that can give you "All The News When It Is News" about your home city

A glance at any of the out-of-town papers will convince you that in them Rahway is only a side issue and they cannot afford to give space or time to treating its news adequately

We are not asking favors from anyone. But if you are interested in your home city, if you are a "booster" and not a "knocker," it is a decided advantage to you and a decided advantage to us. that you read the **Daily Record** every day.

We have set 2000 as the circulation mark to reach by Spring.

We want the people of Rahway to help us, not on the basis of "supporting a worthy activity"—though there is that aspect to it-but on the basis of value re-

And you get the value.

What It Has Done Already for Rahway Is Only a Circumstance to WHAT IT CAN AND WILL DO

You know it has an independent and progressive policy.

You know that since it has started hammering away at its "Boost Rahway" message, the chronic "town-knockers' have begun to see a new light.

You know that as a result of its presence, the tone of the city has become optimistic and we are ready to press onward to grasp the material prosperity and growth that lies just a ahead.

You know that you have a share in this movement of progress and that unless you do your share it cannot be a complete success.

You know that to keep in touch with t you must get the Rahway Daily **Record** every day, since the other local paper is against the movement and it would not be in the policy of out-of-town papers to exploit it.

The biggest and most successful newspaper enterprise that was ever undertaken in Rahway, one that is attracting favorable outside attention to the city. a big force for public good, wielded by a policy of ENERGY and OPTIMISM.

Fran Tukory, the wife of a well to

do Hungarian landowner, who is said to have a special talent for discovering minerals with a divining rod, describes in a Budapest newspaper the different sensations which she experiences. When searching for a lost wein of silver near a mine in Germany belonging to Professor Pfabl of Bonn university she says she felt violent twitchings in her right arm. This was a sign to her to turn to the right. and a few yards further on shooting nains in her arms and breathlessness told her that she was above the spot. The vein was found the next day near the surface. On the other hand, when she discovered petroleum in Hanover she had a feeling as if her head were being bound lightly with a cloth.
