

The Weather.
Generally warmer and partly cloudy, followed by rain.

BRIEFINGS
—Next Sunday will be Easter Sunday.
—The new Seventh-day Baptist church is now under construction.
—The city Council will meet at adjourned session this evening at eight o'clock.

—A bill signed by the governor recently in the legislature will be pleasant to the city for the next three years.
—The Christian Endeavor Society of the Warren Mission chapel will hold a meeting to-morrow evening.

—A matter of record we mention the fact that there were several snow squalls yesterday and the day was very cold.

—The mechanical drawing and book-keeping classes of the Y. M. C. A. will meet this evening at eight o'clock. Every member of these classes is requested to be present.

—Sunday a week ago people might go about feeling very comfortable in light winter clothing. Yesterday they would feel too comfortable in heavy winter clothing.

—An overture to the school law regarding the rigid enforcement, and increases the responsibilities of teachers and district clerks in the matter of school attendance.

—There will be an entertainment next Thursday evening at the Boys' Club. A very nice programme is being arranged, and all members are urged to be present.

—The "Burglar" was given Easter evening, for the second time, in Hillman Hall, and reached nearly every home.

—One would scarcely believe that gem of a play, "Alhambra," was written by the same author.

—Polonians Giese had set the time for the funeral of the dog he had shot, for to-morrow afternoon at two o'clock.

—During the funeral, a man confessed the body of the dead animal and consequently the funeral had to be postponed.

—Evidence increases that the universal language will be English. It has already taken the place of French and German in Russia. All the deliberations of the recent conference concerning Russia were conducted in English.

—A gentleman in Liberia has driven out every last farthing of money from the west coast of Africa, where once Portuguese were dominant and powerful in the country, as it is also in Japan.

—Tax News is delivered to all parts of the city and borough at ten cents per copy. It is the only paper of the kind in the city.

—For the convenience of those coming on trains whose homes are carriers cannot conveniently, and trustees, a few papers are left at the Union Street Co. at the depot. We cover the city so thoroughly that we have occasion to reach very few in this way.

—Another paper, having little more than the circulation of Tax News, but depending largely on this transient business, undertakes to make competition with Tax News. The impression is intended to convey any success with the undertaking, or those who may not happen to be acquainted with the paper, which makes even leading citizens of the city party ready to allow it into the city.

—The other paper depends largely on its ability to deceive readers as to the value of the paper. It is a paper that has been in the city for a long time. Tax News has done so for years.

OLD GRACE CHURCH.

THE FINAL SERVICES HELD IN IT YESTERDAY.

Dean Rodman Reviews its History—The Corner Stone Laid 38 Years Ago—The New Edition to be Occupied Next Sunday.

The services held in Grace church yesterday were of peculiar interest to the community in this city. A long line of people assembled in the modest little church, being Palm Sunday, and the beginning of Holy Week, all the services of prayer and praise were tinged with a special tone of solemnity, which was intensified by the knowledge that the congregation were worshipping for the last time in the little church, which by many had been considered as a very well built association.

While fully conceding the necessity for a new and larger building, and recognizing the fact that the old church was a substantial and beautiful church, to be occupied for the first time on Easter day, the new congregation did not feel that it was the duty of the church to give up its place in the bright little sanctuary, where so many spiritual blessings had been bestowed.

The pastor, in his touching address, dwelt upon the solemnity of the occasion, and the fact that the church was passing on to the hands of the new congregation, and the fact that the church was passing on to the hands of the new congregation, and the fact that the church was passing on to the hands of the new congregation.

The church was built on East Front street, near Richmond, with a seating capacity of two hundred. It was built in 1854, and was the first church in the city to be built of brick. It was built by the Rev. Dr. Fox, who was subsequently removed to its present site and again enlarged; and still later, a third enlargement was made by the Rev. Dr. Fox, who was subsequently removed to its present site and again enlarged.

TORTURED BY BURGULARS

Miss McDowell's Eye Put Out at Hollidaysburg, Pa.

VETERAN BUILT BADLY BURNED

The Johnsons Wrecked and a Lighted Lamp Under the Stove Ignited the House. Mrs. Johnson, 2nd Div. of the War, was killed in the Hollidaysburg Prison.

HOLLIDAYSBURG, Pa., April 11.—Two atrocious outrages were committed in this place during the night by masked burglars. John Daly, an old soldier, was awakened shortly after he had retired for the night by three burly men. They demanded his pension money which he was supposed to have secured about the house, and he refused to give it up. They then bound him hand and foot, tied him to a chair, and began a horrible series of tortures. First they blindfolded him in the dark with a knife, then they beat him over the head with a revolver, but still he would not tell the hiding place of his money. They then took a lighted lamp and held it under his ear, burning that organ completely. The old soldier yelled with pain and begged for mercy but the burglars only increased their tortures. Daly was rescued, however, and would not divulge the whereabouts of his wealth. Seeing that it was useless, the burglars then beat the man until he became unconscious.

Put One of Her Eyes Out. After thoroughly searching the house the burglars left and proceeded to the room of Mrs. Johnson, an aged woman, who is reported to have a little money. They dragged her from her bed, and in a similar manner as Mr. Daly, but she refused to tell where her money was. In the left eye, and the slight distress. They also pierced her skull with the edge of a knife, and then they left her in a state of unconsciousness. The burglars secured nothing. There is no clue to their identity.

MORE THAN TWENTY DROWNED.

DESTRUCTIVE FIRE in Mississippi Cause the Loss of Twenty Lives. BIRMINGHAM, April 11.—After five days of absolute isolation from the world, communicative with the outside world, was restored by wire. The river has risen nearly three feet higher than ever before, and the whole country is under water. More than twenty persons have been drowned, as far as heard from, and it is feared that the last will prove enormous when the wide territory flooded can all be heard from.

In one case a colored family of nine persons were rescued. They took a pig to the boat with them. The pig jumped out of the boat and one of the women was drowned, and it is supposed that the last will prove enormous when the wide territory flooded can all be heard from.

A dozen persons were seriously injured. No strangers were seen to enter the church after service began, and it is supposed that the bomb was set with a slow fuse earlier in the evening. No arrests have been made.

A Wonderful Submarine Boat Successfully Tried at Detroit. DETROIT, April 11.—The submarine boat that has been building here for the past winter has had a thorough trial yesterday. With a crew of three on board, the boat was submerged, going down gradually and under perfect control of the pilot.

Under water the boat was able to attain a speed of over ten miles an hour and to turn around, rise or sink with the greatest ease. The boat was submerged several times under different circumstances, and proved that the peculiarly constructed propellers were well adapted to their purpose. It was also proved that in sinking or rising the boat maintained a horizontal position, a matter of great importance in a submarine boat.

The boat is equipped to run by steam power while on the surface, but can operate under the water the motive force comes from a powerful electric storage battery, the cells being charged by the sun's rays. The boat is a perfect success, and showed that a submarine boat was not only possible but practicable. The present boat was built only as an experiment. It is of the shape of a cigar, with a pointed bow, being 100 feet long, 14 feet deep, and 9 feet beam. Its keel is of steel, and it is of iron.

Kate Field on Women's Carriage.
One good effect of short skirts, if ever generally adopted, will be to force women to learn how to walk well. At present they shuffle, mince, lurch in one foot, do everything but walk. Nothing com-

A Fashionable Loo.
That lovely old loo so much in vogue with our mothers and grandmothers, my half a century ago, and called Spanish blonde, is coming into great favor this season. It always looks so like French hair, so softly down it fall and so graceful are its patterns.

A Hearty Among Royals.
The beauty of the royal family of England is said to be Princess Marie, eldest daughter of the Duke and Duchess of Edinburgh. The young lady will be present at the first drawing room of the season.
