Armed Robbery At McDonald's

Livingston police this week are investigating a report of an armed robbery at the McDonald's Restaurant, 94 Old Short Hills Road, located inside Saint Barnabas Medical Center.

The incident was reported to police shortly before 1 a.m. on October 5. Two men entered the restaurant and one of them displayed a handgun to the manager, demanding to be taken to the back office. The second intruder, who did not display a weapon, stayed in the customer area of the restaurant to watch an employee who was cleaning.

The manager was ordered to open the safe and turn over the receipts to the armed robber. The pair fled with approximately $8,000. No information was provided on how the two men escaped.

The armed robber was described as a black male in his late teens, about six feet tall and wearing a brown leather jacket. His accomplice, also a black teenager, was slightly shorter and was wearing a black leather jacket. A composite drawing of the suspects is being prepared by State Police.

Anyone with information about the incident is asked to call the Detective Bureau at 535-7912. Whenever possible, the information will be kept confidential.

THE BURN UNIT at Saint Barnabas Medical Center was the beneficiary of an open house program held on Sunday afternoon, October 4, by the Livingston Fire Department and First Aid Squad. The two volunteer organizations set out an exhibit of their mobile equipment on the ramps of their adjoining buildings at Livingston Center, and offered other demonstrations and exhibits indoors. Visible at lower right in this photograph, which was taken from the bucket of the Fire Department's 85 foot snorkel truck, is the "smoke house" fire safety trailer operated by the Saint Barnabas Burn Unit to demonstrate how to escape safely from a burning home. Fire Chief Craig Dufford reported that more than 600 people attended the open house, and more than $1,000 was raised for the Burn Unit. Additional photographs of the Open House will be found on Section 2, Page 11. MCW Photo

Intruders Tamper with Garage Doors; Several Cars Entered and Items Taken

Five incidents involving either cars or garages are being investigated by Livingston Police this week. Officials believe that the five incidents, all of which occurred between October 5 and 6, are related.

The investigation began when Peter Roselle of 48 Aspen Drive discovered that someone had apparently entered his 1990 Oldsmobile and used the remote control for the automatic garage door to gain entry into the garage. The 1985 and 1987 Mercedes Benzes parked in the garage were ransacked. Reported missing were a portable cellular telephone, a radar detector, a set of golf clubs and several miscellaneous items.

At the home of Len Rosenberg, 28 Scarsdale Drive, the intruders were less successful. Rosenberg discovered evidence that someone had attempted to tamper with the garage door lock for the automatic door opener, but was unsuccessful in the attempt.

William Whritenour of 2 Thurston Drive called police to report that the stereo had been removed from his 1987 Mercury, which was parked in the driveway.

The intruders gained entry to the garage at 22 Scarsdale Drive, the home of Gail Hodes, by tampering with the key lock for the automatic garage door. Both 1989 Mercedes Benzes parked inside were ransacked, and a quantity of currency was missing.

The key lock for the automatic garage door at 8 Heather Lane was also damaged to gain access to three vehicles, a 1992 Mercedes Benz, a 1992 BMW, and a 1989 Jeep. The homeowner, Michael Block, reported that paperwork was missing from one of the vehicles. Police recovered the paperwork in front of 48 Aspen Drive.

Two Residential Burglaries

Police are also investigating two additional burglaries on Troy Drive. The two incidents are probably related to the two break-ins reported last week on the same street.

Neil Dornfeld of 14 Troy Drive told police that his home had been empty on September 29 from 7:30 to 10:30 p.m. When he returned home, he found that a rear window had been broken and several rooms disturbed. Silverware was missing from the dining room and jewelry was taken from the master bedroom.

Sometime between September 23 and October 2, the home at 16 Troy Drive was also entered by intruders who gained access by breaking the window in a rear door. The homeowner, Paul Bauchbaum, reported that silverware and jewelry is missing.

Police are continuing to investigate each of the incidents. Anyone with information about any of these incidents is asked to call the Detective Bureau at 535-7912. Whenever possible, the information will be kept confidential.

Town to Spend $11,000 On New Sound System

After years of enduring whistles, feedback, inaudible meetings and frustrated spectators, the Township Council this week voted unanimously to authorize the expenditure of up to $11,000 to improve the sound system in the township hall meeting room.

The large room has had serious acoustical problems since its construction, and several attempts have been made over the years to remedy the situation. At present the amplification system drives two loudspeakers at the rear of the hall, but the system is completely inadequate.

An examination by an acoustical engineer disclosed that the microphones are not suited to this purpose, and the loudspeakers are incorrectly located, resulting in acoustic feedback when the sound re-enters the microphones, is amplified, and repeats the cycle until a loud whistle is produced.

The system is complicated by the need to provide multi-track recording of Township Council meetings and Municipal Court sessions, for use in preparing minutes and court transcripts. Each of the microphones feeds a separate track on the recording tape, as well as feeding the central amplification system.

The new system will have directional loudspeakers in the ceiling,

Candidates Tell Priorities for the '90s

In an effort to present a comparison among the four candidates for the two seats on the Township Council in the November 3 election, the *West Essex Tribune* and the League of Women Voters of Livingston have posed a series of questions to the candidates.

The League, a non-partisan organization, has emphasized that its goal is the promotion of political responsibility through informed and active participation of citizens in government. The League does not support or oppose any political party or any candidate.

Each political party has been allotted 750 words to reply to the questions asked for each week during the campaign, or to present views on other topics relating to the township. The candidates, or their parties, are not obligated to respond to the question, nor are they required to submit a statement at all. In the last edition before the election, the candidates will be given the opportunity to summarize their campaigns, and no new issues will be permitted to be raised at that time.

The first question presented to the candidates by the *Tribune* and the League was: "What are your priorities for Livingston in the '90s? What would you do to achieve or pursue those priorities particularly during this time of budget cutting and economic constraints?"

DeMarzo/Drucks

Setting priorities for Livingston does not always imply increased spending or taxes. For example, the beauty and stability of our community can be maintained by adhering to existing zoning laws with a wariness toward ill-conceived tinkering. Advancing some priorities will reduce our tax burden. For example, developing programs to attract retail and commercial businesses to Livingston will decrease taxes.

Also exercising sound business judgment is not expensive – just the opposite. The proposal by Republican councilman Weinroth to seek a private developer for senior housing avoids taxpayer liabilities that would hurt Livingston seniors living outside the senior housing complex. Our senior housing must be accomplished prudently and in a business-like manner, in the tradition established by the Senior Housing Corporation.

Taxpayers are weary of the unpredictable surges in taxes. As ordinary citizens, not career politicians, fighting tax increases is a top priority.

Despite the denials, the Democrat shell game being played in Trenton and Newark has increased our local taxes. Indeed, the incumbent Democrats on the Livingston Township Council will look us in the eye and tell us they are tax cutters; but does anyone feel their taxes are down? Any Livingston resident who cares to look at the growth of taxes during the years of Democratic control of Livingston, knows property taxes are up, and spending is up as well.

The $1.8 billion dollar tax increase engineered by governor Florio shortly after his inauguration has destabilized our local taxes. As a result, a whirlpool of tax dollars is circulating unpredictably among state and local governments. Even the Demo-

Dollinger/Fiordaliso

Our priorities are both general and specific. They are both philosophical and practical. In a nutshell, we aim to continue to build pride in Livingston, its government, institutions and leaders and to keep taxes down.

We're sure all your readers share those two goals. We're sure our opponents do too. We believe, however, that we are the team best suited to promote those goals during the next four years. After all, we are the team that has already done just that.

Was it Ronald Reagan who asked "Are you better off than you were four years ago?" How about Livingston? Remember the political climate when we were elected in 1988? The destruction of the local Republican Party into armed camps and the ugly public allegations among them? Compare then to now.

Four years ago, we had no curbside recycling at all. Now we have weekly curbside commingled recycling (glass, plastic, aluminum, tin) and newspapers. Four years ago, we had two separate garbage collectors providing bare bones service and a separate bill which was not tax deductible. We had no spring cleanup for removal of bulky items. Now, we have one successful town-wide contract, service is uniform and efficient, and we have "spring clean-up" every single month. Four years ago, we had hopes of senior citizen housing. Now we have a signed Letter of Intent with a developer with a national reputation (and without risk to the taxpayer). Four years ago, we had decaying facilities, like the old playground at Memorial park. Now we have a brand new state-of-the-art playground "Littel's Peoples Park" at Memorial. And it is the first handicapped-accessible playground in Essex County. Four years ago, we

Municipal Leaf Collection Program Starts in First Week of November

Livingston's annual leaf collection program will open on Monday, November 2, and township manager Charles J. Tahaney and township engineer Robert J. Schaefer this week announced the basic schedule and pickup regulations.

In a related action, the Township Council voted on Monday evening to award the contract for leaf collection to National Waste Disposal, Inc., of Trenton. The firm had submitted the lowest bid for the project, offering unit prices with an estimated total of $109,500.

National Waste Disposal had earlier obtained an injunction to prevent the township from rejecting the first round of bids and taking new bids. On September 30 the matter was heard in court, and the town's action was upheld. National Waste Disposal was the lowest bidder in the second round of bids, and won the contract.

The township has been divided into three areas, as in past years, for scheduling of leaf pickup. The first week of the program, November 2 to 7, will be conducted in the area north of Mt. Pleasant Avenue to the Roseland border.

Cleanup crews will operate in Section 2, the central triangle area between Mt. Pleasant Avenue and Northfield Road, for two weeks between November 9 and 21.

Collection will be conducted in Section 3, south of Northfield Road and West Mt. Pleasant Avenue to the Millburn boundary, from November 23 to 28.

Township streets will be limited to the use of Leaf Harvester machines for the collection of loose leaves raked into the street gutters. Bagged leaves will not be collected on municipal streets.

On county and state roads, only the collection of bags will be offered, due to the safety hazard of operating the Leaf Harvester collection units in traffic. Free paper leaf bags will be offered to residents of the state and county roads at the township garage, Monday through Friday from 8 a.m. to noon, and on Saturdays in October and November from 9 a.m. to noon. The garage is located on South Livingston Avenue at the corner of Brookside Avenue. Proof of address will be required.

County and state roads in Livingston are the following: Beaufort Avenue, East Cedar Street, Eisenhower Parkway, East and West Hobart Gap Road, Kennedy Parkway, Laurel Avenue, East and West Mt. Pleasant Avenue, South and North Livingston Avenue, East and West Northfield Road, Old Short Hills Road, Parsonage Hill Road, Passaic Avenue, Shrewsbury Drive, South Orange Avenue, and Walnut Street. These are the streets where no Leaf Harvester service will be provided, and only bagged leaves will be collected.

Leaves in bags will not be col-

Parking Laws for Chestnut, Princeton And East Harrison Place Introduced

Two ordinances that would set a two hour parking limit on Chestnut Street and Princeton Road and ban parking on East Harrison Place during the evening rush hour were introduced by the Township Council on Monday evening.

The first ordinance will impose a two hour limit on parking on both sides of Chestnut Street from East Northfield Road to Forest Street, and on both sides of Princeton Road from Chestnut Street to Columbia Road. In both cases, Sundays and holidays would be excepted.

The measure is the latest in a series of moves to restrict commuter parking in the residential area. Residents of the neighborhood have protested the use of their street as a commuter parking lot for several years, and earlier measures to limit parking have not been effective.

The second ordinance introduced on Monday evening will prohibit parking on both sides of East Harrison Place from 5 to 7 p.m., for the full length of the street.

In voting on the ordinances, councilman Stanley Weinroth said that he had visited West Harrison Place during the past week and was concerned about the parking problem there. While voting in favor of the rush hour parking ban on East Harrison Place, he suggested that the Transportation Committee be asked to make a new study of the parking problem on West Harrison Place.

Public hearings on both of the parking ordinances will be held at the Council's next business meeting on Monday evening, October 19. Public comment on the proposed laws will be solicited at that time.

Political Parties Reach Agreement On Use of Large Campaign Signs

After several years of off-and-on negotiations, Livingston's Republican and Democratic campaign organizations have reached agreement on the use of large plywood campaign signs. The question was one of many which have been discussed over the years, including the use of lawn signs, direct mail advertising, newspaper advertising, and other campaign expenditures.

The current round of negotiations began in early July, when the Democratic candidates for Township Council, Jeffrey Dollinger and Joseph Fiordaliso, wrote to Republican chairman Thomas Adams suggesting a renewal of the discussions of past years.

Although the Democrats were ready to order campaign billboards, they postponed the order when Adams indicated that he was agreeable to "handle this proposal sensibly."

Although both parties had earlier agreed that negotiations over the conduct of campaigns would best be held outside of a campaign period, the question of billboards continued to be discussed.

As a result of the discussions, the candidates reached agreement to limit campaign billboard signs – usually 4x8 foot sheets of plywood with paper signs attached – to no more than six locations. The six locations are as follows:

- Walnut Street at West Hobart Gap Road, opposite the Methodist Church.
- Kennedy Parkway and West Hobart Gap Road, opposite Nero's Restaurant.
- South Livingston Avenue opposite the exit from St. Philomena Church.
- East Northfield Road at the fairgrounds in the East Orange Water Reserve.
- On the west side of North Livingston Avenue at the Interstate 280 exit.
- At the intersection of Laurel Avenue and Shrewsbury Drive.

In addition, each party would have the option of using a sign at its campaign headquarters.

All of these locations have been used as campaign sign sites in the past by both parties.

Telling Us What's Happening

The decision by the Township Council this week to spend $11,000 on a new sound system for the township hall meeting room is a long overdue move to make government more accessible to the people. We have attended meetings in that room since the township hall was built, and can attest that despite many attempts to improve the poor acoustic design there has always been difficulty in understanding what was being discussed. The Certified Shorthand Reporters who take transcripts of some meetings often have to take their machines to a different spot in order to try to hear what is happening. When there is a large audience at the discussion of a major issue, there are constant complaints of "I can't hear you!," even from the front row.

Over the years, there have been several efforts to improve the sound system, but to no avail. Several years ago an infrared amplifier system was installed for the hearing impaired, and at first there was a sense of appreciation as people tried to use the new equipment. It is safe to say that it is never used now, apparently because those who have tried it found that it didn't work, and probably there is a lingering sense of being marked as handicapped by the wearing of the opera-house style earphones.

The big meeting room in the township hall is used for Township Council meetings, for Municipal Court, by the Planning Board and the Zoning Board, and for many other civic functions. Participants and spectators at all of these sessions deserve better than they have gotten from the present sound system. When people go to a meeting of the Zoning Board, for example, it is because they have a sincere interest in a case that is pending before that board and they want to find out what is going on. They can't do that if they can't hear what the board members, legal counsel, professional staff, applicants, and other people involved in the matter are saying.

Communication is not a big mystery. We can pick up a telephone and call London or Tokyo just as easily as we call our next door neighbor. We can send people to the moon and talk with them as they bounce around in space suits. But we can't sit in the township hall meeting room for a meeting of any of the many bodies that use that hall and hear what is said.

It is perhaps symbolic that as the vote was being taken to approve the expenditure for the new equipment, the sound system was at its worst. With feedback building, Council members scrambled to cover the microphones with their hands, turn them to new positions, or even shut them off to avert the growing shrill whistle. The same microphones are used to feed the tape recorder from which the minutes of the meeting are made, and we don't envy the person who has to transcribe those minutes.

In the scale of municipal government, the sum of $11,000 is a very, very small issue. It is money well spent, not only to avoid the annoyance and aggravation of constant feedback, but more fundamentally to let the people know what is going on.

A Significant Step Forward

The disclosure this week of an informal agreement between the Republican and Democratic candidates for the Township Council concerning the use of campaign billboards marks a significant step for the community. The question of campaign expenses has been discussed for many years, and this is the first time that the candidates have been able to make a definite move in the direction of what we would have to call sanity.

There are two fundamental issues involved in the long-term discussions of local campaign practices. First is the question of making the town ugly with campaign signs. In some neighboring communities it seems that every house has a campaign sign stuck into the lawn, rather like a plague of oversized weeds. There is some value in building public interest and participation in the election, but this must be balanced against the defacing of the community through agreement on reasonable limits.

Second is the basic issue of the value of local public office. The present informal talks have centered on signs, because we are already in a campaign and it is not an appropriate time to discuss limiting other expenses. But it is hard to imagine how a position on the Township Council can be worth the thousands and thousands of dollars that some recent campaigns have cost.

We applaud the agreement to limit the number of big signs, and we encourage the party leadership to continue discussions after the present campaign with the goal of setting realistic limits on other campaign expenditures.

To the Editor:

Carjacking Warning

Dear Nancy and Kit,

In recent months, the law enforcement community has developed a new term for our criminal justice lexicon, i.e., "carjacking." This is a process whereby the occupant or occupants of a motor vehicle are attacked by predominantly vicious young thugs whose intent is to take the vehicle by force or the threat of force, usually by the use of weapons of some type, including firearms. This crime is nothing more than armed robbery. However, due to the frequency of its occurrence, it has been given a nickname.

The most recent example of this new phenomena was recently reported in the October 1 issue of the *Tribune*, page 14. Three young predators took a vehicle at gun point in East Orange and proceeded to Parsippany where they robbed a gas station. They then made the mistake of heading for Livingston where, within four hours after ramming a vehicle within our boarders, our fine officers apprehended the three of them. They are now being held on $200,000 bail, each, and are looking at 40 years imprisonment.

The purpose of this letter is to give our citizens two pieces of advice which may prevent them from becoming victims of "carjacking" and any residual and possibly devastating crimes that might flow therefrom.

1. Keep the car doors locked at all times while driving, anywhere; and,

2. When stopped in traffic, never pull up behind the vehicle in front of you so close, that if you are attacked, you cannot pull around the vehicle in front of you to escape the threat. If you are bumper to bumper with the vehicle in front of and behind you, and you are set upon by "carjackers," there may be no escape and thus, you may become another victim, the results of which could be far more serious than simply losing your vehicle. Think about it!

Gun Control Laws

Dear Mr. Cone:

I am a bit puzzled by Mr. Stanley F. Weinberg's letter regarding gun control legislation in which he quotes Gov. Florio thusly:

"If you will give up your freedom, if you will give us only some of your Constitutional rights, we will protect you. If you will support my veto of this bill, crime will disappear from the streets."

In the first place, what is his source for this quote? I have never heard any supporter of gun control legislation telling people that it involves loss of their freedom or any of their constitutional rights. Nor have I heard any guarantee of crime disappearing from the streets.

Secondly, who is Gov. Florio supposedly addressing? Every survey shows the general public overwhelmingly in favor of gun control. It is our elected representatives who are blocking gun control.

What constitutional rights is Mr. Weinberg talking about? The states have the responsibility to protect the health and safety of their citizens. Toward this end, many states have gun control laws that have not been challenged in the courts.

Further on in his letter, Mr. Weinberg states, "How many crimes were prevented by California's gun laws? None!" How does he know how many crimes were prevented by private citizens owning guns, or how many innocent people were killed by private citizens who owned guns? I am thinking principally of people who were not criminals until they used their guns to shoot someone. Were Amy Fisher, John Wilkes Booth, and Lee Harvey Oswald criminals when they got hold of their guns?

Using guns as a protection against criminals is a very questionable proposition. The fact is, the criminal has a big advantage. He has a gun in his hand. Your gun is going to be in a drawer. Instead of getting robbed, you may very well get killed.

If you want your gun to be effective in preventing robbery, I suggest you place an advertisement on this order: "Come to Joe's, your friendly neighborhood liquor store, with your hands up."

Shut Up or Get Out

Dear Kit:

On Friday evening my son and his friends went to the Livingston movie theater. Upon his return Chris related an unusual story. He said that before the movie one of the ushers made an announcement to the audience in a threatening manner that anyone talking during the movie would be immediately ejected. Someone made a remark concerning the announcement, in a low voice to the person seated next to him. The usher immediately removed the person from the theater. This was prior to the movie starting!

I thought the story had probably been exaggerated in the telling, and sympathized with the management for what they must deal with from the teens on a daily basis.

The next evening, as circumstances would have it, I attended the movies with my wife and another son. The story about the previous evening was totally forgotten. As the lights started to dim an usher walked to the front of the theater and in a loud, rude and insulting manner threatened all present with immediate expulsion if a single word was uttered during the film.

"You've had your first warning, so don't complain when we throw you out," he stated. An adult in front of me asked "Are you serious?" to which the young usher replied, "Dead serious" and stared the man down.

The audience, approximately 75% over 30, was stunned, and you could hear the rumblings of disbelief at the manner and tone in which the message was delivered. After the movie I sought out the manager, and found him being confronted by 5-8 others loudly expressing their anger at having been addressed in such an inappropriate manner. While recognition was given to the possibility that a problem existed, no one could condone the tone and manner in which they were addressed.

While the manager stated he was sorry that offense was taken, his attitude and responses made it clear that he did not intend to change his routine one bit: not in the message nor the way it was delivered. If we didn't like it, we could take our business elsewhere.

Kit, I've been in movies when people talking made it difficult to hear the film and in movies where the coming attractions started with a brief, polite statement to respect others and refrain from talking during the performance. I've never paid money to be threatened and treated like a juvenile delinquent.

I've written a letter to the theater

Correspondents Support Clinton for President And Drucks in Township Council Election

Three letters to the editor in support of the candidacy of Bill Clinton for President, and one endorsing Ira Drucks for Township Council, have been received by the *Tribune* this week. In keeping with our long-standing election campaign policy, we offer brief excerpts from these letters:

Walter D. LeVine of 345 Walnut Street wrote that "Clinton's plan to end welfare as we know it makes good sense to me." He said that education could "break the cycle of dependency that has produced a permanent underclass in this country."

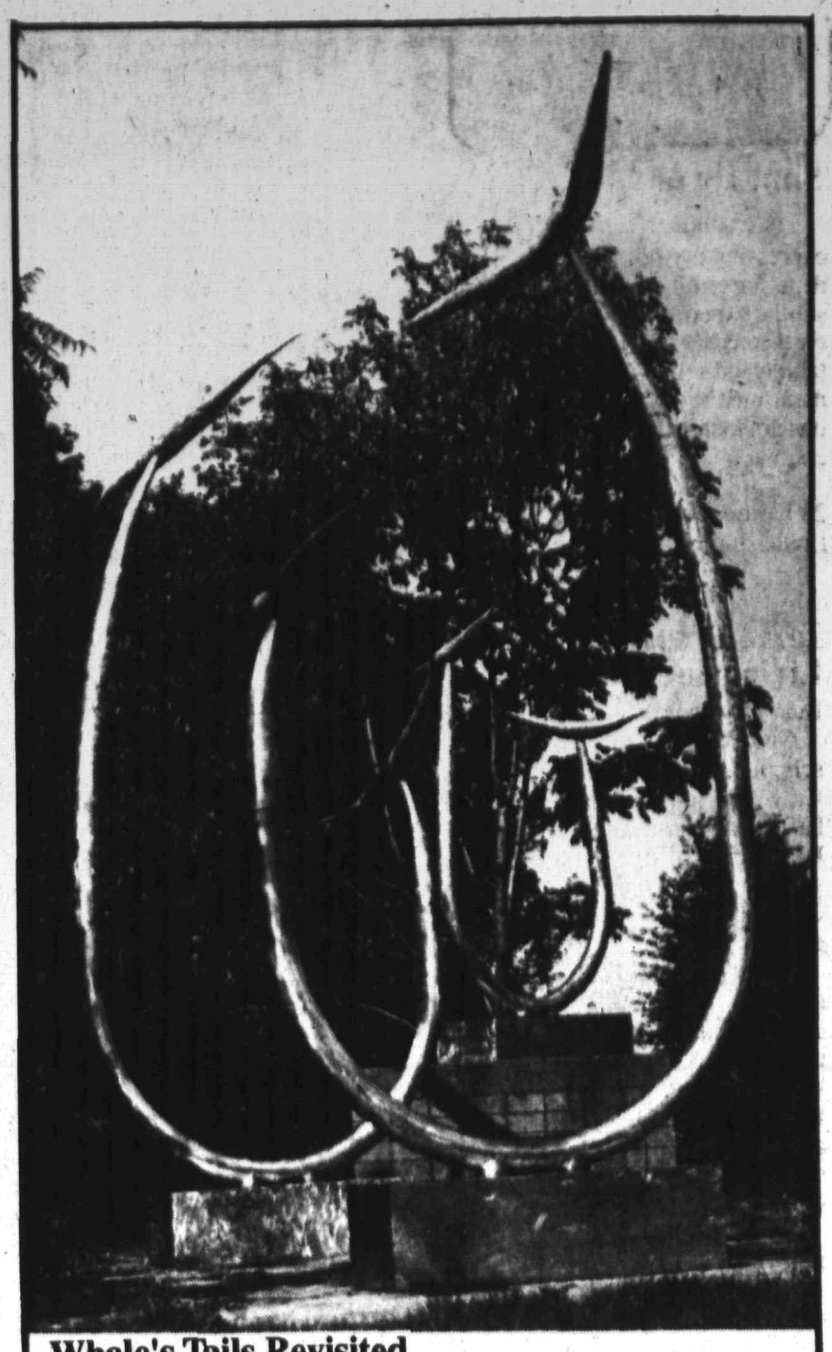

Ella Meyer of 11 White Oak Drive wrote about women's issues, noting that "instead of making life-saving research a political issue, Clinton/Gore say they will lift the ban on fetal tissue research and direct adequate resources to women's health issues."

Martin Wiener, 108 North Ashby Avenue, wrote in praise of the Democratic platform on education, including promises to "fully fund Head Start and give every parent the right to choose the public school his or her child attends."

Janet Wolff, 22 Stoneham Drive, wrote that she has known Ira Drucks for 18 years. Citing several examples of his quiet service to the community, she said that "through the years he has demonstrated that with integrity, dedication and leadership, actions really do speak louder than words."

Whale's Tails Revisited

From the Editor's Notebook
by Kit Cone

It is not very often that I use this space to plug a local activity or performance or meeting. There are so many things going on in Livingston every week that it takes our front page calendar just to make the quickest mention of them. But I would like to take a few inches to look at the annual economic presentations made by Michael Paslawskyj for the Livingston Area Chamber of Commerce.

Mr. Paslawskyj – mercifully the final letter is not pronounced – is vice president for business development and economic research at CIT Group in Livingston. He is a widely recognized economic forecaster, and I would like to think that some of the success of CIT Group depends on his work.

The idea of going to a program at which an economist is going to present his forecast of economic trends sounds like the least interesting thing imaginable. But I have been to Mr. Paslawskyj's programs: they are fascinating. With the extensive resources of CIT Group, he presents brightly colored rear-projection slides to illustrate his discussion.

Every step of his reasoning is carefully and colorfully explained in layman's language, so that the final conclusions are a logical wrap-up.

For the last few years Mr. Paslawskyj's predictions, through the period of the economic recession, have been precisely on the mark – right to the month and the percentage change. For anyone who runs a business, or whose business depends on an accurate picture of what the financial picture will be over the next few months or years, I can unreservedly recommend Mr. Paslawskyj's presentation. To get the advantage of this economist's ability at no cost is an astounding bargain.

And besides that, there's a fine reception afterward, sponsored by CIT Group.

Overall, if the program cost $50 it would be well worth going. It's free.

It's on Thursday evening, October 15, at 6 p.m. at CIT Group in the office park opposite Newark Academy. You don't need a ticket, but you do need an advance reservation: 992-4343.

Like many other government entities, the Essex County administration often takes a beating for being unresponsive or inattentive or rude.

An experience this week brightened my outlook on county government substantially.

We received a Public Notice from the county's Department of Planning and Economic Development, informing people about a hearing on the Community Development Block Grant program. Parenthetically, Livingston has received a great deal of money through this program over the years, for road improvements, Canoe Brook flood control work, improvements to the swimming pools, and many other projects.

Unfortunately, the person who put together the packet of materials neglected to include the layout for the notice, so we didn't know how to set the type. The cover letter included a name, Jeff Bertrand, and number for any questions, so I called.

The telephone was answered by a pleasant woman who said that she was very sorry that Mr. Bertrand was out at the moment. She took my name and number cheerfully.

A few minute later Mr. Bertrand was on the line, apologizing for the omission and offering to send the missing sheet on the fax machine. Within another 60 seconds the missing sheet came out of my fax machine.

Five minutes after that, Rosemary Senatore-Ciccone, the director of the division, called to be sure that we had everything we needed. Just to be sure, she sent a copy of the text for the notice on the fax machine.

It was only a few hours later when councilman Joe Fiordaliso stopped in my office that I learned that all these accommodating people work

Livingston Kids Care

Dear Mr. Cone,

On October 14 and 15, Livingston schools will conduct "Livingston Kids Care," a Hurricane Andrew relief drive for the school children of Dade County, Florida. The project is sponsored by the Parent-Teacher Council of Livingston with the generous support of Mail Boxes Etc.

Hurricane Andrew has destroyed or significantly damaged a number of Florida schools; children are in need of school supplies. Livingston schools have "adopted" several Florida schools, and children will be asked to donate items that will meet the specific needs of Florida children.

I hope that parents will discuss the plight of the Dade County children with their own children, and encourage them to participate in the "Livingston Kids Care" relief drive.

It's working.

The Council voted unanimously on Monday evening to approve the $11,000 expenditure. Typically, the sound system was building toward feedback while the Council voted, and councilwoman Ellie Cohen commented later that the improvements would be very welcome.

Township manger Charles J. Tahaney said that he hopes to have the improvements completed by the end of this year.

Leaf Collection

lected every week. The schedule of bag collections will be announced, and homeowners should not put out bags of leaves until just prior to collection.

Leaves in plastic bags will not be collected for ecological reasons; only paper leaf bags – either the free ones offered by the township or similar types which can be purchased – will be picked up.

Schaefer noted that although the Leaf Harvester equipment is much more reliable than the vacuum units which had been used previously, there is still potential for delays caused by wet weather or equipment damage. Because of the possibility of damage, crews have been instructed not to pick up leaf piles containing grass, sticks, rocks, and other material.

The trucks that pick up leaves are also used for snow plowing and salt spreading. Accordingly, Schaefer said, leaf collection will be conducted until the project is completed or until the trucks must be converted to plowing duty. Last year, with a mild winter, the collection was completed before the first major snowstorm.

Tahaney recommended that residents keep the pickup schedule in mind, and rake leaves to the street gutters in time for the first collection. Because of the uncertainty of the weather, it can never be predicted whether there will be enough time for a second pickup in any or all of the collection areas.

Tahaney said that the annual leaf collection program is one of the most difficult municipal services to administer. "Accordingly," he said, "we ask for your cooperation, patience and understanding."

Funeral Services Held For Walter Bystrak

Funeral services for Walter Bystrak, 83, were held Friday, October 2, in St. Paul's Catholic Church, New Bern, North Carolina.

Mr. Bystrak, who died at his New Bern home on Tuesday, September 29, following a long illness, was a long-time Livingston resident and later resided in Greendell before moving to New Bern. He owned and operated Walter Bystrak Realtors in Livingston from 1942 until his retirement in 1982.

Surviving Mr. Bystrak are his wife, Marie Tarasko; two sons, Stephen Walter and Gary L.; three daughters, Marilyn B. Valentine, Carol A. Ernst, and Christine E. Batt; a brother, Jack; a sister, Mary Maroney; 19 grandchildren; and 16 great-grandchildren.

Judge Refuses To Reduce Bail

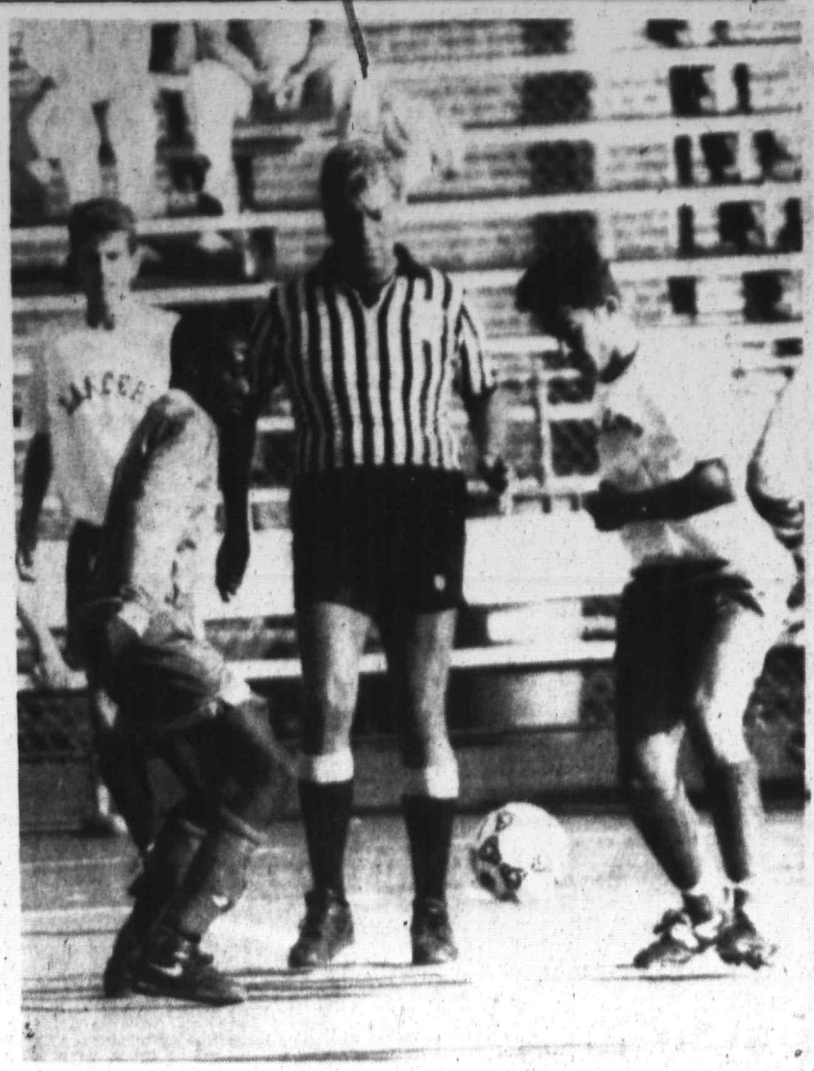

An effort to seek bail reduction by one of three youths arrested in Livingston last week in connection with the armed robbery of a car, the hold-up of a gas station in Parsippany, and their subsequent apprehension in Livingston ended in failure this week. Superior Court Judge Herbert Friend in Morristown turned down a motion to reduce the $200,000 bail on Vincent Owen, 19, of Newark.

Owen's attorney, public defender William Cucco, argued that as a first offender he deserved a much lower bail of $50,000, with ten per cent of this amount to be posted in cash.

Assistant prosecutor Thomas Critchley argued that Owen faces two charges of first degree armed robbery, and is also charged with being the driver of the stolen car who tried to flee from police in a pursuit from Parsippany into Livingston on September 23.

A similar request for bail reduction on behalf of Gregory Lamont Allen was withdrawn by his defense attorney, Al Gellene.

The charges filed by Livingston police in the case have been merged with the Morris County charges, and the matter is expected to be presented to a Morris County grand jury later this month.

Lancers Defeat Morris Knolls

The Livingston High School varsity football team won its second consecutive game on Friday, October 2, defeating the previously unbeaten Morris Knolls Eagles, 14-12. This is the first time since 1980 that Livingston has opened the season at 2-0. It also marked the first time Livingston has beaten Morris Knolls since 1987.

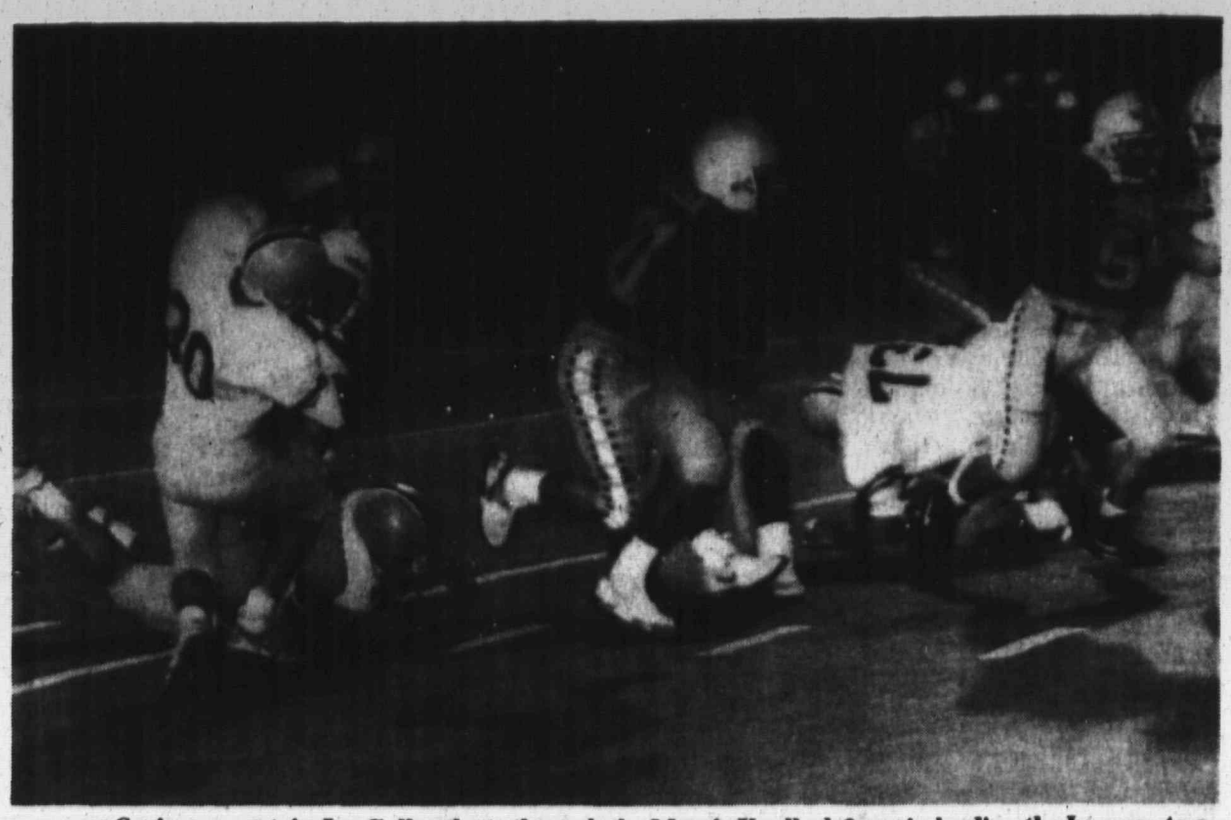

In the first quarter, Livingston controlled the ball for more than eight minutes. Joe Cullen led the ground attack that put the Eagles deep in their own territory.

The line was anchored by center Brett Ferdinand, guards Rod Rodriquez and Ed English, and tackles John Clark and Dave Giordano, who provided the path for the running game.

The Lancers' first score came when Cullen took a pitch and threw a 23 yard strike to Seong Lee for the touchdown, which came after a seven play, 70 yard advance. Dan Erb kicked the crucial extra point to put the Lancers ahead, 7-0.

Later in the quarter, quarterback Marc Altieri directed a drive with his pin-point passing to Lee, Varojan Baboomian, Cullen and Adam Levy. Altieri capped the drive with a touchdown pass to Lee. Quarterback Altieri finished the game 14 out of 17 for 180 yards, including a string of 11 straight completions. Among those completions was a screen pass to Cullen who did the rest of the work, picking up 40 yards on the play.

In the second half, the Lancers relied on their defense to stop the Eagles. Linebacker Dave Giordano came up with numerous tackles and teamed up with Erb to tackle a two point conversion in the fourth quarter. Late in the game, Pete Soldinger thwarted a late drive when he tackled an Eagle behind the line of scrimmage. Then on fourth down in Lancer territory, Cullen came up with an interception at the Livingston 33 with 2:28 remaining to preserve the victory.

The Junior Lancer A team had its fourth consecutive victory on Sunday, October 4, defeating the Lyndhurst Bears, 28-12. The team's record now stands at 4-0. Opening, the Lancers kick off to the Bears and Tony Cruz recovered the kick for the Lancers on their 19 yard line. That set the pace for the balance of the game, with Livingston dominating the field. During the first quarter, the Lancers moved the ball downfield, where Sam Oh took it in from the 5 yard line for the first touchdown. Oh was also successful on his kick for an additional two points. At the end of the half, with the score at 8-0, quarterback Brian Hsu threw a screen pass to Oh, who ran the ball 25 yards for the Lancers' second touchdown. The point-after attempt, however, was unsuccessful.

In the second half, quarterback Frank Semplenski threw a ten yard pass to Brandon Piechta, providing the third Livingston touchdown. Oh's kick after was good, advancing the Lancers to 22-0. During the fourth quarter, Mike Harris deflected a pass which Jason Spies intercepted for the Lancers. The final touchdown cam when Stan Tolstonov ran the ball in from the 15 yard line.

Semplenski went two for four for a total of 35 yards. Oh rushed for 124 yard on ten carries and three pass receptions. David Switzer ran for 33 yards on nine carries. Harris rushed for seven yards in three carries, and Tolstonov rushed for 14 yards. David Leland had a 15 yard pass reception, and Piechta had a seven yard pass reception. Carlo DeCastro had 12 yards on three carries, and Dave Rosa ran five yards in two carries. Effective blocking was provided throughout the game. The line was led by Joe Leone, Tolstonov, Cruz, and Mike Graham. Defensive leaders were Tolstonov with ten tackles, Cruz with nine and a sack, Spies with five, and Graham, Frank Hill and Mark Moon with three each. Semplenski, Harris, DeCastro, Peter Holub, Keith Butler, and Jordan Czeizler each had two tackles. Additional strong team efforts were turned in by Sean Brackin, Greg Granito, Mark Granito, Mark Melillo, Jeff Levine, Sean Band, Joe Belles, and Joe Elliot. The team will travel to Wayne on Sunday, October 11. Kick-off is scheduled for 2:30 p.m.

A scoreless first half was characterized by a hard-hitting offensive line led by Theo Filis, Adam Kahn, Nick Van Syckel, Andy Kozlowsky, Jamie MacGeorge, Rob Gillo, Mike Davis, and Danny Fusaro. Driving the ball for the Lancers' offense were Craig Monaco, Jarrod Pence, Kris Guiles, Joe DeCorso, Steve Normane, and Phil Leland.

The defensive unit, led by DeCorso with ten tackles, worked hard all afternoon. Pence had eight tackles, followed by Filis with five, Kahn with five, and Monaco, Kozlowsky, Normane, Guiles and MacGeorge, all with three tackles each. Assisting on many of the tackles were Van Syckel, Gillo, Davis, Leland, and Fusaro.

The team next meets Wayne on Sunday, October 11. Kick-off at the away game will be at 1 p.m.

Junior Lancer C Team

On Sunday, October 4, the C team was host to Lyndhurst in its fourth game of the season. The 32-0 victory was also the team's third consecutive shut-out.

Using a potent "full-house backfield" and a "no huddle" offense, the team scored each time it had the ball. Frank DeNick shed tacklers on every run while on his way to scoring two touchdowns and gaining 50 yards. Anthony Antonucci powered his way to 102 yards, and broke free for touchdown runs of 28 and 38 yards. Dan Casiero, using his speed to the outside, led all runners with 111 yards, including a 48 yard touchdown run and two extra points. Joe Natale went one for one with a 16 yard pass to tightend Pat Trabucco.

The defense, led by Jason Perry, Andy Burns, Trabucco, and Casiero, held Lyndhurst to only two first downs all day. Rich Gamba had a fumble recovery and a quarterback sack. Joel Schwartz also sacked the quarterback as the entire defense shut down its opponents with an impressive effort.

Also having a great day on defense were Brian Ayars, Dan Keenan, Matt Kirspel, and Frank Raffa, while Peter Landusco, Jason Band, Matt Jankowicz, Rich Davis, and Mark DeCorso played well on both sides of the ball.

Junior Lancer AA Team

The AA team lost its second game of the season to Montville on Saturday, October 3, by a score of 13-19.

Quarterback Brian Hsu was able to complete two of five pass attempts and also ran the ball in for the Lancers' first touchdown. David Rosa provided the second Livingston touchdown on a 60 yard run and was also successful on his run for the extra point. Rosa rushed for a total of 142 carries, and end Cory Calabrese had two pass receptions for a total of 40 yards gained.

Leading Livingston's defense were Frank Hill with seven tackles, a sack and a fumble recovery; Sean Band, with five tackles, a sack and a fumble recovery; Matt Grubler, with three tackles and an interception which began the Lancers' drive for their first score; and Mark Granito, with three tackles and a sack. Additional strong team efforts were made by Joe Friedman, Doug Murphy, Billy Friedman, Matt Keenan, Sean Brackin, Joe Belles, Peter Holub, Andrew Bonito, Jeff Levine, Mark Melillo, Keith Butler, Tom Gaeto, Rich Russo, and Joe Elliot.

Handicapped Parking Stalls Are Approved

In a brief action on Monday evening the Livingston Township Council gave unanimous approval to the formal registration of parking stalls for use by handicapped people at 3, 5 and 7 Regent Street, in the office park off West Mt. Pleasant Avenue.

To be enforced by township police, the designation of parking stalls for the handicapped must take the form of an ordinance. Livingston resident Cullie B. Willis, a retired engineer who had donated his professional credentials and expertise at the outset of the campaign to designate parking for the handicapped, was present at Monday's meeting to witness the Council's action on the newest application.

There were no speakers at the public hearing, and the application was passed unanimously.

DECORATING THE SUCCAH at Congregation B'nai Jeshurun in Short Hills in prepration for the festival of Succot are Livingston residents Linda Levi, president of the Women's Association of the congregation, and Terri Orringer, at right on ladder. The Succah recalls the temporary harvest shelter erected in the fields in antiquity, and accordingly is decorated with cornstalks, fruit, gourds, corn and other harvest symbols.

Cheri Dawn Nissenson Becomes Bride Of Scott Allen Ratner in Florham Park

Cheri Dawn Nissenson of Livingston became the bride of Scott Allen Ratner of East Brunswick on Sunday, August 23, at Brooklake Country Club in Florham Park. The bride is the daughter of Sheila and Harris Nissenson of 7 Chaucer Court, and the bridegroom is the son of Carol and Irwin Ratner of Chesterfield, Missouri.

The bride was given in marriage by her parents at the outdoor ceremony, which was performed by Rabbi Jehiel Orenstein. A reception immediately followed at the country club.

The bride wore an off-the-shoulder satin and tulle Princess gown which featured a scalloped sweetheart neckline. The bodice was beautifully adorned with pearls, sequins and bugle beads. The skirt was full layers of tulle with a lace applique on the train. She carried a cascading bouquet of orchids, fuchsia and white roses, stephanotis, carnations, eucalyptus, and baby's breath. In addition, the bride wore a blue topaz pendant from her grandmother, "Mema" Claire Nissenson, and the engagement ring of her grandmother Sayde Barkan.

The matron of honor was the bride's sister, Tammy Brill of Lake Hiawatha. She wore a fuchsia cocktail length dress which featured off-the-shoulder puffy sleeves and was tight to the waist with a balloon bottom. She carried a white and purple wildflower arrangement with pink roses and baby's breath.

The bridesmaids were Meryl Zacker of San Diego, California; Peggy Schlacter of Madison; Victoria Papaleo of Edison; Stephanie Sandlin of Chatham; and the bride's cousins, Ellen and Michelle Polansky, both of Greenwich, Connecticut. The bridesmaids wore fuchsia cocktail length dresses, which were tight to the waist and had balloon bottoms, and featured off-the-shoulder puffy sleeves. They carried white, pink and purple wildflower arrangements with baby's breath.

The bride's nephew, Matthew Adam Brill of Lake Hiawatha, was the ring bearer, and Lauren Papaleo of Edison was the flower girl.

The best man was Craig Brill of Lake Hiawatha, brother-in-law of the bride. The ushers were Steven Ratner of Southboro, Massachusetts, brother of the bridegroom; David Polansky of Greenwich, Connecticut, cousin of the bride; Gregory Tallin of St. Charles, Missouri, David Tallin of Crestwood, Missouri, and Matthew Tallin of Hays, Kansas, cousins of the bridegroom; and Ronald Papaleo of Edison. The junior ushers were Ben and Sam Ratner of Southboro, Massachusetts, nephews of the bridegroom, and Daniel Kyle Brill of Lake Hiawatha, nephew of the bride.

The bride is a 1983 graduate of Livingston High School, and a 1987 graduate of Fairleigh Dickinson University, where she earned a bachelor of arts degree in marketing and communications, and was a member of Zeta Tau Alpha sorority. She is employed by Sandoz Pharmaceuticals Corporation in Florham Park.

Her husband is a 1977 graduate of Brookline High School in Brookline, Massachusetts, and a graduate of the University of Massachusetts at Amherst. He is employed by Nostalgia Oak Warehouse in Old Bridge.

Following a honeymoon trip to Dunn's River in Ocho Rios, Jamaica, the couple is residing in East Brunswick.

JV Girls' Soccer Team Loses Two Matches

The Livingston High School junior varsity girls' soccer team lost two games this past week.

On September 30 the team lost to Morristown, 1-0. Thanks to goalkeeper Melanie Talesnick, who stopped 14 shots on goal, and sweeper Jenny Upton, the hard fought game was kept close and within reach.

On October 5, the Lady Lancers lost another heart-breaker to undefeated Millburn, 2-1. Outstanding defense was again provided by goalie Talesnick and stopper Jenna Goldberg. The Lancers' lone goal was scored by striker Leanne Bridge.

Ladies' Auxiliary Meets October 13

The regular meeting of the Ladies' Auxiliary to the Veterans of Foreign Wars Post No. 2856 will be held on Monday, October 13, at the Post Home.

At last month's meeting, Terry Morris, community service chairwoman, reported members' volunteer involvement in hospital work, recycling and the Pioneer of America organization. She added that volunteers also helped by shopping and visiting homebound seniors, attending the church's interfaith hospitality network program, and making donations to the blood bank and Eyes to The Needy.

Auxiliary and post members were helpmates for the Lyons Hospital veterans at their annual carnival in September.

Diane Hanley, hospital chairwoman, reported on clothing and sundry donations to the Lyons Hospital veterans. Service booklets were also distributed. The Auxiliary also announced that it, and the Post, will conduct a pizza party at the hospital on Saturday, October 31, at 2 p.m.

The Auxiliary's annual turkey supper will be held on Sunday, December 13, at the post home and Betty Jensen will serve as chairwoman.

In addition, flag kits are available by calling 992-3918 or 992-9428.

Is Bar Mitzvah

The bar mitzvah of Adam Marc Saltzman took place at sabbath morning services on Saturday, October 3, at Temple Emanu-El of West Essex. He is the son of Sharon and Alan Saltzman of Livingston.

UNUSUAL SUNDAY HOURS were observed in the Livingston headquarters offices of the Howard Savings Bank on October 4, following the announcement that the bank had been taken over by the state commissioner of banking and turned over to First Fidelity Bancorp. The failure of the bank came as no surprise, as the bank had been struggling since the end of 1989 to deal with the effects of unprofitable commercial real estate loans. Although the Howard had maintained a flagship office in Newark, the actual center of its operations and executive offices was in its Livingston office, on South Orange Avenue. The bank's 70 branches and most of its $3.6 billion in assets were turned over to First Fidelity, and all branches opened as scheduled on Monday morning under the new management. The FDIC put $310 million into the deal, and agreed to retain $616 million of the unsuccessful loans itself. On Sunday, bank executives were called in to work out the details of the transfer and prepare for the opening on Monday morning, resulting in the unusual photograph above of the packed parking lot at the Howard operations building in Livingston on a Sunday afternoon. Baptist Church to Hold Layperson's Day

The Rev. Peter C. Picos, pastor of the Northfield Baptist Church, has announced that the church will celebrate Laypersons' Day on Sunday, October 11. The 11 a.m. worship service will be conducted entirely by laypeople.

The morning message, entitled "Why I Support My Church," will be delivered by Deacon Roger Johnson. Assisting will be Deaconess Catherine Larson. A videotape concerning the Baptist camp and conference center at Lebanon campaign will be shown by Jesus Vazquez, who serves on the ABC NJ Youth Committee and camp planning committee.

Offeratory stewards for this service will be Sean Pettiford, president of the Baptist Youth Fellowship, and Ruth Dowden, chairwoman of the Evening Circle. A special chorus singing by the congregation will be conducted by Vazquez, youth leader of the church.

Greeters at the door for the occasion will be trustee John Tucker and Deaconess Ruth Green, and members of the Baptist Youth Fellowship will act as ushers.

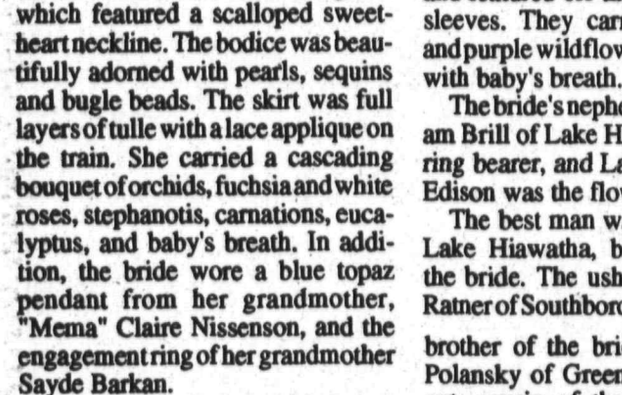

Everyone in the community is invited to attend. The church is located at Northfield Center. For more information, call 992-0243.

Livingston Women's Club Will Meet October 14

Fiordaliso Pushing Shrewsbury Dr. Law

In a brief statement at the Township Council's business meeting on Monday evening, councilman Joseph Fiordaliso said that he hopes the county Board of Freeholders will soon take action on a truck weight limit for Shrewsbury Drive. The Township Council had approved a four ton weight limit last month in an effort to control the use of the residential street by heavy trucks.

Fiordaliso said on Monday that there had been some confusion concerning the scheduling of the matter for action by the freeholders, who must approve any traffic limits because Shrewsbury Drive is a county road. Although there had been a rumor that action would be taken this week, Fiordaliso said, it is not likely until later this month.

The proposed weight limit would apply to the full length of East Cedar Street, as well as to Shrewsbury Drive and Laurel Avenue. The three streets form a north-south link across Livingston that also provides a major access route to Interstate 280.

Residents of Shrewsbury Drive have attended many Council meetings in recent months to call for action to control speeding in excess of the 25 mile per hour limit, and the use of the road by heavy trucks.

Fiordaliso said on Monday night that he would continue to press for action at the county level on the weight limit law. Fiordaliso is director of the county's Department of Planning and Economic Development.

Presbyterian Women To Hear About China

The Women's Association of the Livingston Presbyterian Church will meet on Tuesday, October 13, at the church, 271 West Northfield Road, at 8 p.m. The Rev. and Mrs. L. Newton Thurber will talk about their "People to People" trip to China in April of last year.

The Thurbers will show some slides as a setting for their experiences, and then share some information about the situation of the church in China.

Members of the Evening Circle will lead the worship, and members of the Afternoon Circle will provide refreshments.

Using different themes throughout the year, **Riker Hill** second grade teacher, Roberta Krumholz, incorporates an interdisciplinary approach to learning, an approach now widely used in the Livingston school district. This approach allows the students to focus on different academic areas while involved in a single activity. Using the current theme "A Children's World of Monsters," Krumholz's class first read a poem about monsters making pudding, and then actually made the "monster pudding" themselves, incorporating poetry, reading, measuring, math and science in a single activity.

Collins School PTA will hold its annual Carnival on Friday, October 9, from 3 to 6:30 p.m. The event will include pony rides, a Moonwalk, games, and prizes.

Apprehend Shoplifter; Find Weapons in Car

Livingston police apprehended a Linden man, who is charged with shoplifting, and found drugs and weapons in his car on Thursday, October 1.

Employees of NBO, a men's clothing store at 577 West Mt. Pleasant Avenue, called police at 3:25 p.m. to report that nearly $600 worth of clothing had been taken from the store. The shoplifter had fled from the parking lot of the store in a 1983 Toyota, which was spotted by Officer John Kelly at the intersection of Walnut Street and Eisenhower Parkway. The officer attempted to stop the car; however, the driver accelerated, heading south on Eisenhower Parkway. Moving at a high rate of speed, he lost control at the intersection of South Orange Avenue. The car struck the median and the curb before becoming entangled in traffic.

Officer Kelly was able to block the Toyota with his patrol car. The officer, along with Livingston Auxiliary Police Officer Tom Luciano, approached the driver, identified as Glen Williams, 43, of Linden. Williams brandished a knife at the officers, who were able to subdue the suspect and arrest him. After arresting Williams, officers recovered the clothing from NBO in the car. They also found an assortment of homemade weapons and a vial of crack cocaine.

Williams was charged with aggravated assault, several weapons offenses, eluding police, possession of a controlled dangerous substance and a variety of motor vehicle offenses, including being an unlicensed driver.

He was arraigned before Municipal Court Judge Lawrence Cooper, who set bail at $5,000. Williams is being held in the Essex County jail in Newark in lieu of bail, pending a hearing in Livingston Municipal Court on October 21.

40 Years Ago

October 9, 1952: An application was received 40 years ago this week from the Eastern Precision Parts Corporation for permission to build a factory on Beaufort Avenue, at the sharp bend just north of the traffic circle. The firm manufactured airplane parts and residents of the street strongly opposed the proposal.

Bill Klaber's editorial questioned the wisdom of permitting such a plant. "There can be no question but that the residents are right in this contention... The basic problem to be faced is what is to happen to the land between Beaufort Avenue and the high tension lines if this and similar are not put there ... If there is no market for it as residences, the landowners may well object that the zoning ordinance is a confiscation of their property ... All this and much more must be investigated."

The Township Committee approved an ordinance providing for the construction of a township hall. The Committee set aside $40,000 for the project, with $28,000 coming from bonds or notes and the remainder being appropriated from the budget. The proposed Township Hall was to be located in the Civic Center, with the understanding that the Civic Center would be expanded if property across from the entrance drive to Memorial Park could be acquired.

The expansion of Laurel Avenue from Mt. Pleasant to East Cedar was started 40 years ago when the Township Committee agreed to give the County the land necessary. All other property owners affected by the proposal had already signed over the needed land. The county engineer indicated that some of the grading for the new road might begin in the fall of 1952.

A test well off Dorsa Avenue hit water at 160 feet, according to Committeeman Wisdom. The new well was being sunk to increase the township's water supply.

Charles Schilling of the Livingston First Aid Squad reported that more than $1,500 had been received in the squad's mail fund-raising campaign. Schilling hoped that enough contributions would be received so that the free service could be continued.

Evelyn Needham, daughter of Mr. and Mrs. Thomas Needham of 114 North Livingston Avenue, was married to Donald A. Drake of Rahway 40 years ago this week. Also announced was the marriage of Margaret C. Newman, daughter of Mr. and Mrs. H.G. Newman of Beaufort Avenue, to Peter J. Cannell of West Orange. Also married 40 years ago this week were Christine Megaro of Newark to Norman A. St. John, son of Mr. and Mrs. Archie St. John of 95 East Cedar Street.

Three births were also announced 40 years ago. Mr. and Mrs. David McAvoy became the parents of Kevin Raymond; Daniel Steven was born to Mr. and Mrs. Daniel M. Pasquale of 47 Mt. Pleasant Parkway; and Mr. and Mrs. C. Edward Bellew of 28 Dougal Avenue announced the birth of Susan Dorothy.

The Diamond Shop in Orange advertised all wool, women's coats with fleece, zebra checks and many with velvet trim for $28.

Dedication services for the Olivet Church building were held 40 years ago. Reverend Louis Higgins, Walter Wootton and George H. Fryer participated in the dedication litany that followed the special worship service.

Featured movies 40 years ago were *Sudden Fear*, starring Joan Crawford and Jack Palance; Gene Kelly and Pier Angeli in *The Devil Makes Three*; and James Cagney and Dan Dailey in *What Price Glory*.

Services Offered For Doris Lawson

Funeral services were held September 22 for Doris C. Lawson of Livingston, who died September 18 in Union Hospital in Union. Interment was held at Gate of Heaven Cemetery in East Hanover.

She was also a supervisor for billing for the Livingston Water Department and served as a tax collector clerk for ten years. She retired three years ago.

The Livingston Big L Club will hold its first open public meeting on Thursday, October 15, at 8 p.m. in the main gym at Livingston High School. The meeting is being held to acquaint residents of the town of the goals of the sports booster organization.

The Big L Club, run by local volunteers, is dedicated to supporting all Livingston High School varsity sports. In addition to their physical support, the Club has donated numerous sports-related items, such as jackets, to the school's championship teams as well as such equipment as score boards for use at remote fields.

The Club has taken great pride in its recognition of senior athletes, each of whom is presented with plaques and trophies at a dinner given annually in their honor. The Club also provides financial scholarship awards to two senior athletes.

Anyone interested in learning more about the Big L Club may attend the open meeting.

Republican Statement

(Continued from page 1)

crats controlling the Livingston Township Council were not quick enough to spend a last minute, inrush of money from Trenton this year. So while spending by municipal government increased this year by three-quarters of a million dollars, the effect on taxes was cancelled mostly by the unpredictable Supplemental Municipal Property Tax Relief from Trenton, which jumped a third to $1,127,535. Were it not for this surprise, local Democrats would have achieved a perfect record of raising taxes for municipal government ever since they took control of the Township Council.

If the incumbent Democrats wish to take credit for the tax whirlpool from Trenton, they must take responsibility for the crushing burden to taxes from Newark. This blame falls heavily on the Livingston Democrats who are scrambling for the lucrative patronage jobs so plentiful in Newark. Incumbent councilman Joseph Fiordaliso for his part wasted no time getting on the Essex County payroll. As a highly paid director of Economic Planning, councilman Fiordaliso will doubtlessly claim his work benefits Livingston, but the true beneficiary is Councilman Fiordaliso. Surely, self-interest played a large part in his decision to seek re-election.

The stories of patronage are endless. One need only look to the Livingston Democratic chair who is on the Essex County Board of Elections while her husband is on the Essex County Improvement Authority. While such patronage is not novel, its magnitude in Newark is staggering. Career politicians, insulated from the business cycle, have made government patronage the highest growth segment of our local economy.

The Democrats controlling the Essex County government are now spending almost half a billion dollars each year – that's a billion not million. And for what? The small percentage of our own money that they bother to return to Livingston is returned with great fanfare, but with little effect on local taxes. We are deeply troubled by the magnitude of our money passing among Democratic stalwarts and its effect on the governance of Essex County and Livingston.

Progress in Livingston will require a strong two party system. Unlike our opponents, we believe both parties should have a voice locally. With Republican representation down to one dissenter, Republicans cannot even introduce legislation without the consent of a Democrat. We expect the Democrats to run an aggressive and expensive campaign to maintain that unfair advantage.

But killing opposition will not promote progress on important fronts. As Republican candidates, we want to expand our senior citizen programs. We want to make real progress, beyond lip service, to developing a senior center that will serve more than just the residents of senior housing. We want to continue the pressure to extend Eisenhower Parkway and to relieve traffic congestion. We want to encourage businesses to improve their appearance. We must begin discussions with the Livingston Mall merchants' association on improving mall security. Please give us at least a chance to debate these ideas in the Township Council.

Democratic Statement

(Continued from page 1)

had leaves piled up on the streets into January and February. Now, having given the Public Works Department the tools they needed, we have a four year record of getting the leaves off the streets in mid-December.

We have significantly broadened the focus of the government toward social services. We established a Family Services Advisory Committee and created a new Health and Human Services Department with a full-time coordinator of social services. We quickly, strongly, and consistently supported the formation, promotion and activities of the Livingston Municipal Alliance, which educates and rewards non-use (alcohol and drug) and leadership among our kids and other family members. We continued the Council's strong support for the Livingston Youth Service Bureau while cutting grants meted out to out-of-town agencies where we weren't getting our fair share. We continued to support Project Graduation and the Paradise Cafe (presiding over the opening of the latter).

Four years ago, the appearance of the town's business areas was disappointing. Now, although there is still work to be done, there are new tangible improvements from Center to Center. Look at the Plaza, We initiated and promoted the plan for uniform canopies. Others in the Livingston Center area have pledged to follow the lead. Look at the Oval. We have created and supported a Holiday Lighting Committee which has been enormously successful. We continue to benefit from a Township Appearance Committee with boundless energy and resolve. (This year they initiated "Pride Day" and cleaned up Livingston Center.)

All the while, we kept taxes down. In 1992, we lowered the municipal tax rate! In 1990 and 1991, we tore up your garbage bills and put them, instead, in your tax bill, which meant a savings for more than 80% of residents and a tax deduction as well. (Setting aside the shift of the garbage bill, the cost of municipal operations went down in 1990 and 1991 as well.)

If re-elected, we pledge to continue — Pride Up — Taxes Down. Our practical goals include a Senior Center (as well as a small Senior Pavilion on-site at the Senior Housing Village); accessible housing units; improving another town-owned playground; continuing to expand recycling efforts; continuing to respond to neighborhood requests; continuing to discourage "big development" (like the ten-plex movie theater we gave "thumbs down" to); continuing to improve our business districts; continuing to fight for Eisenhower Parkway; continuing our brook maintenance program; continuing to improve Littel's Pond.

Most of all, we pledge to continue to let Livingston be Livingston and assure that Town Hall is the most efficient, accessible, caring and comprehensive of all levels of government which affect you. We have the experience. We have the chemistry. We have the record.

SECTION 9. The full faith and credit of the Township is hereby pledged for the payment of the principal of and interest on all bonds and notes issued pursuant to this ordinance, and as long as such bonds or notes are outstanding there shall be levied in each year ad valorem taxes on all taxable property within said Township without limitation as to rate or amount sufficient to pay principal of and interest on such bonds and notes maturing in said year.

SECTION 10. In the event that any moneys are expended for the purposes authorized by this ordinance prior to the issuance of bonds or notes authorized hereunder, the Township reasonably intends to reimburse such expenditures with the proceeds of bonds or notes issued hereunder. Nancy Coleman and Bruce Staubitz Exchange Wedding Vows in Short Hills

Nancy Lynn Coleman of Wayne and Bruce Robert Staubitz, also of Wayne, were married on Saturday, September 26, at St. Rose of Lima Church in Short Hills. The bride is the daughter of Anita Coleman of Wayne and the late Henry Coleman, and the bridegroom is the son of Charlotte and Robert Staubitz of 274 Hillside Avenue.

The bride was given in marriage by her brother, John G. Coleman, at the early afternoon ceremony performed by Father Knauer of Immaculate Heart of Mary Church in Wayne. A reception followed at Canoe Brook Country Club in Summit.

The bride wore a white, off-the-shoulder gown with a portrait neckline and a long train which featured lace and embroidery inserts. She carried a bouquet of Victorian white roses, and wore a pearl tiara headpiece. Her diamond engagement ring is an heirloom.

Attending the bride were her sisters, Marie J. Cummings of West Milford, who was her matron of honor, and Barbara Claeys, also of West Milford. The attendants wore mauve dresses with chiffon tea length skirts that featured Victorian floral jackets with a beige lace overlay and pink pearl buttons.

Juliana L. Tyson of California, daughter of actress Shelley Long, was the flower girl, and her father, Bruce, attended the wedding.

The best man was Kenneth Brown of Philadelphia, Pennsylvania, uncle of the bridegroom. The ushers were John G. Coleman of Hewitt, New Jersey, brother of the bride, and Dr. Bruce Fine, D.D.S., of Wayne.

The bride is a 1978 graduate of Wayne Valley High School, and is a professional nanny in Wayne.

Her husband, a 1976 graduate of Livingston High School, was graduated from Paul Smith College in New York, and Fairleigh Dickinson University in New Jersey. He is a sales manager with Sava Industries in Riverdale.

Following a honeymoon trip to St. Thomas, the couple will reside in Wayne.

Field Hockey Team Loses to West Morris

The Livingston High School varsity field hockey team played a number of games this past week, beginning with a 6-0 loss to West Morris on Friday, October 2. Goalie Dana Allen recorded seven saves, while Jen Lee saved five. The loss came on the heels of other losses to Roxbury and Morristown. But coach Mensch said of the team, "They go out there and really play tough. They know we aren't as skilled as our opponents and they play all the way 'til the final countdown. A coach can't ask for anything more than that."

Mensch commended junior midfielders Tracey Sage and Chris Edralin for their great stick work, and goalies Allen and Lee for their defensive play.

On Saturday night, October 3, the team was host to Randolph under the lights. After a superior defensive game, the girls held Randolph to only three goals, two of which were scored in the first half and one in the second. Allen played for the first half and recorded eight saves for ten shots on goal, while Lee recorded nine saves for ten shots in the second half. Playing well for the Lady Lancers were Jamie Park and Helen Rhim, as well as Esther Tak in a mid-field position. Sweeper Pegeen Comerford once again led the defense on the field and had man stops to Randolph's hard shots. Other players seeing action Saturday night included Katie Ladner, Amy Alias, Hima Dasika and freshman Chrissy Hui.

Livingston ended its losing streak with a 0-0 tie with Glen Ridge at home on October 5. The entire team played well but could not register a goal. Defensively, Livingston stopped six shots on goal while the offense took eight shots. Playing offensively were senior Pritee Patel, Tara Lennon, Niomi Moon, and Maureen Leon. Also playing were Jeannie An and Hima Dasika. The team's record now stands at two wins, five looses, and one tie.

Fire Dept. Will Install Vent System To Remove Engine Exhaust Fumes

A ventilation system that will remove the diesel engine fumes from fire engines will be installed at the main fire station at Livingston Center following the awarding of a contract by the Township Council on Monday evening. The contract was awarded to Clean Air Company of Fords, despite the protest of another bidder, Air Purifiers, Inc., of Denville.

The system, recommended by federal health authorities, consists of hoses that can be connected to the exhaust pipes of the fire engines. When the engine is started, the vent system automatically draws the exhaust fumes through the hose and out through a roof duct.

The hoses are attached to the exhaust pipes by a compressed air bladder device. When the truck starts to move forward, the bladder deflates and the hose drops away.

Fire Chief Craig Dufford said that the new system meets two essential needs. First, it is a safety consideration for the volunteer firemen who have to report for duty in a fire station full of exhaust fumes. Second, because several engines are stored at the main station, when they are all started the fumes are very dense, making it hard to see. With many firemen rushing to get into turnout equipment and engines moving out of the building, there is a serious hazard to the volunteers' safety.

In addition, Chief Dufford said, the new system will make it possible to run the engines in connection with repair and maintenance work, or to keep them in workable condition in extremely cold weather.

At the Township Council's business meeting on Monday evening, it was disclosed that the lowest bid on the exhaust system, from Air Purifiers, Inc., did not meet the specifications. Township clerk Renée Green read a letter from Nello DiRezzo, president of Air Purifiers, acknowledging that his equipment did not meet the specifications, but asking that his bid be considered.

Township attorney Lois VanDeusen advised the Council that DiRezzo had a right to a hearing if his low bid was being rejected, but he had not wanted to make such an appearance. Accordingly, she said, the Council was acting appropriately to reject his bid and accept a bid which does meet the specifications.

Chief Dufford informed the Council that he had examined installations by both Air Purifiers and Clean Air Company at fire stations in nearby communities. On the basis of those inspections, he said, he was convinced that the specifications were valid. Accordingly, he recommended that the low bid from Air Purifiers be rejected, and the contract be awarded to Clean Air Company for a system that meets the specifications.

Councilman Stanley Weinroth, an engineer, noted that the purchase of safety equipment must involve more than just the lowest price. The contract was awarded to Clean Air Company at the bid price of $27,320.

WEST ESSEX TRIBUNE

A check for $285,000 was presented this week by councilman Joe Fiordaliso, director of the Essex County Department of Planning and Economic Development, to Livingston mayor Edward Sullivan. The $285,000 is a low-interest loan made through Essex County for the purchase of a front end loader and two dump trucks to be used in the town's leaf collection program and for other municipal projects.

Town Receives $285,000 from County For Leaf Collection Trucks & Loader

A check for $285,000 for the purchase of two dump trucks and a front end loader was presented to mayor Edward Sullivan this week by Joseph Fiordaliso. A member of the Township Council, Fiordaliso is also director of the Essex County Department of Planning and Economic Development, which arranged the low interest loan through the Essex County Improvement Authority for the purchase of the equipment.

The check was presented in a ceremony in the office of county executive Thomas D'Alessio this week. The township administration plans to purchase the two large trucks and the loader in time for the start of the annual leaf collection program in the first week of November.

ECIA loans, which carry interest at far lower than market rates, have been utilized by Livingston for several years to make major purchases of heavy equipment for the Department of Public Works.

As director of the Department of Planning and Economic Development, Fiordaliso is also responsible for the Community Development Block Grant Program, a function of the county's Division of Housing and Community Development. The new "Littell People's Park" was partially funded through this program.

Livingston has received more than $220,000 through the Block Grant program during the past four years. The money has been used to fund a portion of the salary of the coordinator of activities for the handicapped, to install a chairlift at Northland Pool, and to make renovations at both municipal pools.

Loader Is Ordered

At its business meeting on Monday evening the Township Council voted unanimously to approve the purchase of the front-end loader financed through the ECIA program. The purchase will be made from Jesco, Inc., of Plainfield, which had submitted the lone bid on the contract on August 17. Although there was only one bidder, the township engineer examined the bid and determined that it was competitive and satisfactory.

The town will buy a John Deere model 544E-TC at the bid price of $96,227.

Walnut Street Resident Asks Township Council For Help With Traffic Problems Near Mall

Kathleen Beltram of 277 Walnut Street addressed the Livingston Township Council at its business meeting on Monday evening, asking for help with serious traffic problems in the area of the Walnut Street and West Hobart Gap Road intersection.

Beltram, speaking on behalf of several neighbors in the area, said that the combination of a sharp curve in Walnut Street and the three-cornered intersection has meant endless problems during the 15 years she has lived in her home.

She told the Council that cars routinely drive on her lawn when they fail to negotiate the curve, and go through the fence that her next-door neighbor has erected. Cars use her U-shaped driveway to turn around, she said, and on one occasion came perilously close to killing a child who was playing in the driveway.

Last week, Beltram continued, as leaves started to fall on the road, a car slid on the slick leaves, went off the road and crashed into a utility pole.

Adding to the other problems, she said, is the very poor condition of the road surface. Drivers try to avoid the treacherous potholes, she said, making it difficult to stay on the correct side of the curving road.

Mayor Edward Sullivan advised Beltram that he had also heard from another neighbor about the continuing traffic problems in the area.

The mayor said that although Essex County has had plans to improve the intersection and straighten the curve for many years, implementation was complicated by the designation of some of the land as Green Acres which could not be used for any kind of development.

Within the last few weeks county engineer John Vitale has advised Livingston township manager Charles J. Tahaney that an alternate plan has been prepared that does not require the use of any Green Acres land. Vitale said that construction of this revised plan could begin in mid-1993.

Mayor Sullivan said that the county has not made extensive repairs to the road surface in the area, knowing that the road would be torn up in the near future for realignment and the installation of traffic signals. With the knowledge that this work cannot begin for many months, the mayor said that he would press the county to make repairs for the safety of motorists.

Sullivan said that he had also been advised by residents of the area that buses are using Walnut Street as a short-cut, although this is not an approved bus route. He said that efforts to notify bus companies of this practice would continue.

Plan Memorial Service For Mrs. Russoniello

A memorial service will be held on Sunday, October 11, for Donna Kandl Russoniello, the late wife of Dr. Michael Russoniello of Livingston. The memorial service will be held at 11 a.m. at the Gomel Chesed Cemetery on Mt. Olivet Avenue in Newark.

Following the memorial service, at 1 p.m., a dedication ceremony will be held at Dover Hospital on Jardine Street in Dover. A plaque will be dedicated at the hospital in Mrs. Russoniello's memory.

WINTER SPRING SUMMER OR FALL . . . .
ALL YOU HAVE TO DO IS CALL*

For many years Livingston set aside 1 day for disposal of bulky items, "Spring Clean-Up". It was just 1 day, but it was better than nothing. Then it was cancelled.

What did you do? Fill your garage with old mattresses and carpets? What did you stuff in the attic or basement?

Then **JEFF** and **JOE** were elected.

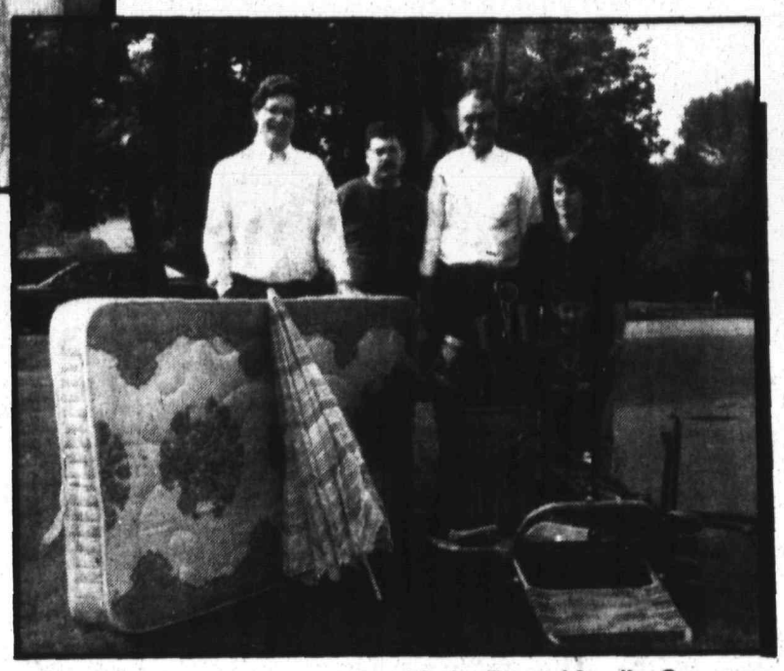

They brought back

SPRING CLEAN-UP EVERY SINGLE MONTH!!

* You only have to call (Town Hall) when your bulky items include white goods (appliances). Most other bulky items are picked up automatically curbside on your last regular collection day. Special thanks to Bob Leopold and Carole King.

Dollinger and Fiordaliso present a gift in fun to former mayor and councilman Bob Leopold, the architect of Livingston's garbage program.

Dollinger and Fiordaliso join with the Ferrari family, Susanne, Russ, and son Jeffrey, as they wait for their bulky items and mattress to be collected.

New Dinner Hot Spot At Gourmet Deli & Restaurant

The newest hot spot in town for eating is the Gourmet Deli and Restaurant. Its newly remodeled dining room is open seven days for lunch and dinner. Be sure to try specialties from the charcoal broil pit, including the eight ounce jumbo broiled burgers and the grilled chicken teriyaki over Caesar salad.

Here you'll find your favorite Jewish style delights, such as egg barley, brisket, pepper steak, and more, all of which is only of the finest "Brooklyn" quality. Delicious smoked fish such as Nova Scotia, Norwegian and Scotch salmon, along with herring in wine sauce, is also available.

The Gourmet Deli & Restaurant's homemade salads include Randi's all white meat chunky chicken salad, and tuna in two varieties: sweetened with relish, or plain. All types of pasta are made – bowties, garlic, oil & broccoli, and cold Lo Mein pasta noodles.

For the traditionalists who love their corned beef, Gourmet makes its own. It also roasts its own turkey and rare, succulent roast beef, pastrami, and corned beef – hot, juicy and lean. You'll see only the best brands in its deli counter – Hebrew National and Boar's Head.

For your party pleasure, there are fresh carved turkeys, cold shrimp platters, and Italian specialties such as ziti and Parmesian chicken prepared any way you like by the Gourmet's chefs. On the more traditional side, there is stuffed cabbage, chicken soup, glazed corned beef, kishka, and homemade knishes – all a step above in taste!

With its new in-house bakery under the direction of Randi Geller, desserts are offered with unlimited imagination. You'll find blueberry pie, cheesecake, rice pudding, fruit salad, lemon bars, and chocolate chip cookie pie. Come watch Randi prepare these wonderful treats in the front window!

Inventory is made fresh daily, and is always completely stocked. And the Gourmet Deli & Restaurant does it all – from waiters and bartenders to table linen and flowers – on an elegant basis.

The restaurant, located at 18 East Mt. Pleasant Avenue, is open for lunch and dinner until 9 p.m. Parking is available in the rear of the building. For more information, call 994-2022, or fax your order to 535-DELI.

Atrium Has Reputation As Area's Foremost Caterer

For more than 40 years, Jacob Nazarian and his three sons, in conjunction with Mr. Stanley Lewin of Terrace on the Park and Fountainhead Caterers, have worked hard to maintain the reputation they hold so dear as one of the foremost caterers in the tri-state area. Over the years, the Atrium Country Club in West Orange has continued to enjoy loud praise for the inspirational affairs it produces.

"On the day of the affair," says Albert Nazarian, clients happily find that every detail of the planned party is professionally orchestrated and carried qut – with the highest quality fresh food, incomparable presentation, and flawless service, all at a very reasonable price – beautiful in every way." Skylights, and lush foliage interspersed among Italian marble create both a traditional and modern setting.

Weddings are the family's specialty; however, they have put together affairs for as few as 30 guests with rave reviews. "Indoors, we can easily handle 450 people. Outdoors, we can accommodate about 1,000 people," says Nazarian. "A majority of our catered affairs are ethnic-background oriented – Italian, Polish, Greek, Jewish and Spanish."

The heart of the business rests with the Nazarian family's staff of 150 employees, including award-winning European chefs.

Couples may also work with house florists, house bands, video and photography services, an invitation service, a limousine service, and an in-house favor company. For more information, call the Atrium, 615 Eagle Rock Ave., West Orange, at (201) 731-7900.

TOWNSHIP OF LIVINGSTON
PASSED ORDINANCE

Notice is hereby given that at a meeting of the Council of the Township of Livingston, held at the Township Hall, 357 South Livingston Avenue, Livingston, N.J. on Monday, October 5, 1992, at 8:30 p.m. the following ordinance was passed on second and final reading, after public hearing, and was ordered advertised according to law.

ORDINANCE NO. 36-1992

A BOND ORDINANCE AUTHORIZING THE ENGINEERING, DESIGN, REMOVAL, REPLACEMENT AND UPGRADING OF UNDERGROUND STORAGE TANKS AND THE REMOVAL OF CONTAMINATED SOIL, ALL AT VARIOUS FACILITIES IN, BY AND FOR THE TOWNSHIP OF LIVINGSTON, IN THE COUNTY OF ESSEX, NEW JERSEY, APPROPRIATING $387,740 THEREFOR AND AUTHORIZING THE ISSUANCE OF NOT EXCEEDING $368,353 BONDS OR NOTES TO FINANCE PART OF THE COST THEREOF.

BE IT ORDAINED BY THE TOWNSHIP COUNCIL OF THE TOWNSHIP OF LIVINGSTON IN THE COUNTY OF ESSEX, NEW JERSEY THAT:

SECTION 1. There is hereby authorized, pursuant to the applicable statutes of the State of New Jersey, the engineering, design, removal, replacement and upgrading of underground storage tanks and the removal of contaminated soil, all at various facilities owned by the Township of Livingston, more fully described in Schedule A annexed to and made a part of this bond ordinance, located in the Township of Livingston (the "Township"), County of Essex, State of New Jersey, together with other purposes necessary, appurtenant or incidental thereto or therefor.

SECTION 2. It is hereby determined and declared by this Township Council as follows:

A. The estimated aggregate maximum amount of money to be raised from all sources for the purposes stated in Section 1 hereof is $387,740.

B. The estimated aggregate maximum amount of bonds or notes to be issued for the purposes stated in Section 1 hereof is $368,353.

C. An appropriation was or is contained in a budget or budgets of the Township heretofore adopted in the sum of $19,387 for the purposes stated in Section 1 hereof; there is now available in said appropriation said sum of $19,387, which sum is hereby appropriated as a down payment for the purposes stated in Section 1 hereof.

SECTION 3. The sum of $387,740, including said down payment, is hereby appropriated for the purposes stated in Section 1 hereof.

SECTION 4. For the purpose of financing part of the cost of the improvements described in Section 1 hereof, exclusive of said down payment, the issuance of bonds of said Township in an aggregate principal amount not to exceed Three Hundred Sixty Eight Thousand Three Hundred Fifty Three Dollars ($368,353) is hereby authorized pursuant to the provisions of the Local Bond Law, N.J.S.A. 40A:2-1 *et seq.* The rate or rates of interest, maturities, method of sale and other details of said bonds not determined herein shall be determined by subsequent resolution or resolutions adopted by this Township Council pursuant to law.

SECTION 5. Pending the issuance of the bonds authorized in Section 4 hereof, bond anticipation notes of the Township may be issued pursuant to said Local Bond Law, in an aggregate principal amount not to exceed Three Hundred Sixty Eight Thousand Three Hundred Fifty Three Dollars ($368,353). Each such bond anticipation note shall be designated "Bond Anticipation Note". All bond anticipation notes issued hereunder shall mature at such times as may be determined by the chief financial officer of the Township, provided that no note shall mature later than one year from its date. All such bond anticipation notes may be executed in the name of the Township by the manual or facsimile signatures of the Mayor and chief financial officer or such other official of the Township and attested by the Township Clerk. The notes shall bear interest at such rate or rates and shall be in such form as may be determined by the chief financial officer. The chief financial officer shall determine all matters in connection with notes issued pursuant to this ordinance, and the chief financial officer's signature upon the notes shall be conclusive evidence as to all such determinations. All notes issued hereunder may be renewed from time to time subject to the provisions of N.J.S.A. 40A:2-8. The chief financial officer is hereby authorized to sell part or all of the notes from time to time at public or private sale and to deliver such notes to the purchasers thereof upon receipt of payment of the purchase price plus accrued interest from their dates to the date of delivery thereof. The chief financial officer is directed to report in writing to the Township Council at the meeting next succeeding the date when any sale or delivery of notes pursuant to this ordinance is made. Such report must include the amount, the description, the interest rate and the maturity schedule of the notes sold, the price obtained and the name of the purchaser or purchasers thereof.

SECTION 6. It is hereby further determined and declared by this Township Council as follows:

A. The improvements or purposes described in Section 1 hereof are not current expenses; they are improvements or purposes that the Township may lawfully undertake as general improvements, and no part of the cost thereof has been or shall be specially assessed on property specially benefited thereby.

B. The period of usefulness of the purposes described in Section 1 hereof for which the bonds are hereby authorized to be issued, within the limits prescribed by the Local Bond Law, is 15 years.

C. All bonds or notes issued pursuant to this ordinance shall bear interest at a rate not to exceed the maximum rate permitted by law.

D. The supplemental debt statement required by said Local Bond Law has been duly made and filed in the office of the Township Clerk prior to the passage of this ordinance on first reading and a complete executed duplicate thereof has been filed in the office of the Director of the Division of Local Government Services in the Department of Community Affairs of the State of New Jersey prior to the passage of this ordinance on final reading, and such statement shows that the gross debt of said Township, as defined in N.J.S.A. 40A:2-43, is increased by this ordinance by $368,353, and that the issuance of the obligations authorized by this ordinance will be within all debt limitations contained in the Local Bond Law.

E. The aggregate amount of the proceeds of the obligations authorized by this ordinance to be expended for interest on the obligations authorized herein, engineering and inspection costs, legal expenses, and the cost of the issuance of the obligations authorized by this ordinance, including printing, advertisement of ordinances and notices of sale and legal expense, and other expenses as provided in N.J.S.A. 40A:2-20 does not exceed $80,000.

SECTION 7. The capital budget of the Township is hereby amended to conform with the provisions of this ordinance to the extent of any inconsistency herewith and the resolutions promulgated by the Local Finance Board showing full detail of the amended capital budget and capital program as approved by the Director of the Division of Local Government Services are on file with the Township Clerk and are available for public inspection.

SECTION 8. In the event that moneys are lawfully received from any source for the purposes provided in this ordinance, such moneys shall be used for the purposes authorized herein and to reduce the amount of bonds or notes authorized to be issued by this ordinance by the amount so received, or if moneys are received after the issuance of the bonds or notes authorized by this ordinance, such moneys shall be used solely for the payment of the debt service on said bonds or notes as the same become due and payable.

SECTION 9. The full faith and credit of the Township is hereby pledged for the payment of the principal of and interest on all bonds and notes issued pursuant to this ordinance, and as long as such bonds or notes are outstanding there shall be levied in each year ad valorem taxes on all taxable property within said Township without limitation as to rate or amount sufficient to pay principal of and interest on such bonds and notes maturing in said year.

Council Approves 2 Bond Ordinances

The reconstruction of Princeton Road and the removal of several underground fuel storage tanks will be undertaken with the proceeds of two issues of municipal bonds which were approved by the Township Council on Monday evening.

In the first action, the Council gave unanimous approval to the sale of up to $285,950 in municipal bonds as part of the total estimated cost of $301,000 for the reconstruction of Princeton Road. The road, located off Chestnut Street, is on a steep grade, and the pavement is seriously deteriorated.

The second bond issue, up to $368,353, will go toward the estimated $387,740 total cost of removing several gasoline, diesel fuel and heating oil storage tanks at township owned buildings. More stringent environmental regulations have made it necessary to remove old tanks, and either replace them with improved tanks or switch to natural gas as a fuel.

There were no speakers to be heard on either of the enabling ordinances, and both were given the unanimous approval of the Township Council.
