## MANY WENT TO HEAR MR. DILTS PREACH.

Former Pastor of Park Avenue  
Baptist Church Addressed  
His Old Congregation.

## TWO INTERESTING SERMONS

MANY PLAINFIELD FRIENDS OF REV.  
ASA REED DILTS THERE.

Preached Yesterday Morning and Evening  
in the Park Avenue Baptist  
Church—Interesting Discourses  
to Large Congregations.

The pulpit of the Park Avenue Baptist church was occupied at both the morning and evening services yesterday by Rev. Asa Reed Dilts, of Lowell, Mass. Rev. Mr. Dilts is well known to the people of this city as the pastor of the Park Avenue church from 1885 until 1892, and many personal friends outside as well as in the congregation were present to hear him preach.

At the morning service Mr. Dilts chose as the text for the sermon, Matthew vi, 33—"But seek ye first the kingdom of God, and His righteousness, and all these things shall be added unto you." He explained very lucidly why man should hold the remembrance of God first and foremost above all things in this world. The duty to seek the Master, said he, should be placed above that of business, of home and even of life.

Again at the evening service a large congregation listened to him expound the teaching contained in Matthew xvi, 24 "Then said Jesus unto His disciples, if any man will come after Me, let him deny himself, and take up his cross, and follow Me." The injunctions contained in this verse of scripture are three fold; first, to yield, second, to reckon, and third, to follow. To deny one's self is to yield or in other words to renounce the machinations of the evil one.

God commands full surrender before he will grant peace, rest, power and blessings. When one is seeking God the conflict is waged between the desires prompted by the devil and the renunciation of them ordered by the Master. To "take up the cross," Dr. Dilts said is equivalent to reckoning.

To Jesus this meant nothing less than Calvary, crucifixion, shame and death, and unto man it means to be dead unto sin. Sin itself will never be dead to one in this life, and it behooves man therefore to be dead unto sin. If an impulse rises to do evil pay no attention to it, but follow in the footsteps of Christ which is the third and last teaching of this Biblical paragraph. In conclusion, said Rev. Mr. Dilts, be able to say "Lord, wherever Thou goest I will follow," Christ leads and it is incumbent on man to follow Him.

Rev. Mr. Dilts is an able and polished speaker and his addresses were absorbingly interesting to those who had the good fortune to hear him preach.

## WILL MAKE CHANGES.

Mayor Smalley Held Conference With  
Councilmen Regarding Appointments  
to be Made.

Mayor Newton B. Smalley held an informal conference with a number of the members of the new Borough Council Saturday evening in the Council chamber on Somerset street. The arrangement of the several committees was suggested by the Mayor and discussed on its merits by the Councilmen present.

There will be some important changes in the committees as at present constituted, but just what particular changes are to be made will not be known until the organization meeting of the Council tonight.

Somewhat of a shake up will be made in the list of minor borough employees, especially in the fire department. It is understood that the plans of the Mayor in respect to the contemplated make up of the various Councilmanic committees as well as the changes in the fire department meet with the hearty approval of the Councilmen.

The belief is widespread that at the Council meeting this evening His Honor will outline the future policy to be pursued by the new administration in the government of the borough.

Will Not Remain in Washington.  
Rev. Dr. Charles R. Barnes, formerly pastor of the First M. E. church, but now of the M. E. church at Washington, Warren county, where he has been for three years, does not expect to return to the pastorate there after the next M. E. church conference.

—John Hand Camp, No. 28, S. of V., will hold a regular meeting tomorrow evening.

## NEW STEAM ROLLER.

Street Committee Decides to Purchase a  
New Buffalo-Pitts Roller  
This Spring.

After careful consideration and examination of the various makes of machines, the street committee of the Common Council, has decided to purchase a new Buffalo-Pitts steam roller, similar to the one offered the city by Contractor Meeker. It was thought that a new one would prove more economical in the end. The old machine now owned by the city will be taken by the makers in part payment and the new roller will have a guarantee of two years. It will arrive in time to be placed in service as soon as the spring work is commenced.

## FINISH OF POOL TOURNEY.

THIS WEEK WILL COMPLETE THE  
EXCITING CONTEST.

Interest Now Centred in the Four Leading  
Men Who Are Melvin, Ammons,  
Moore and McLaughlin.

Unless a tie results between the leaders, it is expected the pool tourney which has been in progress at Krewson's parlors for the past two months, will be brought to a close next Wednesday night. Five more games remain to be played and when these are over the winner will be announced.

Sixteen of the most expert knights of the cue have been entered in the contest and its progress was watched with much enthusiasm, the games each evening being witnessed by large crowds. The players have gradually fallen into various places until now interest centers in four leading men, Melvin, Ammons, Moore and McLaughlin. The latter two have completed the series of fifteen games, but their positions cannot be determined until Melvin and Ammons have finished theirs. McLaughlin has won twelve games and lost three while Moore has won eleven and lost four.

Melvin has been the favorite since the tourney commenced and will no doubt remain in first place, which position he has held all along. He has been defeated twice and has two more games to play, both of which he is likely to win as the men are evenly matched. Ammons has one more to play and if he proves the winner he is sure of second place at least. If he loses it will result in a tie with Moore which will have to be played off.

The schedule for the remaining has been arranged as follows: Monday, Sutterlein 75, Beekman 60; Dodd 75; Melvin 60 Tuesday—Kingston 60, Coombs 55; Walsh 60, Coombs 55, Wednesday—Melvin 60, Ammons 55.

## EARNST WORDS FOR CHRIST.

REV. C. L. HARNEY PREACHED TWICE  
IN REFORM HALL YESTERDAY.

"Living Christ" Was His Morning  
Theme. Evening's Talk was on  
"Christ in Modern Life."

Two more helpful and interesting meetings took place in Reform Hall yesterday under the leadership of Rev. Gilbert L. Harney, the evangelist from Maine, who spoke to audiences at the same place nearly every night last week. In the morning Mr. Harney delivered a powerful sermon on the theme "Living Christ." It was given in his usual energetic way and was greatly enjoyed.

His subject in the evening was "Christ in Modern Life," and from it he drew a discourse which greatly impressed his hearers. In the course of his remarks, Mr. Harney said that four thousand years were necessary to prepare for Christ's coming and then he remained but a short time, yet thousands of men are learning of Him every day and His work is still going on. Christ came into the world to make it better, and though it is not perfect yet, the time will come when there are no more industrial or social troubles common in modern times and men will lead purer and nobler lives.

At the close, the speaker said that Christ is just as willing to save the fallen today as He was when upon the earth, and he beseeched all to give their hearts to Him.

This evening Mr. Harney's subject will be "Faith."

## CAUSE OF TROUBLE.

Investigation Reveals the Cause of  
Illness at the Children's Home—  
Trouble Remedied.

Within the past week the inmates of the Children's Home have been greatly annoyed by nauseous gases, similar to those which prevailed during the recent epidemic of scarlet fever among the children. At that time the North Plainfield Board of Health declared the trouble was due to the cesspools, which were filled to overflowing. When the trouble arose again the members of the Health Board determined to make a thorough investigation, and with several workmen went to the place and tore up the entire line of pipes. With their unearthing the statement was first made by the Board was found to be true as the pipes were in a terrible condition and reeking with noxious odors. In some way the pipes had become clogged, thus forcing the gases back to the building and causing the sickness among the children.

The officials of the Home have admitted that the first theory was correct, and the system will now be overhauled and the pipes relaid.

## NARROW ESCAPE.

Wm. Grogan, of Westfield, Just Escaped  
Serious Injury or Instant Death  
in Newark.

(Special to The Daily Press.)  
Newark, March 18.—Wm. Grogan, proprietor of the North Avenue Hotel at Westfield, had a narrow escape from death or serious injuries at the junction of Broad and Market streets, this city, Friday afternoon. A trolley car was going in one direction and a heavy draft drawn by a team of horses in the other. Mr. Grogan thought he could pass between them, but his foot slipped and he fell on his back. His hands were in his overcoat pocket and he was helpless.

It seemed certain that he would be run over, but both the trolley and the wagon were brought to a stop within one foot of where Mr. Grogan lay prostrate. He was picked up and taken to a nearby place of business, but beyond a few bruises and a severe shock, he was none the worse for his thrilling experience.

Trying to Save Injured Foot.

Although the hospital staff is making every effort to save it, it is not yet known whether Wm. Tobin, of West Fourth street, will lose his foot or not. It was badly crushed at the Pond Tool Works last week, and although medical attention was secured at once it has shown no signs of improvement and it is feared mortification may set in.

## CONFERENCE WAS HELD.

DR. HUNT, OF THE STATE BOARD  
WAS HERE SATURDAY.

Already the Flat Taste and Bad Odor to  
the Water in the Borough Has  
Disappeared—Believe  
Trouble Is Ended.

In all probability the citizens of North Plainfield will in the future be enabled to enjoy purer and better water than that which they have been getting for months past. Complaints without number have been made about the supply which has been drawn from the large tank located on the mountains. The officials of the Plainfield Water Supply Company were notified.

The North Plainfield Board of Health sent for Dr. Hunt, of the State board, with whom a consultation was held Saturday. The result was the determination of the company to abandon the tank until a better course can be adopted which will prevent the water from becoming stale. This can be done by filling the tank from the top and allowing it to escape from the bottom the same as is done at the Netherwood tower.

The water has now been drawn off and the Health Board feels that the trouble will be permanently abated as the flat taste and bad smell have already disappeared.

## PLEA FOR WORK IN INDIA.

REV. DR. DOWDIE, OF NEW YORK,  
PREACHED IN BAPTIST CHURCH.

Was Formerly a Missionary in India  
and Told Many Interesting Things  
Concerning That Country.

A large congregation was present at the First Baptist church yesterday morning to hear Rev. Dr. Dowdie, of New York, who talked on foreign mission work, chiefly in India. Dr. Dowdie has spent some time in India and other foreign countries in mission work and he gave much valuable data concerning the progress being made in Christianizing the natives.

He spoke especially of the advancement in many places in India, how missionaries are being received and their teaching of Christ is welcomed. He also referred to the progress of teaching the English language in India, this being a great help to missionaries and all others traveling in that country. He said that an American could now travel in most any part of India and would experience little trouble in conversation. He urged more generous donations on the part of the people in giving money to help in the work, and the graphic way in which he told of the condition of the people and their needs brought forth a hearty response from those who heard him.

Last evening Dr. Dowdie again gave a talk on missions, telling more in detail of the condition of affairs in India. He described the people, their manner of living, their many religions and what progress the Christian religion is making. Dr. Dowdie's addresses were greatly enjoyed and proved a source of enlightenment to all.

## GETTING READY.

Plainfield A. A. Expect to Open Baseball  
Season the Last Saturday in  
April.

The meeting of the Plainfield Athletic Association, which was held in the parlors of the Hotel Waldorf, Saturday evening, was very well attended and several matters of importance came up for consideration. The members, who were appointed to secure players and arrange all preliminaries for the base ball nine, reported progress and stated that the first game would be played, in all probability, the last Saturday in April. Measurements will be taken for suits in a few weeks.

On Easter Monday night, it is the intention of the association to give a dance and for that purpose a committee of five was appointed to make all arrangements. At the close of the meeting six applicants were admitted to membership.

## BOROUGH SCHOOL MEETING.

WILL BE HELD IN SOMERSET STREET  
SCHOOL TOMORROW EVENING.

Only One Change in School Board  
Probable—What Appropriations Have  
Been Asked for by Board.

The annual school meeting will be held in the Somerset street High School building tomorrow evening. The terms of three members of the present board expire and these vacancies will be filled by a public election. Appropriations to defray the expenses of the coming school year will be considered at the meeting.

The members whose terms expire are S. St. John McCutchen, E. B. Waring and Dr. J. H. Cooley.

By reason of the invaluable services of Mr. McCutchen as the president of the board his reelection will, in all probability, be insisted upon by the citizens as will also the re-election of Dr. J. H. Cooley, who has shown much devotion to his duty as a member of the board. E. B. Waring has removed to Perth Amboy and consequently will not be a candidate before the meeting. This is the only real vacancy to be filled.

While there are a number of men in the borough well fitted for the office, few names have as yet been suggested. John Vallant, who has in many ways shown his interest in the schools, will probably be nominated.

Some mention has been made of Dr. J. Hervey Buchanan in this connection. Dr. Buchanan is a public spirited citizen of the first district and is considered a strong man influentially.

\$15,700 is the sum total of the appropriation which the School Board will advise the meeting to make. If this amount, \$12,900 is allowed for teachers' salaries and other current expenses, excepting text books and school supplies for which \$1,400 is asked.

The manual training department will also require \$1,400 of the total appropriation. If this is granted by the citizens, the board will be entitled to receive a like amount from the State for the training work and for this reason the members of the board are particularly anxious that the citizen approve the appropriation requested.

The interest manifested in the manual exhibition at the Somerset street school Tuesday is looked upon as an indication of a large meeting tomorrow evening.

The interment took place in the Gateville cemetery, Bound Brook, and a service was held there. The pall bearers were Samuel Newcorn, of Philadelphia; Jacob Rosenthal, of New York; M. Leichtenritt and M. Abrams, of this city.

## PLUNGED HEAD FIRST THROUGH STORE DOOR.

Exciting Finish of a Wild Ride  
Yesterday By Thomas H.  
Smith, of Rahway.

## HE TURNED TOO SHARPLY.

HORSE AND WAGON STOPPED  
SUDDENLY AT THE CURB.

But the Driver Continued His Trip—  
Drove His Head Through Panel  
to Door in Lussardi's Fruit  
Store—Taken to Jail.

Fondness for liquor and fast horses landed Thomas H. Smith, of Rahway, in the police station yesterday evening. Shortly before 6 o'clock yesterday afternoon Smith drove madly down East Front street and in an excited manner was urging his horse on to a terrific gait by incessantly whipping the animal.

When nearing the intersection of Somerset street Smith suddenly determined to change his course and drive over the brook, but the speed attained by the horse at this moment was too great to allow the horse to swing around properly, and instead the animal headed for the curb in front of Lussardi's fruit stand on Blatz's corner. Up went the horse and road wagon on to the pavement, where they stopped, and at the same time the sudden jolt of the wagon against the curb caused the driver, Smith, to be thrown head foremost against the door of the fruit shop at the corner.

Smith's head came in contact with the door so hard and suddenly that it went right through the lower panel smashing the thin board to pieces. The jar loosened the door from its hinges and the panes of glass in the upper section broke with a crash, and the oranges and other fruit were scattered about.

Smith received a badly bruised forehead but, fearing that his injuries might be serious, the ambulance was hurriedly summoned and the man was removed to the hospital. Here on account of Smith's drunken condition the authorities refused to receive him after ascertaining that he had only suffered a shaking up by the accident. The police authorities then placed Smith in the station house to sober up. It was found that the road wagon was badly wrecked.

This morning he was given a hearing by City Judge Runyon for drunk and disorderly conduct. The culprit made a frank admission of the details of the affair, and City Judge Runyon holding that the disorder and damage was more accidental than intentional was inclined to be lenient especially because Smith had never been in the toils of the law before and was willing to pay for the damage done. He was discharged on condition that he would make satisfactory settlement to Mr. Lussardi for the broken door.

## MISS KINSEY WEDDED.

Quietly Married to Wm. H. Ferris, of  
Newark, Wednesday Evening.

Announcement has just been made of the marriage of Miss Pearl Kinsey, of this city, to William H. Ferris, of Newark, which occurred at the rectory of St. James church, Wednesday evening. The ceremony was performed by Rev. James Curry, in the presence of a few intimate relatives and friends. Mrs. Ferris is the daughter of Mr. and Mrs. Uriah B. Kinsey, of Sycamore avenue, and is very popular among a large circle of acquaintances to most of whom her marriage will come as a complete surprise. The groom is also very well-known in this city, but has always resided in Newark. The young couple have taken up housekeeping at the latter place.

A. H. Moffett Is Worse.

Of Rahway, who was injured in the trolley wreck at Westfield, Wednesday, has steadily become worse. He was visited by his brother, Charles L. Moffett, of this city, yesterday and he says the victim is threatened with blood poisoning from the terrible burns he received on the arm. He is also injured very badly about the head and suffers great pain.

Suspended During Good Behavior.

John Smith, a young man who confesses to having a decided taste for liquor, was arrested Saturday evening by City Detective McCarthy for drunkenness. Smith, when given a hearing this morning, was in a repentant mood and City Judge Runyon imposed a sentence of \$10 fine or 40 days, which was suspended during good behavior.

## THE FINAL TRIBUTE.

Impressive Funeral Rites For Benjamin Harrison.

PRESIDENT MCKINLEY A MOURNER.

Fifteen Thousand People, Including Many Men Prominent in State and Nation, Attend Obsequies at Indianapolis.

INDIANAPOLIS, March 18.—Surrounded by fully 15,000 of his fellow citizens the remains of Benjamin Harrison were yesterday interred in the family lot in Crown Hill cemetery. Close by the grave were the members of his family, President McKinley and other visitors of distinction and the more intimate friends of General Harrison. Back a distance of 50 yards behind ropes guarded zealously by a large force of police stood with uncovered heads the great multitude who knew him not so well as did they who stood beside the freshly upturned earth, but who honored him and admired him quite as much. It is doubtful if any public man, at least in this generation, has been borne to his last resting place among so many manifestations of respect. Of passionate grief there was little outside the members of his family, but the tribute of respect was universal. It came from all alike—from those of his own political faith and from those who differed with him concerning what is best for the nation's good, from men who have been his lifelong friends and from those who knew him merely by sight and to whom he had never spoken. It came from women and children, from white and black, from all conditions and kinds of people. There was no exception anywhere to the expression that the nation had lost one of its ablest men and the greatest man of his generation in his own state.

By the grave stood the chief magistrate of the nation, and behind the ropes were the street Arabs of General Harrison's city. Every grade of human life in America between the two was represented in the crowd, and among them all there was but the one feeling, that a man had died who was honest at all times with himself and with others and whose ability and character were such as the nation could ill afford to lose.

The weather, like that of Saturday, was splendid, bright sunlight, the warm breath of spring in every breeze and yet in the air a touch of winter that brought the blood to the cheek and a sparkle to the eye.

The services at the church and grave were simple in the extreme, all in most excellent taste, and, like the proceedings Saturday, there was an utter absence of friction in everything that was done. All was well ordered and well performed.

At the Harrison home before the remains were taken to the First Presbyterian church, where the full service was held, there were brief exercises for the members of the family and the more immediate friends of General Harrison. Possibly 150 people were present. Mrs. Harrison did not appear, but remained in her room until it was time to leave for the church.

President McKinley, accompanied by Governor Durbin, called at the house at about 1 o'clock. At about the same time came the members of President Harrison's cabinet, and others continually arrived until the short services were over. The people sat in the parlors, filled the halls and a number of them sat upon the stairs while Dr. Haines read a short passage from the Scriptures and made a few remarks touching the life and character of General Harrison, as did Dr. Nicolls of St. Louis, and after a brief prayer by Dr. Haines the services were over. The floral wagon to the house, and a number of the largest pieces were loaded into the vehicle preparatory to being taken to the church. Word was then sent to Mrs. Harrison that the time had come for the body to be removed to the church, and she at once came down from her room into the parlor.

The procession was to have left the house at 1:30, but it was fully 30 minutes later when everything was in readiness. The doors were thrown wide open, and the honorary pallbearers, who were General Benjamin F. Tracy of New York, John W. Wamaker of Philadelphia, William H. Miller of Indianapolis, John W. Noble of St. Louis, Charles Foster of St. Louis, O. General Lewis Wallace of Cincinnati and William A. Woods of Indianapolis, came slowly down the walk leading to the street. After them came the active pallbearers bearing the casket. They were A. L. Mason, James Whitcomb Riley, Evans Woolen, Harry J. Milligan, Clifford Arrick, William C. Bobbs, Harry S. New, Howard Cole, John T. Griffiths, Newton B. Tarkenton, Hilton U. Brown and Samuel Reid.

While the casket was being placed in the hearse the honorary pallbearers stood to one side with bare heads.

Behind the casket came Mrs. Harrison with her brother, Lieutenant Commander Parker of the navy, and the Elizabeth Harrison. The same Secretary Tibbott and Mrs. Tibbott, then Mr. and Mrs. McKee, Mr. and Mrs. Russell B. Harrison, then the other relatives of the dead ex-president. Directly after the members of the family came President McKinley and Governor Durbin and following them the friends of the family.

The route of the procession was south on Delaware street, then one block east to Pennsylvania street and thence direct to the church, a total distance of 12 squares. Twelve mounted police led the way and cleared the streets.

There were several thousand people around the Harrison residence as the funeral procession moved away, but the crowd there was insignificant to that gathered around the church.

Two hours before the time set for the commencement of the services the people had begun to gather at this point, and by the time the funeral procession arrived there was a solid mass of humanity stretching a block away on every side. The streets were kept entirely clear by a detachment of police and Company C of the Second Infantry, commanded by Captain Porter. Sentries patrolled the street just outside the curb, and nobody without being able to produce a card entitling him to admission to the church was permitted to step off the walk.

It was 2:30 o'clock when the procession arrived at the church, and for as hour and 20 minutes before that time

the church had been packed to its utmost capacity. In fact, its capacity was stretched somewhat, and in places inside the building the people were wedged together much too tight for comfort. Dr. Haines opened the church service by repeating:

"I am the resurrection and the life. He that believeth in me, though he were dead, yet shall he live, and he that liveth and believeth in me shall never die."

Dr. Nicolls then read from 1 Corinthians, xv, 35-38, inclusive, after which Dr. Haines offered prayer. After the prayer the choir rendered the hymn "Rock of Ages" in a beautiful and impressive manner. This was General Harrison's favorite hymn, and it is said it is the only one he ever attempted to sing. Following the hymn Dr. Nicolls read portions of Scripture from the fourteenth chapter of St. John and the twenty-first chapter of Revelations, after which Dr. Haines delivered the funeral address. After the address Dr. Nicolls offered prayer. The services were closed with a hymn solo, "Hark, Hark, My Soul," rendered by Edward Nell, in which the entire choir joined in the chorus.

The party left the church in the same order in which it entered. For the most part those who attended the church services left immediately for Crown Hill cemetery.

Gathered around the Harrison lot in Crown Hill cemetery and standing in solid masses along the winding road which led to the place were the thousands of people who, with bowed heads and manifestations of sincere sorrow, watched the funeral procession take its way through the grounds. The reverend demeanor of the vast assemblage was more noticeable even than on the preceding day.

It was nearly 5 o'clock when the line of relatives and friends came up the gravelled path to the tomb. The stillness of evening had come; there was hardly a sound in the air. On the arm of Lieutenant Commander Parker Mrs. Harrison took her place at the head of the coffin, which had been borne to the side of the grave by the pallbearers.

Near her on the left stood the general's son, Russell B. Harrison, with his wife and Mrs. McKee. Colonel Harrison kept his eyes fixed upon the casket, never turning them away from it during the service.

President McKinley came to the grave with Mrs. Durbin and stood with her during the brief service. When the prayer was offered, the president was seemingly deep in thought and remained so with bowed head after the final word had been said. He stood with bare head immediately beside the stone monument of the Harrison family, and once when the weariness of the day had touched him seemingly he leaned against it for a moment.

The burial service was very simple and very brief. The Rev. Dr. Nicolls read the short committal and burial service, and the Rev. Mr. Haines followed with a prayer. The silence was so deep that the words of the speakers, pronounced in tones hardly above the ordinary, could be distinctly heard beyond those immediately around the grave and by those massed around the elevation on which the family and friends stood.

Instead of following the usual practice, which consists of dropping a handful of dust on the coffin, three white carnations were placed upon the lid. When the last word had been said and the service was over, the attendants lowered the coffin to its place. To the last it bore the wreath from Mrs. Harrison and the bouquet of lilies of the valley from little Elizabeth. On the coffin was placed a heavy walnut cover, and then the granite roof of the tomb was lowered and closed.

The last resting place of ex-President Harrison is a tomb five feet deep, incased in granite four inches thick and covered with a granite top of the same thickness. On the reverse side of the cover is the simple inscription, "Benjamin Harrison, 1833-1901." The interior of the tomb was decorated with ferns, so profusely that no sign of earth or stone was visible. Dozens of exquisitely beautiful floral tributes were placed on the tomb and on the ground about it. As the people slowly left the cemetery the distant boom of cannon firing the national salute came to their ears, and by the time the last gun was fired the night was down and the grave alone.

**Senator Frye Going to West Indies**

NEW YORK, March 18.—It is announced here that Senator Frye of Maine, president pro tem. of the United States senate and chairman of the senate committee on foreign relations, will sail Wednesday next for the West Indies. He will go first to San Domingo and after that to Cuba and the northern portions of the territory recently surrendered by Spain. It is said that the senator expects to investigate the possibilities for American capital developing the West Indies as well as ascertain the views of leading Cubans upon questions now up for settlement before the present constitutional convention at Havana.

**Embezzling Cashier Captured.**

WASHINGTON, March 18.—Charles A. Johnson, the fugitive cashier of the First National bank of Niles, Mich., was captured yesterday in Columbus, O., by secret service officers. The bank recently closed its doors owing to Johnson's embezzlement, which, according to the warrant issued, amounted to \$100,000, but is supposed to be much greater. He disappeared at the time the failure was announced and was located and arrested in Columbus by Secret Service Detective Porter of Chicago.

**Woman Sat on a Burglar.**

DENVER, March 18.—A Georgiana Thompson, a pretty blond, sat on a burglar for half an hour, shrieking when he attempted on several occasions to free himself from her grasp and sticking him violently with a long hatpin whenever he tried to throw off the burden which rested upon him as he lay on the hall floor of a building on Seventeenth street. The burglar is now in jail. Miss Thompson is ill with nervous prostration, but with al proud to tell of her experience.

**Shamrock From Alexandria.**

LONDON, March 18.—The new Irish guards regiment, stationed at Chelsea was agreeably surprised yesterday on returning from church to find that an orderly had arrived at the barracks from Marlborough House with boxes of shamrock from Queen Alexandra and a note in her own handwriting requesting the colonel of the regiment to distribute the emblems to the men on parade.

## A PREACHER-SHERIFF.

Cumberland County, Me., Has This Unique Combination in Rev. Samuel F. Pearson.

A minister of the Gospel who is at the same time a sheriff is a good deal of a novelty even in these days of political novelties. But Rev. Samuel F. Pearson, sheriff of Cumberland County, Maine, is a marked man because of other and more important considerations, for his election by one of the most phenomenal political landslides in the history of the state may have some far-reaching results. It is hailed by the prohibitionists as the beginning of a movement for a more rigorous enforcement of the prohibitory liquor laws of the state, and Mr. Pearson's victory is attributed

REV. SAMUEL F. PEARSON.  
(Minister of the Gospel and Sheriff of Cumberland County, Maine.)

to popular anger at their lax enforcement. Mr. Pearson was regularly nominated by the prohibitionists, and in endorsement of his candidacy was narrowly prevented in the democratic convention. At the polls the temperance democrats and republicans rallied to his support, but his election was a surprise to all parties. He is the first prohibition party sheriff to be elected in the United States, so far as is known.

He is a man of strong individuality. He is a reformed drunkard, and in his early days reached a level of degradation from which since his conversion to abstinence he has done much to rescue others. He was probably the first man in Maine to vote the straight prohibition ticket. He voted it, indeed, if it be not paradoxical to say so, before there was a prohibition ticket in the field, by writing "Prohibition" on a slip of paper. One of the election officers held it up and said: "This is 'Sam' Pearson's vote; we'll count it scattering." And young Pearson answered with spirit: "We'll scatter it till the rum shops of Maine are closed."

Mr. Pearson served with distinction in the civil war. After the war he came to Portland. In 1872 he began his Gospel mission work, and since that date he has held 8,229 services, conducted 357 funerals and 229 marriage ceremonies and, with Mrs. Pearson, has made 15,347 visits to the poor. In England he secured over 100,000 pledges to temperance. He is an indefatigable worker and a man of tremendous energy. What he will do now with the power of the sheriff's office at his back is awaited with interest, and with trepidation by not a few.

## MONUMENT FOR BENTON.

Famous Missouri Statesman's Grave to Be Marked by an Appropriate Art Work.

As a further evidence that republics are ungrateful it is pointed out that the grave of Missouri's great senator, Thomas H. Benton, which is located in Bellefontaine cemetery, near St. Louis, is marked only by a small and crumbling stone, on which is carved simply the words, "Thomas H. Benton," with no reference to his great public

THE GRAVE OF BENTON.  
(Located in Bellefontaine Cemetery, Near St. Louis, Mo.)

services or even a mention of the dates of his birth and death.

There has just been introduced in the Missouri legislature a bill appropriating \$5,000 for the erection of a suitable monument over his grave. It is expected that the bill will pass, as it has the support of prominent men all over the state.

Senator Benton was born in 1788, and served in the senate of the United States from 1820 to 1850 one of the most important periods in the history of the country. He died in 1858, before the war of the rebellion had begun.

**Unique Street Car Line.**

A curious street car line is that between Atami and Yoshihoma, two coast towns in the province of Izie, Japan, relates the New York Tribune. The line is ten miles long, the rolling stock consists of a single car, and the motive power is furnished by a couple of mular coolies, who actually push their team along wherever power is needed. When the car comes to a down-grade they jump on and ride. The coolies who work this unique road are said to be astonishing specimens of physical development. The re for a round trip over the road, including the expected tips for the crevis 21 cents.

## FIERCE FIRE IN PITTSBURG.

One Life Lost and Several Injured. Heavy Property Loss.

PITTSBURG, March 18.—During the progress of a fire yesterday at the corner of Duquesne way and Fort street one man lost his life and three others were badly hurt. The property loss will be fully \$250,000, well insured. All of the injured men are in the hospital in rather bad shape, but all will recover.

The fire broke out in the boiler room of the Hiram W. French company's hair felt factory, just opposite the Exposition main building. Through some confusion no alarm was turned in for some time, and it was fully 20 minutes after the fire was discovered before the engines reached the scene. From the felt factory the flames jumped across the street, and in a very short time the Exposition building was burning fiercely. All the firemen could do here was to prevent the flames spreading. After hard work this was accomplished, and Machinery hall, with its valuable contents, was saved. The main building was a complete wreck. Two lumber yards adjoining the felt factory soon succumbed. Gallagher & Banker lost 1,000,000 feet of lumber and Henry Henk 350,000 feet of valuable hard wood. Three small dwellings near the lumber yards were destroyed, but as far as known all the inmates escaped.

William Miller and his fellow firemen were victims of a live wire. The intense heat melted the network of wires running in every direction, and one of them in falling struck a trolley wire, the other end crossing the brass nozzle of the hose held by Miller and Snyder. Both men fell as though they had been shot. Schaecker and Griffith, in going to the rescue, were also caught, and both were badly burned. When the prostrate men were reached, Miller was dead and two of the others unconscious.

The loss on the Exposition building will reach \$100,000, fully insured. President Torrance says the structure will be rebuilt at once and be ready for the fall engagements.

**CONDENSED DISPATCHES.**

Adelbert Hay, United States consul at Pretoria, arrived in New York.

The transport Kilpatrick, with 400 sick soldiers, arrived at San Francisco from Manila. Four privates died on the voyage.

A supplementary estimate issued by the British government shows that the expenses of Queen Victoria's funeral amounted to £25,000.

Representative Mariotti Brosius, chairman of the Pennsylvania house committee on banking and currency, died from a stroke of apoplexy.

The sale of 21,000,000 acres of land by the Northern Pacific railroad lying west of the Missouri river for \$40,000,000 was reported to have been consummated.

**Many Girls Perished.**

ST. JOSEPH, Mo., March 18.—Search of the ruins of the New Normal factory fire resulted in the finding of but two bodies, which have been identified. They are those of Nora Bates and Louise Blondeau. A portion of another body, believed to be that of a woman, was found, but there is no way to identify the victim, says the coroner. Considerable difficulty was experienced yesterday in getting at the bodies. It was late before the fire had been controlled sufficiently to begin work. It was learned that there was but one fire escape from the seventh floor of the building, and at least 25 girls were on this floor. One of the girls, who says she was the last to leave this floor, says there were probably four or six more girls left behind when she went down the fire escape, and she thinks all perished. The fire had been burning 15 minutes before the alarm to the girls on the top floor was given. Excuse is made on the grounds that the employees expected to put out the flames and gave the alarm when they discovered they could not succeed.

**Two Transports Sail Today.**

SAN FRANCISCO, March 18.—Troops of the Sixth cavalry, stationed at the Presidio, and Company H, Seventh infantry, stationed at Alcatraz, have been ordered to sail for Manila by the first transport available. They are expected to embark on the Hancock, scheduled to sail March 25. One squadron of the Sixth cavalry is in the Philippines, and the other is in China. The two troops which are now ordered to the front formed the home squadron. Two squadrons of the Fifth cavalry and two troops of the Fifteenth cavalry are to sail on the Meade today. The Pennsylvania, which is also scheduled to sail today, will carry seven companies of the Tenth infantry.

**Sleeping Cars Burned.**

PALATKA, Fla., March 18.—Two Pullman sleeping cars, Tabita and Elmer, train No. 32 of the Plant system, Tampa to Jacksonville, were completely burned at an early hour yesterday morning at Buffalo Bluff, seven miles from this city. All that remains of them is a mass of twisted iron, the wheels and trucks. The sleepers were filled with tourists, and all of them were asleep at the time of the fire. So quickly did the flames spread that there was practically no time for saving clothes or valuables.

**Shamrocks For Queen's Tomb.**

WINDSOR, England, March 18.—With King Edward's special permission a deputation of the Royal Munster Fusiliers, including General Laurie and Colonel Johnston, visited the mausoleum at Frogmore and laid a beautiful Celtic cross of shamrocks and lilies upon the tomb of Queen Victoria in memory of St. Patrick and of Queen Victoria's command a year ago to the Irish soldiers to wear shamrocks.

**McGovern Will Meet All Corners.**

NEW YORK, March 18.—Terry McGovern, featherweight champion pugilist, who is matched to fight Oscar Gardner before the Twentieth Century Athletic club at San Francisco on April 30, says that it is his intention to meet all corners as soon as he gets to the Pacific coast.

**Prospects Bright For Peace.**

PRETORIA, March 18.—The prospects of peace are still considered hopeful. The Boer losses last month were 160 killed, 400 wounded and 1,000 captured and surrendered. Owing to the heavy rains General French's transport difficulties are still enormous.

**Early Opening of the Mississippi.**

DURQUE, La., March 18.—The ice in the Mississippi at this point has gone out, leaving the channel clear for several miles. This is the earliest for years.

## LIA PHYSICAL WRECK

Death of the Brilliant Chinaman Seems Imminent.

LOSS NOW WOULD BE IRREPARABLE.

No Other Man Could So Well Represent China During the Present Trying Period of Her National Existence.

PEKING, March 18.—The health of Li Hung Chang is again a matter of grave consideration to the ministers of the powers. Mr. Rockhill, the American special commissioner, who visited Earl Li Saturday, says he is a physical wreck and apparently in a state of utter collapse, although mentally as brilliant as ever. Mr. Rockhill would not be surprised to hear of his death at any moment.

The removal of Li Hung Chang by death or any other cause at the present moment would be very unfortunate. M. de Giers, Russian minister, said yesterday:

"Li Hung Chang is a great diplomat, and his influence with the Chinese court is absolutely unique. No other man in China approaches him in this respect. This influence is not temporary, but it is particularly effective at important moments in the history of China like the present."

Senator de Coloman, Spanish minister and doyen of the diplomatic corps, said: "The Chinese court could not appoint a plenipotentiary of the same caliber and having equal influence with the Chinese and the foreigners. Although many of the ministers of the powers object to his political methods and regard him as essentially a trimmer, nevertheless they realize that he is the best possible man to represent China in the present emergency."

Orders have been received by United States troops to depart next month, leaving behind only 150 infantry. The German headquarters' staff assert that these instructions are a "great mistake," alleging that it is necessary to retain a large body of foreign troops in the country for at least two years. Most of the ministers, however, take a different view of the matter, believing that the best course is to retain a few of the troops of each nation and to withdraw the rest.

## The Sewage Question.

One of the most important questions which the city of Plainfield has had to consider for several years will come up at the adjourned meeting of the Common Council this evening for action. It has been demonstrated that the city's sewage disposal beds, as operated at present, are not perfectly satisfactory and do not answer the requirements. That some change is necessary, every one who has carefully looked into the situation at the disposal beds agrees, but it is a question whether it would be best to enlarge the beds under the present filtration system or adopt a new plan.

For nearly a year, the members of the committee on streets and sewers of the Council have worked carefully and patiently in an effort to discover the most satisfactory solution to the problem. It is a question which the laymen cannot judge with certainty and he is compelled to depend to a greater or less extent on the expert testimony of those who have made a special study of the subject. Recognizing that fact, the members of that committee engaged the services of J. O. Osgood, who was recommended to them as one of the best authorities on the subject of sewage disposal.

Mr. Osgood investigated the situation at the disposal beds of the city, and then prepared an exhaustive report on the subject, advising the use of the septic tank and contact beds in preference to a continuation of the old system under more favorable circumstances. Plans were prepared following out Mr. Osgood's suggestions and bids were advertised for.

Now the committee on streets and sewers has the draft of an ordinance, which has been approved by Corporation Counsel C. A. Mareh, which authorizes the making of the changes recommended by Mr. Osgood and awards the contract for the erection of the septic tanks and contact beds to the firm which made the lowest bid. By a vote of the Council at the March meeting of that body, the draft of the proposed ordinance was advertised in the local papers so that everyone had plenty of opportunity to see just what the Council was considering.

Another meeting of the Common Council was set for this evening when this proposed ordinance will come up on first reading. Unless some radical defect is found with the ordinance, it is only reasonable to suppose that the vote on the ordinance will be the same on the final reading that it is on the first. The members of the Council will, therefore, be called upon this evening to take a definite stand on the question.

As far as the methods of the Council in going slowly and carefully are concerned, there can be little criticism. The subject has been given plenty of publicity and any citizen who objects to the proposed changes still has an opportunity of bringing his reasons to the attention of the members of the Council. As far as the wisdom of the recommendations of Mr. Osgood and the committee are concerned, it is impossible for the layman to criticize with intelligence. It would seem as if the Council had done its best and time only will show if its judgment in the matter was good.

Every day's delay on the part of the city authorities in failing to take some action in reference to the cleaning out of the stream which divides the city from the borough serves to show more plainly that somebody is either woefully forgetful or else hasn't a full realization of the importance of action. The North Plainfield Board of Health showed its good judgment by acting promptly. Similar action should be taken by the authorities on this side of the brook. If the members of the Board of Health of Plainfield do not know what a blot the present appearance of Green brook is to the city, let them take a minute or two and visit the new bridge over Green brook which now connects

Madison avenue and Duer street.

After a trial of five years, the educational authorities of Hoboken have decided that the vertical form of handwriting is not a success. The Plainfield Board of Education is struggling with the same problem. The subject was discussed at the last meeting of the board and Secretary Lounsbury, in particular, was firm in his belief that this system was not successful. No action was taken at that meeting, however.

While the officials of the Elizabeth, Plainfield and Central Jersey Street Railway declared that the serious accident of last week was not due to too fast running of their cars, but rather of failure of the brakes to work, they have taken very sensible action in increasing the running time of the cars between this city and Elizabeth so that the motormen are not compelled to run their cars at such high speed.

The basket ball season as far as the Fanwood Athletic Club is concerned is over for this spring. That team has made a good showing and had they played in some place easier reached from Plainfield, their audiences would have, no doubt, been greatly increased in size. As it was, the people of Fanwood gave them staunch support.

One of the members of the Westfield township committee wants an ordinance adopted which compels trolley cars to come to a full stop before turning curves within the bounds of that township. Due care should certainly be exercised by the motormen when approaching curves, but it seems like going a little too far to compel the car to stop entirely.

The Court of Errors and Appeals will today consider the question of the constitutionality of the Anti-Spring Election Law. While Plainfield will not be affected by it until next fall, the union of the county and charter elections will undoubtedly make an important change in local politics.

Everything is now ready for the placing of the new street signs in position. They will be a wonderful improvement to the city and the day cannot come too soon when they shall all have been placed in position.

The rapid growth of Garwood's industries is bringing prosperity to that place. New houses can hardly be built fast enough to answer the demand for them.

North avenue merchants are not pleased with the prospect of that thoroughfare taking a place of secondary importance.

City Collector Frank H. Smith has started his campaign against delinquent taxpayers, and he says that it will continue.

Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by L. W. Randolph.

## Car Being Repaired.

Trolley car No. 71, which leaped a curve at Westfield last Wednesday, injuring eleven persons, is now at the barns on West Fourth street, where it will be repaired. One side will have to be practically rebuilt as it is splintered and bulged in its entire length. The trucks and motors are in good condition but the latter will need re-wiring before they are serviceable.

To Meet Those Who Came Out for Christ.  
Rev. Dr. D. J. Yerkes, pastor of the First Baptist church, will be at the church this afternoon at 4:15 o'clock and at 8 o'clock this evening to meet and confer with those who recently took a stand for Christ and wish to join that church.

To Satisfy a Claim.

Constable Wm. E. Mattox will sell at public auction, Thursday, the stock of millinery goods and trimmings and also the household furniture at 331 West Front street to satisfy a claim of Frank Nell against Nellie S. Clark.

## LOCAL SCHOLARSHIPS IN N. Y. U.

WILL BE AWARDED AT PLAINFIELD HIGH SCHOOL THIS YEAR.

Two Offered. One in School of Applied Science and One in The Regular Collegiate Course.

Arrangements have been perfected between the authorities of New York University and the Plainfield High School whereby two pupils of the present graduating class of the High School will receive valuable scholarships in the New York institution of learning.

A scholarship tuition of \$100 in the school of applied science for the coming collegiate year of 1901-1902 has been awarded as has also a much more valuable one in the college of arts and pure science which is the regular college course. This scholarship tuition represents \$400, and covers the entire course from 1901 to 1905. A condition precedent to awarding college scholarship is that the recipient must graduate in the third foremost part of his class. The selection of the pupils to whom the scholarship will be given is left entirely to the discretion of Principal Ira W. Travell of the High School and will be awarded by him immediately after the spring examinations.

It is recalled in this connection that Ralph Campbell, of the class of '93, P. H. S., was awarded a prize for the best entrance examination to the N. Y. University by the faculty of that institution.

### AT THE THEATRES.

Something About the Attractions Which Plainfield Theatre-Goes May Care to Witness.

The big "White Rat" carnival which will be at Music Hall, Tuesday, March 26, will undoubtedly be the finest aggregation of vaudeville talent ever seen in this city. The company is under the immediate supervision of the White Rats Association, which in reality is one of the greatest organizations now in existence. By their actions in resisting the demands of the board of managers, they receive the heartiest approval of the working men, and are affiliated with the knights of labor. Apart from this and the excellence of the bill, the appearance of George Thatcher should draw a full house.

David Belasco's, "Madame Butterfly," continues to crowd the Proctor's Fifth Avenue Theatre, Broadway and 28th street, New York. Though such is the case, Mr. Proctor will further increase the drawing powers of the programme by presenting Helen Dauvray, a favorite actress some few years ago, in J. B. Buckstone's farce, "Night's Out." A special production of the piece will be made, with careful attention to scenic environments and costumes. Miss Dauvray will be assisted by John W. Albaugh, Jr. Other well known numbers are: Jess Dandy, the Hebrew parody singer; O'Mear Sisters, famous acrobats; Willis Family, accomplished instrumentalists; Dupont and Lothian, comedy sketch artists; Kaimo, dancing expert; the Keatons, acrobatic nonsense, and a dozen more.

### A. O. H. Hall.

The members of Division No. 4, A. O. H., are making preparations for receiving a large crowd at their twenty-sixth annual ball, Monday evening, April 8. Professor O'Reilly's full orchestra has been engaged for the occasion and the ball will no doubt eclipse all previous efforts. The committee, will be in charge, consists of John F. Casey, chairman, Patrick Harrington, John J. Goff, Sr., James Foster and James Ennis.

### For Conference and Prayer.

Rev. Cornelius Schenck, Pa.D., of Trinity Reformed church, will be pleased to meet tomorrow evening, for the purpose of conference and prayer, all who have recently expressed a sincere desire to be true disciples of Christ, and a preference for Trinity church, as well as all others who have sought their Saviour.

Es würden dann in Deutschland nur noch zwei Fortifikationslehrstühle, Tharandt und Eisenach, fortbestehen. Der Numismatiker Imhoff-Blumer in Wittenburg, Schweiß, dessen Münzensammlung die hiesigen königlichen Museen im vorigen Jahre erworben, schenkte der königlichen Akademie der Wissenschaften zu Berlin jüngst 100,000 Francs zur Förderung von numismatischen Arbeiten.—Der Bauvereinsdirektor Georg Cohnitz wurde auf Antrag des Staatsanwalts selbst von der Anklage des schließlichen Reineids freigesprochen. ## JOSEPH W. BAILEY.

Former Democratic Leader of the House Elected United States Senator from Texas.

Joseph W. Bailey, after two years of retirement, will reenter congress on March 4 next as a senator. He was elected the other day by the senate and house of representatives, sitting separately as the successor to Horace Chilton, United States senator from Texas.

In the senate Mr. Bailey received 47 votes and E. A. Atlee two. The house gave the former Gainesville congressman 110 votes, Mr. Chilton, two, and John M. Reagan and M. M. Crane, one each.

The election of Mr. Bailey followed a long debate in the house over the ma-

JOSEPH W. BAILEY.  
(United States Senator-Elect from the State of Texas.)

Majority and minority reports of the Bailey investigating committee. The majority report exonerated Mr. Bailey from any moral or legal wrongdoing in the matter of securing a new permit for the Waters-Pierce Oil company, but severely criticised those who had seen fit to criticise Mr. Bailey and state officials. The majority report was adopted by a vote of 107 to 2.

Mr. Bailey made a unique record for himself while representing the citizens of the Gainesville district in congress. He was chosen leader of the democrats in the house at an age younger than that of any other man so honored. He continued while in congress to be one of the most remarkable figures in that body.

Mr. Bailey is a born Mississippian and is just past 37 years old. He was precocious in every way. At 20 he was graduated from Cumberland university. At 21 he was an elector on the Cleveland and Hendricks ticket, and at 27 he was elected to congress. Within six years he had risen to be the leader of his party in the house, and this in spite of his youth and the terrible temptations to one of his age to allow vanity and complacency to spoil his career. He goes to the senate one of the youngest men in that body.

## MRS. GRANT AT HOME.

How the Widow of the Famous General and President Spends Her Declining Days.

Time has dealt gently with Mrs. U. S. Grant. In appearance she is still only "elderly." In her manner she is kind and motherly, showing a wonderful simplicity and naturalness when one stops to think of the artificial atmosphere in which she has lived so long.

She has recently been engaged in editing the finishing touches to a journal of her trip to California in 1894, which she intends to present to her daughter-in-law, Mrs. Ulysses Grant.

MRS. JULIA DENT GRANT.  
(The Venerable Widow of America's Most Famous General.)

"When I am in the vein for it," Mrs. Grant says, "I write with great ease. My eyes have failed almost entirely, however, and spectacles being of no assistance, I can't read what I write. This makes revision difficult, and I decline many overtures from magazines and newspapers for articles. My poor sight, too, deprives me of the pleasure of going into society, which I should very much enjoy. It is embarrassing not to know people, and so I accept no invitations. Still, time doesn't hang heavy upon my hands. Mary reads the newspapers for me every morning, and I knit and take drives and loil about, and Nellie and I play patience and other games of cards."

Mrs. Sartoris and her family live with Mrs. Grant, and when they are all at home there are only two spare rooms. The house is not elaborately furnished, Mrs. Grant having used in it just what she happened to have when she moved in four years ago.

A marked rise in the level of the Dead sea has been noted. The ruin, El Bahr, that stood like an island near the mouth of the River Jordan, is now completely under water. A broad lagoon has formed on the north side of the Jordan delta. The water does not sink in summer and it is surmised that the whole bottom of the Dead sea has been raised by volcanic action.

A Philadelphia lady relates an experience of her own, saying that after suffering untold agony, her husband, who had heard Lupans Tabules very highly commended for persons suffering from lack of appetite or any complicated stomach trouble, strongly urged her to try them. Her stomach had seemed cold and she had had little appetite for many weeks. She determined to try the Tabules and to follow all the directions, but had little faith that there was any cure for the serious complications that appeared to have taken possession of her. It seemed to her hardly possible that a 50-cent package of Lupans Tabules would cure when a large doctor's bill of \$50 had failed to accomplish aught. "But," she said, "joyfully," they did! and she said: "I cannot thank you immediately and how I can truly say that Lupans Tabules are the best."

## LINGERIE.

Pretty Underwear Daintily Made by Hand.

Elegance of underwear is not now deplored by a profusion of trimming. Rather it is indicated by fineness of material, simplicity of decoration and delicacy of workmanship. The newest underwear is, of course, all made by hand, and the little tucks, etc., are marvels of dainty needlework. Women who are fond of sewing find this the prettiest and most satisfactory sort of fancy work, and as the material employed—fine batiste, cambric, etc., with no dressing in it—is very soft progress is by no means slow and the manufacture of a constant supply of dainty underwear no arduous task. Valenciennes lace is the trimming usually employed, although there are all sorts of fine open and embroidered insertions which are attractive and bear laundering

## DINNER BODICE.

equally well. Hemstitched ruffles of various widths are also pretty and much in vogue.

A picture is given of a dinner bodice of broche silk. It has a tight fitting back and a coat basque. In front it is caught up to the bosom and draped by a large bouquet of parma violets. The pointed vest is plainly fastened with small ornamental buttons and is of grosgrain silk matching the figures of the broche silk. The long sleeves of broche silk are tight and flare at the wrist. The décolletage is framed in a large collar or bertha of fur.

## FANCY BALLS

Costumes of Various Sorts For Evening Entertainments.

The season of fancy dress entertainments is in full swing, and there are the usual motley collections of costumes available. The large number of glittering metallic and jeweled materials available this season affords, however, special scope to designers of fantastic dress and also suggests a preponderance of oriental and fairy tale gowns. A little glitter goes a long way in fancy costume, and very pretty things may be made at home with comparatively small expense. Among costumes of this sort may be mentioned the harlequin, which may be feminine as well as masculine and for which all sorts

of odd scraps of silk and ribbon may be utilized, brightened by a judicious sprinkling of spangles.

The picture given today shows a Swiss peasant costume. The skirt of dark blue wool goods is bordered by two bands of bright embroidered galloon, and there is an apron of changeable silk, with lines of featherstitching across the hem. The high corset of black velvet is trimmed with gold galloon and laced by cords and buttons. This is worn over a chemise of white muslin, and there is a sort of yoke of black velvet trimmed to match the corset and attached to it at the shoulders. The full sleeves are gathered in at the elbow by a black velvet band. The cap of black velvet has wings of black lace.

## SPRING MILLINERY.

It is Displayed in Full Glory, Preparatory to Easter.

Spring fashions are in full bloom, and the millinery displayed is of most varied character. The general effect of hats is low and broad, with the trimming well distributed and a tendency to large, flat masses of drapery and flowers rather than erect, slender decorations. Among hats all of flowers may be mentioned a new model in which the flat crown is composed of one enormous pink rose six

## CLOTH TOILET.

or seven inches in diameter, while the brim is a wreath of green rose leaves, small but crowded thickly together in a mass. Then there are draped toques of all sorts of diaphanous materials—tulle, crepons, net, crepe de chine and mousseline de soie—and for trimmings lace of all kinds, thick and thin, flowers, metal decorations and less often feathers. Straw, horsehair braid and shirred taffeta are also used for hats, but in nearly all cases the soft draped effect is preserved, except in the case of outing hats.

The cut shows a gown of pearl gray cloth. The skirt has three stitched bands of cloth running around it horizontally and three others at each side running vertically and outlining the tablier. These terminate under buttons. The open bolero is trimmed with stitched bands to match, with revers and cuffs of stitched folds of capucine panne. The collar and the chemise are of white linen, as are the puffs at the wrists. The wide corselet belt is of capucine panne. The hat of pearl gray silk is trimmed with a bow of capucine velvet. Pearl gray gloves are worn.

JUDIC CHOLLET.

## SILK PETTICOATS.

Taffeta Supplemented by Silks Having Woven Designs.

Broche silk petticoats of two colors, making a medium tone, are useful for general service and may accompany almost any sort of gown. Where several nice petticoats are obtainable of course one or two may be very light in tint and delicately trimmed. Satin is sometimes employed, but is lined with taffeta. Nothing is really prettier than very fine lawn or batiste skirts of pure white embroidered and trimmed with lace.

Taffeta petticoats have become rather common, and serviceable qualities of

broche silk are now preferred. There is often a lining, which should match the petticoat as nearly as possible.

To accompany tailor made gowns full chemisettes and cravats are indispensable. They are made of mousseline de soie and lace rather than surah, although the latter is more substantial. Fancy collars, ornamented with velvet ribbons, having ends terminating in metal tips, are immensely employed. The illustration shows a pretty bodice of Nile green faille. The collar, small guimpe and narrow plastron are of plaited white faille, and the fastening is covered by loops of black velvet ribbon and little gold buttons. There is a sort of double collar forming tabs in front, and all the edges are trimmed with narrow black and gold passementerie. The sleeves are plaited and have a large puff at the elbow headed by a band of black velvet with a bow and gold buckle. There are cuffs trimmed with passementerie.

## PRINCE OF MONACO.

Ruler of Gambling Principality Would Be Free Again.

Therefore He Seeks to Have His Marriage Annulled—His Present Wife the Daughter of a New Orleans Banker.

It is not a divorce which Prince Albert of Monaco is now endeavoring to secure from his American born wife, but an annulment of the marriage, which would not only liberate him from all financial obligations toward her, but, likewise, deprive her of the title of princess of Monaco, besides paying the way to his third marriage with some princess of the blood, the name of the widowed duchess of Aosta, only sister of Princess Louis and Victor Bonaparte, being freely mentioned in connection with this matrimonial project.

The grounds on which the prince is seeking to secure an annulment of his union to the daughter of the New Orleans banker, Michael Heine, are that there was a serious legal flaw in the marriage. His first matrimonial alliance was with Lady Mary Hamilton, sister of the late duke of Hamilton, the wedding taking place in the presence of Emperor Napoleon and Empress Eugenie in Paris.

This marriage was subsequently annulled ecclesiastically by the vatican on the ground that Lady Mary had been forced into the match against her will, the decree at the same time recognizing as legitimate the child born of the union, Prince Louis, who is now heir to the throne of Monaco. This decree was confirmed by the late prince of Monaco in July, 1880.

But Prince Albert's first marriage had been contracted in France while he was still heir apparent, and consequently entitled to no extra territorial privileges, ranking merely as a French nobleman; that is to say, as duke of Mazarin, of Valentinois and of Mayenne. But in 1880 there was no such thing as divorce in the French code the divorce laws now in existence only

coming into operation several years later.

In 1889, says the New York Journal, Prince Albert married, in France, Alice Heine, widow of the French duke of Richelieu, without having taken any steps to have either the vatican decree of his annulment or the Monaco decree of his first marriage recognized and confirmed by the French divorce courts. Indeed, on the register of marriages of the eighth district of Paris, where the second marriage of the prince took place 11 years ago, the word divorce is not mentioned, the only reference to the prince's first wife being a remark that he had previously married Lady Mary Hamilton.

According to French law the prince was, therefore, not free to wed the widowed duchess of Richelieu in 1889, having neglected to take the necessary legal steps to liberate himself from his matrimonial bonds. Hence his second marriage is from the point of view of French law invalid, and even bigamous. It may be argued that the prince as a reigning sovereign is exempt from the jurisdiction of the French courts. But the very fact that he should have appealed to the latter to rid him of his American-born wife indicates that he is willing to recognize their competence, in which he is undoubtedly right. For, besides being prince of Monaco, he is, as stated above, a French nobleman and territorial magnate.

Both his marriages have been contracted in France. His principal residence is in Paris, and the principality of Monaco is within both the civil and criminal jurisdiction of the French courts.

The success of the project of the prince is regarded as assured. For by refraining from any opposition the princess will evade the scandal of a divorce suit and the legal associations of her name with that of the corespondent. Being immensely rich in her own right, she can well afford to forgo any alimony from the prince, while in losing the title of princess of Monaco and of duchess of Mazarin, she has a right to resume her former style as widowed duchess of Richelieu, which is assuredly a more illustrious name than that of either Mazarin or Monaco. Nor has she borne any children to the prince of Monaco since her marriage to him, so that she need not be influenced by considerations of that character.

## HOW HE WON FREEDOM.

Jailer's Daughter and a Saw Help a Young Truant to Escape from a Calaboose.

A boy tramp of the variety that goes west to fight Indians every spring found himself incarcerated as a vagrant in a town some hundreds of miles distant from his native city of Chicago. In recounting his plight and his deliverance from durance vile he told a nice little romance to his friends on his return.

"I was in a lighthouse prison," he said, "and could see dimly through the chinks. It was nightfall. I heard the soft accents of a female's voice outside

the log against which my eyes were riveted. She was speaking to me. What she said was that she was the town marshal's daughter. That is to say, she was the daughter of my jailer.

I asked her whether she was placed a sentinel over me, to shoot me in case I tried to overturn the log house and attempt to make my escape. She replied that she would like to see me escape, but declared I had not sufficient strength to procure liberty in any other way except by sawing my way out. She handed me the saw, a tiny one that had just room to pass through the chink. In an hour I had cut a chunk out of the bottom log. I crawled out. The marshal's daughter was there to greet me. She said she liked my appearance when she saw her father lock me up. After getting my name and address and having told me she would write or visit me in Chicago she commanded me to run for my life. I ran. Her father was shooting at me in another second, but he missed every shot. I was near enough to him to allow the powder of his revolver to burn my coat. I afterward thought the reason he failed to hit me was because his daughter no doubt had substituted blank cartridges for bullets. What a bird she was! And won't I see her again soon? You bet I will. Jails have no terrors for a boy who wins such a sweetheart."

## SEIZED POKER CHIPS.

Two Colorado Women Take a Novel Way to Collect a Debt from a Gambling Miner.

Two women recently visited a gambling house in the Redlight district of Leadville, Col., and got money from a delinquent debtor by taking forcible possession of his stack of chips. W. H. Bauman, according to his creditors, Mrs. Shytle and Mrs. Sowa, refused to pay them, although he is earning good wages as a miner. He owed them, they say, for board and for taking care of his children. They learned that he was spending his money gambling. A policeman guided them to the place where Bauman was taking part in a game of poker, the only game that is permitted by the authorities. A por-

ter tried to stop them, but was thrust aside. Entering the lair of the tiger, they found Bauman seated behind a big stack of ivory and at once demanded a settlement. Bauman paid no attention to them, as a big jackpot in which he was heavily interested had just been opened.

The two women, however, were equal to the emergency. One of them held her apron open while the other swept Bauman's chips into it. There were many players in the room, but none interfered. The dealer allowed the women to cash them, and they gave Bauman receipted bills for the amount due them.

**Home for Divorced Women.**  
A club has been established at Vienna to provide women who divorced their husbands with home comforts. Legal aid will be given to intending divorcees, and a movement has been started to secure a repeal of the law under which uncontrollable sympathy is a valid ground for divorce. The founders of the club are 12 women whose divorcees astonished Viennese society.

### He Got Some Work to Do.

"Prisoner," said the learned magistrate to a lazy fellow before him, "this is the third time you've been here."

"But, your honor," pleaded the prisoner, "I've been trying to get work and couldn't."

"You wouldn't work if you could get it."

"Yes, I would, your honor."

"What kind of work?"

"Anything, your honor, so long as it was honest work."

"What kind of wages?"

"Wages is no object, your honor; all I want is work, with food, and clothing, and a shelter."

"And you'd work if you had that sort of a job?"

"Indeed, I would, your honor; only try me," and the tears actually came into his eyes.

"Very well," said the magistrate kindly, "we'll give you a job, with shelter, food and clothing combined. Six months' hard labor. Next case."—Tit-Bits.

### Exploration of Lake Tanganyika.

An interesting exploration of Lake Tanganyika and the country north of it, finished recently, revealed the fact that while certain sea mollusks are found in this lake, it is the only one of all the large African lakes in which such phenomena are observed. This lake is only a short distance, some 80 miles, from the great Congo basin, much of which, without doubt, was once covered by the sea. The halolimnic fauna appeared to extend into the Congo valley, and it is believed that the lake at one time extended considerably to the west. Lake Nyassa, on the other hand, has every characteristic of a fresh-water lake, and the geological fauna does not indicate that this lake is of any great age.—N. Y. Post.

### Observed Little Charles.

"Will you please give her my card when she comes?" inquired the caller.

"Yeth, ma'am," said Charles.

The caller opened her card case, and as she withdrew the engraved pasteboard a bit of tissue paper fluttered down onto the steps. Very grandly Charles picked it up and handed it to her, saying:

"You dropped one of your cigarette papers."—Albany Journal.

### Lilacs Came from Europe.

The common lilac, which is known to botanists as *Syringa vulgaris*, has been in cultivation for over 300 years and its native home is said to be on the mountainous regions of central Europe, from Piedmont to Hungary, whence it was introduced to cultivation in 1597. Botanists recognize about 12 species of lilacs found in a wild state and these are native from southwestern Europe through central Asia and the Himalayas to Mongolia, northern China and Japan. None of the species are natives of the American continent.—N. Y. Herald.

### On Good Terms with His Job.

The passenger train, already four hours behind time, was struggling, with every pound of steam the engine could carry, to force its way through the snowdrifts.
