the Government and the people of the United States. The Government of the United States is the only one in the world which is not a monarchy. It is a republic, and its power is derived from the people. The people are the source of all power, and they are the only ones who can change the Government. The Government is not a separate entity, but it is a part of the people. It is the people who elect the representatives of the Government, and they are the only ones who can remove them.
