FORTY YEARS STANDING EFFECTED BY DR. LIGHTHILL OF NO. 144 CRES-CENT AVENUE, PLAINFIELD, N. J.

MIDDLEBUSH, Somerset Co., N. J.

For the past forty years I have been afflicted with bleeding piles. I suffered constant pain in the lower part of my body, but when I had an operation of the bowels the pain was perfectly terrible, and was most always attended with the loss of a large quantity of blood. My condition was complicated with prolapse of the rectum, which at first only made its appearance when I had a the parts became so weakened that the protrusion took place while walking or stooping, or after the slightest exertion, stooping, or after the slightest exertion, he received a telephone message from Gen. movement of the bowels, but at length Whenever this happened it gave rise to the most agonizing pain, and felt as though something was pulling the life right out of me. In fact only those similarly situated can imagine the suffering and disappears and the suffering and disappears are consistent. I had to endure from day tress which I had to endure from day to day, and which made my life a terrible burden. Hearing of Dr. Lighthill's wonderful success in the cure of difficult chronic diseases, I placed myself under his care, and now I am proud the Victor mines. I ordered a company of infantry out, but the firing soon ceased. and happy to say that, marvelous as it infantry out, but the firing soon cased. It was at long range. If the mine owners may seem, he effected a complete and do not take action to make the comprospect, and he performed this cure without any painful operation or preventing me from work. Since this terrible disease has been removed by Dr. Lightfirst time in forty years I feel once more what it is to be without daily pain, discomfort and distress. I am not a wealthy man, but no amount of money would tempt me to be put back in my former condition.

To the Residents of Plainfield, N. J.

Mr. H. Vroom, whose statement appears above, is a brother-in-law of mine. I personally know of his case and his suffering and also know the happy fact that to the surprise of himself and his friends, Dr. Lighthill effected a radical and permanent cure. His statement is true in every respect and does not say half enough in praise of Dr. Lighthill. Anyone who wishes this statement verified is at liberty to come and see me

A REMARKABLE GURE GOV. WAITE WAS MAD

OF A TERRIBLE CASE OF PILES OF Cripple Creek May Have Martial Law.

> Armed Deputies Must Be Removed or Disbanded-All Prisoners Taken By the Deputies Turned Over to Gen. Brooks - Mine Troubles in Sections of the Country in an Unsettled Condition-Trouble Feared in West Virginia-B. & O. Engine Stoned-Strikers Capture a Railroad Bridge and Burn It-Killed

DENVER, Col., June 11 .- Gov. Waite was up early yesterday morning and very mad that the deputies in Cripple Creek

"The sheriff telephones me that I mis-

understood him. He did not state that he could not control them, but that the con-dition of affairs might arise when he could mine this morning as soon as I can leave to meet Commissioner Boynton and the sheriff and will advise you of the result. There was desultory firing between a de-tachment of deputies and some miners this mise effective the national guards will have to stay here all summer and a colli-sion can hardly be avoided."

To this, Gov. Waite replied: "Report from Altman or Victor as soon as possible the result of the interview. Let Brooks and Tarsney advise together and give me their opinion of the necessity of declaring martial law. Command the sheriff to move his deputies to Cripple Creek, their posi-tion before he violated the agreement." At 4 o'clock Gen. Tarsney reported to the governor that the negotiations were then in progress to have the deputies withdrawn or disbanded. He said the mine owner only wanted to be assured that they could work their mines on the agreement. If these terms can be made, which Tarsney thought certain there would be in his opin-

ion no necessity for a more stringent mili-tary intervention. All the prisoners taken by the deputies were turned over to Gen. Brooks. Gov. Waite readily consented to all this but added: "The armed deputies must be removed or disbanded. Do not slacken your vigi-

In regard to the shooting of the morning Gen. Tarsney stated to the governor that it was due to the carelessness of the depu-ties. They had advanced up the canon and lot of miners had mistaken them for an armed body strengthening their position and had fired upon them. No casualties

had resulted. SITUATION AT PANA. Large Numbers of Strikers and Min-

ers Near the City. PANA, Ill., June 11 .- The mining situa tion still remains in an unsettled condition. Mounted patrols are placed around the city and a number of guards are sta tioned at each coal shaft.

A company of strikers numbering about 200 are camped on Sibley farm about two miles west of the city, and it is reliably stated that they are being furnished arn and food by sympathizers in this city. Several of the guards report local striker trying to get out of the city during the night with arms for the invaders.

About 500 members of the first regiment of Chicago, with a gatling gun, arrived here on a special train in the morning and were followed by companies from Clinton and Bloomington and they are all in camp at the baseball park. Crowds of strikers are located in the timber and near the railroad bridges all around the city. It is variously estimated that there is from 1,500 to 4,000 foreign strikers in close proximity to the city and they can be massed on short notice. The local miners vow they will not enter the mines while the militia remains in the city. So no attempt will be made to operate the shafts to-day. A meeting of the miners will be held to-day, but what the result will be no one seems to know. Coming in pairs, fours and sixes, about 200 invader ing with the local miners who remain at work. Unfounded reports are that strikers from several outside districts will reach here to-morrow and that the miners must cease work here either peaceably or by force. The saloons will remain closed until further notice, and the streets are

kept clear of loafers. Scouts just come in report a company of strikers, numbering about 200 in camp, about two miles east of town and about the same number just south of the fair

Bridge Burned By Strikers.

Massillon, O., June 11.-In spite of efforts to burn bridges and destroy trains, the Cleveland, Lorraine & Wheeling railroad is still transacting business and the coal blockade is broken. The military have control of the southern division and anxiety now is for the territory between Massillon and Uhrichsville. Between Uarichsville and Midvale, 300 miners captured two bridge watchmen and burned the structure, blocking the road four

B. & O. Engine Stoned.

BELLAIRE, O., June 11. - There was nothing exciting in the strike situation on this side of the Ohio river yesterday. The soldiers in camp at McClainesville were treated to a serenade by a large number of miners headed by a brass band. Last night a Baltimore & Ohio engine, hauling the commissary train was stoned by strikers right in the camp of the soldiers. The enseriously injured.

Scale Committee Could Not Agree COLUMBUS, O., June 11.-At midnight Saturday night the scale committee ap-pointed by the conference of miners and perators of this district adjourned to 9 a m. to-day, not having succeeded in agree-ing upon a report. Shortly before this acHighest of all in Leavening Power .- Latest U. S. Gov't Report.

The committee met n secret, but from a reliable source it is learned that after all other obstacles to an agreement were removed, A. A. Adams, president of the Ohio Miners' association, could not be induced to agree to the compromise on the first agreement of the compromise on the first agreement.

Train Wreckers Frustrated.

ZANESVILLE, O., June 11.—Two attempts were made last evening to wreck Baltimore & Ohio trains by placing ob-structions on the track at Deep Cut, four miles east of this city. Both were discov-ered before any trains were deraited. Sec-tion men were ordered out last night and every mile of track from here to Bellaire is patrolled. The water station at Gibsons, east of this city, was burned by striking miners last night.

Refused Soldiers Supplies.

COLUMBUS, O., June 11.—Col. J. L. Rodgers, with the commissary sergeants of state troops now on duty in the mining region in the eastern part of the state, arrived here last night to purchase subsistence. The storekeepers in the mining region refuses to sell supplies to the sol-diers. Col. Rodgers left at once with sev-eral car loads of provisions, saying some of the troops were actually suffering for

Threatening in West Virginia.

WHEELING, W. Va., June 11.—The strike situation looks more threatening than ever. Fully 3,500 Ohio and West Virginia troops are encamped in this vicinity and shots have been frequently heard below the city and out about the Wheeling Creek works in Ohio. So fee as can be ing Creek works in Ohio. So far as can be learned nothing serious has occurred, although there may be an outbreak at any time. Gravest fears are felt in this city

Denounced Gov. McKinley. Massillon, O., June 11.—Sheriff Doll is here swearing in deputies. A large num-ber of miners met at Milport last night and were eager to stop the movement of nonunion coal. Safer counsel prevailed and

they resolved to petition the railroad operatives to cease handling West Virginia coal. They also denounced Gov. McKinley for having called out the militia.

Killed By Deputies. Uniontown, Pa., June 11.—A battle be-tween seven armed deputies and a mob of nont No. 3 works, of the McClure Coke ompany. One striker, a Slav, was killed nstantly and two other Slav strikers were fatally wounded. The deputies were sur-rounded and fired upon by the strikers be-

PUNYSUTAWNEY, Pa., June 11.-Sunday in this district passed off without any ex-citing incidents- The guarded mines were risited by thousands of persons, some from the hill facing the mine watched the carpenters at work on the barracks, the work being continued throughout the day. To Protect Glass Manufacturers.

MILLVILLE, N. J., June 11 .- Word has been received in this city from the national officers of the American Flint Glass Workers' union that the flint blowers throughout the country had voted in favor of working during the summer months. For many years past the factories have shut down during July and August, but now they can keep open the entire year, provided that the blowers get two months' vaation between June and October. This move was taken to protect union manufacturers from the non-union factories, which have lately been operating during a portion of the summer. It is one of the ost important changes in the glass busiless for years.

May Be a Tied Up. STEUBENVILLE, O., June 11.—There may be a general tie-up of the Wheeling & Lake Erie railroad at any time. Within the past few weeks many trainmen have been called into the offices and inquiry made if they belonged to the American Railway union. If they answered affirmatively, they were told that the company had no further use for their services. When asked if there were other reasons for their discharge, the officials said their work was satisfactory. The Wheeling & Lake Eric employes are leaving the federation in large numbers and are joining the railway union for self protection. They will strike against further discharge.

Preparing for Cholera.

BERLIN, June 11 .- Prof. Dr. Koch has gone to Danzig to confer with the local health officials concerning the cholera epidemic. All the public bathing places in Daizig have been closed and tures sto ers have been made ready to patrol the harbor. The sanitary stations are already in order for the epidemic. There were 50 fresh cases of cholera and 29 deaths in Rus sian Poland last week.

Emin Pasha's Affairs.

BERLIN, June 11 .- Emin Pasha's affairs are fast becoming entangled beyond hope of extrication. Mangled and Nearly Killed in a Cage at Coney Island.

CONEY ISLAND, N. Y., June 11.-Mile. Beatrice, a lion tamer at the London Zoo which is giving a wild animal show on the old iron Pier at West Brighton, had a narrow escape from being mangled to death last night by a lion. It was just 10 o'clock promise on the 60 and 69 cents per ton and the enclosure on the pier where the and the enclosure on the pier where the animals are on exhibition was crowded with people. The last performance of the day was being given and Beatrice appeared in the hall, climbed up the ladder leading to the wild lions' cage, and entered. There are two big Asiatic lions in the cage, a male and female. Bella is the female's name and Brutus the male's. The latte is a great pet of the lion tamer and she plays with him for 15 minutes at every erformance. Her act with the wild beas is closed by opening his mouth and kissing him. She always succeeded in kissing the brute until last night. While she was making her bold attempt to smack the lips of Brutus last night the man who feeds the lions made his appearance near the cage with a box of raw beef. Brutus caught sight of the beef and in a moment he unfastened Beatrice's hold upon him and sprang upon her. Both had a lively tussle which finally resulted in the lion tamer's falling to the floor and the lion's grabbing the left side of her face in his mouth. The women and children in the sudience screamed and the men rushed around the hall looking for clubs and sticks with which to beat the lion away from the woman. In a few

noments Manager Farrare and Trainer Bronce and Ortway rushed in with pitch forks. After plunging the forks several times in the head and body of the lion they managed to make him loosen his hold and got the girl out of the cage. She was unconscious and blood was pouring from her face as she was carried into the office Dr. Hill was summoned and the woman was put to bed. When the doctor arrived the woman was delirious and opiates had to be given to quiet her. Upon examina-tion Dr. Hill found that the lion had succeeded in sticking three of his big teetl through the woman's left jaw. parts of her face were also chewed. It took some time for the surgeon to stop the flow of blood. Dr. Hill said last night that it was the worst case of animal bite he ever saw. WORK FOR THE SENATE

Tariff Schedules That Will Cause Much Debate.

cratic Leaders Uneasiness-Resolutions May Be Passed Extending the Terms of the Present Bills-

WASHINGTON, June 11.—The fourth draft of the pending tariff bill which was laid before the senate for consideration the 2d of last April names the 30th of June as the time when the law shall go into effect. That day ends the fiscal year, and throughout all the prolonged debate which have since occupied the senate, Mr. Jones and Mr. Harris have contended they would begin collecting duties under the new law with the beginning of the new year. The present condition of things hardly supports their belief. There are several very important schedules yet to be considered, to say nothing of matters that have been left open pending final action when the bill comes out of the committee stage and

goes into the senate.

The spirit schedule will probably be completed to-day and the debate on the cotton schedule will then begin. The wool schedule, and the putting of raw wool on the free list—questions which will follow— are bound to call out protracted debate. Prolific subjects of discussion will also be Prolific subjects of discussion will also be found in the rates fixed on silk, papers, and in the sundries schedule, where coal will be found. Pearl buttons and gloves will be made the basis of considerable talk and the free list can hardly be disposed of in a day. Three great items in the free list, agricultural implements, lumber and raw wool, will be stubbornly fought for the purpose of making a record, but without hope of changing the result.

When the bill has been finally considered in the committee of the whole and re-

ported to the senate, the struggle over sugar will be renewed. Meanwhile the condition of appropriation bills is giving the democratic leaders uneasiness and if they do not get through by June 30 joint resolutions extending the terms of the present appro-priation bills will have to be passed,

House of Representatives. The order of work for the house this week is pretty clearly blocked out by the managers, but that the house will fulfil their desire is very uncertain. Monday will be devoted to the affairs of the District will be devoted to the affairs of the District of Columbia. Then the Indian appropriation bill, of which seven pages were considered last week, will again be taken up under the five-minute rule. It is the hope offthe leaders that it will be out of the way by Wednesday night, but the outlook is not flattering. If the bill shall drag along later in the week, a summary end to the debate may be secured by means of an order from the committee on rules. Next in order will come the bill to erect a government printing office on one of the public reservations in the city. Mr. Hatch's antireservations in the city, Mr. Hatch's antioption bill, or Mr. Cooper's bill to tax greenbacks as other money is taxed. These three bills are marked for consideration before the general deficiency bill shall be called up. The order in which they will

The fourth semi-annual field day sports of the P. H. S. A. A. on the Crescer track Saturday afternoon were witnessed by about 500 people. The track was fast, the weather was good, and the boys of the High School ran the races with almost professional promptness. T. A. Cuming took the place of F. L. C. Martin, absent, as judge. The other officers were those announced. "Clerk of the Course, C. B. Morse, '95, M. D., P. H. S. A. A.", and his two assistants, did their work very effi-

parties from Plainfield wore the whitewash off the roof of Washington Rock Saturday. John Tingley is planning for the annual reunion of the Tingleys, to be held in

South Plainfield August 29. The cycling ability of Miss Minnie Van-Middlesworth is the admiration of the borough.

A bazar will be held in the Methodist Church July 19, 20 and 21. It will be an elaborate affair, and attractive novelties are promised.

The nineteenth annual graduating exercises of the New Jersey Business College will be held next Friday evening, June 15, in the Peddie Memorial Baptist killed by the mother because he refused to marry Miss Shattuck immediately. very much interested, because two of the borough's popular young people are among the graduates. Miss Ella Maud Fisher will deliver the salutatory. Her subject will be "Woman in Bustness". George William Richardson will lead a discussion of "Free Trade and Protection". Rev. W, C. Kinsey will be the benediction clergyman. Five thousand tickets have been issued for the occasion.

The Presbyterian Church celebrated Children's Day in a very pleasing manner. In the morning Rev. Mr. Martine, pastor, preached an eloquent sermon on The second heat was run in 46 1-5 the observance of the day, and special seconds. McCutchen from 25 yards music was rendered. The choir which handicap overtook Rittenhouse on the assisted in the music consisted of Miss and passed the group, winning with a Rarick, tenor, and Edward Teel, basso. Miss Maggie Swackhamer was the efficient organist. In the evening a special children, entitled "Dyke-Builders". It consisted of songs, recitations and selections by the choir. The church was very prettily decorated with flowers. In front of the pulpit was a solid bank of different kinds of roses, and in the centre was a handsome cross. Encircling the alcove, and around the organ, marguerites smiled, and the entire decoration was one of beauty. Superintendent Frank Lake, Miss Boice, Miss Randolph and Miss Dunham, had charge of the floral display. Rev. Mr. Martine assisted the choir in

Most interesting Children's Day exerclses were held in the Methodist Church. Rev. W. C. Kinsey, pastor, and the women of the church, worked very hard for a successful programme, and their efforts were rewarded. The decorations were very elaborate, flowers being artistically arranged so as to bring out most striking effect. The pastor preached a forceful sermon in the morning, from the text "He fastened it with nails". The choir sang selections appropriate to the day, and the excellent music was much enjoyed. Those in the choir were: mond Apgar, basso. Mrs. A. Nelson was the accomplished planist. A service entitled "The Church of the Future" was rendered in the evening. It was decidedly novel, and proved to be very instructive. John C. Whiting followed with 30 feet 5½. The front part of a church in miniature was erected on the platform, and large mottoes representing the essentials of the church were placed upon it, with "Christ, Our Foundation" at the bottom. Recitations by the Sunday-school scholars, from these subjects were given as follows: "Introductory Address", Albert Apgar; Afternoon and evening. Admission "Christly Love", Miss G. NORTHAMPTON, Mass., June 11.—Prof. Paige of the Amherst Agricultural college investigated the disease of which 11 cattle have died in Ware, and thinks it is hydrophobia, though he will submit the brains of the cattle to the Pasteur method of treatment before deciding. He says all the animals that died were of a herd chased by dogs three weeks ago, and no animal has shown signs of disease which was not bitten. All the trouble appears in adjoining pastures with one exception, and in that case, four or five miles disand in that case, four or nive lines dis-tant, as well as in the others, all the cattle were driven and frequently bitten by the shepherd dog of Perry Cheever, which dis-appeared about [three weeks since, after acting strangely. The local doctors, who examined the cattle, said they found diseased intestines and laid it to some strange zymotic disease, but Prof. Paige found no such trouble, and before he came no one thought of hydrophobia, though the cows had run about as if crazy, and died in

> AS FOLLOWS. Crescent Avenue Church.

The children's services were held in the morning. The attendance was large. necorations about the altar were of white roses, syringa and ferns.

Rev. Dr. William R. Richards conduct. ed responsive readings of Bible passages. The Commandments and the twenty-third Psalm were repeated, The singing was by the congregation and by a choir of 75 children from the primary department, conducted by Superintendent I. C. Pierson. The pastor preached from Proverba 20-11, "Even a child is known by his doings". His remarks were very interesting and were well adapted to the chiltiren. There were two baptisms. The offering was for Sunday-school missionary work.

First Presbyterian Church

The Sunday-school's services were conducted in the morning by Superintendent Lounsbury before a large congregation. The regular voluntary choir sang with the scholars. The reading from the Scriptures and the hymns were especially appropriate to the day.

Miss Grace Overton read the Children's Day greeting of Dr. James A. Worden. The primary scholars sang under the direction of Miss Wandell. A wall building exercises, "Goodly Stones", was participated in by Louise Kline, Hiram Mulford, Arthur Templin, Linda Cave, Marion Engelhart, Sarah Berbecker, Dolly Robertson, Beryl Angleman, Pierson Morgan, Tillie Mulford, Chauncey Murphy and Martha Kline. A collection was taken up for Presbyterian educational

Rev. Charles E. Herring addressed the children from the text Second Corinthians III: 2, "Ye are our letter written in our hearts, to be read and to be known of all men". He explained that the church members addressed took the place of letters of introduction from God to the unconverted. Materials for writing were then placed on a table on the platform. Mr. Herring drew many practical less ons, easily understood by the children, from different kinds of pens, ink and paper. The paper represented the heart; the pens, the ministers and other workers; the ink, the Holy Spirit, The fine pen, indicated the young woman; the stub pen, the strong man; and the ball-pointed pen a practical man. New pens were some es bent and were therefore unfit for ise. Mr. Herring said that when he came to Plainfield first half a dozen men of his congregation appointed themselves a committee to discover if he was a bent pen and asked those who knew him before and tried to discover if he paid his board regularly. Continuing his illustrations, the speaker sail that the glass pen was hard and unsatisfactory and that the gold pen was the best and most lasting of all. He closed with a reference to Christ as the writer of the letters. No forgery was possible.

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the lajured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the langerfect action of the nerve centers at

which they supply with nerve force

Two-thirds of chronic diseases are due to
the imperfect action of the nerve centers at
the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in
treating these diseases is that they treat the
organ rather than the nerve centers which
are the cause of the trouble.

DR. FRANKLIN MILES, the celebrated specialist has profoundly studied this subject for
over 20 years, and has made many important
discoveries in connection with it, chief among
them being the facts contained in the above
statement, and that the ordinary methods of
treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues,

A NEW STAR OF FICTION.

Mrs. Martha McCulloch Williams, Author of "The Overton Claim." Among the clever literary women today who are rapidly acquiring well de-served success Mrs. Martha McCulloch Williams is one of the foremost. As true a daughter of the south at heart as she is by birth and breeding, cultured, courteous and dowered with rare breadth and vigor of intellect, Mrs. Williams presents a most striking and picturesque personality, a fact which cannot fail to impress itself upon any one who is priv-

ileged to meet her.

Personally Mrs. Williams is a tall. slender, gray haired woman, distinctly graceful and high bred. Her eyes, of which she says laughingly, but with injustice to herself, that they are her chief claim to distinction, are perhaps her most impressive feature. Large, clear, deep set and darkly gray, they are calm or vivacious, sympathetic or impas-sioned, by turns, lighting up with rare brilliancy a face which some might con-

MARTHA M'CULLOCH WILLIAMS. sider rather impassive, but which is really only dignified and self contained. So much for Mrs. Williams' appearance. Of her character only those who know her most intimately can judge her most accurately. One of its noblest and most attractive features is that she never speaks harshly of any one, and that she resolutely shuts her ears ag ast idle gossip. If she knows aught ' ae credit of the absent, she will say . If she cannot truthfully say any ing good,

she will say nothing at all.
Of Mrs. Williams' work her many readers will doubtless judge for themselves. It is a rather curious fact that it is only within a few years that she has turned her attention to story writing, in which branch of literature her success has been marked and rapid. Her style is crisp and sparkling, brimful of native wit, but betraying withal an undercurrent of feeling that betokens her deep sympathy with and keen knowledge of humanity. Her characters are always well defined, and though frequently ir rational are ever intensely human. Her love of the south and her thorough familiarity with the complexities of negro life and lore render her southern sketches peculiarly entertaining. A versatile and busy writer always,

Mrs. Williams enters into whatever work she may undertake with equal earnestness. She composes directly upon the typewriter, but with extreme care and precision, never revising or rewriting and but rarely ever reading her work after it is once finished. Her newspaper articles are exceptionally bright and interesting and find ready acceptance, while her poems, dainty or vigorous, as the mood may demand, are always delicate in phrasing and perfect in rhythm. no sketch of Mrs. Williams' work would be complete without mention of her essays. Prose poems they may well be styled, for they rank among the best productions of their kind among Eng-lish speaking nations, betraying a subtlety of feeling and an originality of thought and diction that amount to positive genius.

A collection of these delightful little essays, published a little more than a year ago, is among the gems of modern literature. In these delicate pen pictures of woodland life, which could have been written by no other than a daughter of "God's country," Mrs. Williams shows herself to be a sincere and sympathetic student of nature, possessing the power to portray with her pen more faithfully than many artists with the pencil. Essentially a child of nature herself, she has lived so near to nature's heart that she has learned, perhaps unconsciously, to echo its pulsations. Her story, "The Overton Claim, " is considered one of her best works of fiction by the lady herself, and it promises to further enlarge her steadily widening fame.

The Problem Nct Solved By the Commission.

Recognize the Impossibility of Ger many's Undertaking, Single-Handed, the Rehabilitation of Silver-Another Commission Demanded By

Social Democrats in Behalf of Labor

BERLIN, June 11 .- The imperial curreacy commission has adjourned. The commissioners held twenty sittings of six hours each, yet they left the entire silver problem in Germany exactly as they found it. Only the most sangulae of them ex-pect any practical result in the future from their labors. Dr. Arendt, the most ardent of the silver men, and a few of his closer followers contend that the German government has become convinced of the oretical correctness of bimetallism, although it recognizes the impossibility of Germany's undertaking, single-handed, the rehabilitation of silver. Arendt says he is convinced that the German silver mines must be abandoned if the presen prices continue, and that with their aban

donment will end much of the zinc and copper production on German soil. Herr Von Kardorff, who sat in the commission as the representative of the Agrarians, and their lover-mortgaged con-stituents, professed in a published inter-view to be well satisfied with the commission's work. "When we met," he said, "the gold men were stronger numerically than the bimetallists, but the latter carried a motion that no votes should be taken on any of the points to be discussed, the object of the inquiry being merely to provide the government with information concerning the currency ques-tion." Herr von Kardorff said also that Dr. Bamberger, chief of the militant mo-nometallists in Germany, came off second and suffered the mortification of hearing his arguments reduced to absurdity by Dr. Arendt and his sympathizers.

Prof. Suess, when interviewed as to the

work of the commission, said that he was present merely as an observer, who was occasionally called upon to give impartial testimony. He believed that Count von Posadowsky, secretary of the imperial treasury, had been deeply impressed with the difficulties of the existing situation and had been convinced that some reform was unavoidable.

Director Russell of the Discount com-

pany, who as a monometallist is second in authority only to Bamberger, praises highly the impartiality of the government toward the investigation. He thinks that much good will result from the commission's labors, for, leaving all else out of consideration, he says, the statistical information gathered by the commissioners wil be most useful whenever enactments as to the currency of the empire shall be considered. Dr. Arendt's elaborate plan for the issue of silver certificates by international agreement, Director Russell said, was so dangerous and impracticable that Arendt's own friends could not find the courage to support it, and absented themselves from the sittings in which it was discussed. "No practicable method of raising the value of silver was suggested in the commission;" is Director Russell's general verdict, "and if Germany ever a lopts a compromise in the direction of bi-metalism the motive will in all probability be political and diplomatic rather than nical and economic.

The Vorwaerts, organ of the social demo cratic central committees, after comment ing on the commission's work, demands the appointment of an imperial labor com-mission to inquire into the condition of the unemployed and the causes of the prevalent distress among laborers. Such an inquiry, it says, is needed much more than was the currency inquiry.

Two Men Killed at a Wake. DUBLIN, June 11 .- An old woman who owned half an acre of ground at Nenagh, county of Tipperary, died Friday without leaving a relative or specifying an heir. Her neighbors quarrelled yesterday over the possession of her land. Some 30 men fought with scythes and pitchforks round her hut. Eventually they broke down the door, upset the body and beat each other with the candles which had stood round the body. When the fight was ended two men lay dead at the doorstep and five others were too severely wounded to walk from the scene of the conflict.

Permanent Exposition. WASHINGTON, June 11 .- In accordance with a resolution adopted by the southern industrial congress, held recently at Augusta, Ga., Mr. Walsh (dem., Ga.) introduced in the senate a bill to provide for a pernanent exposition at Washington, which the products and resources of the several states and territories may be fitly and properly displayed." Provision is made for the appointment of a commission to consist of the postmaster-general, the secretary of the interior and e secretary of agriculture, to report to the congress as early as practicable a plan for the establishment and maintenance of the exposition and the erection of a suitable building. The committee is directed to advertise for plans for the building, and they are to be reported to congress with a ndation as to the site.

Simsrott Insane. CHICAGO, June 11 .- It was learned beyoud reasonable doubt that William A. Simsrott, the missing secretary and treas-urer of the switchmen's union, has been located in Boston. A telegram was received by Mrs. Simsrott last Tuesday stating that her husband had been discovered in that city. The telegram also contained the sad information that Simsrott is thought to be information that Simsrott is thought to be insane. Mrs. Simsrott left immediately after the receipt of the telegram for Boston to bring her demented husband back to this city, and is expected to return with him to-day. Steps have been taken to appoint a receiver for the switchmen's union, as the organization has been doing a mutual benefit insurance pusiness without a char-

Carnegie Workmen in Trouble, PITTSBURG, June 1 .- Twenty-five rig-gers and six machinists whose names appeared on the petition presented several days ago to the Carnegie Steel company for a restoration of wages paid at the Duquesne works prior to January 1, have been discharged. The discharged men are been discharged. The discharged men are endeavoring, it is alleged, to persuade the remainir g employes in the mill to join them in the strike. Thus far, however, they have not experienced very great success in the attempt. In case a strike is declared in this plant, 2,500 men would be thrown out offemployment.

DAMAGE TO THE COLUMBIA: Indications That It Was Done by Sunken Wreckage.

Sunken Wreckage.

Philadelphia, June II.—After a miscroscopic inspection of the huil of the cruiser Columbia by the naval court of inquiry as she lay high and dry in the dry dock at the League island navy yard, it was found that the damage is not so great as has been expected. The dent in the vessel's bottom is ninety feet in length, as has previously ibeen announced, and extends along the starboard side of the flat keel. It is in the waist of the ship, beginning about thirty feet from the bow, and consists simply of an irregular curvature of the keel plates, the depression in no one spot being greaters than three inches. The width of the indention is a scant foot. The damage seems to have been done by some sunken wreckage, or possibly by the fluke of a sunken anchor.

Although Charles H. Cramp, of the firm that built the cruiser, and who was present at the inspection, says the damage is

at the inspection, says the damage is slight. The Columbia will be laid up for several weeks and the government will have to pay a bill for repairs of several thousand dollars, the inspection also developed the fact that a small piece of the tip end of one of the blades of the centre propeller has been broken off.
Pilot Chambers testified that the ship

touched something on Bulkhead shoal on May 17, where the depth of water was 5 1-2 fathoms. The vessel was in mid-channel and had passed the point where he expected any trouble from the shoal. The speed at that time, the pilot thought, was between seven and eight knots.

"I think some obstruction had lodged on the bottom, wreckage of some kind," said the pilot. "When she touched, there was no jarring of the ship. I thought it was merely a mud lump such as frequently heels up there. It is a common thing for a heavy draught ship to touch them." Rosebery and the Turf.

LONDON, June 11.—The newspaper battle over Lord Rosebery's connection with the turf continues with more bitterhave joined in the hue and cry, and it is noteworthy that several Scotch newspapers which were among the strongest supporters of Mr. Gladstone have bitterly attacked Lord Rosebery's horseracing proclivities, comparing Mr. Gladstone's scholarly pursuits with Lord Rosebery's partaking in what they call a "carnival of rascality." Several defenders of Lord Rosebery have written open letters to the newspapers stigmatizing the hypocrisy of these antigambling protests when at the same time the Young Men's Christian association has been rapturously welcoming American millionaires whose fortunes are due to speculations which throw the heaviest Derby bet into the shade. It is stated ess Lord Rosebery retires from the that unless Lord Rosepery retires from the turf at the end of the present session the liberals will place the matter before him in a strong and authoritative form. This is just the sort of thing that would make Lord Rosebery a confirmed turfite.

Drowned While Boating. BREWSTERS, N. Y., June 11. -Two sisters, named Maggie and Bessie Blaney, and Thomas Scanlon and John McCluskey, all of Brewsters, went boating yester-day on Southeast Lake, about two miles from here.
