## Preface.

---

**I**N presenting the first edition of this work to the elite of Bloomfield, Montclair and the Oranges, the publisher would state that he has had the work compiled in each place by gentlemen who are life-long citizens, and who are in a position to know the residents whose names should appear in its pages, and has no doubt but that it will stand the test of severe criticism.

Although hardly necessary in a work of this kind, the business addresses have been added where the information could be obtained.

It was the intention of the publisher to have inserted the days on which the ladies of the families received callers, but on personally interviewing a large number he found that a majority of them preferred to receive callers at any time, and the few who had set days did not wish it published, unless it was general throughout the Directory.

The publisher has been very careful in selecting the advertisements for this work, and none but leading business and professional men have advertisements in its pages, and those requiring goods in their line or their professional services, can rely on being well and faithfully served.

The publisher takes this means of extending thanks to all his patrons for the very liberal encouragement he has received, and with much pleasure announces that this work will now be a yearly visitor, as its success has been achieved beyond a doubt.
