NEW EVIDENCE
Of Dr. Lighthill's
Success.

A Flattering Testimonial From Col. John Dietrich, One of Plainfield's Oldest and Best Known Residents.

16 ARLINGTON PLACE, Plainfield, N. J., July 17, 1894.
I am profoundly grateful to Dr. Lighthill for his speedy and radical cure of a most painful malady of over ten years standing. I deem it proper to say to all afflicted to place themselves under the care of this skillful physician and be permanently cured. I will cheerfully impart any information I possess when called upon.
JOHN DIETRICH.

A Card from Mr. T. R. VanZandt, Of No. 304 and 306 Park ave., Plainfield, N. J.

I certify with pleasure that Dr. Lighthill has effectively cured me of a most painful case of piles. For some time past I had been subject to its attacks but the last attack was so exceedingly painful that it completely upset my whole system. The pain extended to my legs and in many other directions, and made me so nervous that I could neither sleep, sit down, lie down, or move about without serious discomfort and distress. Such was my condition when I applied to Dr. Lighthill for relief, and I am glad to say that as soon as he took hold of my case, I began to improve, and in a short time I found myself completely cured. Dr. Lighthill has also effected a radical and permanent cure in a most terrible case of piles on my cousin, Mr. J. V. Z. Griggs, of Rocky Hill, N. J., whose statement is published below. I can personally vouch that every word which it contains may be relied upon as absolutely true and correct in every particular.
T. R. VANZANDT,
304 and 306 Park Avenue.

Years of Suffering and Distress Promptly Cured by Dr. Lighthill.

Mr. J. V. Z. Griggs is a well-known merchant of Rocky Hill, N. J., and a prominent resident of the town, having for years been the Treasurer of the borough. For a long time he has been a sufferer from bleeding piles of the very worst kind, until he was completely cured by Dr. Lighthill, as will be seen by the following statement:
ROCKY HILL, N. J., Jan. 9, 1893.
TO THE PUBLIC:
I have often read of the wonderful cures which Dr. Lighthill effected in cases of piles, but I feel confident that no case ever came under his professional notice as bad as mine when I placed myself under his treatment. The pain which I suffered was simply terrible; in fact it was so intense that at any time I would have preferred to have a tooth pulled than to have an operation of the bowels.
And what made my condition so much worse was the constant protrusion of the pile tumors, which caused the most severe suffering, and was often attended with hemorrhages so profuse that the blood came in streams and fairly flooded me. I had despaired of getting relief, when I applied to Dr. Lighthill, but I am most happy to state that he effected a complete and perfect cure in my case in a few weeks' time. The piles have disappeared, the pain, distress and discomfort is gone entirely, and I feel, indeed, like a new man. Nothing but my heartfelt gratitude to Dr. Lighthill and my desire to bring relief to those who suffer as I have done, prompts me to make this public statement.
J. V. Z. GRIGGS.

TARIFF JEOPARDIZED
House Conferees Reject Senate Amendments.

Mr. Wilson Makes a Statement and Declares in Favor of Never Adjourning Until the Duty on Refined Sugar is Repealed—The President's Call for Action—Free Ray Materials the Keynote of Tariff Reform—What Senator Hill Says.

WASHINGTON, July 20.—The first battle in the open over the differences between the house and senate was fought yesterday in the house of representatives in the presence of a large and deeply interested audience. For the first time in a month the galleries were full, and nearly every seat on the floor was occupied. Hostilities began immediately after the adjournment from noon, when Mr. Oursler (dem., Ohio) presented an order from the committee on rules providing for two hours' debate on the report of the conference on the tariff bill and restricting the action of the house to voting on a motion to insist on disagreement to the senate amendments in bulk. The order was antagonized by Mr. Reed (rep., Pa.) and Mr. Wilson (dem., Ohio), the latter of whom wanted an opportunity to vote separately on the sugar schedule. It was agreed without a division, however, and then Mr. Wilson (dem., W. Va.), chairman of the committee on ways and means, with his face hidden under a handkerchief binding a bandage about his eyes, in which he was suffering severely, reported the failure of the conferees to agree, and moved that the house insist upon its disagreement to the senate amendments. Speaking to the motion Mr. Wilson gave a very frank statement of the differences between the house and senate conferees and the reasons therefor. He was frequently interrupted by applause from his political associates, which arose to a tumultuous when he declared in favor of never adjourning until the duty on refined sugar had been repealed, whatever the price of sugar might be. The bill in conclusion he had read a letter from President Cleveland approving the features of the Wilson bill as it passed the house and advising the conferees to stand firm for the principle contained in the bill at that stage of its existence. After further debate by Mr. Reed, Mr. Wheeler (dem., Ala.) and Mr. Grow (rep., Pa.) the house adjourned until 10 o'clock. The conferees on the tariff bill met at 10 o'clock and the conferees on the sugar schedule met at 10 o'clock. The conferees on the tariff bill met at 10 o'clock and the conferees on the sugar schedule met at 10 o'clock.

Although the consideration of the Indian appropriation bill was closed before the adjournment of the senate on Wednesday, so far as the amendments recommended by the appropriate committee were concerned, the bill occupied the attention of the conferees during all of yesterday's session. The main cause of delay was an amendment offered by the senator from Washington, Mr. Squire, to allow the Payroll Indians holding lands in severalty on their reservation near Tacoma, in that state, to sell portions of them. The discussion of this question occupied over three hours, and was finally decided in the negative—the amendment being laid on the table by a vote of 26 to 19. The bill was finally passed.

The conferees report on the diplomatic and consular appropriation bill was agreed to, and the statement was made by the chairman of the committee on appropriations, Mr. Chandler, that the conferees had agreed to the sundry civil and the deficiency—would not be reported to the senate for some days yet.

The consideration of the Indian bill was temporarily suspended at 3 p. m., when the message from the house asking a further conference on the tariff bill was laid before the senate, followed by an oral report from Mr. Voorhees (ind.) and chairman of the finance committee, to the effect that the conferees had not been able to agree. He gave notice that he would call the matter up for consideration and action this morning, and Mr. Hill (dem., N. Y.) followed that up with a notice that he would then move to instruct the senate conferees to vote to place coal and iron on the free list, and would address the senate on the subject. With a smile of sarcastic humor Mr. Mansderson (rep., Neb.) asked Mr. Voorhees whether there was any message from the president to the senate on the free list, and was responded to in three brief words, delivered in a somewhat sad tone, "Not to me." The senate at 6:15 adjourned until to-day.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder
ABSOLUTELY PURE

Under our party platform and in accordance with our declared party purposes, sugar is a legitimate and logical article of revenue taxation. Unfortunately, however, incidents have accompanied certain stages of the legislation which will be remembered to our shame, these have arisen in connection with this subject, a natural democratic animosity to the methods and manipulations of trusts and combinations. Loopholes to shoring in this feeling, and yet it seems to me, we ought, if possible, to sufficiently free ourselves from prejudice to enable us coolly to face the considerations which, in formulating tariff legislation, ought to guide our treatment of the tariff bill and the tariff reform.

While no tenderness should be entertained for trusts, and while I am decidedly opposed to granting them, under the guise of tariff taxation, any opportunity to further their peculiar methods, I suggest that we ought not to be driven away from the democratic principles and policy which lead to the taxation of sugar by their, quite likely exaggerated, that in carrying out this principle and policy we may indirectly and inordinately encourage a combination of sugar refining interests. I know that in present conditions this is a delicate subject, and I appreciate the depth and strength of the feeling which its treatment has aroused. I do not believe we should do evil that good may come. But it seems to me that we should not forget that our aim is the completion of a tariff bill, and that in taxing sugar for proper purposes and within reasonable bounds, whatever else may be said of our action, we are in no danger of running counter to democratic principle.

In the conclusions of the conferees touching the numerous items which will be considered by the people are not afraid that their interests will be neglected. They know that the general result, so far as they are concerned, will be to place home industries on a footing of equality with those within their reach, and to insure better and surer compensation to those who toil. We all know that a tariff covering all the varied interests and conditions of a country as vast as ours must of necessity be largely the result of honorable adjustment and compromise.

I expect very few of us can say, when our minds are perfectly clear, that all its features are entirely as we would prefer. You know how much I deprecate the incorporation in the proposed bill of the income tax feature. In matters of this kind, however, it is not a question of preference, but of the recognition of democratic doctrine, we are willing to defer to the judgment of a majority of our democratic brethren. I think it is a general agreement that this is a party duty.

This is more palpably apparent when we realize that the business of our country timidly stands and watches for the return of our efforts to perfect tariff legislation, that a quick and certain return of prosperity waits upon a wise adjustment, and that a confiding people still trust in our efforts to perfect tariff legislation. The democracy of the land pleads earnestly for the speedy completion of the tariff legislation which their representatives have undertaken, but they demand not less earnestly that no stress of necessity shall tempt those they trust to the abandonment of democratic principle.

Yours very truly,
GROVER CLEVELAND.

SENATOR HILL ON THE LETTER.

Says It May Complicate the Whole Situation.
WASHINGTON, July 20.—When asked what he thought of the president's letter, Senator Hill replied:
"In the language of the novelist, the plot thickens. I prefer to say nothing at this time as to the propriety or wisdom of the letter. It comes rather late, and may complicate the whole situation and defeat all tariff legislation whatever. If the president, instead of writing a letter, had exercised his influence to send me in getting votes for free raw material when I was making the fight therefor in the senate the present unfortunate complication might have been avoided."
"I trust that there will be more votes now for free raw material when I bring forward the proposition again in the senate, which I expect to do. The skies are becoming brighter."

SENATORS DISPLEASED
Disagreement in the Tariff Conference the Cause.

They Declare, It Is Said, That the Senate Idea of a Tariff Should Prevail or There Would Be No Bill—Messrs. Smith, Gorman and Bruce Will Warn the Conferees.

WASHINGTON, July 20.—From talks with senators the indications are that the president's letter to Mr. Wilson will precipitate an animated discussion on the floor of the senate to-day.
There will be no limit to debate and before the consideration of the conferees report an incidental and the letter as the main subject is over, some very plain language, it is asserted, will be used by some of the senators who have been designated as the "conservative" members of the senate.

It is also said that three of these senators will make their replies when Mr. Voorhees calls up the report immediately after the reading of the journal. These three are Senators Smith, Gorman and Bruce. Mr. Hill will also speak.

Mr. Smith, if the rumors about him be true, will make a speech in which he will warn the conferees that they have violated the faith placed in them when they receded from the senate amendments and agreed, as has been reported, that they would accept the house schedules on wool, cotton, etc. He will outline the situation as he sees it and will, it is said, in conclusion tell the senate, the president, the country and the house of representatives that they should accept the senate bill or he will at all so far as his vote is concerned.

Mr. Gorman, who was in close conference with Mr. Jones and Mr. Murphy all the afternoon, went home as soon as the senate adjourned. It is said that he, too, will echo the sentiments that Mr. Smith will utter and will warn the house that if it persists in the course adopted by it yesterday it will end in defeating a bill which is for the best interests of the whole country and which was the product of very serious attention on the part of the senate and formulated as the only bill that could hope to meet with success. Mr. Gorman, if the statements of his friends mean anything, is more firmly grounded in his position than ever. He will outline the situation as he sees it and will, it is said, in conclusion tell the senate, the president, the country and the house of representatives that they should accept the senate bill or he will at all so far as his vote is concerned.

There was a rumor about that the senate democrats were now declaring that they should stand with the house and vote for a tariff which should prevail or there would be no bill. The idea also prevails in the senate that the bill will not be defeated, but that the house will ultimately give in rather than see no tariff bill passed at all.

Mr. Gorman, with some indignation, denied the story that had been circulated to the effect that he had surrendered cool and given his consent that it should go back to the free list.

A BOY'S FATAL MISTAKE.

Supposed His Brother Had on a Bullet-Proof Coat.
WICHITA, Kan., July 20.—Garfield Wilkinson, aged 14 years, was killed by his brother Willie, aged 11, and the mother of the boys has become violently insane from the shock of the tragedy. The story is particularly sad. The dead boy had been engaged for some time in making what he thought would prove a bullet-proof coat, fashioned, he imagined, after one of the recent hit men, and having completed it, he put it on and gave his younger brother a pistol and told him to shoot at him. The boy's aim was good and his brother fell dead, the bullet having pierced his heart.

He returned in a short time and began firing at Fagan. Fagan, 26 years old, was the victor of John E. Fagan's saloon at 300 Columbia avenue, by the proprietor because he refused to pay for a drink. A TRUE TEST OF BEAUTY.

Only the Fairest and Finest Face Can for a Moment Stand It.

Next time you go to a party, watch some of the women as they stand under the chandeliers. Notice how a light shining from above brings out unperceived lines and angles in all but the youngest and fairest faces. It is a severe test of beauty.

Perhaps you will wonder at the number of this, lanky woman. They all want to be plump. Why are they not? They get enough to eat, surely. Oh, yes, but they don't digest their food, and there's no try without consumption of food. A pre-digested food called Faskola is welcomed by these women; they find in it flesh forming properties.

They are told that it is nourishment, not medicine, and that its good effects are lasting. Such letters as this one from J. C. Kenyon, druggist, Oswego, N. Y., tells the story:

"Two of our best ladies told me this week, one that she had gained five pounds the other two pounds, entirely through the use of your great food, Faskola."

This is the testimony of Mrs. Chas. B. Lothian, 111 West 45th street:
"For the past five years I have suffered from gastric indigestion and have tried all so-called remedies for indigestion, besides courses of treatment from physicians all over the country, from which I only received temporary relief. My symptoms were heart burn, flushes of heat, dizziness, bloated feeling after eating, depression of spirits, severe and acute attacks of constipation and inflammation and chronic constipation."

"About two months ago, through an advertisement in the New York Herald, I resolved to give Faskola a trial, although without any faith in it, owing to my past experience with so-called remedies for indigestion. After taking one small bottle of Faskola I felt better, very much better. I have now taken only seven small bottles, and have never felt better in my life. I have gained ten pounds and now anything my appetite craves. All my friends say, 'Why how fat and well you look; what have you been doing?' My answer is always 'Faskola.' I have recommended it to all my friends and to strangers, as I feel it my duty to do so owing to the great benefit I have derived from it."

"A friend of mine has taken only three small bottles and says she feels like a new woman. This may seem rather fulsome praise, but I conscientiously feel that I cannot say too much in praise of Faskola."

All druggists sell Faskola. Descriptive pamphlet sent free on application to the Faskola Food Co., 30 Beede street, New York.

MANY ARE INDICTED Wholesale Rounding Up of Railroad Strikers.

Forty-three Individuals To Be Arrested and Held Will Be Fined at \$10,000 in Each Case—Considerable Apprehension Felt in Labor Circles as to Who Is Named.

CHICAGO, July 29.—The drug-net of the Federal law was cast into the waters yesterday, and when the ropes were drawn taut, and when it was pulled to shore, it was found to contain no less than twenty-nine indictments charging offenses against the interstate act and the laws relating to the transportation of the United States mails forty-three individuals. It was, as District Attorney Mitchell put it after the wholesale rounding up of everybody and anybody concerned in the railroad strike within the jurisdiction of the Circuit court for the northern district of Illinois.

Just as soon as the indictments had been laid upon the desk of the court they were signed by an attaché of the district attorney's office and locked up in a vault in the quarters of Circuit Clerk Burnham. The court in the meantime had fixed the bail on each of the indictments in the sum of \$10,000 against each and every individual concerned.

Several of the directory of the railway union have lectured during the past week to organize loggers east and west, but they are equally liable to arrest, though they are not indicted within this jurisdiction. When asked regarding the method of procedure in such cases, District Attorney Mitchell replied:

"We have no authority under the United States statutes to secure the arrest and holding of any one by telegraph. All that we can do is to forward certified copies of the indictment and warrant to the jurisdiction within which the people we want may happen to be at the time. They can then be arrested and brought before a United States commissioner. Ample proof must be afforded that they are the person or persons named in the warrant, and this having been established with satisfaction to the commissioner, they can be held in bonds to appear for trial in this city whenever wanted. We cannot, however, enforce arbitrary arrests or extradition."

The news that the grand jury had returned an omnibus indictment obtained wide circulation in labor circles last night and was productive of considerable apprehension both at the headquarters of the labor union and about the resorts of other labor leaders. The large number of indictments gave rise to the belief that representatives of organizations who had taken part in ordering a general tie-up had fallen under the ban of the grand jury, and it was pronounced with this impression that the report obtained considerable circulation that the Federal Master Workman Sovereign of the G. L. was one of those for whom a warrant would be issued. We cannot, however, enforce arbitrary arrests or extradition."

DISTRESS AT CONSTANTINOPLE. Sufferers from Earthquakes Homeless and Half-Fed.

CONSTANTINOPLE, July 29.—The suffering caused by the earthquakes is more widespread than was at first supposed. The loss of property is felt more keenly every day by the homeless and half-fed families who have camped in the parks and cemeteries. The local relief funds are entirely inadequate to the emergency here and in the provinces, especially in and around Adana, Tchaikalis, and Gallata, the sufferers have been left helpless in their wretchedness.

As soon as communication with the provinces shall be restored, the reports of privation and disease will probably begin to reach this city.

The agreement in question will be valid for two years.

THE RACE IS WON Pierce Cure

I was taken sick with congestion of the liver and the doctors could give me no relief, but after using five bottles of "Pierce's Cure," I am now a well man. I weighed 165 pounds before taken sick, and I was reduced to 120 pounds in sixty days. For any one suffering with liver troubles as I was, I would advise them to use the "Pierce's Cure." It is a Golden Medical Discovery. "At once, before it is too late."

A PUBLIC BENEFACITOR.

THEY ALL SAY THE SAME. Don't hesitate, but Call and Be Convinced That Every Statement We Make Is True.

To those who do not already know that there is established in Newark, at 105 Halsey street, a physician who stands in the foremost rank of the profession, who is lauded by the leading colleges of the country and who can prove by witnesses right here in Newark (not by one, but by hundreds) that he has succeeded in curing cases that have been utterly given up by other physicians, and good ones too. To those who do not see these facts we state that any person, rich or poor, old or young, is welcome here and receive examination and advice free of charge. Thousands praise the day they came to us for treatment. There is no guess work, no experimenting, no painful operation. No matter how difficult the case, no matter how much of the physician's time it may consume, the diagnosis will not only be thorough, it will be absolutely free. There is no taint of quackery or deception; no claim or statement in made that is not borne out by facts and living witnesses.

Mrs. Abby A. Ray, late of 56 Grove street, East Orange, who now lives at 400 Ellmore street, Excelsior, Mich., writes, under date of January 12: "The medicine sent me consumed the diagnosis will not only be thorough, it will be absolutely free. There is no taint of quackery or deception; no claim or statement in made that is not borne out by facts and living witnesses."

That is one of many letters that we receive from our broken-down system that it would like to testify to your great success in my case. I am feeling as well now, in fact better, than I had ever hoped to again."
