The JOHNSON PUBLISHING COMPANY, INC. is pleased to present the 1981 edition of the Summit, New Jersey City Directory. It has always been our policy to provide accurate and comprehensive directory service to those communities that desire the "finest" We realize however that some errors and omissions are inevitable and earnestly request that these be brought to our attention. These errors and omissions will be corrected in the next edition of the directory. It is only through the interest of the subscribers and users of the directory that each new edition can surpass the last.

In the public interest the use of this directory for any other purpose than as a reference volume or reproduction of any part of this directory is expressly prohibited without written permission from the publisher.

Lack of advertising . . . beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

ADVERTISING DOES PAY!

Reference Advertising

Advertising — that is perpetual in mediums that have a permanent value.

Advertising — that protects and supplements all other forms of advertising that create desire.

Advertising — that directs the buyer when the need is imperative after the desire has been created.

Advertising — that by its permanence establishes confidence and stability.

Advertising — by which tomorrow's success is built on today's action.

To find diameter of a circle multiply circumference by .31831.

To find circumference of a circle multiply diameter by 3.1416.

To find area of a circle multiply square of diameter by .7854.

To find surface of a ball multiply square of diameter by 3.1416.

To find side of an equal square multiply diameter by .8862.

To find cubic inches in a ball multiply cube of diameter by .5236.

Doubling the diameter of a pipe increases its capacity four times.

Double riveting is from 16 to 20% stronger than single.

One cubic foot of anthracite coal weighs about 58 lbs.

One cubic foot of bituminous coal weighs from 47 to 50 lbs.

One ton of coal is equivalent to two cords of wood for steam purposes.

There are nine square feet of heating surface to each square foot of grate surface.

Each nominal horse power boiler requires 30 to 35 pounds of water per hour.

To sharpen dull files lay them in diluted sulphuric acid until they are eaten deep enough.

A horse power is equivalent to raising 33,000 pounds one foot per minute or 550 pounds one foot per second.

The average consumption of coal for steam boilers is 12 pounds per hour for each sq. foot of grate surface.

To find the pressure in pounds per square inch of a column of water multiply the height of the column in feet by .434.

Steam rising from water at its boiling point (212 degrees) has a pressure equal to the atmosphere (14.7 pounds to the square inch).

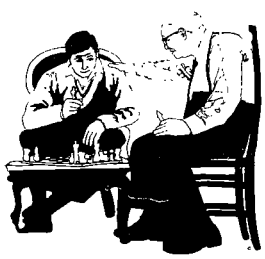
The Art of GETTING ALONG

Sooner or later, a man, if he is wise, discovers that life is a mixture of good days and bad, victory and defeat, give and take. He learns that it doesn't pay to be a sensitive soul; that he should let some things go over his head like water off a duck's back. He learns that he who loses his temper usually loses out. He learns all men have burnt toast for breakfast now and then, and that he shouldn't take the other fellow's grouch too seriously. He learns that carrying a chip on his shoulder is the easiest way to get into a fight. He learns that the quickest way to become unpopular is to carry tales and gossip about others. He learns that buck-passing always turns out to be a boomerang, and that it never pays.



He comes to realize that the business could run along perfectly well without him. He learns that it doesn't matter so much who gets the credit so long as the business shows a profit. He learns that even the janitor is human and that it doesn't do any harm to smile and say "Good Morning", even if it is raining. He learns that most of the other fellows are as ambitious as he is, that they have brains that are as good or better, and that hard work and not cleverness is the secret of success. He learns to sympathize with the youngster coming into the business, because he remembers how bewildered he was when he first started. He learns not to worry when he loses an order, because experience has shown that if he always gives his best, his average will break pretty well. He learns that no man ever got to first base alone, and that it is only through cooperative effort that we move on to better things. He learns that bosses are no monsters, trying to get the last ounce of work out of him for the least amount of pay, but that they are usually fine men who have succeeded through hard work and who want to do the right thing. He learns that folks are not any harder to get along with in one place than another, and that the "getting along" depends about ninety-eight per cent on his own behavior.

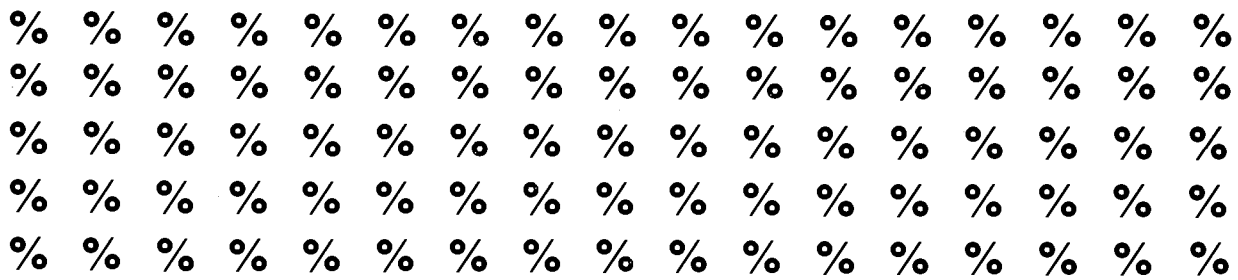
ACCURACY



It's an admirable goal to shoot for in publishing City directories...

But - with the thousands of subscribers to be listed, changed addresses and new numbers, we hope you understand how an error could occur.

Your name, address and telephone number in this directory likely are correct. But, if by any chance they are not, you'll do us a favor by telephoning or writing our business office.

We'll correct our records promptly so it will appear the way it should in the next issue.

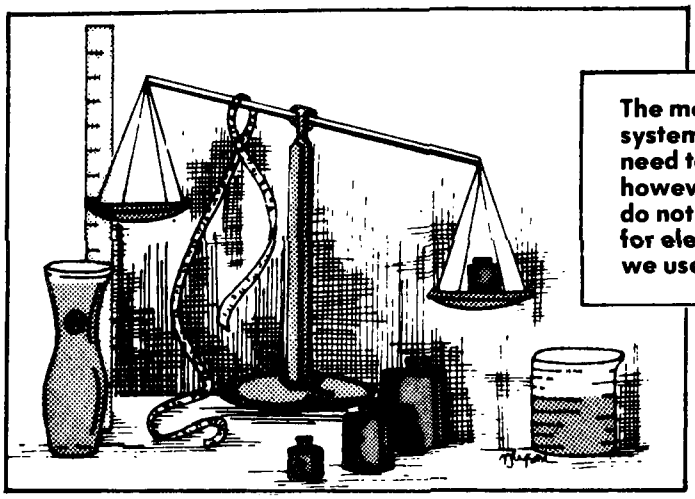
Everything You Always Wanted To Know About The Metric System*



*** For Your Everyday Use**

The metric system, based on the decimal system, is easy to learn. You will only need to know ten units. There are, however, other units which most people do not need to know. And those units for electricity and time are the same as we use now.

COMMON PREFIXES:
Milli; one thousandth (0.001)
Centi: one hundredth (0.01)
Kilo: one thousand times (1000)

BASIC UNITS:
Meter: about 1.1 yards
Liter: about 1.06 quarts
Gram: 0.035 ounces

AREA

1 Sq. Ft. - 144 Sq. In. - 929.03 Sq. Cm

GOOD BUSINESS

By EDGAR A. GUEST

If I possessed a shop or store
I'd drive the grouches off my floor.

I'd never let some gloomy guy
Offend the folks who come to buy
I'd never keep a boy or clerk
With mental toothache at his work.
Nor let a man who draws my pay
Drive customers of mine away.

I'd treat the man who takes my time
And spends a nickel or a dime
With courtesy, and make him feel
That I was pleased to close the deal,
Because tomorrow, who can tell,
He may want stuff I have to sell;
And in that case then glad he'll be
To spend his dollars all with me.

The reason people pass one door
To patronize another store, is
Not because the busier place
Has better silks or gloves or lace
Or cheaper prices, but it lies
In pleasant words and smiling eyes;
The only difference, I believe is
In the treatment folks receive.

It is good business to be fair
To keep a bright and cheerful air
About the place, and not to show
Your customers how much you know.

Whatever any patron did
I'd try to keep my temper hid, and
Never let him spread along
The word that I had done him wrong.

A MODERN FABLE

Once upon a time there was a Little Red Hen who scratched about and uncovered some grains of wheat. She called her barnyard neighbors and said, "If we work together and plant this wheat, we will have some fine bread to eat. Who will help me plant the wheat?"

"Not I," said the Cow. "Not I," said the Duck. "Not I," said the Goose.

"Then I will," said the Little Red Hen -- and she did.

After the wheat started growing, the ground turned dry and there was no rain in sight. "Who will help me water the wheat?" said the Little Red Hen.

"Not I," said the Cow. "Not I," said the Pig. "Equal rights," said the Goose.

"Then I will," said the Little Red Hen - and she did.

The wheat grew tall and ripened into golden grain. "Who will help me reap the wheat?" asked the Little Red Hen.

"Not I," said the Cow. "Not I," said the Duck. "Out of my classification," said the Pig. "I'd lose my ADC," said the Goose.

"Then I will," said the Little Red Hen -- and she did.

When it came time to grind the flour, "Not I," said the Cow, "I'd lose my unemployment compensation," said the Duck.

When it came time to bake the bread, "That's overtime for me," said the Cow. "I'm a dropout and never learned how," said the Duck. "I'd lose my welfare benefits," said the Pig. "If I'm the only one helping that's discrimination," said the Goose.

"Then I will," said the Little Red Hen -- and she did.

She baked five loaves of fine bread and held them up for her neighbors to see.

"I want some," said the Cow. "I want some," said the Duck. "I want some," said the Pig. "I demand my share," said the Goose.

"No," said the Little Red Hen. "I can rest for awhile and eat the five loaves myself."

"Excess profits," cried the Cow. "Capitalistic leech!" screamed the Duck. "Company fink," screamed the Goose, "Equal rights," grunted the Pig.

And they hurriedly painted picket signs and marched around the Little Red Hen singing "We shall overcome." And they did.

For when the Farmer came to investigate the commotion, he said, "You must not be greedy, Little Red Hen. Look at the oppressed Cow. Look at the disadvantaged Duck. Look at the underprivileged Pig. Look at the less fortunate Goose. You are guilty of making second-class citizens of them!"

"But-but-but I earned the bread," said the Little Red Hen.

"Exactly," the wise Farmer said. "That is the wonderful free enterprise system; anybody can earn as much as he wants. You should be happy to have this freedom. In other barnyards, you would have to give all five loaves to the Farmer. Here you give four loaves to your suffering neighbors."

And they all lived happily ever after. Including the Little Red Hen, who smiled and smiled and clucked. "I am grateful. I am grateful."

But her neighbors wondered why she never baked any more bread.
