What it Costs Every Year to Have a Priest.

It is not generally known that the White House, in connection with the President, costs the country considerably over \$125,000 a year.

There is also a salary of \$25,000 a year which the President gets as his salary in all that he receives. They are mistaken.

Read his salary of \$25,000, \$25,000 is given him to pay the salaries of his subordinates and clerks. His private secretary is paid \$3,250, his assistant private secretary \$2,500, his stenographer \$1,800, five messengers, each \$1,200, a steward \$1,800, two door-keepers, each \$1,200, four other clerks at good salaries, one telegraph operator, two ushers, \$1,200 and \$1,400, a night usher, \$1,200, a watchman \$900, and a man who takes care of the fires who receives \$500 a year.

In addition to all this, he gets \$8,000 more which is used to pay for stationery, carpets and the care of the Presidential stables. And this is not all.

Nearly \$40,000 more is given him, of which sum, \$12,500 is spent for repairs and refurbishing the White House. \$2,500 is for fuel, \$4,000 for the green house and over \$15,000 goes for gas, matches and the stables. It takes considerable money, it will be seen, to conduct the affairs of the Presidential residence in a style commensurate with the dignity of the position.

Every Republican Must Vote.

There is some danger that Republicans of the Second and Third Wards may not turn out to vote in as large numbers as is in every way to be expected.

This will prove a sad mistake. It makes no difference that they have a practical walk-over in those two wards if \$25 would have an adequate representation in the next city convention they must make their vote as heavy as it has always been.

If the vote of the Second and Third Wards is not as heavy as it has always been, the representation will be decreased in proportion and the First and Fourth Wards will be able to outvote them in the convention. Every Republican in these wards should therefore vote.

At the Head of the Procession.

The Pennsylvania Railroad Company is making extensive improvements in its system between New York and Chicago, in order to be ready for the increased volume of business which will be thrown upon it by the world's fair traffic and travel.

At a very large expense additional tracks will be laid, bridges will be repaired and strengthened, the equipment of the road be increased and everything possible will be done to keep this great railroad at the head of the procession.

FAWNOOD LOSES AGAIN.

The Bowlers of quality Hill Bally Defeated by the Park Club Team.

The third game in the bowling series between the Fanwood and Park Club bowling teams was rolled last night on the alleys in the Fanwood Club house.

Few men on each team bowled first and when that half of the game was over the Park Club bowlers had a surplus of pins to their credit. This fact encouraged the remaining five men that they bowled much better than their rivals and 75 points were added to the aggregate score winning the game by 156 pins.

The match now stands Park Club two games, Fanwood Club one game.

Re-Interests With the Farmers.

The rain which fell yesterday was a detriment to some of the farmers, who have not yet all their corn stalks housed.

At the neighborhood of New Brooklyn and Piscataway there are many shocks of loaded corn yet standing in the fields. To a certain extent the rain was much needed, and has done much good in filling up wells and cisterns.

A team of mules, owned by a Washington Valley farmer, ran away on West Front street yesterday afternoon. The team got frightened at a street car. They ran nearly to Madison avenue before being captured.
