The Trinity Reformed church of Westbury, has been busy over the week-end with the liquidation of the last mortgage, and the waker sister church of Trinity, the Reformed church, has no less reason to be glad, for the fact that the treasurer has a receipt in his hands for \$800, which amount has been paid in full of a mortgage of \$1,700 held by the Board of Dominion Union, reducing the debt to \$1200.

THE ANNUAL REPORT OF THE ASSOCIATION JUST PREPARED—THE WORK BEING DONE. The State Charities Aid Association's annual report has been issued.

The condition of the poor has been very thoroughly examined, and the report of the managers of the association says:

In speaking of the work done in the almshouses, the managers report that a good many aged and infirm persons have been rescued from these institutions, whose relatives were found able to care for them. The fact that many illegitimate children are born in almshouses calls for legislation to prevent women from returning after the first time.

The examination of the county insane asylums showed them to be under good management, and the kind care and good treatment is producing a large proportion of recoveries.

The keeping of the insane in a number of the county and town almshouses of the State can not be too strongly condemned, without proper medical treatment, with no chance of recovery, they are kept on from year to year in a helpless condition, a trial to themselves, a terror to those who take care of them, and an expense to the county.

Thus there must be some change in the laws which govern these jails, but because of the association that have taken the matter under very serious consideration and intend to make a report which will cover the details of the system, with suggestions, after considering the laws which govern jails in other States.

Under the present system confinement in jail is not dreaded. The jail is not looked upon as a place of punishment. The very large number of commitments for minor offenses increases every year. The Essex County Committee report that one woman has been in and out of the county jail six times in the last year, for nearly fifty years.

The probation system, now in successful operation in Massachusetts, deserves immediate consideration in the hope that if such a law could be passed in our State it might prevent the increase of crime and repetition of crime.
