

DEEMING TO HANG

Convicted and Sentenced to Death at Melbourne.

TUNED WHITE AND TREMBLED.

Said, However, That He Might Oust the Gallows Yet.

As the jury retired to deliberate on the case, the defendant, referring to the woman present in court, said: "When they get out of this I will have the pick of the women of Melbourne."

MEMORANDUM, May 3.—After the summing up for the case in the case of the woman present in court, the jury retired to deliberate on the case.

The court room, already well filled, was crowded to suffocation during the passing of the woman present in court. Many women were present and the jury retired to deliberate on the case.

When I get out of this I will have the pick of the women of Melbourne.

The foreman delivered to the jury the verdict of guilty as charged in the indictment.

He turned white and trembled as the judge turned to him and pronounced upon him the sentence of death.

The judge said that all his eyes were turned to the woman present in court.

As the judge pronounced the words, "I am sentenced to hang," the woman present in court gasped and trembled.

As the judge pronounced the words, "I am sentenced to hang," the woman present in court gasped and trembled.

The audience in the court room applauded the verdict and sentence.

He was then taken back to prison, was searched carefully, and locked in his cell.

He called back to the keeper as the latter started for the prison corridor and with an effort at bravado said: "I suppose you think I am in a tight fix. Well, I promise I am, but I may oust the gallows yet."

TIN IN OUR MOLASSES.

Candies adulterated with glucose, starch and other cheap materials.

WASHINGTON, May 3.—Bulletin No. 19, part 8, on food and food adulterants, has been issued by the Agricultural Department. It contains a list of the investigations made by W. H. Wiley, Chief Chemist, with the collaboration of a number of specialists in various cities, of the composition of fifty samples of low grade sugary, fifty of syrup and molasses, fifty of liquid honey, and twenty-five of cheap confections, candies, etc., in each city.

For Wiley says that the bulletin is one of data rather than deductions, but the letters of the specialists transmitting the results of their labors give some interesting and valuable facts.

H. A. Huston of Purdue University, Ind., says that a majority of honey samples contain tin or some other metal; the best informed honey man that he met stated that genuine strained honey would granulate if left open and exposed to the air for eight days.

Chief manufacturers told Mr. Huston that there are now very few bottles of candy which can make candy without the addition of a certain amount of glucose, about 10 percent in the minimum.

S. P. Sharpless of Boston reported that the addition of tin to the samples of the samples of molasses has failed to detect any injurious adulterants.

Stilp of Philadelphia, chemist, says that of 50 samples of molasses purchased in Philadelphia were pure and the others adulterated with glucose or bleached with sulphate.

Chief manufacturers told Mr. Huston that there are now very few bottles of candy which can make candy without the addition of a certain amount of glucose, about 10 percent in the minimum.

Stilp of Philadelphia, chemist, says that of 50 samples of molasses purchased in Philadelphia were pure and the others adulterated with glucose or bleached with sulphate.

Chief manufacturers told Mr. Huston that there are now very few bottles of candy which can make candy without the addition of a certain amount of glucose, about 10 percent in the minimum.

STORM AND FLOODS

The West Again Visited By a Terrific Cyclone.

GREAT LOSS OF PROPERTY.

Several Lives Known to Have Been Lost and Later Reports Feared.

A Passenger Train Wrecked by a West wind and the Fireman and Two Tramps Killed—Narrow Escape for Church Members—The Town of Creed, Col., in Danger of Being Swept Away—The Main Avenue of the Place Already Under Water.

St. Joseph, Mo., May 3.—A terrible wind and rain swept over St. Joseph, Mo., and the southern tier of Iowa counties Sunday night. The damage to property and loss of life is reported in the vicinity of Fairfax, Mo.

The Great branch of the Burlington Railroad was washed out for a distance of a mile and a half south of Conway, Iowa, and the trains will be run over it for a couple of days. The water at this point rose six inches in an hour.

Below the Place Just in Time.

St. Joseph, Mo., May 3.—It is impossible to leave St. Joseph in the morning, the cyclone in this vicinity, although it is known that one person was killed.

The storm caused a disaster, fatal wreck on the Burlington railroad, near St. Joseph, Mo., and the southern tier of Iowa counties Sunday night. The damage to property and loss of life is reported in the vicinity of Fairfax, Mo.

CONFIDENCE RESTORED.

The Absence of Trouble in Paris Sunday Morning Up the People.

PARIS, May 3.—A feeling of great relief and renewed assurance in the ability of the authorities to cope with the Anarchists and other disturbers has taken possession of the people since May Day passed without any of the completely expected outbreaks.

It is very probable that the extraordinary military and police arrangements kept the disturbers at bay in this city. Women and children were kept terrified through the streets. The churches were full and the strain of apprehension seemed to have relaxed.

In the barracks, at the police stations and in the districts around the public buildings, however, thousands of armed men stood ready to march at a moment's notice and shoot to kill. All day squads of cavalry and mounted police clattered through the streets to the relief of the troops on guard before daybreak, and occasionally the heavy tread of infantry reminded the promenade that both serious and light mischief might be expected against expected dangers.

Italy seems to have suffered more from the agitation of the Anarchists than other countries except Belgium. There whole country seems to have been in a state of alarm.

At St. Petersburg a bomb exploded opposite the Caesars and caused much damage to the building and furniture, but nobody was hurt.

Two bombs were exploded at San Antonio, Texas, but no damage was done, but there was great excitement, and the police were called out.

The result of the Anarchist plot, but rather the work of the proletariat, who were determined to make a demonstration on their own account.

Throughout Germany the display took the form of a May Day festival, which was a check upon any excessive demonstrations of the police and military.

The police and military were not seen during the day, but they were kept ready for any emergency.

The Societe de Leipzig, Munich had made preparations for monster demonstrations which were prevented by the unfavorable weather.

They propose to renew their display next Sunday, but it will be perfectly safe, as it was evident they were intended to be Sunday.

Holland, where no disorder was feared, gave one instance at a late hour Sunday night. At Leiden, in Friesland, several miles from Amsterdam, a day of comparatively good behavior, the night was in the night and morning through the main streets, among the public buildings and houses of prominent citizens.

When the police sought to interfere they were met with determination by the rioters and there was some damage.

The troops had to be finally called upon, whereupon the mob dispersed.

Great surprise was felt at any outbreak in Leiden, but it is a large manufacturing town, and the full expression of whose feelings have been aroused more by the festivities of the day than by any other cause.

It is noticeable that no firearms were used and no one was killed or seriously injured.

In London but one incident of the current of the demonstration was reported after some a sentinel in the Woolwich arsenal discovered a bag containing dynamite.

The bag was found in a room called in a policeman and the bag was removed. No fuse was attached to the dynamite, but a detonator was found at the bottom of the bag.

The plot was, undoubtedly, to destroy the arsenal, and the police had been thereby 17,000 men would have been thrown out of employment. It has been the work of the War Office and the police to find out the plot.

The police, however, although exceedingly vigilant, although they had the dynamite must have been placed by the criminal, and the police had been warned of the danger.

A stranger would have been remarked by the guards. No arrests have yet been made.

At Scotland Yard it is denied that the bag at the door of the Woolwich gun arsenal was filled with dynamite.

The detectives say that the bag contained only gunpowder which was used for the purpose of the demonstration. They do not believe there was a dynamite plot.

A Rich Widow's House Blown Up.

BATON Rouge, May 3.—May Day was quiet here. No attempt was made to hold an Anarchist demonstration.

From Houdeng-Georgies, in Hainaut, says that a bomb was exploded in the streets of the town, but no damage was done.

Rowland's house. The house was damaged badly but nobody was injured.

There was no motive for the attempt upon her life.

Dynamite in a Bottle Church.

SEVILLE, May 3.—Sunday morning a priest upon entering the confessional in a church was found with a bottle of dynamite in his hand.

He extinguished the fuse and took the tube to the confessional, where it was found to be a dynamite.

The man who placed the bomb is believed to be a foreign huckster.

Five Anarchists Arrested at Tucson.

TUCSON, May 3.—Five Anarchists were arrested here for trying to cause disorder. When searched they were found to be armed with revolvers and knives.

At Albany for Mrs. Platt.

BROOKLYN, N. Y., May 3.—In the special term of the City Court Judge Osborne has sentenced a woman to prison for a year for a crime committed in the city of New York.

She was sentenced to prison for a year for a crime committed in the city of New York.

PUBLISHED
DAILY, EXCEPT SUNDAYS.

F. H. HUGHES, Editor and Proprietor.

NO. 1 EAST FRONT STREET,

SECOND FLOOR.

Entered at the Post Office as second-class matter.

DELIVERED BY CARRIERS IN ANY PART OF THE CITY.

Subscriptions, five dollars a year, or fifty cents a month. Single copies, ten cents. Delivered by carriers, ten cents a week.

Advertisements in West Column, one cent a word. For other rates apply to the publisher.

TUESDAY, MAY 3, 1892.

We are assured by Addison Cramack that Jay Gould is a century plant. Mr. Gould blossoms out pretty frequently for a century plant.

The Central Park management have selected a man for superintendent of the menagerie whose name is known wherever the English language is spoken. It is John Smith.

The Bancroft, recently launched at Elizabethport and named after the distinguished historian, is the first man-of-war ever built in New Jersey. It is protection that does it.

Fox, the bohemian whose coat-tails were mortally wounded in the duel with Borrowe, was being adjudged a bankrupt by an English court. Now let Mr. Borrowe show himself magnanimous and buy Fox a new coat.

It is no wonder that David B. Hill is nervous over the political prospect and has a third feeling that London will not alleviate Mayor Grace claims that there are 120,000 signatures to the call for the Cleveland convention to be held this month. That pretensions Hill will soon be a mere hole in the ground.

It is amusing to see the ignorance sometimes displayed by very intelligent people about the Bible. A lady editor of one of the big daily papers was yesterday congratulating her sex that they were not included in Paul's far-reaching accusation that "all men are liars." Let the Bible-reading classes increase and multiply. They have a great work to do.

In a letter written to Ferdinand Ward by his mother, just before his downfall, she said: "I am sure that since all will be an honest, upright man, for you always have the prayers of your mother." There was earnest prayer, no doubt, and there appears to have been the full assurance of faith; yet this man went right on in a career of crime and brought up in a felon's cell.

Whatever may be thought of smoking, it is not a commendable habit to be practiced in bed, especially by ladies. In New York, at a smoking-gone, Annie Roddy was enjoying her nocturnal staidness with her pipe in this way when the bed and her clothing took fire, and by the time the firemen stopped her in her mad career she was badly burned. She ought to be ready to give up the practice now.

That Dr. Parkhurst's work in arousing public sentiment and police action in New York city does not lack appreciation is shown by the fact that he has been invited by a large number of the most prominent men in Washington, members of the Supreme Court, Congressmen and others, to visit the capital city and preach his doctrine concerning the relation of the church to civic conditions and moral reforms. He will give "Washington affords a good field for the work of reform, and if Dr. Parkhurst can introduce the reforming heaven into that wicked city, as he has already done in New York, it will be a blessing to the whole country. Who knows? Perhaps the millennium is on the way.

So many years ago Phineas Gage, while preparing a blast, had the tamping iron driven through his head by a premature discharge. The important passage of the top of his head covered with brains and fell some distance away. The man arose and walked without assistance to the office of a surgeon, and lived for many years afterward. His skill, we believe, is now in the museum of Yale College. A few days ago Robert Campbell, in Australia, while driving home a plow, chanced with an iron ramrod had the rod driven through his brain by the explosion of the charge, and he is now convalescent and there is every indication that he will entirely recover. It does seem as if brains were of no special use to some people, and perhaps we should all be happier if we had none.

When they are sick, we give them Chamberlain's Cough Syrup. When they are a child, we give them Chamberlain's Cough Syrup. When they are a woman, we give them Chamberlain's Cough Syrup. When they are a man, we give them Chamberlain's Cough Syrup. When they are a child, we give them Chamberlain's Cough Syrup. When they are a woman, we give them Chamberlain's Cough Syrup. When they are a man, we give them Chamberlain's Cough Syrup.

FIREMEN SELECT OFFICERS.

The Only Opposition to the Regular Elections Made in the Truck and No. 1 Engine Companies.

The annual election of officers for the various fire companies took place last evening, and resulted as follows:

GAZELLE ENGINE CO., NO. 1.
Foreman—Charles Johnson.
First Assistant—William T. Newman.
Second Assistant—Charles Graves.
Secretary—Theodore A. Soffel.
Assistant—David Dunavan.
Treasurer—Vincent L. Frazer.
Financial Secretary—Frank Putnam.
Engineer—William R. Grannett.
Fire Assistant—John Albert.
Second Assistant—David Dunavan.
Third Assistant—David Bell.
Representatives to Relief Association—Joseph A. Hubbard, Lorenzo J. Spier.

PLAINFIELD ENGINE CO., NO. 2.
Foreman—R. B. Rogers.
First Assistant—Patrick McConnet.
Second Assistant—Harry Connet.
Secretary—Adolph Kahman.
Assistant—Charles W. Smith.
Treasurer—Frank Hand.
Engineer—Frank Smith.
Second Assistant—Charles W. Newman.
Third Assistant—Hiram Voorhees.
Representatives to Relief Association—R. B. Rogers, C. W. Smith.

ZEPHYRUS BOOK AND LADDER CO., NO. 1.
Foreman—E. I. Vroom.
First Assistant—George Ball.
Second Assistant—George Mehl, Jr.
Recording Secretary—Joseph G. Blinn.
Financial Secretary—Samuel L. Miller.
Treasurer—Jacob Blinn.
Auditing Committee—Ed. Wolf, B. Fine, M. Seader.

ALERT HOSE CO., NO. 1.
Foreman—J. L. Moore.
First Assistant—C. G. Burnett.
Second Assistant—C. F. Leggett.
Secretary—H. M. Demarest.
Treasurer—R. F. Murray.
Auditing Committee—J. W. Davis, W. H. Lyon, Jr., R. E. Murray.

NARROW ESCAPE OF INMATE.

Big Tenement House Fire in New York's Second Emergency Origin.

New York, May 3.—An early morning fire, which is supposed to have been of incendiary origin, occurred in the five-story tenement house No. 221 East 144th street.

All of the inmates were got out in safety by means of the fire escape, many of them, however, with great difficulty and only in their night clothes. The total loss is about \$5,000.

Fire Marshal Mitchell will investigate the origin of the fire.

THE REPORT A YAK.

No Uprising of Negroes in Williams County, Tenn.

NASHVILLE, Tenn., May 3.—The reported uprising of negroes in Williams County is a fake, pure and simple, without any foundation whatever.

The report that a mob of Nashville negroes will go to Goodlettsville to avenge Grissell's lynching also originated in some imaginative correspondence's brain. The belief that negroes intend Saturday's hanging.

Depraved Criminal Killed.

CHICAGO, May 3.—Joseph Lemons, a notorious criminal, was killed yesterday in a desperate fight with officers.

Lemons, placed in handcuffs and struggling with Detective Howard, who was unarmed, when Policeman Rafferty, who was armed, shot at Lemons, killing him.

The Governor has notified the commander at Fort Ransom.

Postal Clerk Robbers Placed Out.

THRENTON, N. J., May 3.—Postal Clerk Somborn, of Jersey City, has pleaded guilty to the charge of robbing the mails.

NEWS OF THE DAY.

Two cases of smallpox were reported in New York yesterday. They were taken to North Brother Island.

A. C. Rodriguez & Co., wholesale and retail cigar dealers, Beekman street, New York, have assigned without preference.

The bill to place binding twine on the free list has passed the House by a vote of 188 to 47 under a suspension of the rules.

Two earthquake shocks were felt in Concord, N. H., Sunday, one about half past eight, the other an hour later. One shock was felt at Ogdensburg.

The Illinois made a raid on Boston Chinatown yesterday and seized about forty-five fan-tan gamblers. They were all jailed.

The sheriff has seized the goods of Julius Sawalsky, artificial flower dealer, New York, under a consensual judgment of \$1,225.47.

Charles Hubner and John Krier, aged respectively 35 and 7 years, were killed by a light train west of Duluth, Minn., Sunday.

The body of Louis Schuch, sheriff of Brown county, Minn., has been found in the Minnesota river. He has been dead several days.

The plumbers and steam-fitters and their assistants at Concord, N. H., are on strike, because the bosses refuse to concede their demand that nine hours constitute a day's work.

Frederick Harrison has issued his proclamation announcing the establishment under the provisions of section 8 of the McKinley tariff of reciprocal trade relations with Honduras.

About 800 members of the United English and German Carpenters' Union, New York, have come on strike because the bosses refused to sign the usual year's agreement for a rate of pay per hour.

Frank Broggi's fruit and confectionery store, Becker's fish market, Dr. Kempton's office, Tabor's restaurant, Smith's photograph gallery and Kempton's stable at Sanford, Me., have been totally destroyed by a fire, loss \$50,000, insurance \$4,000. The fire started in Broggi's store. The cause is unknown.

WHAT WOMEN SMILE AT.

"By Jove!" ejaculated Smithers, on his return from the country; "I'm another man."

"Then don't come near me," returned Mrs. Smithers; "the old man may get to like you."

"Do you and Miss Ransom still play duets?"

"Always; we gave them up. Our hands always got so mixed up that her mother objected."

"You ask for my daughter's hand, eh?" said the banker.

"Yes," returned Magdalen.

"Do you think you can keep it glued in the style to which it is accustomed?"

"Yes, sir," returned Magdalen.

"Do you think you can keep it glued in the style to which it is accustomed?"

"Yes, sir," returned Magdalen.

"Do you think you can keep it glued in the style to which it is accustomed?"

"Yes, sir," returned Magdalen.
