Primary Election Set

The deadline for filing for the Republican and Democratic Primary Election was Thursday, April 25th at 4:00 p.m. all local candidates were to file with the Madison Township Clerk Mary M. Brown.

It had been reported by many political observers that a fight would develop in the ranks of the Republican Party this was denied by many top ranking officials in the Republican Party.

Following the filing for County Committeemen and County Committeewomen there appears to be a "inner party fight" in the G.O.P. It is not known at this time whether former Republican Municipal Chairman Donald Borst is seeking to make a "comeback" as chairman.

George Bush is presently serving as the Republican Chairman following the re-organization of the local Republican Party. Seeking election in the Republican Primary as a Freeholder candidate is Richard Dealy Jr., of Sayrewoods South, Dealy is presently serving as a Madison Township Councilman.

Seeking re-election as a Middlesex County Freeholder will be John A. Phillips, of Laurence Harbor. Phillips a former Mayor of Madison Township is presently serving as Freeholder and is Department Head of the County Road system.

One of the largest splits in the Republican Organization is in District One which takes in the older area of Madison Township and envelopes the Lake Ridge Development. The District One area has for many years been known as the "back bone" of the Republican organization in Madison Township.

The Democratic Party in Madison Township has for the past several been making "heavy" inroads in the voting strength of the District One area Republicans.

There had been expected a fight within the ranks of the local Democrats, however, it appears at this writing that the Democrats have more or less "mended" their fences and in all probability will back John Phillips as their only local candidate. It is expected that the Middlesex County Organization will support Hubert Humphrey as a presidential candidate, the vice president will make his announcement of his intentions on Saturday.

Cocktail Party

Madison Township Young Republicans will be the hosts for the New Jersey Young Republicans at a Cocktail Party to be held on Saturday evening April 27th, 1968 at 9:00 P.M.

The affair will be held at Hill Lanes Community Hall on Route 9, just south of the Sayrewoods Shopping Center.

Tickets may be obtained at the door or for additional information contact Mrs. Jeanne Wilson of Laurence Harbor.

And So It Goes

FEUDING AND FUSSING: Well needless to say the G.O.P. has a wide open split. We suspect that no other than Councilman Donald Tierney is behind the latest movement. Many Republican voters in Madison Township seem to forget that the "big split" in the ranks of the G.O.P. came about when Donald Tierney wanted to be Mayor and had "worked" out a deal with no other than Jack Phillips. The deal never panned out because some Republicans vowed that Tierney wouldn't be the Mayor at the re-organization meeting of the council no matter what happened. Harry Messenger a Democrat was Mayor and lo-and behold the Democrats took over control of the Township Council---again with the help of some Republicans---it appears that history will again repeat itself.

POLICE DEPARTMENT: Last call for tickets for the Madison Township P.B.A. Annual Ball, there are only a few tickets left. Information regarding tickets may be obtained by calling PA 1-4000. Understand that examinations for police patrolmen will be given at the high school on May 6. Rumor has it that a sergeants examination will be held on the following day---we wonder if Patrolman Clifford Jaeger will place his name in for examination---we wonder if Patrolman Clifford Jaeger will place his name in for examination---we wonder if Patrolman Boyd Nash will make the grade. Don't hold your breath but we'll try to get a report.

BOARD OF EDUCATION: We wonder if the "window breaking" and other vandalism at the Board of Education headquarters for the Superintendent of Schools Joseph Brust had anything to do with the alleged burning of an "effigy" of Mr. Brust recently. We see where the entire Board of Education is now sitting in on teachers contracts and salary talks. Rumor has it that one of the representatives of a teacher's group will be leaving the township school system---many residents of the township thought that he would receive a promotion as a principal or something else? Rumor bouncing around that Lloyd Burlew will be appointed as an administrator in some capacity? If Mr. Burlew is appointed we wonder if the tenure law would apply---perhaps this would be one way for them to get rid of Burlew who has tenure as a principal in the school system. Teachers are still upset about the demoting of one of the department heads---all we have to say is look around you---"Go-Go" has certainly been "whittling" down many of your top spokesman---or should we say "shooting" them down. We would still like to know what the total cost of the two monster shacks in the rear of the high school cost the taxpayers of the township?

SEWERAGE AUTHORITY: We see where the Board of Education is obviously trying to "pass the buck" to the Madison Township Sewerage Authority in the event the New High School is not completed on time. The problem of sewerage now has become a problem of the sewerage authority---the fact of the matter is that the Board of Education didn't plan for any sewerage facilities at the time of the High School

Take Five

"By Faith Abraham obeyed when he was called to go out to a place which he was to receive as an inheritance; and he went out, not knowing where he was to go." Hebrews 11:8

Since the beginning of time, man has had the urge to perpetuate a memorial of himself. This has been accomplished with varying degrees of success in many ways. Some men have painted great pictures; some have carved magnificent sculpture. There are those who have written marvelous poetry or drama, and some have erected fantastic buildings. But the greatest memorial is not made of stone or wood. In fact it isn't anything we make at all. It is to have men look at an act of faith or service that we have done and then be inspired to a similar deed. We honor Abraham the most when we see how he obeyed God in faith and we do the same. The best thing we can leave our children is the desire to have the kind of faith that guided us. There is no better memorial for those who follow us to say, "I would like to believe and live as he did."

A king once spoke in defense of one of his subjects who was discovered dying in the midst of poverty, "Don't measure a man's life by the circumstances in which you may find him. Rather, evaluate him through the lives he has touched."

Prayer: Help our faith to be big enough, dear God, to inspire others to acts of faith. Amen.

"We are afflicted in every way, but not crushed; perplexed, but not driven to despair."

2 Corinthians 4:8

There is a story told about Patrick the great missionary to Ireland that when he was advanced in years a King was converted and came to him to be baptized. Patrick took the man out into the river. At the spot where the ceremony was to take place, he drove the end of the great metal cross into the river bed. The service proceeded until Patrick was startled to see the water red with blood. He had put the point of the cross through the King's foot. Horrified, he said, "My son, why didn't you say something?" The King replied, "O my father, I thought it was part of my baptism."

There is a sense in which sacrifice and pain, and even at times, the experience of persecution, are a part of the Christian life. Christ promised his followers no bed of roses. When a man decides to be a part of the company who confess Jesus as Lord, he best realize that it won't always be peace and comfort. If this is what he wants most of all, he better look somewhere else. But if he wants to do God's will, and wants to feel that he is working on the side of right, and truth, and justice,

referendum---it was pointed out in the Madison American that there were no sewers in the area at the time of the referendum. Anybody including Mr. Brust want to make a little wager that the New High School won't be completed in September of 1968 which is the date the Board of Education propaganda sheet claimed would be the opening date.

Under The Fence

President Johnson's dramatic announcement that he does not intend to run for reelection was a political bombshell to most people. The announcement of the withdrawal of Johnson as a candidate in November's election presented the Democrats with a "wide open" race for the presidential nomination. It is expected that the vice president will make his announcement this weekend of his intentions to become a formal candidate for the presidency---many "top ranking" Democrats are seeking methods in which to stop the political "onslaught" of Robert Kennedy---President Johnson at this time is expected to throw his political strength behind any candidate that endorses the "Johnson Administration" --- the Vietnam situation --- the "hawks" and the "doves"---these may have determined the withdrawal of Johnson as a candidate---at the present time the only potential candidate supporting the views of the Johnson administration is the vice president ---many "politicians" jumped in the fracas early and endorsed President Johnson before he announced his intentions that he declined to seek re-election this left them out in "left field" without a candidate---the Republicans on the other hand have no bed of roses either---Governor Romney made a sudden withdrawal from the presidential campaign on the eve of the New Hampshire primary which surprised and puzzled a great many people. New York Governor Rockefeller's reluctance to become a avid candidate has many people guessing? To say the least the political situation is confused--- Robert Kennedy who was the "brains" behind the Kennedy victory is now seeking the Democratic nod and it appears to this writer that Richard Nixon is the leading contender on the Republican ticket however ---as it was pointed out the situation is chaotic --- and many political observers with years of poll taking and watching various situations have in most cases declined to make comment in regards to the present political situation --- the only thing we can state is "wait and see"---and so it goes.

then the way of Christ is for him. There may be misunderstanding and resistance. The baptism may be a bloody one, but it will also be a most glorious one.

Prayer: Dear God, help us to be realistic about the power of evil, and that if anyone confronts evil he is going to get some bumps. Amen.

Blair's Folly

The traffic situation at the corner of Ernston Road and Route 9 has always been chaotic--- however the present situation of traffic control at this heavily travelled intersection is needless to say really messed up. Captain Rodger Blair in charge of the traffic bureau of the local police department must have been in the stages of a "night-mare" when he planned this latest episode in traffic control. We still maintain the only effective way to handle the traffic at this intersection is by a series of "jughandles" and overhead passes. Many residents of the Township have been complaining to the local police department over the present traffic mess at this intersection. Sayreville blames traffic conditions on Madison Township but what about the hundreds of houses and apartments that were built in Sayreville. The State Highway Department is also to blame for the chaotic situation at this intersection and we feel that the problem will only be solved when the State Highway Department spends some money at this intersection. In the meantime Happy Motoring As you dodge the trucks and pedestrians.

He will now undergo from two to four weeks of individual combat training and then, after leave at home, will report to his first Marine Corps assignment.

The intensified Marine recruit training emphasizes rigid physical conditioning and survival techniques, both at sea and ashore, to develop self-confidence and endurance. Marks-

manship with the M-14 rifle and 45 - caliber pistol are equally stressed, and close order drill instills the traditions of Marine Corps teamwork.

A thorough study of basic military subjects, hygiene, first aid and sanitation, and the customs, courtesies, history and mission of the Marine Corps serve to polish the new Marine's recruit education and prepare him to join the Marine combat forces.
