A RECKLESS GENERAL.

How the Duke of Wellington Tried With Great Danger.

One day the Duke of Wellington's French cook came to him for orders.

"Oh, get anything," said the Duke, impatiently. "I never think of what I put into my stomach."

The chef was horrified. Whether Wellington was punished with indignation or not, history does not tell. One thing is certain. People who don't care what they eat soon find themselves unable to eat anything at all without agony; their offended stomachs go on strike. Natural digestion ceases.

What is to be done, then? One cannot live without eating; the only possible help is in a pre-digested food, which science has furnished in the form of Peckola. It replaces wasted tissue and invigorates the entire system without aid from the stomach. Willard Dietrich, of Bridgeport, N. J., says:

"I have been a great sufferer from dyspepsia and indigestion until I was induced by a friend as a last resort to try Peckola. I am more than pleased to testify that Peckola has worked wonders in my case. As I have no distress after eating, and eat whatever the appetite craves I advise all like sufferers to use Peckola."

This is the story of P. A. Hank of Valparaiso, Ind.: "Before I used Peckola I was very weak. I could not digest anything. I tried everything to gain strength but failed. My doctor told me to use Peckola and I am satisfied that it is the only thing for a weak stomach."

"I have gained two pounds in a week. There is nothing that helps indigestion like Peckola. I have tried about twelve doctors and have been suffering more than twelve years."

"At times I could work only two days a week. For nearly three years I spent all I had for doctoring and had given up hope."

"Any up-to-date druggist will furnish Peckola. If you want to know how it works, send for free pamphlet to the Pre-Digested Food Co., 30 Beade st., New York."

Graduated from the Printers' Case.

She will leave the dock today.

BOMBARDING KOREA

Japanese Gunboats Start the Fight.

European Powers May Step in to Participate in the Conflict—Alarm Felt in London Over the Situation. Japan Emphatically Insists Upon Certain Reforms.

LONDON, July 24.—The Central News says it has been learned from a high source in London that the relations between China and Japan have grown much more serious within the last forty-eight hours. Japan insists emphatically upon certain reforms of Korea's internal administration while China insists upon Japan's demands with equal determination.

Under no circumstances will China allow Japan's claim to the right to interfere.

The Earl of Kimberley, secretary of state for foreign affairs, had long conferences with the Chinese and Japanese ministers. He urged upon each the great need of moderation and forbearance in both Tokyo and Peking and spoke emphatically of the dire consequences of war between the countries. His representations, while received with great courtesy, failed to elicit an affirmative response from either of them.

The Central News has just received this dispatch from Shanghai:

"The telegraph between Peking and Shanghai has been restored. The rumor that war has been declared is denied officially, but there seems to be no hope of a peaceful settlement."

"Apparently war can only be averted by the interference of the European powers to protect their common interests at lives or their subjects from the injury which Japan's action threatens to cause them."

"It has been again reported that Japanese gunboats have begun bombarding the Korean coast town."

WOMEN MISSIONARIES IN CHINA

Stories of Their Danger from Natives Greatly Exaggerated.

BOSTON, July 24.—Miss Nichols, of the Methodist New England society, said this morning, regarding the exposed condition of women missionaries in China, reported by George L. Loring.

"The girls sent out by Dr. Simpson go there on their own responsibility and are not under the protection of any church or society."

"We have 14 lady missionaries in northern China. Missionary societies are recognized by the government and the consuls, and our missionaries are under their protection. We never hear any complaints, although recently we received word that one of our women missionaries in Japan had been stoned, and it is feared the same will be her fate."

"We are constantly receiving letters from missionaries telling us not to believe what we see in newspapers, as the reports sent out from China and other far away places are very much exaggerated."

"Very sensational reports have been sent out about the troubles in Korea, giving the impression that missionaries are in danger there. The letters we receive, however, say these reports are greatly exaggerated, and that a missionary has been killed."

"The girls sent out by Dr. Simpson, I presume, go there under much the same conditions as those who are sent out from Boston. They go there without any promise of protection or salary. Simply going out with faith or with foolishness, I don't know which."

"Our missionaries are sent out on salary and they are protected. A high wall is built around them and a high wall built around it, then a trustworthy native is secured to guard the gate."

"The girls sometimes take long journeys, but they always have converts whom they can trust, to accompany them. The sensational stories sent out are not at all justified, so far as the missionaries sent out by church societies are concerned."

Believes the Powers Will Back Japan.

BELLEVILLE, July 24.—The Vineland Zeitung expresses confident belief that Japan will be backed up by the European powers in her dispute with China. War between the two countries, it is predicted, will inevitably result in the extinction of Korea as a state.

SUCCESSFUL ARMOR TESTS.

Carnegie 17-inch Harveized Plate Gives a Good Account of Itself.

WASHINGTON, July 24.—The Carnegie 17-inch Harveized plate that was so easily pierced by the 13-inch gun at Indian Head July 19 gave a good account of itself yesterday afternoon by the committee on rules.

The first or cracking shot which attacked it, with the comparatively low velocity of 1,410 feet per second, penetrated 13 inches and rebounded 35 feet, being recovered whole. The second, with 1,856 feet velocity, was also recovered entire, after going through armor backing and being damaged through the woods for a hundred yards. These were Wheeler-Sterling shells, however, and it was claimed by the Carnegie officials that they were extraordinary in hardness, and that superior to the Carpenter shells.

As the plate has now stopped three out of four shells it is believed the navy department will not demand further trials, but accept the lot of armor.

EULALIE IS WEALTHY.

The Story of Her Being Destitute in London Absolutely False.

NEW YORK, July 24.—The Spanish people in this city are discussing a report to the effect that the Infanta Eulalie is at present living in poverty in London. All in denying the story.

At the office of the Spanish consul a reporter was informed that the report was without any foundation in fact. One of the attaches of the consulate said:

"The report is absolutely false in every particular. The Infanta Eulalie, in the first place, is a wealthy woman, independent of her annual income from the government of something in the neighborhood of \$60,000. Besides that, her husband is worth \$30,000,000, so you see how absurd that cable report is."

BIG HOTEL IN DANGER

And Cottages Threatened at Long Branch.

A Treacherous Sea Rapidly Washing Away the Bluffs—Residents at Threatened Points Ready To Leave at a Moment's Warning—Damage at Seabright and Other Places.

LONG BRANCH, N. J., July 24.—The huge rough sea and northeast wind are causing great havoc along the bluff from the new iron pier to Seabright. This surf is eating away hundreds of feet of the ocean driveway north of the pier, and from 60 to 100 feet of the bulkheads have been carried away and ugly gaps have been made in the roadway to the extent of 60 feet near the Brighton hotel.

The summer houses of Mrs. Scott and Judge Brown, adjoining the hotel, are in danger of being washed out into the sea. The surf has eaten its way to within 50 feet of the houses, and the waves are making big headway.

Groups of men are stationed at this point and are in readiness to move as much of these buildings as possible should the occasion require.

The Seabright avenue the surf is also causing much damage and great lengths of the bulkheads have been torn away by the fierce waves. The occupants of the hotels and cottages at this point have their goods packed and are in readiness to vacate at a moment's notice.

Great fear is entertained by those near the Brighton hotel, as foot after foot of the bluff is being carried off with every wave.

At Seabright the sea is extraordinarily high, and it is feared that much damage will be done. The storm at sea is severe. The huge breakers dash upon the shore along the coast with terrific force, and in almost every instance some damage is done.

FAIR OF THE COACHMEN.

The Beneficial Association begins a Week of Trade and Amusement in T. A. B. Hall.

The members of the Coachmen's Beneficial Association held possession of T. A. B. Hall last night. They opened their first fair there, and they started it in a way that shows that the outcome will be more than satisfactory. Each member is enthusiastic, and each has friends who will turn out to help, especially when they gain so much pleasure from the way in which they can assist.

To start the occasion properly, dancers were allowed to enjoy themselves on the floor to the music of E. M. O'Reilly's orchestra free. They took advantage of the opportunity and danced till the end of the evening. Dancing will be charged for hereafter. An extra attraction for Thursday night will be that the music will be kept up all night long, with extra music and guests from out of town.

The floor manager of the evening was P. Kieley. The committee that did the decorating, aroused the interest of the members, obtained the gifts and arranged other details consisted of (Misses) Harry Forrester, James Wierman, Daniel Dugan, Charles Lang and Dominick McNamee. Among the women who assisted were the Misses Lillian Gill, Katie Savard, Katie Dugan, Katie Mahoney, and Nellie and Abigail Walsh of Amherst, Mass.

A Credence bicycle is being contested for by Charles Lang and Frank Connolly. Other contests are to be arranged during the week, and features that will make the fair more successful will be added.

A movement will be made to have the outlying district brought under the borough organization.

KILLED BY THE BLAST.

HORRIBLE DEATH OF A SCOTCH PLAINS LABORER.

His Head Nearly Blown Away by the Explosion—How it Came About No One Can Tell.

An Italian laborer met with a terrible death at a stone-crusher in Scotch Plains yesterday afternoon. His head was blown off by a blast when it exploded and blew off the front of his head.

His name was Roscoe Dinizio. He was a laborer employed by John Wahl at his crusher by his quarry on the mountain-side, at the side of the road to Feltville. It is just this side of Feltville's paper mill. Dinizio has been employed by Wahl since he came to this country two years ago. He has done all of the blasting necessary to break away the wall of rock.

He prepared two blasts yesterday afternoon. One he intended should explode about half a minute after the other. The holes had been drilled in the rock at the bottom of the quarry near the cliff which has been formed by the taking away of rock. At 2:30 he inserted the charges and all was ready for the blasting.

The men stopped work. Wahl and a workman went to the road to warn carriage drivers. Foreman Hees, the engineer and several Italian laborers who are employed about the quarry sought safety by going into the little shanty at a sufficient distance away, as they were accustomed to. Dinizio was left outside as usual, to fire the blasts and to get to a place of safety behind the house, or by running to another part of the quarry.

What Dinizio did after the men entered the shanty, no one knows. They heard the first blast explode. An interval passed, and they heard the other. When they went out after the two, they found the Italian dead by the rocks the second charge had sundered.

He had evidently leaned over rocks which were lying about the blast hole just as the charge went off. A story of suicide was started, but it had no place in the thoughts of those who knew the man and the circumstances. Perhaps the second fuse was damp and didn't burn quickly, bringing the man out from shelter to light it again, and burning down to the charge just as he leaned over to light it. Perhaps the fire in the fuse went out, Dinizio lighting it again, miscalculating the time it would take to burn to the charge.

However it happened the man's death was terrible. His body had been thrown back. His face had blown away, the brains with it leaving only the back of the skull. The rest of his body had not been reached by the force of the explosion.

The man's mother came to the scene of the accident, saw the body of her son, and became frantic with grief. She could not be pacified. The remains were taken to the home of the Dinizio family, work having been sent to Undertakers Terrill & Cole of West Second street.

Roscoe Dinizio, the man who was killed, was 35 years of age. When he came from Italy two years ago he left there a wife and a blind child. He lived with his mother and brothers in a house which they own on the "commons", a place of land lying along the Feltville road toward the mountains where a number of Italians have their homes. His brothers, James and Williams, are both employed at Cook's crusher, next to Wahl's.

Funeral services were arranged for this afternoon at 2 in the Catholic Church at Rocky Hill.

Work at the crusher has been stopped.

James F. Foyle of Paterson, a collector for the Metropolitan Life Insurance Company, was killed in that city at 10 this morning by a runaway team, which rushed toward him and turned suddenly throwing the pole forward. He was struck in the breast and impaled against a building. He died instantly. He was 35 years old and leaves a wife and child.

No Mixed Shows and Dresses.

In every complete line of summer shoes there are from six to eighteen good browns, all the same price and all good styles in their proper places. Brown is an art shade, but it takes an artist to use it effectively. A brown shoe needs a brown stocking every time, and brown shoes and stockings are most effective against brown. The dress may not be brown, but a ruffe, band or hem of that shade should come near the leather; otherwise the foot is conspicuous. Many well dressed women never mix their shoes and dresses.

The Business Woman's Uniform.

Look at nine women out of ten and you will see that the business dress for working women has solved itself. It consists of a shirt waist dark skirt and hat. This costume is cool and comfortable and saves heavy laundry bills. It has been in vogue for three summers now and is more popular than ever.

Nor is it the costume of the working girl alone. The belle who shops and the clerk who waits on her wear exactly the same costume. Verily it is a great color—Indianapolis.

Food For Thought.

THAT ENGAGEMENT.

THE FALSE STORY OF THE "ALLIANCE" REPEATED.

The Press Alone of Plainfield Papers Denied the Story Yesterday—Connection of the Simmonds with the Peixotos.

The Courier last evening referred to the "exclusive announcement" of that paper of the engagement of W. Lee Simmonds to the daughter of President Peixoto of Brazil. Accompanying the second statement of the paper that such an engagement existed were alleged details of the meeting of the two, their engagement, and a description of the young woman, who is said to have been "the reigning belle in Rio Janeiro society for two years". The News remarked that the engagement was one which had been known for some time, and entered into an improvement on the story sent from the Courier office to The Herald.

The Press yesterday published the complete detail made by the Simmonds of the reported approach of an "international alliance". The Press took the trouble to investigate the story, the others seized upon the opportunity to "settle accounts" with a false announcement. False in every detail were their accounts.

Statements like these bring great annoyance to the family, although the Simmonds regarded the story in The Herald with amusement mingled with natural surprise and indignation.

Herman Simmonds has lived in Plainfield since 1888. He is the general manager of Steinwender, Stoffregen & Co., of 87-89 Wall street, New York, one of the three largest coffee importers in the world. The son referred to, W. Lee Simmonds, is the manager of the polish coffee department of the same business. The younger Simmonds has never been to Brazil, and so he never met the President's daughter whom The Courier says he is about to marry. His father's trip to New Orleans was made for the firm which he employed.

He started a branch house, making the complete list of locations of such branches: London, Paris, Chicago, St. Louis, and New Orleans. He returned Saturday for a stay with his family on Watchung avenue, and expects to go South again Thursday or Friday of this week. It is possible that the family will spend part of the Winters in New Orleans.

The Peixoto family with which the Simmonds are acquainted are residents of Paris, of course being descended from the old family of Peixotos of Spain. The family name is Madure. Their friendship was brought about by the education of the Misses Simmonds in Paris. There they met the Misses Peixoto in Madame Testan's school. The girls became fast friends and last year Miss Victoria Madure Peixoto spent part of the Summer with her married sister in New York, and visited at the home of the Simmonds. June 14 last she came again to this country on the Britannia and came to visit the friends whose acquaintance she formed at school.

The young woman is not yet 19. She is a cousin of President Peixoto of Brazil. She has never been to that country. Whatever may be the feeling between W. Lee Simmonds and the young friend of his sisters, it is certainly not proper for public comment nor public print. No engagement has been announced.

Miss Ackerman's Reward.

Miss Jennie Ackerman had a gift of £1,000 offered her in Australia, but declined it, saying she preferred to leave it for the women's white ribbon work. Such an entry of record was made at her refusal that the matter seems to be still pending. Miss Ackerman, who has invested seven years of work in Australia without fee or reward, except as it came in collections, might well allow friends to give her this deserved testimonial—Boston Woman's Journal.

"Queen Elizabeth."

The town of Williamsbridge, N. Y., is controlled politically by a woman "boss." She is Mrs. Elizabeth Helman and is known as "Queen Elizabeth." She is postmistress, deals in real estate, is a lobbyist at Albany, is a nobby public and has made Williamsbridge a good, bustling town out of the sleepy village it was. Incidentally she has made \$150,000 during the past four years. She is a comely widow, "fair, fat and 40."—Chicago Tribune.

SEWERS IN THE BOROUGH.

No immediate action on the introduction of a system expected.

The committee appointed by the Borough Council to confer with a similar committee from the city of Newark, N. J., on the subject of the sewerage system, held a meeting last evening. The members were Councilmen Lounsbury, Peck and Neal. Mayor Neidham attended the meeting.

No definite action was reached in the matter of whether the borough should join the city in putting in sewerage. It was thought best that each of the committees should have a separate meeting before discussing the matter together.

The tendency in the borough seems to be to act slowly in the matter. The improved system is not needed so much as it is in the city, say those who wish to delay the work, and it is not thought that the borough can legally build the lines with assessments on neighboring property. The proposition to raise the money by taxation would meet with much opposition, as those who owned property which the sewers did not reach would only be paying for the improvement of the property of others, and the consequent decrease in the relative value of their own. The comparison between the improvement of manufacturing streets and laying sewers does not bear examination. The sewers are local conveniences entirely, while it is possible for everyone to use the streets. All who wish will have opportunities to attend meetings and express views on the question.

CHRISTIAN ENDEAVOR.

For the union meeting of the Christian Endeavorers of Plainfield and the vicinity, which will be held in Trinity Reformed Church Friday evening, the following programme of the reports of delegates to the Cleveland convention has been prepared:

Christian Endeavor on Wheels—Miss Emily Coriell.

Decorations and Hospitality at Cleveland—W. J. Foster of Bensenville.

Musical at the Convention—Horace J. Martin.

Fellowship as Shown at the Convention—Rev. John Hart of New Jersey.

Impressive Scenes—Rev. T. E. Davis of Round Brook.

The report of President Fred Smith, the delegate from the Trinity Reformed Church Christian Endeavor Society to the International convention in Cleveland, was given at the meeting of the society last evening, a large number being present. Miss Sadie Bearink presided.

For 35 minutes Mr. Smith kept the audience interested in the acts and words of the delegates and speakers. He was hampered in giving a clear idea of the events by having to keep from encroaching upon the territory to be covered by those who will make addresses next Friday evening at the union meeting.

It was an excellent paper, however, and served to give those who heard it a knowledge of parts of the general work that will of necessity be omitted at the coming meeting. The president referred to each speaker, telling of his manner, of his theme, of the effect of his remarks, and giving names of thought from the different addresses. At the close the chairman expressed the thanks of the society to its president. Another feature of the meeting was the short talk given by Horace J. Martin. He spoke of the work in the Junior Endeavor movement, as shown at the rally of the Juniors.

How in a Race on Race Street.

Seven colored residents of Race street came before Borough Magistrate Croasley last evening, charged with quarrelling last Friday evening. They were Quarrel Taylor and wife, Mrs. VanBuren, and her son, Charles VanBuren, and Frank B. and wife. The disturbance originated with a fight among colored children related to the defendants. The Magistrate suspended sentence with a reprimand, saying that if they were caught quarrelling again they would be fined or sent to Somerville for ten days each.

Against the Telephone Trust.

A meeting is called for in the Board of Trade rooms this evening of all members who are interested in the Board. It is expected that the result of the meeting will be the formation of a mutual, local telephone company. The projectors claiming that by combination in this way they can furnish a local telephone service that will be satisfactory, both from its efficiency and because it will include more people in the circuit than the company now in the field.

Used for Years.

The tobacco box furnished by Groceryman Newton Spencer for the use of the Cracker Barrel Club and occasional callers is now 38 years old. During all that time it has never been without enough tobacco in it to furnish free of cost the pipe of the guest.

No More Found Yet.

Dr. L. S. Peacock is continuing to examine cows which their owners fear are affected with tuberculosis. He has not discovered another case of the disease.

Contemplate a Reduction.

The Plainfield Gaslight Company are considering the advisability of reducing the price of gas for illuminating and cooling purposes.

—Clam chowder will be served free to the patrons of the Manhattan Hotel on Somerset street tomorrow night.

A president and a clerk will be elected at the organization of the newly-elected borough school trustees to be held in the school this evening.

A Show.

QUEEN CITY INSTALLS.

Members of the Odd Fellows Start to Serve Six Months in Office.

It was installation night with Queen City Lodge, No. 44, I. O. O. F., last evening. Past Grand Nelson of Memorial Lodge, No. 165, of Elizabeth, came to Plainfield with his staff, and conducted the necessary ceremonies. The following are the officers:

Noble Grand—Joseph E. Mosher. Vice Grand—Frank Smith. Secretary—John Anderson. Warden—Charles H. Randolph. Conductor—William H. Ford. Outside Guardian—Thomas Wells. Inside Guardian—Thomas Young. R. S. of N. G.—T. C. Smith. L. S. of N. G.—E. W. Titworth. R. S. of V. G.—A. Barber. L. S. of V. G.—John Allen. Chaplain—P. T. Hicks. R. S. S.—Peter VanVleet. L. S. S.—Charles Jeter. Organist—J. Moore.

The installation over, the members and their visitors, to the number of 73, sat down to an elaborate banquet in the Hotel Granada. General jollity prevailed. Speeches were made by the new noble grand, and by other members. They enjoyed themselves in the way that Queen City always does on a festive occasion.

A PICNIC THERE A PLEASURE.

The Beach to Which St. Mary's Church Excursion Goes.

The congregation of St. Mary's Church are prepared for a day of healthful pleasure at Highland Beach when their excursion takes place Thursday next. This great day Sunday picnic is said by those who have visited it to afford greater diversity of pleasure than any other spot on the Jersey coast. Surf bathing, still-water swimming, calm boating waters, are afforded by the ocean and the Shrewsbury. Across the river, cool, shady groves adorn the mountain-sides, giving an opportunity for family parties to enjoy a quiet picnic.

Those who revel in the beautiful panorama of Nature's own handiwork, may climb the hills, visit the lighthouse, and enjoy a view of land and water scenery second to none in this part of the country. But, lest these attractions should not be sufficient to make the day enjoyable to all, music has been secured and dancing may be indulged in by all who desire it. Those who fail to attend will miss a great day of healthy outing and pleasure.

ODD LADIES OFFICERED.

Installation of Those Who Will Manage the Local Lodge.

The officers-elect of Odd Ladies, a list of whom were given in these columns yesterday, were duly installed last evening. The installing officers were: R. W. L. G. M. Mrs. Skilling of Eositor; R. W. V. L. G. Mrs. S. Holmes of Hyde Park; and R. W. C. Mrs. H. K. Wilson of Boston.

In addition to the officers the following committees were also installed:

PROGRESS OF THE CAMP.

Work of the New Body of Sons of Veterans.

John Hand Camp, No. 28, Sons of Veterans, received and mustered Frank Hand of Park avenue last evening. The Camp Council, composed of E. T. Bowman, Willard V. Sutton and W. C. Dobbins, were installed by Past Commander Asa Collier of Major Anderson Post, No. 109, G. A. R. Mr. Collier complimented the Sons of the way in which they conducted their meetings.

A Good Welfare Committee was appointed by Captain Lewis who named Herbert McVoy, S. O. Terry, Jr., and Willard V. Sutton.

They will provide occasional entertainments and socials for the members and their friends.

The Camp is progressing in a very satisfactory manner. After the meeting the by-law committee met and about completed their work. The by-laws will soon be ready for the Camp to consider for adoption.

A Painful Accident.

Contractor Thomas Doud of the corner of Duer and Emily streets carries his right arm in a sling, and one of the fingers of his right hand in a bandage. Last Saturday he was working in Cranford coupling two pipes when his hand slipped and the end of one of his fingers was cut off. The bone was not injured, but the small flesh wound caused is very painful.

Hastened to Buy from Crane.

U. B. Crane, the hatter, says that the local notice in The Press yesterday brought him a customer before the ink was dry on the issue. A party bought a ticket for the Baptist excursion and asked for the lunch box and shawl strap he gives with every ticket purchased at his store, notice of which appeared only a few minutes before in The Press.

Horse Loose on Highway.

John Scott, colored, recovered his horse from the possession of the North Plainfield authorities yesterday. The night before, Constable Samuel G. Taylor was driving on Washington avenue when he saw Scott's horse walking, uncontrolled, about the street. He led the animal to the pound, where the owner paid rather heavily for the free passage.

For THE relief and cure of a cold in the head there is more potency in Ely's Cream Balm than in anything else it is possible to prescribe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh, and fever. Used in the initial stages of these complaints Ely's Cream Balm will develop the development of the remedy, while almost instantaneous relief is on record of radical cases of chronic catarrh and hay fever after all other treatments have proved of no avail.

Funeral services will be held this evening at 8, from the home of her grandfather, John Heywer, Rev. Frank Fletcher officiating. The burial will be in Evergreen Cemetery, Brooklyn, tomorrow morning.

Peter V. Huff was appointed agent for the Union News Company in Dunellen recently, and a stand was erected at the railroad station. For the past twenty years Dr. Brakley has been supplying the reading public with New York papers.

When Mr. Huff took charge of the stand he thought the doctor should stop selling papers at the station. But papers were sold there by the doctor's boy and he has not stopped. The agent of the News Company was notified and he in turn sent word to the superintendent of the road. The matter was considered and yesterday morning Mr. Huff received a letter from headquarters informing him that he would be sustained in his position and that he only could furnish papers to those at the station. The News Company have always made a practice of prohibiting the sale of papers at railroad stations where they locate a stand, and this custom is always followed. The doctor has a large number of friends who claim they will stand by him, while Mr. Huff has many friends who think he has the sole right to the privilege. The matter is the subject of considerable discussion and results will be awaited with interest.

DIVISION IN DUNELLEN.

The Vote of a Caucus Held to Nominate School Directors Not Unanimous.

A meeting of the citizens of Dunellen was called last evening to prepare a ticket for the school commissioners election which is being held this afternoon.

About seventy-five people were present. They organized by choosing Rev. Frank Fletcher chairman, and Frank Nelson secretary.

There seemed to be two factions, one from the Dunellen district and one from New Market. The latter thought that Dunellen was entitled to but one representative and a lively debate ensued. After quiet had been restored the following were nominated for Commissioners: A. F. Nelson, Fred Wilcox and Dr. Whitford. It is thought the above will be elected as they appeared to be the choice of the borough citizens.

THE CHANGING OF THE OFFICE.

Netherwood's Sign for Eric De-Hivery Compliments Matters.

Charles J. Neal, postmaster of Netherwood, thinks it more than his people should demand from him, that he should erect a building near the station for the post-office, while the present situation for free delivery may be successful at any time and leave him with the building on his hands.

He says that the office will stay where he moved it yesterday on taking possession, 329 Netherwood avenue, until he has to give up his section to the service of the Plainfield office, or until he is sure he will be permitted to serve his term out. In the latter case he will arrange to make the mail more convenient.

DECORATIVE NOTES.

Paper Screens, Dressing For Beds and Laundry Bags.

Woven letters, red on white, for marking clothing and household linen are now shown set two abreast on double width ribbon in all combinations of initials.

Japanese paper screens are to be bought for a song now, but they are scarcely worth even that price, not that they are not frequently pretty and decorative, but they are very fragile. An unusually careful woman, living all alone and never receiving a guest, might possibly keep a paper screen intact for a month, but under ordinary circumstances the paper is punched through in a dozen places before that length of time elapses. If the man who delivers it at the house has not already burst it with his fingers, it is sure to be set within reach of the heels of a rocking chair, so that the first person who sits down sends the rockers through it, and if there is a projecting corner of a furniture knob anywhere about the screen falls over on it and spikes itself at the first

LAUNDRY BAG.

Just of Mr. Black and gold cloth screens are inexpensive in these times, and it is worth the extra money to have something that will last a little while.

The fashion of dressing up beds in lace spreads and pillow covers laid over colored muslin has given way to a more artistic style of ornamentation. A silk or tinted linen spread is embroidered by hand with decorative floral or conventional designs and bordered with wide, heavy lace, or the spread is made of embroidered squares separated by drawn work and hemstitching.

For persons who do not care to give up space to a large basket for holding soiled linen a laundry bag is the only resort. This may be made of plain ticking or may be elevated to the rank of a decorative object, and it is a laundry bag of the latter description that is illustrated. It is made of strips of heavy canvas embroidered in a cross stitch pattern design separated by bands of colored crocheted insertion. The bottom of the bag is finished with a crocheted edge to match. The embroidered sides are divided by straight plain end pieces to make the bag capacious, and the whole thing is lined. The top of each side has small brass rings attached at intervals, through which are run brass rods which hold the bag in shape.

JUDIC CHOLLET.

AN AMERICAN QUEEN

AND HER FOUR DAUGHTERS.

A Scene on the 3 O'clock Express Between Boston and Worcester, Mass.

(SPECIAL TO OUR LADY READERS.)

It was a pretty sight.

The passengers turned around in their seats to better note the something unusual.

A noble looking woman had entered the car, followed by four daughters, aged from fifteen to twenty years.

The mother had one of those good and wholesome faces that one so rarely sees, but that men and women alike admire. The daughters had the same beautiful, wholesome look. They were well born, well cared for, and without doubt, never suffered from any of the ills that cause many women.

Mothers owe a duty to their daughters that in too many cases is neglected. Nature has provided a time for purification, and if the channels are obstructed, the entire system is poisoned and misery comes.

Mrs. Chas. Hines of Duncannon, Pa., a woman of large experience, in speaking of a mother's duty, says: "Watch carefully your daughters' physical development."

"Mothers should see that nature is assisted, if necessary, to perform its office, and keep their daughters well informed as to matters concerning themselves."

Irregularities, from whatever cause, are sure indications of organic trouble. With irregularities come disturbance of the stomach and kidneys.

Violent headaches often attack the victim, pains shoot everywhere. Extreme irritability follows quickly, and then utter despondency overwhelms the already overburdened life. Unless the obstruction is removed at once, your daughter's whole future will be darkened.

Lidia E. Pinkham's Vegetable Compound will accomplish the work speedily. It is the most effective remedy for irregular or suspended action known.

THE TARIFF DEADLOCK

No Change Apparent in the Situation.

Much Depends on the Success of Mr. Vilas' Motion to Strike Out Differential Duty on Sugar—Democratic Senators Will Probably Cause To-Be-Stricken—Gorman and Others Declare That the President Approved the Senate Bill Before He Wrote the Wilson Letter.

WASHINGTON, July 24.—Not for many a year has the senate chamber, rich as it is in historic reminiscences, witnessed a more stirring spectacle than that which took place there yesterday. The knowledge that Senator Gorman was to take up the tariff bill, and that the president had approved the senate bill before he wrote the Wilson letter, had given the chamber a special interest.

Mr. Gorman was in his best fighting trim. Without a note or memorandum to refer to, or to refresh his memory, he held the floor for nearly three hours, exhibiting powers of oratory which few even of his warmest political admirers would have given him credit for.

While disparaging in his attack on the president, he directed his efforts principally to establishing the proposition that the president had received the assent and approval of both of them; and that it was not until after the publication of the Wilson letter that the hostility of the president to the senate bill had been known or suspected.

Mr. Gorman's assertions on that point were corroborated and with detail by Senators Jones and Vest, and also by Mr. Harris (Dem., Tenn.), who related two interviews which he had had with the president, the last of them while the bill was in conference from which he had come away with the distinct understanding that the president was strongly in favor of the bill as it passed the senate.

Senator White, of California, made a short speech in favor of the motion to insist on the senate amendments and to agree to further conference; and then, without action on any of the pending motions, the senate adjourned.

Gorman's Visit to the White House. As soon as Mr. Gorman reached the city yesterday from his summer residence at Laurel, he was notified of the president's wish to see him, and went at once to the executive mansion. What occurred there in all its detail will probably never be known, but it is learned from a senator prominent in the party that the president expressed a hope that he had been sent back to conference without further delay and that the conference would be able to come together and agree upon a measure that would have the approval of the party.

It is said that Mr. Gorman spoke in very plain language to the president in regard to the position of the senate. He told the president that he had been credited with having in view, in his letter, to put a stop to further debate on the bill in the senate.

Refused To Abandon His Speech. Mr. Gorman is represented, on the same authority, as having told the president that this could not be done, that he had a duty to perform and if he was permitted to reach the senate chamber he would make the speech he had contemplated and which he felt to be justified in view of the defense of the honor and integrity of the senate and the men who had framed the tariff bill.

Immediately after the adjournment of the senate yesterday a number of senators, including Mr. Gorman, Mr. Cockerill, Mr. Vest and Mr. Blackburn gathered in a committee room and discussed the advisability of calling a caucus for the purpose of discussing the situation, but no conclusion was reached. After the conference one of the participants said that the question would be decided to-day, and if the caucus was held it would not take place until to-night.

The Situation Unchanged. Judging by the statement of one of the managers of the bill, as made this morning, there appears to be no change in the situation. Much depends upon the persistence with which Mr. Vilas pushes his motion to strike out the differential duty on refined sugar, and the attitude of this senator led to make the statement that it looked as if the administration wanted to see this action taken. It is known this morning, however, that if an effort is made to push this motion some of the democrats, it is asserted, are prepared to take the responsibility of settling the fight at once by moving to indefinitely postpone the conference report, and it is made by a democrat, a senator said that it would prevail beyond any possible doubt.

House of Representatives. The attractions of the tariff debate in the senate were too strong to be resisted by the great number of republicans who were found impossible to secure the presence of a quorum. After vainly endeavoring, for an hour and a half to effect the passage of the bill which came over an unfinished business from Saturday, directing the re-employment of railway postal clerks who were discharged between March 15 and May 1, 1899, the house at 1:30 o'clock adjourned.

Wiped Out by Fire. BIRMINGHAM, N. Y., July 24.—The business portion of Great Bend, Pa., about 15 miles from here, was wiped out by fire last night. The blaze started from an exploded lamp, and at 12:30 o'clock, when the flames were under control, seven buildings had been consumed, including several places of business and the office of the Great Bend Maindealer. The loss will be heavy.

TO RESUME AUGUST 1

South Carolina Going Back Into the Rum Business.

Governor Tillman Issues a Proclamation Opening the State Dispensaries—The Commonwealth Carrying a Large Stock of Liquor Now at a Big Loss.

COLUMBIA, S. C., July 24.—Governor Tillman has issued his proclamation opening the state dispensaries on Aug. 1. The proclamation is as follows: "Whereas, Under the provision of an act to prohibit the manufacture and sale of intoxicating liquors as a beverage within the state, except as herein provided, approved Dec. 24, 1892, the state assumed control of the legal liquor traffic in South Carolina, commencing July 1, 1893, and Whereas, the said policy and purpose of the state to permit the sale of liquor by and through the state officers only, was reaffirmed by an act, approved Dec. 23, 1895, and

Whereas, the supreme court of the state of South Carolina, by a decision rendered the 19th day of April, 1894, declared the first act, above mentioned, unconstitutional, except one small proviso of one section, the executive in obedience to what he conceived to be the will of the court, closed all the dispensaries and discharged the constabulary. In the subsequent decision, the court, still ignoring the act of 1893, above mentioned, construed its decision to mean "there can be no legal sale of liquor by license," but has seemingly on purpose omitted to construe the act of 1893, and

Whereas, the state of South Carolina, acting in good faith through the executive branch of the government, and relying upon the decision of the supreme court in the case of Hoover vs. the Town Council of Chester, in which it was declared that the act of 1893 "was in effect an act to regulate the sale of spirituous liquors, the president, in any wise giving effect to the act of 1893, has been investing large sums of money in liquors for sale under the provisions of the two acts mentioned; and

Whereas, this liquor is being held with heavy expense, while the state is flooded with contraband whiskey sold without authority of law.

Now, therefore, I, B. R. Tillman, governor of the state of South Carolina, in exercise of my discretion as executive, do issue this, my proclamation, and declare that the said supreme court having adjudged unconstitutional the act of 1893, the act of 1893, in regard to the act of 1893, that the said act of full force and effect and will be enforced in accordance with my oath of office until the court shall have passed upon the same, or until the legislature shall have repealed it.

The county dispensers in the various counties will open their dispensaries on Wednesday, August 1. All persons interested, including public carriers, are notified that importation of liquors will be at the risk of seizure and prosecution, and all contraband liquors found in the borders of the state will be seized and confiscated according to law.

Seized by Canadian Government. AMHERSTBURG, Ont., July 24.—The Dominion government revenue cutter Petrel arrived here last evening with the fishing boat, and especially his reflections upon the senate as expressed in the letter to Mr. Wilson.

The statement was made this morning, on the authority of a gentleman, that the president in his interview with Mr. Gorman, asked him to refrain from making the speech that he had been credited with having in view, in his letter, to put a stop to further debate on the bill in the senate.

Refused To Abandon His Speech. Mr. Gorman is represented, on the same authority, as having told the president that this could not be done, that he had a duty to perform and if he was permitted to reach the senate chamber he would make the speech he had contemplated and which he felt to be justified in view of the defense of the honor and integrity of the senate and the men who had framed the tariff bill.

A PUBLIC BENEFACITOR.

THEY ALL SAY THE SAME.

Don't hesitate, but Call and Be Convinced That Every Statement We Make is True.

To those who do not already know that there is established in Newark, at 104 Halsey street, a physician who stands in the foremost rank of his profession, who is in demand by the leading colleges of the country and who can prove by witnesses right here in Newark (not by one, but by hundreds) that he has succeeded in curing cases that have been utterly given up by other physicians, and good ones too. To those who do not

these facts we state that any person, rich or poor, old or young, is welcome here and receive examination and advice free of charge. Thousands praise the day they came to us for treatment. There is no guess work, no experimenting, no painful operation. No matter how difficult the case, no matter how much of the physician's time it may consume, the diagnosis will not only be thorough, it will be absolutely free. There is no statement of quackery or deception; no claim or statement is made that is not borne out by facts and living witnesses.

Mrs. Abby A. Ray, late of 86 Grove street, East Orange, who now lives at 400 Ellmore street, Kalamazoo, Mich., writes, under date of January 12: "The medicine arrived this morning and I am so glad it came. I am almost out, and it has helped me so much and I am so much pleased with its wonderful effect on my broken down system that I would like to testify to your great success in my case. I am feeling as well now, in fact better, than I had ever hoped to again."

This is one of many letters that we receive daily. We have the originals at our office and if you wish you may see them. Another thing: We never publish or reveal a patient's name unless they so desire.
