause order to appear before Superior Court Judge Peter P. Artaserse on why the city should not pay Todd Shipyards \$885,000 in over paid taxes by Feb. 28.

The order, delivered to City Clerk Anthony Amoruso by detectives from county Sheriff George Bonelli's office, also directed Hoboken's officials to show cause before Artaserse on Jan. 31 why the \$885,175.27 should not be included as a line item in the City's 1969 municipal

budget. De Pascale said, following receipt copy of the order, "We were hopeful that Todd would wait on something like this until we had completed our negotiations on selling the property But, apparantly they are anxious to get the money."
"We cannot pay this from

readible cash. We will have to float revenue bonds," De Pascale added.

The mayor said that a special meeting will be held Monday at 9 a.m., in his office with the city's special tax consultant, Herbert Fine, representatives and the city's auditors.

from the city's law department Addressed to Council The order, specifically addressed to the mayor, the six city councilmen and three councilmen-at-large, said that Todd, while in Hoboken from

1951 to 1963 paid an over-

estimated amount of real and personal property taxes. On April 27, 1967, the order stated, the New Jersey Division of Tax Appeals entered a final judgement in favor of Todd which was upheld in a State Suoreme Court motion in July of ast year.

The amount approved for real property refunds was cited as \$230.488.88 at 6 per cent interest. The amount for personal taxes (Turn to Page 9, Column 1)

Todd Acts

(Continued from Page 1) was1, \$654,686.39 also at 6 per cent interest.

The mayor stated that he had. for the past several months out regarding payment of the over-due refund to Todd but added that he hoped some arrangement could be made following the sale of the Todd property.

"We must now have an ordinance drafted and then a public hearing on the bond," De Pascale said. He added, that he felt that all the preliminaries would be completed prior to

February deadline. Among one of the major 'preliminaries" is the approval of the state division on municipal goverment, which would have to approve any fi-nancial methods suggested by

the city. One high ranking source, said that with all of these actions it would be impossible for De Pascale to meet the deadline.

Might Go to Court De Pascale said that he and members of the law department might enter a court action to see if the city could collect \$550,000 in back taxes owed the city on the Todd property either before or while paying Todd the taxes that the city owes.

He stated, that if the bonds are floated, the principal would be felt in the 1970 budget. He stressed that the latest develop-ment would not affect the 1969 budget or the agreements made with police and firemen on salary increases that go into 1970 and 1971. He also said the latest situation would not affect or couse a speeding up of 100 per cent assessment.

The Todd property, 41 acres of land in Hoboken-Weehawken, comprising som 715,569 square feet including 30.81 acres under water, has been the subject of much discussion and much rumor since Todd moved out in February 1965.

The latest move has centered around a proposal to build a multi-million dollar oil storage refinery under the auspices of the Supermarine Corp. That firm is currently involved in

told Romano the county job was

Romano then tried other areasmainly the Hoboken Board of Education. Harold Butler, head of the city's adult evening school was named by DePascale for the job as head of the Concentrated Employment Program with the result that a big mad scramble started over at the board, James Bostick was to move into Butler's job. DePascale friend and GOPer Joseph Bartletta was to take Bostick's title as business administrator and Romano was to hop into

Bartletta's shoes. Romano wanted to do exactly this. To move up ahead of Bartletta and into the business administrator's spot. But Bartletta wouldn't let it happen-and then it was learned that Bostick couldn't move because of edu-

cational disqualifications. Thwarted Romano looked in another area. He had a friend. Patrolman Gabriel Farrioullo. 'Gabe," as his fellow policeman call him, is assigned to a radio car. According to one source he was "very, very close" to Romano during the last election. Romano figured on getting Farrioullo into the detective bureau.

But where? Romano thought perhaps no one would notice if he pulled a little
