He retterates his statement that the five Italians who underwent trial for the murder of Chief Hennessy were innocent of the crime, and says he would give his theory of the crime if he had any direct evidence to substantiate it. The day will come, he believes, when he can apeak positively on this point, but for the present he will maintain a strict silence, fearing that if he should speak further on the subject he would throw suspicion on certain persons who may be perfectly innocent. cheer Statement—He Courts a Trial.

Ross, May 8.—The decision of the New Orleans grand jury has caused a great deal of excitement throughout this city, and is bitterly commented upon by the press.

The Capitan Francessa, the organ of the opposition, said in a leading article: "This impudent giorification of murder, this solidarity of a whole country with a band of cowardly homicides gathered in numerous thousands to exterminate a few helpless prisoners, is no longer the cry of a people drunk with crime and blood. It is a declaration premeditated and matured by the grand jury, which was regularly chosen. It is the answer that the American government has given to the just claims of Italy.

"For the first time in many centuries an infamous crime is elevated to an institution of the State. It is declared that when assassins are too numerous to be punished they shall be gentlemen.

"The result of this theory, if it is accepted and sintained by the government of the Uniton, will be simply that transpars in the United States in the future must consider themselves upprotected by the law, and will be constrained to trust the defence of their rights and lives to the strength of their own arms.

ENGLAND'S PREMIER IN ERROR The United States Has a Property Interest in the Seel Islands.

England Recognized the Injerest During the First Nineteen Years of the Sov-ereignty of the United States—The Law-less Intrusion of Canadian Vessels Has Not Changed the Law.

Not Chauged the Law.

Washington, May 3.—Seretary Blaine last night gave out for publication his latest letter to Lord Salisbury with reference to the scaling rights of this country in Behring Sea.

It was addressed to the British Minister, Sir Julian Pauncefote, and is the plainest and most practical communication that has been made on that timeworn topic.

It confirms the dispatches previously published on the apparent agreement to stop scaling for a period in order that the scale may increase and multiply on the Pribyloff Islands.

In this connection he says: "First, how far, if at all, outside the ordinary territorial limits is it necessary that the United States should exercise an exclusive jurisdiction in order to protect the scal for the time living upon the islands of the United States, and the feeding thereform?

"Second, whether a closed season (during which the killing of scale in the waters of Behring Bea outside the ordinary territorial limits shall be prohibited) is necessary to have the scal fishing industry, so valuable and important to mankind, from deterioration or destruction? And, if so, third, what menths or parts

of months should be included in such seasons and over what waters it should extend?"

President Harrison's name is used throughout this long letter. It states that the United States has never contended nor rested its case upon the contention that Behring Sea was Mare Clausum and that Lord Salisbury was in error in resting any argument upon that point.

'After discussing the jurisdiction which Russia maintained previous to the sale of Alaska to this country, which she relinquished with the sale, and the jurisdiction which England herself insists upon around her own coasts, and beyond the three-mile limit wherever her colonies are situated, Mr. Blaine concludes:

Who Taris the Seal Fisheries.

"The government of the United States has steadily held just the reverse of the position which Lord Salisbury has imputed to it. It holds that the ownership of the islands upon which the seals breed, that the habit of the seals in regularly resorting thither and rearing their young thereon, that their going out from the island in search of food and regularly returning thereto, and all the facts and incidents of their relation to the island, give to the United States a property interest was claimed and exercised by Russia during the whole period of its sovereignty over the land and waters of Alaska; that England recognized this property interest so far as recognized the farts and the first 19 May's Landing, N. Bowen and Mrs. Kates met at a party about three weeks ago, and Bowen called so frequently at the house afterwards that Kates forbade him the house. This injunction, however, was unheeded and Bowen kept up his visits until the husband put him out of the house.

This so entaged Mrs. Kates that she want away with Bowen yesterday. Kates is almost heartbroken.

Boss City Idaho, May 8.—The train containing President Harrison and party arrived here this morning and will remain until this evening, when the President will start for Sait Lake, reaching there Saturday morning at 8 o'clock.

The trip to the Northwest and Puget Sound was most fatiguing and uncomfortable, on account of the rain. The beauties of Fortland, Tacoma and Seattle were in mist and fog, while clouds covered the mountains and mud the ground, so it was impossible to do any walking and very little sight-seeing. The Dalles gave the party a grand welcome. A salute of twenty-one guns, fired by the Dallas Light Infantry, announced the approach of the train to the largest city of eastern Oregon, and the entire population, augmented by thousands from the surrounding country, gave the President a most enthusiastic welcome. There decoration and school children awaited his coming, and although only fifteen minutes was given for the stop, that one-quarter of an hour was a busy one.

The Presidential party experienced the disagreeable effects of a mild sand storm at Cililo, Ore, a small salmon cauning station on the Columbia River. A high wind scattered the sand in every direction and made the distinguished visitors very uncomfortable.

The plaintiff in the case is W. S. Murray, who had \$550 in the bank when the assignment was announced. It was proven that Mr. Murray deposited money in the bank late on Thursday, Dec 4, 1890, at 1:30 p. m., the assignment being announced on Friday Dec. 5, at 9 a. m. The defendants waived a bearing and gave bail in the sum of \$1,200 for their appearance at court.

Let me whisper it in your ear;
To-morrow will be our birthday—
Your birthday and mine, my dear!
As soon as the sun peeps over

I'll be eight years old, my Dolly,
And you will be one, you know.

Con't you remember, Doily—

The first thing I saw was you!
You sut on the edge of a work-box,
Waiting, you lovely child!
And when you saw I was looking
