PREFACE

THE Fifth edition of the BLUE BOOK possesses some features which we trust will entitle it to retain the high place in public favor that has been accorded its predecessors. We desire especially to thank our lady patrons for their cordial appreciation of our efforts.

Neither time nor money has been spared to make this work as complete and valuable as possible. The difficulty attending the compiling of such a book can be easily appreciated; and we therefore trust that any omissions will be brought to our notice, that they may be corrected in future. We hope to make the BLUE BOOK as nearly perfect as it is possible to make such a volume.

We do not claim the BLUE BOOK is either a City Directory or absolutely an Elite Directory; neither do we pretend to pass upon the social or financial standing of the parties whose names are contained therein. It is simply a compilation of the most prominent householders and residents published in the most convenient form for reference by our lady patrons.

The title, "BLUE BOOK," is given the work because of its blue cover. It does not refer to blue blood, as many people suppose. Webster's definition of Blue Book is as follows: "Blue Book — a book containing a list of fashionable addresses."

The data for this work have not been compiled from circulars or from other directories. Experienced men have been assigned to each locality, and the greatest care has been used in selecting these names.

Please send any information you may have that will aid in keeping the records correct to Dau Publishing Co., 54 West 22d Street, New York City.

THE CRAFTSMAN

GUSTAV

STICKLEY

HAS opened Exposition Rooms in New York for the display of his Furniture, Hand-wrought Metal Work, Fabrics, Needlework, Rugs and other accessories that belong to the complete furnishing of a Craftsman House. If you already know something of the beauty and permanent value of this distinctively American style of architecture and decoration, you will be interested in seeing the exhibit; if not, you will be well repaid if you visit the rooms, which are furnished and decorated entirely from **THE CRAFTSMAN WORKSHOPS**, and see what has been accomplished in the creation of an architecture and a household art based upon simple, structural principles and the direct meeting of everyday needs.

The Exposition Rooms are at Number 29 West Thirty fourth Street, New York, diagonally across from the entrance of the Waldorf-Astoria. Visitors are welcomed from ten in the morning until five in the afternoon. (See reverse page)

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by **BORROWERS**. These parties are merchants, business and professional men who need a Blue Book every year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Blue Book "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell our canvasser that he has "no use for a Blue Book," that he "knows everybody," and, vice versa, "everybody knows him."

When he calls again, refer him to us, or to a bookstore.

MONTCLAIR MILITARY ACADEMY, Montclair, New Jersey.

In choosing a school in which a boy is to form his life's ideals, to acquire his mental and moral equipment, more is to be considered than location, more to be weighed than price, more to be examined than the curriculum. Montclair has some pointed things to say to parents with sons to place in school. "**Your Boy and Our School**" is a book to be read with interest, no matter where your boy goes for his schooling. Sent on request together with our illustrated catalogue.

Patents for Inventions . . .

AN IDEA, IF GOOD, IS WORTH MONEY

Should you conceive of something new which ought to be valuable in the market, we will be pleased to consult with you as to the possibility of protecting it so that when it proves to be of value, others cannot purloin it. We give our clients all the time necessary to explain their ideas in full, and, after an establishment of thirty-nine years, we think we can give good advice.

Advice on the subject of patentability of your invention will cost you nothing. We take pride in doing careful work.

DRAKE COLLEGE

ORANGE, N. J.

A high grade business training school for the young of both sexes.

No ambitious young man or woman expects to be satisfied with anything less than the highest achievement in whatever line he or she may engage. If a young man inclines toward the activities of business, he naturally looks forward to becoming a banker, a broker, a railway superintendent, officer of a corporation, or the like.

The attainment of his ambition will be less difficult if he is provided with a thorough business training given by the Drake School. For catalogue, address,
