

The Republican Platform Provides For:

Abolition of Grade Crossings without expense to municipalities.
Equalization of Tax Assessments.
Revision of State Statutes.
Substitution of the Indeterminate Franchise, or tenure during good behavior, for the present limited franchise act.

The Following Candidates Are Pledged To These Reforms

For Senator Carlton B. Pierce Of Cranford

Mr. Pierce is a native Jerseyman, born in Trenton in 1857, and a resident of Cranford for the last seventeen years, a graduate of Rutgers College, class of 1878, and the Albany Law School: a lawyer by profession.

He served in the Assembly for three years, 1908-1910, during which time he was identified with the Public Utilities legislation, and advocated giving the commission rate-making powers. He was identified with the Civil Service and Railroad Rehabilitation legislation, and was largely responsible for the enactment of these measures; he drafted both acts providing for a reorganization of railroad property for taxation purposes, which will bring to the State treasury a million and a quarter dollars annually in additional taxes from railroads, of which the school districts will receive \$400,000 and Union county \$60,000 for free education.

For Sheriff William H. Wright Of Rahway

In William H. Wright the Republican party presents a man qualified by years of experience to discharge the duties of the sheriff's office. He resigned from the position of Assistant Postmaster of Rahway after a service in the Rahway Postoffice of twenty-two years to become Deputy Sheriff and has charge of the detail and clerical work of the office during the term of Sheriff Kirkland.

For Coroner Dr. Moe Robinson Of Elizabeth

Doctor Moe Robinson was born in Elizabeth in 1884; was graduated from Public School No. 2, the Bathing High School and the New Jersey Preparatory School of New York, from which he entered the College of Physicians and Surgeons at Baltimore, Md., graduating in 1908.

He served one year as house physician of the Alcoholic Asylum Hospital and has been engaged successfully in the practice of his profession in Elizabeth since 1909.

R. R. ENGINEERS AND CONTRACTORS LOOK OVER TRACK PLANS

Secondary Located in Area in Which Tracks Are to Be Elevated Thoroughly Inspected

WILL AWARD CONTRACT SOON

The First Actual Work will Commence in a Few Weeks, and Laborers Will Soon Be Here

Engineers of the Pennsylvania Railroad Company and representatives of several of the contracting firms who are bidding on the work of elevating the tracks through this city arrived here yesterday morning and commenced an inspection of the territory in which the change is to be made. The rest of this week will be taken up with an examination of the topographical conditions of the country through which the road passes and it is expected that, within a short time the contract for part of the elevation will be awarded and the work will be started.

At the meeting of the Common Council to be held tonight at the City Hall the principal matter to be discussed will be the track elevation and it is expected representatives of the railroad will be present to report to the Council the progress of the work. A number of streets in this city will have to be closed while the work is going on and at the Council meeting resolutions will be introduced ordering the streets to be vacated.

For the past two weeks borings have been made by the railroad engineers and every foot of the ground over which the elevated tracks will pass has been carefully tested. Borings have been made in the Rahway river where it passes under the tracks, and one of the first things to be done by the railroad will be the sinking of the concrete foundations for the supports of the bridge which will span the river.

All of the buildings owned by the railroad, and which have been occupied for some time past by tenants now vacant, and will be torn down in a short time. It is believed the first buildings to be destroyed are those near the steel works south of the railroad station. As far as can be learned the first construction will start at that point and will gradually work north. The railroad station will be left intact as long as possible but it is expected there will be many changes made from time to time as the construction work progresses.

According to the present plan it is said one track will be elevated at a time and this track will be opened for traffic long before the complete system is ready. It is not known definitely whether the track to be elevated will be the track going into New York City or the outbound track, but from all indications it would seem as though the inbound track would be the first completed. This will mean that the construction will very likely start on the east side of the tracks, and that traffic through the city will be very little disturbed during the progress of the work.

It is thought the first lot of employees who will take part in the work will arrive in this city early next week, and a few weeks later the first gang of laborers to start on the actual construction work will be here.

The engineering inspection today was in the vicinity of the steel works, and near the Morris property. From now it is probable that the inspection will be made north of the station.

BOLAND IN LONG FLIGHT

Gone Twelve Miles Without Mishap in Machine With New Device

Frank C. Boland, the well known aviator of this city, achieved signal success with his new steering and elevating device at Hempstead Plains on Sunday afternoon. He made a twelve mile flight going at the rate of more than a mile a minute, and landed gracefully in the center of the course. As he reached the ground Boland was surrounded by a crowd of admiring brother aviators, and he was congratulated on his daring and skill, and the success of the new device on which he has been working for a few years.

Assisted by Captain Baldwin, J. Starnes of the Mount School of Aviators, and Kimball, of the Fairchild school, Boland prepared his machine for its first test run. He tested his places and engine by a few short flights he glided into the air, and smoothly and rapidly rose a few hundred feet into the air. The course was a three mile circuit and the aviator circled it four times without the slightest difficulty. His descent to earth was perfect. He swooped down and skinned along the earth with scarcely a jar. Boland was very high in the air, a few days, and he will, he assisted by his brother Joseph, who built the motor of the aeroplane.

At the meeting of the Common Council to be held tonight at the City Hall the principal matter to be discussed will be the track elevation and it is expected representatives of the railroad will be present to report to the Council the progress of the work. A number of streets in this city will have to be closed while the work is going on and at the Council meeting resolutions will be introduced ordering the streets to be vacated.

MADERO TAKES OATH AS PRESIDENT OF MEXICO

Before Congress Late Rebel Leader Is Inaugurated.

City of Mexico, Nov. 6.—General Madero took the oath as president of the republic at 11 o'clock this morning, before congress assembled in joint session in the chamber of deputies. "Senor Madero, president of the chamber, administered the oath.

Through double lines of troops along the entire distance of eight blocks the new president was driven from the chamber of the National palace, where he was received by the provisional president, Senor de la Barra, and the cabinet.

President Madero, immediately after taking office, received the diplomatic corps and afterward committees from the government departments and civic organizations. At 1 o'clock this afternoon the new cabinet will take the oath.

More arrests have been made in connection with a plot to start a counter revolution; it being alleged that it was planned to overthrow the power Senor Don Manuel Vasquez Gomez, now in San Antonio. The secret police and court officials are reticent and little information is given as to the ramifications of the alleged conspiracy.

MAN DEAD, WOMAN DYING.

Chicago, Nov. 6.—A man dead and a woman dying from bullet wounds are the toll of a love tragedy, with several mysterious elements pertaining to the death, which took place in the city of Chicago, creating a panic among a score of guests in the place and to neighboring hospitals.

The dead man is believed to be W. J. O'Connell, an actor from New Orleans, who was staying at the hotel Hotel Belmont. The woman, who is now dying, is Mrs. M. B. Atwood, who was registered there on Oct. 30. She is at the point of death at St. Luke's hospital from a bullet wound in her throat, and she is now lying in a room occupied by O'Connell. He was found lying on the floor dead, and the woman was lying on the floor with a bullet wound in her chest.

Marriage Is Merely an Experiment. Husbands Worse, but Women Are to Blame

By EVA BOOTH, Commander of Salvation Army in U. S.

MARRIAGE, THAT HOLIEST OF INSTITUTIONS, IS GETTING IN THESE DAYS TO BE MERELY AN EXPERIMENT IN THIS COUNTRY.

The modern woman in order to be up to date abandons much of that which is to be most prized in her own soul and which she has known it, is certain to be most admired by others, even by the deeper and better part of the most worldly.

NOTHERHOOD as we once knew it and as it should be known is now a rarity, and so the children suffer. WIFEHOOD as we once knew it and as it should be known seems almost no longer to exist. The HOME in every detail suffers, and the home is the FOUNDATION OF SOCIETY.

There is no home, too often, in this country for the children or the husband or, as far as that goes, for the wife. Add NATURALITY, the husband is suffering. It is less his fault, for the PRESERVATION OF HOME LIFE, the transformation of the home into a place in which he WILL BE GLAD TO STAY, is part of woman's duty.

A Commission for the Trusts Best Plan to Correct Evils

Photo by American Press Association. By GEORGE W. PERKINS, Financial Editor.

ATTEMPT TO SWEEP THE COUNTRY BACK INTO THE OLD ERA OF RUTHLESS COMPETITION, WHICH WOULD BE THE DIRECT CONSEQUENCE OF A VIGOROUS ENFORCEMENT OF THE SHERMAN LAW, AND THERE WILL RETURN THE EVILS OF DECEIT AND FRAUD IN BUSINESS, VOLUNTARY FLUCTUATIONS IN PRICES, THE DELIBERATE DRIVING TO THE WALL OF WEAK CONCERNS AND THE EVENTUAL CREATION OF MONOPOLIES BY SURVIVORS.

We have had commissions appointed that are now investigating how railroads should be capitalized in order to prevent stock watering schemes. We have had a commission appointed to investigate the postal rates. We have had a commission appointed to investigate and report on the tariff, and on all three of these great and important business questions judgment is being suspended, and action is not to be taken until these commissions have reported.

In view of all that has happened why cannot a commission be appointed in the SAME WAY for the SAME PURPOSE in connection with our great industrial agencies of trade?

In short, a system by which PUBLICITY, full, frank and complete, could be had from the proper source will of itself eradicate a very large part of all our trouble and at the same time preserve for our people the ENORMOUS ASSET that they have in the efficiency of these great interstate and international agencies of trade that have been built up after such a struggle and in order to meet the conditions brought about by the great revolution that has taken place in the last quarter of a century.

Revolution Portends End of Chinese Empire

By Rear Admiral ROBERT D. EVANS, U. S. N., Retired

THE revolution in China, whether successful or not, is liable to involve the powers in a conflict, proposed peace treaties notwithstanding. It is probable that this revolution will prove to be the BEGINNING OF THE END OF THE CHINESE EMPIRE, just as the taking of Tripoli by Italy is all probability the beginning of the end of the Ottoman empire.

I think that England WHILE BOON RECENT the interference with her trade in China and with the Chinese authorities if they don't stop making trouble for her market place that she will stop it.

The United States does not want to fight China or any one else for that matter, but if Uncle Sam's boys are shown disrespect the Chinese may be called upon to change their tactics. AND CHANGE THEM QUICK. Then there are Germany, Japan and Russia with interests in the Orient.

The Japanese, unlike the Chinese, understand the meaning of patriotism. The Chinese in Hankow have indignantly refused to acknowledge their brother in Peking. There is little or no NATIONAL SPIRIT in China. I believe the revolution will fail for this very reason.

he House of the Whispering Pines

CHAPTER VI

It was a strange thing that happened to the house of the whispering pines. The house was a large, old, white, two-story house with a red roof and a white picket fence. It was situated on a hillside, and the pines were very tall and thin, and they whispered to each other in a low, soft voice.

The house was built by a man named John. He was a very rich man, and he had a lot of money. He had a lot of children, and they were all very beautiful. He had a lot of servants, and they were all very good. He had a lot of friends, and they were all very good.

he House of the Whispering Pines

CHAPTER VI

It was a strange thing that happened to the house of the whispering pines. The house was a large, old, white, two-story house with a red roof and a white picket fence. It was situated on a hillside, and the pines were very tall and thin, and they whispered to each other in a low, soft voice.

The house was built by a man named John. He was a very rich man, and he had a lot of money. He had a lot of children, and they were all very beautiful. He had a lot of servants, and they were all very good. He had a lot of friends, and they were all very good.

SILVER SERVICE FOR UTAH

Governor Spry Presents Gift of State to Battlement.
New York, Nov. 7.—The prolonged contention relative to the right of the people of Utah to follow their own preference in designing a silver service for a United States battleship ended amicably in the compromise presentation of a set from which the objectionable features had been expunged. It was the battleship "Utah" that had been deprived of its silver service for so long because many organizations and individuals detected what they deemed too close a resemblance to Brigham Young, the Mormon elder, in the bearded figure that adorned the various pieces of the set.

The presentation committee, headed by Governor Spry, boarded the Utah with full military honors. After the preliminary formalities the service was presented by the governor of Utah to Captain W. S. Benson, representing the officers of the battleship. Utah was represented by a hundred of her citizens, exclusive of the "Tabernacle choir," a musical organization of 250 voices. The latter sang "Auld Lang Syne" and "I Love Utah."

MRS. GATES WEDS. AGAIN.

First Wife of Charles G. to Become Italian's Bride.
New York, Nov. 7.—A divorce was granted to Mrs. Mary Whelan Gates, who recently obtained a divorce from Charles G. Gates, son of the late John W. Gates. Mr. Gates gave his age as thirty-two years and Italy as his home. He is a brother of Adrian G. Miglietta, secretary of the Texas company, and is himself connected with that company. It is announced the marriage is to take place at Mrs. Gates' residence, 808 Park avenue.

Since she was granted a divorce Mrs. Gates has made her home in her apartments at Park avenue and San Francisco.

Friends of Mrs. Gates said that Mr. Miglietta will take her to Europe, where he spends most of his time.

STRANGER A SUICIDE.

Man, Evidently Traveler, Kills Self in New York Hotel.
New York, Nov. 7.—A man of apparent culture, who had arrived from Canada to Egypt, from Tokyo to London, as the stickers on his luggage bore witness, but of whose nothing was known by the authorities at the Hotel Astor, where he had been stopping, Stuart, San Francisco, was found dead with a bullet in his heart in his room on the fourth floor of the hotel. The body was found occupying a chair by a table next to the bed, which had not been disturbed. He had a dressing gown over his silk pajamas.

MAINE A DRY STATE.

Augusta, Me., Nov. 7.—It is announced at the clubhouse that the governor's council has decided after a long discussion that the special election held on Sept. 11 had resulted in constitutional prohibition being reaffirmed.

HUNTING KILL REPT.

Middlesex, N. Y., Nov. 7.—Christy Gibson, the twelve-year-old son of Jean Gibson, was accidentally shot and killed by William W. Vailbury while out with a party hunting rabbits.
