A. G. HOOLEY GETS \$6,500

TOWN OF MONROE THIS SETTLES HIS SUIT FOR \$100,000 DAMAGES.

Mr. Hooley paid for a day bridge over the West Branch of the Delaware River, which was destroyed by a flood. The case of Abraham G. Hooley, of this city, against the town of Monroe, N. Y., was set down for trial in the Orange County court early this week, and a large number of people were present to hear the case argued. They were disappointed, however, as the case was settled out of court. Last Saturday the Town Board of the town of Monroe and the Trustees of the village of Goshen and since their legal advisers, Vanname, Walts & Yall, a settlement was arranged with the plaintiff's counsel, M. H. Hirschberg and W. F. O'Neill, whereby Mr. Hooley is receiving a sum of \$6,500 from the town of Monroe.

It will be remembered that Mr. Hooley brought suit to recover \$100,000 for injuries received by falling from an unprotected bridge located in the village of Monroe last fall. Mr. Hooley is still in a serious condition as a result of the fall, and probably will never recover. His lower limbs are completely paralyzed and he is unable to walk since the accident. His spine was also seriously injured. He was brought to Goshen on Saturday, May 30th, strapped to a stretcher, and has remained in that condition since. While in Goshen he was cared for at the home of Dr. J. H. Thompson. He was accompanied by his mother.

Monday night Mr. Hooley was taken to Monroe on train No. 2, and the present he will be heard with Mr. E. F. Montague, in that village. Since the accident and up to the time of being brought to Goshen, he had been under treatment at a private hospital in New York. Mr. Hooley's business is that of a stock broker in New York city.

QUESTION FOR CANDIDATES.

Catholic View of Presidential Aspirants as to the A. P. A.

The American Union of the Roman Catholic Diocese of Newark met in the Young Men's Catholic Union Hall, in Harrison, Sunday afternoon. Delegates were present from all parts of the diocese. President, Murphy of Jersey City presided.

The Rev. Father Bogan, of Rahway, the spiritual adviser of the union, offered a resolution, which was adopted, providing that the following questions be forwarded to the candidates for President of the Republic nominated by the President:

In the event of your election to the Presidency of the United States, will you, in the administration of that office, make no discrimination against Roman Catholics on account of their religious beliefs?

The resolution offered by Father Bogan, it was said, was presented at the request of Mr. Hooley, who is a candidate for the Republican nomination for the Presidency.

The work of the Plainfield Gas and Electric Light Company in substituting four inch for two inch gas mains on West Front street, was completed at 7:30 on Wednesday night. It is thought, by tomorrow night, the old pipes have been laid for thirty years or more, but they were too weak to meet the demand. When taken up the pipes were found to be in an excellent state of preservation.

The Sunday-school Superintendents' Association of Westfield has decided to have a parade of the Westfield Sunday-school on Saturday, June 14th. J. W. Beebe, president of the association, has issued an invitation to all the scholars in the township to participate in the parade.

John Nease has the following report to the New Jersey Weather Bureau this week: "Sunshiney weather has prevailed, with 0.45 inch of rain on 1st ult. and 0.10 on 7th. Crops generally looking well, except grass, which is short. Ave. temp., 65 degs."

MYSTERY OF MRS. SCOTT

PITIFUL STORY OF DESERTED AND HEARTBROKEN WIFE.

One day Mrs. Husbard, the wife of the late John H. Scott, who died in Westfield with two children, "Oh, dear Lord, what art so good!" was the cry that broke from the lips of a poor Scotch woman living in the rookery on Central avenue, in Westfield, Tuesday, when two little boys brought her six dollars, and with the tearful prayer she fell upon her knees.

Three years ago in a New York village this woman was a happy wife, and the mother of two children. Her husband, a Scotchman, had a prosperous business. For three years they were happy and contented, and then he cast her off and went away. The deserted wife, who had to be brought to Scotland, and selling her effects she took her children and followed him there. His welcome was to send her back to New York. She went on ship to New York, N. J., and Miss Margaret Cave and Miss Eva Dayron, who were in charge. Another centre of attraction was the lemonade well, arranged prettily with a roof of straw, and with the roses. Those who had the honor of the well were Miss Henrietta Blich, Miss Mary and Miss Bittenbinder.

In a corner was a candy table neatly decorated with roses and ferns. The candy was made by the women of the church. Several children arranged a picnic and lawn festival and realized six dollars for her benefit.

Refusing to give her name and name only as "Mrs. Scott," the poor creature is a mystery to the townfolk. At night pitiful moans are heard to come from her rooms, but the neighbors cannot discover the reason for her sorrow. She goes to the post-office daily, and to a woman in the clerk at the window. "He shakes his head, and she goes out with tears streaming down her face, leading her two little children and telling them that "some time it will come."

ROUND OF ANYTHING THE FEE.

Several Sort of Admission Fee to the Army Meeting Saturday Night.

The meeting of the Salvation Army last Tuesday was attended by about 100 people who witnessed the conversation of the speaker, Mr. E. L. Lonsbury, the fee of admission was one of another by Brigadier Evans.

There was the usual enthusiasm of the soldiers who allowed no dull moments to mark the meeting. The speaker, Mr. Lonsbury, was a man of fellows, and headed by Adjutant Taylor, with his "Big Ben" banjo, they are just the sort of workers that will bring life into the local corps. It is no wonder that the speaker, Mr. Lonsbury, is expected to bring a round of something to eat. The Victory Boys are naturally strong and hearty and of course it goes without saying that they have a lot to eat. The funds of the Army are not as flush as they might be and this method has been adopted to relieve the treasury as much as possible in the expenditure for the maintenance of the barracks. The meeting Saturday night will be led by F. H. Martin, a well-known Plainfielder.

Col. Higgins, secretary to Commissioner of the State, and Mr. Murphy, both of whom are in the city next week and will be one of those to deliver an address. It is the intention to make this meeting a rounder.

GALA DAY FOR SAENGERSONS.

The Local German Society to Entertain Visiting Countrymen.

The members of the Plainfield German and Turn Verein are making great preparations for their forthcoming annual banquet. The banquet is expected to be held at the National Turn Verein of Newark and Brooklyn: from the two societies in Passaic; the Norwegian Society of Brooklyn; and from societies at other nearby places. In the forenoon there will be exhibition touring until noon, after which a substantial dinner will be served by the ladies of the Verein. The banquet will be in the afternoon a march will be made to Keller's Grove, and sports will occupy the rest of the day.

Non-Profit Company Treasurer.

The report of E. B. Allen, Somerset County Collector, shows the total receipts to be \$223,409.30, leaving a cash balance of \$9,936.82. The total net indebtedness of the county is \$80,205, and the accrued interest makes the total county indebtedness, \$81,000.

DECKED OUT IN ROSES.

CHARMING FESTIVAL GIVEN IN THE FIRST PRESBYTERIAN CHURCH.

The Church decorated with flowers, and the women of the First Presbyterian church could scarcely have presented a more pleasing affair than the rose festival which was held in the chapel of the church last Tuesday.

A general committee composed of Mrs. Howard Pope, Mrs. Dunn, Miss Blich, Miss Harold and Miss Abbott, one can readily see that the affair was sure to be successful. This committee had supervision over the entire affair, as well as the decorations, which were as beautiful as art and good taste could produce. Naturally, there was a pretension of roses, and they were of the church last Tuesday. The most attractive arrangement was the flower booth decked handsomely with a combination of pink buttoning, roses and ferns. At this booth Miss Nora Willis, Miss Hattie Bates, Miss Margaret Cave and Miss Eva Dayron, who were in charge. Another centre of attraction was the lemonade well, arranged prettily with a roof of straw, and with the roses. Those who had the honor of the well were Miss Henrietta Blich, Miss Mary and Miss Bittenbinder.

DEATH OF MISS CAROLINE W. JACOBUS.

Dr. J. W. Jacobus, of Rahway, was to have been placed on trial at noon Monday in the Union County Court of Common Pleas on an indictment found against him at the instance of the Union County Medical Society for practicing without a license. The penalty for conviction on a first offense is thirty days in the county jail and a fine of \$25. The defendant is about 60 years of age, and is a prominent physician connected with the State Medical Board, the trial was put off until tomorrow.

HOBBART THEIR CHOICE.

NEW JERSEY DELEGATES BOOM HIM FOR VICE-PRESIDENT.

And the Majority of the Delegation Are for McKimley for First President.

Most of the members of the New Jersey delegation to the National Republican Convention will start for St. Louis next Saturday, in the train leaving Jersey City at 2:43 p. m. At Philadelphia, Senator Sewell's private car will be attached to the train. Gov. Griggs, ex-Congressman John Keane, and Elizabeth B. Gaddis, of Newark, will be the guests of General Sewell on the trip. Chairman Franklin Murphy of the State Committee, who is one of the delegates at large, was invited to become one of the party, but a business engagement in Chicago prevented him. He will start for Chicago early in the week, but will not return in Gen. Sewell's car.

Garret A. Hobart left for St. Louis Monday to attend the meeting of the National Republican Convention, of which he is vice-chairman. Delegates Geo. Hines and Robert E. Hand, of the First District, will leave on Friday afternoon with a party of Trentonians, which will also include Congressman Loudon. The New Jersey delegation, it is claimed, stands sixteen for McKimley for one for Reed, and three who have not declared a preference. One of the delegates, Mr. Hines, has declined all attempts to induce him to signify his choice. The McKimley men express a confidence that the whole of New Jersey's twenty votes will go for the Ohioan on the first ballot.

A conference of the delegates will be held on Monday evening, June 10th, after the arrival of the party in St. Louis, to select a chairman and a secretary. The delegates are expected to be chosen as chairman by reason both of his position of the party in the State and because of fitness and experience. He has been a delegate to every National Convention since and including 1876, and was chairman of the delegation at the last three.

If the New Jersey Republicans can have their way, Garret A. Hobart will get second place on the National ticket. All of the delegates except Congressmen McEwan, of Hudson county, are enthusiastically for him, and the majority of the delegates are in his favor. McEwan's opposition is based upon the fact that Mr. Hobart is a "corporation man."

Hobart's business made their appearance last week and are now. For all the leading Republicans of the State. A large supply has been secured for distribution among the delegates from other States at St. Louis. The button bears a good design, and the slogan, "Our choice for Vice-President, Garret A. Hobart." It is expected that Judge J. Frank Fort, of Newark, will make the nominating speech for Hobart.

The general headquarters of the New Jersey delegation will be at the Players' Hotel, where General Sewell, Vice-Chairman Hobart, Governor Keane, and other prominent citizens are staying. Mr. Murphy and some of the other delegates have secured quarters. All places for holding conferences will be at the Players' Hotel, and the headquarters of the delegation will be at Mr. Murphy's boarding.

A Fatherly Visitor.

There is perhaps no G. A. R. veteran in the State who is more loyal to the cause than the late John Moore, of Post 73. On Decoration Day he took it upon himself to go to Warrenton on foot and from there to Springfield, Mich. He and Mr. Betzel, of the local chapter, decorated the graves of the dead soldiers. In some of the cemeteries he was assisted by the Misses Coddington. Comrade Moore walked over fourteen miles in all, and has not before mentioned his public recognition for his services, although this is his annual custom.

Mr. James Perdue, an old soldier residing at Monroe, Mich., was severely afflicted with rheumatism but received prompt relief from pain by using Chamberlain's Pain Balm. He says: "At times my back would ache so I would get up and walk around. I had not gotten relief I would not be here to write these few lines. Chamberlain's Pain Balm has done me a great deal of good and I feel very thankful for it." For sale by T. S. Armstrong, Druggist.

STATE MUST ACT FIRST.

H. C. JACKSON MAKES A STATEMENT IN THE JAIL.

Hopes to Have the Prosecutor Move for His Release and Thereby Get an Acquittal.

George Bodine, a New Brunswick lawyer, representing Lawyer Hanson, who is acting as counsel for H. C. Jackson, appeared before Judge Strong in the Middlesex County Court Wednesday, and presented a letter from Jackson asking that he make a request to the Sheriff to remove him from the jail prior to witnesses' quarters, where it would be more agreeable for him. At present Jackson is in a cell with Thomas Donlon, who was indicted for the murder of Edward Matterson.

The request will probably be made by the Judge immediately. County Prosecutor Voorhees announced today that if the experts of chirography announce a favorable decision in the similarity of handwriting on the two letters alleged to have been dictated by Mrs. Jackson, he will call the case on Friday and move for the discharge of Jackson.

In an interview this morning Jackson said that he did not want any proceedings brought to release him from custody on habeas corpus proceedings. He preferred, he said, to have any action seeking his release to be brought by the State and then it would be the nature of an exoneration for him. Otherwise he preferred to remain in custody and await the action of the Grand Jury. He has no fear but that his innocence will be proven.

The question of whether Mrs. C. H. Jackson killed herself or was shot at the hotel in New York, seems to be determined with any degree of rapidity, although every New York paper is printing everything in Jackson's favor. Some of the papers have gone so far as to instruct the reporters who are covering the case to write their story in Jackson's favor. The secrecy about the alleged farewell letter was removed yesterday.

THE TRAMPS RELEASED.

NO EVIDENCE OF BEING IN THE TRAIN WRECKING ATTEMPT.

By Advice of the Railway Detective.

When they found they had a straight case, the men were released. Unless "Larry" Wallace can produce some very unexpected evidence, the chances are that he will have to stand trial for the attempt to wreck the Jersey Central train. The railroad company thinks that they have captured the right man and so make no attempt to have the three itinerant umbrella men held for the Grand Jury. Justice Nash posited word from the railroad officials Tuesday that they did not think the examination set down for today, necessary, so yesterday afternoon the three men were allowed to go on their own recognizance to appear before the Grand Jury when it meets again next September.

There was no evidence against them except that they were in the vicinity when the train was wrecked on the track. They all told the same story and said that they had nothing to do with the matter. Wallace's statement, at the time he was captured by Sergeant Kiely and Boundman Mattox, that they had done the dastardly act, was of little account.

Two days ago the police received a letter from a man in Clinton, N. J., telling how three tramps had entered a house there and carried away everything they could lay hands on, and with some of the things, wrote reports among the three prisoners. As nothing more has been heard from Clinton it is supposed that the authorities of that place thought the same.

The three men, John Emerson, John Donohue and Thomas Burns, were released at about 2:30 o'clock and left town soon after.

MRS. TUCKER IS COMING

SECOND DAUGHTER OF GEN. BOOTH

TO TALK IN THIS CITY.

She Will be Accompanied by a Strong Host and Other Notable Salvation Army Workers Against Old Satan.

An active campaign has been opened in Plainfield by the Salvation Army and the war against sin is to go forward with renewed vigor. Mrs. Anna Taylor, "The Golden Magician," has been placed in command and he is assisted in the good work by the "Central Victory Boys" who number seven earnest workers. Since Mrs. Taylor arrived here about a week ago, they have held a number of roasting meetings that have proved very profitable. All of the "Central Victory Boys" are musicians, and music forms a leading part in their meetings. The attendance at the barracks has been good, especially last Sunday evening when the meeting was an unusually good one.

While there is something new introduced at every meeting, the meeting tonight promises to be especially interesting, as Brigadier Evans, who is in command of the Central Division of New York and who resides in this city, will be in charge. He is too well known to Plainfield audiences to need any introduction.

FARMER DUNN'S WRATH

He Sent a Heavy Shovel to Intervene With a Church Festival.

Farmer Dunn has not been feeling very well lately, and his laundry bill has also been large, so when the young ladies of the First M. E. church, of this city, applied to him for an evening for their entertainment at Vincent chapel, he deliberately sent a thunder storm carousing over Jersey, and Plainfield in particular Tuesday evening.

Just at the time when the people began to make ready, the rain came down. It came down in sheets accompanied by a regular battery of thunder claps and "piffoffs" lightning. Of course, the young ladies who braved the storm, and the management held a consultation to see what was to be done. It was decided that, as some of those that were to take part were absent, part of the programme should be given and the affair called a "dress rehearsal," while the entertainment will be given entire next Tuesday evening. At the close of the rehearsal the tickets were refunded and everyone was invited to come again next week.

Although it was not the regular entertainment they saw, the small audience, however, passed a very light and pleasant time. The parts given were excellent, especially the "Tableau Mouvant," which were given by eight young ladies clad in Grecian costume. The poses were well selected, while the scenic light, sometimes white, sometimes colored, added greatly to the effect.

A Halfhouse Sister Afflicted.

The regular meeting of Minerva Temple, New Hope Sisters, was held last Monday, at which time the nominations of officers for the ensuing term were made. Deputy Supreme Charles E. Palmer, paid the Temple a friendly visit, and was received with regret the news that it was his last visit for a long time, as he was suffering from a painful affliction of the hand and arm, for which she will see prevent any operation, which will prevent her from leaving to her official duties for some time.

Another Wheelman's Head.

Plans and arrangements are making for another new road house and wheelman's rest near the dividing line of the old and new road. The plot of ground, owned by a well-known and responsible resident of the Fourth ward, is soon to be enhanced in beauty by the erection of a neat two-story and well-kept road building, and the work on the same will begin in a few weeks. It is not likely, however, that the building will be ready for occupancy before next season.

Corn Planted on Sewage Beds.

The first of the season work for the sewer beds has been completed and as soon as the cement dries the lower beds will be ready to use. The wooden channels to distribute the sewage water over the beds are in the only things left to be made. Corn has been planted on the beds nearest to Dunsen and only enough sewage was used on them to keep the corn in condition.

SAVED BY A FAITHFUL DOG.

Henry Hohl's May Thank His Butling for Saving Of the Infant.

The next time that Henry Hohl goes out to interview his herd of buffaloes at Lincoln park he will probably gaze at the crowd of people that are not run the risk of having his epidermis perforated by a pair of bovine horns. The other afternoon he donned a suit of heavy clothes cut by a pattern approved by Texas Jack Crawford when he was here. Then he mounted a fiery mustang and entered the Lincoln park where his buffaloes are kept to drive them into a corral. They objected vigorously, but Henry was not to be deterred. The old bull was particularly pugnacious and insisted upon making life a burden for the mustang. Several vigorous lunges at the mustang were avoided by the agile animal with dispatch.

A bulldog belonging to Mr. Hohl had been viewing the trouble from afar. Finally he seemed to have decided to take a hand, so with a run only paralleled by that celebrated sport made by Saltsbury last fall at the same park, he caught the bull by the nose and performed a few revolutions around the bull as the old fellow gave it a twist or two for luck. Having shaken the dog loose, the animal made a wild dive for him. He missed his prey, and then started for the horse. The latter stumbled and fell, precipitating his rider to the ground and rendering him unconscious. The bull then attacked the horse and killed him.

The dog appeared to realize the position occupied by his unconscious master. He attacked the bull in front and rear so persistently that the animal turned his attention from the horse to the dog. A wolf in sheep's clothing, which the dog gave one of the prettiest exhibitions of racing ever witnessed. While the bull was engaged in following the dog, the latter gave the horse a nudge with his head and hastened to his rescue. He was still unconscious, and they were compelled to pick him up and carry him to the park house. After restoratives had been applied he was brought to the city. He is unable to go South, Eleventh street under the care of a physician. Fortunately no bones were broken, but he has some large and painful bruises on his person which will keep him in bed for several days. He was so sore the other night that he was unable to lift a cup of coffee to his lips. Mr. Hohl attributes his escape to the fidelity of his dog, which made it so interesting for the buffalo that he was unable to perform his master when he had him down.—Nebraska State Journal.

A LIFE FOR A MATCH.

Factory Flames Are Fringed with Fatal Disasters.

It frequently happens that the fumes which issue from the chimneys of factories destroy life within a few moments. A man once attacked by the disease lurking in these factories must abandon hope of recovery. Although matches are apparently very simple little affairs, their manufacture necessitates a large and complex manufacturing plant. The little sticks undergo a long treatment and must pass through many hands before they are capable of striking a light.

The apparently harmless sulphur tips are in reality a deadly poison and the fumes arising from this mixture when in course of preparation cause terrible suffering and ultimate death. Although sulphur matches, the little sticks are in reality a complex mixture composed of glue, charcoal of potash, phosphorus and whiting—a combination frequently used for medicinal purposes.

The poisonous fumes first attack the throat, and have begun to be feared, though all workers are employed to keep them from getting in the mouth, they generally manage to do so. If all the fumes are affected in a short time and the disease, when it has once taken root in this way, can never be driven out.

The effect of this action is to rapidly loosen every tooth in the sufferer's mouth, so that they will fall out of their own accord. Before long, however, the poison has spread to the jaw and taken a firm grip upon it. The pain which the victim suffers is vicarious, and is extremely sharp. The course of the disease never varies. After once reached the jawbone, it soon covers the face and soon the victim is actually covered with a deposit of sulphur.

In the early days, before men knew anything about the disease, they lived in caves and had to protect themselves not only from the attacks of animals, but also from those of their human brothers as well. From their unclean hands their uncleaned fingers shaped was taught them that a deadly blow could be delivered with a weapon that soon covered a substance in the secret stores of the good brown earth on which he thus heaved been able to climb on his stone hatchet, and the sword was made.—Chicago Chronicle.

A MUSICAL.

Pupils of Miss Ada Marsh Give a Creditable Recital.

A delightful musical was held at the home of Miss Ada Marsh, of Franklin place, Tuesday afternoon. In the pupils in piano instruction.

The several children from five to seven years of age, who preceded the main programme, played with ease and firmness of touch, and the pupils in piano instruction.

Miss Frances Weir played with artistic taste, Heller's War Spikes, and also four of her own compositions. Miss Virginia Negus in her difficult selection, gave evidence of careful study. The Orisg Valise was very gracefully played by Miss Louise Fisk, and a prelude of Chopin by Miss Mary Anderson Reinhardt, was delightfully rendered. Special praise was given to the brilliant performance of Miss Helen Drake and Miss Edith Arens. Miss Arens executed with ease the technical difficulties of Mendelssohn's Rondo Capriccioso, and showed true musical feeling. The entire programme passed off smoothly, each pupil playing with the assurance which comes when one is well prepared.

The programme was as follows:

REMOVE THE DEAD WOOD.

Heightened Trees are an Eyesore and Disgrace to the Town.

The Town Improvement Association

furnishes the following publication:

"Plainfield is justly proud of her beautiful trees, but in many parts of the city a judicious thinning out of them would be beneficial in every way, resulting in improved sanitary condition of the neighborhood and the better development of the trees. Sargent says: 'Of the implements required to produce a fine tree the axe is certainly the first and most important.' The removal of dead trees along the roads is a public benefaction.

They are sometimes killed by underground gas poisons, sometimes by electric wires, and are allowed to rot on an eyesore to all beholders, have perhaps the immediate property owners else why they are not promptly removed.

The familiar, yet ever mysterious army of green which clothes our streets in spring is thus spoken of by Prof. Halstead, of Rutgers College, in the "Chautauque" for May:

"This verdant display is essentially the result of a prominent action upon the part of the plant by means of which substance has been accumulated through the activity of root and stem, and is stored up in the buds and in the leaves. In the shortest possible time, when conditions favor, it may produce the great change so fresh to our eyes each returning spring. And when leaves are once upon the herb, shrub, and tree, they are for use.

"While foliage is pleasing to the eye it is the garb of work. Green is the color of service, and when it is lacking in foliage, either the least is sick, or is disabled for some other labor."

An Old Equine Feud.

Mohawk, the sorrel horse belonging to Mrs. Stillman, widow of the late Dr. Charles H. died yesterday in the pasture field on the farm where he had been turned out about two weeks ago. He has been driven on Plainfield's streets every day for twenty years, later by Mrs. Stillman, who was greatly attached to the horse.

In the Spring a young man's fancy lightly turns to thoughts of—DeWitt's Little Early Risers, for they always cleanse the liver, purify the blood, and invigorate the system. For sale by L. W. Randolph, 143 West Front street.
