NEW EVIDENCE Of Dr. Lighthill's Success.

A Flattering Testimonial From Col.
John Dietrich, One of Plainfield's
Oldest and Best Known Residents.

16 ARLETON PLACE,
Plainfield, N. J., July 17, 1894.
I am profoundly grateful to Dr. Lighthill for his speedy and radical cure of a most painful malady of over ten years standing.

A HAPPY EXPERIENCE.

The interesting testimony of Mr. W. E. Dills, the Popular Passenger Conductor of the N. J. Central.

ROSELLE, N. J., July 1, 1894.

My Friends and the Public:
I take pleasure in calling public attention to the remarkable cure which Dr. Lighthill effected in my case. For the past ten years I had been afflicted with a severe form of piles which finally gave me the greatest pain and distress nearly all the time, and from which I could not obtain any relief, in spite of all my efforts.

Hearing of a number of cures which Dr. Lighthill effected in similar cases, I placed myself under his care, and I rejoice to say he effected a complete cure in my case, and gave me new life in doing so. For I am sure that I could not have endured my misery much longer. And it will be a matter of importance to those who are suffering from this disease to learn the happy fact that Dr. Lighthill effected my cure without giving me pain or detaining me from work.

W. E. DILLS.

A Card from Mr. T. R. VanZandt,
Of No. 304 and 306 Park Ave., Plainfield,
N. J.

I certify with pleasure that Dr. Lighthill has effectually cured me of a most painful case of piles. For some time past I had been subject to its attacks but the last attack was so exceedingly painful that it completely upset my whole system. The pain extended to my legs, and in many other directions, and made me so nervous that I could neither sleep at night nor move about without serious discomfort and distress. Such was my condition when I applied to Dr. Lighthill for relief, and I am glad to say that as soon as he took hold of my case, I began to improve, and in a short time I found myself completely cured. Dr. Lighthill has also effected a radical and permanent cure in a most terrible case of piles on my cousin, Mr. J. V. Z. Griggs, of Rocky Hill, N. J., whose grateful testimonial is in Dr. Lighthill's possession.

T. R. VAN ZANDT,
304 and 306 Park Avenue.

Dr. Lighthill

can be consulted daily (except Thursdays) on all CHRONIC OBSTINATE AND COMPLICATED cases of the human system of whatever name and nature, at his office and residence,

No. 144 Crescent Avenue.

Deafness, Catarrh and Diseases of the Head, Throat and Lungs successfully treated.
Piles of the most aggravated nature radically and permanently cured in a few weeks, without pain or detention from business, and all other rectal diseases are treated with equal success.
Mental and Nervous Derangements, such as Depression of the Spirit, Rheumatism, Neuritis and Scrofulous Affections.
Lesions of the Heart, Stomach, Liver, Kidneys and Bladder are successfully treated, even when other medicines have failed.

OUR SAILORS OUSTED

The Spanish Drive Them
Out of Bluefields.

American Interests Left to the Protection of the British Marines and They Did Not Remain—Natives Driven Out—Information Conveyed by Private Letter.

Philadelphia, Aug. 24.—A few days ago brief dispatches received from Managua, Nicaragua, stated that Bluefields had been taken by a Nicaraguan army. Nothing else has been heard officially.

A letter received by William K. Ingram, a native of Bluefields, who is studying dentistry in this city, conveys some interesting details, among them the fact that not only were the natives driven out of Bluefields, but Uncle Sam's marines likewise, the latter retreating to the Columbia and the Marblehead, leaving only British marines to protect foreign interests in the town.

The letter is from Ingram's brother, James R. Ingram, a member of the Bluefields Banking company, and one of the influential residents of the turbulent town. The date is four days later than the invasion of the town by the Nicaraguans. After speaking of the approach of the invading Spaniards in their steam launch, Mr. Ingram says:

"In less than no time, all Bluefields was alarmed. It happened that the United States cruisers Columbia and Marblehead and H. M. S. Mohawk were outside the bar and the respective captains landed men. Some of the Marblehead's men were ashore before the capture of the town, and an assembly of people in town and told them not to fire. He told those who wanted protection to go where his soldiers were, that is, where we used to play cricket, and you may believe me, almost the whole of Bluefields was up there by the next two days. In fact, it was like a city."

"At last the Spaniards landed, and all was quiet. They ordered, you may say, Capt. O'Neill, of the Marblehead, to quit the government house, and the next day he left, but is still out at the bluff. The other American captain, seeing that, withdrew his troops, who were at the Masonic hall, and left immediately. So the Englishman was left alone."

The next day after the Americans had left, the Englishman had to go to Port Limon to cable; so he told us that whoever wanted protection should go on the ship, and he had in all 900 people. He left some of his men to protect his consul, Mr. Hatch."

The remainder of the letter deals with the history of the flag of the invading Nicaraguans, and the establishment at Bluefields of martial law. Mr. Ingram says that American interests in Bluefields are considerable, being, in fact, paramount to those of any other foreign nation.

JENNIE GRIFFIN ARRESTED.
Claims That Necessity Drove Her To Commit Larceny.

Hartford, Conn., Aug. 24.—Jennie Griffin, nineteen years old, with a month-old baby in her arms, told a strange story in the police court yesterday. She was arrested in Springfield, Mass., charged with stealing a pair of clothing from two Hartford women.

On the stand she claimed to have been married two years ago to Henry Kondall, a two-time manufacturer, of Springfield, Mass., who afterward moved to Buffalo, and died there suddenly. She then discovered, she declares, that he had a previous wife living. Afterward she was married to Joseph Smith, a sewing machine agent, who deserted her. A month ago she came to Hartford and had her baby at the hospital. She admitted the theft, but claimed to have been driven to the crime by want. Judge Barbour was in session here in charge of Superintendent Muller, of the Open Hearth.

George Vincent House Dead.
Mount Vernon, N. Y., Aug. 24.—Mr. George Vincent House, aged 74, died yesterday at the residence of his son, at this place. The deceased was a native and a well-known resident of West Fairville, Vt., his ancestors being among the earliest settlers of that place.

Loss to the Propaganda.
Rome, Aug. 24.—The Monitor de Rome says that the congregation of the propaganda will lose 40,000 lire annually by the new tax on government bonds. It urges the government to spare the congregation's possessions such violent fluctuations.

Republican Nominations.
Yankee, S. D., Aug. 24.—The republican convention was in session here yesterday. Robert J. Gamble and John A. Pickler were nominated for congress and C. H. Sheldon was renominated for governor.

DR. LIGHTHILL'S
MAGIO
IRON-TONE
(NON-ALCOHOLIC)
The Best Tonic Beverage for Nerve, Brain and Blood, on draught at the principal wine merchants at 50c per glass. Bottles Extract Magio-Tone for home use, 50c. One bottle makes a quart of the best Iron Tonic Syrup in the world. Delicious in its water. Will keep indefinitely. Does not affect the teeth.

DRUGGISTS AND CONFECTIONERS

A GREAT PROPHET.

What He Has to Say About Foretelling the Weather and Preserving the Health.

Probably no man connected with the Weather Department is so well-known or popular as Sergeant Elias B. Dunn, who has charge of the Bureau in New York City. He is a bright, happy man with a clear eye and a springy gait, although his duties and cares are numerous.

"How do I keep well and fat and chipper," he said recently to a newspaper man who asked him the question. "Why I look after my health carefully, that's all. No matter how hard the gales may be or how much responsibility for the weather I have on my shoulders, I look out for my digestion very carefully. I am a firm believer in modern discoveries and I have found that the pre-digested food Paakola does wonderful things for those who use it. I use it in my family and find that it not only is a food that enters quickly into the blood and builds up the system, but it is also a food that digests. People who wish to be up to the times and avail themselves of all modern discoveries or improvements should by all means use Paakola. If you are not thoroughly posted about it and want to know more, go around to the Company's office at 30 Beads street, New York City, or better still send for pamphlet giving full particulars about it. I tell you you will never regret it."

Sergeant Dunn evidently believes thoroughly in everything he undertakes, and he is just now utilizing the electric search light in which he is interested, in throwing the word Paakola upon the clouds and walls where the light is employed. All that can be learned from what he says regarding Paakola is more than is said by no means surprising that it has become so popular.

A pamphlet fully describing Paakola and its uses will be sent free if any light in which he is interested, in throwing the word Paakola upon the clouds and walls where the light is employed.

Get it from the Pre-Digested Food Co., 30 Beads st., New York.

HIPPIE WAS HIT.

Minister Haentjens Instructed To Deny Reports of Rev. H. H. H.

New York, Aug. 24.—Minister Haentjens, of the Haytian legation, yesterday received a cablegram from President Hippié confirming Saturday's report that he had been shot, but containing the information that he had fully recovered his health. The cablegram was terse, and read as follows: "Was indisposed Saturday. Hurt recovered. Daily reports in newspapers."

Minister Haentjens says that the last sentence: "Daily reports in newspapers" is a denial of the rumors of an impending revolution at the next election.

HIS HANDS AND FEET TORN OFF.

A Buffalo Truckman Killed by an Explosion of Ammonia.

Buffalo, Aug. 24.—Joseph Bislinger was driving along Grace street yesterday afternoon with a load of ammonia, used for making ice in breweries. One of the tanks containing the stuff exploded with a loud report, hurling Bislinger twenty feet, throwing him through the boughs of a tree. He came down on the opposite side of the street. His hands and feet were torn off by the explosion and he was instantly killed. No reason for the explosion is known.

Uncle Sam Rays on Installments.

Washington, Aug. 24.—The twenty-fourth payment for the construction of the armored battleship Oregon was made by the navy department yesterday. The amount was \$100,000, which was paid to the Union Trust Co. of San Francisco. The payments on the vessel are in thirty equal installments, of which three are reserved until after the completion of the vessel.

Wool in Bonded Warehouses.

Washington, Aug. 24.—An official statement prepared at the bureau of statistics, treasury department, places the amount of wool in bonded warehouses on July 31, 1894, subject to free entry when the tariff bill becomes a law, at \$3,795,321 pounds, of the value of \$15,672. To bring this wool in free will necessitate its export and re-importation under the law.

Gov. Flower Sets Free the Youth Who Killed Ruby Nelson.

Buffalo, Aug. 24.—Governor Flower has pardoned young Harry Spitz, who, in a fit of jealous rage, shot and killed Ruby Nelson in the fall of 1893, in a house on Michigan street. Young Spitz, a mere boy, was her lover. He is still in jail.

The plea for the boy, backed up by the pathetic sight of the old blind father, touched the governor.

Refuse To Make Good His Shortage.

Salem, Mass., Aug. 24.—The information was received at the Salem city hall yesterday that the bondsmen for Clerk Nathaniel M. Brown, of the water board, who is short in his accounts, will refuse to make good any loss that may be discovered on the books. They claim that the board has been negligent in not having the books audited for the past twelve years. The board will probably bring suit against the bondsmen just as soon as the real amount that is lost is known.

To Command the Flota.

CARNEGIE CO. GUILTY

Armor Plate Frauds Reported to the House.

Confessions Made by the Superintendent and Other Charges Proven—Government Inspectors Not Corrupt, but Grossly Negligent—Plates on Certain Vessels To Be Re-treated.

Washington, Aug. 24.—After several months of careful inquiry into the charges affecting the integrity of the armor-plate, bolts and other apparatus furnished to the government by the Carnegie Steel company, of Pittsburgh, the special committee to whom the work was delegated has finished the report and laid it before the house. This special committee consisted of Mr. Cummings, of New York; chairman; Mr. Talbot, of Maryland; Mr. Monahan, of Illinois; Mr. Doliver, of Iowa, and Mr. Wadsworth, of New York.

The resolution authorizing the investigation was offered in the house by Mr. Dunphy, of New York, and passed on the 22d of May. Two days later the special committee was called together to consider the report. A preliminary motion was taken, which was submitted with the report.

The report shows that the contract with the Carnegie Steel company, entered into two years and three months from November 20, 1890, to February 23, 1892. The armor-plate contracted for was 7,738 tons, costing in the aggregate \$4,411,820.

In opening the report Mr. Cummings cites the charges against the company, seven in number, which are summarized as follows:

That plates did not receive the uniform treatment required by the specifications of the contract; that false reports of the treatment of plates were systematically made to government inspectors; that false specimens taken from the plates, both before and after treatment, to ascertain the tensile strength of each plate, were stretched without the knowledge of the government inspectors, so as to increase their apparent tensile strength when actually tested; that false specimens taken from other plates were substituted for specimens selected by government inspectors; that the testing machine was manipulated by the company so as to give false results.

After disposing of the government inspection the report takes up the subject of criminality and in this connection says that the criminality of the company is not in the least doubtful. After dealing with various charges and admissions made under them the report takes up the subject of government inspection and says: "The government inspection was negligent and defective. None of the inspectors were, however, charged with dishonesty, nor is there any evidence tending to show that any of them were corrupt. Some were diligent and others negligent."

After disposing of the government inspection the report takes up the subject of criminality and in this connection says that the criminality of the company is not in the least doubtful. After dealing with various charges and admissions made under them the report takes up the subject of government inspection and says: "The government inspection was negligent and defective. None of the inspectors were, however, charged with dishonesty, nor is there any evidence tending to show that any of them were corrupt. Some were diligent and others negligent."

The company was hired to make the best possible armor plate and paid an enormous price for so doing. They were hired to make an armor that would stand the shots of an enemy and upon which the nation might rely in time of need. They were paid between \$500 and \$700 a ton and thousands of dollars a plate for so doing. Receiving under these obligations the company or its servants have perpetrated manifold frauds, the natural tendency of which was to palm off on the government an inferior armor, whose inferiority might perchance appear only in the shock of battle and with incalculable damage to the country.

No fine or mere money compensation is adequate atonement for such wrongs. The commission of such frauds is a moral crime of the gravest character. Your committee do not consider it as within their province to draft a criminal statute; but they do feel under obligation to call the attention of the house to the importance of protecting in the future the interests of the treasury, the lives of our seamen and the safety of the nation by appropriate legislation denouncing as crimes all such acts of fraud and deception practiced upon the government.

The investigation shows that there were only two furnaces for the treatment of the armor plates before September, 1892. After this a third furnace was added, and three were used from August, 1893, when a fourth was added. After information of frauds practiced in the works was given and a penalty exacted by decision of the president, other furnaces were added, until to-day there are in use.

It is clearly evident to the committee that there were no circumstances to turn out the work reported, if plates were treated according to the specifications of the contract and in accordance with the direction of the government inspectors.

The charge that "specimens taken from the plates both before and after treatment, to ascertain the tensile strength of each plate, were stretched without the knowledge of the government inspectors, so as to increase their apparent tensile strength," is admitted by Superintendent Corey.

The further allegation that "the testing machine was repeatedly manipulated by order of the superintendent of the armor plate mill so as to increase the apparent tensile strength of the specimens" is admitted by Superintendent Corey and practically admitted by Superintendent Schwab.

The charge that specimens taken for physical test were re-treated, although not acknowledged by Superintendent Corey, is practically proven by a report from the Ordnance board, printed in the evidence.

Superintendent Corey admits that part of the eighth charge that alleges the plates selected by the government inspectors for a ballistic test were re-treated without the knowledge of the inspector.

Superintendent Corey denies that his re-treatment of the plates was in violation of the specifications of the contract. He says that he gave them this unlawful treatment and re-treatment as an experiment, alleging by this he could ascertain whether a re-treatment and repeated

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

ROCK ISLAND BAKING POWDER

persons who commit them or aid and abet their commission.
The report created an animated colloquy between Mr. Cummings (dem., N. Y.) and Mr. W. A. Stone (rep., Pa.). The report was accompanied by a joint resolution (which was agreed to) directing the secretary of the navy to have plates now on certain ships removed and subjected to ballistic tests to determine their quality.
Mr. Stone declared the last shot company, while just as anxious for the investigation and tests as the house or its committee, had not been accorded fair play in the investigation. This aroused Mr. Cummings, who made a spirited response, declaring that the Carnegie company's interests had been more carefully attended to in the investigation than had those of the navy department, which had also, he said, been on trial.

Farmers' Encampment.
Mount Gretna, Pa., Aug. 24.—The Farmers' encampment drew immense crowds to the park yesterday. A heavy train brought hosts of spectators, and during the morning 2,500 people arrived on special trains. The large number who came to watch the encampment will increase the number considerably. Various times have been made, and it is claimed that between 10,000 and 15,000 were present in the afternoon. Representatives of the Fourteenth, Fifteenth and Tenth regiment rifle teams arrived yesterday and occupy quarters near the range. The contest will be waged next week.

A CHILLY RECEPTION.
Coxeyites Not Welcomed in the City of Brotherly Love.

Philadelphia, Aug. 24.—The sixty Coxeyites who were unloaded from a train upon Philadelphia, whether they were sent by the Maryland authorities after having been released from that state's house of correction, met with a chilly reception by the local authorities.

The late followers of the commonwealth agitator spent the night wherever they could find shelter, and in the morning two of their number, acting as a committee, called at the office of Mayor Stuart. Their object was to request that the city should not receive the Coxeyites, but that they should be sent to the almshouse, where they would be cared for until they could be sent to the almshouse.

The chief executive, however, was not in the city, and an attaché of the office directed them to Superintendent of Police Linden. With meek countenances the pair appeared before the latter functionary and related their story, only to be met with a gruff "Get out of town as quickly as you can."

In thus admonishing the committee the police superintendent made no reference to the furnishing of transportation, but simply told them to get out of town. The committee, however, was not deterred, and they returned to the city, where they were met by a sharp eye upon the "hoboes" their departure being long by a route not yet selected is looked for.

TO ATTEND THE G. A. R.

Navy Department Employees Ask for Leaves of Absence.

Washington, Aug. 24.—Applications having been made to the navy department in behalf of the employees at the navy yards and stations who are members of the Grand Army of the Republic, for leave of absence to allow them to attend the annual national encampment at Pittsburgh, September 11, Admiral Hamers, acting secretary of the navy, has issued an order calling attention to section 1545 of the revised statutes, which prevents the department from granting leave of absence with pay to per diem employees, but such employees, upon written application to the commandant, will be permitted to absent themselves from the navy yards without loss of positions provided their services can be spared.

Salaries of employees who are members of the G. A. R. and who can be spared may be granted leave to attend the encampment without referring their application to the department, but time absent in excess of the period allowed during a calendar year shall be without pay.

"LIBERTY OR DEATH."

Two People Drowned While Trying To Escape From Blackwell's Island.

New York, Aug. 24.—Acting Warden Richard of Bellevue hospital, notified police headquarters yesterday that two bodies were at the morgue, one of a man, the other of a woman. Both the man and woman were dressed similar to the patients in the charity institutions on Blackwell's Island. The bodies have not yet been identified. It is thought that the two bodies were very much decomposed and have probably been in the water for several weeks.

ROGUES' GALLERY IN EVIDENCE

Mr. Wellman Creates a Sensation in the New York Police Trials.

New York, Aug. 24.—Mr. Wellman created a sensation in the police trials yesterday when he took Warden Smith in hand by handling him a photograph from the rogues' gallery and asking him if it was his photograph.

BLAMES THE STRIKERS

St. John, of the Rock Island, On the Stand.

Tells the National Labor Commissioners That He Believes the Railroad Can Prove That the Strikers Were Rioters—Favors State Boards of Arbitration.

Chicago, Aug. 24.—It is evident from the earnestness with which Commissioner Keran argues with General Manager St. John at the session of the national labor committee for a state board of arbitration to settle the differences between labor and capital that such a board would be one of the recommendations if no vice chief one of the commission. Mr. St. John, who is general manager of the Rock Island system, was on the stand five hours. He declared the last shot were precipitated by and participated in by strikers, rather than hoodlums. He flatly denied several statements made by Debs and others and offered testimony in refutation of other testimony which was given. He denied that then, Miles had conferred with the general manager in any way.

Mr. St. John resumed the stand at the opening of the afternoon session. He stated that about 475 men engaged in the late strike had applied for work on the Rock Island road and had been informed the company could not use them because of their bad conduct. He stated that the company had its own volition increased wages. He corrected his statement of the morning that the governor had ordered the strikers to be arrested. Rock Island property, saying the company paid them.

Engineers and firemen were sworn in as deputy marshals and were sent to the Rock Island road and had been informed the company could not use them because of their bad conduct. He stated that the company had its own volition increased wages. He corrected his statement of the morning that the governor had ordered the strikers to be arrested. Rock Island property, saying the company paid them.

"These latter bore the star of the United States," asked Mr. Keran. "Yes, sir."

The witness continued: "I wish to say in regard to a statement made by a witness to the effect that there are 150,000 members of the A. R. U. that it is my conviction that 150,000 is a number do not work for any railroad at all, nor have they been connected with any road."

"It is to be presumed that a large proportion of the rioting and burning of cars was done by hoodlums and not by railroad men," asked Mr. Wright. "We believe that the strikers and nearly all of it," answered Mr. St. John. "We have no doubt that we will be able to substantiate this statement later."

All knowledge of a book containing a black list and distributed among the various roads was denied by the witness. He denied that yardmaster Lovejoy was discharged for being a member of the A. R. U., but because of a necessary order of the yardmaster being no longer required at La Salle.

The witness then entered into a history of the General Managers' association. It was, he said, a voluntary and not an incorporated association with a constitution and by-laws. It included twenty-four general managers, terminals in Chicago and its object was to solve problems presented to the general managers. It seeks to solve the problems of the general managers' association was formed solely to crush labor organizations. That is one of its remotest objects. The witness said that the association had been in existence since 1887, and that many of its members were dealt with. "We have only considered strikes once or twice since 1887," said the witness. "That is the smallest part of our business."

Several cases were cited where the general managers' association had been satisfactory to both sides. "No man can give a single case where the wages have been reduced since we adopted our last schedule," said the general manager.

He denied the statement made by President Debs that wages were being reduced by the General Managers' association, characterizing it as purely imaginary.

In the last three months the earnings of the Rock Island road had increased \$800,000," said Mr. St. John, and intimated that another cut in wages might be necessary before long. He replied to the question whether he had any to offer as a solution of the labor problem: "Mr. St. John has no answer. Arbitration was the only thing he favored of all, but the general proposition he could offer no solution. He condemned the sympathetic strike as one that could never be settled by arbitration."

Carlisle at the White House.

Washington, Aug. 24.—Secretary Carlisle spent most of yesterday afternoon at the executive mansion discussing with the president the new tariff bill. It has been stated that Secretary Carlisle would make public a statement as to alleged defects and errors in the tariff bill, but now it is said he will defer an expression of his opinion on this matter.

Flag To Fly During Business Hours.

Washington, Aug. 24.—Secretary Carlisle has directed that hereafter the United States flag shall be hoisted over all public buildings under the control of the treasury department during the hours of business, unless stormy weather prevents its display. The revenue flag is also to be displayed over custom houses.

INVALIDS' FOOD.

Chronic
Dysentery

MARY S. TORREY,
131 West 63d Street, New York.

"There is nothing to be compared to Bovine for chronic dysentery. During my two years' illness I tried every other invalid food, without avail."

BOVINE

The Original Raw Food

will subdue the worst attack in one day, if taken simply with water, and other foods discarded. If I had known of Bovine sooner, my disease would never have become chronic.

PARTICULAR MENTION.

Mayor Gilbert returned home last night.
Alvah C. Carey leaves tomorrow morning for a week in New York State.

T. H. Keller and family have returned from the Summit Hill House, Catskill.

J. F. Laffey and family of East Fifth street have returned from Asbury Park.

Fred Miner of West Front street has recovered from a severe attack of cramps.

Master Leo J. Moore is spending his seventh birthday with relatives in Carbondale, Pa.

Miss Delphine Bowers has returned home from Canada and Maine, after two months' travel.

The funeral of Mrs. John D. Moore will be held Sunday afternoon at 4, from Warren Chapel.

Rev. W. R. Honeyman and wife returned last night from Mt. Freedom, Morris County.

Mrs. Joseph Bogert and family of East Second street start tomorrow for Dunderberg Mountain, N. Y.

F. L. O. Martin was able to lay aside his crutches today for the first time since he sprained his ankle.

Miss Darling of Netherwood, who sustained a fracture of her left arm a few days ago, is steadily improving.

Miss Fannie Westphal of South Second street and Miss Lena Cose of Grant avenue have gone to Ocean Grove for a week.

The Misses Addie and Carrie Dunn of West Philadelphia are visiting their cousin, Miss Susie VanWinkle of Park avenue.

Jack Chandler of East Fifth street returned Saturday from a cruise on the school ship. He was gone six months for his health, and visited Spain. Jack is better in health, but says no more school ships for him.

WILLIE DAY KILLS HIMSELF.

He Was Champion Runner of the World.

Willie D. Day, champion runner of the world, and well known in Plainfield, committed suicide early this morning by hanging himself from a tree near the clubhouse of the New Jersey Athletic Club at Bergen Point.

His body was found at 11 by two fishermen walking along a path through the woods just back of Capt. Ryder's boat-house, which is only a short distance from the clubhouse.

The fishermen ran at once to the home of Day's parents, near Bergen Point, and notified them of his discovery. Day's act was a complete surprise to his relatives and friends.

He was arrested Tuesday on a complaint made by the Manhattan Laundry Company of Jersey City, for whom Day had acted as a collector. The complaint stated that Day had collected \$112, for which he had failed to account.

Day told his friends that the company owed him money, and that it was not true that he had embezzled the amount. He said that the complaint was a put-up job.

He put a bold face on the matter, and his friends who stood by him in his legal fight did not think that he was taking the matter to heart.

His relatives were of the opinion this morning that he must have brooded over the accusation in secret and becoming discouraged had decided to end his life.

Day was the youngest son of his parents, who are well-to-do, and very well known about Bergen Point.

Day held the five-mile championship and also the three-mile championship of the world for running.

FAITHFUL HERMES.

A Plainfield Carrier Finds His Way Home Over 300 Miles of Ocean.

When Charles M. Evans of this city sailed for Europe last June on the steamer State of California he took with him two homing pigeons belonging to Ferdinand P. Pepin of Elizabeth. He liberated these birds on the ocean, when the steamer was 200 miles out from Sandy Hook. On these birds he sent a message to friends in Plainfield and a message to The Press. One of these pigeons was the noted bird: Hermes, which had made many wonderful flights. It was thought perhaps this bird would reach home the same day he was liberated, but days passed and neither one appeared. The owner had given up the birds for lost, when, after seven-weeks' absence, the faithful bird Hermes arrived safely home, but he had been so long away that the messages were lost.

CHURCH CHIMES.

Corydon Tyler, Jr., will preach in Warren Mission next Sunday, morning and evening.

Mrs. W. J. Ford will lead the Gospel temperance meeting in Reform Hall Sunday afternoon.

Rev. Wm. Hampstone, evangelist of Dorchester, Mass., will preach in the Park Avenue Baptist Church Sunday.

The Emmanuel Baptist Church will have a grand rally Sunday, with preaching in the morning by Rev. J. W. Mitchell, in the afternoon by Rev. W. D. Johnson, and in the evening by Rev. J. B. E. Butler.

The German Reformed Sunday-school benefited materially by the entertainment in Gosling and Farn Verel Hall last night. The programme was as previously published in The Press, and was a credit to all concerned.

The public know what it means when Van Emburgh & Son have a sale out. It is money saved to the purchasers.

THE MONUMENT REVIVES

NEW INTEREST AROUSED FOR THE PROMISED PLAINFIELD TRIBUTE.

Plainfield to Have an Excursion to the Battlefield Where Plainfield Blood Was Spilled, All in the Cause Which Has Langueled Awhile.

The Great Civil War of 1861 to 1865 was the turning point in the destiny of the American Union, and the Battle of Gettysburg in the very middle of the year 1863 was the turning point of the war. During the whole first half of that year the life of the nation was held in an evenly balanced scale. The assurance and audacity of the Rebel leaders increased, and with savage impetuosity and confidence they cut their splendidly disciplined army across the border and into the heart of the Northern States. In Pennsylvania they ravaged the countryside, marching on towards Harrisburg. Then at Gettysburg the two great armies met in fierce and decisive conflict. From that battle the Rebels retired discomfited, broken, well-nigh vanquished. The war went on, and on Southern soil the Confederates still fought bravely and desperately—but never again with that bold and audacious confidence which characterized them when they crossed the Potomac northward on their way to Gettysburg. In the relative strength of the armies engaged and in numbers confided in the great slaughter of the conflict, Waterloo and Gettysburg have been well compared. But the question decided at Gettysburg in 1863 was even greater than that settled by force of arms at Waterloo in 1815.

No wonder then that Gettysburg has come to be the Mecca of patriotic pilgrims! No wonder that the National Government has taken charge of the battlefield. It was fitting too that those loving and eloquent words of Lincoln should be spoken in the air which had rung with the hum of the Union Army and into which had been breathed the last sighs of the dying patriotic soldier.

The States of the Union have spent large sums in beautifying the battlefield of Gettysburg and the National Cemetery in which her heroes repose. New York, for example, has appropriated sums for its various regimental monuments. These sums have been enlarged by the efforts of the surviving soldiers, and the amounts thus increased have been deposited in noble monuments to the memory of the brave. For instance, the 44th New York Regiment, in which Capt. John E. Stewart, now of Plainfield, served, and which was in the brigade commanded by the gallant Gen. Dan Butterfield, has put up a very noble and striking monument on Little Round Top at a cost of more than \$10,000.

And thus it has come about that Gettysburg is today the most impressive object lesson in American history if not in all history. The town, the cemetery, the hills on and about which that fierce July conflict raged, these, and the thousand landmarks and monuments which have since been raised by conscientious and reverent hands to note points of interest and deeds of valor, tell a story of endurance, bravery and patriotic self-sacrifice that can scarcely be told elsewhere.

Last year a number of our Plainfield veterans visited Gettysburg. Two of them, Major W. D. W. Miller and Capt. John E. Stewart, then planned an excursion on a somewhat broader scale for 1894, and Major Miller has since taken the preliminary steps toward carrying out this plan. It appreciated on its merits a large part of Plainfield will want to go along on this excursion, for it contemplates not only a party of veteran soldiers but also the families and friends of soldiers, and indeed the public generally so far as they choose to participate.

This is not a money-making scheme. The whole expense of each person going from Plainfield including railroad fare, room and meals, will probably be compensated within the sum of \$15. It is at the end of the affair there is found to be surplus it is promised to be devoted to the Plainfield Soldiers Monument Fund.

Appropos of this fund of which Capt. Stewart is Treasurer, and in which Major Miller is warmly interested it is quite probable that in more ways than one this trip will give a new impetus to the enterprise. Some novel suggestions not yet matured and therefore not publishable are under consideration and will be ready for a later exploitation.

The party is expected to leave for Gettysburg on about Thursday morning, October 11, and should have to march them over the battle field not only the brightness of the October sun, but, as well, the glory of the October full-moon. The train will leave in the morning, making the entire trip by daylight. It is expected that the historian of Gettysburg, Col. John B. Batchelder, will accompany the party and it will otherwise be well supplied with guides and men familiar with the field and its story. It was on that field that Major Miller himself was severely wounded—as was also General Hancock on whose staff the major was serving.

A final circular is promised for the middle of September; but in the meantime it is hoped that a pronounced interest in this trip will be awakened, and that any persons favorably disposed will communicate with Major W. D. W. Miller at his home in Plainfield, or at his office 66 Liberty street, New York city. This article is not written at the request of Major Miller nor of any promoter, but simply as the expression of a hearty interest in a plan which seems to offer up much in the way of educational and patriotic advantage to Plainfield; and it is particularly appropriate because so many of our Plainfield soldiers fought and shed their blood about Old Round Top.

Carriage Caravan.

This morning while a woman was purchasing some groceries at F. W. Dunn's, she left a baby carriage with her baby on the sidewalk.

The carriage started to roll, and ran off the curb into the gutter, upsetting, and throwing the child out. The baby was not hurt, fortunately.

—Do not miss Rogers' special sale of fish from p. m. to 10 p. m. tomorrow.

HER EXCURSION SPOILED

Unfortunate Attack of Fits Almost Causes Death to a Plainfield Woman.

Miss Mary Howard of West Fourth street accompanied the Warren Chapel excursionists to Asbury Park yesterday. While in bathing in the afternoon she was taken with a fit, and but for the prompt action of the life-savers would undoubtedly have been drowned. She was brought to the shore, and taken to a hospital, and after some time she was again able to enjoy the pleasures of the Park.

While returning home last evening, as the train neared Elizabeth, she was again taken with a fit, even worse than that of the afternoon. Kind friends took care of her, and it took the combined strength of three or four men to hold the unfortunate woman.

When Plainfield was reached, she was carried from the train into the telegraph office at the North Avenue station. Dr. Probasco was at once summoned, and labored with her for several hours before she was able to be taken home in a carriage.

About a year ago she was subject to fits, but it was thought that she had been entirely cured.

It is thought that staying in the water too long is what caused the fits.

BIG INJUNS TO COME.

Plainfield's Hyphenated Tribe to Have a Big Reception.

Paugh-Cough-Naugh-Singue Tribe are planning for a grand reception to take place Wednesday evening, Sept. 5, in their rooms.

Tribe from Trenton, New Brunswick, Railway, Elizabeth, and Newark have been invited.

Court Coddington.

In the City Court this morning, Mrs. Brown of Short Second street made a complaint against her husband, Thomas Brown, for using indecent language to her. He pleaded non vult. They both decided to live apart and thus avoid any further trouble. The judge suspended sentence.

Thomas Martin had a set-to with Edward Wolf yesterday. The latter used some very strong language and Martin made a complaint before Judge Coddington. Mr. Wolf was fined \$10.

The Fountain Arrives.

The public drinking fountain presented by the Local Christian Endeavor Union arrived yesterday, and is being erected today by A. M. Griffin's men at the corner of Front and Somerset streets, where it will prove a public benefit to man and beast.

The inscription "Presented by the Local Union P. S. G. E. Plainfield, N. J." is on the fountain. A mistake has been made in the letters, as the "Y" is missing.

Opposition Aroused.

Competitors of the new clothing dealers on West Front street are endeavoring to have them closed out under a new State law which compels transient clothing sales to be licensed. The managers of the concern claim that they are here to stay, having leased the store for a year, and they continue to serve their large number of patrons undisturbed.

Died of Smallpox.

Word was received last evening by Miss Ella Conover and Charles Conover of the death of their brother William, which occurred at the pest-house in Newark from smallpox.

This is indeed a sad blow, as they have been unable to assist in any way, on account of the nature of the disease.

Looked After the Strayings.

Two little girls named King and Vail were left at Asbury Park by the Warren Chapel excursion yesterday. When the train reached Plainfield M. M. Dunham telegraphed to the Park to have the children cared for and forwarded to Plainfield as soon as possible.

In a New Suit Sunday.

Car 144 of the Street Railway was sent back to Newark today, there being no further use for it. Car 4 has received its new coat of paint, and will be out Sunday. Car 3 will then be taken off and treated likewise.

Van Emburgh & Son want to call the attention of their patrons to the cut sale for the next three days.

The hour of the funeral services over the body of Charles Schermerhorn has been changed from 8 to 7:30.

Mrs. R. P. King will open a music class at 351 East Third street, September 3. Her terms are reasonable, and her skill is great.

Clarkson Mundy, faithful sexton of Trinity Reformed Church, was badly bruised by a fall from a fruit tree at his home on Race street.

Justice Sperry gave judgment for \$49.99 and costs against W. J. Conroy yesterday, in favor of A. F. Marsh for wages. Lawyer Swackhamer was the successful attorney. The case was appealed.

Henry Clay Randolph has a flourishing truck farm on the Rahway road. It is in charge of Charles Hepler. It produces 150 baskets of tomatoes per day, besides everything else raised on such a place, and the produce is mighty fine.

Weakfish are biting at Boynton Beach. The Daily Press is on file regularly in the Madison Avenue Hotel, New York.

Do not miss Rogers' special sale of fish from p. m. to 10 p. m. tomorrow.

HIS SAFE A SPIGE BOX.

STOREKEEPER CLEAVER ROBBED IN THE NIGHT.

The Thief Must Have Been Hiding in the Store When it Was Closed for the Day—Money the Only Article Stolen.

When Thomas Cleaver of Scotch Plains, brother of Rev. J. B. Cleaver, started to enter his store this morning he found the door open. Search revealed that \$12 left over night in the store was missing.

When looking up the night before, Cleaver's assistant had put a bag containing \$12 in one of the spige boxes, as was his usual custom.

The bag had completely disappeared, but nothing else was touched. Neither the door nor any of the windows showed the slightest mark of violence, so Mr. Cleaver is of the opinion that the thief secreted himself somewhere in the store, and, after all had gone, taken the money and made his escape.

Robert Walpole and Robert Butler, both near neighbors, claim that they heard noises about midnight, but both supposing it to be in the next house took no further notice. Mr. Clum, who lives directly above, returned late and went straight to bed; he says he heard no noise, and also says that he would not have heard any as he sleeps very soundly.

Who the thief was, no one has the slightest idea except that it is evidently one who is familiar with the store or else he would not have known where the money was to be found.

The money value of Thatcher's house last night was over \$600.

Frank Foster was slightly burned in the face by a carelessly thrown cigar butt last night.

Another bustle and hurry-up time for the bargains offered by Van Emburgh & Son. Read the list in their ad.

The Warren Chapel excursion train made the run from Asbury Park to Plainfield last night in 1 hour and 35 minutes.

The Scott Printing Machine Works are soon to be supplied with water from the water-works. A large main is being laid to connect with the Richmond street main.

Fred S. Moore of West Front street wishes to deny the report published in another paper that he was taken suddenly ill Wednesday night and had to summon a physician.

DEATHS.

NO EXTRA CHARGE—Notice under this head will be reported in The Weekly Constitutionalist without extra cost.

SCHERMERHORN—In this city, Thursday, Aug. 23, Charles E., only son of Chas. E. and Sarah A. Schermerhorn, in his 25th year. Funeral services from the residence of his parents, 47 E. 5th street, Friday, Aug. 24 at 2 p. m. Interment at the convenience of family.

MOORE—In North Plainfield Aug. 23, 1894, Mary E., wife of John M. Moore, in her 36th year. Funeral services from Warren Mission Chapel Sunday afternoon, Aug. 26, at 2 p. m. Relatives and friends are respectfully invited to attend.
