The New Orleans Grand Jury
Makes a Report.

THE MAFIA DEFTED THE LAW.

An Uprising of the Citizens Necessary
Under the Circumstances.

New Orleans a Refuge for Italian Brigands
and Cutthroats—Detective O'Malley and
His Associates Held—Three of the Hen-
nessy Jurors Were Bribed—Approved
by the Press of the Crescent City.

New Orleans, May 6.—The grand jury,
who for several weeks have been probing
the incident of March 14 last, when a mob
of citizens of that town shot and hanged
several Italians in the Parish prison, have
presented their report to the Criminal
Court here.

It is a document that has excited some
interest and concern, which it was be-
lieved there would be but one outcome.
It reviews the Hennessy case with elab-
oration and exactness, and analyzes fully
the causes leading to the remarkable ver-
dict of March 18.

The grand jury present indictments
against six persons, chief of whom is
Dominic C. O'Malley, who in person is
directly charged with what the grand jury
termed the mistrial and unwarranted
verdict in the Hennessy case. He and
his associates are held for the alleged
bribery of the jury.

On the all-important and absorbing
question of the Italian secret society di-
rectly charged with the assassination of
Chief Hennessy, the report is direct,
forcible and not to be misunderstood.
New Orleans, it says, has been a refuge
for Italian brigands and cutthroats,
banded together in a society whose teach-
ings are contrary to the principles of the
government.

Law must regulate these transgressors;
but where the law cannot do it, through
the intervention of these secret societies,
then the people must exercise their sov-
ereign rights and "issue their decree of
condemnation."

Thus the action of the band of New Or-
leans citizens who marched into the parish
prison is justified.

The Mafia, it is declared, must be de-
stroyed.

The grand jury furthermore reports
that they have discovered that three of
the Hennessy jurors, if not more, were
bribed.

Nothing in the presentment gives
greater satisfaction to the citizens here
than the denunciation of "La Mafia."

When the grand jury's report was
public, on the sides were heard expres-
sions of approval. It was a forgone
conclusion that there would be no indict-
ments for the massacre in the prison.

It was anticipated that the Mafia would
be denounced, but it was not expected
that such vigorous language would be
used in the formal document to go on
the court record.

The press with practical unanimity ap-
proves it, and says that any other finding
would have made the law ridiculous.

It would then have been necessary to in-
dicted 10,000 or more people. It would
have been impossible to have tried them,
and then impossible to have given them
their trial, and the result would have been
to make the law a farce.

ing. There were present Senators Hoar, Gray,
Delph and Hale. Evidence was taken

and marine insurance interests. The gen-
eral opinion of those testifying was that
free intercourse of trade between the two
countries would be beneficial to the peo-
ple on both sides of the border.

ious Sums and Grace Church at Provi-
dence is Made the Residuary Legatee—
Denver's Grand Jury Investigating the
Case—The Autopsy Criticized.

PROVIDENCE, R. I., May 6.—The last
will of Mrs. Josephine A. Barnaby has
been offered for probate. It is dated
January 8, 1890, and witnessed by Flo-
rence W. Worrell and David P. Rose.
Several minor bequests of real estate to
relatives and friends are made, after
which the provisions of the will are as
follows:

Ten thousand dollars to John Post Bay-
nards, cousin of the testatrix; \$10,000 to
Mr. and Mrs. Robert of Blue Mountain,
N. Y.; \$1,000 each to Ann Earle, Mrs.
Samuel Arnold, Thomas Cole and Mrs.
Carrigan; \$5,000 to her granddaughter,
Florence Conrad; \$3,000 to her grandson,
J. B. Conrad; \$10,000 in trust to Edward
J. Worrell of Chester, Pa., then to be paid
to such persons as Worrell may appoint,
\$5,000 to her daughter, Mable Con-
rad; \$5,000 to her daughter, Maud Barn-
aby; \$25,000 to Dr. Thatcher Graves, M. D.
After providing for memorial windows in
Grace Protestant Episcopal Church of
Providence, I have been given my last
father and mother, the residue of the es-
tate is bequeathed to Grace Church. Dr.
Graves is named as sole executor.

It is impossible as yet to say whether
this will is to be admitted.

THE AUTOPSY CRITICIZED.

Much of the Evidence to Prove Poisoning
Has Been Removed.

DENVER, Col., May 6.—Prof. Hadden,
who is analyzing the viscera of the late
Josephine A. Barnaby, called upon Dis-
trict-Attorney Stevens during the morn-
ing and made the following statement:

"I received for analysis for arsenic only
the following portions of viscera: A
piece of the liver weighing less than
three and a half ounces, the stomach,
empty; one kidney, the gall bladder, and
very minute pieces of brain. The amount
of arsenic I have been given might make
it very difficult to detect arsenic under
the conditions which surround this case.

"It is unfortunate that I feel called
upon to say that the contents of the
stomach were not preserved. The kidney
which I received was cut open during the
post mortem. This was entirely proper,
but the contents of the stomach were not
examined to see whether they were in-
flamed or corroded. The liver should
certainly all have been given to me for
investigation."

The grand jury has commenced its in-
vestigations on the cause of Mrs. Barnaby's
death. It will have a difficult task before
it, since all the necessary evidence has
been removed.

District-Attorney Stevens avers that
the prosecution will leave no stone un-
turned, and will pursue the case to the
best of his ability. He says that on the
evidence to be presented to the grand
jury indictments will be brought against
parties least suspected of being in any
way implicated in the affair.

THE COLD WEATHER.

Great Damage to the Fruit Crop Re-
sulting from Frost.

ROCHESTER, N. Y., May 6.—There was
a heavy frost last night and the tempera-
ture went down to 30 degrees. Accord-
ing to reports from fruit growers and
market gardeners from the surrounding
country the fruit and vegetable crops were
badly damaged. The frost was so severe
in Irondequoit that it formed ice in places
a quarter of an inch thick. Potatoes,
beans, beets and peas will suffer consi-
derably. Some of the farmers claim that
the apple crop was more or less injured,
as well as peaches, cherries, plums and
pears.

GOV. BOYD OOSTED

Nebraska's Supreme Court Re-
moves Him from Office.

HE IS DECLARED AN ALIEN.

Ex-Governor Thayer is Now the State's
Executive.

The Lieutenant-Governor Will Con-
test Thayer's Right to the Office—Great
Confusion on Account of the Illegality
of All of Boyd's Acts—Admins Mixed Up
to an Embarrassing Extent.

OMAHA, Neb., May 6.—After five
hours session in chambers the Supreme
Court at Lincoln rendered a decision
ousting Gov. Boyd and declaring ex-Gov.
Thayer entitled to the seat.

The opinion, written by Justice Norval
and concurred in by Justice Cobb, grants
a writ of *certiorari* against Governor Boyd
and finds that Mr. Thayer is entitled to
the office. Governor Thayer took the
oath and filed the bond, and Mr. Boyd
lost his office before he had taken the
oath.

The decision of the court is based on
the ground that Mr. Boyd was not a citi-
zen of the State at the time of his elec-
tion. He came from Ireland with his
father, but his father had neglected to
take out his second naturalization pa-
per.

Judge Maxwell, in his dissenting op-
inion, holds that Mr. Boyd, being a citizen
of the Territory when it became a State,
became a citizen of the United States by
virtue of the Enabling Act.

Will Appeal the Case.

Mr. Boyd will carry the case to the Su-
preme Court of the United States.

The decision of the court and the re-
sumption of the office of Governor by Mr.
Thayer closes temporarily at least, the
most sensational contest over the
Governorship, in which the people of Ne-
braska have participated. Mr. Boyd was
the Democratic candidate for Governor
last fall, being opposed by nominees of
the Republican and Farmers' Alliance
parties. Mr. Boyd received a plurality of
the votes, but was kept out of the office
for a time because the Farmers' Alliance
men in the Legislature declined to can-
vass the returns.

There is Great Confusion.

As Mr. Boyd approved numerous acts
of the Legislature, among which are
a bill appropriating \$150,000 for drouth
sufferers, \$30,000 for the World's Fair,
and the vetoing of the celebrated *Ex-
tinction* bill, the confusion is great.

His acts in these questions have been re-
called and the greatest uneasiness pre-
vails in railroad and commercial circles.
Nothing has occurred in the State's his-
tory to mislead up to such an embar-
rassing extent.

The confusion is greater in view of the
fact that several other State officials have
neglected their citizenship papers, sup-
porting their military service by their
citizenship. Tom Majors, the Lieuten-
ant-Governor, has filed a suit to con-
test Thayer's right to the office on the
theory that the Governor's mantle falls
on the next ranking officer of the State.

Gov. Boyd had numerous appoint-
ments, which are now void. Chaos
reigns supreme in Nebraska at present.

A PALACE OF MUSIC.

Secretary Blaine attends the Opening of
Carnegie's New Music Hall.

NEW YORK, May 6.—The musical festi-
val in celebration of the opening of Music
Hall, Carnegie's new palace of
music began last night in the main hall
of the magnificent structure at the corner
of Seventh avenue and 57th street. The
grand foyer was ablaze with electric
lights. Pinafore and tropical plants were
placed at the entrance. Long before the
hour for opening every seat was full, and
the aisles were crowded. The audience
was composed of the best people of the
city. Secretary of State Blaine and his
wife, with Mrs. Walter Damrosch, occu-
pied a box next to Mr. and Mrs. Carnegie.
The exercises opened with the singing of
"Old Hundred." Nearly 500 voices were
in the chorus.

The Kaiser Alone is Master.

BERLIN, May 6.—The Kaiser, speaking
at Dusseldorf at a banquet, said he was
anxious for peace, and would protect the
right of labor; but he added, "I am
alone master in this country—no one else."
He also said that he was satisfied
with the conclusion of the commercial
treaty with Austria. His remarks were
supposed to be directed at Bismarck.

Demand Lower Prices for Bread.

ROME, May 6.—A serious riot occurred
in Parma yesterday owing to the rise in
the price of bread. The women in the city
demanded lower prices, and marched to
the Town Hall where they demanded from
the officials that the latter secure a re-
duction in price. Before the crowd could
be dispersed it was found necessary to
place a number of persons under arrest.

American Cotton Blamed.

LONDON, May 6.—At the inquiry into
the loss of the *Thamesmore*, the owner,
Johnston, expressed the opinion that the
vessel was burned at sea
owing to the bad packing of American
cotton, the cargo of which he considered
very risky, notwithstanding American
promises of better packing.

Contingents to the Field.

LONDON, May 6.—In Sheffield the in-
fluenza epidemic continues unabated.
Nottingham has also been attacked by
the disease, and numerous deaths are
reported. The Government "Whip" Mr.
Sidney Herbert, is ill with the malady.

Murdered Remains at the Soldiers.

VERONA, May 6.—The women of Bekos
were at the forefront of those demand-
ing the release of the riot prisoners.
The police opened fire at once on the
soldiers and banded their breasts, cry-
ing "Cut us down with your bayonets! We
will not move without our brethren!"

Workmen Seize Bell Firm.

NEWARK, N. J., May 6.—The carpenters
are still on strike here. The houses re-
main still, and refuse to comply with the
demand for 12c per day.

VERNEY PLEADS GUILTY.

The Member of Parliament Will be Sen-
tenced to Prison.

LONDON, May 6.—Capt. Verney, liberal
member of Parliament for Bucks, pleaded
guilty to-day to three minor charges in
order to escape a heavy penalty involved in
his more serious charges. The court will
sentence him to a term of imprisonment,
probably without hard labor, and disqualify
the rest of the charges.

This is done with the consent of the
authorities, who feel that in the case of
Col. Baker, who assaulted a young
woman in a railway train many years
ago, any conviction of the kind is a terrible
punishment for a man in Capt. Ver-
ney's position, and will end his career in
England.

There is, however, a strong public sen-
timent that no punishment is too severe
for Verney. He has probably raised
scores of innocent young women by al-
luring them with the hope of obtaining
respectable employment. But for the
fortitude and resolute courage of Miss
Nellie Baker, who had been selected as
one of his victims by a French pressman,
named S. J. Verney, he could yet be
pursuing his wicked career.

Lord James Douglas Suicide.

LONDON, May 6.—Lord Douglas, brother
of the Marquis of Queensberry, has com-
mitted suicide. While traveling from
Ireland to this city Lord Douglas was ob-
served to be acting strangely. The rail-
way officials thereupon ordered a man to
accompany him to London. On arriving
at a hotel in this city the unfortunate
nobleman succeeded in eluding the vigi-
lance of his attendant. Later the body
of the suicide was found. He had cut
his throat with a razor.

Dynamite Explosion.

LIVERPOOL, May 6.—A terrific explosion
took place here in front of the residence
of a well known capitalist. It is said to
be the work of a dynamite cartridge of
the labor party. A dynamite cartridge was
placed on the doorstep. The doors and
windows opening upon the street, with
many other windows, were shattered.
The explosion caused a great panic in the
neighborhood, the most dramatic quarter
of this city.

NEWS OF THE DAY.

The grip is raging in the City of Mexico.
Two other companies were obliged to sus-
pend on that account.

The timber surrounding Halifax, N. S.,
is burning in at least a dozen different
places. Great damage will undoubtedly
ensue.

Fire believed to be of incendiary
origin, destroyed the stable of Mrs. A.
Decker, in Elizabeth N. J., and two valua-
ble horses were burned to death.

The stock of the Star Clothing Com-
pany at Worcester, Mass., was badly
damaged by fire during the night. The
building was destroyed,

BUILDING THE NEW GRACE CHURCH.

The corner-stone Substantially Laid by Bishop Scarborough.

The spectacle of the Bishop of the Diocese wielding mason's implements drew a large number of the Grace church people and their friends to the lot at the corner of West Seventh and Byemore streets, yesterday afternoon. The foundation walls of the handsome new edifice which the Grace Episcopalians are building were already well under way, and all was prepared for the laying of the corner-stone.

At a few minutes past five o'clock the Sunday-school classes, with banners flying, the surplined boy choir, and the

GRACE CHURCH PLAINFIELD, N.J.

whose design for the Cathedral of St. John the Divine, New York, is the favored one. While the style of the church recommended is very beautiful in its design, it is of economical construction. The style is Gothic. The ground plan consists of chapel, nave, side aisles, with shallow transepts, narthex, organ room, vestry and robing room. Side aisles serve for passage-ways only, none of the congregation being seated behind pillars or other obstructions. This enables the pillars to be erected of a substantial design and size, giving the interior a dignified effect. The transepts are introduced to give variety and picturesqueness to the design and so as to enlarge the seating capacity near to the pulpit. The masonry work of the interior is of plaster, ornate

ment with mouldings and carved capitals. The windows at the west end in the transepts and chancel are large tracery windows, while those in the nave aisles are comparatively small and simple. The clerestory gives a double window to each bay division of the nave. The roof has open timber work of pointed arch form, all finished in wood and stained. The roof rests directly upon the pillars of the nave, which have no arches. This arrangement enables the clerestory to be used in a height which would not permit of it otherwise, with much more effect than is usually obtained, and at a moderate cost.

Externally the building will be of New Jersey gray stone, rough dressed, with bold, pointed arches and water tables, and the trimmings will be of cut stone of fine quality. The handsome square tower designed for the front, and which will occupy a considerable space, will rise in noble proportions and terminate in battlements. The whole effect of the building as viewed from the front, will be massive and dignified.

The ground floor of the church will cover a space 135 feet long and 50 feet wide. Its seating capacity will be 750. Wealthy members of the congregation are planning for handsome memorial windows.

At the laying of the corner-stone the local clergyman evidenced by their presence their good-will and fellowship towards the parish and their pleasure in its prosperity. Among those who expressed to Dr. Rodman the congratulations of the day were the Rev. Dr. J. Yerkes, the Rev. Dr. K. P. Ketcham, the Rev. Dr. A. H. Lewis, the Rev. W. E. Richards, the Rev. C. B. Mitchell, the Rev. Cornelius Schenck, the Rev. A. R. Dilts, the Rev. C. L. Goodrich, the Rev. Edward Love, the Rev. Dr. J. P. Taylor and the Rev. T. Logan Murphy.

Following the Bishop's talk was a sermon by Archbishop Mackay-Smith of New York city. At its close the Bishop pronounced the benediction, and the choir, singing a recessional.

The design for the new Grace building, which is faithfully pictured in THE PRESS to-day, is the work of architect R. W. Gibson, who is well known as the designer of the Cathedral in Albany, and

Washingtonville.

Archibald Coddington, an old and respected resident, was taken, some time ago, with the grip, to which he is slowly succumbing. He has taken no solid nourishment for nearly two weeks. But little hope is held out for his recovery.

Mrs. Henry Burnett is again confined to her room by a serious indisposition. Her recovery is doubtful.

Theodore Zeller has sold his father's estate to a Mr. Winer, who has had enough of Wisconsin farming and has returned to the East again. He says New Jersey is good enough for him. The price paid for the farm was \$2,500.

Episcopal Clergy Meet.

A large gathering of clergy and laity assembled at Grace church, yesterday, and opened the 107th annual convention of the Episcopal church of the Diocese of New Jersey.

The proceedings were opened by a celebration of the Holy Communion, the Rt. Rev. John Scarborough, D. D., celebrant, assisted by Rural Dean Barker of Princeton, and Dr. E. M. Rodman.

After the service the convention organized for business, the Bishop reading his annual address, giving an interesting account of the progress of the church in his diocese, especially as a missionary body. The usual routine business was gone through, when the convention adjourned for luncheon, which was furnished by the ladies of the parish in magnificent style, in the parlors of the Crescent Avenue Presbyterian church.

After the luncheon the afternoon business session was held, and the foundation of the new Grace church was laid, all the clergy being present, together with the surplined choir of Grace church and the Church of the Holy Cross, who sang at the morning service.

The Rev. R. G. Moses, rector of Grace church at Merchantville, N. J., preached a sermon to the convention.

This morning Early Celebration was held at 7:30, and morning prayer at 9. After further routine business luncheon was served.

To-morrow, Ascension Day, there will be Early Celebration held at 7:30, and morning prayer and second celebration at 10:30.

SUMMER AT ATLANTIC CITY.

The Pennsylvania Railroad's Facilities for getting there.

The spring season which is just now drifting into summer has been the most prosperous in all the history of Atlantic City. Never have so many people been attracted to its great beach from all sections of the land, and never have its hostleries been so well equipped for providing comfortable and attractive accommodations. In the present, which is usually a breathing time between seasons, visitors still continue to pour into the city, so that when the summer hosts come they will find a good-sized garrison already in possession of the fortresses. There will be ample room for all, however, and the indications forebadow the greatest summer season ever known. Preparations are being made for it now. New hotels, of the lesser grade, are building, new cottages are springing up on heretofore vacant ground, and enlargement and improvement of existing structures is the order of the day. The great board-walk, now known by the more dignified and appropriate title of the Ocean Promenade, has withstood all the storms of winter and is in a perfect condition; the streets are being improved, new facilities for amusement are under way at the inlet, and every one of the city's 15,000 people appear to be doing something to make the great resort more charming.

The facilities for reaching it are being developed with a view to the great strain to which the summer traffic will subject them. The Pennsylvania Railroad lines are to be operated on a plan which will yield the greatest speed and promptness of movement, while guaranteeing absolute safety and comfort. The tracks are in excellent condition, the rolling stock of the most approved kind, and the management keenly alive to the best interests of the traveling public. The through New York service, which has accomplished so much in securing travel from the East, will be continued. Apart from these facilities excursions of a special or general character will be arranged from time to time from all points on the Pennsylvania system at low rates.

By these means the residents of the remote as well as the near points will enjoy every opportunity of spending some time by the sea.

Atlantic City opens her gates in welcome to all, and the Pennsylvania Railroad and its connections is the highway that leads to the sea.
