

"Support the Constitution, Which is the Cement of the Union, as Well in its Limitations as in its Authorities."—Madison.

FOUR NEW INSTRUCTORS

VACANCIES FILLED BY THE CITY BOARD OF EDUCATION.

The question of Finance Considered and it is the idea to leave Bonds instead of Mortgage—Other Matters Aired On.

The City Board of Education met in regular session in the High School building, Tuesday, with President Dr. J. B. Probasco in the chair. Messrs. Lounsbury, Lovell and Abbott were present when Clerk F. B. Clark read the minutes, and Dr. O. L. Jenkins came in later. The minutes were approved and the regular routine of business was taken up by the presentation of the following claims:

R. H. Galpin, \$130.50; S. R. Hope, \$4.50; D. W. Little, \$40 and \$35; F. A. Dunham, \$5; H. Smith & Co., \$1; J. H. Van Winkle, \$1.00; Milton, Bradley & Co., \$145.16; Mazzy, Young & Co., \$18.40; A. M. Griffin, \$124.04; Joseph Kingston, \$1.70 and \$16.47; B. W. Harlow, salary claim amounting to \$306.65; Jos. S. Barrows, \$5.65; F. B. Clark, \$2; Cortlandt and Wayne Parker, \$50; and sundry other bills amounting to \$53. These were all ordered paid.

The following claims, sent in later, were ordered paid, it being so corrected: G. Q. Packer, \$49; E. Lazell, \$15.15; New York City, \$100; J. H. Smith, \$4.50; H. A. Wilson, \$56.63; Ten Eyck & Harris, \$1,609.17.

C. P. Carr in a communication asked for the first payment of \$250 for services on account as architect for the new school building, and the request was granted.

The City Collector communicated with the Board to the effect that back taxes accruing since 1881, to wit: \$500.00, had been collected and with interest the amount reached a total of \$542.93, which had been deposited to the credit of the Board of Education.

Applications for the janitorship of the new Lincoln School building, each with a long list of signatures recommending the applicants, were received and filed as follows: B. W. Hand, George B. Allen, G. H. Bellis and Isaac S. Lance.

President Probasco made a verbal report on some of the necessary repairs to the several schools, and had been casually observed on a tour of inspection.

The matter of macadamizing four feet in the gutters on each side of the Irving School, on the corner of Second and Main streets, at a cost of about \$60, was left at the discretion of the committee on buildings.

Mr. Lounsbury, from the building committee, had no report to submit, inasmuch as the bills for repairs were not yet in.

The matter of grading about the Lincoln School was considered at some length, and it was decided that the work should be done before the cold weather sets in. It was stated that fully a foot of dirt would have to be removed from the second street side of the building, and it should be utilized to advantage in filling in about the grounds. B. W. Hand had agreed to do all the grading for \$800. The matter was left to the building committee.

Mr. Lounsbury stated that a petition had been sent to the Council asking for the extension of the water main from Front street to the Lincoln School building, a distance of about 75 feet, so as to furnish city water for the school. The cost per year would average \$62.50, and if the city would place a fire hydrant on the corner the cost for school purposes would be \$10 less.

The committee on teachers reported that L. R. Allen in the High School, Julia A. Butler in the Franklin School and Mary Allen in the Irving School had accepted their appointments. The following new teachers were announced to fill the several vacancies: A. J. Knowlton, of Bridgewater, Mass., in the High School; Lottie B. Strong, of Andover, N. Y., in the Franklin School; Carrie E. Randall, of Easthampton, Mass., in the Irving School; and Kate A. Reemer, of Amsterdam, N. Y., in the Bryant School.

The matter of fencing in the new school was discussed at some length. Mr. Lounsbury favoring a neat iron fence, but the whole matter was left to the building committee. Mr. Lounsbury also had received a petition from the Street Railway Company asking for permission to extend the line to and pass the new school building on East Second street, but both he and Dr. Jenkins were of the opinion that the Board had no controlling voice in the premises. After a little friendly discussion the president was authorized to sign the petition giving the assent of the Board.

The question of issuing school bonds,

THAT UNRULY TONGUE.

IT CAUSED LOTS OF EXCITEMENT IN THE CITY COURT.

And Finally Landed Its Owner in the County Jail—It Also Made a Great Deal of Trouble in Fairchild's Alley.

There are other distinguished characters in the county, who reside beside those from "Paradise Alley." This morning, Fairchild's alley, which runs from East Front street beside the old postoffice building, out one of its liveliest colored residents to the stuffy little court room in the city lockup for trial, and the offender was a woman, and she had a tongue.

Now other women have tongues and some of them can manipulate them with considerable vigor, but they are not "in it" with Mrs. Lizzie Thompson, for such was the name of the woman from Fairchild's alley. Her tongue was the cause of her arrest. She used it so freely on her neighbors that, at last, Mrs. Leander Brown, a colored resident of the same thoroughfare, decided that Mrs. Thompson had gone too far, and she appealed to the police. Mrs. Thompson was ordered to appear before Judge DeMeza this morning, and she did so, accompanied by about one-half the female population of the alley.

It was only too evident that she had been brooding over her arrest and was ready for war. From the moment she entered the court room, her tongue began to wag, despite the efforts of Chief Grant and Patrolman McCue. She would subside for a time only to explode with more vehemence soon after.

As it was impossible to send the tongue to jail alone, the owner of that unruly member had to go also. When Judge declared her guilty, she gave him an example of life on Fairchild's alley. The Chief came in for his share of abuse. She was sentenced to pay a fine of \$15, and to go to jail for forty days. As she was led away to a cell, she shook her fist at Mrs. Brown and yelled, "I'll get even with you when I get out." And then she continued to make life a misery for all in the building by her jargon, indignation and remarks which she interjected between the puffs at her pipe.

CELLAR THIEVES IN THE NOTCH.

Establis Were Evidently the Only Thing They Were After.

Some time during Monday night a sneak thief or thieves got into Geo. Demers cellar in the Notch, and were heading them off with a bottle of bread, cake and sweetmeats, when Mrs. Demers happened to open her eyes and was startled to see the reflection of a lantern outside of her bedroom window. She called to her husband, but the robbers evidently hearing them moving about in the room, beat a hasty exit through the cellar door, which was afterwards found empty.

The same night the cellar of the house on the "Billy" Spencer farm was also entered and cleaned of the contents. Judging from the looks of the cellar, the morning's work was a reminder of the song "After the Ball is Over."

There is no direct clue to the perpetrators of the deeds, but one or more persons living in the neighborhood are suspected.

Country Roads in Bad Shape.

Edw. Child Marshal Van Pombour drove through Washingtonville and several adjacent villages a few days ago and afterward told a Daily Press representative that the road around the village had been terribly run down the recent storm. The storm, together with the fact that the breaks in the road had not been opened, will cause an expenditure of several hundred dollars to make the highway commensurate to the needs of the season.

Trade Encouraging.

Edw. reports that trade at the Commercial Palace is very brisk, and from the present encouraging start out for September bids fair to come up to the level of the previous year. The fall and winter goods coming in, and the nice cool weather, together with the people coming home from their summer vacations, sets the ball a-rolling. All that is needed now is confidence and a look on the right side of things, instead of all the time croaking on the dark side to make a genuine business boom.

The whole system is drained and undermined by indolent slaves and open scabs. DeWitt's Witch Hazel Salve speedily heals them. For sale by L. W. Randolph, 143 West Front street.

THE SITUATION IN UNION

JAMES P. LOGAN TALKS WITH THE LEADERS OF BOTH PARTIES.

Former Vicepres Proclaims a Plurality of 3,000 for McKinley in Union County—Democratic Leaders Confident.

James P. Logan, who is making a canvass of the State for the Newark News, has the following about the political situation in Union county:

"Union county is in good shape," said Senator Foster M. Voorhees, when questioned upon the subject. "Chairman Codding of the Republican county committee," he continued, "says McKinley will have 4,500 or 5,000 majority in the county, but I think this is too high an estimate. Taking the county as a whole, however, I think we will carry the county by a large majority. There seems to be little silver sentiment among Republicans, and the Democrats will not vote for Bryan to be counted by scores. Among the leading Democrats here for sound money are City Controller A. B. Carlton, ex-City Treasurer John C. Whelan, ex-City Engineer John C. S. Williams, auditor of the Central Railroad company; Frederick E. Levy, Theodore Tembroke, James Maguire and hosts of others."

"I believe they are for sound money," replied Mr. Voorhees. "At first it was feared that the labor unionists were against us, but I learn that they are not; in fact, the tide is setting our way everywhere."

Ex-Speaker Joseph Cross agreed with what Senator Voorhees had said, and thought that there is no fear of any serious free silver defection among Republicans.

Ex-Senator Frederick C. Marsh, chairman of the Democratic county committee, said that New Jersey's delegates to Chicago, and was considered a sound money man. He still disapproves of the Chicago platform, but in the past few days has announced that he will support the ticket. "With my party affiliations and connection with the organization," said Mr. Marsh, "I feel it my duty to support the ticket regularly nominated, and I am very much I am disgusted with the platform."

"Do you find the free silver sentiment very strong in Union County, Senator?" I asked.

"Yes," he replied. "I hear that the farmers throughout the country are all for free silver, but for some reason I do not run across them. Maybe it is because they do not come to my office, and I don't go out hunting for them, but at any rate I haven't found any of that over, whether free silver sentiment we hear so much about."

J. A. Kierman, a bright young lawyer, is one of the most active workers for Bryan and Sewall. "The silver sentiment is very strong among the workmen," said Mr. Kierman. "Of course, a good many wealthy Democrats and business men are out for gold, but not the great mass of voters. The common people feel that in Bryan and Sewall they have a ticket which justice fully represents them than any they have had a chance of voting for in many years, and I have never seen the rank and file more enthusiastic."

Mr. Kierman thought that many Republican workmen and farmers would vote for the Chicago nominees, but admitted that the German vote in Elizabeth would be practically solid for McKinley. He was not very hopeful of carrying the county.

Ex-Assemblyman Timothy Kelly, while an earnest advocate of Bryan and Sewall, thought that the gold Democrats of Union would outnumber the silver Republicans, and that McKinley and Hobart would probably carry the county. He also spoke of enthusiasm displayed among the working classes for the silver ticket.

Justice Newman's Court.

The following cases are being considered in Justice Newman's court: Lawler against Jones, adjourned to September 16th; Miller against Watts et al.; Watts et al. against Miller, adjourned to September 16th; McVey against Jones, adjourned to September 16th; Thirkston against Thirkston, returnable September 16th; Lawler against Chase, returnable September 16th; and a judgment on contract of A. M. Griffin against George O. Evans.

Accepted on Invitation.

The members of Warren Engine Company met Tuesday night and accepted the invitation extended to participate in the festivities Saturday, Oct. 3d. The company decided to turn out in full force and have secured the Independent Fire Truck number 10, which will be largely increased during the fall and winter months.

THE LAST OF THE SEASON.

THE FREE OPEN AIR CONCERTS COME TO AN END.

The Last One Was Held Last Night in the Vicinity of the Balch Building and Was Quite Largely Attended.

The open air concerts are over, that is for this year, and altogether Councilman Frost has been giving the people more satisfaction than any other. The last of the concerts was held Tuesday on the southeast corner of Front street and Madison avenue. The attendance was good, but not as large as at previous concerts. Perhaps it was too chilly to stand around for an hour or two, for many of the visitors came only for a few minutes and then rolled away. There was the usual throng, as the sidewalks and the policemen on duty there were kept hustling in their efforts to keep the passage way clear. The cyclists were sent out in as large numbers as at previous concerts. If they were, they left their wheels in some safe place.

It was a cool night, and wraps were in vogue. The concert was provided by the young ladies of the light brigade who began to make its appearance among the others.

The Plainfield Cornet Band furnished the music, and the selection was really very good. The band was a great improvement, but the place itself did not seem as well fitted for an open air concert as the square in front of the City Hall. At the intersection of Franklin place, LaGrange and Putnam avenues. It is evidently not as popular as the crowds at the last three concerts which have been held near the Balch building, were in no case as large as the crowds at the former concerts held in front of the church.

It is to be hoped that the concerts will be continued next year, and have proved a very popular feature of summer life in Plainfield.

FIFTH WEDDING ANNIVERSARY.

A Pleasantable Festive Event Held in the Borough.

Mr. and Mrs. Charles Wheeler, of Linden avenue, celebrated their fifth wedding anniversary Tuesday night in a pleasant manner. They had intended to have all those present who witnessed their marriage, but this was impossible as various reasons kept several away. The evening was passed in the usual social way, interspersed with excellent vocal and instrumental music, which enlivened the gathering very much. Mr. and Mrs. Wheeler were the recipients of many beautiful presents, including a large cake and a beautiful house. At a late hour refreshments were served, after which the guests left for home wishing the host and hostess many years of health and happiness.

Those present were: Mr. and Mrs. Wheeler, of Cranford, parents of the groom; Mr. and Mrs. Warren C. Squires, parents of the bride; Mr. and Mrs. J. C. Freeman, of Linden, and Elsie Squires, Alice and May Squires, Miss Maggie Sheppard, Mr. and Mrs. Francis Whitey, Mr. and Mrs. Walter Walker, Miss Mamie Squires and Isaac Squires.

RETURNED ONLY TO GO AWAY AGAIN.

Don Jones, the Hobo Pays His Rent—Annual Visit to Plainfield.

Don Jones is in hard luck, at least that is what he would consider it so, but maybe this "knight of the road" thinks that the free board overbalances the effect of bad company. Tuesday our friend Jones got out of the county jail, and he had been sentenced to pay a fine of \$100 and go to jail for 30 days. As he had no money he paid the fine in time instead, at a day. This morning he came to the City of Plainfield, and he had to do when he was looked up. He thinks this a great town to work and the gulleus housekeepers, that have hitherto taken care of his body and soul, would consider it so, he is deserted. He has already been arrested twice before and returns to Plainfield immediately on his release. The police found him this morning working his day's wages, and Judge DeMeza sentenced the poor fellow, \$100 fine and 30 days in jail. Poor Don, how the housekeepers will miss him!

Meeting of the Catholic Club.

A regular meeting of the Plainfield Catholic Club was held in the club house last night. Fr. Fredrick Mack in the chair. But little or no business of importance was transacted out of the regular collection of dues. A special meeting of the club was called for Friday evening of this week when some important business is to be transacted. The club now has a total of 140 members in good standing on the books, and the number of members will be largely increased during the fall and winter months.

OFFICIALS FOR THE MEET

THE CRESCENT WHEELMEN SELECT THEIR FOR THEIR RACES.

The Entries are Coming in Rapidly and Include Many Top Riders, Both Amateur and Professional—The Prices You have no idea of the extent of the reputation of the Crescent Oval as a bicycle track. There is hardly a rider of that class of the country that does not know of its smooth surface. The scientific manner in which it was built made accidents infrequent, and when such a fact is known it is bound to make the track popular. The promoters of the national circuit meet of the Crescent Wheelmen, which is to be held on the Oval on Saturday, Sept. 13th, have not failed to remind the riders of that fact, and the entire assemblage is surprisingly fast for so long before the meet and everybody is delighted. Ray MacDonald, the young American professional who did so well at the national meet, has also the famous Morgan and Wright team.

The officials have been invited and acceptances have been received from many of the young gentlemen who have invited thus far are: Referee, Robert Gentle, chief counsel of the New Jersey Division of the L. A. W.; Judge, R. C. Keen, president of the Newark City Board of Trade; F. P. Price, editor of the "Wheel"; J. C. Tattersall, secretary-treasurer of the New Jersey Division of the L. A. W.; W. N. Pittman of New York.

Timers, C. E. Vall, of the Crescent Wheelmen. Charles Brown, of the Elizabeth Athletic Cyclers, and Robert C. Keen, of the Newark City Board of Trade. A. Meeker, of the Crescent Wheelmen.

Timers, C. E. Vall, of the Crescent Wheelmen. Charles Brown, of the Elizabeth Athletic Cyclers, and Robert C. Keen, of the Newark City Board of Trade. A. Meeker, of the Crescent Wheelmen.

Announcer, A. S. Frick, of the Crescent Wheelmen. Clarence E. Teel, of the Crescent Wheelmen. Assistants, N. R. Titworth, Casper Kirker and J. H. Rogers, of the Crescent Wheelmen.

S. P. C. Wilbur is the chairman of the prize committee, and that assures excellent prizes. The amateur prizes will all be diamonds of full value, and the professional prizes will of course be cash and gold as usual.

SURE TO BE SATURDAY.

The Bicycle Carnival Will Not Be Postponed Longer than Saturday.

According to the usual custom, Saturday ought to be a clear day. It is the day to which the Daylight Bicycle Carnival has been postponed, and we usually have pleasant weather for the postponement. Let us hope so, at least. The general committee are hoping as hard as possible and expect to receive suitable terms with the postponement.

The committee held a meeting last at the Board of Trade rooms but there was very little to be done. All the arrangements of the carnival were completed and the meeting changed into a general discussion of the prospects of the Carnival for Saturday. It seemed to be the opinion of all that while the weather was so good, it was better to postpone the carnival as much as possible, for the wheelmen of this part of New Jersey will turn out in great masses.

There was some talk of changing the date of the carnival from Saturday to Sunday, but it was decided to postpone the carnival. The date of the national circuit meet of the Crescent Wheelmen. The general sentiment was against this, however, and no effort was made to further postpone the carnival.

N. R. Titworth made his report as referee of the coming match. There were fifty entries and the expenses were trifling to that the three leading men will receive excellent prizes for their exertions that morning.

DIFFERED ON FINANCES.

A Lively Debate Between Councilman Over Committee Appropriations.

During the session of the City Council Tuesday night, Councilman Glana and Moore participated in a lively debate regarding the appropriation for the different departments. It was brought out through the opposition made to granting petitions for electric lights.

Councilman Glana said that \$500 additional had been granted the lights and trees committee, and that the amount had not been used.

Mr. Glana stated that the sums appropriated for the lights and trees committee would have to do the best they could, though it was not enough.

Mr. Dumont finally stated that the committee also had received an appropriation of \$15,000, and that no appropriation had been made for the lights and trees committee outside of the usual allowance.

MONEY IS GETTING LOW.

COUNCILMAN TALK ABOUT CUTTING CURRENT CITY EXPENSES.

Councilman Glana says Economy Must be Practiced in the Appropriations—Will Save Money for the Year.

Councilman Flak was the only member absent from the regular September meeting of the City Council, which was held Tuesday evening. After the minutes were read and approved, a petition was received from the Town Improvement Association asking that the Council prohibit the burning of leaves, as it was a menace to health. Mr. Dumont wanted to know what disposition could be made of leaves, except to burn them. Mr. Barrows thought that if it was not a detriment to property, people should be allowed to burn them. The petition was finally referred to the police committee.

J. W. Van Sickle asked for the privilege of erecting an iron frame of gas pipe for the purpose of being used to be used for an awning. The matter was referred to the street committee.

The Plainfield Sanitary Company asked that the petition be referred to the Council at the August meeting, asking for a franchise to erect a garbage-disposal plant, be returned to them. It was ordered and ordered similar petition be returned. It was referred to the sewer committee with instructions that they consult the Corporation Council.

J. E. Martine and others petitioned for a sidewalk on East Third street between Park avenue and Third place. This was referred to the lights and trees committee. A crosswalk was asked for by Thomas Callahan and others on East Third street, at the southeast corner of East Third street. The petition was placed in the hands of the street committee. The Board of Education asked that one two-way hydrant be located at the corner of Berkmann and East Second street, and their request was referred to the fire and buildings committee.

The City Engineer, audited and ordered paid. The reports of the City Treasurer and Collectors were received and filed.

Street Commission—Barker reported that he had granted thirty-one sewer permits and had received \$81, which amount had been turned over to the proper person.

The Consulting Inspector reported that fourteen permits had been granted during the past month. W. W. Correll and a host of other citizens asked the council to repair the town clock, and they, and others, would be located on the clock and in order. The matter was referred to the finance committee, and Mr. Dumont asked that the City Clerk be requested to learn the cost of repairing the clock and report as early as possible.

In a resolution Mr. Dumont asked that \$4,000 be borrowed in anticipation of taxes for the general fund. It was ordered that the finance committee on lights and trees recommended that the four electric lights asked for be located on North avenue between Berkmann street and Callahan street. The matter was referred to the lights except Messrs. Glana, Dumont, and Frost. Mr. Dumont objected seriously to the additional expense owing to the financial condition of the city. The matter was referred to the council was now within a small amount of the limit of the appropriation and the street committee had passed the limit.

It was thought the lights should be granted, as there had been very few lights asked for this year. Mr. Barrows wanted to know if the petition came from the freight house officials. Mr. Tolles informed the investigating member that it did not. Mr. Glana thought it unwise to grant the petition on account of the depleted condition of the funds. On a vote the petition was ordered to be granted. The four lights on South avenue between Leland avenue and Terrill road were not granted. Messrs. Se, Barrows, Dumont, Frost, Berrell, and Westphal voted against the petition. There being no further business council adjourned.

The "Burning of Leaves."

An important meeting of the Town Improvement Association will be held in the Y. M. C. A. hall on Friday, at 4 p. m., when the subject for discussion will be "The Burning of Leaves." This is considered a timely topic, being just at this season, when the leaves will soon begin to fall. There will also be a special meeting of the executive committee at 3 p. m., in the same place.

"Boys will be boys," but you can't afford to lose any of them. Be ready with a good apple for the boys. Dr. Williams' Pink Pills for Pale People. The house. For sale by L. W. Randolph, 143 West Front street.

WIND, RAIN, LIGHTNING.

A TERRIFIC STORM VISITED PLAINFIELD LAST NIGHT.

During storm in several places. Wind did not cause much damage except to Telephone and Electric Wires. Violent thunder storms seem to be unusually frequent this year and the third and most severe of all visited this section last night. Although the damage was not amounting to as much as that of the last storm, yet the rain was simply a deluge and the thunder and lightning was continuous and of extreme severity.

It was really quite a storm Thursday in comparison to the recent cool weather and there was a touch of humidity in the air. In the afternoon a thin haze partially obscured the blue sky, but the sun continued to shine. As the afternoon drew to a close and the crowded trains began to deposit their loads, the clouds began to gather over the Watchung Mountains. At 5:30 o'clock, the dark port of clouds began to move slowly across.

A quarter of an hour later the grey cloud had changed to inky blackness and it approached rapidly. Out from under it rolled banks of heavy clouds of clouds, heaving and raging the way came. Then the blackness of the upper strata of clouds assumed a coppery color, as though reflecting the light of a fire in the distance.

Then came the clouds in a remarkable rapidity and in a few moments the sky was obscured. The quickness with which the storm approached was unusual, but the approaching signs were not as portentous as on previous occasions.

Plainfield did not seem to realize that a storm was soon to break until it was almost here. The commuters escaped from the station to carriage or to the street, and many of them were on foot, hoping to reach there as the storm broke. Cyclists scoured along the streets dodging in and out between the throng of carriages that filled the streets. Many of them ran for shelter only to get in the way of pedestrians, while the loud clang of the gongs on the bicycles added to the general turmoil.

Then came the wind. It gathered the dust in clouds and blinded the struggling pedestrians, while whirling away their hats. Trees away from the ground, while blinds rattled and everything seemed to be in a state of commotion. The rain came. First in large drops that stung almost like hail and then in a perfect sheet. The wind still continued to blow, and the pouring rain was falling in a deluge. The clouds scattered for shelter and then for nearly half an hour the rain came down in torrents. The thunder roared and crashed continuously, while the lightning flashed and the wind howled incessantly. Gradually the storm went over, the rain ceased and the grumbles of the thunder in the distance was the only sign of the deluge.

Afterward it was very dry, that it had rained. The streets were flooded for a time until the dry ground soon soaked it up. The street railway felt the effects of the storm. During the severest part of the storm, the cars were stopped. A lightning arrester on Richmond street was struck and traffic on the Newtewood Avenue was delayed for nearly an hour.

The Republican banner that was to be hung across North avenue last night, was all ready to be pulled across when the storm came. The wind and rain wrapped it around the wires that supported the pole and entangled it there. Limbs were blown off numerous trees all over the city and some weak structures that had escaped other storms, collapsed at this one.

Eva Jones, of North avenue, says that it was the most severe storm that has visited Plainfield in 35 years.

During the heavy shower last evening some of the electrical light ran over the incandescent wires leading into the street and the wires of the cars were stopped. A lightning arrester on Richmond street was struck and traffic on the Newtewood Avenue was delayed for nearly an hour.

A big limb was blown from a tree at the corner of Linden avenue and Duane street so as to almost completely obstruct travel on the sidewalk.

Warren Engine Company's house on Somerset street suffered slightly from the severe lightning. The fuses were burned out and at the same time a large fire burned in the boiler. The circuit hangs very close to the wires entering the building and the texture caught fire in consequence. Before the flames were extinguished a large fire was burned in the curtain. The lightning arrester on Richmond street was struck and traffic on the Newtewood Avenue was delayed for nearly an hour.

and they tested a large majority of the boxes before they could locate the trouble. In chief Fairchild's house the electric light played a lively tune around the indicator. The trouble resulted. Mr. Fairchild has decided to have a lightning safety arrangement placed on the apparatus. In Washington Park nearly all of the houses at the corner of East street but the trouble was soon repaired and this morning the telephones were all right.

Quite a quantity of drift wood was deposited in the gutter and on the sidewalk at the corner of East street and Watchung avenue during the storm. This morning nearly half a cord of wood was found there.

Fleischmann's barns and hay barns at Millstone Road, Round Brook, were struck by lightning and burned to the ground last evening. The loss is said to be very heavy.

One large hickory tree standing at the base of the mountain, near West Front street, was struck by lightning and struck by a bolt of lightning last evening, and split from top to bottom.

The break in the fire alarm wire in the borough was found on Bynamore street, where the North Electric struck by a bolt of lightning last evening, and split from top to bottom.

It was thought during the storm that Trinity Reformed church on West Second street was struck, as the electric light was blown out by the neighbors but no damage was done. Chief T. O. Doane says that the electricity probably utilized the complete system of lightning rods that protect the church. The lightning rods were also felt at the meat market of Ulrich and Blatz on West Front street.

A barn in the vicinity of South Plainfield was struck by lightning last night and burned. The lightning bolt was plainly seen from this city.

Mrs. George Whitlock, of 214 West Second street, went to look out of a side window in her house, during the storm when she was stunned by a flash of lightning. Mrs. Whitlock was overcome by the shock that she fell directly into the arms of her son, who stood by her side when the flash came. Today she is partially recovered from the shock.

FELL TWENTY FEET.

Frank Conner, of Pearl street, thrown from a tree—Probably Fatally Injured.

Frank Conner, an old and respected resident of Pearl street, North Plainfield, met with an accident Friday night, when he was thrown from a tree. He was thrown from a tree and fell twenty feet.

"Frank," as he was familiarly known, was walking on a black walnut tree, near his home, probably to having a building moved from the premises, and the erection of another one thereon, when the limb he was sawing, a good sized one, split, and he fell without a moment's warning. The limb struck the ladder and the unfortunate man was thrown to the ground. Mr. Conner was picked up in an unconscious state and carried to his home, half a block away, on a stretcher. There he lay in a comatose state for several hours, and finally expired. During the evening he was occasionally in a stupor and when the two physicians arrived he was nearly unconscious.

Mr. Conner will be 89 years old in October.

Dr. Clawson, one of the attending physicians, this morning reports Frank Conner as in a critical condition. The inflammation sets in, the doctor says, paralysis will in all probability follow and death will soon result. His advanced age is so much against him that the chance for recovering are slight.

INSANITY LED HIM TO STEAL.

Assistant Postmaster Who Embezzled \$5,500 Discharged From Custody.

George B. Jenkins, formerly assistant postmaster at Short Hills, who was committed to the New Jersey State Prison by United States Commissioner Whitehead for embezzling about \$5,500 of the money of his office, is insane, and yesterday he was turned over to the care of his friends. He had been in the hospital of the New York State. Jenkins was examined this week by a commission of physicians who pronounced him insane, and yesterday District Attorney Rice in an order, by Attorney General Harmon to have him discharged from custody. It appears that the insanity developed while Jenkins was in office, and that he was not the delinquent that the government owed him money. Jenkins is thirty-three years old, and was sent to jail in July. Most of the money taken has been recovered.

Holy Cross Church Services Again. The church of the Holy Cross having been newly organized, the services for the first time were held on Sunday morning for divine service on Sunday night. Morning prayer sermon and the Holy Communion at 11 a. m. On the second Sunday of the month the Holy Cross church will have the opening of the new church and afternoon service will be held.

SMALL, BUT IMPORTANT.

MANY LITTLE THINGS ATTENDED TO FOR THE BOROUGHS' WELFARE.

New Advertisers Ordered Paid—One Man Threatened to Shoot—Belt Taken and One Touching His Disgraced Sidekick.

In the main the business transacted at the regular meeting of the Borough Council, last Friday, was of a small but important nature, and all of the members were present except Peck, who was detained at home by illness. The clerk's monthly financial report was presented as follows:

| | Balance. | Debit. |
|-----------------|------------|------------|
| Borough. | \$1,100.00 | \$1,100.00 |
| The Department. | 22.00 | 22.00 |
| Land. | 22.00 | 22.00 |
| Water. | 22.00 | 22.00 |
| Total. | \$1,166.00 | \$1,166.00 |

The clerk also reported that \$131.75 had been collected as fines, licenses, etc.

Warren Engine Company notified the Council that Alonzo Brook and J. Sheppard had been elected to membership in the company. The company was referred to the proper committee.

A. E. Faler and others asked that Grove street, beyond Greenbrook, also Howard street, be repaired and put in good condition. Jonathan Clawson and others asked that Brook avenue, from Westerville to Sandford avenue, be macadamized. They stated that \$75 had been subscribed as the property owners' share. The Council was referred to the proper committee. The Council was referred to the proper committee. The Council was referred to the proper committee.

The usual batch of claims were presented and in the regular order was paid. Mr. Woolston, for the street committee, reported that Westerville avenue and the continuation of Mercer avenue had been macadamized. Mr. Vallant offered a resolution that J. Higgins and S. Rosenfeld be considered as the property owners' share. The Council was referred to the proper committee. The Council was referred to the proper committee. The Council was referred to the proper committee.

Mr. Woolston offered a similar resolution, which was adopted, that the Council negotiate a loan of \$1,000, the same to be charged to the borough water and sewerage fund. The Council was referred to the proper committee. The Council was referred to the proper committee. The Council was referred to the proper committee.

Mr. Vallant objected to the payment of the bill. He said that the bill was not satisfactory in connection with the work on the fire bell and tower, and then he included a charge of \$75 for cleaning a cesspool at the corner of the street and the tower. The bill was withheld for investigation.

Mr. Woolston offered a resolution that the Council negotiate a loan of \$1,000, the same to be charged to the borough water and sewerage fund. The Council was referred to the proper committee. The Council was referred to the proper committee. The Council was referred to the proper committee.

Another resolution, was offered by Mr. Woolston that L. N. Coddington's petition to have Coddington avenue accepted by the borough be accepted. The Council was referred to the proper committee. The Council was referred to the proper committee. The Council was referred to the proper committee.

Mr. Lounsbury offered a resolution that the street committee be authorized to purchase the water works property for sale, and that the best price possible be secured for the same. It was so ordered. Another resolution by Mr. Lounsbury was that the Council be authorized to purchase the water works property for sale, and that the best price possible be secured for the same. It was so ordered.

Mr. Schutt offered a resolution that collector Spencer's action be confirmed in paying the monthly pay amounting to \$248.48. It was so ordered. The Council was referred to the proper committee. The Council was referred to the proper committee. The Council was referred to the proper committee.

Mr. Woolston offered a resolution that the street committee be authorized to purchase the water works property for sale, and that the best price possible be secured for the same. It was so ordered. GOVERNMENTAL GOAL.

THAT IS VOIRREIN'S AIM TO FOSTER FOOLISHNESS' AMBITION.

And John Keen is After the U. S. Membership—Voorhees' Determination to Run in Case of Success. Though it has been repeatedly announced that State Senator Foster M. Voorhees, for three years the Republican leader in the New Jersey Senate, would not be a candidate for reelection, it is now known that he will accept the nomination if the Union county Republicans tender it to him with some degree of unanimity says a Trenton dispatch. Assistant Attorney General John Keen, who was not to be considered if Mr. Voorhees decided to run, Sheriff Kyle has been another candidate, but it is probable that he, too, will retire to make Mr. Voorhees' way clear.

Senator Voorhees himself is authority for the statement that he would accept a renomination. He was a delegate to the State Convention on Saturday last. The report was attested by the ovation he received when he presented the platform as chairman of the Committee on Resolutions. The Union county delegation led the demonstration, which was taken up by the whole convention, but after reading the resolutions the Senator had the sagacity to quietly slip off the stage of the Opera House and make his way to his home, where he was waiting for a speech failed to reach his ears.

This reconsideration of Voorhees' intentions with regard to the Senatorship is probably influenced by the possibility of a nomination for Governor. Mr. Keen would otherwise have been a candidate for Governor again, with excellent chances of winning, since he has the powerful influence and strong personal popularity of the Senator. Several of the leading Republicans are now considering retiring from public life for two years his friends and admirers feared that he would have lost a vast amount of popularity for in two years much can be forgotten in politics, and their arguments on this line probably and more weight with the young man than any other line.

The death of Walter M. Maguire, of Prescott place, occurred at Muhlenberg Hospital last Friday afternoon. Mr. Maguire had been ill for some time, and was taken to the hospital when he was in an unconscious and dying condition. He passed away calm and peacefully. Mr. Maguire was a young man, and was a member of the Hope chapel. He was married and he leaves a young wife. The deceased was a member of Hope chapel, also Somerset Council, J. U. A. M. The funeral will be held Monday afternoon at 2 o'clock from Hope chapel.

Searching for an Old Corner-Stone. City Surveyor Meyer, of Elizabeth, will try to unearth the original cornerstone of the College of New Jersey, which will soon celebrate its 150th anniversary. The present location of the building is a matter of uncertainty. Mr. Meyer, however, knows more about the old landmarks in Elizabeth than probably any other man in the city. He has been searching for the old cornerstone for some time, and has discovered it. The cornerstone may contain interesting records.

The rain had a deleterious effect upon the bicycle riders and livery stable keepers hereabouts on Sunday. The rain was so heavy that the roads were probably not have been much carriages and wheels to supply the demand. The rain was so heavy that the roads were probably not have been much carriages and wheels to supply the demand.

BEING ROYALLY TREATED.

G. A. R. DELEGATES ENJOYING A HUGE TIME.

The Attraction of the Twin Cities. Thrown Open to Them—Comrade Smith a Veritable Encyclopedia for All. The delegates to the G. A. R. National Convention, who are here in the N. J. Department, G. A. R., at St. Paul, Minn., The Plainfield delegates have already found the commissary department of the hotel and, having said in a good supply of rations, have been out to see the city in its handsome decorations. They found the buildings covered with bunting and electric lights, and the residents willing and ready to grasp the hand of the delegates, many of them asking for friends in and around Plainfield. Comrade Smith knows every Plainfield man, woman and child when asked about anyone. Then Mrs. Smith, who is a native of this city, has not got a better memory so she can make the members of the Relief Corps sorry they did not come fourteen hundred miles and see the beauty of this beautiful city and the manner in which the city receives its guests.

The programme is:— 1.—A visit to the G. A. R. Hotel. 2.—A visit to the G. A. R. Hotel. 3.—A visit to the G. A. R. Hotel. 4.—A visit to the G. A. R. Hotel. 5.—A visit to the G. A. R.
