

## Contractors Pushing New Plan Whirlwind Windup For Red Cross Campaign

(Special Correspondence)

## Co. K Has First Serious Mishap

(Special Correspondence)

"Somewhere in New Jersey," June 21.—Another week of guard duty has passed and finds most of the members of Company K in the shop, although the accident that befell Ernest Drake has put a damper on the boys' spirits. He is in the Non-month Memorial Hospital and remains unconscious.

With a total of \$25,000 contributed up to the present time and plans already made for conducting a whirlwind campaign tomorrow and Sunday, Chairman Wilbur H. Rogers and the remainder of the Red Cross Campaign Committee this morning expressed the belief that Plainfield would contribute the \$50,000 expected of it in the country-wide movement to secure \$100,000,000 for the American Red Cross. Judge William C. Smith announced today the details of the campaign, to be carried on for the last two days which include short programs tomorrow in the theatres and a big mass meeting in the Plainfield High School on Sunday.

The management of the Proctor Theatre and Plalnhead Airborne have agreed to contribute twenty-five per cent of the net proceeds of the fund and members of the Women's Auxiliary will be stationed at the entrances to receive contributions. The committee will be in the Proctor's at 8:00; at the Lyric at 8:30, and at the Airborne at 9:00. It will be necessary to have a short appeal to be made by a judge of the fair, and a concert afterward Miss Marie Bois will sing "The Battle Hymn of the Republic."

East Fifth street, is the next to be gotten ready, as the entire stretch from East Fourth street around to Richmond street is to be double-tracked for the Union and Netherwood trolley lines. The Public Service Corporation is now hauling materials to begin the double tracking during the coming week. This is to be one of the biggest improvements of all the new work, as it will not only give the public better trolley facilities but will also make a splendid continuous automobile route directly into the city from South avenue.

After Watchung avenue and East Fifth street have been disposed of, the Newark Paving Company will get busy on East Second street, between Park avenue and Watchung avenue, which is also to be relayed with brick. The work at this point will be somewhat slow as provision must be made to keep the thorough-

fare open at one end for the accommodation of the fire apparatus at headquarters. This will be done by using the middle of the fire house as a center, first working to it from Watchung avenue and having all alarms answered via Park avenue. When the new work is completed, the other half from Park avenue will be formed.

## To Make Appeal

## For War Victims

A mass meeting for the benefit of the Syrians and Armenians will be held in the auditorium of the Plainfield High School next Tuesday night. It will be under the auspices of the American Committee for Armenia and Syrian Relief and every cent contributed will go for relief.

The meeting will be presided over by George W. McCutcheon and among the speakers who will be present are Dr. Frederick G. Coan, a man who has seen much of the suffering in the East during his stay there and Dr. Frederick H. Lynch, editor

### MISS VAN EMBURGH GIVES UNIQUE PATRIOTIC PARTY

Miss Marjorie King Van Emburgh, daughter of Mr. and Mrs. H. C. Van Emburgh, of East Second street, entertained fifteen of her schoolmates in the Hartridge School at her home Monday afternoon for a unique patriotic party.

The affair began with a luncheon shortly after 1 o'clock. The dining room was decorated in Red, White and Blue and a large "Unrel-Sam" hat occupied the centre of the table. Red, white and blue ribbons were strung from it and when followed up produced a pretty favor hidden in the hat. The girls

G. F. SWENERTON, of 1418 South Main avenue, died in Mühlenberg Hospital yesterday afternoon, after undergoing medical treatment there for the past two weeks. He was twenty-four years old and married.

up and all alarms will be answered via Watchung avenue. The force of men will be doubled on the East Second street block to hurry the job along, this being agreed upon between the contractors and the street committee. From Second street the Newark company will probably proceed to West Front street, laying brick from Madison avenue to Liberty street, after which the other portions of the contract will be taken in point of importance.

brickling to do, has had his men busy on West Seventh street for the past three weeks. Most of this time was taken up with preliminaries, but the actual paving is now well under way and the first block from Grant avenue to Darrow avenue has been finished. The street was left in bad shape af-

for the installation of the big storm sewer, consequently Mr. Bentley is still continuing working on Second street. He has a contract for the work that he will build two blocks of concrete on Park avenue, between Seventh and Ninth streets. The one block of brick he is to do is Madison avenue, between Front and Second streets. Mr. Bentley, who is a brother-in-law of County Registrar Frank H. Smith, is a resident of Elizabeth, but is a member of Plainfield Lodge of Elks. He has a wide circle of friends who give assurance that every bit of his contract will be completed in a most satisfactory manner. He was a member

In connection with the new street work, the Common Council is having a new sanitary sewer built in West Second street, from Central avenue to Park avenue. It was found by the city engineer that the present line

was barely adequate to care for the needs of the community. The course of a few years would be insufficient. It was deemed best to put in an extra one before the street was permanently closed. The cost of the new course of construction along side the old pipe is calculated to meet all requirements for at least twenty-five years. Ralph Kelly, president of the city council, said he has a force of 100 men now at work. Mr. Kelly's contract also includes an additional sanitary sewer for Madison street from the common council. The work is ordered by the common council as a precaution against tearing up the new brick.

**LITTLE GIRL RAINDY BURNED.**  
Loretto Tucker, colored, eleven years old, was rescued at Muhlenberg Hospital, St. Louis, after suffering from a painful burn about the entire body. The child was about to go to bed when her clothing became incandescent. Her condition is such that she will probably live with her parents at 218 West Third street.

Osborne, Harry N. Mague and Joseph Kelderling. Linwood Hutchinson has been appointed mechanic and Harold F. Beekman second cook, while new appointed first class privates include Lewis D. Brown, Percy H. Clark, George L. Morrison, John Perrine and Elmer Windsor.

Judge Connolly yesterday filed conclusions in which he sustained a motion by Attorney Frank J. Burns to quash an indictment found against Patrick J. Martin, of this city, for the "embezzlement of partnership funds." The case was a novel one, and the conclusions were cleverly drafted by Burns, through the

Martin was indicted for driving \$500 of the funds of the Martin-Tovell Express Company, doing business here, in which he was partner. His attorney claimed that it was impossible for a partner to embezzle funds from the concern on the ground that a man cannot steal from himself.

---

**Belated Lodge Man**  
**Spots Distant Fire**

was made early Wednesday morning by Frank Neal, of West Front street, who, from the top floor of the Babcock building saw flames break through the roof of a barn on Main-street belonging to Julius Donato and leased by J. Steinman. Mr. Neal had been attending a late lodge session and was just about to start

down stairs when he saw the sky being covered brilliantly illuminated and taking a second look realized the cause of the alarm. He called out to the others and hurriedly telephoned fire headquarters and had just delivered his message when box 12 began striking on the third floor. The alarm was sounded and he had rushed up the men and gave them a considerable start over the regular alarm.

The barn and its contents were practically destroyed at a loss of about \$1,000, covered by insurance. Three horses belonging to Stegman were gotten out in safety. His aunts and his mother were not hurt and he was not hurt, but he was to be shot. The cause of the fire is unknown.

At 6 o'clock Wednesday evening the fire was called out for the second barn fire. The building belonged to W. D. Thibodeau and was located in the rear of 415 Central street. It was a two-story building and an additional \$100 on the garage of C. W. Spicer located nearby. The cause of this fire is also unknown.

and Dr. Chadwick, a well known Brooklyn minister, will do so if possible. The meeting will be presided over by George W. McCutcheon.

---

## **Truth About the Bosch Factory**

---

fecting the Bosch Magneto Company have been in circulation, a number of them finding expression in print. It has been stated, for example, that the factories of the company were about to be closed down, that the company has been taken over by the Government, etc.

The proclamation by President Wilson on April 6th, in its regulations for alien enemies, caused a certain amount of perturbation and possibly misapprehension in the minds of such of the company's employees as are German subjects, and a number of these resigned, but the mechanical staff was very little disturbed.

The resignations coming en bloc naturally caused considerable incon-

for a time it appeared as though the company might be temporarily compelled to suspend operations until a readjustment and replacement of the staff was made. Fortunately, the strenuous efforts of the remaining executives averted this undesired suspension, and the company is now swinging along in full career.

This consummation was considerably helped by the decision to concentrate the production facilities on the types of lighting fixture apparatus which are in heavy demand, and to postpone for a brief period only the production of the numerous specialized types called for by the various industries.

All of these have been produced in the Bosch Works at Springfield, Mass., while the Plainfield, N. J., plant has been busy with starting, starting and lighting apparatus.

It has been stated in print and otherwise that the Plainfield works were to be closed. This is not true, for the production of starting apparatus will be suspended for the present, the company's orders being sufficient to keep it busy. This is not a permanent necessity of continuing the Plainfield works as an auxiliary in production to the manufacturing at Springfield, Mass.

Mr. and Mrs. Hoskins of Dover, were local visitors yesterday.

**How Much of Your Profit Goes to Repair Machinery?**

Money saved is money made.  
Farm machinery deteriorates if continually exposed to the weather. After each winter in the open it runs harder, costs more to keep in repair and is worth less. Keep your machinery always in good working order by providing an Implement Shed.

The increased life and satisfaction you will get out of your machinery will quickly repay you for the cost of a shed.  
And in building it, remember that it is economy to use for the outside

**WHITE PINE**  
—the one wood that endures years of exposure without warping or twisting or rotting.  
—the one wood that makes building a pleasure and White Pine Buildings increase the market value of your farm.

Practical working plans, specifications and a complete bill of material for the Octagon Type of Implement Shed or any other farm building will be furnished you on request, together with our estimate of the cost.  
The Octagon type of Implement Shed is designed to give big capacity and greatest ease of handling your machinery in and out. We also have plans of cheaper sheds.

Future business and our standing in the community depend upon serving you to the last degree of satisfaction.

THE REAL PROOF

After personal observation and first-hand knowledge of methods and materials employed in building the Vette "Biltved" Six, your only unanswered query could be, "How does the car perform on the road?"  
We can, of course, prove by demonstration its remarkable flexibility, power, riding quality and economy, but the spontaneous testimony of those who have driven Vette cars under all conditions of road and weather, on country highway and city boulevard, and in practically every nation of the earth, is your best proof of complete satisfaction.

BUSY TIMES ON THE GREAT LAKES.  
Navigation on the Great Lakes is now open, and the familiar sound of steamboat whistles is heard a welcome note to many, for not only do the steamers afford relief from the freight congestion but also furnish a most comfortable mode of travel for passengers.  
Officials of the C. & N. Y. Lines which operate the Great Ship "See-and-Feel" and Steamers, "City of Buffalo" and "City of Erie" daily between Cleveland and Buffalo, predict that this season will surpass all others in volume of passenger and freight traffic. Never has business started with such a rush which surely reflects the general production of the world.

**If You Are Working In the Shops,**

**BACK OF QUAKER TIME.**  
The remarkable increase in the number of Quaker tires in the United States is due to a very large extent to the service which Quakers give to car owners. It is not generally known to auto owners that the manufacturers, the Quaker City Rubber Company of Philadelphia, have a world-wide reputation as manufacturers of mechanical rubber goods, whose product has been in demand in all parts of the world. More than five years ago, when the company began to make Quaker tires, the principle adopted and still in use today, despite the high cost of labor and raw material, is that every Quaker tire must carry the same guarantee of serviceability and durability that made world famous other Quaker products.

**PERSONAL**

Miss idaben Conover, of Jackson Avenue, the borough, was a guest at the wedding of Miss Gertrude Mae Jacobus and Christiana Krock, both of Montclair, which took place at the home of the bride's parents last Friday night. Previous to the ceremony Miss Conover rendered a solo, "O Promise Me."

Benjamin F. Hadley, of Franklin place, for many years editor and publisher of the Eastern Underwriter, the leading American insurance publication, has been appointed secretary of the Equitable Life Insurance Company, of Iowa. His headquarters will be at Des Moines, and he will make his home in that city, leaving Plainfield today with his wife and children, Benjamin, Gladys and Clara, the last named a graduate of the Plainfield High School class of 1917.

Henry Hansen, of East Second Street, is a patient at Muhlenberg Hospital, following an operation for appendicitis performed last week. He is recovering nicely and will be able to return home in another week.

Charles F. Stout, circulation manager of the Courier-News, who has been seriously ill at his home on East Front street with an attack of typhoid fever, continues to show improvement. His illness has already extended over a period of seven weeks and he will be a long time in regaining his former strength.

Mr. and Mrs. Frank Puller, of Cleveland avenue, Buffalo, N. Y., have announced the engagement of their daughter, Miss Constance N. Puller, to Torven S. Groot, of Woodland avenue, this city. No date has been set for the wedding.

Miss Charlotte E. Norris, teacher of the fifth grade in the Washington School, will leave in a few days for her home in New England and will not return in the fall. She will be married during the present summer to Frederick M. Gleason, of East Orange.

Mr. and Mrs. George Edwin Leigh, of this city, arrived last week by Rev. Dr. W. Skellenger, have returned from a wedding trip to Atlantic City and are temporarily residing at the home of Mr. Leigh's parents, Mr. and Mrs. George T. Leigh, of 712 West Fourth street. The bride was formerly Miss Hazel Leota Hutchcroft, daughter of Mr. and Mrs. William Hutchcroft, of Clinton avenue. At the ceremony, Miss Grace Lodge acted as bridesmaid and Wendell Hutchcroft was best man. Mr. Leigh is employed at the Pond Tool Works and has been prominent in local baseball and basketball circles.

Walter Kennedy, of New street, a member of Company K, has returned home to undergo an operation for spinal trouble. His trouble developed a few days after he began coast duty with the local militia unit, and became necessary to place him in the Long Branch hospital, where he was a patient for a long time. The trouble resulted from an injury received in a football game.

Frederick and Mrs. S. P. T. Wilbur, of Westwater avenue, will leave for a week's vacation, where they will spend the summer at their cottage, "Elkwood," in Cattle Rock Park.

Mr. and Mrs. John R. McCormick, of 1042 Sherman avenue, have announced the engagement of their daughter, Miss Louise McCormick, to Victor Thomas Attles, son of Mr. and Mrs. C. W. F. Attles, also of Sherman avenue. The wedding date has not been set.

John Duckworth, formerly of this city, but now of Brooklyn, has returned to the latter city after a visit with his sister, Mrs. Walter Emmings, of Leland avenue.

Victor Thomas Attles, of Somerset street, who has been a patient at Muhlenberg Hospital, underwent an operation there Tuesday. She is reported to be doing well.

**Big Program Planned For Firemen's Ball**  
Chairman Harry Weirgans and the members of the committee arranging for the details of the Plainfield firemen's ball to be given at Columbus Hall, Friday night, June 22, have announced that a splendid program of entertainment will be given in connection with the dancing. A New York publishing house has promised to send one of its best singers of popular songs, and other solo numbers will be given by "Baby" Glentzer, the seven-year-old daughter of Mr. Frank Hollenbeck, of West Front street. Little Miss Glentzer is quite a professional artist, having appeared at Proctor's theatre in this city and at Proctor's theatre, Elizabeth, on several occasions. She sings syncopated and sentimental numbers with equal readiness and never fails to receive several accolades.

The sale of tickets for the ball is progressing rapidly with the 500 mark already in sight. The department in this city and in Proctor's Westfield, Elizabeth, Newark and New-Brunswick have promised to send big delegations. Lagersen and Glentzer have been chosen to decorate Columbus auditorium, a fact giving assurance of unusual attractiveness in this hall which has been so extensively decorated on previous occasions. Music is to be furnished by Kenneth Stewart's harmony orchestra of seven pieces. The Plainfield Firemen's Ball will be added to the fund of Local No. 7, Firemen's Mutual Benevolent Association, made up of Plainfield firemen.

## WHY NEARBY ROADS ARE IN BAD CONDITION

If you are the owner of an automobile you are undoubtedly aware of the fact that many of the principal thoroughfares in and about Plainfield are in a most deplorable condition. This applies particularly to lower Park avenue, lower Plainfield avenue, West Seventh street from Clinton avenue out, West Front street and certain portions of Watchung avenue. Deep ruts and holes almost as big as a buffalo wallow are to be found everywhere and motoring is ceasing to be a pleasure to say nothing of the damage occurring to machines. In the city proper work is now under way on various streets that are to be permanently paved but this will alleviate the trouble only in a very small part. The streets that have ordinary macadam will continue to be made and if temporarily repaired will soon be back in the same miserable shape.

The cause of this breaking up of the roads is in a large measure due to the prevalence of heavy automobile trucks. These business vehicles have gradually gotten more common and have been increasing in weight and tonnage capacity until no standard macadam can withstand the heavy pressure. In some instances the combined weight of a truck and its load have been known to reach fifteen tons. It would only require two or three of these a day to pass over one particular thoroughfare before it would be a mass of ruts. Once get macadam loosened up and it is only a matter of a few weeks before the entire surface has to be done over. Park avenue and Plainfield avenue are glaring examples of this sort of destruction and it has gotten so now that it is even dangerous for a carriage to be driven over them at more than a walk. The Middlesex county authorities were petitioned some time ago to do something with Plainfield avenue from the boundary line at Wolf's hill out to South Plainfield but the committee had only \$800 available for this work. The money gave out after two blocks had been put in fairly decent shape.

Unless something is done to limit the weight of the heavy motor trucks using the streets the various New Jersey counties will go into bankruptcy trying to keep up their road appropriations. Union, Middlesex, Hudson and Essex have been facing this fact for a long time and although many hundreds of thousands of dollars have been spent in good road making there is very little to show for it. Unless a concrete thoroughfare is put down at a cost of about \$20,000 per mile the road becomes a disgrace in a year or two. This is to be verified by a trip over the Middlesex county road from Metuchen to New Brunswick put down about eighteen months ago. It was a pleasure to drive over it last year but this year it seems to have gone to pieces almost the entire distance. A big truck with a chunk out of one of its tires is known to have gone over the road and every time the bad part of the wheel came around it gouged out a stone or two that opened the way for a hole. The section of others machines loosened up the stones around each indentation and presently there was a bad spot every couple of feet. The "flat-wheel" proposition has occurred in Plainfield more than once and will continue to occur as long as something is not done to put a stop to it. Action now will mean a saving of ultimate thousands to the tax-payers who are beginning to feel the oppressive burden of road assessments. Limit the weight of trucks, the weight of their loads and stop any of them proceeding with a bad tire and a big portion of the expense will be saved beside giving pleasure vehicle owners a fair return for their money.

## PLAINFIELD RESPONDING TO RED CROSS APPEAL.

Despite the numerous drains upon their resources, Plainfield people have been responding nobly to the Red Cross campaign appeal which has been in progress since Monday and is to end Sunday. With wounded soldiers in mind and the deplorable condition of war-stricken non-combatants in European countries, the citizens have given liberally and given cheerfully. A goal of \$100,000,000 has been set for the country wide drive of the Red Cross army and reports indicate that it will be reached, even though billions were recently paid out of private pockets for Liberty Bonds. What the money is to be spent for is the great incentive, every penny contributed meaning just that much more comfort for an American boy torn by shrapnel or the suffering of women and children who have had no voice in the hostilities but who must bear their share of the world-wide devastation. Those of you who have not already contributed have two more days in which to show that you want to do your share in carrying this great burden that must be universally borne.

In reply to questions as to just how the vast amount of money raised has to be spent, General Secretary Henry P. Davidson said among other things: "Our first obligation is to render such services as comes within the province of the Red Cross

to our soldiers and sailors at home and abroad. Consideration of the vastness of this undertaking alone as compared with any other situation ever known to us will impress one with the impossibility of forming a definite budget or specifying in particular the amounts of money required to care for our countrymen. After that our efforts will be to co-operate with our allies where the need of Red Cross aid is most apparent. In due course of time we shall make a report to Congress, so that the public may know the total amounts expended and how very small a percentage was found necessary for expenses."

In designating the money to be raised in the various districts, Plainfield's allotment is \$50,000, a fair portion of it is already in hand and the committee has redoubled its efforts to have the grand total by next Sunday. This means lots of hard work but Chairman Rogers and his aids are not shirking their task. Prominent business men have allowed their private affairs to be placed in the discard while they canvassed from door-to-door. Others have been busy day and night planning methods of getting the appeal direct to the people and it is all bearing fruit. Special commendation is due Judge William Newcorn, who is chairman of the publicity committee, and through whom the merchants have placed advertisements in newspapers at their own expense. Taken all in all it is another evidence of the fact that when Plainfielders want to work for a good cause they can labor in harmony and with absolute self-denial until the object has been attained.

## THE INJUSTICE OF COMPULSORY INSURANCE.

Sometime during the eleventh hour rush at the close of the last session of the New Jersey Legislature, a bill was jammed through which becomes a law on the fourth of July next and now that its full text is realized is beginning to meet with a whirlwind of justifiable criticism. This bill is an amendment to the employers' liability act of 1911 and practically places the entire business world of the State at the mercy of the insurance companies. It is found in Chapter 178 of the statutes and is entitled "an act concerning compulsory insurance of compensation payments arising under section 2 of the act entitled 'prescribing the liability of an employer to make compensation for injuries received by an employee in the course of employment established an elective schedule of compensation and regulating procedure determination.'"

Stripped of its legal phraseology (this caption means that instead of being discretionary, liability insurance is now compulsory, forcing a man who employs persons in position far removed from hazard, one to pay for protection from liability that is absolutely remote. The only exemptions are household servants, farm hands and municipal employees, although all three classes are more subject to injury than bookkeepers, stenographers, or office help, yet the new law demands that insurance be paid for them. There is one small loop-hole where disputed cases can be carried before the commissioner of banking and insurance, who can decide whether or not the employer is financially able to carry his own liability insurance. A fine of \$50 is to be imposed for violations of the act.

Anyone with half an eye can see that this measure is an injustice to employers and a hamper to business. Where a man has someone working for him who stands the least chance of getting hurt in the performance of his duty ordinary business men would show the wisdom of insurance. Under the original act of 1911 ample protection has been afforded wherever it is needed but such a drastic compulsion as this amendment calls for is beyond all reason. The law is only now beginning to be realized and the protest that will arise before next winter will make the amendment short lived. It never had a place in the New Jersey statutes and should be taken off at the earliest opportunity. We do not doubt for one minute but that this will be done but in the mean time the liability insurance concerns, which shoved the measure through, will be cutting a million-dollar melon dragged from the long suffering business men of the State.

## MAYOR CALKINS' APPRECIATION OF LIBERTY LOAN WORKERS.

Mayor Calkins wishes to express his appreciation of the splendid work done by the Plainfield Liberty Loan Committee which he appointed two weeks ago, and which has conducted the short intensive campaign of the last week. The Mayor feels that great credit is due to this committee for Plainfield's showing. The organization, as planned by Mr. E. W. Bulkeley, of Spencer, Trask & Co., and Mr. A. Willis West, was very efficient and business like, and there was no waste motion. Through sub-committees reaching all homes and business houses and factories, everybody was approached and asked to subscribe; and the banks co-operated by adopting for the committee a uniform plan, so that individual subscribers were taken care of wherever they made their subscriptions. The Mayor wishes to thank Judge Runyon, chairman of the Liberty Loan Committee, and Judge Newcorn, Messrs. Bulkeley and West, vice chairman and secretary, and the sub-committees for their great help, the Boy Scouts for their assistance, the local banks for their co-operation, and the many others who took hold and gave generously of their time. As usual, Plainfield rose to the occasion.

## TO CORRECT AN ERROR.

In an editorial published in these columns last week it was stated that Councilman John H. Cose was the first candidate in the field this year for the Union county sherrifly nomination on the regular Republican ticket. We find that this is not so as Freeholder S. P. T. Wilbur claims his petition was first circulated on May 12. In justice to Mr. Wilbur we print this declaration.

## Record Class at P. H. S.

## Bishop McFaul's Funeral

Many residents of this vicinity were present in St. Mary's Cathedral, Trenton, yesterday morning, when the funeral of the Right Reverend James A. McFaul, bishop of the Diocese of Trenton for twenty-three years, was held. Bishop O'Connor, of the Newark Diocese, celebrated the high mass of requiem and priests from New Jersey, New York and Pennsylvania took part in the service. In accordance with his wishes, Bishop McFaul was buried in the mausoleum which he had constructed some time ago on the lawn of Morris Hall, a Catholic institution overlooking the Lawrenceville road near Lawrenceville. Rev. Father P. J. Hart, rector of St. Joseph's church, of North Plainfield, and an intimate friend of the bishop's, was one of the pall-bearers.

Bishop McFaul was sixty-seven years old and a native of Ireland but came to this country when a boy. He was educated in St. Vincent's College, Westmoreland, Pa.; St. Francis Xavier College, New York; and Seton Hall College, graduating from the latter institution in 1873. He is survived by a brother, James J. McFaul, of Kingston, and a sister, Mrs. Mary O'Connell, of Phillipsburg.

## NOVEL MODE OF TRAVEL.

Rev. J. Madison Hare, pastor of the Scotch Plains Baptist church, but now on duty as chaplain of the Fourth Regiment, N. J. N. G., was recently presented with an automobile by the Jersey city clergymen for use in traveling over the wide area patrolled by the regiment. The gift also included a portable organ and songbooks, enabling the chaplain to hold religious services for each detached unit of the command every week.

## Prodium Process Makes Tires Last Longer

THE discovery of the Prodium Process is the greatest step forward in rubber manufacturing since the perfecting of vulcanization. It has given to Republic Tires a tread of super-toughness that is wear resisting to a remarkable degree.

It wears down as evenly as a piece of tempered steel, and the rubber is so strong that a strip of it one and one-half inches square will suspend a weight of more than three tons.

More than 100,000 sets of Republic Prodium Process Tires have been sold to tire users.

We know now that the Prodium Process does make tires last longer and that millions of dollars will be saved to tire buyers.

As the result of an unprecedented demand from every part of the country, we are trebling our production of Republic Prodium Process Tires.

## Grows Stronger As The Years Grow Longer

The Norwalk Vault literally lasts through ages. Moulded out of carefully prepared reinforced cement, seasoned and coated without and within, it will protect the most delicate casket from stain and blemish. Top and bottom are sealed together in plain sight and the vault becomes instantly one solid piece of protecting masonry that grows stronger with the passing years. Forever tight and dry the Norwalk is a comforting assurance against the wet, unsanitary, old fashioned grave. For further information see your undertaker.

OUR MOTTO: PLEASE YOUR CUSTOMERS.

# When the Boys Go Marching By On Their Way to the Battle Front You Should

Feel that you have done something to provide for their care and comfort when they need it.

## HELP

With your contributions. If you are a poor man or woman and cannot give a large amount, give what you can afford. If every one in Plainfield and North Plainfield did that, the \$50,000 which is to be raised here would now be in the hands of the committee.

## THE RED CROSS

Is an organization worthy of support. There is no reason for refusing to aid it. Have you contributed? Will you do so? When will you do it? The sooner the better.

## DO IT TODAY

Sign the coupon below and send it to the Plainfield Trust Company or leave it at Red Cross Headquarters, 214 Park Avenue. Don't let the opportunity pass to prove that you feel a kindly interest in the men who fight for you and your country.

Send all contributions to PLAINFIELD TRUST COMPANY. Draw Checks to the order of Plainfield Red Cross Committee.	\$.....	Plainfield, N. J., .....	1917
	For the purpose of providing for the relief work of the American Red Cross to be administered by the War Council appointed by the President of the United States, and in consideration of the subscriptions of others, I promise to pay to the American Red Cross War Fund,		
	Dollars		
	payable as follows: One fourth July 1, 1917; one-fourth August 1, 1917; one-fourth September 1, 1917; the balance October 1, 1917, or as follows:		
	If contributor is not a member of the Red Cross and desires to have \$1.00 of this contribution used as dues for Annual Membership, please so indicate on this card: Yes or No

## Apartment Grands

Steinway  
Kranich & Bach  
Sohmer  
Krausner  
Hallet & Davis  
Brambach

While you cannot increase the size of your rooms to display a large Grand, you can get the same effect with an Apartment Grand.

This miniature size, however, while taking up the same amount of space as an Upright, has all the musical qualities of the larger instruments. It is a real beauty in appearance as well as in the quality of the tone.

And you can have your choice of a very wide range of world-renowned makes—names that are recognized everywhere as synonymous with perfection.

Send for a free paper pattern which will show you just how much room an Apartment Grand will occupy.
