word. For other rates apply at the publication
office.

FRIDAY, SEPTEMBER 2, 1892.

OUR CANDIDATES.

FOR PRESIDENT,
BENJAMIN HARRISON,
OF Indiana.

FOR VICE-PRESIDENT,
WHITELAW REID,
OF New York.

Tariff Pictures.
According to the British Board of
Trade, a government body, the average
wages paid in British woolen factories
are about \$292

a year. The average yearly earnings in
New York State, according to returns
made to Labor Commissioner
Peck by manufacturers in reply to circulars
(the method adopted also by the
British Board of Trade), were \$256.93
in 1891.

The intelligent chivalry of Mississippi
have fixed up a constitutional requirement
that makes it possible to disfranchise
black people while allowing illiterate
whites to vote. But what if there
should come a time when a division of
opinion arises among the chivalry and
each sides needs the votes of the "dam-
ned" in order to win. An embar-
rassment might arise as to how the
thing could be settled. For instance,
Jones, the nominee of the regular Dem-
ocracy, could not have been elected in
Alabama the other day with such a re-
quirement in force as that in the Mis-
sissippi constitution—because the colored
people whose votes elected him
could not have voted.

The state of affairs in Tennessee
speaks about as loudly in condemnation
of the Democratic administration of the
State government as a whole volume of
campaign documents could be made to
do.

BOERKE COCHRAN'S great speech in
the Chicago convention, telling why
Cleveland could not be elected, is not
being distributed as a Democratic cam-
paign document.

The fusion of Democrats with the
People's party in various Western
States will serve to open the eyes of
Republican farmers to just what the
People's party is.

The Watch-Dog of the Treasury from
Aurora, Ind., must see blood on the
moon from the manner in which he has
stuck his tail between his legs and
howls.

THE foreign producers and importers
will not stint the Democratic campaign
managers in the matter of funds.

MILLIONS OF BOOKS.

The Good Work which the Chautauque Lit-
erary Circle is Doing.

Rev. Dr. J. L. Hurst, of this city, has
this to say of the Chautauque Lit-
erary movement: "The Chautauque
Circle has aided in the circulation of
good books. If the man who makes
two blades of grass grow where one
grew before is a benefactor of his
world, what shall we say of him who is
able to put one good book in the hand
of a reader? The Chautauque Circle
has circulated something like an aver-
age of 30,000 sets of books every year,
or near that amount—and sometimes
indeed, more and in some years per-
haps a little less—but that number would
be the average figure. In four-
teen years 30,000 sets would be 180,000
volumes per annum, and would come
to nearly two million copies of good
books circulated under the auspices of
the Chautauque Circle. It is something
to have put one good book into the
hand of a reader. It is more to have
put two million good books into the
hands of the people; and that is some-
thing which nobody can gainsay the
Chautauque Circle has accomplished."

—The coachman for G. H. Burgess,
of Central avenue, while exercising the
horses on North avenue, yesterday af-
ternoon, attempted to turn around in
front of Hoagland's express office.
Something went wrong, and before he
knew what he was about, the carriage
pole broke. The horses were unblinded,
and the carriage taken away for repairs.

CHOLERA DONT.

It is a Good Idea to Cut This Out For
Future Reference.—It May Come Handy,
But We Hope It Will Not.

The following circular, which has
been issued by the Board of Health
of New York City, contains much val-
uable advice regarding against the
spread of cholera.

"Heavily poisoned 'catch' cholera by
taking into their systems through the mouth,
as in their food or drink, or from their hands,
knives, forks, plates, tumblers, clothing,
etc., the germs of the disease which are
always present in the discharges from the
mouth and bowels of those sick with
cholera.

Thorough cooking destroys the cholera
germs; therefore:

Don't eat raw, uncooked articles of any
kind, nor eat milk.

Don't eat or drink to excess. Use plain,
wholesome, digestible food, as indig-
estion and diarrhea favor an attack
of cholera.

Don't drink unboiled water.

Don't eat or drink articles unless they have
been thoroughly and recently cooked
or boiled, and the more recent and
hotter they are, the safer.

Don't employ stomachs in eating or drinking
unless they have been recently put in
boiling water; the more recent the
safer.

Don't eat or handle food or drink with un-
washed hands, or receive it from the
hands of others.

Don't use the hands for any purpose when
soiled with cholera discharges; thor-
oughly clean them at once.

Personal cleanliness, and cleanliness of the
room and sleeping room, and their contents,
and thorough ventilation, should be rigidly
enforced. Food-wastecells, sinks, croton
faucets, cellars, etc., should be referred to
the Health Board at once, and remedied.

The successful treatment and the preven-
tion of the spread of this disease demand
that its early manifestations be promptly
recognized and treated; therefore:

Don't doctor yourself for bowel complaint,
but go to bed and send for the nearest
physician at once. Send for your fam-
ily physician; send to a dispensary
or hospital; send to the Health
Department; send to the nearest
police station for medical aid.

Don't wait, but send at once.

If taken ill in the street, seek the
nearest drug store, dispensary, hos-
pital or police station, and demand
prompt medical attention."

THE PRESIDENT'S PROMPT ACTION.

All Vessels from Europe Carrying Immigrants
to be Quarantined for Twenty Days—Prac-
tically Cutting Off Immigrants Until All
Dangers of Cholera is Past.

President Harrison has met the grave
situation presented by the menace of the
cholera invasion with promptness, de-
cision, and judgment. He has directed
the issue of a circular giving warning
that henceforth and until all danger is
past all vessels sailing from any port of
Europe for this country and carrying
immigrants shall be quarantined for
twenty days.

This is equivalent to a prohibition of
immigration, and accomplishes the same
result in a much more expeditious way.
No steamship company will subject it-
self to such a restriction. The cost of
maintaining its passengers for twenty
days beyond the ordinary time of voyage
is an effective barrier. From the mo-
ment when this proclamation becomes
known the dispatch of steamers with
immigrants for the United States will
cease. From this hour, so far as it
can be done by cutting off the inter-
course which involves most danger of
propagating the dread disease, we shall
place the broad sweep of the Atlantic
between our shore and the domain of
the cholera.

Good Republicanism Will be Heard By All.

The principal objection to holding
political meetings in the Crescent
Ring has been the inability of the au-
dience to hear the voice of the speaker
at a distance from the stage. This dis-
fect is to be remedied. A fan-shaped
sounding board is to be constructed,
back of the speaker's stage, made of
very thin boards, which will enable the
voice of the orators to be distinctly
heard in every part of the hall.

The North Plainfield Republican Primary.

The Republican voters of North
Plainfield will hold a primary meeting
for the election of delegates to the State
Convention, on Friday evening,
September 3, at eight o'clock, in the
basement of the school house.

Building in the Borough.

W. A. Coddington, the popular and
successful lawyer, has begun the erec-
tion of three houses, on Race street,
near Somerset street. The work is in
the hands of Brokaw & Cain.

The Best Medicine in the World.

My friend and son, afflicted with liver in-
flammation, says: "I was cured by Dr. Dux's
Liver and Kidney Pills."

Have you ever been subject to salt rheum,
eczema, pruritis, eczema, piles, or running
sores? If you have any of these complaints,
we guarantee you will find relief if you
try Dr. Dux's Arabian Blood Tonic. It
purifies the blood and drives out every
evil. Dr. Dux's Arabian Blood Tonic cures
consumption and all deep-seated diseases.

When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria.
When she became a Woman, she clung to Castoria.
When she had Children, she gave them Castoria.

The Jersey Central Officials are Vigilant.

The Liberty street station of the
New Jersey Central Railway in New
York was visited by the officials of the
New York Health Board yesterday,
and the disinfecting methods in vogue
there were found to be thorough. Cap-
tain F. F. Gregory, the station-master,
said that every conceivable lodgment
for disease was disinfected daily, and
that the bath-room could easily be con-
verted into an isolation chamber at
short notice. He also said that no
extra work was being done, that which
is usually done being most thorough.

Preparing to Warble.

The Republican Glee Club held a
meeting last evening at the rooms of
the Association, and songs from the
campaign glee books were tried. Leader
MacClymont selected a double quartette
from those present and gave them a
thorough drill. They will have a special
rehearsal, to-morrow evening, to get
in shape for the banner raising on
Tuesday evening of next week.

Plainfield Men Always on Deck.

Messrs. Hand & Runyon, capitalists
of Plainfield, have purchased eighteen
lots on the south side of the Central
Railroad, opposite the depot, at Lor-
raine, and will commence the erection
of a number of fine houses at once.—
Elizabeth Journal.

Self Praise.

Self praise is no recommendation,
but there are times when one must
permit a person to tell the truth about
himself. When what he says is sup-
ported by the testimony of others no
reasonable man will doubt his word.

Now, for what ALCOCK'S PAIN-
EXPELLER are the only genuine and re-
liable porous plasters made is not self
praise in the slightest degree. They
have stood the test for over thirty
years, and in proof of their merits it is
only necessary to call attention to the
curious they have effected and to the vol-
untary testimonials of those who have
used them.

Be wary of imitations, and do not be
deceived by misrepresentation. Ask
for ALCOCK'S, and let no solicitation
or explanation induce you to accept a
substitute.

A Remarkable Medicine.

Dr. S. D. How's cure with his Arabian
Blood Tonic cures blood diseases, and
afflicted with dyspepsia, liver complaint
and kidney diseases, and all diseases
connected with the blood. With the
Arabian Blood Tonic—thirty thousand cures
of consumption. Dr. How was a Bellevue
College graduate and practiced all over the
United States. Try a medicine that cures.
Sold by every druggist in Plainfield.

Shortcuts.

To waste your money on vile, dirty, watery
mixtures, compounded by inexperienced per-
sons, when you have the opportunity of try-
ing OTC's Cure free of charge. Why will you
continue to irritate your throat and lungs
with the thickest hacking cough when L. W.
Masthead will furnish you a free sample
bottle of this great guaranteed remedy? Hold
a bottle of OTC's Cure to the light and observe
its beautiful golden color and thick, heavy
cream. Largest packages and purest goods,
Large bottle 50c.
