"MARGIN" WON EASILY

SPEEDY EXHIBITION OF R. A. FAIR-BAIRN'S TROTTER.

"Lady C" in the Much-talked-of Race Last Saturday-A Large Crowd Present-Track Was in Fine Shape. Lovers of horseflesh were gathered in large numbers at the Plainfield Driving Park, on Saturday afternoon. to witness a series of the most interesting racing events which have taken place this season. The managers counted upon a large attendance, and their hopes were realized notwithstanding the fact that the wind blew a gale, whirling clouds of dust around the track, and rattling the grandstand and other buildings until every rafter shook. The crowd of spectators numbered fully 1,000 persons.

The attention of the crowd was first directed to the condition of the track. and this they found to be very fast.

The first race was for first and second gate money, and the entries were Jadge W. A. Coddington's "Belle." N. B Smalley's "Bolette," S. Hall's "Aldah H" and A. C. Campbell's "Lady C." Notwithstanding the fact that in the allotment of positions for the start "Belle" received the outside position, furthest from the pole, she performed excellently. winning the heats in one, two, three order, and capturing the first purse. N. B. Smalley's "Bolette" finished second in the first two heats, and third in the third heat, winning second money.

In the third heat A. C. Campbell's excellent auctioneer. "Tady C." did considerable running, and for this was given last place in the heat, although she finished second. Had it not been for this break "Lady C" would have tied "Bolette" for second place, and another heat would have been necessary between the two.

The event upon which the most interest centered was the match race between the fast mare, "Margin," 2.171, owned by Robert A. Fairbairn, of Westfield, and the grey mare "Leota C.," with a mark in the twenties, owned by A. S. Case, of "Three Bridges." The race was for a purse of \$500. Both horses were known to be very fast and good actors on a half mile track, and the horsemen were about evenly divided as to the result, "Margin" was driven by James P. Allen, who

times in each heat. The first heat was won by "Leota C." by half a length in 2:241. The knowing ones ventured the opinion that "Margin" had not been urged to her best speed, and the outcome of the race proved that their judgment was correct.

The second heat was won by "Margin" by a nose. "Leota C.'s" driver claimed the heat, saying that had been cut off at the pole and to slow up and take the outside. The chin was not allowed, however. The next two heats also went to "Margin' who, at this time, was easily outclass ing her opponent.

The late John A. Goldsmith's old Pupil, "Muta Wilkes," owned by Robert A. Fairbairn, next trotted an exhibition mile, attempting to beat the track trotting record of 2:22. The little bare mare was in excellent form, although she has not been upon the track this year until Thursday. The wind also was against her, but she did the mile in fine form in 2:19, with "Jimmy" Allen in the sulky. The time at the quarters was 34 seconds, 1:091, 1:431 and 2:19.

"Muta Wilkes" will probably not be seen upon an American track again. as she has been sold by Mr. Fairbairn to a party in Russia, and will be sent

across the water shortly. The judges were J. V. N. Willis, of ton, and W. C. Hendrickson, of Belle Meade. W. F. Quimby, of New York, ticular, and were rendered with excel ham, of South Plainfield, acted as clerk.

SONS OF VETERANS \$250 RICHER.

Their Fair Last Week Proved to be Profitable Event.

The Sons of Veterans' fair closed Saturday night under the most favorable circumstances. The largest crowd of the week was present, being attracted to learn the result of the contests. The contest for the diamond ring was won by Jennie Smith, of Grandview avenue. In the contest for the feather boa Mrs. Summers was victorious. She turned in \$15.65, while her opponent, Mrs. Cox, turned in \$10.50. The greatest interest ceptered in the contest for the watch. Miss Mamie DeNise finally won by handing over \$30.21, and her opponent, Mrs. Sutton \$28.40. The successful contestants were heartily applauded by the crowd.

In the drawing for the handsome oil painting presented by Mrs. Stephens. Mrs. N. B. Smalley was the lucky one to secure the picture. The number was 196. Mrs. Thomas Doud was awarded the picture of a war scene for being the most popular

member of the Woman's Relief Corps. Toward the close of the evening the audience was favored with a vocal duet by Messrs. Vail, and a vocal solo by John Moran. Each was heartily applauded and responded to an encore.

The committee desires to thank all who in any way assisted in making the fair the great success that it was. All of the goods on the fancy and candy tables were disposed of at auc tion, and Edward Smith, chairman of the committee, proved to be a most

It was altogether a brilliant procession that entered the rink all prepared for the grand dress rehearsal for the Spielkartenfest. Yes, the Spielkartenfest is at hand and tonight the people of Plainfield will be introduced to its beauties and its wonders. The long weeks of difficulty and preparation are over and tonight the monster benefit for the Muhlenberg Hospital will open in a blaze of glory at the Crescent Rink, corner of Watchung avenue and East Fourth street.

Those who were privileged to witness the final rehearsal for the Spielkartenfest Saturday evening had a fore taste of the pleasures to come this week. All except the men in the Hornpipe had their costumes ready and wore them to this rehearsal. There was a small army of them and with their escorts and members of committees, they occupied the first division of the seats.

It was wonderful what a difference the costumes made in the dances. There is not one of them but that is remarkably pretty and sure to please an audience, no matter how critical. There was general comment on the new costumes. Everybody thought that those of the Kirmess of two years ago were beautiful, indeed, and so they were, but the Spielkartenfest costumes are even better. As a result, Miss Stewart was receiving lots of praise for the fine appearance that each group of dancers made.

· Each of the dances was rehearsed until it went off without a hitch, but in most cases only one trial was necessary. It would not be fair to either management or participants to tell all of the secrets of that rehearsal but let it suffice to say that he or she who stays at home during the time of the Spielkartenfest is making a sad mistake that they will be sorry for in the

The novel feature of the Mirror dance showed at once how it is bound to rise in popular favor. Those who witnessed it Saturday night were unanimous in their praise of it. All the dancers enter into the full enjoyment of it and the bright costumes and the enlivening music add to the effect. It is the largest dance of the programme and it's "all right."

The Dance of the Aces is really a serpentine dance given by four of Plainfield's charming young women. They are well drilled and with the effect produced by the different colored lights, there is no doubt as to

its success. Now if there is one dance in the entire entertainment that will completely captivate the audience, it will be the Dance of the Pages. Those who saw it Saturday night were so pleased that they could not restrain their applause until it was over but continued it at intervals throughout the dance. There is something so inspiring about it that the feet instinctively keep time and the spectator catches nimself humming the same tune that the orchestra plays so enthusiastically. The costumes are bright and pretty and the young people who take part in it have entered in the dance with heart and soul. Just watch the reception which that dance receives to-

NURSES WERE DRUNK.

MEN STUPIDLY INTOXICATED DIDN'T KNOW DEATH HAD COME.

Abraham Synder's Life Light Was Snuffed Out While His Bed Was Surrounded by Those Who Thought He Was Sleeping.

While four men loitered around his bed in a stupidly intoxicated condition, ostensibly administering to his dying wants, Abraham Synder passsed out of this world yesterday afternoon at 2 o'clock in his home at Chimney

Synder was the proprietor of the big cider mill at the Rock, whose distillings are known all over Somerset county, having inherited the property from his father who had run it years before him. Four days ago he was stricken to the bed suffering from the ravages of dissapation, so it is said. In his family were five children—the oldest not yet in her teens-a housekeeper, his wife having died a year ago, and four men who were employed about the cider mill.

Snyder's system was not in a condition to withstand the attack that it rapidly. Though the man should have had constant attention, his wants were only looked after by the housekeeper as she could snatch a few moments now and then from the duties of caring for the children and looking after the meals of the men employed in the cider mill. The men employed by Snyder were an unpolished set, rough and ready for most any sort of work. But withal there was spirit of sympathy in their hearts for the man who lay on what was likely and did prove to be his death bed.

Yesterday was their day of rest, and with their ilk Sunday is usually a day of drink and sport. The better side of their nature shone yesterday when they decided to remain by the side of Snyder and endeavor to ease the last moments of his existence. As the morning wore away they found the mission of caring for a sick man to be a sombre one.

They finally sought solace in copious doses of intoxicants, which were conwould be a very nice idea if some of tinued until the condition of embryo nurses is alleged to have bordered on to the maudlin state. During the morning Synder suffered several convulsions, during which they were compelled to hold the writhing man by physical force to keep him in bed. Shortly after 1 o'clock Synder had a convulsion, after which he quieted down and apparently dropped off inio a deep slumber. By this time the Lease there, which passes through liquor they had imbibed had made them stupid,

About 2 o'clock William Perrine, of this city, who had journeyed to nome to see him, went into the room to discover a pallor on his face and a set way in his body that betokened death. The men seemed to have had all their acuteness blunted by the effect of the liquor and they large attendance of friends and rel- sat there, one of them holding his atives. The service was in charge of hands, serene and composed in the belief that he had fallen into a peaceful sleep.

Perrine lost no time confirming his his suspicion that life had left the body. The pulse and heart had stopped beating and the hands had that clammy feeling so indicative of the presence of death.

He did his best to arouse the intoxicated men to a realization that Synder's life had passed over the great divide while they had been unconscious witnesses of the flight. After a few minutes he succeeded in making field Avenue cemetery. The bear them understand the situation and ers were Elias Bird, A. G. Carpenter, then under his direction the dead body was laid out flat on the bed and the corpse was left alone in the room.

Ten minutes later Dr. Murray, of Bound Brook, drove up to the house to attend Synder, but when he found that he was dead he drove away.

The sad news of the death of their father and protector was carried to the children, but they were too young to realize its import and they continued their prattle and playing as though nothing unusual had happened.

In conversation with a Press reporter this morning Mr. Perrine said that the case was certainly a very pitiable one and deserving of the attention of kind hearted people-more for the sake of the little orphans than anything else.

During the past year death has dealt severely with the Synder family, both father, mother and wife of the dead man having been carried off in a sud den way.

At the Crescent Avenue church, two members were received into the church, one on confession of faith and one by letter. At the First Presbyterian church, two members were received into the church by letter. Three members were received by letter at the Congregational church.

Engine Fires Put Out and Boat Helpless in Gale-Mate and Deckhand Clung to a Spar for Eight Hours-Rescued Just in Time by a Passing Steamer.

Buffalo, Nov. 8 .- The steamer Idaho caught in the flerce southwester which swept over Lake Erie on Friday night, foundered in eight fathoms of water at 4.30 o'clock Saturday morning, twelve miles above Long Point, which juts into Lake Erie from the Canadian shore, sixty-five miles west of Buffalo. Eight hours after the disaster the steamer Mariposa sighted the single spar which marked the grave of the Idaho. Clinging to that spar, hardly out of the reach of the fierce sea, were the two survivors of the wreck, almost frozen from the long exposure in their wet garments. One of them had been made insane temporarily by his sufferings.

It was no light task to rescue them from the spar. The captain of the Mariposa ordered his small boats down, but they could not live in the sea. Then he tried throwing lines to the men, but the men were too stiff and cold to hold onto them. After two hours' manoeuvring he worked the Mariposa around to the spar and dragged the sailors

The rescued men were William Gill, a deck hand, whose home is in Rochester, and Louis La Force, Jr., the sec-

The Idaho is owned by the Western Transit Company. She was built more than thirty years ago, and had been out of commission for four years, but was rigged up for business late this season. This was her second trip, and excepting the captain and firemen the crew was practically new. Sailors did not fancy her for traffic so late in the year. She left Buffalo on Friday afternoon, laden with package freight for Milwaukee. She was 220 feet long, with a net tonnage of 908 and a gross tonnage of 1,110. During the G. A. R. Encamp-ment the Idaho was used as headquarters for the naval veterans.

After blowing open the express company's safe the robbers wrecked the train, which caught fire, the express, baggage and smoking cars being totally destroyed.

It is not yet known whether they were successful in obtaining booty, but it is thought a large amount of money was carried by the train.

GEN. REEDER WON'T COMPROMISE. His Trial for Alleged Defamation to Begin This Week.

Subpoenas have been served on witnesses to appear on Wednesday. The case will go to the Grand Jury unless the prosecution admits that it has no case against the accused. The defendants will press for immediate trial, and it is expected it will be begun Wednesday afternoon or Thursday.

It was said in a dispatch from Pottsville that there was a conference there last Thursday between lawyers representing E. A. Van Valkenburg, the defendant in the bribery case in that county, and attorneys representing enator Quay, Congressman Connell, of Scranton, and Gen. Reeder, looking to a settlement of the Van Valkenberg and the Reeder cases. So far as this relates to Gen. Reeder it is an error. He has declared that he would never settle nor compromise his case.

The Van Valkenberg case is another matter, with which Gen. Reeder is in no way associated, except that he has been summoned as a witness. He is indignant over persistent publications that he desires to or is willing to settle his case.

Ohio Democrats are very good fighters when they get roused, and I am sure that in the Presidential election they will be fully aroused. Between now and then we will do a great deal of missionary work, and I am convinced that the Republican party will do a great deal for us also. Democratic revival meetings will be held all over the country, and many hitherto good Republicans will see the error of their ways and straightway

QUICK JUSTICE.

Murderer Sentenced to Death by Hanging at Express Rate.

Parkersburg, W. Va., Nov. 8.-The legal trial and sentencing of John Morgan, of Jackson County, will go down in the records of West Virginia as a sample of justice as swift almost as lynching. Morgan brutally murdered three members of the Green family early on Wednesday morning, and was sentenced on Saturday to be hanged, having been duly indicted on Thursday and tried with all formality on Friday. Five hours from the time the first evidence was taken in the case before Judge Reese Blizzard the jury had returned a verdict of guilty, and it was only sixty hours after the commission

placed over the condemned man. A mob was formed Wednesday night to lynch Morgan. Judge Blizzard stayed at the jail with the Sheriff an night, three times addressing the mob and promising a speedy trial, no favors and full penalty for the accused if he were found guilty. Thomas Nulty Admits Killing His Three Sisters and Little Brother. Montreal, Nov. 8 .- Thomas Nulty, the eldest brother of the victims of the Rawdon murder, has been arrested on suspicion of having killed his three sisters and one brother. The arrest was made Saturday at the instance of De-tective McCaskill, of Montreal, who has

been working on the case.

The prisoner is about 20 years of age and has been of a roving disposition. He said that he was away from home on the day of the murder and returned to the scene at midnight after it had een committed. He first denied all knowledge of the crime, but his actions aroused suspicion, and he was accord-

HORNBY'S STEAM-COOKED OATMEAL **************************

Washington, Nov. 8 .- The Currency Commission, which has been in session here for several weeks, is ready to formulate a report. It is expected that this will be forwarded to Congress as a petition from citizens and referred to the Committee on Banking and Cur-

The recommendations of the commission will differ in some particulars from the plan submitted by Secretary Gage at a recent Cabinet meeting. The impression is that the commission will en-deavor to popularize its plan by including concessions by the national banks as a compensation to the public for the advantages which the banks would be expected to reap from the system of currency proposed.

The plan will contemptate the with-drawal from circulation of demand obigations upon the Government and the funding of obligations in gold bonds. But it will probably propose a 2-percent. rate on the refunded debt instead of 214, as favored by Mr. Gage, thus saving a big interest charge to the Government. It will also propose to put upon the banks the obligation to maintain gold payments.

It is estimated that it costs the Government \$21,000,000 a year to maintain the parity of the currency, and it is claimed that by putting this obligation upon the banks there will be a saving

of that sum to the Government. Another proposal which is being discussed, but may not be approved, is to levy a tax of a fraction of 1 per cent. upon the banks as an insurance fund

TO OPPOSE ANNEXATION. Delegation of Native Hawaiians to Visit Washington.

Washington, Nov. &-Word has been received here that the delegation of native Hawaiians who will come here to oppose annexation is made up of Prince David Kawananakoa, James K. Kaulia, David Kalauokalini and J. M. Kaneakua. The Prince will pay his own ex-penses, but those of the remaining delegates will be met by a subscription among the natives, the amount to be

raised being \$4,500. The delegation will not urge the resoroyalty, but will maintained. The committee will communicate with Queen Liliuokalani and endeavor to secure her indorsement of this plan, but failing in this they are authorized to proceed without her cooperation for the maintenance of the present status. The delegation expects to have an early interview with President McKinley.

It is said, however, that this move ment by the natives may be offset by a counter movement of native Hawaiians favorable to annexation.

CONSPIRED TO KILL MORAES.

Whether the conspirators planned the death of Gen. Bethencourt, the Minister of War, who was shot and killed as he stood beside the President. remains to be seen, but there are reasons to believe that they did. The monarchical sympathizers, particularly that portion which was inclined to sympathize with Antonio Conselheiro, the leader of the fanatics, who was re-cently killed, were very bitter against the Minister of War because of his aggressiveness toward the fanatics, hence a plan to kill Gen. Bethencourt and the resident together was not impossible. Rio Janeiro, in view of the remarkable excitement which followed the deed, is unusually quiet. In the meantime, however, every precaution is being taken to protect the President, as it is feared another attempt on his life may be made. A strong guard has been placed arond his residence.

Several persons have been arrested n connection with the crime. The soldier who tried to kill the President, however, still declines to give any reason for his crime. All efforts to make

Absolutely no Foundation for the Fright Over Cuban Affairs.

SITUATION ONE OF PEACE

President McKinley Expects No Trouble with Spain, and Proposes to Give It Ample Time to Test the New Policy.

Washington, Nov. 8 .- "There is absolutely no foundation for this Cuban war scare. There has not been a meeting of the Cabinet for two months when the forecast, so far as foreign affairs are concerned, was so pacificatory.

"The prospect for the navy is so quiescent that the captain of our biggest ship has been ordered to Washington and is sitting upon a Board to prepare a bill for the reorganization of the personnel of the navy service. The rest of the big ships are now under-ging their Winter repairs." Secretary Long made this statement

on Saturday because of the sensational reports which have been published during the last few days that the rela-tions between the United States and Spain were in such condition that war was impending.

Positive information shows conclusively that President McKinley regards the Cuban situation as most pacific, nor does he expect any developments at the present time which will be a just reason for alarm. Your correspondent is able to state authoritatively that it is the firm determination of the President to give Spain a reasonable time in which to test the new policy which Gen. Blanco has been authorized to put into effect in Cuba. He has been officially informed of the intention of Spain to abandon the reconcentration policy, and he is daily expecting the announcement that Gen. Blanco has issued an order extending the zones of

cultivation in Cuba. The prospect of a more humane conduct of the war is a reason, in the opin-ion of the President, why this Government should go slowly in further inter-fering in the Cuban matter. Therefore, act as official chairman. He will bring trouble are false on their face. Wash-mass meeting of natives the control of the contr feature being opposition to annexation. > What Minister Woodford has done has been to lay before the Madrid Government a statement in controversi of the allegations recently made by the Spanish Government, through Minister Dupuy de Lome, that the United States has been derelict in the matter of preventing the departure of filibustering expeditions.

The communication recites that the United States has done even more than is required by the rules of international to prevent its territory being made the base for hostile operations against a country with which it is at peace. Not only has "due diligence" been observed, but it is pointed out that a fleet of naval vessels and revenue cutters, At considerable cost to the United States, has been stationed in Southern waters especially to prevent the departure of filibustering expeditions, and that employes of the Treasury Department and the Department of Justice have been active in maintaining a careful watch for any violations of the neutrality laws.

CIVIL CRISIS IN SPAIN.

Internal Dissension and Distress All Over the Land-Revolution May Break Out.

London, Nov. 8 .- A great civil crisis in Spain seems now inevitable, and the day apparently is not far off. Internal dissension and distress are already revolutionary in spirit, and they are likely soon to become revolutionary in action. Information to this effect comes not only from Madrid, but from a variety of public and private sources in Spain which leave no room to doubt

the grave nature of the crisis. The Government is fully aware of the danger, but does not know the actual extent of the sedition in the army. The Carlist propaganda has been widespread for months, but it is impossible to ascertain what proportion of the of-ficers are affected. It is feared that the arrival of Gen. Weyler will precipitate a crisis. He is not accused of Carlism, but is known to be disaffected to the point of insubordination against the

present Government. The Cabinet is prepared to adopt the sternest measures in dealing with Gen. Weyler, in the hope that the example may crush the spirit of revolt. fact that the Cabinet is already talking of shooting traitors, if necessary, is some indication of the serious nature of

the situation.

THE CURFEW BELL.

In view of the talk of establishing the curfew bell in this city, it will be interesting to know that Jacksonville, Ill., has added itself to the list of cities in favor of the curfew. The City Council of that place has just acceded to the earnest request of the local women's clubs, and passed a sented. curfew ordinance for the municipality. While this may not exactly have been a result of last week's convention of the Illinois Federation of Women's Clubs in Jacksonville, the city fathers at any rate deemed it an auspicous moment to announce their decision, and the club women of Jacksonville triumphantly carried the news of their success into the federating body. Hereafter no children under sixteen years of age will be permitted in the streets later than 9 o'clock in sum mer and 8 o'clock in winter.

TROPHY GOES TO BOSTON

BEANEATERS DEFEATED THE PARK CLUB TEAM AT WHIST.

The Game Played at the Revere Hou Saturday Night-Large Score of the Victors Came as Quite a Surprise, The American Whist League challenge trophy has departed from Plainfield and gone to Boston. Saturday evening the team from the American Whist Club of the city of the Beaneaters met the four of the Park Club, of this city, in the parlors of the Revere House and defeated them by a margin of twenty-three tricks. The large score of the victors was unexpected by all, as the American Club players only defeated the Parks by the small margin of one trick last winter. The Plainfielders were fairly defeated, but the large score may be accounted for by the poor form of the

home team, who did not play their

regular championship game, which

made them such formidable rivals for

the highest honors in the whistic

arena of the country. A week ago the Parks won the trophy from the New Jersey Whist Club, of Newark, by eight tricks and brought it to this city, where it has been on exhibition. The next team on the list of challengers was that from the American Whist Club. They came to this city Saturday. The visiting team was composed of Messrs. Bouve, Ward, Fennelossa and Becker. The regular team from the Park Club. Messrs. McCutchen, Townsend, Howell and Rogers, was on hand to defend

the trophy. It was evident from the start that the Parks were not playing up to their the Parks were not playing up to their to the four for the American Club four. usual form, for the American Club four managed to roll up a lead of eighteen The local players braced up a triffe for the second half and the visitors were only able to increase their lead by five tricks. Kendall Smith, of the North End Club, was present and

acted as referee. An expert, who was present at the game, expressed an opinion that in the first half the American Club team played up to their best form, while the Parks were evidently in poor condition. This accounted for seven or eight of the tricks, he said, while the rest was the result of the luck in the game. In the second half the vis-

As an evidence of the interest that was taken in the game among the whistic circles of the country, numerous telegrams were received and sent during the evening from Toledo to Boston.

While the Parks played to win, as they always do, they do not seem greatly worried because the cup is gone. Before they knew that they were to have a chance for the cup at this time, they promised their services to the managers of the Spielkartenfest to assist in the game of "living whist." Had they held the trophy it would have been necessary for them to defend the trophy next Saturday.

-The death of Mary E. McCoy, of 232 Muhlenberg place, occurred yesterday after a long illness. The departed was 19 years old. The funeral will be held from her late residence tomorrow morning at 8:30 and from St. Mary's church at 9 o'clock. Interment will be in St. Mary's cemetery.

RECORDS OF THE WAR

COMPLETION OF THE LAST VOLUME OF THE FIRST SERIES.

A Work That Has Been in Progress to Twenty-three Years-One Hundred and Eleven Volumes Now Finished, Covering All the Operations of the Two Armies.

The most voluminous military publication yet undertaken by any Government has just been completed by our own. The body of the last volume of war records relating to operations in the field nas been printed, and only awaits the index and binding to make it ready for distribution. The work has been in progress for twentythree years.

This first series of 111 volumes embraces the formal reports, both Union and Confederate, of the first movements for the seizure of United States property in the Southern States and of all military operations in the field, including those of the staff corps, with the orders and returns relating specially thereto. These volumes are accompanied by an atlas of 178 plates. There are besides two volumes of a general index to the indexes of each volume. The 111 books of the series contain 118,232 pages. The atlas consists of a colection of several hundred maps of the battlefields of the war, being a reproduction of the originals submitted with the official reports, routes of march of armies, plans of forts, uniforms, Union and Confederate; appliances for the care of sick and wounded, Union and Confederate flags, and Union corps flags and badges. No paper of any kind has been withheld from these volumes because at the time it was of a strictly confidential nature.

Congress was led to undertake the publication of the records of the war by the discovery that all the papers of the Buell Court of Inquiry had disappeared from the War Department. An investigation of the matter was attempted by the Military Committee of the House. It was developed that the record in this case filled an ordinarysized trunk, and that they were delivered by the Judge Advocate of the court at the War Department. The most careful search under the call of Congress failed to develop a trace of the papers. In the course of the inquiry the Adjutant-General testified that Gen. Badeau, then Consul-General at London, had been allowed to take several boxes of records to assist him in the preparation of his "Life of Gen. Grant'

One witness testified that he had seen official letterbooks of Gen. Halleck's in Gen. Badeau's possession at the White House, from which leaves had been cut previous to the books coming into Gen. Bedeau's possession.

The results of the investigation were such as to excite wide attention and create general apprehension as to the safety of the war records. This was increased by the knowledge that few of these papers were in fireproof buildings, while some of the most valuable portions of them, including all of the Confederate records, were in buildings which, both from their own character and their surroundings, were in great danger from fire.

Fried Locust Blossoms.

A delicate dish offered at French tables, presided over by the gracious chatelaines of the old aristocracy, is fried locust blossoms. A whole bunch, heavy with its weight of fragrant bloom, is dipped in the yellows of eggs, as they say over there, then in granulated sugar, and fried quickly in hot, clarified lard. They are served as a course at the second breakfast, instead of the sweet omelet. They have a crisp, delicately aromatic taste that is delicious.

Not from the Same Vine. "Rather curious that both the meion "Rather curious that both the meion and this beefsteak should be the product of a vine," casually obseved Lake Front at breakfast. "Beefsteik from a vine?" growled the dyspetic. C. D. CIGAR, "Yes," was the cheerful reply, "1 qm bo-vine."-Chautauqua Assembly

The Tables Turned. We have almost solved

the servant girl problem. Instead of the maid being mistress, we have made it possible for the mistress herself to be mistress. The tables are turned,

and we have turned them. We have accomplished it to the mutual satisfaction of everybody. The plan is so simple that the wonder is nobody ever thought of it

Cheap but good laundering of general house linen enables every housekeeper to have the washing done out of the house. instance,

What does our proposition mean? It means no more washday odor about the house. It means satisfied servants, because a maid will not be insolent if she can escape washdays and the delay of other work caused by bad drying days. Our booklet" Tables Turned" tells all about our new plan. You can have it for the

REFORM THE CURRENCY

John C. Bullitt, of Philadelphia, Outlines a Plan.

ONLY ONE KIND OF NOTES

And These to Be Issued by the National Banks - The \$800,000,006 Government Paper to Be Taken Up and Cancelled.

nany replies to the series of questions sent out by the Indianapolis Monetary between them. ommission, now sitting in this city, to questions seriatim, Mr. Bullitt gives a national banks. general statement of the plan which

2. That there shall be but one kind of note circulation, this to be issued by the national banks. These notes should be payable in gold when demanded at the counter of the bank of issue, or at such reserve bank as may be selected by the bank of issue, with the approval of the Comptroller of the Currency, for

the purpose of such redemption. 3. The issue of the new bank notes to be made from time to time as the currency obligations of the Government now outstanding are retired, so as to avoid producing either contraction, on the one hand, or expansion on the other, of the amount of currency actually

in circulation. 4. The normal requirements of business are assumed to be \$1,000,000,000. 000,000 (in point of fact it is about \$647,-000,600), and each bank should therefore issue one and two-thirds of notes

by 15 per cent. reserve in gold in vaults of banks, by a first lien upon all assets of bank issuing them, by right of United States Government to assess all banks when needed to make good any notes of defaulting banks so much as may be required for that purpose, and the Government should agree to redeem these notes in gold after default by the

bank issuing them. 6. A tax should be paid by the banks upon their note issue, to be applied to payment of the expenses of Currency Board, and balance, if any, held to se-cure redemption of notes in gold. But when this fund shall accumulate to \$10,000,000 the accruing surplus may be covered into the United States Treasury for paying interest on its bonds and general purposes.

It may be well to vest in the Currency Board the power from time to

time to determine what amount should be thus held as a reserve of the funds accruing from this tax, and to order that the balance as it is paid in from year to year should be covered into the Treasury.

The rate of the above tax should be one-half of 1 per cent. or 1 per cent. per annum upon the note issue, as your Commission may determine to be expedient.

7. The proposed plan would make the notes absolutely equal to gold in value. It would also protect the Government and the associate banks in their guarantee of the redemption of the notes in gold. 8. A currency board should be pro-vided which would have supervision

be redeemed in gold by the United States Government when demanded. These amount to about one hundred

nfilion dollars. 11. No note should be issued for less

12. The Government should take up and cancel all its currency obligations, amounting to about eight hundred miltion dollars. To furnish funds for this purpose power should be conferred up-on the Currency Board to direct and order the sale and issue of Government bonds in such amounts, at such times. and at such rates of interest, not exceeding 3 per cent. per annum, as the board might deem expedient, the proteeds of such sales to be applied to the taking up and cancellation of the outstanding currency obligations of the Government, and such bonds should be sold and paid for in such currency obligations or in gold. After three or five years the currency obligations now outstanding should cease to be legal tender and only receivable for bonds or redeemable in gold by the United States.

13. National banks should be strained to exchange notes now out for new issue by surrendering notes as they receive them.

14. Customs duties and taxes of all kinds due the Government should be payable one-third in gold and twothirds in bank notes. This is necessary to supply the Government with the gold equired by it to pay interest upon its bonds, redeem silver and for other pur-

15. The legal tender quality of gold and silver should remain as now provided by law, and they should be the of two-thirds of customs duties and taxes due the Government, which should be payable in bank notes, as above stated.

16. Confer upon Currency Board power to regulate the issue of bank notes from time to time, in lieu of the Government currency retired, and to authorize new banks and branch banks to be established when and where and with such amounts of capital as the board may deem it proper and expedient, with power also to increase the amount of note issue by the banks required for the normal conditions of business as the country shall grow in

population and in business expansion. As banking capital may be increased by creation of new banks, the Cur-rency Board should have the power to adjust the note issue, whether normal Washington, Nov. 8 .- Among the or extraordinary, between the new and old banks-no distinction being drawn

SEAL TREATY SIGNED.

Representatives of Three Nations Affixed Their Signatures.

Washington, Nov. 8.-The convention entered into by the Commissioners of the United States, Russia and Japan, providing for the temporary suspension of pelagic sealing in the North Pacific Ocean and Behring Sea, was signed Saturday at the State Department. For the United States former Secretary of State John W. Foster, former Assistant Secretary of the Treasury Charles S. Hamlin and Prof. David S. Jordan, president of Leland Stanford, Jr., University, California, the seal expert, signed; for Russia, Gregoire de Wollant, Charge d'Affaires; P. Botkine, Court Councillor, and M. De Routkowsky, Director of Agriculture and Fisheries, and Kakichi Uitsukuri, professor

of zoology in the Tokio University.

Later in the day the delegates signed the protocol of the treaty and were photographed in the diplomatic room.

The treaty pledges the United States, Russia and Japan to prohibit pelagic sealing in waters controlled by them. This will not apply to Behring Sea as far as Great Britain is concerned. Behring Sea is an open sea, and British sealers will have the right to indulge in pelagic sealing there, but the United States will prohibit its own sealing vessels from so doing. While the treaty seemingly affords Great Britain the opportunity to kill seals without stint in the migratory season in Behring Sea and ties the hands of the United States, it is hoped that by making it appear that Great Britain is the only freebooter of the sealing waters the British Ministry will be forced into making a similar agreement with the United States and the other two countries.

It is expected that the meeting of British and American experts will take place this week, according to the original programme, unless there should be some intervention from the British Foreign Office, which is not anticipated. Meanwhile the British expert, Prof. Thompson, who is now in Washington, will be acquainted with what has already been accomplished by the Governments of the United States Russia and Japan in the way of a

HAS SPAIN LOST HOLGUIN!

Calixto Garcia has captured the important town of Holguin, in Santiago de Cuba province. Cable or tel graphic communications are impossible at this moment, and no details or confirmation of the report can be obtained, the insurgents having cut all the wires. Mayari, another important town of the same province, has fallen, without any doubt, into the hands of the insur-

gents under Vega. The garrison Holguin is 1,000 Spanish soldiers. At Peralejos, in the same province, the insurgents under Gen. Jesus Rabi have captured a large Spanish convoy bound for Bayamo. The convoy was escorted by a strong Spanish column under Gen. Aldare. The fight lasted a whole day, but the Spanish had to sbandon the convoy with money and provisions. The war is very active all

ver the island. Commissioner Butterworth Ill. Washington, Nov. 8.-Word has Washington of the serious illness of Commissioner of Patents But-

terworth at Cleveland, Ohio. Mrs. Butterworth left last night for Cleveland for the purpose of being at the bedside of her husband. It is understood that the other members of the family including the daughter of the Commissioner, have been in the city of New York. The friends of the Major in Washington are much alarmed at the reports received from Cleveland, and are somewhat apprehensive as to the result of his illness. The Major left Washington some time ago to take part in Senator Hanna's campaign, and appeared to be in the best of health.

Relief for Klondike Miners.

Washington, Nov. 8.-Secretary Alger sent the following telegram to Mason, president of the Portland (Ore.) Chamber of Commerce, in response to the Chamber's appeal for Federal aid

in succoring starving miners in Alaska: "Nothing can be done by the department without Congressional authority. but I suggest that you get all particulars, and the department will also get what facts it can, and you submit plan for relief. You may be sure of active co-operation as soon as Congress makes an appropriation, which, if found necessary, will be urged."

FARMER MARTINE'S EPISODE. A Street Cleaner Sepped in Front of Him and Was Struck.

James E. Martine was the principal actor in an exciting bicycle episode shortly after 8 o'clock this morning. The farmer-orator was enjoying a spin upon his bicycle and had just spite remonstrances and turned from North avenue into Watoccurred. Mr. Martine reached the iron railroad bridge when a man suddenly stepped out from behind one of the girders of the bridge and stood directly in front of the bicycle, and only a few feet distant. The man had his back toward the wheel and was apparently unconscious of its ap-

Mr. Martine, who is a novice at bicycling, saw the danger and did his best to steer clear of the man. There was not time enough, however, and the next instant the wheel and man collided and the latter was lifted from his feet and tossed back to the sidewalk, where he lay without moving.

Mr. Martine, who was not injured, went to the man's assistance and learned that he was James McFadden, a laborer, who is employed to work on the streets. He had been cleaning the gutters on Watchung avenue of the eaves. He was sent to his home on West Fourth street, where Dr. Hedges attended him. The man's injuries consisted only of a number of bad bruises.

Toughs Had Taken His Rig.

Yesterday afternoon Thomas Doud, of Duer street, drove to Sebring's Mills to see the owner, Charles Sebring. He had been absont about ten minutes, and when he returned his rig was missing. The latter returned home and reported the matter to the police. Later Mr. Doud secured another horse and wagon and started in search of his stolen rig which he understood was last seen going in the direction of Bound Brook.

After a lively chase Mr. Doud found his stolen property at Smith's hotel midway between Dunelen and Bound Brook. The proprietor told Mr. Doud that a gang of toughs had tied the

A FLY BURIES A SPIDER.

Varvellous Intelligence Possessed by the Small Undertaker.

Samuel Simon, Sr., a well known resident of Neshannock Township. while strolling near his home one of The Westfield Athletic Club added the letters from A to F went last recently, noticed a fly about half an inch long and of a dark blue color, with a slim body, bearing a large dead spider, says the New Cas le, (Pa.) D mocrat. The fly crossed his path and laid his load down. It then went about eighteen inches in another direction and commenced digging a hole in the ground. His curiosity being excited, while Miss Mabel Maxson and Miss he stopped and watched the work. After the fly had the hole dug about half the length of himself he went to where he had left the spider and took his dimensions. After going back to the hole he found it was not big enough, and commenced digging again. After taking out a quantity of earth he again went to the spider and took his dimensions. He did this eight times, and as often enlarged the hole. When the busy little fellow had the hole too deep for him to throw the earth clear out he would go on the bank and force it back with his feet. After he had the excavation large enough for his purpose, he went for the spider and took it to the grave, for such it proved to be, and dragged it to the mouth of the hole. After he had the body in he covered it with fine earth first and finished by placing a small piece of linder and took sind and the street and not father from said Berckman street than two hundred and fifty (250) feet.

Practice makes Perfect.

As in all departments of the Arts and Sciences the oldest devotees are the most perfect in their professions, so in Pianomaking does the oldest house make the best instruments.

That subtle knowledge that only comes of a lifelong experience is intensified in the great Piano firm of Chickering & Sons. The founder of this famous house started business in Boston in 1823-74 years ago. The Pianos that bear this name, famous a ways for the excellence of their tone, are to-day the unquestioned superior of all others myle.

AN OSTENTATIOUS FUNERAL.

Grandson of a tiypsy Millionaire the Cause of So Much Display.

An imposing funeral attracted multitudes to a suburb of Baden, Austria, lately. The obsequies were those of the baby heir and grandson of the millionaire gypsy chief Stakiewicz, and surely no archducai infant was ever buried with more state.

A large number of clergy headed the procession. Next came a floral cardrawn by six white horses; then the white hearse, also with six milk-white steeds, containing the body of the gyp-
