

REYES' RETIREMENT BIG AID TO MADERO

Opponent For President Quits
Mexico For Good.

City of Mexico, Sept. 26.—General Bernardo Reyes, with various prominent Mexicans who have been active in the Reyes propaganda, sailed from Vera Cruz for New York on the steamship Monterey. This was a surprise to Mexicans. Reyes had kept his going secret for the past few days and it was not even known generally that he had left the capital.

Reyes' retirement practically means peaceful elections Sunday and guarantees the triumph of Madero. It also increases the hope that has been sustained by a vast majority that a period of peace and prosperity will set in within the next few months.

WOULD REPEAL BOXING LAW.

Governor Dix Will Send Special Message to Assembly on Subject.

Albany, Sept. 26.—Governor Dix announced that he will send a special message to the legislature upon the repeal of the law prohibiting boxing. This announcement was made after a conference with Senator Frawley, author of the bill.

Senator Frawley is disposed to fight the governor's demand for the repeal of the law.

The governor expressed to the senator as he has to others, the feeling that he would like to see a boxing law repealed, but it is not likely that he will be actually repealing prize fights in this state.

TRAFFIC MEN TO MEET.

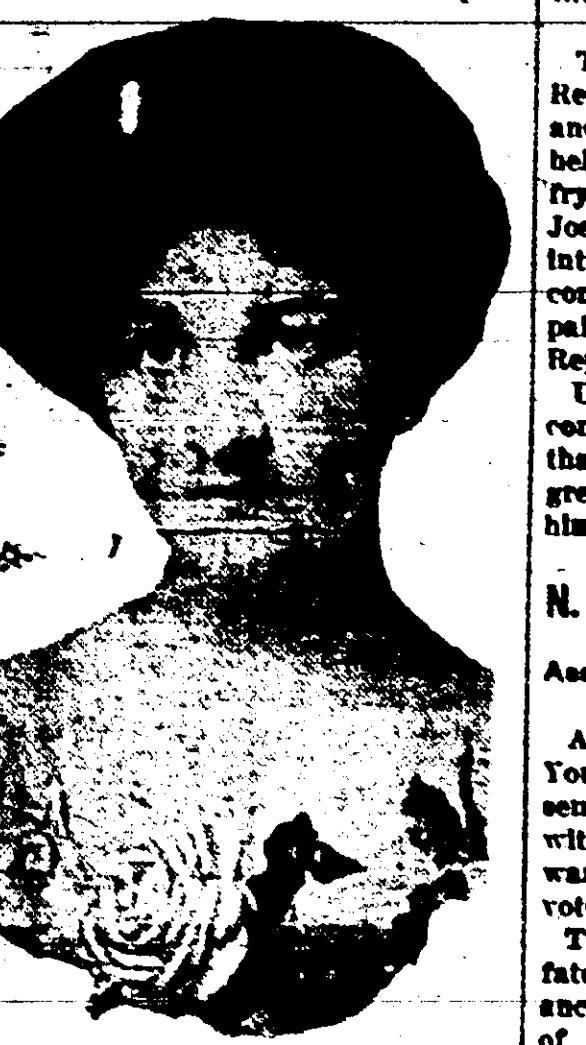

Atlantic City Convention to Be Attended by 3000 Delegates.

New York, Sept. 26.—Three thousand men, comprising the presidents and other chief officials and heads of departments of the electric railways of the United States and Canada will meet in convention at Atlantic City from Oct. 9 to 13. Arthur W. Fitch of Indiana, president of the American Electric Railway Association, under the auspices of which the convention will be held, says that this will be the most important meeting of railway men ever held.

The delegates will come from every part of the country and will represent electric lines with 35,000 miles of track.

MISS GWENDOLYN BURDEN.

Newspaper Society Girl Who Is to Be an Early Winter Bride.

SOCIETY GIRL TO WED.

Miss Gwendolyn Burden's Engagement to New Yorker Announced.

Newport, R. I., Sept. 26.—The engagement of Miss Gwendolyn Burden, daughter of Mr. and Mrs. W. H. Burden, to David Deane of New York, was announced today.

General Remarks.

BUTTER.—Firm; receipts, 100 cases; market, 100 cases; price, 100 cases.

EGGS.—Firm; receipts, 100 cases; market, 100 cases; price, 100 cases.

POULTRY.—Firm; receipts, 100 cases; market, 100 cases; price, 100 cases.

MEATS.—Firm; receipts, 100 cases; market, 100 cases; price, 100 cases.

CAPTAIN P. C. HAINS, JR. Slayer of W. E. Anna Who Will Be Pardoned by Governor Soon

DIX PARDONS HAINS.

Governor Has Decided to Grant Pardon.

Albany, N. Y., Sept. 26.—Governor Dix has decided to grant a pardon to Captain P. C. Hains, Jr., who was sentenced to Sing Sing prison for the murder of William E. Anna at the Bayside (New York) yacht club boat in August, 1908.

A petition for his pardon, signed by a number of the officers and crew of the yacht, was presented to the governor.

Governors Hughes and White had denied similar applications.

TRAFFIC MEN TO MEET.

Atlantic City Convention to Be Attended by 3000 Delegates.

New York, Sept. 26.—Three thousand men, comprising the presidents and other chief officials and heads of departments of the electric railways of the United States and Canada will meet in convention at Atlantic City from Oct. 9 to 13.

England Gets Record Shipment From Savannah.

Savannah, Ga., Sept. 26.—With nine cargoes of cotton on its way, the ship "The Georgia," which left Savannah for England, has set a record for the fastest voyage from Savannah to England.

A total of 131,192 bales of cotton has been received in Savannah during the week, the greatest record for a week in September in the history of the cotton exchange.

UNCLE JOE THEIR GUEST.

Illinois and Indiana Republicans Meet at Terre Haute.

Terre Haute, Ind., Sept. 26.—Leading Republican politicians from Indiana and Illinois, numbering more than 100, held a political conference at Terre Haute today, the principal guest being Uncle Joe Cannon.

There were many interchanges of views respecting the conduct of the coming national campaign and very little difference as to Republican policies was manifested.

Uncle Joe is the recipient of many compliments, and when he said again that he will be a candidate for congress in his old district many wished him success.

N. Y. CHARTER BILL PASSED.

Assembly Adopts Measure After Dramatic Session.

Albany, N. Y., Sept. 26.—The New York city charter bill passed the assembly after a dramatic session and with not a vote to spare. The vote was 70 to 57. It requires seventy-five votes to pass any bill.

The dramatic scene came when the fate of the measure hung in the balance and its friends were in a frenzy of fear they would be defeated and brought desperate pressure to bear to save the day.

The bill now goes to the senate.

SMASHES ANOTHER RECORD.

Miss Helene Dietrich Holds Duration Prize For Women.

New York, Sept. 26.—Miss Helene Dietrich, with the world's duration record for women pilots hanging in the air, stepped aloft in her Farman biplane at the Nassau boulevard meet and flew steadily for 37 minutes 22 seconds.

The French girl therefore smashed the American record for women pilots by 22 minutes 42 seconds, because the longest time a woman ever had down above the western hemisphere previously was fifteen minutes.

Timothy Woodruff is still sure that there will be lots of good flying next Sunday. Woodruff says that as the meet was first mapped out there was no intention of having Sunday flights, and that the only reason the airway took the air last Sunday and will fly next Sunday is that they insist that there be Sunday flights regardless of orders from Governor Dix to Shedd De Mott.

Why not a Macey Book Cabinet to inspire ambitions and refined tastes in your children, never to be lost again throughout all the days of their lives.

Why not—indeed! But do you know it has taken years to bring this about.

The new Macey Book Cabinets retain every desirable feature of the Unit Idea. The result has been worked out so that unit sections can be added, taken away, or re-arranged without destroying their beauty.

The doors never stick, and always open and close smoothly. A sturdy cabinet work now does away entirely with metal bands, so you never think of the ordinary sectional bookcases when you see a Macey Book Cabinet.

Applying the Unit Idea to beautiful home furniture is the conception of Mr. O. H. L. Wenzel, "father of sectional bookcases." (His name is still used in the corporate title of a competing concern with which he has long since had no connection.)

A meeting of the general committee headed by George Bierwirth will be held tomorrow night at the lodge room on Cherry Street, and it is expected that every member will attend.

There are several important matters to be decided upon. On Saturday the members of the booth committees will be at the auditorium to receive donations of fancy work and other articles, and the booths will be constructed at that time.

NAIL CAUSES MAN'S DEATH.

Pasadena, Sept. 26.—Two weeks ago Joseph Modrak, a carpenter of Gardfield, stepped on a nail while at work and today died in St. Mary's Hospital from lockjaw.

Last Thursday he felt a stiffness in his neck and consulted a physician, who advised him to go to the hospital. He was suffering from a severe case of blood poisoning which developed into lockjaw the same evening. He was administered a treatment of serum and rallied for a time, but yesterday sank rapidly.

D. H. Voorhies of 185 Main Street and his family and Mrs. Frank Beck have returned from a month's stay at Ocean Grove, where they had rented a cottage for the month of September.

PRETTIEST THING

In My Home

is a Macey Book Cabinet

To surround your children with furniture by the Old Masters in an education. It is like living with cultured people.

Why not one of the new Macey Book Cabinets in your home—the only sectional bookcases made which express the genius of the most noted old furniture craftsmen? Sheraton, Chippendale, Robert Adams and Jay Juniper were at great in furniture art as Shakespeare in literature or Michael Angelo in painting.

The popularity contests being managed by the lodge will be an exciting feature of the affair. By the votes of the people the most popular young lady of the city will be selected, and she will be presented with a beautiful gold watch. In like manner the most popular young man of the city will be selected, and he will be presented with a beautiful gold watch.

Several young men have been selected, and they will be presented with a beautiful gold watch. In like manner the most popular young man of the city will be selected, and he will be presented with a beautiful gold watch.

COUNTY MINISTERS HERE

Entertained by Dr. Frank Moore at N. J. Reformatory this Afternoon

Ministers of the Episcopal Church throughout the county were the guests of Dr. Frank Moore, D. D., Superintendent of the New Jersey Reformatory this afternoon.

With the Episcopal rectors were clergymen from various denominations of local churches.

Dr. Moore after permitting his guests to inspect the institution, thoroughly explained the ideals of the present system of treating the criminal and its advantages over the old and brutal one.

The New Jersey Reformatory for its modern and successful methods of treating embryo criminals.

Among the Rahway clergymen present were Dr. Charles L. Cooper of St. Paul's Church, Rev. William Torrence Stubbelt of the Second Presbyterian Church, Rev. Loyal Young Graham, Jr. of the First Presbyterian Church and Rev. C. C. Woodruff of the Second Methodist Episcopal.

Out-of-town guests were Rev. William H. Nelson of Plainfield, Rev. Courtland H. Mallory, Plainfield, Rev. Clarence S. Wood, Roselle; Rev. Charles W. Hall, New Brunswick; Rev. Sydney C. Woodruff, Plainfield; Rev. H. T. Rush, Westfield; Rev. E. V. Fenton, Metuchen; Rev. Arthur S. Fenton, Bound Brook; Rev. Henry F. Fenton, Bound Brook; Rev. G. S. Adair of Elizabeth.

Woodruff, Plainfield; Rev. H. T. Rush, Westfield; Rev. E. V. Fenton, Metuchen; Rev. Arthur S. Fenton, Bound Brook; Rev. Henry F. Fenton, Bound Brook; Rev. G. S. Adair of Elizabeth.

Among the Rahway clergymen present were Dr

Happenings in Social Realms—Personal Paragraphs

Accounts of social happenings are welcomed by the editor and should be sent through the mail addressed to this office with the name of the writer, not for publication, attached.

John Plum, of this city, who has the rare distinction of having been continuously for over 45 years in the employ of one firm, viz. Knott Morgan & Sons of Sapelo, Ga., will start tomorrow on his usual fall and winter trip through the Southern States, the completion of which will round out the half century. Mr. Plum is one of the oldest traveling salesmen in point of service in this country, and thoroughly enjoys his work. He says nothing could give him more pleasure, than meeting the host of friends that he has made from time to time during the many years he has been on the road. Mr. Plum was born in 1865, when Hon. Joseph Shann, Rahway's nonconformist, was postmaster. It is a remarkable coincidence that both men should be so well and active, and still residents here after the passage of so many years. Mr. and Mrs. William B. Pratt and family will return to Rahway tomorrow from Avon, where they have occupied a cottage during the summer. Mr. William H. Peterson, whose marriage to Miss Harriet Collins will take place on Wednesday evening, gave a dinner at the Columbia Club Friday evening, guests being laid for eighteen. The guests were members of the wedding party, and a few intimate friends.

Miss Borgmeyer of Brooklyn is the guest of the Misses Collins of St. George Avenue.

Miss Edna Selover, who has spent the season at Pocomo Mountains, Pa., returned on Saturday. Joseph Brown left on Sunday for Raleigh, N. C. to begin his junior year at Shaw University. William M. Davis left yesterday for an extended trip through New England. Mr. Davis will be in Boston next week to attend the meeting of the Retail Druggists association of which he is vice-president of the New Jersey branch of the association. There will be 2,500 delegates from all parts of the country present. Ex-mayor Terrill of this city has associated himself in a business way with Mr. Davis. Mr. Terrill is in charge of the prescription department at Mr. Davis's drug store. Thomas M. Martin and family returned Saturday from Spring Lake, Monmouth Co., where they have spent the summer season.

Mrs. Frances Corrie is the guest of Mrs. Frank M. Stillman at her home, Woodmont, Conn.

There will be a meeting of the Plainfield Chapter of the Episcopal Church in the home of Dr. C. L. Cooper, rector of St. Paul's Church of this city, next week.

The Home Reading Club will hold its first fall meeting at the home of Mrs. George Young on Maple Avenue Friday afternoon.

A food sale will be given under the auspices of the Second Presbyterian Church on Saturday, October 7, from two to four o'clock in the afternoon, in the lecture room.

High School Notes.

Mrs. Franklin Le Port and Stanley Wildrick of the Senior class tried to make the experiment and prove Friday morning in the physics class that in a perfect vacuum a feather and a shot will both hit the

bottom at the same time. La Pointe began to pump the air from the tube, when all at once the bottom cork blew out in the direction of the class, making a loud report and causing considerable merriment. On the second trial the glass tube broke. The experiment will be tried again today.

Fires were started Friday morning in the High School and it felt very comfortable.

Stakes have been placed, on the edges of the cross walks in front of the school and thus no more short cuts will be taken.

Taking advantage of the one session, several High School fellows journeyed to the Y. M. C. A. Friday afternoon and helped in the preparations for the evening reception.

H. Merion Spencer of the Junior class has accepted a position after school hours with the Daily Record. Virgil Shipley of the Junior class will be in charge of the large pedestal in the school.

Complete arrangements have been made for the chain of parades and rallies which are to be held next Sunday afternoon in various parts of the Newark diocese under the auspices of the Newark Diocesan Union of Holy Name Societies. That the combined demonstration will be the largest of any that have been previously held is the belief of the clergy and laymen who have the arrangements. The aggregate number of men who will participate in the parades and subsequent religious exercises is expected to reach in the neighborhood of 75,000, while hundreds of thousands of men, women and children will review the processions as they pass through the city.

After the Hunches.

"Anyhow, Jack, you cannot say that I am after you at the time of our fight," he said.

"You never spoke a true word, Ma, but neither does the mousetrap run after the mouse, yet it catches it all the same."

This year there will be eight demonstrations held at the same time in as many centres throughout the diocese. This is an increase of one over last year, the new centre being Orange. The societies taking part in this demonstration will include those of the Oranges, Bloomfield and Millburn. Major Arthur B. Seymour, of Orange, will be grand marshal of the parade. The addresses and religious exercises will be held in the vicinity of St. Mary's Hospital, in Centre Street. The Rev. Dr. Thomas McLaughlin, of Seton Hall College, will deliver the clerical address and Judge Thomas A. Davis of New York City, the lay address. Besides Newark, other centres where demonstrations will be held are Paterson, Hoboken, Bayonne, Summit, Elizabeth, and Jersey City. The Rt. Rev. Bishop O'Connor will participate in the demonstration in Bayonne, where he will deliver the procession and give benediction at the close of the exercises. All told there will be several hundred bands and drum corps in the chain of parades. The only emblem to be displayed are the American flag and Holy Name banners. The marchers will wear the badges of their respective societies and carry cards to which will be attached purple pennants with the initials "H. N. S."

It was expected that the parade for this diocese would be in Rahway, but it was finally decided to hold it in Elizabeth. It will be held in this city next year.

After the Hunches.

"Anyhow, Jack, you cannot say that I am after you at the time of our fight," he said.

"You never spoke a true word, Ma, but neither does the mousetrap run after the mouse, yet it catches it all the same."

There are a great many preventives of seasickness, and very weird some of them are. It is difficult to imagine a person in the throes of mal de mer calling for petrol to ease his suffering. Yet petrol—in powder, not as a liquid—has been suggested as an infallible cure. Tritonated petrol, the powder in question, is not so difficult to take as petrol itself would be, but most people prefer seasickness.

Some of the "cures" are very ingenious. A French physician puts forward the theory that seasickness is due to a lack of pure air and recommends oxygen to relieve the breathing of the sufferer. As, however, the sea-level is so high, it is not possible to get pure oxygen into him to get the full benefits of this doctor's cure. This scheme is not likely to please the seafaring traveler, who wants something cheap and compact.

Another gentleman, an Italian ambassador, believes in placing a mirror before his bed and in gazing steadily at his reflection. In his case this strange remedy certainly gives relief. He is, however, very likely to apply it in invalids in general.

A well known foreign gentleman has another theory. "In his opinion it is best for the sufferer to shut his eyes and forget the sea and every evil connected with it. Unfortunately an air of seasickness is not so easy to forget."

One other peculiar cure recently put forward by a doctor advises travelers to eat very heartily both before and on their travels. Lack of confidence, in his opinion, is the real cause of seasickness. People imagine they are going to be sick and get so resigned to their lot that if they are not seasick they are quite disappointed.

A Christian scientist has suggested the repetition of a formula such as: "There is no such thing as seasickness. There is no seasickness. It is only my imagination." The writer, having tried the channel recently, has to disagree very strongly with this "cure."

"When seasick drink hot tea and wear red spectacles," advised a confidential doctor, who has detected that seasickness is due to a lack of blood supply to the brain. This "cure" certainly causes the blood to rush to the head, but red spectacles are bad for the eyes, and there are other drawbacks to this wonderful idea.

"After a good dose of saline procure a long strip of flannel and wrap it tightly around the stomach," suggests another medical man. "Exactly how this is going to prevent seasickness he doesn't explain, but it is certainly a novel idea. Of course there are numerous patent medicines, and these undoubtedly give relief in individual cases, but an absolutely infallible cure that will satisfy everybody has yet to be found."

Acidulated waters are very good, and champagne usually gives wonderful relief. Sufferers should also diet very carefully before taking a sea trip. This is the best advice.

"I never made a failure in my life," "Anybody could do as well," "How?" "Same way you got out of it. By never trying to do anything."

More Reliable.

"He has been bragging of his shooting," "Does he claim he broke a glass ball once?" "Certainly."

"Then you can depend on it that after he shot he finished it with an air."

Ill Treatment Necessary.

"One can't always be kind," "And why not, pray?" "Why not? Say, how in thunder would a fellow ever get a chance to get out of his group if he had always to make the kind hearted pray?"

Defined.

"I ain't afraid of anything," "You are too," "You are afraid of me," "Aw, you ain't anything."

BEGAN IN SATURDAY'S ISSUE ADVENTURE!

BY JACK LONDON

From the South Sea Islands comes a Romance that will set your nerves attingling. Think of a tale from the land of Robert Louis Stevenson combining the charm and mystery of Stevenson with the power and dash of Jack London. Such is "Adventure."

STATE SUNSHINE CONVENTION.
Announcements of the annual State Day Convention of the New Jersey Division of the International Sunshine Society were sent out this week to the presidents of the fifty-two State branches, and it is expected an unusually large attendance will be the result when the convention is called to order Saturday morning, Oct. 7, at the First Presbyterian Church, Broad Street, near Market Street, Newark.

Mrs. Brice Collard of this city, the State president, will preside at the two sessions, to be held at 10:30 in the morning and at 2 o'clock in the afternoon. There will be a box luncheon and a social hour after the morning session. Business matters, reports and greetings will occupy the morning session, while the afternoon will be given to speeches, music, recitations and the annual address of the president, Mrs. Cynthia West over Alden.

Each branch has been urged to send delegates and a complete report of the year's work. To facilitate an accurate and not too lengthy report special circulars, containing printed questions for the necessary information, have been sent to the branch secretaries with the request that they be filled out and promptly sent to the State president. System and detail mark the arrangements for the annual meeting, as indeed they do every work planned by the New Jersey Sunshine leader, Mrs. Collard. But special efforts are now being made to have the full convention a red letter day in the annals of Sunshine work in this State. An enthusiastic meeting is expected on October 7.

Besides three State officers, president and delegates of the six branches, Jersey City will send many other Sunshine workers to the State Day Convention in Newark, and local interest is greater than usual. Jersey City has contributed largely toward the success of the Arthur Home for Blind Babies at Summit, the present special work of the New Jersey Sunshiners. Many friends of the home, as well as those interested in the general Sunshine work, are planning to attend one or both sessions of the State Day Convention.

CANDIDATE LANDS IN CELL.
Trenton, Sept. 30.—After receiving the unanimous nomination of the Democrats of Mercer County for Coroner, Edward Foley, once a local prize fighter, went to the prison of Samuel Cutler and engaged in a phrenology game with Timothy Foley, a friend but not a relative. Candidate Foley accused his opponent of causing a misdeed intentionally. A fight ensued in which the Coroner nearly succeeded in making a coroner's case out of Tim. Tim was felled by a blow from a chair. Candidate Foley was arrested, and after spending the night in jail, was released under \$500 bail.

Heart to Heart Talks.

By EDWIN A. NYE

CHILD SLAVERY.
Alma Whaley of Chattanooga, Tenn., drank one and one-half drams of carbolic acid in an attempt to end her life, but was saved by the physicians. Why a suicide at fourteen?

The girl revealed the fact that she with several of her fellow workers in a factory had entered into a suicide pact, preferring to die rather than work in the mills.

"We all wanted to die at our frame. We go to work at six in the morning and work until 6 at night. We have no time to play. Little Bertha cries and says she would rather die than work in the mills. We would die."

What a tragedy of childhood! Without the power of self-analysis these children did not fully realize perhaps that under the depressing and monotonous labor of the mill both their bodies and brains were being stunted, but they did realize they were miserable.

They did realize they were being cheated of their birthright—the right of self-development, the right to education, to recreation, to play.

They did realize that because of the long and grueling hours of labor in the insalubrious factory with its nerve-racking noises they were losing the best years of their lives.

Their parents! It is sorrowful to record that in many cases of this character the parents are to blame, dividing with the greedy mill operators the responsibility for conditions as they are.

"But," say certain legislators—"I worked on the farm as a child and I had to reach up for the plow handles. It is good for children that they should work."

Yes, but working in the open air and sunlight is one thing; working in the dust and grime of a stifling mill atmosphere is quite another.

We are proud of the fact that we are a working people.

Nearly all our great men as boys were poor and worked hard.

But none of them worked under the conditions of our modern child slaves—in a stifling factory at opening the gates of the dark mine, or standing over the "breakers," laboring that change boys and girls precariously into old men and women, ground by soul-grinding into human waste.

There is more than one sort of white slavery.

Alma Whaley preached a powerful sermon against child labor when she held, how these miserable preferred death.

LINGERIE NOTES.

Empire Design Favored For Nightgowns—Lace Used.

The lingerie stores here are crowded with the latest nightgowns, which are made of fine, soft, and smooth materials, and are decorated with lace and other designs.

The petticoats this season are free from trimming. They are fitted as smoothly as possible over the hips and down to the top of the deep flounce, which is usually of embroidery or trimmed with rows of lace insertion edged with a Valenciennes ruffle.

Irish and other laces are the varieties seen on the handsomest lingerie models, combined with hand embroidery.

A lovely set of lingerie, imported from Paris for a fall trade is covered with eyelet work. All the edges are worked in the embroidered scallops.

What a tragedy of childhood! Without the power of self-analysis these children did not fully realize perhaps that under the depressing and monotonous labor of the mill both their bodies and brains were being stunted, but they did realize they were miserable.

They did realize they were being cheated of their birthright—the right of self-development, the right to education, to recreation, to play.

They did realize that because of the long and grueling hours of labor in the insalubrious factory with its nerve-racking noises they were losing the best years of their lives.

Their parents! It is sorrowful to record that in many cases of this character the parents are to blame, dividing with the greedy mill operators the responsibility for conditions as they are.

"But," say certain legislators—"I worked on the farm as a child and I had to reach up for the plow handles. It is good for children that they should work."

There is more than one sort of white slavery.

Alma Whaley preached a powerful sermon against child labor when she held, how these miserable preferred death.

Daddy's Bedtime Story—The Frog and The Mouse.

It had rained and had been a bad day for Jack and Evelyn. Moping about the house had a bad effect upon their tempers. As a result, when daddy came home he did not hear a very good account of their good night story.

"How very silly," cried the frog. "Any one can see that, being a frog, of course I am a much cleverer person. I am nearly always right."

"The water snake herself, being really clever, only smiled at each of them in turn. 'This simpleton,' said she to herself. 'This will give me a good laugh all to ourselves.'"

"So the water snake tried hard to look very meek and humble, and the little frog and the little mouse, if they had not been so altogether stupid, would have been warned by choosing a longer spear than he carried.

"I am afraid the question as to which of you two very clever gentlemen is the cleverer is quite beyond a poor little snake like me. Of course it's only a silly idea on my part, but why don't you fight it out between yourselves?"

"Don't," cried the frog and the mouse in a breath. "We can fight it out this evening on that hillock on the edge of the swamp."

"Well, they did try to fight it out with baldricks for spears and the hawk as umpire."

"The first time the frog bowed over the mouse the hawk called time. The mouse charged the frog with making an unfair thrust, and the frog said that the mouse had cheated by choosing a longer spear than he carried."

"The hawk, who had been chosen umpire on the advice of the water snake, became so disgusted with their quarrelling that he swooped down and ended the duel by making a meal of both of them. So the clever water snake and her children did get the marsh to themselves."

PLAY THE GAME.

Shouldn't call on you today? Business matters, did you say? Take a break, then, that's the way. Play the game!

Watered stocks have sprung a leak. And good things are getting scarce. But don't lose your head and neck. Play the game!

Though your bank won't loan a cent. Though your purse money's spent. Play the game!

Knows the time to elch your grip. And to stiffen up your lip. If you value your life, Play the game!

How it seemed.

"She looks like thirty years."

"Yes, but she talks like sixty."

Scenes Higher.

For ways that were dark and for tricks that were vain.

The weather-chance was the chap. But one sure acquaintance has made it.

The heroes are held by the Jan.

Wanted a Change.

"I suppose you are talking along the latest fad?"

"No," said the book reviewer wearily. "I'm not."

"Would a blacksmith shoe horses on his vacation?"

Reports continue that the waters of the Great Salt Lake, in Utah, are gradually sinking. This means to hear of the theory of many scientists that the lake is but a "shrunken river" of a vastly larger body of acid water that at one time reached out to the northern and western borders of Utah and Colorado, forming a vast sea.

Mechanics.

UNDERGROUND WATERS.

Some Subsurface Basins Are Almost Chemically Pure.

Water is found in some amount in fact, from the lowest and most porous sands and gravels to the hardest slate and granite. The amount varies from the most trace chemically combined in the molecules of the rocks to immense reservoirs which supply wells flowing hundreds of thousands of gallons a day.

Some waters are so pure that a refined chemical analysis shows only minute traces of organic and mineral matter; others are so heavily charged with minerals or other impurities as to be unsuitable for use.

The slope of the surface at any point is one factor determining the amount of water absorbed by the ground. The direction and amount of slope also determine the form of the water table—that is, of the upper limit of saturation.

Except where the surface is flat the water table is generally not parallel with the surface. It is almost invariably farthest from the surface on the summits of hills and mountains and nearest to the surface in valleys and along the coast, reaching the surface in swamps and along rivers, lakes and beaches.

The surface of the water table is always in motion. Its higher portions flowing toward the lower outlets along rivers or the sea. This direction of flow explains why fresh water is usually found when a well is dug in a sandy beach. Geological Survey.

To Lock a Tenoned Joint.

A tenon placed in a blind mortise can be permanently fastened, when putting the joints together, by two wedges driven in the end grain of the wood. In some cases, where the wood to be used is very dry and brittle, it is

Humor and Philosophy.

BY BUNCEAN N. SMITH

The Difference.

The plea that mother used to mold "Wee wee" a delight. But when we stored them in the hold we had no regret. In those delightful days of yore most anything looked good. You can't be the appetite restore. You had when saving food.

You may not think that it is true. But only because you are so sure. Your wife can do a stunt or two in making the dough. Though like a fairy it may sound. It's but the truth to say. Your little wife can cook around. Your mother any day.

Perhaps at this you may be shocked. But think about your life. When round the restaurants you are hooked. Before you took your wife. It's true your stomach is not made. Of cast iron or steel. You ruined it, I am afraid. Before the look you see. And now you grieve at your plate. Though it is fit to feed a king. "Whose taste is up to date. Don't charge the failure up to her. Whatever you may do. To you at times it may occur. The trouble lies with you.

Careful.

"You say he is hard hearted. I don't think so."

"Why not?"

"The team came in his eyes when he heard that pathetic story yesterday."

"But you must remember that it didn't cost him anything to listen to it."

Too Worried.

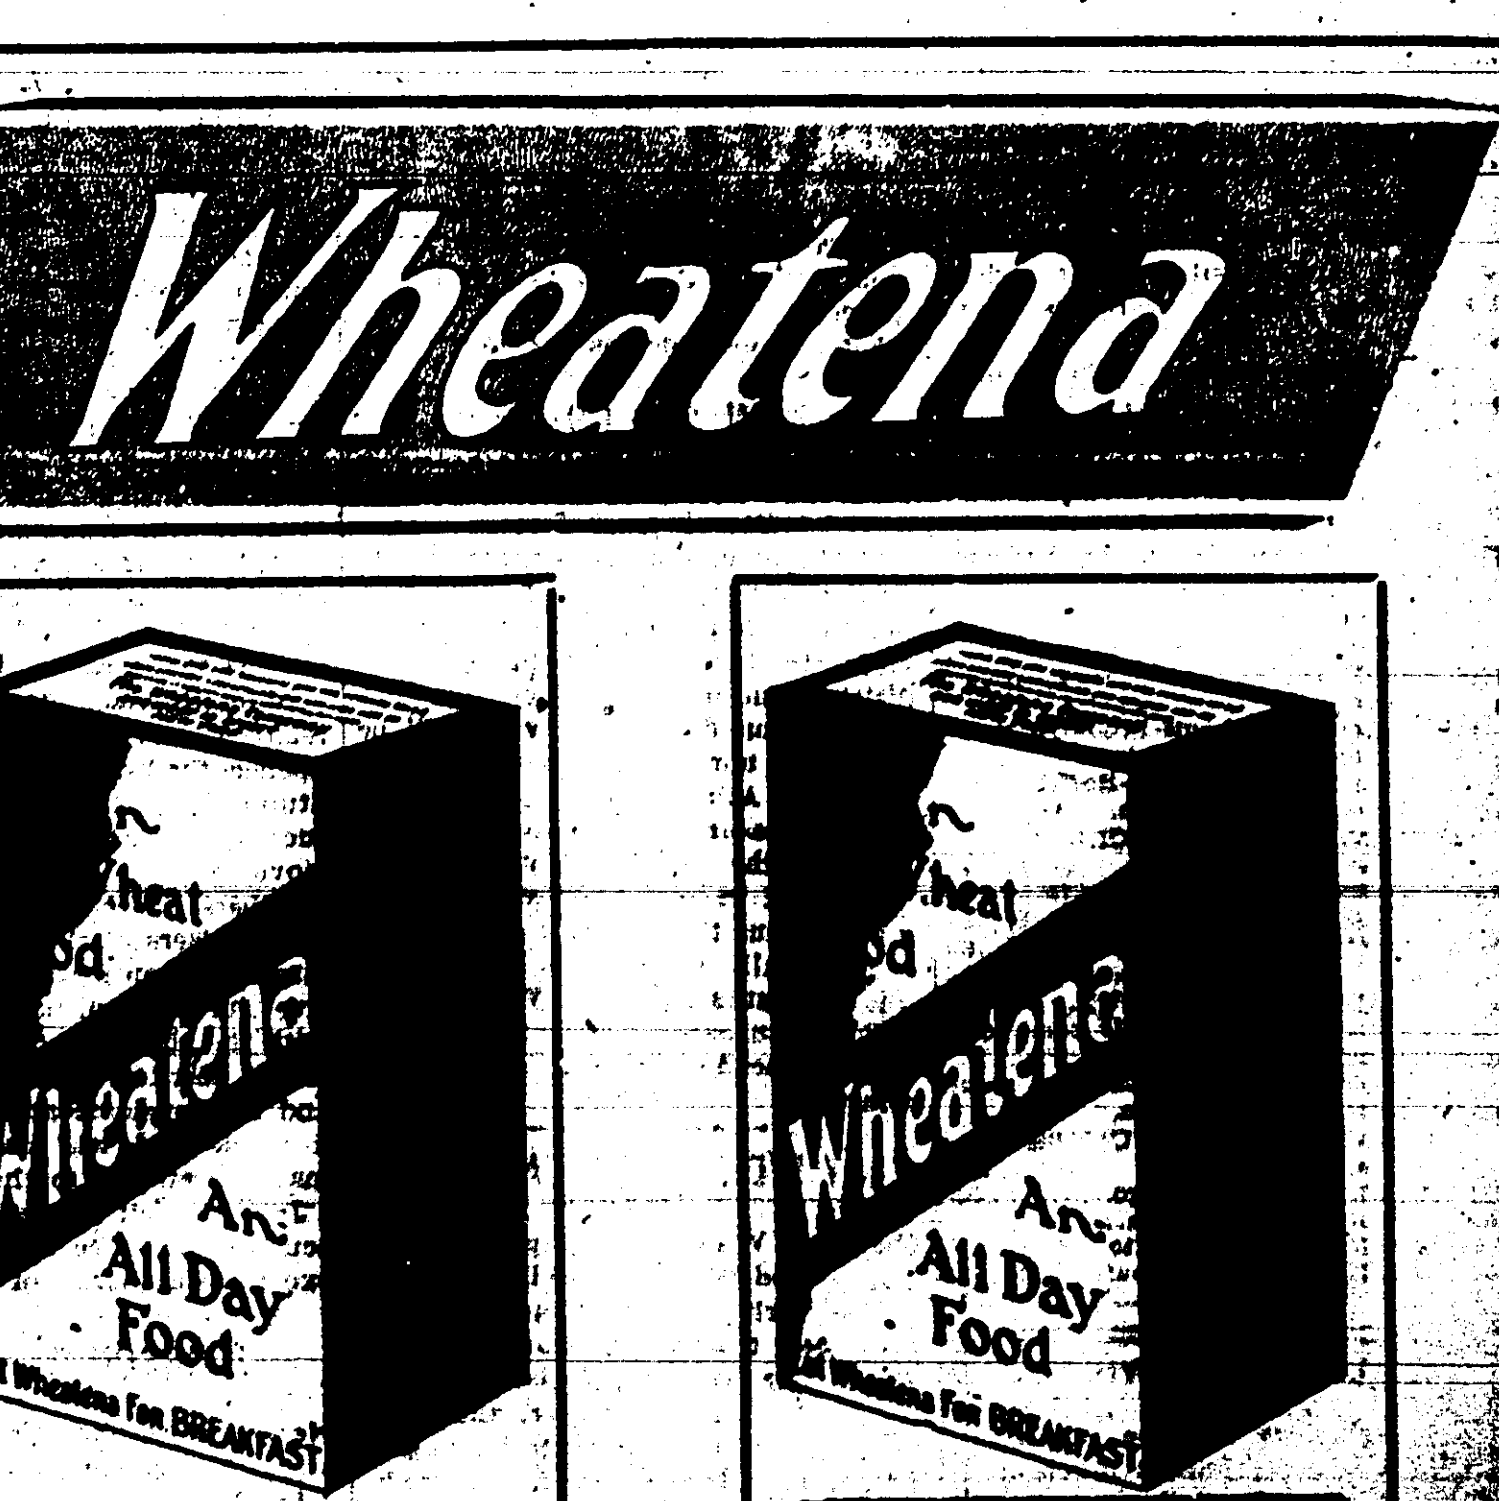

"The men behind the guns captivate the girls."

"Yes; but the men don't care so much."

"For what?"

"For the girls behind the powder."

Reports continue that the waters of the Great Salt Lake, in Utah, are gradually sinking. This means to hear of the theory of many scientists that the lake is but a "shrunken river" of a vastly larger body of acid water that at one time reached out to the northern and western borders of Utah and Colorado, forming a vast sea.

ITALY WINS FIRST BATTLE AT SEA

Three Turkish Ships Sunk Off Tripoli.

TURKS ABANDON COAST.

Garrison Has Withdrawn into the Interior—Ottoman Government Denies Report of Destruction of Their Fleet. Italy's Aggression Declared High-handed.

Italy has won a series of naval victories that have been hailed here. It is, however, impossible to credit them, and perhaps they are responsible for the Turkish fleet's abandonment of the coast. The Italian fleet, which was composed of three battleships, three cruisers, and three destroyers, was seen on the coast of Tripoli on the morning of the 27th. The Turkish fleet, which was composed of three battleships, three cruisers, and three destroyers, was seen on the coast of Tripoli on the morning of the 27th. PRETTIEST THING In My Home

is a Macey Book Cabinet

To surround your children with furniture by the cultured people. It is like living with cultured people. Why not one of the new Macey Book Cabinets in your home—the only sectional bookcases made which express the genius of the most noted old furniture craftsmen? Shenton, Chippendale, Robert Adam and Fra Juniper were as great in furniture art as Shakespeare in literature or Michael Angelo in painting.

Why not a Macey Book Cabinet to inspire ambition and refined ideas of taste in your children? Never to be lost again throughout all the days of their lives. Why not—indeed! But do you know it has taken years to bring this about?

The new Macey Book Cabinets retain every desirable feature of the Unit Idea. The result has been worked out so that unit sections can be added, taken away, or re-arranged without destroying their beauty. The doors never crack, and always open and close smoothly. A useful cabinet work now does away entirely with metal bands so you never think of the ordinary sectional bookcases when you see a Macey Book Cabinet.

Applying the Unit Idea to beautiful home furniture is the conception of M. O. H. L. Winkler, father of sectional bookcases. (His name is still used in the corporate title of a company concerned with which he has long since had no connection.)

Sold on easy terms if desired James McCollum 114-120 Main St., Rahway, N.J.

NO CONTEST OVER ELECTION OF FIRE DEPARTMENT HEAD

Uptown Endorses Downtown Candidates Without Restriction and Will March in Victor's Parade

ESTABLISH NEW PRECEDENT

For the first time in the history of the Rahway Fire Department absolute harmony prevailed at the annual convention and one set of candidates was elected.

The combined efforts of the two succeeded in extinguishing the flames that had spread to the work and the fire department. The fire department is now in a state of peace and harmony.
