Bradford of Broad Street was also refrom want of attention and went on his home in this city. His mother do the committee at the time appointed corded.

In Lincoln Hook and Ladder Com. We have been well endowed with faint. A young mun who knew Stick the plant of the company.

Benben Bolton, he went to Easton. Pa, traveling on freight trains. There Bolton became discouraged and returned. He brought with him a story that he had seen his companion killed under a freight near Maston. Stick's parents made a valu attempt to get the body. Nothing was heard from their son, and they thought him dead. . Stick rode to Chicago on freight trains and endeavored to get work. Then he bout his way to San Francisco. Thurn also he failed to better himself and went back to Chicago. "Now- and then," he says, "I was tempted to write home, but I knew the time would come when I could pay

back the money, so I waited." From Chicago he went to Cleveland. Meanwhile he had learned to ride horseback and when opportunity of fered, he became a cowpuncher on a ranch in Arizona. There he remained for more than a year. Then he returned to Chicago and enlisted in the United States envalry under the name of Stack, Good conduct and a knowledge of horsemanship won him promotion. He became a corporal then a sergeant. Meantime he had managed to get together a little money and when his term of culistment expired determined to roturn hotpe. His service had taken him to several parts of this country

and to the Philippines. Stick was in Arizona at the time he was discharged from the army. He came to New York and went to a grocery store kept by his sister, Mrs. Anna Levinsohn in 111 Seventh street. was busy, and he stood waiting. the leoked at him, but did not recog the her brother. On his way in he and passed a girl, who stood gazing at weched him on the elbow. "Aren't you Louis?" she asked. "I am," he replied.

The girl was one of his sisters. She

and her mother had come to New York on a visit. Stick, impatient to sto his motifer, rushed into the Levinsobn living rooms in the rear of the store and shouted, "Hello, everybody! Hello, mother!" It was then Mrs. Stick swooned. Stick says he will try for a position in the police or fire department. He has paid back the money he lost.

BUSINESS MEN WILL "GET TOGETHER" SOON

(Continued From Page One) some time this week,' he said, "officers should be elected and a plan of action laid out. Every resident of this city is interested in the movement to "Boost Rahway" and every ward should cooperate in helping us." It was the general opinion of the merchants this morning that the changes contemplated would material. ly increase the value of property throughout the whole business see tion. All those interviewed up to date have joined in wholeheartedly in the movement to boost the city.

of Curious Phases.

cepting a gift which a loyal subject not permit him to go farther.

A king never writes a letter to any settlement on the Island that so myshody outside his family circle. An teriously disappeared. other correspondence has to be conducted through one of his secretaries. Nor does King George accept invitations to dine or stop with a subject. What he does when he wishes to pay such a visit is to invite himself. An other strictly observed point of etiquette is that on ascending the throne n king shall withdraw from any clubs to which he has hitherto belonged. Simparly he cannot become a Free Mason, and if he happens to be one at. the date of his ascension he must resign from the craft. King George. however, has not been initiated.

Even in affairs of the heart a sovereign must how to the will of others Although King Conbetus might have loved and shared his throne with a beggar maid, the royal marriage act would render the occurrence of any land. Members of the blood royal must have the sanction of parliament

before they can marry, and this would certainly not be accorded unless the birth and position of the lady were beyond reproach. An English king's position toward the law is somewhat peculiar. Theo retically he is above the law. In practice, however, he has to obey it, just as have his subjects. He must observe the established local system of the country. Any royal proclamation which he issues is only blidding in so far as it is founded upon an existing law. It cannot alter the common law or create a new offense, nor can king set up private tribunals, such as the star chamber, or add to the jurisdiction of a court. By a special act of

parliament it has also been decided that if his majesty were to lose an ac--tion brought against him by the revenue authorities he would be liable for the payment of costs. By the law of the land the king cannot possibly commit an offense. Any

injury or wrong suffered by a subject at his hands has to be attributed to the "mistake of his advisers;" hence It happens that King George is the only person in Great Britain who cannot arrest a suspected felon, even if such a one were to be seen by him entering Buckingham palace or Windsor castle. The reason for this is because no action for wrongful arrest could lie against him, and therefore if the person arrested by him were proved innocent there would then be a wron without a remedy. Another legal dis ability of the king is that he is barred of all rights in matters relating to land after a lapse of sixty years. He is also probibited from serving on a jury or from giving evidence.

Until so comparatively recent a period as 1870 if a subject were convicted of treason or felony the king could claim his property. Another lapsed prerogative of the crown is one known as "corody." During its existence a king who wanted to advance the interests of a royal chaplain could compel a bishop to support such a clergyman until a benefice had been found for him. Nowadays he has not even the right of founding a bishopric or creating ecclesiastical jurisdiction. Similarly he must always be a member of the Church of England and cannot change his religion. The theory that the king "reigns but does not govern" is amply borne out by the political system of the country. While the members of par-Hament are his majesty's "faithful commons," they have certain privileges which he himself does not posor prorogue parliament at will, but he cannot prolong it beyond a definite period. Similarly he is absolutely de barred from imposing any sort of tax ation whatever without first securing the consent of parliament. So jealously guarded is this privilege that a king cannot create new officers with new fees or annex new fees to existing officers, as such a course would be considered as imposing a fresh tax. In bygone times, however, when au English monarch was in want of funds he would levy taxes right and left and without asking anybody. The francise does not extend to Eng-

lish monarchs. King George is one of the few men possessing a genuine stake in the country without the privilege of recording a vote. - London Bellman.
