The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing bus-
 iness without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it
 interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business.
 You should make it easy for them to find you, by putting such
 information as a buyer wants, in the Directory properly indexed
 under all headings where he might look for you.

To be properly registered costs less than to be left out

THE PRICE & LEE CO.

Common Sense

About City Directory Circulation

The true value of advertising circulation is *circulation consulted*.

To be exact by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand directories sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

1,067,500

Consultations or

Circulation Consulted

Reference Advertising

HE who buys space in the City Directory buys advertising permanency. Every day thousands of business men all over the country search its classified sections to find where nationally advertised goods may be purchased. City Directory ("Reference") Advertising is the completing girder in the bridge between dealer and consumer, and should be part of all national and local campaigns.
