**BOOKBINDERS SAID TO HAVE EFFECTED FAIR SETTLEMENT**  
Reported at One O'clock To-day That At A Conference This Morning An Agreement Had Been Reached

**STRIKERS CAN'T USE MONEY**  
Information Secured by International Slugs New York Locals From Paying Strike Benefits

Strike orders from the bookbinders headquarters in New York city had not been received at the local union headquarters on Elizabeth Avenue up to a late hour this morning. The men however said they expected to receive a message ordering a general walkout at any moment and were holding them selves in readiness to obey it.

According to a New York labor organ the Bookbinders League have conceded to the demands of the men and granted their demands. This is said to have been the result of a conference in New York city. This will not affect the local strikers, however, for Quinn and Boden of this city have said that though members of that league, it has not been decided to join the national union. There are still sixteen firms holding out against the demands of the men, and it is said they intend to fight them out.

There was little business of an important nature conducted at last night's meeting. In the absence of G. W. Crane, treasurer, who is living out of town, no treasurer's report was submitted. The meeting adjourned at an early hour.

Among the members present last night were H. L. Lamphier, president; J. P. Dunn, secretary; Robert Kinsey, Fred Miller, Thomas Holland, Frederick A. H. Griesmer, John McCoy, William Connolly, Francis Bailey and E. C. Fox.

It is claimed by the local strikers that Frost has played them a bad trick in securing this injunction for it ties up the funds of the society and prevents the payments of benefits. Gluckling, president of the union, also comes in for a share of the blame from the men.

The strikers are at sword's point with Frost, who they claim has been a stumbling block in the way of an early settlement. It has been said this injunction has served to hold the men up until enough Western men come to the aid of the strikers' place.

According to a report Anthony Farrell, a striker, was stabbed by a strikebreaker named T. J. Crowley in New York City while the striker was on picket duty last night. The account says that Farrell attempted to induce Crowley to join the strikers ranks and in a scuffle that followed, was stabbed once in the abdomen and once in the right arm. He was taken to an unassuming condition to St. Vincent's hospital. This report has not been confirmed.

It was reported to the Record shortly after 1 o'clock that the men and the competitive bosses had come to an agreement at a meeting held early this morning in New York. It has been impossible to verify this statement.

**LIBEL SUIT DEMURRED UP.**  
Charles H. Angeman, attorney representing James B. Furber in a libel suit for \$50,000 brought against him by A. Edward Woodruff, argued on a demurrer before Justice Bergen of the Supreme Court at Elizabeth this morning. The court heard the argument for the demurrer and reserved decision. Judge C. McKay Whittemore represented Mr. Woodruff.

**ODD FELLOWS ALL READY**  
Get Booths and Building Ready For Fair at Auditorium Monday Night

Members of Essex County Lodge No. 27 of the Independent Order of Odd Fellows were hard at work this morning at the Auditorium on Cherry Street building booths and decorating the building in preparation for the opening of the fair to be held there next week. The doors will be opened at eight o'clock on Monday night, and a week of activity has been planned. There will be something doing every minute, and an interesting program has been outlined by the committee.

The grand opening on Monday night will be "Bachelor's Night" and by wide advertising of this fact the committee expects to bring many hopeful young ladies to the fair. On Tuesday the American Mechanics will be entertained, and on Wednesday night the Rahway Lodge of Elks have been invited to attend. Special features will be provided for the ladies on Wednesday and Friday night the Pioneers will be entertained, and on the closing night the Knights of Pythias and the Pythian Sisters will visit the fair.

**NAME NEW FUND TRUSTEE**  
Firemen's Relief Association Elects George Helms Trustee to Office

At a regular meeting of the Firemen's Relief Association held in the Council chamber last night George Helms was elected to fill the vacancy on the Board of Trustees left by the resignation of Harry Simmons.

H. L. Lamphier, president of the association, was the chair. There was little business of an important nature conducted at last night's meeting. In the absence of G. W. Crane, treasurer, who is living out of town, no treasurer's report was submitted. The meeting adjourned at an early hour.

Among the members present last night were H. L. Lamphier, president; J. P. Dunn, secretary; Robert Kinsey, Fred Miller, Thomas Holland, Frederick A. H. Griesmer, John McCoy, William Connolly, Francis Bailey and E. C. Fox.

It is claimed by the local strikers that Frost has played them a bad trick in securing this injunction for it ties up the funds of the society and prevents the payments of benefits. Gluckling, president of the union, also comes in for a share of the blame from the men.

The strikers are at sword's point with Frost, who they claim has been a stumbling block in the way of an early settlement. It has been said this injunction has served to hold the men up until enough Western men come to the aid of the strikers' place.

**LIBEL SUIT DEMURRED UP.**  
Charles H. Angeman, attorney representing James B. Furber in a libel suit for \$50,000 brought against him by A. Edward Woodruff, argued on a demurrer before Justice Bergen of the Supreme Court at Elizabeth this morning. The court heard the argument for the demurrer and reserved decision. Judge C. McKay Whittemore represented Mr. Woodruff.

**Allied Building Trades Council Here Tomorrow**

At the Labor Hall on Cherry Street tomorrow afternoon at two o'clock delegates from all over the state will assemble for the quarterly conference of the Allied Building Trades Council. The Council is one of the most important events in labor circles in the state and Rahway will be the center of interest for the labor world of the state. It is made up of delegates from several of the cities in the state, one delegate from each city. There will be about twenty out-of-town men and a reception committee of the local Building Trades Alliance who will take part in the deliberations.

The delegates will report on conditions throughout the state, and will take action on several matters of great importance at this time. It is thought they will take some action toward aiding the defense fund of the McNamara brothers, who are in jail in Los Angeles, charged with blowing up the Times building in that city.

**NAME SPEAKERS FOR BIG "BOOST" MEETING**  
Prominent Plainfield Men Secured and Rahwayians Will Give Addresses

William M. Davis received word by telephone this morning from Judge U. H. Clark, secretary of the Plainfield Board of Trade, and George L. Babcock, president of the Board, that they will be present at the "boost" Rahway" meeting on Wednesday evening.

Judge Ulrich said this morning that the Board of Trade at Plainfield was watching with interest the progress of the local board and they would help them in any way they could. Both of these speakers have had considerable experience in like organizations and their advice and ideas will be of great interest.

There will be other impromptu speeches by local residents at the meeting. From present appearances a large crowd may be looked for. There have been many names added to the present roll of the "boosters" but a small proportion of those interested in the movement.

The committee urges every resident of this city to present himself at Bauer's Hall promptly at 8 o'clock on Wednesday evening. They want to impress upon the people that this is not a movement of the business men, but of all the people.

Great interest has been aroused in all sections of the city by this movement of the people. Women as well as men have stamped the seal of their approval upon it. Mrs. A. Edward Woodruff, formerly prominent in the improvement Association, is among those who have come out with in the last three or four days in favor of it.

Mr. Woodruff said to a representative of the Record that the general plan to better the city would undoubtedly be of great benefit. He commended the get-together plan and thought Arthur R. Wendell's idea to give a series of lectures illustrated with views of the city was an excellent one. She said she would do all in her power to help the cause along and other prominent ladies of the city are also interested.

**DOCTORED FOR ROOSTER BITE.**  
Paterson, Oct. 5.—Seymour Schaeffer, of Barclay Street, has the distinction of being the only man in the city to be treated at a local hospital for a rooster bite. His injuries are not serious, but it is always well enough to make precautions in such cases. Hence his appearance at St. Joseph's hospital.

As was the domestication of a back-rooster that was to be kept in the trouble. This rooster had lived single so long that he had become set in his ways, and his chuck was low in his pocket. After a while he was caught by the wife of a widower and was taken into the family circle in the rear of Schaeffer's residence. After a while an egg-seller broke, and there was never a more proud father in heaven. He ruled and strutted as only the parent of an only child can, and after a time all of his friends had important engagements when he began to chuck about the doing of his lone child. Yesterday Mr. Schaeffer took a friend out to see the chick and the rooster became important. Finally the owner stooped over and picked up the chicken. That was a signal for war, and immediately the rooster flew at Mr. Schaeffer. He nipped a piece from Mr. Schaeffer's hand, and at the same time sank a spur in one of his master's ankles. Pain followed, and while there was no precedent for the treatment of such injuries, Mr. Schaeffer thought it wise to take all necessary precautions. After being treated at St. Joseph's hospital he was allowed to go home.

**WM. MARTIN VS. CITY AT SUPREME COURT NOVEMBER SESSION**  
City Attorney Secures Stay in Suit Brought by Former Councilman For Reinstatement

City Attorney Secures Stay in Suit Brought by Former Councilman For Reinstatement

**DOBBINS SCORED BY JUDGE**  
Judge Kallach Arraigns City Attorney For Failure in Trying Case He Had Advised Against Once

Objection was filed this morning by City Attorney Dobbins representing the city in the case of William S. Martin for reinstatement in Common Council on technical grounds. Mr. Dobbins said the case should be tried before a branch of the Supreme Court and that it was not properly before Judge Kallach. Judge Kallach sustained the objection and it will be heard before the Supreme Court at its November term.

In his argument Justice Kallach scored the City Attorney. The Court remarked that the position was a peculiar one for Dobbins to take in defending his clients in a matter upon which he had already advised them they were wrong.

This came after John A. Bernhardt, counsel for Mr. Martin, had read a copy of the City Attorney's letter to the Common Council advising that body they were wrong from legal standpoint in compelling former Councilman Martin to vacate his position. It will be remembered that Mr. Martin was voted out of the council on the ground that he had removed from the ward which he represented. The Councilmen took the action after receiving an opinion from the city attorney on the legality of the action.

Mr. Martin refused to be put out without at least a fight and immediately started legal action to compel the councilmen to reinstate him. The trial and preliminary hearings before the commissioners of the Supreme Court in Newark were held during the months of August and September. Nearly every city official at one time or another was subpoenaed to appear before the Commissioner during those months.

It now looks as though the trial would drag along well towards the end of the year. There are three branches of the Supreme Court at Elizabeth and it has not been decided which one of them will hear the case.

**DEATH CAUSED BY SPLINTER.**  
Plainfield, Oct. 5.—Tetanus, following the running of a splinter into his hand, caused the death last night of a young man, 17 years old, a son of Mr. and Mrs. C. R. Melick. The victim was a member of the Plainfield High School. Although the victim experienced pain for several days, the seriousness of the attack became apparent only a few hours before death came.

The youth was splitting wood three weeks ago, when a splinter entered the palm of his right hand. It was extracted by a physician. Yesterday Mayor complained that his leg felt stiff. Dr. Woodruff was called and used extreme measures to counteract the disease.

Lengthy funeral services were held for the young man last night. He was buried in the cemetery at Plainfield. The body was taken to Newark for burial.

**HAS RATTLEBANE FOR PET.**  
Herron, Oct. 5.—A pair of tame rattlebans, which had been in the possession of Dr. Whitfield Gray, a member of the State Board of Veterinary Examiners, have, for two months, been shipped to the Bronx Zoo. Yesterday by the owner, who pocketed them, and in the possession of a lady, who had not overtaken them, were found. The rattlebans were found in a box with a glass cover in the basement of the owner. The owner had not overtaken them, and the rattlebans were found in a box with a glass cover in the basement of the owner.

## GREAT MAP FACTORY.

Geological Survey Turns Out an Enormous Number.

The geological mapping and establishment in the country at present is the United States Geological Survey, in constructing the huge topographic and geologic maps of the United States every detail of the work is done by the survey, from the work of the topographers who make the maps in the field down through the various stages of drafting, lettering, editing, engraving and printing, into the finished, colored maps. There is practically no complication about the geological survey maps. They are based on surveys made on ground, and the work consists simply in putting them into form for issuance to the public. They depict most strikingly the characteristics of the areas surveyed.

Every year with the coming of the open field, season numerous survey parties hurry away from the Washington office to the four quarters of the United States, as well as to Alaska, and the most important work done is the topographic and geologic mapping of tens of thousands of square miles of new ground, and the work is the most forbidding swamps and mountains to the loftiest of the glacier covered mountains of the Rockies and the high sierras and including the most valuable mineral deposits of the nation.

While these parties are thus traversing the wilderness, making the survey, engraving, and printing plant throughout the summer, as far back through the year is turning out hundreds of thousands of copies of the results of the previous year's field work. In a single midsummer month this year the survey has printed 1,500 copies of each map, 6,540 geologic folios, each containing many maps, and 111,700 copies of other geological maps, charts, and plates in its own name, a great number of maps are also printed by the survey engraving division for other branches and departments of the government.

## ANNUAL SCARE.

WF had our corn for nothing.  
The slow-released-to-droop.  
Experts inform us we will have.  
A badly, bumper crop.  
July farmers told us  
A lightning drought had hit  
All growing vegetation.  
And warned us to do it.

There was no use in talking.  
There wasn't any wheat.  
The corn would be a failure,  
And then what would we eat  
And everything was wasted  
They said, with these rains.  
Late rains might save some seeds  
Your picture would be fine.

But now how do we find it  
Since full reports are needed  
We'll have enough for eating  
And for the report books.  
Just shy a few potatoes.  
But by the other lines  
We will have more than plenty,  
According to the signs.

And that is always happen.  
The fearful rains are in.  
Position now is a dilemma  
Before returns are in.  
But shadow or another  
The average every year  
Keeps (worrying with consumption,  
And that's how men in here

## KILLS WIFE AND SELF IN QUARREL

Double Tragedy In Front of Mother-in-law's Home.

### COUPLE SEPARATED MONTH

Bridgeton Woman Had Returned to That Town to Force Husband to Contribute to Her Support—Police Had Warrant for His Arrest at Time of Shooting.

Bridgeton, N. J., Oct. 7.—Walter Peterson, a glassworker, twenty-six years old, shot and killed his wife and then himself, in North Laurel street here.

Peterson and his wife had been living apart since his arrest last month on a charge of assault. He was released after the grand jury failed to return an indictment, but Mrs. Peterson took their two children and went to Gloucester. She returned to Bridgeton for the purpose of making Peterson contribute to her support.

After she had consulted the overcoat for the poor, Robert F. Ayers, her husband, met her on the street. They were together for some time, but when she reached an amiable agreement as they started down the street together. Then the argument broke out afresh. Peterson appeared to be speaking angrily and his wife was seen to give him a push and run from him toward the city hall.

She went to the office of Mayor Hamilton and swore out a warrant for the arrest of her husband, charging him with abuse. Peterson went immediately to the home of his mother-in-law, Mrs. John Carr, and stood on the steps. When his wife approached he went up to her and said something, which caused her to push him aside. She evidently contemplated a dash for her mother's home, but Peterson, as he wheeled around, drew a revolver and at close range, sent a bullet into the left side of her head. As she fell he turned the weapon on himself and put a bullet in his own forehead.

Volcanoes, Ga., with the warrant for Peterson's arrest, was leaving the city hall when the shot rang out. He ran up and found husband and wife lying dead side by side.

### TAKE THIRD HUSBAND.

Other Two Adventures of Newark Woman Resulted in Divorces.

Newark, Oct. 7.—After losing two husbands by divorce Mrs. Ben Wright, forty-one years old, accompanied William C. Smith, eighteen years younger, of West Orange, to the marriage license bureau at city hall, where they took out the papers for their marriage.

Mrs. Wright's blushing third husband gave his occupation as "civil engineer" and said he was born in Troy. He further admitted that this was his third attempt at matrimony.

The bride to be said she was a musician and a teacher's daughter—by birth, her father being the Rev. J. Franklin Wright of Syracuse, N. Y.

Her first husband, Howard H. Lewis, she divorced in White Plains on Sept. 14, 1907. Her second, John M. White, she divorced in New Rochelle on July 17, 1911.

### COURT IS ACCOMMODATING.

South Orange Judge Changes Hours to Please Speeders.

South Orange, N. J., Oct. 7.—"It's punishment enough when I fine auto motorists \$10.00," said Police Justice J. Martin of South Orange, "and I don't want them to lose time from their business. For that reason, I have changed the court hour from 10 o'clock in the morning to 9 o'clock.

Bankers, brokers and business men of New York who have to appear for trial for violation of the automobile law lose half a day as it is now."

Mr. Rover never goes higher in the fine than \$10.00.

### QUICK DIVORCE SUIT.

Woman Files Papers Three Days After Alleged Cause.

Trenton, N. J., Oct. 7.—One of the quickest divorce suits ever brought in this state was that of Clara B. Taylor, wife of William T. Taylor, who filed papers here.

The alleged cause, which the plaintiff stated occurred Tuesday, and which took only three days for the wife to make up her mind to sue for divorce and the papers. Taylor is a prominent business man and son of the late Senator John Taylor.

### 2,000 VEHICLES IN PARADE.

Industrial Pageant of Jersey City.

Jersey City, N. J., Oct. 7.—The second industrial parade in the history of the Jersey City Board of Trade was made here in the Boulevard. There were about 2,000 vehicles, the most of which were motor cars.

Automobiles led the procession, and all of the important trades in the city were represented.

### RICHARD CROKER.

Former Tammany Leader Who Is Returning to United States.

### CROKER COMING SOON.

Former Tammany Chief Will Spend Winter in New York.

Boston, Oct. 7.—According to Richard Croker, 72, who reached Boston with his wife on board the steamship Arcturion of the White Star line from Liverpool and Queenstown, his father is coming to New York next month to remain all the winter.

Mr. and Mrs. Croker have been making a general tour and spent some time with the elder Mr. Croker at his estate in Ireland. They were on board the Olympic when she was in collision with the Hawkey.

Mr. and Mrs. Croker have been making a general tour and spent some time with the elder Mr. Croker at his estate in Ireland. They were on board the Olympic when she was in collision with the Hawkey.

## HOLD COUPLE FOR MANY FORGERIES

Girl Posed as Heiress From Pittsburgh.

### SAID TO HAVE CONFESSED

Pinkerton Operatives Arrest Man Claiming to Be Brother of Artist Christy For Floating Bad Checks on Hotels in Different Parts of Country.

Bridgeport, Conn., Oct. 6.—"If you tell a man you are on his heels he will tell you over himself to make sure of you, whether he is wealthy or not. There is some sort of strange fascination for men in the word 'heir,' especially if you are possibly good looking."

This bit of philosophy was voiced by Miss Alice Black, nineteen, and certainly "musically good looking" who was arrested here in company with a man. They were charged with negotiating a forged check on a bank in New Orleans.

The young woman, according to the Pinkerton detectives who pursued her around the country, posed as Alice Pullman, a relative of a Pittsburgh millionaire and connected with the Pullman line of railway cars. The man who was with her represented himself, they say, as F. A. Christy, a cousin of Edward Chandler Christy, the artist coming to New York next month to remain all the winter.

Mr. and Mrs. Christy have been making a general tour and spent some time with the elder Mr. Christy at his estate in Ireland. They were on board the Olympic when she was in collision with the Hawkey.

## ADVENTURE!

BY JACK LONDON

From the South Sea Islands comes a Romance that will set your nerves attingling. Think of a tale from the land of Robert Louis Stevenson combining the charm and mystery of Stevenson with the power and dash of Jack London. Such is "Adventure."

## A Great Author's Greatest Story

We congratulate ourselves that we have been able to secure this noted serial for publication in this paper.

## Used By All Business and Professional Men of Union County Tells How You Pay

As every man's credit record is of almost importance to him, we wish to give every citizen ample notice that they are being rated—prompt pay, fair pay, slow pay and no pay, according to the way they pay their doctor, dentist, grocer, butcher, baker, coal man, rent man, milk man and everyone who extends them credit. As this book is used by all business and professional men of Union County as their guide in extending credit, we trust you will find it to your own interest to call on anyone to whom you may owe money and pay up. If you can't pay all—pay as much as you can so they can give you as good rating as possible.

## The Credit Experience Guide Tells How Everybody Pays

Give It Your Support by Becoming a Member of the Business Men's Association of Elizabeth or Plainfield.

### You Derive The Following Benefits Thereby:

You receive THE CREDIT EXPERIENCE GUIDE containing the Ledger experiences of 500 business men of Union County, which is equivalent to the gathering of the Ledgers of all these firms and placing a copy of each in the office of every member without divulging owner of any.

You get a supplement every 60 days giving you the name and address of all delinquent credit buyers, the number of accounts each owe, the amount of each and the amount paid on each account each 60 days, without making known to whom the account is owed.

You get the united action of all business men to protect each other in the granting of credit.

You get the co-operation of all business men on all subjects for their mutual benefit.

You get the best Directory of your county ever published, giving the names, occupation, address and their credit standing.

You establish a reason in the minds of everyone why they should take care of their credit.

By concerted action you get the best collecting medium ever established anywhere for collecting delinquent accounts and you do it yourselves.

You get all the above and much more for a very little more than the cost of an ordinary directory.

There are only two classes of business men—First, those who support this system. Second, those who do not understand it. There is absolutely not a system in existence that can be compared with this one. It is so far ahead of all others that there is nothing similar. Be sure to investigate it, and do it today.

The Man Who Knows

the difference between fine laundry work and ordinary laundrywork will appreciate the work we are doing. Our work will please the most fastidious dresser because it is starched, dried and ironed in such a shape that it will fit just as the maker intended. The open front and necktie shirts are ironed so that the buttons and button holes match perfectly. Our colored goods are washed with soap which will not fade any color that will stand cold water.

We want fastidious people to try our work. It will speak for itself. Phone us or drop a card.
