**PUBLISHED BY**  
Rahway Publishing Company

Union Hall Building 130 Irving Street  
RAHWAY, NEW JERSEY

B. ROLLINSON, President  
J. O. HAUSER, Sec. and Treas.

Entered as second-class matter September 1, 1911, at the post office at Rahway, New Jersey, under the Act of March 3, 1879.

**JOB PRINTING OF ALL KINDS**

WEDNESDAY, DECEMBER 13, 1934.

The increase in attendance at the free night school of nearly 50 per cent in the second week over the first is conclusive evidence that the new project is filling a decided demand.

There is no reason to doubt that the present enrollment will be considerably increased during the next few weeks as the work becomes better known, though not perhaps at such a large rate.

There are many things to be said for the night school, but one of the most important is that it provides the opportunity to study for those who know the value of study.

The child goes to school because it is so and because there is nothing else for it to do. Most of us remember that our early school days were not distinguished by any great feat on our part for knowledge.

Even when we get to the High School grades, the element of personal choice is not very strong. The parents who can afford to send their children to high school and the latter go to it all their life. But the great percentage of children do not go through high school and feel no sense of deprivation that they are not allowed to.

But when we come to consider a night school, we find a different state of affairs. Those who as children feel a sense of relief that their school days were over at the grammar grades stage, have been out in the world and have been nibbling elbows with it. The intervening years have sobered them; they now have come to the age of ambition, of wanting to get on in the world.

And they see on every side of them the man with the education getting ahead. They find themselves blocked, their further advancement checked by the fact that they are without the mental equipment to fill the position best higher.

These young men and young women, the school children of a few years ago, now know the value of a thorough education in dollars and cents and realization of the natural ambition of man to want to get to the top. They are in a position to know.

The city of Rahway, through the oversight of the members of the Board of Education, who possibly are somewhat indebted to the earlier efforts of Secretary Tompkins and the Y. M. C. A. officials, is now in a position to do its duty by these ambitious young men and women. They know the value of education, they know it is worth while to work for it, and they better equipment they intend to get will one day return to the advantage of the city. We believe the establish-

ment of this night school is one of the best signs of progress the city has seen, and would urge it for every possible kind of support.

**TO INSTALL REV. E. HERZOG**

Pastor Will be Formally Seated in German Lutheran Church Sunday

The installation of Rev. Eugene Herzog to the pastorate of the German Lutheran church in this city will take place on Sunday, December 15.

The ceremonies will be held at 7:30 p. m. and will be conducted by Rev. E. J. Fisher, who is President of the New Jersey ministerium, and will be assisted by Rev. Mr. Evans, pastor of the church in Kingswood.

The installation services will be of especial interest, and a cordial invitation is extended to all of the old Lutheran Germans following to be present.

In the afternoon Rev. Eugene Herzog, who has charge of the church in Carvers in addition to the church in Rahway, will be formally installed in the Carver church.

**DEATH OF ALBERT B. THORNE**

Albert B. Thorne, aged 42 years, died last evening after a lingering illness. Mr. Thorne is survived by one daughter, Hazel Thorne, who resides with her grandparents, Mr. and Mrs. J. M. Brookfield of Halsewood Ave.

Funeral services will be held Thursday evening at the convenience of the family, from the residence of James H. Brookfield of Halsewood Avenue. Rev. Charles C. Woodruff, pastor of the Trinity Methodist Church, will conduct the service and interment will take place in the Rahway cemetery. Mr. Thorne was well known in Rahway and has lived here most of his life.

**DECEASE OF LOUISE THOMAS**

Louise Thomas, an aged negro woman, died yesterday noon at the home of Mrs. Bonney in Haystack Street. The remains were taken to the undertaking establishment of John K. High in Irving Street, from which place the funeral will be held on Thursday afternoon at 2 o'clock.

Mrs. Thompson has been a resident of the city for many years, and has been indulgent for a long time, depending largely upon the charity of people in the vicinity of Haystack Street for food and shelter. So far as known, she was without a single relative in the world and was entirely without money, making the problem of her funeral expense a serious one.

**ELIZABETH STOCK COMPANY**

A stock company, it has been announced by F. F. Proctor, is shortly to be placed in the Third Street play house of this community. In Elizabeth's play that have been pronounced successful only will be presented and the plans call for the selection by Frederick Thompson, the manager, of a company of players of known ability.

The first play to be presented will be William Gillette's "Secret Service" and the opening date will be announced soon. Popular prices will prevail and subscription tickets for the season can be procured. Attention will be made in the theatre to fit the larger needs, and among them will be an enlargement of the clock room and the inauguration of a check room system similar to that in vogue in the largest theatres in the section.

**DENY CHEMICAL KILLED FISH**

Trenton, Dec. 12.—The State Board of Health issued another statement to the people of Trenton to-day relative to the typhoid epidemic threatening the city.

The investigation of dead fish in the reservoir had been attributed in some quarters to the presence of calcium hypochlorite, placed in the water by the board's order for the purpose of sterilization. The board says the chemical is not responsible for killing the fish. The statement says:

"The amount of hypochlorite now being added has apparently made it self perceptible in the water in certain sections of the city. The slight taste created is not an indication of the existence of materials injurious to the human stomach."

It is a fact that numbers of dead fish have appeared on the surface of the reservoir during the last two weeks. As evidence that the hypochlorite has not been responsible for the death of these fish, we would present the testimony of the reservoir attendants and members of the city water department, who report that dead fish occur in the reservoir each year at this season, the number this year being less than usual.

The Washington Athletic club has occupied its new clubhouse and taken in a few new members, among them being E. Price, the cycling and running expert, and R. Voorhes, the oarsman, and S. Larson, the swimmer. All were members of the former East Rahway Club.

**ROAD COMMISSIONER ACTIVE**  
Newark, Dec. 12.—Compliments of manufacturers and other users of the Plank road about almost impassable conditions are more than justified in the opinion of Colonel Edwin A. Stevens, which belongs to the road, made a trip over the driveway in an automobile last evening and got his views at first hand.

Most significant of the road conditions was the fact that it was so bad that it would be useless to attempt a permanent pavement of the Plank road for a year or more.

The colonel's first connection with Plank road matters came several months ago, when, under a special act he put an end to a dispute between Essex and Hudson counties as to the character of pavement to be used.

The colonel was the guest of a committee of the manufacturers whom he joined yesterday afternoon in the fight to remedy the situation. He was further convinced as to the advisability of legislation to follow a report he had submitted to the Legislature, looking to the taking over of certain roads under State supervision.

Although his determination in the old dispute over paving was that the north side of the road should be paved with wood block and the south side with granite, it developed yesterday that the colonel's advice was given reluctantly because of the enormous possibilities of the road or rather, the lack of them.

The commissioner declared that at the contact of his inquiry as to the pavement to be used, he cautioned the engineers of both counties that they were on rather unsafe ground. He told them, he added, that the only solution of the problem for the time being would be in the laying of a macadam road as a temporary driveway until a certain time to the road foundation could be established.

Further than to assure his hearers that he would hold whatever influence he might have with the freeholders of both counties, Colonel Stevens held out no hope of a permanent solution of the problem.

Heard of the problem for the time being would be in the laying of a macadam road as a temporary driveway until a certain time to the road foundation could be established.

Further than to assure his hearers that he would hold whatever influence he might have with the freeholders of both counties, Colonel Stevens held out no hope of a permanent solution of the problem.

**WINDY CITY FOR CONVENTION**  
Washington, Dec. 12.—The Republican national committee, in session here today, selected Chicago as the place for holding the national convention of 1912, and fixed June 14 as the date.

The executive committee went into session at 10 o'clock. The meeting of the full committee began at 11:30.

The committee at once accepted the resignation of Chairman Frank H. Hitchcock, dated March 5, 1909, and effective April 1, 1909. Former Gov. error John P. Hill, of Maine, was elected chairman by acclamation.

On motion of Mr. Roosevelt, of Nebraska, a standing vote of thanks was accorded Mr. Hitchcock. Mr. Brookner of Connecticut, nominated Mr. Hill and he was seconded by Mr. Murphy, of New Jersey.

The colonel was the guest of a committee of the manufacturers whom he joined yesterday afternoon in the fight to remedy the situation. He was further convinced as to the advisability of legislation to follow a report he had submitted to the Legislature, looking to the taking over of certain roads under State supervision.

Although his determination in the old dispute over paving was that the north side of the road should be paved with wood block and the south side with granite, it developed yesterday that the colonel's advice was given reluctantly because of the enormous possibilities of the road or rather, the lack of them.

The commissioner declared that at the contact of his inquiry as to the pavement to be used, he cautioned the engineers of both counties that they were on rather unsafe ground. He told them, he added, that the only solution of the problem for the time being would be in the laying of a macadam road as a temporary driveway until a certain time to the road foundation could be established.

**CYCLE RIDERS BREAK RECORD**  
Madison Square Garden, New York, Dec. 12.—Frequent reports today have carried the riders in the six-day bicycle race ahead of the record by several miles. While there are only fourteen teams remaining in the contest, and two are one lap behind the leaders, the race is proving decidedly more interesting than for several years.

The reason for this is that the general average of riders is above previous fields and they are, therefore, more evenly matched. The foreign contingent especially is better than "never four," replied Miss Henderson, "that I shall be taken in, whatever I do. I am twenty-five years old and a woman of twenty-five knows as much as she is ever going to know. I have out my wisdom teeth, I assure you."
