STREET GUIDE AND DIRECTORY

OF

HOUSEHOLDERS OF THE ORANGES

EXPLANATORY NOTES

In the Street Guide residences and places of business are designated by their street number, and are arranged in numerical order.

The streets are arranged in alphabetical order and the intersecting streets are given at the proper number where they intersect. In cases where no intersecting number could be given the street intersection is dropped. In cases where streets are not numbered the householders are arranged in alphabetical order.

Names are given of all business houses and householders.

The word vacant after a number signifies that the house or store at that number was vacant when canvass was made.

A dash (—) signifies that no number has been assigned.

The abbreviation r between the street number and the name signifies "rear."

ADDITIONAL SERVICE

Left Side

Right Side

To better determine the location of numbers, the right and left side of streets are separated.

From the description, or from any intersecting street, you can tell how many houses there are to any given location on either right or left side.

Valuable for grouping names into wards, districts or sections where boundaries are determined by the center of streets.

TRY YOUR OWN STREET!
