HAD ROUGH VOYAGE

Secretary Foster Returned With a Blackened Eye.

TROWN DOWN ON THE VESSEL

The Trip Abroad, However, Has Greatly Improved His Health.

It is believed that Mr. Denham was not married to the murderer, Williams. It has also come to light that boxes containing bedding, which it is supposed bore evidence of the commission of the crime, were forwarded to Plymouth by Williams.

LIVERPOOL'S MURDER MYSTERY.

Did Williams Kill Wife and Children So He Could Marry Again.

London, March 18.—There is intense excitement at St. Paul over the murders discovered to have been committed in Denham Villa.

The body of the woman found under the fireplace has been identified as that of Mrs. Denham, who formerly resided at Birkenhead by her family.

It is believed that Mrs. Denham was not married to the murderer, Williams. It has also come to light that boxes containing bedding, which it is supposed bore evidence of the commission of the crime, were forwarded to Plymouth by Williams.

HANGED TO A STAKE

Servant-Girl Murderer Schneider Executed in Vienna.

He Was Strangled to Death.

While Suspended in the Air Two Hangmen Pulled at His Legs.

Another Pressed His Arms Around the Neck and Nostrils of the Dying Criminal.

He Went to the Gallows Cringing for Mercy and Struggled Desperately with the Executioners—Strangled for the Murder and Assault of Miss Girtl.

VIENNA, March 18.—Frank Schneider, the murderer of servant girl, was executed here yesterday. The crimes for which Schneider suffered were un- doubtedly in the atrocity, and his trial created a great sensation.

Schneider lived on the proceeds of his wife's misconduct, and on blackmail levied on one of her former lovers.

Above mentioned was the cause of the career of outrage, robbery and murder which has made them infamous.

The business of deceiving and murdering servant girls in order to get possession of the money and clothing the unfortunate had with them. The victims were in- duced to enter into a contract of em- ployment, and it was by promising to find them situations that the prisoners carried out their nefarious work.

These extraordinary crimes created quite as much excitement in Vienna, as the execution of the murderer in London. The girls whom Schneider murdered were never seen after they were hanged with him and his wife until their naked and mutilated bodies were recovered in the woods.

The girl, Johanna Stoiber, was the only one that escaped with her life, and she proved a most valuable witness on the trial, which took place in the latter part of January. She is a short plump looking young woman, with dark eyes.

Schneider, on May 18th, met her in the Renweg, a busy street in Vienna, and asked her to go with him to introduce her to an excellent situa- tion. She consented to do so, and fol- lowed, after luring her into a secluded part of the wood, he criminally assau- led her, and she fled in terror.

He did not allow her to escape from his abominable maltreatment until day- light, when he returned to his home, and fleeing for her life that she was delivered from further violence.

HILL'S SOUTHERN TRIP.

The New York Senator Meets Many Old Friends in Atlanta.

Atlanta, Ga., March 18.—Senator Hill and his party arrived in Atlanta at 8:30 a. m. A committee of prominent citizens met him at the depot and escorted him from the car to the Kinball House, where breakfast had been prepared for the party.

The Senator met with many old friends in the Atlanta Committee and found many more waiting at the hotel to greet him. He was waiting to take him to Savannah.

At Macon the train was transferred to the Georgia Central, reaching Savannah at 3 p. m.

The Senator made no stops and no speeches en route.

POPE LOGS ON HIS TRIP.

The Cottage of the Large Republic Gives the Pope a Good Night's Rest.

Rome, March 18.—Mr. Thomas B. Ryan, commissioner for the Columbian Exposition, and Colonel Bryan left Rome for Paris yesterday.

They returned here two days ago from Greece, Turkey and Roumania.

They arrived in Greece at the time of the crisis. The pope and his family made a partial promise that Greece would participate in the exhibition.

He presented Mr. Ryan with large portraits of himself and the Queen, and two bronze medals of silver and two bronze medals of gold.

Commissioner Ryan yesterday received a letter from the Pope in which he congratulated him and commended the Columbian Exposition. The courage of the Republic and his desire of doing, he says, are a guarantee that the present under- taking will be a great success.

FRENCH ANARCHISTS.

More Explosives Found and Another Arrest Made in Paris.

Paris, March 18.—The police are continuing their raid on suspected Anarchists. Where satisfactory explanations are not given, the arrests of the suspected parties immediately follow.

Explosives have been found in the lodgings of Casan, who is regarded as one of the most dangerous of the dynamic Anarchists. He was at once taken into custody, and search of his lodgings was made, without, however, any new developments, so far as the authorities are willing to admit.

The police have failed, as yet, to disclose the whereabouts of the Chicago Anarchists, and they are inclined to the theory that the Anarchists have fled to some understanding in isolated groups.

EFFORTS TO ESCAPE.

Train Robber Fery Supplied with Money and His Shacks Moved.

Stuyvesant, N. Y., March 18.—Deputy Sheriff Collins searched the cell of train robber Fery in Lyons, and found two new saws secreted in his mattress.

A more astounding discovery was made when Fery's mattress was examined. The hemp cord which the robber had wrapped about the shacks to prevent them chinking, was found to be removed and the iron fell to the floor. They had been cut clean through by some instru- ment duller than the saws, probably the No. 10 case of such a tool could be found.

Fery's clothing was next searched and \$500 in bills was found inside the lining of his waistcoat. The robber has been kept in custody since he was taken, but the vigilance will now be redoubled.

NOVEL METHOD OF RAISING A FUND.

Orengo, Mich., Society Women Black Brought to Aid a Library Association.

Orengo, Mich., March 18.—The leading society women of this city have been engaged in a novel method of raising a fund for the benefit of the Ladies' Library Association.

For several weeks each woman has been trying to outdo her neighbor in the number of books that competitors shall relate their experiences at a public meeting.

Two of the women attired themselves in lustrous garments and stood on the street corners grinding a hand-organ and singing "Glad to Be a Librarian." Other women have been engaged in bookbaking and peddling pop-corns and fruit.

All have neat sums to show for their work.

It is a Public Company.

FLORENCE, March 18.—The Alabama Insurance Co. of Florence, Ala., is the name of a fake company that has been operating in this city. There is no such company in existence and no such office in Florence. It is a public company that has been chartered in this State and no one in Florence knows of its existence except through letters from people that have been "gulled."

MONEY FOR THE NAVY

Secretary Tracy Thinks the Appropriation Too Small.

NOT EQUAL TO THE NEEDS.

At Least \$250,000 Will be Necessary for the Columbus Expedition.

The Appropriation Should Not be De- layed, He Says, as He Considers the Af- fair an Important Preliminary to the Opening of the World's Fair—About Two More Torpedo Boats and a Few Small Gun Boats Needed.

WASHINGTON, March 18.—Secretary Tracy does not regard the naval appro- priation bill as reported by the House Committee on Naval Affairs as being quite equal to the needs of the navy. He says particularly that the appropriation for the naval rendezvous ought to be made this year and to be made to the amount of \$250,000. He does not believe that a smaller sum will be a sufficient guarantee of the success of the meeting.

This gathering of our own vessels and the result of foreign powers at Hampton Roads and afterwards in New York Harbor, he considers an important point in the opening of the world's Fair next year. The money will be needed for the entertainment of foreign guests, bringing our own vessels home for foreign stations, and perfecting the arrangements for a brilliant display of gunboats and the salutes in New York Harbor.

If the proper appropriation is not made until the short session of Congress next year, the Secretary thinks the arrange- ments will be hurried, incomplete and unsatisfactory. The preliminary in- vitations cannot be dispatched in time to permit a representative gathering of foreign navies, and the end of the Secretary does not regard the de- lay in completing ship armor as a valid reason for postponing the appropriation for new armored vessels this year. He says the House Committee has admitted that the armor under existing contracts can be completed in 1894, and it is obvious that the new vessels will be ready for the start of the contract with the Bethlehem Iron works and the Carnegie works are fulfilled. The work will be able to turn out 700 tons of armor per month after July 1. The work will have turned out enough for all the battle ships now in process of construction.

The Secretary would like to see one or two battle ships authorized and espe- cially ten light armored and a fleet of gunboats from 800 to 1,000 tons each. The torpedo boats would not cost more than \$200,000.

BARGAINS

EVERYBODY

C. Schefflin & Co.,

are closing the balance of their stock of

Winter Clothing

consisting of Men's, Boy's and Child- ren's Suits, Overcoats and Pants at re- tal, at the manufacturer's price for

CASH.

If you need anything in this line don't miss the opportunity.

All goods marked in plain figures.

70 WEST FRONT STREET

Next to Peck's

THE PLAINFIELD COURIER.

Published Daily, Except Sundays.

F. W. Baynes, Editor and Proprietor.

No. 1 EAST FRONT STREET, SECOND FLOOR.

Entered at the Post Office as second-class matter.

Delivered by carriers in any part of the city.

Subscription: Five dollars a year, or fifty cents a month.

Advertisements: In Want Column, one cent a word.

THURSDAY, MARCH 17, 1892.

In London there are 80,000 harlots, and they are a very lively and busy lot.

On the Guttenberg racetrack, the other day, Sandstone won the race. That comes of having grit.

This diatry Lord Salisbury should call to mind the saying of the late Mr. Billings: "Procrastination is the bastard of success."

As observing High School boys of a mathematical turn of mind has discovered the geometrical dimensions of a kiss.

Yours Mr. Field is to be placed in a State asylum where he can be under the careful supervision of competent medical men.

On a Tashkent, the capital of Russian Turkestan, they are putting down a street railway.

There is, here and there, an earnest effort to observe the self-incantation incident to Lent.

On a Pennsylvania chicken thief, distributed in his nocturnal occupation, ran away and left a horse and wagon for the owner of the roost.

You can not make bullion by gilding a brick, though the time is engaged in a constant and fruitless effort to do so.

In the little town of English, Ind., three or four preachers are under arrest for taking part in a threatened lynching.

There is a good deal of complaint made about the ambulance sergeants in New York city.

A series of attractive tours—Spring Vacation Trips from New York.

The medal offered by the Pennsylvania Railroad Company's personally-conducted tours for Spring vacation trips cannot be exceeded.

A meeting of the Republican Association has been called for next Tuesday evening in the Association Hall.

There are a good many people who affect to sneer at weather predictions.

It is just as unreasonable to assume that correct predictions are impossible as to expect infallibility in the weather.

The science of weather prediction is in its infancy, and the problems involved are complicated.

There is no more caprice in meteorological variations than there is in the motions of the planets.

There are a good many people who affect to sneer at weather predictions.

Advertisements: In Want Column, one cent a word.

THURSDAY, MARCH 17, 1892.

In London there are 80,000 harlots, and they are a very lively and busy lot.

On the Guttenberg racetrack, the other day, Sandstone won the race. That comes of having grit.

This diatry Lord Salisbury should call to mind the saying of the late Mr. Billings: "Procrastination is the bastard of success."

As observing High School boys of a mathematical turn of mind has discovered the geometrical dimensions of a kiss.

Yours Mr. Field is to be placed in a State asylum where he can be under the careful supervision of competent medical men.

On a Tashkent, the capital of Russian Turkestan, they are putting down a street railway.

There is, here and there, an earnest effort to observe the self-incantation incident to Lent.

On a Pennsylvania chicken thief, distributed in his nocturnal occupation, ran away and left a horse and wagon for the owner of the roost.

You can not make bullion by gilding a brick, though the time is engaged in a constant and fruitless effort to do so.

In the little town of English, Ind., three or four preachers are under arrest for taking part in a threatened lynching.

There is a good deal of complaint made about the ambulance sergeants in New York city.

A series of attractive tours—Spring Vacation Trips from New York.

The medal offered by the Pennsylvania Railroad Company's personally-conducted tours for Spring vacation trips cannot be exceeded.

A meeting of the Republican Association has been called for next Tuesday evening in the Association Hall.

There are a good many people who affect to sneer at weather predictions.

It is just as unreasonable to assume that correct predictions are impossible as to expect infallibility in the weather.

The science of weather prediction is in its infancy, and the problems involved are complicated.

There is no more caprice in meteorological variations than there is in the motions of the planets.

There are a good many people who affect to sneer at weather predictions.
