TALKED AGAINST SILVER

A. H. ATTENBURY ADDRESSES THE DEMOCRATIC ORGANIZATION.

Says That the Circulation of Silver Dollars Will Result in a Panic and the Big Depression Now in Evidence. The National Democrats of Plainfield, representing the gold standard and not Bryan and Sewall, met last Tuesday evening at the corner of Mulberry street and South Second street, and held their first meeting. A. H. Attenbury, a leader in the new party, presided, and addressed those present. The attendance was excellent, and much interest was shown. A part of Mr. Attenbury's remarks follows: "Gentlemen, I extend a welcome to you in the name of the National Democratic party. The issues involved in the present campaign are the greatest since the war, notably, the proposed changing of our money standard. These issues ought not to be decided hastily, for there is much to learn and to be learned. The present campaign regarding these great issues, Bryan tells you that cheap money will bring prosperity. We Democrats tell you that cheap money has been tried many times, and it has brought misery and loss to all people. These meetings are held to teach sound ideas on this subject. We have no great orators to offer, but those who do speak here will tell you the truth.

The discussion at present is all about money, that which you receive as wages at the end of each week. Nine persons out of every ten strive solely for money. Money had a beginning like everything else, and there was a time when people exchanged corn and sheep. Salt and tobacco were used for money, until the country adopted silver and gold. A change in the two is being made. When the silver dollar was first made, it was an honest dollar. At present there is a considerable amount of sentiment expressed over the silver dollar. In 90 years, starting from 1792, silver dollars have been coined less than \$5,000,000 silver dollars.

"During the past fifteen, \$450,000,000 have been coined and I think the silver dollar has been charged enough attention in this line. A man named Bland claimed at one time that he had discovered the great panacea for hard times, and there was coined silver dollars the number of silver dollars, but this did not improve matters. Bryan's idea may be politics but they are not honest. Wages depend on the amount of general business in the country. When the money is real people and wages fell to a low point and remained so for many years. All business men oppose Bryan and his free coinage system, and as a rule, the people follow their party unless they have good reasons for it. There is only about 5 per cent of this country's business carried on in cash. The balance is conducted on a credit system. Bryan's scheme is not a new one, and it has resulted disastrously. It affects the workmen. What I tell you is no fairy story, but facts. Honesty is the best policy. The man who has suffered from the cheap dollar are the workmen, for it cheats them."

Following Mr. Attenbury's remarks an informal discussion followed. The question of the political question was indulged in by several of those present. The speaker announced that every Tuesday and Thursday evening meetings would be held at the same place and he urged those present to spread the news. He announced that on Thursday evening, Macready Sykes would speak. The following persons have recently joined the new party: H. F. Dobell, Chas. Burnett, Howard Fleming, Col. J. F. Wilson, Andrew Selvin, E. C. Pearson, Elias Hatch, F. Linde, and Mahlon Vale.

THE COUNT GOES TO JAIL

Italian Bank Depositor Committed to Prison for Extortion to New York.

"Count" Alberico Caroselli, the Italian banker, formerly of New York, who was arrested Sunday afternoon at the home of his brother, Carlo Caroselli, on Mulberry street, and charged with being a fugitive from justice, also an absconder, was taken to Elizabeth Tuesday by Chief Grant to await the requisition papers which will be brought here by the United States Marshal. The "Count" will be committed to the County Jail Thursday. Chief Grant telephoned to the Police Headquarters New York yesterday and they informed the Chief that requisition papers would be brought here. It now looks as though the "Count" will be obliged to meet the depositors whom it is alleged he defrauded.

From all accounts Chamberlain's Cough Remedy is a good advertisement about this; we feel just like saying it. The Doctor's Remedy is sold by Dr. S. Armstrong, Druggist.

NOT AS THE BIBLE SAYS

UNCHRISTIANLIKE ATTITUDE OF VOLUNTEERS TOWARD SALVATIONISTS

The Volunteers Envoiced on a Heretofore Controversial Point. The Salvationists and the Bible Society. Letter from a Point of View. For the first time since there has been an American Volunteer post in this city, the Salvation Army and the former organization have come in direct conflict, and the attitude reached last night seemed unchristianlike.

Two years ago the Salvation Army secured permission from the city officials to hold open air meetings on the vacant lot near the Babcock building on Tuesday, Thursday and Saturday. The army always took advantage of the privilege whenever the weather was favorable for outdoor work. But when the contention between the Booths and the subsequent organization of the Volunteers occurred, the Salvationists agreed to refrain from this point of view. Every other Saturday night and permit their rivals to reach the crowds from that location, retaining the right, however, to meet there Tuesday and Thursday without interruption from the Volunteers.

On Monday, Wednesday and Friday, and every other Saturday, the Volunteers met there and held their service. There was no conflict between the two until last night. Captain Brewer and four faithful Salvationists, with drums and tambourines, and many interpersed layabouts, marched to this spot Tuesday night shortly after 7 o'clock and started their simple service of prayer and testimony. As they formed a circle, the Volunteers were seen coming up Front street from the direction of the Babcock building with untold flags, banners and a line of recruits that exceeded the Salvationists several to one. The Captain of the Salvationists was about to announce a hymn for his soldiers to sing, when the Volunteers whistled from their position in the street and marched directly up along side of their erstwhile co-laborers. There was no cessation of bold or surprised look on the part of the volunteers, and they settled down to holding a meeting just as though the Salvationists were out of sight and out of hearing.

This action was such a surprise to Captain Brewer that it almost took his breath away and he commanded his few soldiers to be quiet for a moment. He awaited developments and the Volunteers continued to sing and unconcerned as to the position of the Salvationists. Kneeling on the ground they uplifted their voices in prayer, sang a hymn with accompaniment of drums and tambourines and followed up with their accustomed testimonies. Meanwhile the Salvationists stood awed by the actions of the Volunteers. The Salvationists, who had been considered their right that night and disturbing the service which they had already started. Captain Brewer seemed to realize that the Volunteers were in the line to their termination to hold a meeting there, and accompanied by his little band of followers he quietly marched off to the barracks. The Volunteers remained in the line and then went back to their own rooms in Reform Hall.

When seen by a Press reporter this morning, Captain Brewer said that he was at loss to account for the strange and unchristianlike actions of the Volunteers. He was not severe in criticism of them, but spoke more in a tone of regret and sorrow that there should be such an unfriendly demonstration by an organization engaged in the work of Christianity and along the same line of methods as his own.

Captain Bissane was in charge of the Volunteers.

A PASTOR HAWK.

A chicken hawk visited Plainfield Tuesday afternoon and here met his Waterloo. He went to the chicken yard of George N. Cortwright, of East Sixth street, and proceeded to devour the chickens. He was seen by a boy, who picked up several stones and began to throw them at the hawk. The bird merely winked his eye and paid no attention until the fifth stone caught him in the neck, when he laid down and gave up the ghost.

Appointed the Com. S. S. Swackhamer has accepted the case of Musgrave against Manning, on contract, for his client, the plaintiff. The case was recently tried before Justice DeWitt and a verdict was given of \$2,000 for the defendant.

Judge W. A. Coddington represented Manning.

CYCLING COMMENT.

A man from Westfield backed his wagon into a blegle which stood on West Front street yesterday afternoon throwing the front wheel out of gear. The owner of the wheel could not be found and the man with the horse and wagon was not inclined to wait until he could be found.

A pleasant bicycle run arranged by the cycling members of Grace M. E. church was given Monday evening in honor of Rev. and Mrs. H. J. Johnston. The run was over some of the borough's fine roads, and those who participated in the run were the Misses Alice and Grace Carroll, Margaret Schuck, Beatie Valiant, Mr. and Mrs. John Valiant, Mrs. Allen Winckler, Mr. and Mrs. Winckler, Rev. and Mrs. H. J. Johnston, Dr. H. E. Carroll, Rev. W. C. O'Donnell, John Steiner, L. A. Hummer, Raymond Carroll and Dr. William Winckler.

AROUND THE BASES.

Eddie Daly's injuries are not as serious as first reported, and he will be with the Newark club next season.

Saturday's game was highly interesting, and it is unfortunate that a series of games was not started early in the season.

Frank Bonner, who was loaned to Wilkesbarre by the Brooklyn club has been recalled, and will finish the season with them.

George Liddy, who was one of the most earnest of the old Plainfield players, is on the reserved list of the Lancaster club of the Atlantic league for next season.

The "up-to-date" baseball reporter of the News should witness a few of the big league games and then he would be better qualified to criticize both umpire and players.

The wet balls used in Saturday's game were a great hindrance to the pitchers and particularly to McLaughlin, who has the most deceptive repertoire of any pitcher that has been on the grounds this season.

The game for blood between the Bound Brooks and Somersets on Saturday resulted in a victory for the Bound Brooks, the score being 6 to 0 at the end of the sixth inning, at which time the game was stopped by rain. Brampton and Newhouse were the battery for the winners and Work and Shaw for the Somersets. The unusual score was owing to Brampton's splendid pitching the visitors being unable to hit him.

VARIOUS SPORTS.

Two carrier pigeons from Cyrus P. Wilcox's loft at Westfield were released at Baltimore, Md., yesterday morning at 10:29. One was back to the loft at 2:30 and the other at 2:30 in the afternoon.

The match race of 100 yards between Albert P. Simmonds and Henry Brown for the amateur championship of Plainfield will be run at the field games of the Plainfield High School Athletic Association on Oct. 10th.

The officers of Plainfield's new musical club, the Midmer Glee Club, are as follows: President, Robert M. Clark; Business manager, A. E. Corning; Secretary, H. J. Johnston; Treasurer, MacClymont. The club is composed of the following: First tenors, Robert M. Clark and Herbert Schutt; second tenors, Edward O. Clark and Charles H. Anglemann; first basses, A. E. Corning and William E. MacClymont; second basses, B. T. Barnes and Wyatt E. Barnes.

The following professional wheelmen are stopping at the Berrys House: Tom Cooper, A. E. Webb, F. E. Schefski, W. C. Pelot, Arthur Gardner, W. B. Young, Otto Ziegler, R. F. Aylward, Harry M. Clark, W. P. Stanton, A. S. Kimble, W. W. Reed, Chas. A. Wells, J. B. Bowler, Pat O'Connor, F. H. Allen, Fred Loughead, Wm. Hyland, A. J. Stackpole, E. K. Kiser.

Borough High School Reception. A reception will be given at the North Plainfield High School, Saturday afternoon from 4 to 5 o'clock. Only the parents of the High School scholars will be invited. Prof. Max well Bingham, of Boston, will give readings and there will be instrumental music by Mrs. Bennett.

Charles Dickerson, the renowned colored orator, will deliver the colored Republican voters at their headquarters on East Front street this evening. The carnival committee will meet tomorrow evening at 8 o'clock at the Board of Trade rooms to settle up accounts and decide on a time when the carnival will be given.

Chas. Woolston, of Fairview avenue, collided with an out-of-town cyclist Monday afternoon, while returning from practice with the football team. His wheel was wrecked and his hand was badly cut.

NEW BUILDING AND LOAN THE CRACKAJACKS HERE

ASSURED STOCK A FEATURE OF THE NEW ORGANIZATION.

John M. Hatfield, President of the New Building and Loan Association, died last night. He was a member of the local board of the New Home Building and Loan Association of New Jersey, which perfected an organization in this city on Thursday evening last, in the office of S. S. Swackhamer, in the Babcock building last evening, with President John M. Hatfield in the chair. The meeting was informal in its nature, and only a few shares were disposed of.

Meers, Flynn and Senger, direct from the home office in Newark, explained at length the plans and scope of the organization. It was decided that the regular meetings of the association should be held on the third Tuesday evening in each month, and until further notice in Lawyer Swackhamer's office.

One of the special advantages offered by the New Home Building and Loan Association, is the provision which is made to the holders of its "assured stock" by guaranteeing the immediate maturity of the shares, in the event of death before the expiration of the time necessary to maturity.

Under the "local" system, if a borrower should secure from the association a loan of \$2,000, and should have paid several years on his loan and should then die, the burden of paying off the balance would naturally fall upon his wife or children, who might not be in a position to discharge the obligation thus imposed upon them and would of necessity be compelled to seek a settlement of their difficulty through the regular courts, at a possible forfeiture of their interests.

Under the plan of the New Home Building and Loan Association, such a loss would be utterly impossible, as the holder of an assured stock certificate would be protected by insurance to the full extent of the maturity value of the shares, from the very minute he receives his certificate or pays his first dollar.

By this system the most perfect and satisfactory results can be realized, and at the same time it is possible to offer to the investing public the advantages of a system which embraces all the merits of a life insurance policy, without sacrificing any of the elements of a high-class investment. An example of the cost is this:

Cost of stock—\$5.00, per share per month. Total number of payments—120 months. Maturity value of stock—\$100.00. Total cost of investment—\$600.00. The new officers are: President, J. M. Hatfield; Secretary, Nelson Runyon; Treasurer, S. S. Swackhamer; Directors, J. H. Hargan, L. L. Manning, N. B. Runyon, T. J. Conner, J. M. Hatfield, S. S. Swackhamer and Dr. Andrew Manning.
